Zix Corporation Signs en-terpret.co as Email Encryption Partner

Email Encryption Leader and en-terpret.co launch offering for CPA industry

DALLAS, TX — February 26, 2009 — Zix Corporation (ZixCorp[®]) (Nasdaq: ZIXI), the leader in hosted services for email encryption announced that en-terpret.co, a leader in systems consulting services and technology solutions for small and medium-sized businesses has become a ZixCorp Email Encryption partner. en-terpret.co will offer ZixCorp's policy-based Email Encryption service to its client base of small to medium sized CPA firms throughout the globe.

"We're excited by the opportunity to bring the robust security of ZixCorp's hosted Email Encryption service to the CPA marketplace that we've serviced for over 20 years. CPA firms have all the properties of a market that's ideal for ZixCorp's Email Encryption service.   The firms deal with sensitive electronic financial information, clients demand immediate attention and these typically small CPA firms have limited in-house IT experience," said Daniel Harris, CEO of en-terpret.co. "With ZixCorp, we make message security simple for our clients."

When a company joins the ZixCorp Partner Program, they enjoy the advantage of working with the largest email encryption service, providing send-to-anyone capabilities and access to ZixDirectory™, the largest email encryption directory in the world with over 15 million protected addresses. ZixDirectory connects all ZixCorp customers for seamless, transparent, and secure email. There are more than 1,000 hospitals in the directory, more than 30 Blues organizations, over 800 financial institutions, the federal banking regulators, 20 state banking regulatory agencies and a growing number of federal, state and county governments. en-terpret.co takes on the technical implementation creating a joint solution that delivers a complete, secure, easy to administer offering for CPA firms. Together, ZixCorp and en-terpret.co manage the technology, so CPA firms can securely manage their client relationships.

"We're pleased to welcome en-terpret.co into the ZixCorp family of partners" said Jim Lesniak, vice president of sales and marketing for ZixCorp's Email Encryption Service. "en-terpret.co's expertise and history of serving the CPA industry both nationally and internationally, opens a new market segment that until now has been under served by email encryption vendors."
