

T&C Federal Credit Union Selects Zix Corporation for Hosted Email Encryption Service

One of Michigan's largest credit unions trusts ZixCorp to deliver nonpublic personal financial information securely and seamlessly

DALLAS — May 17, 2007 — Zix Corporation (ZixCorp®), (Nasdaq: ZIXI), the leader in hosted services for email encryption and e-prescribing, today announced that T&C Federal Credit Union has selected the Company's Email Encryption Service. As a ZixCorp encryption customer, T&C joins the ZixDirectory™, the largest email encryption directory of protected addresses.

The ZixDirectory has over 7.5 million members including the federal banking regulators, state banking regulators and more than 400 banks and other financial institutions. ZixCorp's relationship with the National Credit Union Association (NCUA) allows credit unions to communicate seamlessly with their regulators and the state regulator, the Michigan Office of Financial and Insurance Services, is also a ZixCorp customer. ZixCorp's Email Encryption Service has built-in lexicons that automatically detect and encrypt messages that contain personally identifiable information. It is transparent to end users and helps prevent accidental transmission of confidential data.

"ZixCorp continues to increase its strong presence in the finance sector. We offer credit unions such as T&C access to our large interoperable network of financial organizations through the ZixDirectory," said Rick Spurr, chief executive officer for ZixCorp. "Companies turn to ZixCorp as a trusted partner to prevent data leaks and maintain a high level of customer confidence. Our easy-to-deploy service helps financial entities of any size adhere to compliance guidelines while also using the same service selected by their regulators."

As the leading email encryption provider with over 7.5 million protected email recipients, ZixCorp's vast directory allows seamless encrypted email delivery to healthcare organizations, insurers, financial institutions and regulators, including the federal banking regulatory agencies. ZixCorp supports five encrypted email delivery mechanisms, including S/MIME, TLS, OpenPGP, secure portal and "push" delivery.
