Only your latest dated proxy will be counted. We urge you to disregard and not return any white proxy card sent to you by Starboard, even to vote against their nominees. Doing so may cancel your vote for our board’s nominees on the **GOLD** proxy card.

If you have questions about the proposals at this annual meeting or would like additional copies of the proxy materials, please contact MacKenzie Partners, Inc., which is assisting DSP Group at this year’s annual meeting, by email at proxy@mackenziepartners.com, or by phone at (800) 322-2885 (toll-free) or at (212) 929-5500.

PROXY STATEMENT
FOR 2013 ANNUAL MEETING OF STOCKHOLDERS

General Information

This proxy statement is furnished to the stockholders of DSP Group, Inc., a Delaware corporation, in connection with the solicitation by our board of directors of proxies in the accompanying form for use in voting at the annual meeting of stockholders to be held on June 10, 2013, at 10:00 a.m., local time, at the Le Parker Meridien, New York 119 W 56th St., New York City, New York, and any adjournment or postponement thereof. The shares represented by **GOLD** proxies received, properly marked, dated, executed and not revoked will be voted at the annual meeting.

Stockholder Nominees

On March 11, 2013, Starboard Value and Opportunity Master Fund Ltd (collectively with certain of their affiliates and related parties “Starboard”) delivered a letter to us nominating Michael Bornak, Norman J. Rice, III, Jeffrey C. Smith and/or Norman P. Taffe, as nominees (the “Starboard Nominees”) for election to our board of directors at this annual meeting. In the letter, Starboard stated that it believed the terms of three Class I directors currently serving on the board expire at this annual meeting, and, if this remains the case, Starboard would withdraw one of its Starboard Nominees. The Starboard Nominees have NOT been endorsed by our board of directors. **THE BOARD OF DIRECTORS URGES YOU NOT TO SIGN OR RETURN ANY WHITE PROXY CARD SENT TO YOU BY STARBOARD. THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE ELECTION OF EACH OF THE BOARD’S NOMINEES ON THE ENCLOSED GOLD PROXY CARD.**

We are not responsible for the accuracy of any information provided by or relating to Starboard contained in any proxy solicitation materials filed or disseminated by, or on behalf of, Starboard or any other statements that Starboard may otherwise make.

Certain Background Information

On April 4, 2012, DSP Group and Starboard entered into a settlement agreement (the “Settlement Agreement”). Pursuant to the Settlement Agreement, DSP Group’s board of directors agreed to expand its board to nine directors, effective as of the company’s 2012 annual meeting of stockholders. The board also agreed to nominate Kenneth H. Traub and Thomas A. Lacey (the “Starboard Designees”) as Class III directors of the board at the 2012 annual meeting with a term expiring at the company’s 2015 annual meeting of stockholders. DSP Group also agreed to nominate Dr. Reuven Regev, then a Class III director, as a Class I director at the 2012 annual meeting with a term expiring at the company’s 2013 annual meeting of stockholders, to accommodate one of the Starboard Designees to be nominated as a Class III director.

Pursuant to the Settlement Agreement, Starboard agreed not to present any proposals or additional director nominees at the 2012 annual meeting and to vote their shares of our common stock in favor of the nominees selected by our board for election as directors at the 2012 annual meeting. Starboard also agreed to vote in accordance with our board's recommendations for the other proposals submitted for approval at the 2012 annual meeting (subject to the recommendations of Institutional Shareholder Services). In addition, Starboard agreed to certain standstill restrictions which expired on February 4, 2013.

On May 15, 2012, DSP Group held its 2012 annual meeting, at which meeting the Starboard Designees were elected as Class III directors to our board.

On February 6, 2013, Messrs. Ayalon and Elyakim met with Starboard in New York. During this meeting, Starboard repeated its views that the company was too small to remain public and, as a result, needed to be sold. Representatives of Starboard expressed their view that DSP Group should already have been sold. Starboard further communicated its demand that our board of directors nominate three additional Starboard director nominees at DSP Group's 2013 annual meeting, which if they were elected would have resulted in Starboard nominees comprising five out of the nine directors on DSP Group's board of directors.

Between February 6, 2013 and March 8, 2013, DSP Group and Starboard had a number of conversations regarding the terms of a potential settlement. Ultimately, DSP Group proposed the following terms to Starboard for settlement: (i) the nomination of two additional Starboard designees to the board, of which one would replace an existing director and the other would fill a vacancy created by increasing the size of the board from 9 to 10; and (ii) the appointment of certain Starboard nominees to all committees, including two Starboard nominees on the compensation committee, one of whom would serve as chairman of such committee; and (iii) the formation of a strategic committee of the board consisting of five directors, including two Starboard nominees, one of whom would serve as chairman of such committee. DSP Group's proposal would have resulted in Starboard designating four of the ten directors of DSP Group's board of directors and Starboard nominees being chairs of two board committees.

On March 8, 2013, during a telephone call between Mr. Elyakim and Mr. Smith of Starboard, Starboard rejected DSP Group's last proposal as set forth above and stated that it would file its own proxy statement with its own slate of director nominees at DSP Group's 2013 annual meeting. After such rejection, DSP Group issued a letter to its stockholders providing them with a status report of developments with Starboard and expressed its hopes for a settlement with Starboard.

Between March 8, 2013 and March 15, 2013, DSP Group and Starboard had a number of conversations regarding the terms of a potential settlement but without success.

On March 11, 2013, DSP Group agreed to extend the deadline for Starboard to nominate candidates for election to DSP Group's 2013 annual meeting in order that the parties might continue to work towards mutually agreeable settlement terms. Later on March 11, 2013, Starboard nonetheless delivered a letter to DSP Group nominating the four Starboard Nominees for election to our board of directors at the 2013 annual meeting, ignoring our extension notice. In the letter, Starboard stated that it believed the terms of three Class I directors currently serving on the board expire at the 2013 annual meeting, and, if this remained the case, Starboard would withdraw one of its Starboard Nominees.

On March 13, 2013, Starboard filed an amendment to its Schedule 13D disclosing, among other things, the delivery of the March 11th letter and details about the Starboard Nominees.

On April 4, 2013, Starboard filed a preliminary proxy statement with the Securities and Exchange Commission soliciting votes for its Starboard Nominees.

Voting of Proxies

We are using a **GOLD** form of proxy card for solicitation of votes at this annual meeting. You may receive solicitation materials from Starboard, including a white proxy card, seeking your proxy to vote for the Starboard Nominees. **THE BOARD OF DIRECTORS URGES YOU NOT TO SIGN OR RETURN ANY WHITE PROXY CARD SENT TO YOU BY STARBOARD.**

Voting by GOLD Proxy Card. All shares entitled to vote and represented by properly executed **GOLD** proxy cards received prior to the annual meeting, and not revoked, will be voted at the annual meeting in accordance with the instructions indicated on those proxy cards.

Voting by Telephone or the Internet. A stockholder may vote his, her or its shares by calling the toll-free number indicated on the enclosed **GOLD** proxy card and following the recorded instructions or by accessing the website indicated on the enclosed **GOLD** proxy card and following the instructions provided. When a stockholder votes via the Internet or by telephone, his, her or its vote is recorded immediately. We encourage stockholders to vote using these methods whenever possible.

Voting by Attending the Meeting. A stockholder of record may vote his, her or its shares in person at the annual meeting. A stockholder planning to attend the annual meeting should bring proof of identification for entrance to the annual meeting. If a stockholder of record attends the annual meeting, he, she or it may also submit his, her or its vote in person, and any previous votes that were submitted by the stockholder, whether by Internet, telephone or mail, will be superseded by the vote that such stockholder casts at the annual meeting. If your shares are held in "street name" or by a broker or nominee, you should follow the directions provided by your broker or nominee regarding how to vote in person at the annual meeting.

If you have any questions or need assistance voting, please contact our proxy solicitor, MacKenzie Partners, by email at proxy@mackenziepartners.com, or by phone at (800) 322-2885 (toll free) or at (212) 929-5500.

Solicitation, Record Date and Voting Requirements

The solicitation of proxies will be conducted by telephone, the Internet or mail and we will bear all attendant costs. These costs will include the expense of preparing and mailing proxy materials for the annual meeting and reimbursements paid to brokerage firms and others for their expenses incurred in forwarding solicitation material regarding the annual meeting to beneficial owners of our common stock. We may conduct further solicitation personally, telephonically or by facsimile through our officers, directors and regular employees, none of

whom will receive additional compensation for assisting with the solicitation. We have retained the services of MacKenzie Partners, Inc., a professional proxy solicitation firm, to assist in the solicitation of proxies; and we will pay approximately \$375,000 for its services, in addition to reimbursement of its out-of-pocket expenses. We have agreed to indemnify MacKenzie Partners against certain liabilities relating to or arising out of their engagement. MacKenzie Partners estimates that approximately 25 of its employees will assist in this proxy solicitation, which they may conduct personally, by mail, Internet, telephone, fax, email, in-person meetings, press releases, and/or through the use of our investor relations website.

Our aggregate expenses related to the solicitation, including those of MacKenzie Partners and various professional services fees but excluding salaries and wages of our officers and regular employees who may participate in the solicitation, will exceed those normally spent for an annual meeting as a result of the potential proxy contest and are expected to be approximately \$2 million, of which approximately \$500,000 has been spent to date. Additional information about persons who are participants in this proxy solicitation is set forth in Appendix A.

The close of business on April 16, 2013 has been fixed as the record date for determining the holders of shares of our common stock entitled to notice of and to vote at the annual meeting. As of the close of business on the record date, we had 21,953,563 shares of common stock outstanding and entitled to vote at the annual meeting. The presence at the annual meeting of a majority of these shares of our common stock, either in person or by proxy, will constitute a quorum for the transaction of business at the annual meeting. IVS Associates, Inc. will act as the inspector of elections for the annual meeting. Each outstanding share of common stock on the record date is entitled to one vote on all matters.

Under the General Corporation Law of the State of Delaware, an abstaining vote and a broker “non-vote” are counted as present and are, therefore, included for purposes of determining whether a quorum of shares is present at the annual meeting. Abstentions are included in determining the number of shares voted on the proposals submitted to stockholders and will have the same effect as a “no” vote on such proposals. A broker “non-vote” occurs when a nominee holding shares for a beneficial owner does not vote on a particular matter because the nominee does not have the discretionary voting power with respect to that matter and has not received instructions from the beneficial owner. Due to the contested nature of the proxy solicitation for director nominees, we do not expect there will be any broker “non-votes” at the annual meetings. Broker “non-votes,” and shares as to which proxy authority has been withheld with respect to any matter, are generally not deemed to be entitled to vote for purposes of determining whether stockholders’ approval of that matter has been obtained.

With respect to proposal 1 of this proxy statement, each director nominee will be elected by a plurality of the votes of shares of our common stock represented and voted at the annual meeting, and abstentions and broker “non-votes” will not affect the election of a Class I director nominee who receives a plurality of votes. Nevertheless, the Company’s bylaws specify that in an uncontested election, any director nominee who receives a greater number of votes “withheld” from his election than votes “for” his election shall promptly tender his resignation following the vote. “Abstentions” will not count as a vote cast with respect to a director nominee. The nomination and corporate governance committee of our board of directors will consider the resignation offered by a director nominee who receives a greater number of votes “withheld” from his election than votes “for” his election and recommend to our board whether to accept the resignation offer. Our board will disclose its determination within ninety days from the date of

the certification of the stockholder vote for the relevant annual meeting. Since it is expected that the election of director nominees will be contested by Starboard, we do not believe that this by-law provision will be likely to apply at the annual meeting this year.

With respect to proposals 2, 3, 4 and 6 of this proxy statement, the affirmative vote of a majority of shares of our common stock represented and voted at the annual meeting is required for approval. With respect to proposal 5 of this proxy statement, the affirmative vote of a majority of shares of our common stock represented and voted at the annual meeting is required for approval, although such vote will not be binding on us. Abstentions will have the same effect as “no” votes on proposals 2, 3, 4, 5 and 6 presented at this annual meeting. Broker “non-votes” will have no effect on proposals 2, 3, 4, 5 and 6 presented at this annual meeting.

The Proxy

The persons named as proxy holders, Ofer Elyakim and Dror Levy, were selected by our board of directors and currently serve as our executive officers.

All shares represented by each properly executed, unrevoked proxy received in time for the annual meeting will be voted in the manner specified therein. If no specification is made on the proxy as to any one or more of the proposals, the common stock represented by the proxy will be voted as to the proposal for which no specification is given as follows: (1) FOR the election of the Class I director nominees named in this proxy statement; (2) FOR proposals 2, 3, 4, 5 and 6; and (3) with respect to any other matters that may come before the annual meeting, at the discretion of the proxy holders. We do not presently know of any other business to be conducted at the annual meeting.

Revocability of Proxy

Revocation of Starboard Proxy

We are using a **GOLD** form of proxy card for solicitation of votes at this annual meeting. You may receive solicitation materials from Starboard, including a white proxy card, seeking your proxy to vote for the Starboard Nominees. **THE BOARD OF DIRECTORS URGES YOU NOT TO SIGN OR RETURN ANY WHITE PROXY CARD SENT TO YOU BY STARBOARD.** Even if you have previously signed a white proxy card sent to you by Starboard, you have every right to change your vote. You may revoke the Starboard proxy and vote as recommended by our board of directors by completing, signing, dating and returning the enclosed **GOLD** proxy card, voting by telephone or via the Internet by following the instructions on your **GOLD** proxy card, or attending the annual meeting and voting your shares in person. Only your latest dated proxy will be counted.

Revocation of DSP Group Proxy

If the shares of common stock are held in your name, you may revoke your proxy given pursuant to this solicitation at any time before the **GOLD** proxy card is voted by: (i) delivering to us (to the attention of Dror Levy, our Secretary), at the address of our principal executive offices, a written notice of revocation or a duly executed proxy bearing a later date, or (ii) attending the annual meeting and voting in person. If your shares are held in “street name,” you should follow the directions provided by your broker regarding how to revoke your proxy. Your attendance at the annual meeting after having executed and delivered a valid proxy card will not in and of itself constitute a revocation of your proxy.

PROPOSAL NO. 1
ELECTION OF DIRECTORS

Our bylaws authorize the number of directors to be not less than five or more than nine. The number of directors on our board of directors is currently fixed at nine. The board is divided into three classes: Class I, Class II and Class III. Each director serves a three-year term. The board is currently composed of three Class I directors (Messrs. Eliyahu Ayalon, Zvi Limon and Reuven Regev), whose terms will expire at this annual meeting of stockholders; three Class II directors (Messrs. Ofer Elyakim, Yair Seroussi and Yair Shamir), whose terms will expire at the annual meeting of stockholders to be held in 2014; and three Class III directors (Mr. Patrick Tanguy and designees of Starboard, Messrs. Thomas A. Lacey and Kenneth H. Traub, pursuant to a settlement agreement with Starboard in 2012), whose terms are expiring at the annual meeting of stockholders to be held in 2015.

At this annual meeting, the stockholders will specifically elect three Class I directors. Eliyahu Ayalon, Zvi Limon and Reuven Regev have each been re-nominated as a Class I director to serve a three-year term, until the annual meeting of stockholders to be held in 2016, or until their successors are elected or appointed and qualified, or until their earlier resignation or removal. Our board has no reason to believe that each of Messrs. Ayalon, Limon and Regev will be unable or unwilling to serve as a director if elected.

Class I Director Nominees

Eliyahu Ayalon, 70, is currently our Chairman of the board. He joined us in April 1996 as President, Chief Executive Officer and a director. In January 2000, Mr. Ayalon was appointed as Chairman of our board. Between April 2005 and January 2006, Mr. Ayalon stepped down as Chief Executive Officer and became our Executive Chairman. Mr. Ayalon resumed the Chief Executive Officer position from January 2006 to July 2009. From August 2009 to May 2011, Mr. Ayalon was our Executive Chairman. Before joining the company, Mr. Ayalon held CEO positions and board memberships in various technology companies in the defense, telecom, medical equipment and semiconductor industries, including residing five years in Europe. Mr. Ayalon is also a member of the board of directors of CEVA, a NASDAQ-listed company (NASDAQ: CEVA) that develops and licenses DSP cores and related platform-level IP to the semiconductor industry, as of November 2002, and was the Chairman until February 2005. Mr. Ayalon is a member of the Board of Governors of the Technion-Israel Institute of Technology and a member of the executive committee of the University of Ariel, Israel. We believe Mr. Ayalon's qualifications to sit on our board include his years of executive experience in the high technology and semiconductor industries, his deep understanding of our company, his relationships and connections with universities in Israel and his vast experience in managing multinational companies with presence in Europe and Asia.

Zvi Limon, 54, has served as one of our directors since February 1999. Mr. Limon is a General Partner at Magma Venture Partners, a leading Israeli investment firm that focuses on early stage communication, semiconductor, Internet and media companies. Mr. Limon also has been a General Partner of Rimon Investment Fund, a consulting and investment advisory firm. He served as Chairman of Limon Holdings Ltd., a consulting and investment advisory firm, from 1993 to 2000. He has been an active investor in public and private technology companies in Israel and abroad since 1990 and has led the successful turnarounds of industrial and service companies. Mr. Limon brings years of experience in strategy and management consulting from his tenure as a founding member and partner of SHALDOR, a top ranked strategic advisory firm in Israel and as a consultant at Bain

& Company. He has served as a board member of a number of high-tech companies including GVT, a leading Brazilian broadband operator, which was subsequently sold to Vivendi in 2009 for \$4.2 billion; Wintegra, a leading fabless semiconductor company specializing in network processors optimized for mobile backhaul equipment which was acquired by PMC-Sierra in 2010 for \$240 million; and Trivnet, a leading player in mobile financial services acquired in 2010 by Gemalto. Additionally as a General Partner of Magma Venture Partners, he was actively involved in investments in Provigent, a fabless semiconductor company that develops system-on-a-chip (SoC) solutions for the broadband wireless transmission, which was acquired by Broadcom in 2011 for \$360 million, and DesignArt Networks, a leader in small cell modem and system design for cellular base stations and high-speed wireless backhaul infrastructure, which was acquired in 2012 by Qualcomm for \$150 million. Mr. Limon is currently a member of the board of directors of CEVA (NASDAQ: CEVA), and he also serves on the board of directors of Autotalks, as well as other private technology companies. We believe Mr. Limon's qualifications to sit on our board include the deep understanding of our company he has developed during his 10 plus years of service, and the unique perspective he brings to our board as a successful investor, venture capitalist and as someone who has vast experience in providing strategic and investment advisory services to high tech companies, especially in the semiconductor field.

Reuven Regev, 63, has served as one of our directors since January 2011. Dr. Regev is the Chairman and Chief Executive Officer of Topscan Ltd, a computer peripheral electronic devices company, a company he founded, since 2008. Dr. Regev is also serving as the Chairman of Flexicath Ltd, a medical devices company, since 2009. From 2006 to 2008, Dr. Regev served as Chief Executive Officer and a board member of Karmelsonix Ltd., a medical devices company focused on Asthma treatment and listed on the Australian Stock Exchange. Between 1995 and 2005, Dr. Regev served as the CEO of Vectory Ltd, the High-Tech investment arm of Elbit Imaging, a NASDAQ-listed company. Dr. Regev received a B.Sc. and an M.Sc in Electrical Eng. Communications and Control Systems from the Technion, Israel. He received a M.Sc. and a Ph.D. in Industrial Engineering and Management from Stanford University, California. We believe Dr. Regev's qualifications to sit on our board include his years of executive and operational experience and his deep understanding of technology companies operating from the U.S. and Israel.

Director Independence

Our board of directors has determined that the director nominees, Messrs. Limon and Regev are "independent" as that term is defined in the published listing requirements of NASDAQ.

Required Vote

Pursuant to NYSE Rule 452, the uncontested election of directors is no longer a routine matter and, therefore, may not be voted upon by brokers without instruction from beneficial owners. Consequently, proxies submitted by brokers for shares beneficially owned by other persons may not, in the absence of specific instructions from such beneficial owners, vote the shares in favor of a director nominee or withhold votes from a director nominee at the brokers' discretion.

The director nominees will be elected by a plurality of the votes cast. Abstentions and broker non-votes will not affect the election of any Class I director nominee who receives a plurality of votes. Nevertheless, the Company's bylaws specify that in an uncontested election,

any director nominee who receives a greater number of votes “withheld” from his election than votes “for” his election shall promptly tender his resignation following the vote. “Abstentions” will not count as a vote cast with respect to a director nominee. The nominating and governance committee of our board of directors will consider the resignation offered by a director nominee who receives a greater number of votes “withheld” from his election than votes “for” his election and recommend to our board whether to accept the resignation offer. Our board will disclose its determination within ninety days from the date of the certification of the stockholder vote for the relevant annual meeting.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR

Board Leadership Structure

We separated the roles of Chief Executive Officer and Chairman of the Board in July 2009 in recognition of, among other things, the differences and responsibilities between the two roles. Our Chief Executive Officer is responsible for implementing the strategic direction of the company and the day-to-day leadership and performance of the company. Our Chief Executive Officer joined as a member of our board in May 2011. Our board of directors unanimously appointed our Chief Executive Officer to the board in consideration of the insights he brings to the board in light of his day to day leadership of the company and intimate knowledge of our business and operations. Our Chairman of the board, formerly our Chief Executive Officer for over 15 years, provides guidance to our Chief Executive Officer on corporate strategies and reviews the strategic initiatives of the company with the Chief Executive Officer and the rest of the board. The board values the insights of our Chairman in light of his deep understanding of our company, people and products and the semiconductor industry. Our Chairman also sets the agenda for board meetings in consultation with judgment, presides over meetings of the board, facilitates communication among directors and ensures an appropriate information flow from senior management to the board.

Director Independence

Our board of directors has determined that each of Messrs. Lacey, Limon, Regev, Seroussi, Shamir, Tanguy and Traub, are “independent” as that term is defined in the NASDAQ listing standards. In making this determination, our board of directors considered transactions and relationships between each director or his immediate family and the company and our subsidiaries, of which there were none in 2012, and relied on information provided by each director in his Directors and Officers Questionnaire. The purpose of this review was to determine whether any such relationships or transactions were material and, therefore, inconsistent with a determination that the director is “independent” as that term is defined in the NASDAQ listing standards. As a result of this review, our board affirmatively determined, based on its understanding of such transactions and relationships, that a majority of the members of our board is independent, under the standards set forth by the NASDAQ listing standards.

The Board's Role in Risk Oversight

Our board of directors oversees an enterprise-wide approach to risk management, designed to support the achievement of business objectives, including organizational and strategic objectives, to improve long-term organizational performance and enhance stockholder value. The involvement of the full board in setting our business strategy is a key part of its assessment of management's plans for risk management and its determination of what constitutes an appropriate level of risk for the company. Our board's role in the company's risk oversight process includes receiving regular reports from members of senior management on areas of material risk to the company, including operational, financial, legal and regulatory, and strategic and reputational risks. While the full board has the ultimate oversight responsibility for the risk management process, various committees of the board also have responsibility for risk management. For example, financial risks, including internal controls, are overseen by the audit committee and risks that may be implicated by our executive compensation programs are overseen by the compensation committee. Moreover, our nomination and corporate governance committee conducts an annual board assessment and reports its findings to the full board. Upon identification of a risk, the assigned board committee or the full board discuss or review risk management and risk mitigation strategies. Additional review or reporting on enterprise risks is conducted as needed or as requested by the board or committee.

Relationships among Directors or Executive Officers

There are no family relationships among any of our directors or executive officers.

Meetings and Committees of the Board of Directors

During 2012, our board of directors met 6 times in meetings or telephonically. No director attended fewer than 75% of the aggregate of either (i) the total number of board meetings held during the period for which he was a director, or (ii) the total number of committee meetings of the board held in 2012 on which he served. In light of the geographic dispersion of our directors, the directors' attendance at the annual meeting of stockholders is encouraged but not required. Director attendance at each annual stockholders' meeting will be posted on our web site at www.dspg.com. It is also the general policy of our board that at the conclusion of each meeting of the board the independent directors shall meet separately with no members of management present.

Compensation Committee

The compensation committee met in meetings or telephonically 3 times in 2012. The compensation committee currently consists of Messrs. Shamir, Limon and Tanguy. Mr. Tanguy was appointed to the compensation committee effective as of May 15, 2012 to replace Mr. Louis Silver who resigned as a director of the company and from the compensation committee effective as of the same date. Our board of directors has determined that all current members of the compensation committee are “independent” as that term is defined in the NASDAQ listing standards. The committee’s functions are to establish and apply our compensation policies with respect to our executive officers. Additional duties and powers of the compensation committee are set forth in its charter, which was adopted and approved in January 2005, and a copy of which is available on our website at www.dspg.com.

Audit Committee

The audit committee met 4 times in meetings or telephonically in 2012. The audit committee currently consists of Messrs. Limon, Seroussi, Shamir and Tanguy. The audit committee is directly responsible for the appointment, compensation, retention and oversight of our independent auditors. In addition, the audit committee is responsible for approving the audit and non-audit services performed by our independent auditors and for reviewing and evaluating our accounting principles and our system of internal accounting controls. Additional duties and powers of the audit committee are set forth in its amended and restated charter, which was adopted and approved in November 2002 and further amended in July 2003, January 2005 and February 2009, and a copy of which is available on our website at www.dspg.com. The audit committee has also established procedures for (a) the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or auditing matters, and (b) the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters.

After considering transactions and relationships between each member of the audit committee or his immediate family and the company and our subsidiaries and reviewing the qualifications of the members of the audit committee, our board of directors has determined that all current members of the audit committee are (1) “independent” as that term is defined in Section 10A of the Securities Exchange Act of 1934, as amended (the “Exchange Act”); (2) “independent” as that term is defined in the NASDAQ listing standards; and (3) financially literate and have the requisite financial sophistication as required by the NASDAQ listing standards. Furthermore, our board of directors has determined that Mr. Tanguy qualifies as an audit committee financial expert, as defined by the applicable rules of the Exchange Act, pursuant to the fact that, among other things, he was the Chief Executive Officer of Prezioso S.A., and Monne-Decroix and Technal Group, and in those capacities had acquired the relevant experience and expertise and has the attributes set forth in the applicable rules as being required for an audit committee financial expert.

Nomination and Corporate Governance Committee

The nomination and corporate governance committee met in meetings or telephonically 2 times in 2012. The nomination and corporate governance committee consists of Messrs. Regev, Seroussi and Tanguy. Mr. Regev was appointed to the nomination and corporate governance committee effective as of May 15, 2012 to replace Mr. Silver who resigned as a director of the company and from the nomination and corporate governance committee effective as of the same

date. Our board of directors has determined that all current members of the nomination and corporate governance committee are “independent” as that term is defined in the NASDAQ listing standards. The nomination and corporate governance committee is to assist the board in all matters relating to the establishment, implementation and monitoring of policies and processes regarding the recruitment and nomination of candidates to the board and committees of the board, and the development, evaluation and monitoring of our corporate governance processes and principles. The committee also is responsible for developing, implementing and monitoring compliance of our code of business conduct and ethics and making recommendations to the board of revisions to the code from time to time as appropriate. Additional duties and powers of the nomination and corporate governance committee are set forth in its charter, which was adopted and approved in January 2005, and a copy of which is available on our website at www.dspg.com.

Compensation Committee Interlocks and Insider Participation

Our compensation committee during 2012 consisted of Messrs. Limon, Shamir and Tanguy; Mr. Shamir served as its Chairman. No member of this committee is a present or former officer or employee of the company or any of our subsidiaries. None of our executive officers served on the board of directors or compensation committee of any entity which has one or more executive officers serving as a member of our board or compensation committee.

Qualifications of Directors

Our board of directors has not established any special qualifications or any minimum criteria for director nominees. In considering candidates for the board, the nomination and corporate governance committee will consider the entirety of each candidate’s credentials. However, as specified in the charter for the nomination and corporate governance committee, the nomination and corporate governance committee shall consider certain qualifications such as the nominee’s personal and professional integrity, ability, judgment, broad experience in business, finance or administration, familiarity with our industry, ability to serve the long-term interests of our stockholders and sufficient time available to devote to our affairs. The nomination and corporate governance committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective director nominees. The committee believes that the backgrounds and qualifications of the directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow our board to fulfill its responsibilities. The nomination and corporate governance committee will also use its best efforts to seek to ensure that the composition of our board of directors at all times adheres to the independence requirements applicable to companies listed on NASDAQ, as well as other regulatory requirements applicable to us.

Diversity of the Board

Our board of directors does not have a formal policy requiring the nominating and corporate governance committee to consider the diversity of directors in its nomination process. Nonetheless, our board values diversity and diversity is one of the factors considered by the committee in the director identification and nomination process. The committee seeks nominees with a broad diversity of experience, professions, education, skills, geographic representation and backgrounds with a view to have a slate of candidates for election that represents a diversity of views, experiences, and backgrounds.

Director Nomination Process

We do not have a formal director nomination process.

Continuing Directors

Generally, the nomination and corporate governance committee identifies nominees by first evaluating the current members of the board willing to continue in service. Current members of the board with skills and experience that are relevant to our business and who are willing to continue in service are considered for renomination. The nomination and corporate governance committee will balance the value of continuity of service by existing members of the board with that of obtaining a new perspective.

New Directors

Generally, once a need to add a new board member is identified, the nomination and corporate governance committee will initiate a search by working with staff support, seeking input from board members and senior management and, if necessary, hiring a consultant or search firm. After a slate of possible candidates is identified, members of the nomination and corporate governance committee, other members of the board and senior management have the opportunity to interview the prospective candidate(s). The remaining members of the board who do not interview the prospective candidate(s) are kept informed of the progress. A potential new director also may be recommended by a current director, after which the input of the nomination and corporate governance committee and the other members of the board on the merits of his or her appointment to the board would be sought. The nomination and corporate governance committee ultimately recommends the best candidate(s) the committee members determine after the selection process for approval by the full board.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, executive officers and persons who own more than 10% of our common stock (collectively, "Reporting Persons") to file initial reports of ownership and changes in ownership of our common stock with the Securities and Exchange Commission. Copies of these reports are also required to be delivered to us.

We believe, based solely on our review of the copies of such reports received or written representations from the Reporting Persons, that during the fiscal year ended December 31, 2012, all Reporting Persons complied with all applicable filing requirements.

Our board of directors believes that full and open communication between stockholders and members of our board is in our best interests and the best interests of our stockholders. Stockholders can contact any director or committee of the board by writing to the Chairman of the nomination and corporate governance committee, c/o DSP Group, Inc., 2580 North First Street, Suite 460, San Jose, CA 95131. The guidelines are posted on our web site at www.dspg.com.

**SECURITY OWNERSHIP OF
CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth certain information known to us with respect to beneficial ownership of our common stock as of April 1, 2013, by (i) each stockholder known to us to own beneficially more than 5% of our common stock; (ii) each of our directors as of April 1, 2013; (iii) the named executive officers; and (iv) all of our directors and executive officers as a group. Except as otherwise indicated, the address of each of the executive officers and directors is c/o DSP Group, Inc., 2580 North First Street, Suite 460, San Jose, CA 95131.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting power and/or investment power with respect to securities. The percentages are based on 21,952,538 shares of our common stock outstanding as of April 1, 2013. Shares of common stock subject to options or stock appreciation rights currently exercisable or exercisable within 60 days of April 1, 2013 are deemed outstanding for purposes of computing the percentage beneficially owned by the person holding the options or stock appreciation rights, but are not deemed outstanding for purposes of computing the percentage beneficially owned by any other person. Except as indicated by footnote, we believe that the persons named in this table, based on information provided by them, have sole voting and investment power with respect to the shares of common stock indicated.

The total number of shares of common stock available for the grant of options under the 2003 Plan was increased on the first day of each calendar year beginning in 2004 by a number of shares equal to three percent of the number of shares of our common stock outstanding as of such date or a lesser number as determined by the administrator of the plan; provided, however that in May 2011, our board of directors approved an amendment and restatement of the 2003 Plan to eliminate the automatic annual increase in the authorized number of shares of our common stock available for grant under the 2003 Plan after 2012. Furthermore, after stockholder approval of our 2012 Equity Incentive Plan at our 2012 annual meeting of stockholders, the 2003 Plan terminated.

Amended and Restated 1998 Non-Officer Employee Stock Option Plan

Our board of directors adopted the 1998 Plan in November 1998. As of December 31, 2012, 5,062,881 shares of common stock were authorized and 340,689 shares of common stock remained available for grant. The board of directors, or a committee designated by the board of directors, administers the 1998 Plan. The administrator has the sole discretion to interpret any provision of the 1998 Plan, and to determine the terms and conditions of awards of non-qualified stock options or stock appreciation rights under the 1998 Plan. Options and stock appreciation

rights currently may be granted to our employees and employees of any of our subsidiaries. Officers may not be granted options or stock appreciation rights under the 1998 Plan. The material features of the 1998 Plan are summarized below.

Term. The term of each option or stock appreciation right shall be stated in the applicable option or stock appreciation right agreement.

Exercise Price or Base Appreciation Right. The exercise price per share of common stock for an option and the base appreciation amount for a stock appreciation right shall be determined by the administrator.

Vesting. Each option or stock appreciation right shall vest in accordance with a schedule as determined by the administrator.

Early Exercise. An option may include a provision whereby the participant may elect to exercise any part or all of the option prior to vesting of the option. Any unvested shares received pursuant to such exercise may be subject to a repurchase right in favor of the Company or any other restriction the administrator determines to be appropriate.

Transferability. Options and stock appreciation rights are transferable to the extent provided in the applicable option agreement or stock appreciation right agreement.

Termination of Employment. A participant may not exercise an option or stock appreciation right after the termination of the participant's employment, director or consulting relationship with us or with any of our subsidiaries, except to the extent specified in the applicable option or stock appreciation right agreement. Where the option or stock appreciation right agreement permits the exercise of the option or stock appreciation right following termination of the participant's employment or other service relationship with us or any of our subsidiaries, the option or stock appreciation right shall terminate to the extent not exercised on the last day of the specified period or the last day of the term of the option or stock appreciation right, which ever occurs first.

Acquisition of the Company. If we are acquired whether by sale, transfer of assets, merger or similar transaction, the administrator shall have the authority to provide for the full automatic vesting and exercisability of one or more outstanding unvested options or unvested stock appreciation rights under the 1998 Plan on such terms and conditions as the administrator may specify.

Amendment and Termination of the Plan. The 1998 Plan will continue until it is terminated by the board of directors. The board may amend the 1998 Plan at any time or from time to time or may suspend or terminate it, without approval of the stockholders, except as required by law. However, no action by the board of directors or stockholders may alter or impair any option or stock appreciation right previously granted under the 1998 Plan. No option or stock appreciation right may be granted during any suspension of or after termination of the 1998 Plan.

Amended and Restated 2003 Israeli Share Incentive Plan

Our board of directors adopted the 2003 Plan in November 2002. Pursuant to the plan terms, the number of shares authorized for issuance increased annually on the first business day

of each calendar year equal to three percent of the number of shares of our common stock issued and outstanding as of such date or a lesser number of shares as determined by the board of directors; provided, however that in May 2011, our board of directors approved an amendment and restatement of the 2003 Plan to eliminate the automatic annual increase in the authorized number of shares of our common stock available for grant under the 2003 Plan after 2012. Furthermore, after our stockholders approved the 2012 Equity Incentive Plan at the 2012 annual meeting of stockholders, the 2003 Plan terminated. As of December 31, 2012, 10,700,543 shares of common stock were granted under the 2003 Plan and stock option and stock appreciation rights to acquire 4,349,094 shares of common stock remained outstanding under the 2003 Plan.

The board of directors, or a committee designated by the board of directors, administered the 2003 Plan. The administrator had the sole discretion to interpret any provision of the 2003 Plan and to determine the terms and conditions of the options and stock appreciation rights issued under the 2003 Plan. Our employees and other service providers and employees and other service providers of any of our subsidiaries were eligible to receive grants of options and stock appreciation rights. The material features of the 2003 Plan are summarized below.

Term. The term of each option or stock appreciation right were stated in the applicable option agreement or stock appreciation right agreement.

Exercise Price or Base Appreciation Right. The exercise price per share of common stock for an option and the base appreciation amount for a stock appreciation right were determined by the administrator and were set forth in the applicable option or stock appreciation right agreement.

Vesting. Each option or stock appreciation right vested in accordance with a schedule as determined by the administrator.

Transferability. Options and stock appreciation rights were non-transferable except as provided in the option or stock appreciation right agreement. During the lifetime of the participant, the option or stock appreciation right were exercisable only by the participant.

Termination of Employment. In the event a participant's employment relationship with us or any of our subsidiaries was terminated other than for cause or as a result of death or disability, the vested portion of the option or stock appreciation right was exercisable for 90 days after the date of termination. In the event a participant's employment relationship with us or any of our subsidiaries was terminated as a result of death or disability, the vested portion of the option or stock appreciation right was exercisable for 12 months after the date of termination. In the event a participant's employment relationship with us or any of our subsidiaries was terminated for cause, the option or stock appreciation right was immediately terminated and ceased to be exercisable. In no event was an option or stock appreciation right exercisable after the expiration date of the option or stock appreciation right.

Acquisition of the Company. The terms of an option or stock appreciation right agreement could have provided for the full automatic vesting and exercisability of the option or stock appreciation right in the event we were acquired by sale, transfer of assets, merger or similar transaction.

EXECUTIVE COMPENSATION

Compensation Discussion & Analysis

Overview of Compensation Philosophy and Objectives

We operate in a very competitive, dynamic and challenging industry. Our compensation policy, as established by the compensation committee of our board of directors, is designed to attract, motivate and retain highly talented individuals who will contribute to our long-term success, reward our executive officers who contribute to our positive financial performance and provide a strong link between our executive officers' compensation and long-term interests of our stockholders. We believe that our executive officers' compensation should not be based on the short-term performance of our stock, whether favorable or unfavorable, but rather that the price of our stock will, in the long-term, reflect our operating performance and ultimately the management of the company by our executive officers. The various compensation levels for our executive officers are set based on the scope of their responsibilities and performance. Our policy for allocating between long-term and currently paid compensation is to ensure adequate base compensation to attract and retain key personnel, while providing them incentives to maximize long-term value for our company and stockholders. We further believe that the executive officers' total annual cash compensation should vary with the company's performance and that the higher an executive officer's level of responsibility within the company, the greater the percentage of such executive officer's compensation should be tied to the company's performance. However, notwithstanding the above principles, we rely upon judgment and not rigid guidelines or formulas in determining the amount and mix of compensation elements for each executive officer. The compensation committee has complete discretion over each element of our executive officers' compensation, except to the extent the company's performance-based bonus plan applies.

The compensation committee, which is comprised solely of independent, non-employee board members, has the authority and responsibility to establish the overall compensation strategy for the company, including reviewing, analyzing and approving the compensation structure for our Chief Executive Officer, other executive officers and other key employees each year; and administer our incentive compensation and benefit plans, 401(k) plan and employee stock purchase plan. The compensation committee regularly updates the board of directors with respect to its undertakings in establishing the company's overall compensation strategy. Messrs. Limon, Shamir and Tanguy were the members of the compensation committee in 2012, with Mr. Shamir acting as the Chairman.

Role of Chief Executive Officer and Compensation Consultants in Compensation Decisions

Mr. Ayalon, our former Executive Chairman of the board, and Mr. Elyakim, our Chief Executive Officer, have annually reviewed the performance of each executive officer (other than Mr. Elyakim with respect to himself). The assessment by Messrs. Ayalon and Elyakim of the performance of each executive officer, and the individual and corporate performance of each executive officer and their conclusions thereon, including with respect to salary adjustments and annual award amounts, are then presented to the compensation committee in connection with the committee's annual review of each executive officer's total compensation. While the committee considers their recommendations, it independently evaluates the recommendations and makes all final compensation decisions.

Mr. Ayalon resigned as our Executive Chairman, effective May 31, 2011, after which he has continued to serve as a non-executive Chairman. Notwithstanding the fact that Mr. Ayalon has resigned as the Executive Chairman of the board, the compensation committee greatly values Mr. Ayalon's insights about our people which he acquired over the 15 plus years of service on our board and as our Chief Executive Officer. As a result, the compensation committee will continue to solicit Mr. Ayalon's assessment of the performance of each executive officer in connection with its annual review of each executive officer's total compensation.

The charter of the compensation committee authorizes the committee to engage the services of consultants to assist in the determination of our executive officers' compensation. In connection with deliberations associated with establishment of the 2012 performance-based bonus plan, including the parameters for the plan, the compensation committee engaged the services of Compensia, Inc., a compensation consultant, in 2012 to provide the committee with general comparative information about executive compensation of peer companies, general observations about the compensation elements of executive officers of peer companies, general observations about retirement and termination data of executive officers of peer companies and general observations about our executive compensation program. Compensia did not directly recommend any specific compensation elements or specific parameters for the 2012 performance-based bonus plan. Compensia was paid an aggregate of \$11,000 plus out-of-pocket expenses for its services. Compensia was not engaged for any other services relating to the company in 2012. No member of the compensation committee or management has any affiliation with Compensia.

Principal Elements of Executive Compensation

Compensation of our executive officers consists of three principal components: base salary, bonus and long-term incentive compensation consisting of grants of stock options, stock appreciation rights and restricted stock units. The overall compensation of our executive officers is set by the compensation committee, in consultation with the board of directors, after an annual review by the compensation committee of each executive officer's overall performance for the prior year and the overall performance of the company for the prior year. Prior to 2011, the compensation committee did not set specific goals for our executive officers to achieve, other than the general goals of positive financial results, growth of the company's business and dutiful completion of responsibilities consistent with the position of the executive officers. Prior to 2011, the compensation committee did not follow a specific set of guidelines or formulas in determining the amount and mix of compensation elements for each executive officer. Starting in 2011, one element of executive compensation established by our compensation committee, in consultation with the board, was a performance-based bonus plan. As discussed below, the compensation committee approved a performance-based bonus plan for 2012 and 2013.

Base Salary. The base salaries of our executive officers are set by the compensation committee. When setting base salary levels, the compensation committee considers competitive market conditions for executive compensation, the company's performance, the performance of the individual executive officer for the then completed year and any promotion or other change in job responsibility of the individual executive officer. The determination of the base salaries of the executive officers is discretionary; no specific goals are considered and no specific weight is given to any particular goal achieved or any other factor by the compensation committee in its annual review.

2012 Performance-Based Bonus Plan

In April 2012, our compensation committee of the board approved a 2012 performance-based bonus plan applicable for our Chief Executive Officer, Chief Financial Officer and Chief Operating Officer. The payment of bonuses under the 2012 performance-based bonus plan was based upon the company's achievement of operating income target of \$4 million and revenue target of \$210 million. Bonuses under the plan were capped and no bonuses were payable for 2012 if the company failed to achieve above 90% of the revenue target or 50% of the operating income target. Payment of bonuses (if any) under the performance-based bonus plan was to be made in the following year. Any such bonuses were to be paid in cash in a single lump sum, subject to payroll taxes and tax withholdings. The following is a description of the 2012 performance-based bonus plan as applicable to each of our named executive officers.

Chief Executive Officer

Criteria	A=OI Score	% of Total Bonus

Total	(A) × Annual Salary	<p>Target = 0.7×</p> <p>Cap = 1.4×</p>

Chief Financial Officer and Chief Operating Officer

Criteria	B=OI Score	% of Total Bonus
Meeting Operating Income (OI) Target	<p>OI Score:</p> <ul style="list-style-type: none"> • 0 = at or below 50% of the OI target or if 2012 revenues are at or below 90% of the revenue target • 0.35 = if actual OI is 50% above the OI target • 0.7 = if actual OI is 100% or above the OI target 	Payout is linear between any two points.
Total	(B) × Annual Salary	<p>Target = 0.35×</p> <p>Cap = 0.7×</p>

No bonuses were paid to any of our named executive officers under the 2012 performance-based bonus plan due to the company's failure to achieve 90% of the revenue target and 50% of the operating income target.

2013 Performance-Based Bonus Plan

In March 2013, our compensation committee of the board approved a 2013 performance-based bonus plan applicable for the Chief Executive Officer, Chief Financial Officer and Chief Operating Officer. The 2013 performance-based bonus plan is effective as of January 1, 2013. The payment of bonuses under the 2013 performance-based bonus plan is based upon two components: (1) 60% of any bonus payable under the plan is based on the company's achievement of certain financial performance metrics, consisting of annual revenue target, earnings before interest, taxes, depreciation and amortization ("EBITDA") target and free cash flow target, each based on the company's 2013 annual budget which has been approved by our board, and (2) 40% of any bonus payable under the plan is discretionary and based upon achievement of individual performance goals by the executive officers. The individual performance goals will be determined by our compensation committee, in its sole discretion, taking into account such tangible and intangible individual performance factors as it considers appropriate, including the executive officer's relative contribution to the company's performance during fiscal 2013. The compensation committee's determination as to whether individual performance goals have been met may be subjective in nature. No individual performance goals have currently been set by our compensation committee. Bonuses under the plan are capped. Other than under the circumstances whereby there is a change of control transaction involving the company, payment of bonuses (if any) under the 2013 performance-based bonus plan would be made in the following year. Any such bonuses would be paid in cash in a single lump sum, subject to payroll taxes and tax withholdings. In the event of a change of control of the company (as such an event is defined in the employment agreements for the Chief Executive Officer and the Chief Financial Officer), the 40% of discretionary bonus under the 2013 performance-based bonus plan would be immediately paid and the 60% of bonus under the 2013 performance-based bonus plan based on the company's achievement of financial performance metrics would be paid prorated for the period starting on January 1, 2013 to the date that the change of control transaction is consummated.

In connection with deliberations associated with establishment of the 2013 performance-based bonus plan, including the parameters for the plan, the compensation committee considered the general comparative information about executive compensation of peer companies provided previously by Compensia. No compensation consultant was engaged in 2013.

Due to their strategic significance, we believe that the disclosure of the 2013 annual revenue target, EBITDA target and free cash flow target under the 2013 performance-based bonus plan would cause competitive harm to the company and therefore are not disclosed.

Long-term Incentive Compensation. Grants of stock options, stock appreciation rights and restricted stock units are made from time to time to our employees, including executive officers, whose contributions have or will have a significant impact on our long-term performance. We began to grant stock appreciation rights to our executive officers beginning in 2006 with a view to conserve the number of shares of our common stock authorized for issued under our various equity incentive plans. We believe that the grant of stock options, stock appreciation rights and restricted stock units (1) align our executive officers' interests with stockholder interests by creating a direct link between compensation and stockholder return; (2) give executive officers a significant, long-term interest in our success; and (3) help retain key executive officers in a competitive market for executive talent. We grant stock options, stock appreciation rights and restricted stock units to our executive officers pursuant to our 2012 Equity Incentive Plan and Amended and Restated 2003 Israeli Share Incentive Plan until May 2012 when the plan terminated. In 2012, we provided long-term awards to our executive officers through the grant of stock appreciation rights, which vest based on continued employment consistent with the general vesting schedules discussed below.

Compensation of Chief Executive Officer. The compensation committee's determination of Mr. Elyakim's remuneration generally was based upon methods consistent with those used for the other executive officers. The compensation committee additionally considered the following factors in evaluating the performance of, and setting the compensation for, Mr. Elyakim: (1) changes in revenues and net income from the previous year; (2) changes in our market share as compared both to our industry peers and to the previous year; (3) changes in the stock price of our common stock as compared both to our industry peers and to the previous year; (4) his contribution to an enhanced research and development strategy in response to changing market trends; (5) his contribution to the hiring and retention of top management personnel; and (6) the time and effort that he individually applied in connection with the execution of his duties. The compensation committee believes that the salary and long-term incentive compensation paid to Mr. Elyakim during 2012 were appropriate based on the above criteria.

Equity Incentive Programs

We intend that our equity incentive awards be the primary vehicle for offering long-term incentives and rewarding our executive officers and key employees. We also regard our equity incentive awards as a key retention tool. This is a very important factor in our determination of the type of award to grant and the number of underlying shares that are granted in connection with that award.

Equity incentive awards are granted based upon the compensation committee's annual review of each executive officer's performance for the prior year. The size of each grant is generally set at a level that the compensation committee deems appropriate to create a meaningful opportunity for stock ownership, the individual's position with the company and the individual's potential for future responsibility and promotion. In the grant of awards, the compensation committee further considers the executive officer's past performance, the total compensation being paid to the executive officer, the number of equity awards granted to the executive officer during previous years and the vesting status of such awards, and the comparability with equity awards made to our other executives officers and similarly situated executive officers at peer companies. All equity awards are made at the market price at the time of the awards. The determination for the grant of equity incentive awards is discretionary; no specific goals are considered and no specific weight is given to any particular goal achieved or any other factor by the compensation committee.

Stock Option Awards Granted. We grant stock option awards to our executive officers and key employees based upon the criteria discussed above. However, there is no set formula for the granting of stock option awards to individual executive officers. Generally, stock options previously granted to our executive officers vest as to 25% of the grant on the first anniversary of the grant date with the remaining options vesting quarterly over the next three years and expiring seven years from the grant date. No stock options were granted to our executive officers in 2012.

Stock Appreciation Right Awards Granted. Due to the evolution of regulatory, tax and accounting treatment of equity incentive programs and because it is important for us to retain our executive officers and key employees, we realized that it is important that we explore the use of other forms of equity awards. During 2006, we began to grant our executive officers stock appreciation rights, capped with a ceiling. The stock appreciation right confers upon our executive officers the right to stock appreciation over a preset price during a specified period of time. When the stock appreciation right is exercised, the appreciation amount is paid by the issuance of shares of our common stock. For stock appreciation right awards granted prior to 2009, the maximum number of shares of our common stock issuable upon exercise of the stock appreciation right award equaled 50% of the number of stock appreciation rights granted. With respect to the stock appreciation right awards granted in 2009 to our executive officers, the maximum number of shares of our common stock issuable upon exercise of the stock appreciation right award equaled 75% of the number of stock appreciation rights granted. The change to the ceiling percentage was implemented in 2009 in recognition of the unprecedented market conditions in late 2008 and 2009 that drove down the stock price of the company's stock significantly which resulted in approximately half of the outstanding equity awards to executive officers being out of the money. In January 2010 and 2011, the compensation committee granted stock appreciation right awards to our executive officers with the maximum number of shares of our common stock issuable upon exercise of the stock appreciation right awards equal to 67% of

the number of stock appreciation rights granted. In January 2012, the compensation committee granted stock appreciation right awards to our executive officers with the maximum number of shares of our common stock issuable upon exercise of the stock appreciation right award equal to 50% of the number of stock appreciation rights granted.

Stock appreciation rights granted to our executive officers generally vest as to 25% of the grant on the first anniversary of the grant date with the remaining stock appreciation rights vesting quarterly over the next three years and expiring seven years from the date of grant.

Grant of stock appreciation rights to our executive officers are generally made based upon the criteria discussed above. However, there is no set formula for the grant of stock appreciation rights to individual executive officers. During 2012, 1,100,000 stock appreciation right units were granted to our employees. Our named executive officers, namely Messrs. Elyakim, Levy and Dahan, received 105,000, 50,000 and 60,000 stock appreciation right units, respectively, or 20% of the total stock appreciation right units granted in 2012. The amounts of the above referenced stock appreciation rights granted to each of the named executive officers in 2012 are specified in the 2012 grants of plan based awards table of the proxy statement.

Restricted Stock Units Granted. Similar to the rationale for moving to the grant of stock appreciation rights, starting in 2013, the compensation committee decided to grant our executive officers restricted stock units. We grant restricted stock units to our executive officers based upon the same criteria as grants of stock options and stock appreciation rights. We seek to incentivize both retention and stock price appreciation through the grants. In January 2013, the compensation committee granted restricted stock units to Messrs. Elyakim, Levy and Dahan in the amounts of 66,000, 25,000 and 20,000, respectively.

Timing of Grants. Equity incentive awards to our executive officers and other key employees are typically granted annually in conjunction with the compensation committee's review of their individual performance during the prior year. Stock options, stock appreciation rights and restricted stock units are not necessarily granted to each employee every year. Grants of stock options, stock appreciation rights and/or restricted stock units to newly hired executive officers who are eligible to receive them generally are made at the next regularly scheduled compensation committee or board meeting following their hire date.

Stock Ownership Guidelines. We do not currently require our executive officers and members of our board to own a minimum number of shares of our common stock. The compensation committee is satisfied that stock and option holdings among our executive officers and directors are sufficient at this time to provide motivation and to align this group's interests with those of our stockholders.

Retirement Benefits and Perquisites

We do not offer any retirement benefits to our Israeli-based executive officers except for social benefits required pursuant to Israeli labor laws, or are common practice in Israel and are generally available to all Israeli employees. Specifically, based on Israeli labor laws, an Israeli employee is entitled to severance pay upon termination of employment for any reason, including retirement, based on the most recent monthly salary of such employee multiplied by the number of years of employment of such employee. We make a payment of 8.333% of each employee's monthly base salary to an insurance or pension fund to pay for this future liability owed to Israeli

employees upon termination of their employment. In addition, we make a payment of 5% of each employee's monthly base salary to another insurance or pension fund, which accrued amount may be withdrawn by the employee after retirement or, subject to various tax restrictions in Israel, after leaving our employment. We generally provide all of our Israeli employees with a car for business-related purposes and pay the associated expenses. Also, as is customary in Israel applicable to all Israeli employees, we provide our Israeli employees with a certain amount of monthly contributions (7.5% of their base salary) for the benefit of each employee's study and training purposes. The amounts of the above referenced benefits contributed by us to each of the named executive officers in 2012 are specified in the summary compensation table of the proxy statement.

We currently do not provide any material retirement benefits or perquisites to our executive officers that are not generally available to our employees.

Employment Agreements and Post-Termination Protection

The compensation committee also recognizes that, from time to time, it is appropriate to enter into agreements with certain key employees to ensure that we continue to retain their services and to promote stability and continuity within our company. Moreover, employment agreements are generally customary for employees residing in Israel. We have entered into employment agreements with our named executive officers. The varied terms of their employment agreements reflect the importance of retaining their services and their potential contributions to the attainment of our long-term goals. None of the employment agreements with our named executive officers provide for tax gross ups and none includes any "single trigger" change-in-control provisions. The employment agreements with our named executive officers are described in the employment agreements section of the proxy statement.

Financial Restatements

The compensation committee has not adopted a policy with respect to whether we will make retroactive adjustments to any cash- or equity-based incentive compensation paid to executive officers (or others) where the payment was predicated upon the achievement of financial results that were subsequently the subject of a restatement. Our compensation committee believes that this issue is best addressed when the need actually arises, when all of the facts regarding the restatement are known.

Tax and Accounting Treatment of Compensation

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to publicly held companies for compensation exceeding \$1 million paid to certain of the company's executive officers. The limitation applies only to compensation which is not considered to be performance-based. Our 2001 Stock Equity Plan and 2012 Equity Incentive Plan are structured so that any compensation deemed paid to an executive officer in connection with the exercise of option grants made under the plan will qualify as performance-based compensation which will not be subject to the \$1 million limitation. Generally, our executive officers are granted stock options, stock appreciation rights and restricted stock units under the 2012 Equity Incentive Plan and were granted stock options and stock appreciation rights under the 2001 Stock Equity Plan and 2003 Israeli Share Incentive Plan prior to their termination. The compensation committee is aware of the limitations imposed by Section 162(m), and the exemptions available therefrom, and will address the issue of deductibility when and if circumstances warrant. The

compensation committee also reserves the right to use its judgment to authorize compensation payments that do not comply with the exemptions in Section 162(m) when the committee believes that such payments are appropriate and in the best interests of our stockholders, after taking into account changing business conditions or the executive officer's performance. In addition, the compensation committee cannot ensure that compensation intended to qualify for deductibility under Section 162(m) will in fact be deductible because: (1) a number of requirements must be satisfied in order for the compensation to qualify; and (2) uncertainties as to the application and interpretation surrounding this section currently exist.

Compensation Committee Report

The compensation committee has reviewed and discussed the Compensation Discussion and Analysis set forth above with our management. Based on its review and discussions, the committee recommended to our board of directors that the Compensation Discussion and Analysis be included in this report.

Nonqualified Deferred Compensation

We do not provide any nonqualified defined contribution or other deferred compensation plans to our named executive officers.

Employment Agreements

Each of our named executive officers has a written employment agreement with us.

In connection with Ofer Elyakim's appointment as our Chief Executive Officer in July 2009, he entered into an employment agreement with DSP Israel, effective July 1, 2009. Mr. Elyakim's current annual salary was increased in January 2013 and is now \$300,000, subject to adjustment from time to time. In addition to any other bonus program approved by the board, Mr. Elyakim is entitled to an annual bonus, under the terms of the performance-based bonus plan approved by the compensation committee of our board of directors. Mr. Elyakim is employed at will. In November 2012, our compensation committee unanimously approved an amendment to Mr. Elyakim's employment agreement, effective on November 5, 2012. Pursuant to the amendment, if Mr. Elyakim desires to terminate his employment with the company (which for purposes of Mr. Elyakim's employment agreement includes any subsidiary of the company) without good reason (as defined in his employment agreement), he will have to notify the company eighteen months in advance. Similarly, if the company desires to terminate Mr. Elyakim's employment with the company without cause, it will have to notify Mr. Elyakim eighteen months in advance. However, if the company wishes to terminate Mr. Elyakim's employment but fails to provide him with the eighteen-month advance written notice, Mr. Elyakim would be entitled to receive an amount equal to eighteen months of his then-effective salary. If the requisite advance notice of eighteen months is provided by Mr. Elyakim to the company if he desires to terminate his employment with the company without good reason, then: (i) all of his rights under his employment agreement would continue during the eighteen-month period, and (ii) all equity awards held by him prior to the termination of his employment with the company would accelerate and immediately vest eighteen months following the date of such requisite notice and be exercisable in whole or in part at any time from the date of the vesting of the respective equity awards for a period of two years. In addition, if Mr. Elyakim's employment with the company is terminated by (i) the company following a change in control (as defined in his employment agreement); (ii) Mr. Elyakim for good reason; or (iii) the company without cause (as defined in his employment agreement), all of Mr. Elyakim's rights under his employment agreement would continue for eighteen months and all equity awards held by Mr. Elyakim would accelerate and immediately vest and be exercisable in whole or in part at any time for two years following the termination of his employment. On March 5, 2013, the employment agreement of Mr. Elyakim was amended, effective as of March 5, 2013, with unanimous approval by our compensation committee. The amendment amended, restated and clarified the specific circumstances upon which we may terminate Mr. Elyakim's employment for cause.

In June 2002, in connection with Dror Levy's initial employment as our Controller, he entered into an employment agreement with DSP Israel. No further agreement was entered into with Mr. Levy when he became our Chief Financial Officer. Mr. Levy's current annual salary was increased in January 2013 and is now approximately \$216,000, subject to adjustment from time to time (Mr. Levy's salary is determined in NIS and is 800,000 NIS annually). In addition to any other bonus program approved by the board, Mr. Levy is entitled to an annual bonus under the terms of the performance-based bonus plan approved by the compensation committee of our board of directors. Mr. Levy is employed at will. In November 2012, our compensation committee unanimously approved an amendment to Mr. Levy's employment agreement, effective on November 5, 2012. Pursuant to the amendment, if Mr. Levy desires to terminate his employment with the company (which for purposes of Mr. Levy's employment agreement includes any subsidiary of the company) without good reason (as defined in his employment agreement), he will have to notify the company one year in advance. Similarly, if the company desires to terminate Mr. Levy's employment with the company without cause, it will have to notify Mr. Levy one year in advance. However, if the company wishes to terminate Mr. Levy's employment but fails to provide him with the one-year advance written notice, Mr. Levy would be entitled to receive an amount equal to one year of his then-effective salary. If the requisite advance notice of one year is provided by Mr. Levy to the company if he desires to terminate his employment with the company without good reason, then: (i) all of his rights under his employment agreement would continue during the one-year period, and (ii) all equity awards held by him prior to the termination of his employment with the Company would accelerate and immediately vest one year following the date of such requisite notice and be exercisable in whole or in part at any time from the date of the vesting of the respective equity awards for a period of one year. In addition, if Mr. Levy's employment with the company is terminated by (i) the company following a change in control (as defined in his employment agreement); (ii) Mr. Levy for good reason; or (iii) the company without cause (as defined in his employment agreement), all of Mr. Levy's rights under his employment agreement would continue for one year and all equity awards held by Mr. Levy would accelerate and immediately vest and be exercisable in whole or in part at any time for one year following the termination of his employment. On March 5, 2013, the employment agreement of Mr. Levy was amended, effective as of March 5, 2013, with unanimous approval by our compensation committee. The amendment amended, restated and clarified the specific circumstances upon which we may terminate Mr. Levy's employment for cause.

In connection with David Dahan's appointment as our Chief Operating Officer, he executed an employment agreement with DSP Group Israel. Pursuant to the agreement, Mr. Dahan's annual salary is approximately \$202,000, subject to adjustment from time to time (Mr. Dahan's salary is determined in New Israeli Shekel ("NIS") and is 62,600 NIS per month). Mr. Dahan also is eligible to receive an annual bonus under the terms of the performance-based bonus plan approved by the compensation committee of our board of directors. Mr. Dahan is employed at will. In the event Mr. Dahan desires to terminate his employment with us, he must notify us three months in advance. Similarly, if we desire to terminate Mr. Dahan's employment with us, we must notify Mr. Dahan three months in advance; provided that we may terminate Mr. Dahan's employment immediately without notice for cause ((as defined in his employment agreement). Other than for cause, we also may terminate Mr. Dahan's employment without the three-months advance notice if we pay him an amount equal to three-months of his then-effective salary. Mr. Dahan's employment agreement does not provide for any additional compensation in

the event of termination of his employment or a change in control of the company. On March 5, 2013, the employment agreement of Mr. Dahan was amended effective as of March 5, 2013, with unanimous approval by our compensation committee. The amendment amended, restated and clarified the specific circumstances upon which we may terminate Mr. Dahan's employment for cause.

DIRECTOR COMPENSATION

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties to the company as well as the skill-level we require of members of our board. We do not currently have a minimum share ownership requirement for our directors.

Cash Compensation Paid to Board Members

Directors who are also employees do not receive any additional compensation for their services as directors. Directors who are not employees receive an annual retainer of \$32,000, payable in quarterly installments of \$8,000 each. The retainer contemplates attendance at four board meetings per year. Additional board meetings of a face-to-face nature are compensated at a rate of \$1,000 per meeting. In addition, committee meetings of a face-to-face nature and on a telephonic basis are compensated at a rate of \$1,000 per meeting. All directors are reimbursed for expenses incurred in connection with attending board and committee meetings.

Stock Option Program

Each of our non-employee directors is also entitled to participate in our 1993 Director Stock Option Plan (the “1993 Plan”). The director option plan provides for the grant of non-statutory options to our non-employee directors. The director option plan is designed to work automatically; however, to the extent administration is necessary, it will be provided by our board of directors. The director option plan provides that each eligible director is granted an option to purchase 30,000 shares of our common stock on the date on which he first becomes a director (the “First Option”). Thereafter, each non-employee director is granted a subsequent option to purchase 15,000 shares of our common stock on January 1 of each year if, on such date, he shall have served on our board of directors for at least six months (a “Subsequent Option”). In addition, an additional option to purchase 15,000 shares of our common stock (a “Committee Option”) is granted on January 1 of each year to each non-employee director for each committee of the board on which he shall have served as a chairperson for at least six months.

Subject to stockholder approval of the increase in the name of shares authorized under the company's Amended and Restated 2012 Equity Incentive Plan (the "2012 Plan"), we intend to grant our non-employee directors stock options under a subplan under the 2012 Plan. This subplan generally will have similar terms as the 1993 Plan. For more information about the terms of the director subplan under the 2012 Plan, see Proposal 3 of the proxy statement.

The following table sets forth the compensation paid to each of our non-employee directors during fiscal year 2012.

PROPOSAL NO. 2

**AMENDMENT AND RESTATEMENT OF THE
1993 EMPLOYEE STOCK PURCHASE PLAN**

Our stockholders are being asked to approve an amendment and restatement of our Amended and Restated 1993 Employee Stock Purchase Plan (the "Purchase Plan"). The proposed amendment and restatement of the Purchase Plan will increase the number of shares reserved for issuance under the Purchase Plan from 3,300,000 shares to 3,800,000 shares. The purpose of amending and restating the Purchase Plan is to enable us to continue to attract and retain talented employees by offering them participation in the Purchase Plan.

Our board of directors has approved the proposed amendment and restatement of the Purchase Plan as described above.

The purpose of the Purchase Plan is to provide our employees and employees of our subsidiaries with an opportunity to purchase common stock through accumulated payroll deductions. The Purchase Plan is intended to qualify as an "Employee Stock Purchase Plan" under Section 423 of the Internal Revenue Code of 1986 (the "Code"). Accordingly, the provisions of the Purchase Plan will be construed so as to extend and limit participation in the Purchase Plan in a manner consistent with the requirements of the Code. The Purchase Plan is intended to enable us and our subsidiaries to attract and retain the best available personnel, to provide additional incentive to current employees, and to promote the success of the company's business. The board of directors believes that our long-term success is dependent upon the ability of the company and our subsidiaries to attract and retain superior individuals who, by virtue of their ability and qualifications, make important contributions to us.

Subject to stockholder approval, we plan to register the additional 500,000 shares reserved under the Purchase Plan on a Registration Statement on Form S-8.

A general description of the principal terms of the Amended and Restated Purchase Plan as proposed is set forth below. However, the summary does not purport to be a complete description of all of the provisions of the Purchase Plan.

General Description

The Purchase Plan was adopted by our board of directors and approved by our stockholders in 1993. There are currently 3,300,000 shares of common stock reserved for issuance under the Purchase Plan. If the amendment and restatement of the Purchase Plan is approved by the stockholders, the number of shares of common stock reserved for issuance under the Purchase Plan will be increased by 500,000 shares from 3,300,000 shares to 3,800,000 shares. As of April 1, 2013, a total of 2,902,575 shares have been purchased under the Purchase Plan, and 397,425 shares of common stock remained available for purchase thereunder. As of April 1, 2013, the closing price of a share of our common stock as reported on the NASDAQ Global Market was \$7.69.

The number of shares of our common stock reserved for issuance under the Purchase Plan is also subject to adjustment in the event of a stock split, stock dividend or other similar change in the common stock or the capital structure of the company.

The Purchase Plan is administered by the board of directors, or a committee of the board as designated by the board from time to time (the “Plan Administrator”), which has the authority to determine the terms and conditions under which purchase rights are to be granted under the Purchase Plan for any offering period during the term of the Purchase Plan, and to resolve all questions relating to the administration of the plan.

The purpose of the Purchase Plan is to provide our employees who participate in the Purchase Plan with an opportunity to purchase common stock through payroll deductions. The Purchase Plan is intended to qualify as an “employee stock purchase plan” under the provisions of Section 423 of the Code. Employees, including officers, of the company and certain of our subsidiaries (as designated by our board of directors) are eligible to participate in the Purchase Plan. Payroll deductions may be up to 10% (in whole percentage increments) of a participant’s compensation (as defined in the Purchase Plan). Notwithstanding the foregoing, to the extent necessary to comply with Section 423(b)(8) of the Code, a participant’s payroll deductions may be decreased to zero percent during any purchase period that is scheduled to end during the relevant calendar year.

Any person who is employed by us or certain of our subsidiaries (as designated our board of directors) for at least 20 hours per week and more than five months in a calendar year is eligible to participate in the Purchase Plan, provided that the employee is employed on the first trading day of an offering period and subject to certain limitations imposed by Section 423(b) of the Code. Eligible employees become participants in the Purchase Plan by delivering to us a subscription agreement authorizing payroll deductions prior to the commencement of the applicable offering period, unless a later date is set by our board of directors for all eligible employees. At December 31, 2012, the potential number of participants in the Purchase Plan was approximately 320 employees.

The Purchase Plan has consecutive, overlapping offering periods of 24 months’ duration commencing each January 1 and July 1. The Plan Administrator may alter the duration of the offering periods if such change is announced at least 15 days prior to the scheduled beginning of the first offering period to be affected thereafter.

The price per share at which shares are sold under the Purchase Plan is equal to 85% of the fair market value of the common stock on the enrollment date or on the exercise date, whichever is lower. The fair market value of the common stock on a given date is the closing sale price of the common stock on the NASDAQ Global Select Market as of such date. The number of shares of common stock which may be purchased is subject to adjustment in the event of a stock split, stock dividend or other similar change in the common stock or the capital structure of the company. We make no cash contributions to the Purchase Plan, but bear the expenses of administration.

At the beginning of an offering period, each participant will be granted the right to purchase up to the number of shares determined by dividing 10% of the participant’s

compensation receivable during the offering period by the applicable purchase price. No employee shall be granted a purchase right under the Purchase Plan (1) if immediately after the grant of the purchase right, the employee would own 5% or more of the total combined voting power or value of all classes of stock of the company or of any of our subsidiaries (including stock which may be purchased under the Purchase Plan or issued pursuant to any other options) or (2) which would permit the employee to buy more than \$25,000 worth of stock (determined at the fair market value of the shares at the time the purchase right is granted) in any calendar year. No fractional shares will be purchased; any payroll deductions accumulated in a participant's account which are not sufficient to purchase a full share shall be carried over to the next purchase period or offering period, whichever applies, or returned to the participant, if the participant withdraws from the Purchase Plan.

A participant may increase or decrease the rate of his or her payroll deduction for the remainder of an offering period by filling out a new subscription agreement and delivering it to us (or our designee). The participant's new subscription agreement will remain in effect for the entire offering period and each subsequent offering period, unless the participant further modifies his subscription or terminates his participation in the Purchase Plan.

A participant's interest in a given offering period may be terminated in whole, but not in part, by delivering to us a written notice which indicates the participant's withdrawal from such offering period. Such withdrawal may be elected at any time prior to the end of the applicable offering period. Any withdrawal by the participant of accumulated payroll deductions for a given offering period automatically terminates the participant's interest in that offering period. If a participant withdraws from an offering period, payroll deductions will not resume at the beginning of the succeeding offering period unless the participant delivers to us a new subscription agreement.

Upon termination of a participant's employment relationship, including by virtue of his or her having failed to remain an employee with us for at least twenty (20) hours per week during an offering period in which the employee is a participant, the payroll deductions credited to such participant's account during the offering period but not yet used to exercise the option will be returned to such participant or, in the case of his or her death, to the person or persons entitled thereto, and such participant's option will be automatically terminated.

No rights or accumulated payroll deductions of a participant under the Purchase Plan may be pledged, assigned, transferred or otherwise disposed of for any reason (other than by will and the laws of descent and distribution, as provided in the Purchase Plan) and any such attempt may be treated by us as an election to withdraw from the Purchase Plan.

Subject to any required action by our stockholders, in the event any change, such as a stock split or dividend, is made in our capitalization which results in an increase or decrease in the number of outstanding shares of common stock without receipt of consideration by the company, an appropriate adjustment shall be made in the number of shares under the Purchase Plan and the price per share covered by each outstanding option. In the event of a proposed dissolution or liquidation of the company, the offering periods in progress will terminate immediately prior to the consummation of such dissolution or liquidation, unless otherwise provided by our board of directors. In the event of a sale of all or substantially all of the assets of

the company, or the merger of the company with or into another corporation, each option under the Purchase Plan shall be assumed, or an equivalent option shall be substituted, by such successor corporation or a parent or subsidiary of such successor corporation, unless the Plan Administrator determines, in the exercise of its sole discretion and in lieu of such assumption or substitution, to shorten the offering period then in progress by setting a new exercise date (the "New Exercise Date"). If the Plan Administrator shortens the offering period then in progress in lieu of assumption in the event of a sale of assets or merger as described above, the Plan Administrator shall notify each participant in writing, at least ten business days prior to the New Exercise Date, that the exercise date for his or her option has been changed to the New Exercise Date and that his or her option will be exercised automatically on the New Exercise Date, unless prior to such date he or she has withdrawn from the offering period.

Amendment and Termination of the Purchase Plan

Our board of directors may amend the Purchase Plan at any time or from time to time or may terminate the Purchase Plan without approval of the stockholders. To the extent necessary to comply with applicable provisions of federal securities laws, state corporate and securities laws, the rules of any applicable stock exchange or national market system, and the rules of any foreign jurisdiction applicable to purchase rights granted to residents therein, we will obtain stockholder approval of any amendment to the Purchase Plan in such a manner and to such a degree as required. No amendment may alter any option previously granted under the Purchase Plan without the consent of the affected participant if such amendment would adversely affect the rights of the participant under the option, provided that the Purchase Plan or any one or more offering periods may be terminated by the Plan Administrator on any exercise date or by the Plan Administrator establishing a new exercise date with respect to any offering period and/or purchase period then in progress if the Plan Administrator determines that the termination of the Purchase Plan or such one or more offering periods is in the best interests of the company and our stockholders. Without stockholder consent and without regard to whether any participant rights may be considered to have been "adversely affected," the Plan Administrator shall be entitled to limit the frequency and/or number of changes in the amount withheld during offering periods, change the length of purchase periods within any offering period, change the length of subsequent offering periods, determine whether subsequent offering periods shall be consecutive or overlapping, establish the exchange ratio applicable to amounts withheld in a currency other than U.S. dollars, establish additional terms, conditions, rules or procedures to accommodate the rules or laws of applicable foreign jurisdictions, permit payroll withholding in excess of the amount designated by a participant in order to adjust for delays or mistakes in our processing of properly completed withholding elections, establish reasonable waiting and adjustment periods and/or accounting and crediting procedures to ensure that amounts applied toward the purchase of common stock for each participant properly correspond with amounts withheld from the participant's compensation, and establish such other limitations or procedures as the Plan Administrator determines in its sole discretion advisable and which are consistent with the Purchase Plan. The Purchase Plan will remain in effect until terminated by the board.

The benefits to be received by our employees pursuant to the amended and restated Purchase Plan are not determinable at this time.

Certain U.S. Federal Income Tax Information

The following summarizes the federal income tax consequences of participation under the Purchase Plan and certain tax effects to us based upon federal income tax laws in effect on the date of this proxy statement. This summary does not purport to be complete, and does not discuss any non-U.S., state or local tax consequences. In addition, the discussion does not address tax consequences which may vary with, or are contingent on, a participant's individual circumstances. Each participant in the Purchase Plan is strongly urged to consult with his or her tax advisor regarding participation in the Purchase Plan.

The Purchase Plan and the right of participants to make purchases thereunder are intended to qualify under the provisions of Section 423 of the Code. Under these provisions, no income will be taxable to a participant at the time of grant of the purchase right or purchase of shares. Amounts deducted from a participant's pay under the Purchase Plan are part of the employee's regular compensation and remain subject to federal, state and local income and employment withholding taxes.

Taxable income will not be recognized until there is a sale or other disposition of the shares acquired under the Purchase Plan or in the event the participant should die while still owning the purchased shares.

If the participant sells or otherwise disposes of the purchased shares within two years after the start date of the offering period in which such shares were acquired or within one year after the actual purchase date of those shares, then the participant will recognize ordinary income

in the year of such sale or disposition equal to the amount by which the fair market value of the shares on the purchase date exceeded the purchase price paid for those shares, and we will be entitled to an income tax deduction, for the taxable year in which such sale or disposition occurs, equal in amount to such excess.

If the participant sells or disposes of the purchased shares more than two years after the start date of the offering period in which such shares were acquired and more than one year after the actual purchase date of those shares, then the participant will recognize ordinary income in the year of such sale or disposition equal to the lesser of (i) the amount by which the fair market value of the shares on the sale or disposition date exceeds the purchase price paid for those shares or (ii) 15% of the fair market value of the shares on the start date of the offering period, and any additional gain upon the disposition will be taxed as long-term capital gain. We will not be entitled to any income tax deduction with respect to such sale or disposition.

If the participant still owns the purchased shares at the time of his or her death, the lesser of (i) the amount by which the fair market value of the shares on the date of death exceeds the purchase price or (ii) 15% of the fair market value of the shares on his or her entry date into the offering period in which those shares were acquired will constitute ordinary income in the year of death.

Required Vote

The affirmative vote of the holders of a majority of the shares of our common stock present or represented at the annual meeting is required to approve the amendment and restatement of the Purchase Plan. Abstentions will have the same effect as “no” votes on this proposal, whereas broker “non-votes” will have no effect.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF
THE PROPOSED AMENDMENT AND RESTATEMENT OF THE 1993 EMPLOYEE
PURCHASE PLAN**

PROPOSAL NO. 3:

APPROVAL OF THE AMENDMENT AND RESTATEMENT OF THE 2012 EQUITY INCENTIVE PLAN

General

Our stockholders are being asked to approve an amendment and restatement of our 2012 Equity Incentive Plan (the "2012 Plan"). The proposed amendment and restatement of the 2012 Plan will increase the number of shares reserved for issuance under the 2012 Plan from 350,000 shares to 1,450,000 shares. The purpose of amending and restating the 2012 Plan is to enable us to continue to attract and retain the best available personnel, including employees and directors, by offering them participation in the 2012 Plan.

Our board of directors has approved the proposed amendment and restatement of the 2012 Plan as described above. We believe strongly that the approval of the amendment and restatement of the 2012 Plan is essential to our success. Our employees are our most valuable assets. Stock options and the other awards permitted under the 2012 Plan are vital to our ability to attract and retain outstanding and highly skilled employees, especially in the competitive labor markets in which we compete. These awards also are crucial to our ability to motivate employees to achieve our goals. The terms of the 2012 Plan are designed to allow the Company to continue to attract, retain and motivate people whose skills and performance are critical to the Company's success. We will continue to monitor the environment in which we operate and make changes to our equity compensation program to help us meet our goals, including achieving long-term stockholder value.

In 2012, the Company entered into a commitment to grant a number of shares subject to options, stock appreciation rights or other stock awards to employees or non-employee directors at an annual average rate of 5.83% or less over the three fiscal year period commencing on January 1, 2012. This number represented the cap placed upon our Global Industry Classification Standard (GICS) code by Institutional Shareholder Services (ISS) at the time, and was a number we deemed reasonable for a maximum given our own likely internal needs. Management is recommending that the Board commit to extend our original commitment by one additional fiscal year, thereby taking it out to 4 years in total in order to give assurance to our stockholders that we will continue to utilize equity in a measured fashion. It bears noting that the original commitment of 5.83% is in fact lower than the current cap of 6.58%; however, rather than managing two burn rates during overlapping years, we have determined to hold to the lower one and extend the duration. We are sensitive to the concerns of our stockholders regarding dilution and we intend to again discuss this issue directly with our investors to get their points of view. We will strive to balance the dilutive impact of any net issuances, reflective of company buyback programs, with the motivational and retentive needs within our organization.

We trust that this additional year will give assurance not only to our stockholders but also to the proxy advisors, when making their voting recommendations, particularly in light of the facts that (1) it is lower than this year's cap; and (2) our actual burn rate over the past two years is lower than both of the caps. For purposes of calculating the annual average rate, the numerator for calculating the percentage for each fiscal year shall be the total number of shares granted in such fiscal year and the denominator shall be the weighted average number of common stock outstanding at the end of fiscal year. For this purpose, when determining the number of shares granted in a year, any full-value awards (these are restricted stock awards and restricted stock units, but not stock options) will count as equivalent to 1.5 shares.

Subject to stockholder approval, we plan to register the additional 1,100,000 shares reserved under the 2012 Plan on a Registration Statement on Form S-8.

As of April 1, 2013, the closing sales price of a share of the Company's common stock as reported on the NASDAQ Global Market was \$7.69. As of December 31, 2012, the potential number of participants in the 2012 Plan was approximately 320 employees.

A general description of the principal terms of the Amended and Restated 2012 Plan as proposed is set forth below. However, the summary does not purport to be a complete description of all of the provisions of the 2012 Plan.

General Description

Purpose. The purposes of the 2012 Plan are to attract and retain the best available personnel, to provide additional incentives to our employees, consultants and directors through ownership of our Shares, and to promote the success of the Company's business.

Shares Reserved for Issuance under the 2012 Plan. If approved by our stockholders, the total number of Shares reserved for issuance under the 2012 Plan will be 1,450,000 Shares.

The maximum number of Shares with respect to which options and stock appreciation rights may be granted to a participant during a calendar year is 175,000 Shares. In connection with a participant's commencement of service with the Company or a related entity of the Company, the participant may be granted options and stock appreciation rights for up to an additional 175,000 Shares, which would not count against the limit set forth in the previous sentence. For awards of restricted stock and restricted stock units that are intended to be performance-based compensation under Section 162(m) of the Code, the maximum number of Shares subject to such awards that may be granted to a participant during a calendar year is 175,000 Shares.

Share Counting. Any Shares covered by an award which is forfeited, canceled, expires or is settled in cash shall be deemed not to have been issued for purposes of determining the maximum number of Shares which may be issued under the 2012 Plan. Shares that have actually been issued under the 2012 Plan pursuant to an award shall not be returned to the 2012 Plan and shall not become available for future grant under the 2012 Plan, except where unvested Shares are forfeited or repurchased by the Company at the lower of their original purchase price or their fair market value at the time of such repurchase. Shares tendered or withheld in payment of an option exercise price, Shares withheld by the Company to pay any tax withholding obligation, and all Shares covered by the portion of a stock appreciation right that is exercised (regardless of whether Shares are actually issued in connection with such exercise) shall not be returned to the 2012 Plan and shall not become available for future issuance under the 2012 Plan.

Administration. The 2012 Plan will be administered by the 2012 Plan administrator (the "Administrator"), defined as the Board or one (1) or more committees designated by the Board. The Compensation Committee will initially act as the Administrator. With respect to grants to Officers and Directors, the Compensation Committee shall be constituted in such a manner as to satisfy applicable laws, including Rule 16b-3 promulgated under the Exchange Act and Section 162(m) of the Code.

No Repricings without Stockholder Approval. The Company shall obtain stockholder approval prior to (i) the reduction of the exercise price of any option or the base appreciation amount of any stock appreciation right awarded under the 2012 Plan or (ii) the cancellation of an option or stock appreciation right at a time when its exercise price or base appreciation amount exceeds the fair market value of the underlying Shares, in exchange for another option, stock appreciation right, restricted stock or other award or for cash (unless the cancellation and exchange occurs in connection with a Corporate Transaction (as defined in the 2012 Plan and as described below)). Notwithstanding the foregoing, cancelling an option or stock appreciation right in exchange for another option, stock appreciation right, restricted stock, or other award with an exercise price, purchase price or base appreciation amount that is equal to or greater than the exercise price or base appreciation amount of the original option or stock appreciation right will not be subject to stockholder approval.

Terms and Conditions of Awards. The 2012 Plan provides for the grant of stock options, restricted stock, restricted stock units, dividend equivalent rights and stock appreciation rights (collectively referred to as “awards”). Stock options granted under the 2012 Plan may be either incentive stock options under the provisions of Section 422 of the Code, or nonqualified stock options. Incentive stock options may be granted only to employees. Awards other than incentive stock options may be granted to our employees, consultants and directors or to employees, consultants and directors of our related entities. To the extent that the aggregate fair market value of the Shares subject to options designated as incentive stock options which become exercisable for the first time by a participant during any calendar year exceeds \$100,000, such excess options shall be treated as nonqualified stock options. Under the 2012 Plan, awards may be granted to such employees, consultants or directors who are residing in non-U.S. jurisdictions as the Administrator may determine from time to time. Each award granted under the 2012 Plan shall be designated in an award agreement.

Subject to applicable laws and except as otherwise provided by the Board, the Administrator will have the authority, in its discretion, to select employees, consultants and directors to whom awards may be granted from time to time, to determine whether and to what extent awards are granted, to determine the number of Shares or the amount of other consideration to be covered by each award, to approve forms of award agreement for use under the 2012 Plan, to determine the terms and conditions of any award (including the vesting schedule applicable to the award), to amend the terms of any outstanding award granted under the 2012 Plan (provided that any amendment that would adversely affect a participant’s rights under an outstanding award would not be made without the participant’s written consent), to construe and interpret the terms of the 2012 Plan and awards granted, to establish additional terms, conditions, rules or procedures to accommodate the rules or laws of applicable non-U.S. jurisdictions and to take such other action, not inconsistent with the terms of the 2012 Plan, as the Administrator deems appropriate.

The term of any award granted under the 2012 Plan will be stated in the applicable award agreement but may not exceed a term of more than ten years (or five years in the case of an incentive stock option granted to any participant who owns stock representing more than 10% of our combined voting power or any parent or subsidiary of us), excluding any period for which the participant has elected to defer the receipt of the Shares or cash issuable pursuant to the award pursuant to a deferral program the Administrator may establish in its discretion.

The 2012 Plan authorizes the Administrator to grant incentive stock options at an exercise price not less than 100% of the fair market value of our common stock on the date the option is granted (or 110%, in the case of an incentive stock option granted to any employee who owns stock representing more than 10% of our combined voting power or any parent or subsidiary of us). In the case of nonqualified stock options, stock appreciation rights, and awards intended to qualify as performance-based compensation, the exercise price, base appreciation amount or purchase price, if any, shall be not less than 100% of the fair market value per Share on the date of grant. In the case of all other awards granted under the 2012 Plan, the exercise or purchase price shall be determined by the Administrator. The exercise or purchase price is generally payable in cash, check, Shares or, with respect to options, payment through a broker-dealer sale and remittance procedure or a “net exercise” procedure, or any combination of the foregoing methods of payment.

Under the 2012 Plan, the Administrator may establish one or more programs to permit selected participants the opportunity to elect to defer receipt of consideration payable under an award. The Administrator also may establish under the 2012 Plan separate programs for the grant of particular forms of awards to one or more classes of participants.

Section 162(m) of the Code. The maximum number of Shares with respect to which options and stock appreciation rights may be granted to a participant during a calendar year is 175,000 Shares. In connection with a participant's commencement of service with the Company or a related entity of the Company, the participant may be granted options and stock appreciation rights for up to an additional 175,000 shares, which would not count against the limit set forth in the previous sentence. The foregoing limitations shall be adjusted proportionately by the Administrator in the event of a stock split, reverse stock split, stock dividend, combination or reclassification of Shares or other similar change in our Shares or our capital structure. Under Code Section 162(m) no deduction is allowed in any taxable year of the Company for compensation in excess of \$1 million paid to the Company's "covered employees." An exception to this rule applies to compensation that is paid to a covered employee pursuant to a stock incentive plan approved by stockholders and that specifies, among other things, the maximum number of Shares with respect to which options and stock appreciation rights may be granted to eligible participants under such plan during a specified period. Compensation paid pursuant to options and stock appreciation rights granted under such a plan and with an exercise price or base appreciation amount equal to the fair market value of common stock on the date of grant is deemed to be inherently performance-based, since such awards provide value to participants only if the stock price appreciates. To the extent required by Section 162(m) of the Code or the regulations thereunder, in applying the foregoing limitations, if any option or stock appreciation right is canceled, the canceled award shall continue to count against the maximum number of Shares with respect to which an award may be granted to a participant.

For awards of restricted stock and restricted stock units that are intended to be performance-based compensation under Section 162(m) of the Code, the maximum number of Shares subject to such awards that may be granted to a participant during a calendar year is 175,000 Shares. The foregoing limitation shall be adjusted proportionately by the plan administrator in the event of a stock split, reverse stock split, stock dividend, combination or reclassification of Shares or other similar change in our Shares or our capital structure. In order for restricted stock and restricted stock units to qualify as performance-based compensation, the Administrator must establish a performance goal with respect to such award in writing not later than 90 days after the commencement of the services to which it relates (or, if earlier, the date after which 25% of the period of service to which the performance goal relates has elapsed) and while the outcome is substantially uncertain. In addition, the performance goal must be stated in terms of an objective formula or standard.

Under Code Section 162(m), a "covered employee" is the Company's chief executive officer and the three other most highly compensated officers of the Company other than the chief financial officer.

The 2012 Plan includes performance criteria that may be considered, individually or in combination, by the Administrator when granting performance-based awards, including the following: (i) sales and net sales, (ii) appreciation in and/or maintenance of the price of Shares or any other publicly-traded securities of the Company, (iii) expense levels, (iv) sales or licenses of the Company's assets, including its intellectual property, whether in a particular jurisdiction or territory or globally, or through partnering transactions, (v) implementation, completion or attainment of measurable objectives with respect to research, development, manufacturing, commercialization, products or projects, production volume levels, acquisitions and divestitures and recruiting and maintaining personnel, (vi) financing and other capital raising transactions (including sales of the Company's equity or debt securities, factoring transactions), (vii) revenue growth or product revenue growth, (viii) profits (including gross profits, operating profits, net operating profits, controllable profits and profit margins), (ix) financial ratios, including those measuring liquidity, activity, profitability or leverage, (x) cost of capital or assets under management, (xi) net operating income (before or after taxes) or operating income (before or after taxes), (xii) earnings (including earnings before taxes, earnings before interest and taxes, earnings before interest, taxes and depreciation, earnings before interest, taxes and amortization or earnings before interest, taxes, depreciation and amortization), (xiii) revenue, (xiv) strategic partnerships or transactions (including in-licensing and out-licensing of intellectual property and establishing relationships with commercial entities with respect to the marketing, distribution and sale of the Company's products (including with group purchasing organizations, distributors and other vendors)), (xv) co-development, co-marketing, profit sharing, joint venture or other similar arrangements, (xvi) pre- or after-tax income (before or after allocation of corporate overhead and bonus), (xvii) market share, (xviii) regulatory achievements (including submitting or filing applications or other documents with regulatory authorities or receiving approval of any such applications or other documents; passing pre-approval inspections (whether of the Company or third parties)), (xix) operating margins, gross margins or cash margins, (xx) earnings per share, (xxi) comparisons with various stock market indices, (xxii) stockholder equity, (xxiii) debt reduction, (xxiv) net income (before or after taxes), (xxv) reductions in costs, (xxvi) year-end cash, (xxvii) return on equity, (xxviii) operating cash flow or cash flow per share (before or after dividends) and cash flow or cash flow per share (before or after dividends), (xxix) working capital levels, including cash, inventory and accounts receivable, (xxx) total shareholder return, (xxxii) return on capital (including return on total capital or return on invested capital), (xxxiii) research and development achievements, (xxxiv) return on assets or net assets, (xxxv) cash flow return on investment, (xxxvi) operating efficiencies, (xxxvii) economic value-added models or equivalent metrics, (xxxviii) success in recruitment of financial advisors, (xxxix) customer growth, (xl) employee or customer satisfaction (including objective customer indicators), (xli) productivity, (xlii) supplier awards from significant customers, (xliii) credit rating, (xliv) contract awards or backlog, (xlv) bookings or orders, (xlvi) budget comparisons, and (xlvii) improvements in capital structure. The performance criteria may be applicable to the Company, any parent or subsidiary of the Company, and/or any individual business units of the Company or any parent or subsidiary of the Company.

Change in Capitalization. Subject to any required action by the stockholders of the Company, the number of Shares covered by outstanding awards, the number of Shares that have been authorized for issuance under the 2012 Plan, the exercise or purchase price of each outstanding award, the maximum number of Shares that may be granted subject to awards to any participant in a calendar year, as well as other terms that the Administrator determines require

adjustment, shall be proportionally adjusted by the Administrator in the event of (i) any increase or decrease in the number of issued Shares resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of the Shares or similar transaction affecting the Shares, (ii) any other increase or decrease in the number of issued Shares effected without receipt of consideration by the Company or (iii) any other transaction with respect to our Shares including a corporate merger, consolidation, acquisition of property or stock, separation (including a spin-off or other distribution of stock or property), reorganization, liquidation (whether partial or complete), distribution of cash or other assets to stockholders other than a normal cash dividend, or any similar transaction; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been "effected without receipt of consideration." Such adjustment shall be made by the Administrator and its determination shall be final, binding and conclusive.

Corporate Transaction. Effective upon the consummation of a Corporate Transaction, all outstanding awards under the 2012 Plan will terminate unless the awards are assumed in connection with the Corporate Transaction. In addition, except as provided otherwise in an individual award agreement, for the portion of each award that is neither assumed nor replaced, such portion of the award shall automatically become fully vested and exercisable and be released from any repurchase or forfeiture rights (other than repurchase rights exercisable at fair market value) for all of the Shares (or other consideration) at the time represented by such portion of the award, immediately prior to the specified effective date of such Corporate Transaction, provided that the Grantee's Continuous Service has not terminated prior to such date.

Under the 2012 Plan, Corporate Transaction includes a merger or consolidation in which the Company is not the surviving entity, except for a transaction the principal purpose of which is to change the state in which the Company is incorporated; the sale, transfer or other disposition of all or substantially all of the assets of the Company; the complete liquidation or dissolution of the Company; any reverse merger or series of related transactions culminating in a reverse merger in which the Company is the surviving entity but (i) the Shares outstanding immediately prior to such merger are converted or exchanged by virtue of the merger into other property or (ii) in which securities possessing more than fifty percent (50%) of the total combined voting power of the Company's outstanding securities are transferred to a person or persons different from those who held such securities immediately prior to such merger or the initial transaction culminating in such merger; and an acquisition in a single or series of related transactions by any person or related group of persons (other than the Company or by a Company-sponsored employee benefit plan) of beneficial ownership of securities possessing more than fifty percent (50%) of the total combined voting power of the Company's outstanding securities.

Change in Control. Except as provided otherwise in an individual award agreement, in the event of a Change in Control (other than a Change in Control which also is a Corporate Transaction), all outstanding awards under the 2012 Plan automatically shall become fully vested and exercisable and be released from any repurchase or forfeiture rights (other than repurchase rights exercisable at fair market value), immediately prior to the specified effective date of such Change in Control, for all of the Shares (or other consideration) at the time represented by such awards, provided that the grantee's continuous service, as such term is defined in the 2012 Plan, has not terminated prior to such date.

Under the 2012 Plan, a Change in Control is defined as a change in ownership or control of the Company effected through either of the following transactions: (i) the direct or indirect acquisition by any person or related group of persons (other than an acquisition from or by the Company or by a Company-sponsored employee benefit plan or by a person that directly or indirectly controls, is controlled by, or is under common control with, the Company) of beneficial ownership (within the meaning of Rule 13d-3 of the Exchange Act of 1934) of securities possessing more than fifty percent (50%) of the total combined voting power of the Company's outstanding securities pursuant to a tender or exchange offer made directly to the Company's stockholders which a majority of the continuing directors who are not affiliates or associates of the offeror do not recommend such stockholders accept, or (ii) a change in the composition of the board over a period of twelve months or less such that one-third of the board members (rounded up to the next whole number) ceases, by reason of one or more contested elections for Board membership, to be comprised of individuals who are continuing directors.

Notwithstanding the foregoing current definition of Change of Control in the 2012 Plan, management of the Company has committed and is recommending that the board of directors commit to amend subclause of the definition to "a change in the composition of the board over a period of twelve months or less such that a majority of the board members (rounded up to the next whole number) ceases to be comprised of individuals who are continuing directors."

Amendment, Suspension or Termination of the 2012 Plan. The Board may at any time amend, suspend or terminate the 2012 Plan. The 2012 Plan will terminate on May 15, 2022 unless earlier terminated by the Board. To the extent necessary to comply with applicable provisions of federal securities laws, state corporate and securities laws, the Code, applicable rules of any stock exchange or national market system, and the rules of any foreign jurisdiction applicable to awards granted to residents of the jurisdiction, the Company shall obtain stockholder approval of any such amendment to the 2012 Plan in such a manner and to such a degree as required. No suspension or termination of the 2012 Plan will adversely affect any rights under awards already granted to a participant.

Awards to Israeli Residents. The 2012 Plan is designed to comply with the provisions of the Israeli Income Tax Ordinance New Version, 1961, as amended (the "Tax Ordinance"), and is intended to enable the Administrator to grant options under the 2012 Plan to participants who are, or are deemed to be, Israeli residents. Specifically, the 2012 Plan permits option awards to employees pursuant to Section 102 of the Tax Ordinance and option awards to non-employees pursuant to Section 3(i) of the Tax Ordinance. For this purpose, "employee" refers to employees, officers and directors of the Company or a related entity who are not considered "Controlling Shareholders" pursuant to, or otherwise excluded by, the Tax Ordinance. In accordance with the terms and conditions imposed by the Tax Ordinance, participants who are, or are deemed to be, Israeli residents and who receive option awards under the 2012 Plan may be afforded certain tax benefits in Israel.

Director Option Sub-Plan. In connection with the 2012 Plan, the Board adopted a Director Option Sub-Plan (the "Sub-Plan"). The Sub-Plan draws on the 2012 Plan for Shares and is designed to provide for the grant of options to non-employee directors of the Company on a formula basis on substantially the same terms as the Company's 1993 Director Stock Option Plan has done historically. Under the Sub-Plan, non-employee directors of the Company who join the Board will receive a "first grant" of an option to purchase 30,000 Shares. On January 1 of each year, non-employee directors of the Company with at least 6 months of Board service will receive a "subsequent grant" of an option to purchase 15,000 Shares. On January 1 of each

year, non-employee directors who are Committee chairs and have at least 6 months of service as chair will receive a “committee option” to purchase an additional 15,000 Shares. Options granted under the Sub-Plan generally vest as to 1/3 of the Shares on each of the first three anniversaries of the grant date, subject to Board service, and fully accelerate on a Change in Control or Corporate Transaction as defined under the 2012 Plan. The Sub-Plan permits the Administrator to make “first grants,” “subsequent grants” and “committee options” to non-employee directors of the Company who are Israeli residents pursuant to Sections 3(i) and 102 of the Tax Ordinance.

Certain U.S. Federal Tax Consequences

The following summary of the U.S. federal income tax consequences of the 2012 Plan transactions is based upon federal income tax laws in effect on the date of this Proxy Statement. This summary does not purport to be complete, and does not discuss state, local or non-U.S. tax consequences.

Nonqualified Stock Options. The grant of a nonqualified stock option under the 2012 Plan will not result in any federal income tax consequences to the participant or to the Company. Upon exercise of a nonqualified stock option, the participant is subject to income taxes at the rate applicable to ordinary compensation income on the difference between the option exercise price and the fair market value of the Shares at the time of exercise. This income is subject to withholding for federal income and employment tax purposes. The Company is entitled to an income tax deduction in the amount of the income recognized by the participant, subject to possible limitations imposed by Section 162(m) of the Code and so long as the Company withholds the appropriate taxes with respect to such income (if required) and the participant’s total compensation is deemed reasonable in amount. Any gain or loss on the participant’s subsequent disposition of the Shares will receive long or short-term capital gain or loss treatment, depending on whether the Shares are held for more than one year following exercise. The Company does not receive a tax deduction for any such gain.

A nonqualified stock option can be considered deferred compensation and subject to Section 409A of the Code. A nonqualified stock option that does not meet the requirements of Code Section 409A can result in the acceleration of income recognition, an additional 20% tax obligation, plus penalties and interest.

Incentive Stock Options. The grant of an incentive stock option under the 2012 Plan will not result in any federal income tax consequences to the participant or to the Company. A participant recognizes no federal taxable income upon exercising an incentive stock option (subject to the alternative minimum tax rules discussed below), and the Company receives no deduction at the time of exercise. In the event of a disposition of stock acquired upon exercise of an incentive stock option, the tax consequences depend upon how long the participant has held the Shares. If the participant does not dispose of the Shares within two years after the incentive stock option was granted, nor within one year after the incentive stock option was exercised, the participant will recognize a long-term capital gain (or loss) equal to the difference between the sale price of the Shares and the exercise price. The Company is not entitled to any deduction under these circumstances.

If the participant fails to satisfy either of the foregoing holding periods (referred to as a “disqualifying disposition”), he or she must recognize ordinary income in the year of the disposition. The amount of ordinary income generally is the lesser of (i) the difference between the amount realized on the disposition and the exercise price or (ii) the difference between the fair market value of the stock at the time of exercise and the exercise price. Any gain in excess of the amount taxed as ordinary income will be treated as a long or short-term capital gain, depending on whether the stock was held for more than one year. The Company, in the year of the disqualifying disposition, is entitled to a deduction equal to the amount of ordinary income recognized by the participant, subject to possible limitations imposed by Section 162(m) of the Code and so long as the participant’s total compensation is deemed reasonable in amount.

The “spread” under an incentive stock option—i.e., the difference between the fair market value of the Shares at exercise and the exercise price—is classified as an item of adjustment in the year of exercise for purposes of the alternative minimum tax. If a participant’s alternative minimum tax liability exceeds such participant’s regular income tax liability, the participant will owe the larger amount of taxes. In order to avoid the application of alternative minimum tax with respect to incentive stock options, the participant must sell the Shares within the calendar year in which the incentive stock options are exercised. However, such a sale of Shares within the year of exercise will constitute a disqualifying disposition, as described above.

Stock Appreciation Rights. Recipients of stock appreciation rights (“SARs”) generally should not recognize income until the SAR is exercised (assuming there is no ceiling on the value of the right). Upon exercise, the recipient will normally recognize taxable ordinary income for federal income tax purposes equal to the amount of cash and fair market value of the shares, if any, received upon such exercise. Recipients who are employees will be subject to withholding for federal income and employment tax purposes with respect to income recognized upon exercise of a SAR. Recipients will recognize gain upon the disposition of any shares received on exercise of a SAR equal to the excess of (i) the amount realized on such disposition over (ii) the ordinary income recognized with respect to such shares under the principles set forth above. That gain will be taxable as long or short-term capital gain depending on whether the shares were held for more than one year. We will be entitled to a tax deduction to the extent and in the year that ordinary income is recognized by the recipient, subject to possible limitations imposed by Section 162(m) of the Code and so long as we withhold the appropriate taxes with respect to such income (if required) and the recipient’s total compensation is deemed reasonable in amount.

A SAR can be considered non-qualified deferred compensation and subject to Section 409A of the Code. A SAR that does not meet the requirements of Code Section 409A can result in the acceleration of income recognition, an additional 20% tax obligation, plus penalties and interest.

Restricted Stock. The grant of restricted stock will subject the recipient to ordinary compensation income on the difference between the amount paid for such stock and the fair market value of the Shares on the date that the restrictions lapse. This income is subject to withholding for federal income and employment tax purposes. The Company is entitled to an income tax deduction in the amount of the ordinary income recognized by the recipient, subject to possible limitations imposed by Section 162(m) of the Code and so long as the Company withholds the appropriate taxes with respect to such income (if required) and the participant’s total compensation is deemed reasonable in amount. Any gain or loss on the recipient’s subsequent disposition of the Shares will receive long or short-term capital gain or loss treatment depending on how long the stock has been held since the restrictions lapsed. The Company does not receive a tax deduction for any such gain.

Recipients of restricted stock may make an election under Section 83(b) of the Code (“Section 83(b) Election”) to recognize as ordinary compensation income in the year that such restricted stock is granted, the amount equal to the spread between the amount paid for such stock and the fair market value on the date of the issuance of the stock. If such an election is made, the recipient recognizes no further amounts of compensation income upon the lapse of any restrictions and any gain or loss on subsequent disposition will be long or short-term capital gain to the recipient. The Section 83(b) Election must be made within thirty days from the time the restricted stock is issued.

Restricted Stock Units. Recipients of restricted stock units generally should not recognize income until such units are converted into cash or Shares. Upon conversion, the recipient will normally recognize taxable ordinary income for federal income tax purposes equal to the amount of cash and fair market value of the Shares, if any, received upon such conversion. Recipients who are employees will be subject to withholding for federal income and employment tax purposes with respect to income recognized upon conversion of the restricted stock units. Participants will recognize gain upon the disposition of any Shares received upon conversion of the restricted stock units equal to the excess of (i) the amount realized on such disposition over (ii) the ordinary income recognized with respect to such Shares under the principles set forth above. That gain will be taxable as long or short-term capital gain depending on whether the Shares were held for more than one year. The Company will be entitled to a tax deduction to the extent and in the year that ordinary income is recognized by the recipient, subject to possible limitations imposed by Section 162(m) of the Code and so long as the Company withholds the appropriate taxes with respect to such income (if required) and the recipient’s total compensation is deemed reasonable in amount.

Restricted stock units also can be considered non-qualified deferred compensation and subject to Section 409A of the Code. A grant of restricted stock units that does not meet the requirements of Code Section 409A will result in an additional 20% tax obligation, plus penalties and interest to such recipient.

Dividends and Dividend Equivalents. Recipients of stock-based awards that earn dividends or dividend equivalents will recognize taxable ordinary income on any dividend payments received with respect to unvested and/or unexercised shares subject to such awards, which income is subject to withholding for federal income and employment tax purposes. We are entitled to an income tax deduction in the amount of the income recognized by a participant, subject to possible limitations imposed by Section 162(m) of the Code and so long as we withhold the appropriate taxes with respect to such income (if required) and the individual’s total compensation is deemed reasonable in amount.

PROPOSAL NO. 4
RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

Our audit committee has selected Kost Forer Gabbay & Kasierer (a member of Ernst & Young Global) as our auditors for the current fiscal year, subject to ratification by our stockholders at the annual meeting. We expect a representative of Kost Forer Gabbay & Kasierer (a member of Ernst & Young Global) to be available via teleconference to respond to appropriate questions and to make a statement if he or she so desires, but no representative will be present at the annual meeting.

However, the audit committee of the board of directors is submitting the selection of Kost Forer Gabbay & Kasierer (a member of Ernst & Young Global) to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the audit committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the audit committee in its discretion may direct the appointment of different independent accountants at any time during the year if they determine that such a change would be in our best interests and the best interests of our stockholders.

In connection with the audit of the 2012 financial statements, we entered into an engagement agreement with Kost Forer Gabbay & Kasierer which set forth the terms by which Kost Forer Gabbay & Kasierer will perform audit services for us. - (4) All other fees include fees for professional services rendered by our auditors for national insurance audit in Israel and participation in various grant projects from the Office of Chief Scientist in Israel.

The audit committee approved 100% of the above set forth fees in 2012 and 2011.

Audit and Non-Audit Services Pre-Approval Policy

Under the Sarbanes-Oxley Act of 2002, all audit and non-audit services performed by Kost Forer Gabbay & Kasierer, our independent auditors, must be approved in advance by the audit committee to assure that such services do not impair the auditors' independence from the company. In January 2004, the audit committee adopted an audit and non-audit services pre-approval policy which sets forth the procedures and conditions pursuant to which audit and non-audit services to be performed by the independent auditors are to be pre-approved. Pursuant to the policy, certain services or category of services described in detail in the policy may be pre-approved generally on an annual basis together with pre-approved maximum fee levels for such services. The services eligible for annual pre-approval consist of audit services, audit-related services, tax services and other services. If not pre-approved on an annual basis, proposed services must otherwise be separately approved prior to being performed by the independent

auditors. The audit committee may also pre-approve particular services on a case-by-case basis. In addition, any services that receive annual pre-approval but exceed the pre-approved maximum fee level also will require separate approval by the audit committee prior to being performed. The audit committee may delegate authority to pre-approve audit and non-audit services to any member of the audit committee, but may not delegate such authority to management. Our independent auditors and Chief Financial Officer are required to periodically report to the audit committee regarding the extent of services provided by the independent auditors in accordance with the pre-approval policy and the fees for the services performed to date.

PROPOSAL NO. 5

ADVISORY VOTE ON COMPENSATION OF THE NAMED EXECUTIVE OFFICERS

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, added Section 14A to the Securities Exchange Act of 1934, as amended, which enables our stockholders to vote to approve, on an advisory basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the SEC's rules.

At last year's annual meeting, we provided our stockholders with the opportunity to cast an advisory vote regarding the compensation of our named executive officers as disclosed in our proxy statement for the 2012 annual meeting of stockholders. At our 2012 annual meeting, our stockholders overwhelmingly approved the proposal, with approximately 80% of the votes cast voting in favor of the proposal. After consideration of the 2011 voting results, our board of directors elected to hold a stockholder "say-on-pay" vote annually. Accordingly, this year we are again asking our stockholders to vote "For" the compensation of our executive officers as disclosed in this proxy statement. Our board of directors and our compensation committee value the opinions of our stockholders. We will consider our stockholders' concerns and our compensation committee will evaluate whether any actions are necessary to address those concerns. In addition to our annual advisory vote on executive compensation, we are committed to ongoing engagement with our stockholders on executive compensation and corporate governance issues.

As described in detail under the heading "*Compensation Discussion and Analysis*," our compensation philosophy supports our key business objectives of creating value for, and promoting the interests of, our stockholders. In order to align the interests of our executives with those of our stockholders, we believe that our executive compensation arrangements must provide our named executive officers with competitive compensation opportunities, based upon both their contribution to the development and financial success of the company and their personal performance. We believe our executive compensation arrangements strikes the appropriate balance between utilizing responsible, measured pay practices and effectively incentivizing our executives to dedicate themselves fully to value creation for our stockholders. This balance is evidenced by the following:

- Our compensation arrangements for the named executive officers are simple, consisting principally of base salary, annual bonus, which may or may not be awarded annually at the discretion of the compensation committee prior to 2011 and based on a performance-based bonus plan starting in 2011, and long-term incentive award, in the form of stock options, stock appreciation rights or restricted stock units, which again may or may not be awarded annually at the discretion of the compensation committee.
- We provide a significant part of executive compensation in the form of performance based incentives. Starting in 2011, our board established a performance-based bonus plan whereby bonuses are awarded under the plan based on achievement of the company's financial goals based on an annual budget approved by our board. The financial goals under the performance-based bonus plans are generally challenging. Bonuses under the performance-based plan are capped and a significant portion of the bonuses would not be payable for a particular year if the company fails to achieve such financial goals. No bonuses were paid to our executive officers under the 2011 and 2012 performance-based bonus plans as a result of failure to meet the financial goals under the respective plans.

-
- A significant portion of our named executive officer's compensation is in the form of long-term incentive awards, currently consisting of stock options, stock appreciation rights and restricted stock units. Such equity awards vest 25% on the first anniversary of the grant date and the remaining equity awards vest quarterly over the following three years.
 - We align base salaries with strong pay-for-performance orientation and our compensation committee generally takes a conservative approach on base salary increases. For example, the base salaries of our named executive officers were reduced in 2009 by ten percent from their respective 2008 amounts in consideration of deteriorating market conditions, our financial performance and the company's desire to reduce operating expenses. The base salaries were restored to their respective 2008 amounts in 2010 for all our named executive officers. Our named executive officers did not receive any increases to their base salary in 2011 or 2012. Only in 2013 did our Chief Executive Officer and Chief Financial Officer receive a small increase of approximately 9% in their respective base salaries.
 - We do not provide any nonqualified defined contribution or other deferred compensation plans to our named executive officers.
 - We do not provide tax gross-ups to our named executive officers.
 - None of the employment agreements with our named executive officers includes any "single trigger" change-in-control provisions or golden parachute arrangements.
 - The perquisites offered to our named executive officers based in Israel are those generally provided to all of our employees based in Israel.
 - The compensation committee is updated on compensation best practices and trends. The committee from time to time as appropriate engages the services of a compensation consultant to provide advice on compensation trends and market information to assist the committee in designing our compensation programs and making compensation decisions.

The vote on this resolution is not intended to address any specific element of compensation; rather, the advisory vote relates to the compensation of our named executive officers, as described in this proxy statement. The vote is advisory, and therefore it is not binding on the company, the compensation committee or our board of directors. The compensation committee will carefully consider the outcome of the vote when considering future executive compensation arrangements.

Required Vote

The affirmative vote of a majority of the shares present or represented and entitled to vote either in person or by proxy is required to approve this Proposal 5. Abstentions will have the same effect as "no" votes on this proposal, whereas broker "non-votes" will have no effect.

Accordingly, we ask our stockholders to vote on the following resolution at the annual meeting:

“RESOLVED, that the compensation of the named executive officers, as disclosed in the Company’s proxy statement for the 2013 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.”

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE
APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS,
AS DISCLOSED IN THIS PROXY STATEMENT.**

PROPOSAL NO. 6
ADJOURNMENT OR POSTPONEMENT OF THE ANNUAL MEETING

We are asking our stockholders to vote on a proposal to adjourn or postpone the annual meeting, if necessary, to permit further solicitation of proxies in the event there are insufficient votes at the time of the annual meeting to adopt and approve proposals 1 through 5 set forth in this proxy statement. We currently do not intend to adjourn or postpone our annual meeting if there are sufficient votes to adopt and approve proposals 1 through 5.

Required Vote

The affirmative vote of the holders of a majority of the shares of our common stock present or represented at the annual meeting is required to approve the proposal to adjourn or postpone the annual meeting, if necessary. Abstentions will have the same effect as “no” votes on this proposal, whereas broker “non-votes” will have no effect.
