

## St. Louis County Selects Zix Corporation for Email Encryption Services

### ZixCorp continues to expand into government sector

**DALLAS — July 20, 2006** — Zix Corporation (ZixCorp®), (Nasdaq: ZIXI), the leader in hosted services for email encryption and e-prescribing, today announced that St. Louis County located in northern Minnesota has selected the company's email encryption services for its government users.

"This contract is significant as it further expands our encryption network into various levels of government," said Rick Spurr, chief executive officer for ZixCorp. "St. Louis County joins our impressive list of government customers, including more than 20 state agencies and four out of the five major federal banking regulators, including the Office of the Comptroller of Currency, Conference of State Bank Supervisors, who oversee the over 6,000 state-regulated banks in the United States, and the National Credit Union Association."

As the leading email encryption provider with five million protected email recipients, ZixCorp's vast network allows seamless encrypted email delivery to healthcare organizations, insurers, financial institutions and regulators. ZixCorp now supports five encrypted email delivery mechanisms including S/MIME, TLS, OpenPGP, secure portal and "push" delivery.

### About Zix Corporation

ZixCorp is the leading provider of hosted email encryption and e-prescribing services. ZixCorp's email encryption services provide an easy and cost-effective way to ensure customer privacy and regulatory compliance for corporate email. Its PocketScript® e-prescribing service reduces costs and improves patient care by automating the prescription process between payers, doctors, and pharmacies.
