

Zix Corporation to Present Financial Industry Roundtable Discussion on Using Email Encryption to Secure Sensitive Data

DALLAS — October 24, 2006 — Zix Corporation (ZixCorp®), (Nasdaq: ZIXI), the leader in hosted services for email encryption and e-prescribing, today announced a one-hour roundtable discussion via webcast led by Paul Reymann of the Reymann Group on Wednesday, October 25 at 3 p.m. EDT/ 2 p.m. CDT. The discussion will focus on issues surrounding data protection in the financial industry and the role of email encryption. A panel of industry experts and peers will review emerging state and federal data security laws and share their best practice techniques for securing email.

To register for ZixCorp's free Web seminar "Using Email Encryption to Protect Sensitive Data: A Financial Industry Roundtable Discussion," visit the ZixCorp website at <http://www.zixcorp.com/news/reymann/>. Registration closes at midnight CDT, October 24, 2006.

Panelists Include:

Gary Farrar, CIO & COO
Town North Bank, TX

Terrance Griffin, CIO
Atlanta Postal Federal Credit Union, GA

Vaughan Noring, Bank Bureau Chief
Iowa Division of Banking

Steve Irons, VP of Corporate Sales
ZixCorp

About Zix Corporation

ZixCorp provides easy-to-use-and-deploy email encryption and e-prescribing services that protect, manage, and deliver sensitive information to the healthcare, finance, insurance, and government industries. ZixCorp's hosted Email Encryption Service™ enables policy-driven email security, content filtering, and send-to-anyone capability. Its PocketScript® e-prescribing service provides point-of-care access and transmission of patient and payor data that improves patient care, reduces costs, and improves efficiency.
