

Zix Corporation Continues to Grow Customer Base of Financial Institutions

More banking organizations to secure business communications with ZixCorp's Email Encryption Service

DALLAS — January 3, 2007 — Zix Corporation (ZixCorp®), (Nasdaq: ZIXI), the leader in hosted services for email encryption and e-prescribing, today announced the company continues to increase its strong presence in the financial services market with a broad range of new clients, including state and local banks, financial departments of state governments and credit unions.

Recently signed clients of ZixCorp's Email Encryption Service include:

- **First Community Bank**, Knob Noster, MO
- **Members Heritage Federal Credit Union**, Lexington, KY.
- **West Virginia Division of Banking**, Charleston, WV
- **Bank Rhode Island**, Providence, RI
- **First Federal Bank**, Roswell, NM
- **First Victoria National Bank**, Victoria, TX
- **National Penn Bank**, Boyertown, PA
- **Peoples Bank**, Rock Valley, IA

"In today's business environment, organizations, especially financial institutions, need to proactively protect their reputation and their customers by securing business communications that contain sensitive information. Our Email Encryption Service delivers nonpublic personal financial information securely and seamlessly in a manner that is easy both to send and receive," said Rick Spurr, chief executive officer for ZixCorp. "We continue to increase our presence in the finance sector as the largest and most significant hosted email encryption service available, helping prevent data leaks and maintaining a high level of customer trust. With the unmatched endorsement we receive from the federal banking regulators, combined with our easy-to-deploy solutions that aid our clients in adhering to compliance guidelines, ZixCorp expects to continue to grow its business in the financial services industry."

-more-

As the leading email encryption provider with over six million protected email recipients, ZixCorp's vast directory allows seamless encrypted email delivery to healthcare organizations, insurers, financial institutions and regulators, including four of the five federal banking regulatory agencies. ZixCorp now supports five encrypted email delivery mechanisms, including S/MIME, TLS, OpenPGP, secure portal and "push" delivery.

About Zix Corporation

ZixCorp is the leading provider of hosted email encryption and e-prescribing services. ZixCorp's hosted Email Encryption Service provides an easy and cost-effective way to ensure customer privacy and regulatory compliance for corporate email. Its PocketScript® e-prescribing service reduces costs and improves patient care by automating the prescription process between payors, doctors, and pharmacies.
