NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

The accompanying statutory-basis financial statements of Sentinel Insurance Company, Ltd. (the "Company" or "Sentinel") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department ("the Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Connecticut for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the State of Connecticut Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Connecticut. There are no material differences between the accounting practices and procedures by the Department and NAIC SAP. During 2010 and 2009, the Company did not have any permitted practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the National Association of Insurance Commissioners ("NAIC") Annual Statement Instructions NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned principally on a pro-rata basis over the lives of the policies and include accruals for ultimate premium revenue anticipated under auditable and retrospectively rated policies. Unearned premium reserves are established to cover the unexpired portion of the premiums written. Such reserves are computed by pro rata methods for direct business.

Expenses incurred in connection with acquiring insurance business, including such acquisition costs as commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

1. Short-term investments include all investments whose maturities, at the time of acquisition, are one year or less and are stated at amortized cost.
2. Other than loan-backed and structured securities, investments in unaffiliated bonds rated in NAIC classes 1 and 2 are carried at amortized cost, and unaffiliated bonds rated in NAIC classes 3-6 are carried at the lower of amortized cost or fair value.
3. The Company has no investments in common stocks.
4. The Company has no investments in preferred stocks.
5. The Company has no investments in mortgage loans.
6. Loan-backed bonds and structured securities are carried at either amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles ("SSAP") No. 43-Revised (Loan-backed and Structured Securities). Significant changes in estimated cash flows from the original purchase assumptions are accounted for using the prospective method, except for highly rated fixed rate securities, which use the retrospective method.
7. The Company has no investments in subsidiaries, controlled and affiliated ("SCA") companies.
8. The Company has no investments in joint ventures, partnerships, or limited liability companies.
9. The Company has no investments in derivative instruments.
10. The Company did not consider anticipated investment income as a factor in the premium reserve deficiency calculation.
11. The Hartford Financial Services Group, Inc. ("The Hartford") establishes property and casualty reserves to provide for the estimated costs of paying claims under insurance policies written by The Hartford. These reserves include estimates for both claims that have been reported and those that have been incurred but not reported to The Hartford and include estimates of all losses and loss adjustment expenses associated with processing and settling these claims. These reserve estimates are based on known facts and interpretations of circumstances, and consideration of various internal factors including The Hartford's experience with similar cases, historical trends involving claim payment patterns, loss payments, pending levels of unpaid claims, loss control programs and product mix. In addition the reserve estimates are influenced by consideration of various external factors including court decisions, economic conditions and public attitudes. The effects of inflation are implicitly considered in the reserving process.

Estimating the ultimate cost of future losses and loss adjustment expenses is an uncertain and complex process. This estimation process is based significantly on the assumption that past developments are an appropriate predictor of future events and involves a variety of actuarial techniques that analyze experience, trends and other relevant factors. The uncertainties involved with the reserving process have become increasingly difficult due to a number of complex factors including social and economic trends and changes in the concepts of legal liability and damage awards. Accordingly, final claim settlements may vary from the present estimates, particularly when those payments may not occur until well into the future.

The establishment of appropriate reserves, including reserves for catastrophes and asbestos and environmental claims, is inherently uncertain. The Hartford regularly updates its reserve estimates as new information becomes available and events unfold that may have an impact on unsettled claims. Changes in prior year reserve estimates, which may be material, are reflected in the results of operations in the period such changes are determined to be necessary.

The reserves recorded for The Hartford property and casualty businesses represent The Hartford's best estimate of its ultimate liability for claims and claim adjustment expenses related to losses covered by policies written by The Hartford. Because of the significant uncertainties surrounding environmental and particularly asbestos exposures, it is possible that management's estimate of the ultimate liabilities for these claims may change and that the required adjustment to recorded reserves could exceed the currently recorded reserves by an amount that could be material to The Hartford's results of operations, financial condition and liquidity.

Asbestos/Environmental Reserves – Significant uncertainty limits the ability of insurers and reinsurers to estimate the ultimate reserves necessary for unpaid losses and expenses related to environmental and particularly asbestos claims. The degree of variability of reserve estimates for these exposures is significantly greater than for other more traditional exposures.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

In the case of the reserves for asbestos exposures, factors contributing to the high degree of uncertainty include inadequate loss development patterns, plaintiffs' expanding theories of liability, the risks inherent in major litigation, and inconsistent emerging legal doctrines. Furthermore, over time, insurers, including The Hartford, have experienced significant changes in the rate at which asbestos claims are brought, the claims experience of particular insureds, and the value of claims, making predictions of future exposure from past experience uncertain. Plaintiffs and insureds have also sought to use bankruptcy proceedings, including "pre-packaged" bankruptcies, to accelerate and increase loss payments by insurers. In addition, some policyholders have asserted new classes of claims for coverages to which an aggregate limit of liability may not apply. Further uncertainties include insolvencies of other carriers and unanticipated developments pertaining to The Hartford's ability to recover reinsurance for asbestos and environmental claims. Management believes these issues are not likely to be resolved in the near future.

In the case of the reserves for environmental exposures, factors contributing to the high degree of uncertainty include expanding theories of liability and damages, the risks inherent in major litigation, inconsistent decisions concerning the existence and scope of coverage for environmental claims, and uncertainty as to the monetary amount being sought by the claimant from the insured.

The reporting pattern for assumed reinsurance claims, including those related to asbestos and environmental claims, is much longer than for direct claims. In many instances, it takes months or years to determine that the policyholder's own obligations have been met and how the reinsurance in question may apply to such claims. The delay in reporting reinsurance claims and exposures adds to the uncertainty of estimating the related reserves.

It is also not possible to predict changes in the legal and legislative environment and their effect on the future development of asbestos and environmental claims.

Given the factors described above, The Hartford believes the actuarial tools and other techniques it employs to estimate the ultimate cost of claims for more traditional kinds of insurance exposure are less precise in estimating reserves for its asbestos and environmental exposures. For this reason the Hartford relies on exposure-based analysis to estimate the ultimate costs of these claims and regularly evaluates new account information in assessing its potential asbestos and environmental exposures. The Hartford supplements this exposure-based analysis with evaluations of The Hartford's historical direct net loss and expense paid and reported experience, and net loss and expense paid and reported experience by calendar and/or report year, to assess any emerging trends, fluctuations or characteristics suggested by the aggregate paid and reported activity.

The Hartford believes that its current asbestos and environmental reserves are appropriate. However, analyses of future developments could cause The Hartford to change its estimates and ranges of its asbestos and environmental reserves, and the effect of these changes could be material to The Hartford's operating results, financial condition, and liquidity.

- 12. The Company has not modified its capitalization policy from the prior period.
- 13. The Company does not have pharmaceutical rebate receivables.

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

- A. SSAP No. 10R (Income Taxes – Revised, A Temporary Replacement of SSAP No. 10) was issued by the NAIC in December 2009 and updated in September 2010, and is effective for annual periods ending December 31, 2009 and interim and annual periods of 2010 and 2011. SSAP No. 10R allows for an option to increase the admitted deferred tax assets for companies with a risk-based capital calculation that exceeds a stated threshold. Additional disclosures are required for 2010 and 2011 to the extent tax planning strategies are utilized to admit deferred tax assets. The implementation of the SSAP No. 10R option did not have a material impact on the Company's statutory-basis financial statements for 2010 and 2009. (See Note 9.)

In September 2009, the NAIC issued SSAP No. 43-Revised (Loan-backed and Structured Securities) which was effective September 30, 2009. The implementation of SSAP No. 43-Revised did not have a material impact on the Company's statutory-basis financial statements.

14. CONTINGENCIES

A. Contingent Commitments

See Note 27.

The Company has no other material contingent liabilities other than those set forth in Note 10E.

B. Assessments

In all states, insurers licensed to transact certain classes of insurance are required to become members of a guaranty fund. In most states, in the event of the insolvency of an insurer writing any such class of insurance in the state, members of the funds are assessed to pay certain claims of the insolvent insurer. A particular state's fund assesses its members based on their respective written premiums in the state for the classes of insurance in which the insolvent insurer was engaged. Assessments are generally limited for any year to one or two percent of premiums written per year, depending on the state.

The Hartford accounts for guaranty fund and other insurance assessments in accordance with SSAP No. 35, (Guaranty Fund and Other Assessments). Liabilities for guaranty fund and other insurance-related assessments are included as part of taxes, licenses and fees. As of December 31, 2010 and 2009, the Company's liability balance was \$295,302 and \$270,278, respectively. As of December 31, 2010 and 2009, the Company's premium tax offsets and policy surcharge reported as assets were \$52,943 and \$74,068, respectively.

C. Gain Contingencies

None

D. Claims related extra contractual obligations and bad faith losses stemming from lawsuits

The claims/losses related to extra contractual obligation lawsuits or bad faith lawsuits paid during the reporting period on a direct basis were not material, either individually or on an aggregated basis.

E. All Other Contingencies

The Company is or may become involved in claims litigation arising in the ordinary course of business, both as a liability insurer defending third-party claims brought against insureds and as an insurer defending coverage claims brought against it. The Company accounts for such activity through the establishment of unpaid loss and loss adjustment expense reserves. Subject to the uncertainties discussed in Note 1.C.11 in the 2010 Annual Statement regarding Asbestos/Environmental reserves, management expects that the ultimate liability, if any, with respect to such ordinary-course claims litigation, after consideration of provisions made for potential losses and costs of defense, will not be material to the financial condition of the Company. The Company is or may become involved in various other legal actions, some of which assert claims for substantial amounts. Management expects that the ultimate liability, if any, with respect to such lawsuits, after consideration of provisions made for estimated losses and costs of defense, will not be material to the financial condition of the Company.

Broker Compensation Litigation – Following the New York Attorney General's filing of a civil complaint against Marsh & McLennan Companies, Inc., and Marsh, Inc. (collectively, "Marsh") in October 2004 alleging that certain insurance companies, including The Hartford, the parent company of the Company, participated with Marsh in arrangements to submit inflated bids for business insurance and paid contingent commissions to ensure that Marsh would direct business to them, private plaintiffs brought several lawsuits against Hartford Fire Insurance Company and certain of its affiliates predicated on the allegations in the Marsh complaint, to which the Company was not party. Among these is a multidistrict litigation in the United States District Court for the District of New Jersey. One consolidated amended complaint filed in the multidistrict litigation related to conduct in connection with the sale of property-casualty insurance. Hartford Fire Insurance Company and certain of its affiliates are named in that complaint. The complaint asserts, on behalf of a putative class of persons who purchased insurance through broker defendants, claims under the Sherman Act, the Racketeer Influenced and Corrupt Organizations Act ("RICO"), and state law. The claim is predicated upon allegedly undisclosed or otherwise improper payments of contingent commissions to the broker defendants to steer business to the insurance company defendants. The district court has dismissed the Sherman Act and RICO claims in the complaint for failure to state a claim. The district court further declined to exercise supplemental jurisdiction over the state law claims and dismissed those claims without prejudice. The plaintiffs appealed the dismissal of the claims in the consolidated amended complaint. In August 2010, the United States Court of Appeals for the Third Circuit affirmed the dismissal of the Sherman Act and RICO claims against The Hartford. The Third Circuit vacated the dismissal of the Sherman Act and RICO claims against some defendants and vacated the dismissal of the state-law claims as to all defendants in light of the reinstatement of the federal claims. The defendants have moved to dismiss the remaining claims.

14. CONTINGENCIES (continued)

Investment And Savings Plan ERISA Class Action Litigation – In November and December 2008, following a decline in the share price of The Hartford's common stock, seven putative class action lawsuits were filed in the United States District Court for the District of Connecticut on behalf of certain participants in the Hartford Investment and Savings Plan, which offers The Hartford's common stock as one of many investment options. Hartford Fire Insurance Company and certain of its affiliates were named in certain of these lawsuits. These lawsuits have been consolidated, and a consolidated amended class-action complaint was filed on March 23, 2009, alleging that The Hartford and certain of its officers and employees violated the Employee Retirement Income Security Act of 1974 ("ERISA") by allowing the Hartford Investment and Savings Plan's participants to invest in The Hartford's common stock and by failing to disclose to the Hartford Investment and Savings Plan's participants information about The Hartford's financial condition. The lawsuit seeks restitution or damages for losses arising from the investment of the Hartford Investment and Savings Plan's assets in The Hartford's common stock during the period from December 10, 2007 to the present. In January 2010, the district court denied The Hartford's motion to dismiss the consolidated amended complaint. The Hartford disputes the allegations and intends to defend this action vigorously.

Fair Credit Reporting Act Class Action – In February 2007, the United States District Court for the District of Oregon gave final approval of The Hartford's settlement of a lawsuit brought on behalf of a class of homeowners and automobile policy holders alleging that The Hartford willfully violated the Fair Credit Reporting Act by failing to send appropriate notices to new customers whose initial rates were higher than they would have been had the customer had a more favorable credit report. Hartford Fire and certain of its affiliates were named in this lawsuit. The Hartford paid approximately \$84.3 million to eligible claimants and their counsel in connection with the settlement and has sought reimbursement from its Excess Professional Liability Insurance Program for the portion of the settlement in excess of The Hartford's \$10 million self-insured retention. Certain insurance carriers participating in that program disputed coverage for the settlement, and one of the excess insurers commenced an arbitration that resulted in an award in The Hartford's favor and payments to The Hartford of approximately \$30.1 million, thereby exhausting the primary and first layer excess policies. In June 2009, the second layer excess carriers commenced an arbitration to resolve the dispute over coverage for the remainder of the amounts paid by The Hartford. Management believes it is probable that The Hartford's coverage position ultimately will be sustained.

25. CHANGES IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

Reserves as of December 31, 2009 were \$50,637,158. From January 1, 2010 through December 31, 2010, \$10,934,968 has been paid for loss and loss adjustment expenses attributable to insured events of prior accident years. Prior accident year reserves are now \$38,971,315, as a result of a release of \$730,875 related to the re-estimate of unpaid claims and claim adjustment expenses. Reserve changes were driven by releases in personal and commercial auto liability, general liability, workers' compensation and claims-made professional liability, where loss experience has emerged at levels lower than expectations. In addition, the Company decreased its estimate of uncollectible reinsurance, which has improved net reserve estimates. Finally, reserve strengthening for asbestos and environmental liabilities partially offset the reserve releases.

26. INTERCOMPANY POOLING ARRANGEMENTS

The Company participates in the Pool, a property/casualty pooling arrangement whereby premiums, losses and insurance expenses (including personnel expenses) are reapportioned and shared by the members of the Pool in accordance with fixed participation percentages that are stated below. The following lists the property and casualty affiliates that participate in the Pool and sets forth each company's respective participation for both 2010 and 2009:

Hartford Fire then cedes a percentage of the total Pool to each participant of the Pool based on the percentage shown above. The Provision for Reinsurance (Schedule F, Part 7) is absorbed completely by the lead company in the Pool (Hartford Fire).

At December 31, 2010, Hartford Fire had intercompany receivables and intercompany payables with the following affiliate companies:

27. STRUCTURED SETTLEMENTS

- A. To settle certain claims, the Company has purchased annuities from various life insurers, including affiliated life insurers, for which the claimant is the payee but the Company is the owner of the annuity and is contingently liable to the claimant for the claim in the event the issuer of the annuity is unable to perform. The Company eliminated its loss reserves for these claims at the time the annuities were purchased. The present value of annuity contracts owned by the Company that were in force as of December 31, 2010 and 2009 was \$763,329 and \$748,668, respectively. For all other structured settlements, the annuity contract is owned by an assignment company in cases where the Company obtained a qualified assignment. For some annuity contracts owned by an assignment company, the Company did not effectively secure a release of liability from the claimant and, therefore, the Company may remain contingently liable for a portion of these contracts, of which the amount for 2010 and 2009 was \$2,374,656 and \$2,389,885, respectively.
- B. The total value of all annuities due from each respective life insurer to the claimant as payee in excess of 1% of the Company's policyholder's surplus as of December 31, 2010 and 2009 was as follows:

<u>INSURER/LOCATION/LICENSED IN THE COMPANY'S STATE OF DOMICILE</u>	<u>STATEMENT VALUE</u>

30. PREMIUM DEFICIENCY RESERVES

31. HIGH DEDUCTIBLES

As of December 31, 2010, the amount of reserve credit recorded for high deductibles on unpaid claims was \$ 5,872,452.

32. DISCOUNTING OF LIABILITIES FOR UNPAID LOSSES OR UNPAID LOSS ADJUSTMENT EXPENSES

For workers' compensation, the Company only discounts liabilities for tabular claims. These reserves have been discounted in accordance with tables and interest rates prescribed by the various states and the National Council on Compensation Insurance ("NCCI"). The Company does not discount unpaid loss adjustment expenses.

For case loss reserves only, the underlying table used is the *89-91 U.S. Decennial Life Table* appropriate for males, females, or combined according to the requirements of the state. The discount rate is 3.50% or according to the state requirements. At December 31, 2010 and 2009, liabilities for the Company included \$1,959,339 and \$1,800,133 of discounted case reserves, respectively. At December 31, 2010 and 2009, the discount on these case reserves totaled \$1,284,269 and \$1,217,538, respectively.

The Company also participates in involuntary market pools ("involuntary pools") with discounted loss incurred but not reported ("IBNR") estimated by NCCI. At December 31, 2010 and 2009, the share of discounted IBNR reserves attributed to the Company from these involuntary pools amounted to \$681,207 and \$703,018, respectively. At December 31, 2010 and 2009, the discount on these involuntary pools reserves totaled \$87,095 and \$89,497, respectively.

Yes [] No [] N/A[X]
- 1.6 If the company reports DDR reserve as loss or loss adjustment expense reserve, please complete the following table corresponding to where these reserves are reported in Schedule P:

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement?

Yes [X] No []

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this statement?

Yes [X] No []

4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on Page 10?

Yes [] No [X]

If yes, proper disclosure must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33.

Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.

5. What were the net premiums in force at the end of the year for: (in thousands of dollars)

5.1 Fidelity

\$.....175

5.2 Surety

\$.....559

6. Claim count information is reported per claim or per claimant. (Indicate which).

If not the same in all years, explain in Interrogatory 7.

PER CLAIM

- 7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses?

Yes [X] No []

- 7.2 An extended statement may be attached.

1) In 2010, the Company changed the recording of discount in workers compensation reserves. Incurred loss reported in Schedule P, Part 2 is not impacted. However, reserve analysis should use the restated Schedule P, Part 4 (Bulk and IBNR) displayed below. 2) Please see Notes to the Financial Statements - Note 25 and Note 33.

In 2010, the Company changed the recording of discount in workers compensation lifetime claims. A portion of discount previously included in case reserves was removed, and equally offset by a reduction in IBNR reserves. Incurred loss reported in Schedule P Part 2 is not impacted by this change. In addition, there is no impact to the total amount of discount or income reported in the annual statement.

Reserve analysis should use the restated Bulk and IBNR table to the left for calculating reported loss development triangles (i.e. subtracting Schedule P Part 4 from Schedule P Part 2). This can only be done for the calendar periods back to 2007.
