

Plan Summary

Cincinnati Financial Corporation Shareholder Investment Plan

The Shareholder Investment Plan (plan) of Cincinnati Financial Corporation (the company) is a Direct Purchase Plan that provides participants with a convenient and economical method for new investors to make an initial investment in shares of the company's common stock and for existing investors to increase their holdings of our common stock.

Participation in the plan is open to any registered holder of common stock and to any person who becomes a registered holder of common stock by enrolling in the plan and either making an initial investment of at least \$25 or authorizing automatic monthly cash investments of at least \$25. Beneficial owners of common stock whose only shares are registered in names other than their own (for example, held in street name in a brokerage account) are not eligible until they become stockholders of record either by withdrawing the shares from their brokerage account and registering the shares in their own name or by enrolling in the plan in the same manner as a non-stockholder.

Participants in the plan may elect to have the cash dividends paid on all or a percentage of their shares of common stock automatically reinvested in additional shares of common stock. Participants may also purchase additional shares of common stock by making optional cash investments according to the provisions of the plan. Shareholders who choose not to participate in the plan will continue to receive cash dividends on shares of common stock registered in their name, as declared, by check or direct deposit.

Shares of common stock purchased by participants in the plan may be treasury or new issue common stock or, at the company's option, common stock may be purchased in the open market or in negotiated transactions. Treasury or new issue common stock is purchased from the company at the market price on the applicable investment date. The price of common stock purchased in the open market or in negotiated transactions is the weighted average price at which the shares are actually purchased. The prospectus relates to 7,000,000 shares of common stock. The common stock is listed on the NASDAQ Global Select Market under the ticker symbol CINF.

A summary description of the plan begins on page 4 of this document.

Cincinnati Financial Corporation has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents we have filed with the SEC for more complete information about Cincinnati Financial Corporation and this offering. You may get these documents for free by visiting EDGAR on the SEC Web site at www.sec.gov. Alternatively, we will arrange to send you the prospectus if you request it by calling 513-870-2662 or toll-free 866-638-6443.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

About This Plan Summary

You should rely only on the information contained in or incorporated by reference into the prospectus and this plan summary. We have not authorized any person to give any information or make any representation that is different from, or in addition to, that contained in the prospectus or in any information that we incorporate by reference into this plan summary. If anyone provides you with different or additional information, you should not rely on it.

The prospectus and plan summary do not constitute an offer to sell, or a solicitation of an offer to buy, any of the securities offered in the prospectus by any person in any jurisdiction in which it is unlawful for such person to make such an offering or solicitation. Neither the delivery of this plan summary nor any sale made under this plan of the securities described herein shall under any circumstances imply, and you should not assume, that the information contained in the prospectus or any document incorporated by reference is accurate as of any date other than the date on the front cover of the applicable document, regardless of the time of delivery of the plan prospectus or of any sale of our securities. Our business, financial condition, results of operations and prospects may have changed since those dates.

Except as otherwise indicated or required by the context, all references in this plan summary or the prospectus to “Cincinnati Financial” the “company,” “we,” “us” and “our” are to Cincinnati Financial Corporation and its subsidiaries.

All references in this prospectus to “\$” are to United States dollars.

Risk Factors

An investment in the common stock involves risks. Before deciding whether to purchase any shares of common stock, you should consider the risks discussed below or in the prospectus, including those set forth under the heading “Cautionary Statement Regarding Forward-Looking Statements,” and in our filings with the SEC that we have incorporated by reference in this prospectus. Additional risks and uncertainties not currently known to us or that currently believe to be immaterial also may affect our business expectations.

Any of the risks discussed below or elsewhere in this plan summary, the prospectus or in our SEC filings incorporated by reference, and other risks we have not anticipated or discussed, could have a material impact on our business, financial condition or results of operations. In that case, the trading price of the common stock could decline substantially.

The price of our common stock may fluctuate significantly, and this may make it difficult for you to resell any shares of the common stock when you want or at prices you find attractive.

The price of our common stock on the NASDAQ Global Select Market constantly changes. We expect that the market price of our common stock will continue to fluctuate.

In addition, the stock markets from time to time experience price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies and that may be extreme. These fluctuations may adversely affect the trading price of our common stock, regardless of our actual operating performance.

Future sales of our common stock or equity-related securities in the public market could adversely affect the trading price of our common stock and our ability to raise funds in new stock offerings.

In the future, we may sell additional shares of our common stock to raise capital. In addition, shares of our common stock are reserved for issuance on the exercise of stock options, the vesting of restricted stock units and other various instruments. We cannot predict the size of future issuances or the effect, if any, that they may have on the market price for our common stock. Sales of significant amounts of the common stock or equity-related securities in the public market, or the perception that such sales will occur, could adversely affect prevailing trading prices of the common stock and could impair our ability to raise capital through future offerings of equity or equity-related securities. Future sales of shares of our common stock or the availability of shares of our common stock for future sale could adversely affect the trading price of our common stock.

About the Plan

1. What is the Cincinnati Financial Corporation Shareholder Investment Plan?

The Cincinnati Financial Corporation Shareholder Investment Plan is a direct stock purchase and dividend reinvestment plan that enables new investors to make an initial investment in our common stock and existing investors to increase their holdings of our common stock. Participants can purchase our common stock with optional cash investments and cash dividends. By participating in the plan, you authorize the use of your cash dividends on common stock for the purchase of additional shares of common stock.

2. Who is the transfer agent for Cincinnati Financial Corporation?

Cincinnati Financial Corporation is its own transfer agent. Our Shareholder Services department is the company's stock transfer and dividend disbursing agent and administrator of our Shareholder Investment Plan.

3. What features does the plan offer?

- **Initial investment/Enrollment** (page 5). If you are not currently a shareholder, you can make an initial investment in our common stock, starting with as little as \$25.
- **Purchase/Optional cash investments** (page 6). You can increase your holdings of our common stock through optional cash investments of \$25 or more, up to \$10,000 per month. You can make optional cash investments by check, one-time electronic funds withdrawal from your bank account, or by authorizing automatic monthly deductions from your bank checking or savings account. To take advantage of the automatic feature, your financial institution must be a member of the Automated Clearing House (ACH).
- **Automatic dividend reinvestment** (page 7). You can also increase your holdings of our common stock through automatic reinvestment of your cash dividends. You can elect to reinvest all or a percentage of your dividends or a set dollar amount.
- **Automated transactions** (page 8). You can execute many of your plan transactions online at www.cinfin.com.
- **Share safekeeping** (page 9). You can deposit your common stock certificates for safekeeping in the plan or a DRS account with Shareholder Services.

The minimum optional cash investment may be different for associates of the company who elect to use payroll deduction.

Refer to Question 8 below for details about fees charged for these transactions and services.

4. Who is the plan administrator and what does the plan administrator do?

Cincinnati Financial Corporation's Shareholder Services department is the plan administrator. As plan administrator, Shareholder Services may forward participants' funds to the broker/dealer for open market purchases. Shareholder Services also keeps account records, sends account statements to participants and performs other administrative duties related to the plan.

Shareholder Services is responsible for purchasing and selling Cincinnati Financial common stock for participants' plan accounts, including the selection of the broker or dealer through which plan transactions are made. Neither Cincinnati Financial nor the Shareholder Services department has any control over the times or prices at which the broker/dealer purchases or sells our common stock in the open market.

5. How do I enroll in the plan if I am already a Cincinnati Financial Corporation shareholder?

If you are a Cincinnati Financial shareholder of record – that is, your shares are registered in your name, not your broker's or bank's name – you can enroll online (see Question 16 below) or by completing and returning the Shareholder Application Form.

6. How do I enroll if I am not currently a Cincinnati Financial shareholder?

If you do not currently have any Cincinnati Financial common stock registered in your name, you can enroll online (see Question 16 below) or by completing and returning the Shareholder Application Form. When you enroll, you will be required to make an initial investment of at least \$25 (but not more than \$10,000), or authorize automatic monthly bank withdrawals of at least \$25 each. If making your initial investment by check, your check for your initial investment and account setup fee should be made payable to **Cincinnati Financial Corporation Shareholder Investment Plan (CFC Shareholder Investment Plan)** in United States funds drawn on a United States bank.

7. How do I enroll if my shares are held other than in my name?

If your Cincinnati Financial shares are registered in the name of a bank, broker or other nominee, simply arrange for the bank, broker or other nominee to register in your name the number of shares of our common stock that you want to include in the plan. You can then enroll as a shareholder of record, as described above (see Question 5 above). Alternatively, if you do not want to re-register your shares, you can enroll in the plan in the same way as someone who is not currently a Cincinnati Financial shareholder, as described above (see Question 6 above). This will create a registered account in addition to your brokerage/bank account.

8. What are the fees associated with participation?

Initial Enrollment	No fee
<hr/>	
Stock Purchases/Optional Cash Investments	
• transaction fee	No fee
• brokerage commission	As charged by broker, included in cost
<hr/>	
Dividend Reinvestment	
• transaction fee	No fee
• brokerage commission	As charged by broker, included in cost
<hr/>	
Stock Sales	
• transaction fee	\$10.00 per sale
• brokerage commission	As charged by broker, included in cost
<hr/>	
Returned Checks and Rejected Electronic Bank Withdrawals	\$25.00 per item
<hr/>	
Prior-Year Duplicate Statements	First request (one statement/year):no fee Subsequent requests/years: \$15.00 per statement year.

Any brokerage charges incurred on sales and purchases are passed through to participants and are reflected in the price per share purchased/sold. Current brokerage charges on sales and purchases are approximately \$0.08/share but are subject to change at any time without prior notice.

Fee structure and payment setup may be different for associates of the company.

We can change the fee structure of the plan at any time. We will give you notice of any fee changes prior to the changes becoming effective.

Transaction fees and brokerage commissions are deducted from sale proceeds.

9. What are my options for additional cash investments?

You can make optional cash investments at any time by check or by automatic bank withdrawals from a designated United States bank account. Each investment, except as indicated below, can be for as little as \$25. Your total investment for any calendar month is limited to \$10,000, and any calendar year is limited to \$120,000.

Check. If you are not currently a registered shareholder of our common stock, you may make your initial investment via check. The minimum investment amount is \$25.

To make an investment by check, complete and return a Shareholder Application Form together with your payment. Your check must be made payable to Cincinnati Financial Corporation Shareholder Investment Plan (CFC Shareholder Investment Plan), in United States funds, and drawn on a United States bank. Shareholder Services must receive your payment at least two business days prior to an investment date; otherwise, your payment is invested on the next investment date. No interest is paid on your payment pending its investment in our common stock.

Electronic Investment – One-Time Transaction. If you are not currently a registered shareholder of our common stock, you may make your initial investment via a one-time, automatic debit from a designated United States bank account at a qualified financial institution. The minimum investment amount is \$25. To authorize a one-time electronic investment, complete the appropriate section of the Shareholder Enrollment Form and return it to Shareholder Services with a voided blank check for a checking account or the bank-designated routing number and your savings account number for a savings account. Indicate on the form if the account is a checking or savings account. This electronic debit (withdrawal) is processed as soon as practicable after the completed form is received in Shareholder Services.

Automatic Electronic Investments – Recurring Monthly. You can also make investments by automatic monthly debit from a designated United States checking or savings account at a qualified financial institution. Your account will be debited on or about the 20th day of each month or, if that day is not a business day, the next business day. The funds will be invested on the next investment date after your account is debited. To authorize automatic investments, complete the appropriate section of the Shareholder Application Form and return it to Shareholder Services with a voided blank check for a checking account or the bank-designated routing number and your savings account number for a savings account. If you have established automated privileges, you can also authorize automatic monthly investments online (see Question 14 below). Your automatic monthly investment will begin as soon as practicable after Shareholder Services receives your completed form.

If your available credits to the plan do not purchase an exact number of full shares, a fractional share will be credited to your account.

Forms are available for printing on the company Web site at www.cinfin.com or may be obtained by contacting Shareholder Services (shareholder_inquiries@cinfin.com, 513-870-2639 or 866-638-6443). You can change the amount of your monthly investment or stop your monthly investment altogether by completing a Shareholder Application Form and returning it to Shareholder Services or, if you have established automated privileges, by going online (see Question 14 below). Your change or termination request must be received at least 15 business days prior to an investment date for the change to be effective for that investment date. You may obtain the return of any cash investment upon request received by Shareholder Services on or before the second business day prior to the date on which it is to be invested.

Refer to Question 13 below for a discussion of optional cash investment dates.

No interest is paid on your payment pending its investment in our common stock. If any optional cash investment, whether by check or automatic withdrawal, is returned for any reason, Shareholder Services will remove from your account any shares purchased upon prior credit of such funds and sell these shares. Shareholder Services may sell other shares in the account to cover a returned funds fee for each optional cash investment returned unpaid for any reason and may sell additional shares as necessary to cover any market loss incurred.

10. What are my dividend reinvestment options?

The reinvestment option you elect applies to all of your shares of Cincinnati Financial common stock – whether held in certificate form, **in direct registration (DRS)** or in the plan.

- **Full Dividend Reinvestment.** Shareholder Services reinvests in additional shares of our common stock the full amount of cash dividends paid on all your shares of common stock.
- **Partial Dividend Reinvestment.** Shareholder Services reinvests in additional shares of our common stock a specified percentage or set dollar amount of cash dividends paid on all your shares of Cincinnati Financial common stock. Any cash dividends not reinvested are paid to you by check or direct deposit. To authorize direct deposit, please complete the appropriate section of the Enrollment or Shareholder Application Form and a Direct Deposit Authorization Form.
- **No Dividend Reinvestment.** Shareholder Services pays you by check or by direct deposit the cash dividends paid on all your shares of Cincinnati Financial common stock. To authorize direct deposit, please complete the appropriate section of the Enrollment or Shareholder Application Form.

If you do not wish to have any of your cash dividends reinvested, your shares are placed in book entry form in your DRS account. DRS is a securities industry initiative that provides for electronic direct registration of securities on our books, in your existing company account and allows shares to be transferred between the company and your broker electronically.

You may change your reinvestment option at any time by going online, or sending written notice to Shareholder Services by mail or by fax (see Questions 16 and 23 below). Notices received on or before a dividend record date are effective for that cash dividend. Notices received after dividend record date, are not effective until after that cash dividend has been paid.

11. Do I have all shareholder rights on shares purchased for me in the plan?

Yes. For all shares of our common stock that you purchase under the plan, you receive all stock splits and stock dividends that any of our shareholders receive. In addition, you are permitted to vote all shares of common stock that you hold in the plan as of proxy record date.

12. When are dividends paid?

Historically, Cincinnati Financial has paid dividends on the 15th or next business day of April, July, October and January to shareholders of record around the 20th day of March, June, September and December, respectively. The dividend payment date and dividend record dates are determined by our board of directors and vary slightly from year to year. In addition, the dividend payment date and dividend record dates may change more significantly in the future. To reinvest your cash dividends, Shareholder Services must receive your Shareholder Application Form authorizing dividend reinvestment on or before the dividend record date.

The payment of dividends on our common stock is at the discretion of the company's Board of Directors. There is no guarantee that Cincinnati Financial will pay dividends in the future. The timing and amount of future dividends, if any, will depend on earnings, cash requirements, the financial condition of Cincinnati Financial and its subsidiaries, applicable government regulations and other factors deemed relevant by the Cincinnati Financial Board of Directors.

13. When does Shareholder Services purchase shares?

Optional Cash Investments. Optional cash investments are made on:

- Friday of each week or, if the NASDAQ Global Select Market is not open on Friday, the next business day the market is open, or
- dividend payment date or, if the NASDAQ Global Select Market is not open on the dividend payment date, the next business day the market is open, when the purchase request is received in the same week a dividend is paid.

Dividend Reinvestment. Cash dividends are reinvested on the applicable dividend payment date or, if the NASDAQ Global Select Market is not open on the dividend payment date, the next business day the market is open.

Shares are purchased and sold for the plan on specified dates or during specified periods. As a result, you do not have any control over the price at which shares are purchased or sold for your account, and you may pay a higher purchase price or receive a lower sales price than if you had purchased or sold the shares outside of the plan. You bear the risk of fluctuations in the price of our common stock. No interest is paid on funds held by the plan administrator pending their investment. All optional cash investments, including the initial cash investment, are subject to collection by Shareholder Services of the full face value in United States funds.

14. How does Shareholder Services buy the shares?

Shareholder Services may purchase our common stock from Cincinnati Financial or use an independent broker/dealer to buy the shares in the open market or in negotiated transactions. Cincinnati Financial determines the method.

15. At what price do Shareholder Services purchase the shares?

Open Market Purchases. If the shares are purchased in the open market or in a negotiated transaction, your purchase price is the weighted average purchase price per share for all shares purchased for that investment date. The broker/dealer purchases shares as soon as practicable, and in no event more than five business days, after the applicable investment date.

Purchases from Cincinnati Financial. If the shares are purchased from Cincinnati Financial, your purchase price is the closing price of our common stock on the NASDAQ Global Select Market for that investment date. If the NASDAQ Global Select Market is closed on that date, then the price is the closing price of our common stock on the NASDAQ Global Select Market for the next business day the market is open.

Shareholder Services may commingle your funds with those of other participants for purposes of forwarding purchase orders to the independent broker/dealer. Also, purchase and sale orders for the same investment date may be offset, forwarding to the broker/dealer the net purchase or sale requirement. Because the prices at which shares are purchased under the plan are beyond your control, you may lose any advantage otherwise available from being able to select the timing of your investment.

Shareholder Services maintains control over the times when and the prices at which it purchases or sells shares of common stock for the plan. Each day the administrator purchases common shares for the plan is an “investment date.”

16. May I enroll, view my account information and execute transactions online?

This feature will be available early in 2009.

Shareholder Services maintains an Internet Web site at www.cinfin.com that allows you to enroll online; to view your account balance, recent plan transactions and other helpful information; and to update your personal information. Once you have enrolled, you can also:

- enroll in the plan or change your dividend reinvestment option (for example, from full to partial reinvestment);
- sell some or all of the shares of our common stock credited to your account under the plan if the then current market value of the shares of our common stock to be sold is \$1,000 or less (if the market value of the shares of our common stock to be sold is greater than \$1,000, the request must be submitted to Shareholder Services in writing with your signature guaranteed by a financial institution that is a member of a recognized Medallion signature guarantee program); or
- terminate your participation in the plan.

Certain restrictions may apply. Please contact Shareholder Services with questions concerning your Internet privileges.

17. Will I receive a statement of my account?

Yes. Shareholder Services reports the number of shares you hold in the account, the shares for which any dividends are reinvested, dividends paid to you, a history of the transactions during the period and fees paid. These statements are your record of the cost basis of your transactions and should be kept for tax purposes. An account statement will be sent to you at least annually and, at the discretion of the company, as soon as practicable after each quarterly dividend reinvestment and after each optional cash investment, any transfer, sale or withdrawal of plan shares. You may also request a statement to be mailed to you.

Participants can also enroll in online access at www.cinfin.com. Once enrolled, participants may then view transactions and statements online. All notices, statements and reports are sent to your last known address. Many states have enacted abandoned property laws that may require the company, the custodian or the agent to remit to the state all stock and dividends held in the plan accounts for which the owner cannot be located. Accordingly, you should promptly notify Shareholder Services of any change of address

18. Will I receive stock certificates for my plan shares?

Each share purchase is credited to your plan account. Your account statement shows the number of shares of our common stock, including any fractional share, credited to your account. You do not receive a certificate for your plan shares unless you request one. You can request a certificate by submitting your request in writing to Shareholder Services (see Question 23 below for the mailing address). Certificates for fractional shares are never issued.

19. Can I deposit share certificates for safekeeping?

You can at any time, including when you first enroll, deposit Cincinnati Financial common stock certificates registered in your name with Shareholder Services for safekeeping, at no cost to you. To use this service, you must send your certificates to Shareholder Services with a properly completed Certificate Safekeeping Form. Shares represented by certificates that you deposit are included in book entry form in your plan account and thereafter are treated as if acquired under the plan. You are responsible for maintaining your own records of the cost basis of certificated shares deposited in your plan account. If your shares are currently registered in street or other nominee name and you wish to participate in the plan, you may be able to electronically transfer these shares from your existing account to a plan account by contacting your broker.

Please do not endorse your certificates. You are strongly urged to send your certificates by certified or registered mail, insuring them for 3 percent of the current market value of the common stock represented by the certificates. Regardless of the method used, you bear the full risk of loss if the certificates are lost or stolen.

20. Can I transfer my plan shares to someone else?

You can transfer your plan shares to a plan account of another person, subject to compliance with any applicable laws. If the person to whom the shares are gifted or transferred is not a plan participant, Shareholder Services automatically opens an account for the person and enrolls him or her in the plan. To transfer shares to someone not already participating in the plan, simply execute a Stock Transfer Form and return it to Shareholder Services. Your signature on the Stock Transfer Form must be guaranteed by a financial institution that is a member of a recognized Medallion signature guarantee program. If the transferee is not already a registered shareholder or a plan participant, the donor may make a reinvestment election for the transferee at the time of the transfer. If the donor does not make a reinvestment election, then full dividend reinvestment is assumed for all the transferred shares. You can obtain a Stock Transfer Form online at www.cinfin.com or by contacting Shareholder Services at shareholder_inquiries@cinfin.com or by phone at 513-870-2639 or 866-638-6443. If you request to transfer all shares in your plan account between a dividend record date and payable date, your transfer request is processed but your plan account is not terminated. You may receive additional dividend reinvestment shares, which requires you to submit a written request to transfer the additional shares.

You cannot pledge or grant a security interest in your plan shares or transfer your plan shares outside of the plan unless certificates representing the shares have been issued, or by completing the Stock Transfer Form.

21. How do I sell my plan shares?

You can sell some or all of your plan shares by submitting the appropriate information on a Sale/Certificate Withdrawal Form or by submitting a written request to the Shareholder Services. If the current market value of the shares of Cincinnati Financial common stock you want to sell is \$1,000 or less, and you have previously established automated privileges, you can sell the shares online (see Questions 16 above).

- Shareholder Services may match or offset your sale order against one or more purchase orders of other plan participants. If your sale order is offset against purchase orders, your sale proceeds are based on the weighted average price at which the net purchase order is filled.
- If Shareholder Services does not offset your order, they may direct a broker/dealer to execute the order on your behalf in the open market or in a negotiated transaction. The broker/dealer may sell plan shares of our common stock to Cincinnati Financial. If the broker/dealer executes your order in the open market or in a negotiated transaction, the proceeds are based on the weighted average price at which the shares are sold.

After settlement of the sale, Shareholder Services sends you a check for the proceeds of the sale, net of brokerage commissions and transaction fees (if applicable) charged or, if you choose, you may have your proceeds, minus brokerage commissions and transaction fees directly deposited to your bank account. Refer to Question 8 above for a discussion of brokerage commissions and transaction fees.

If you submit a Sale/Certificate Withdrawal Form from your account statement to sell all or part of your plan shares, and you are requesting the net proceeds be automatically deposited to a bank checking or savings account, you must provide a voided blank check for a checking account. If you are unable to provide a voided check, your written request must have your signature(s) guaranteed by a financial institution that is a member of a recognized Medallion signature guarantee program. Requests for automatic deposit of net sale proceeds that do not provide the required documentation will not be honored and a check for the net proceeds will be issued.

The price of our common stock fluctuates on a daily basis. The price may rise or fall after you submit your request to sell and prior to the ultimate sale of your shares. The price risk is borne solely by you. You cannot revoke your request to sell once it is made.

22. Can I leave the plan at any time?

Yes. You can close your plan account by completing and returning a Sale/Certificate Withdrawal Form or by sending a written request to Shareholder Services that includes the name of the plan and your account number. If you have previously established automated privileges, you can terminate your participation in the plan online at www.cinfin.com. If you have authorized automatic monthly bank withdrawals, Shareholder Services must receive your request at least two business days before the next scheduled investment date to ensure that the request is effective for that investment date. If your request to terminate from the plan is received on or after a dividend record date but before the dividend payment date, your termination is processed as soon as practicable, and a separate dividend check is mailed to you.

If you prefer to transfer your shares to your brokerage account, contact your broker to request the transfer using the Direct Registration System.

Upon termination of your participation in the plan, unless you request on a Sale/Certificate Withdrawal Form that some or all of your plan shares be sold, Shareholder Services converts your full plan shares into direct registration and issues you a check, minus brokerage commissions and transaction fees, for any fractional share. If you use the Sale/Certificate Withdrawal Form to request that the broker/dealer sell some or all of your plan shares on your behalf, after settlement of the sale, Shareholder Services sends you a check in the amount of the net proceeds of the sale (plus the market value of any fractional plan share) and converts any whole plan shares not sold into direct registration. Refer to Question 21 above for a discussion of how plan shares are sold and Question 8 above for a discussion of brokerage commissions and transaction fees. A request to terminate participation in the plan is also treated as a request to cease any direct debits authorized.

After termination, you can re-enroll in the plan online or by submitting a new Shareholder Application Form and complying with all other enrollment procedures. To minimize unnecessary plan administrative costs and to encourage use of the plan as a long-term investment vehicle, Cincinnati Financial reserves the right to deny participation in the plan to previous participants who Cincinnati Financial or Shareholder Services believes have been excessive in their enrollment and termination.

The company reserves the right to terminate your participation in the plan if your plan account balance falls below one whole share of common stock for a period of six months or more. If the company terminates your participation for this reason, you receive a check for your fractional share in the same manner as if you had chosen to close your account in the plan.

23. How do I contact the Shareholder Services department?

By mail:

Cincinnati Financial Corporation
Shareholder Services
P.O. Box 145496
Cincinnati, Ohio 45250-5496

For overnight delivery:

Cincinnati Financial Corporation
Shareholder Services
6200 South Gilmore Rd
Fairfield, OH 45014-5141

By telephone: 513-870-2639

866-638-6443

By Fax: 513-870-2988

E-mail: *shareholder_inquiries@cinfin.com*

Internet: www.cinfin.com

24. What are the U.S. federal income tax consequences of participating in the plan?

The following is a brief summary of some of the principal U.S. federal income tax considerations applicable, as of the date of the prospectus, to participation in the plan.

In general, participants in the plan have the same U.S. federal income tax consequences with respect to dividends as shareholders not participating in the plan. You are treated for U.S. federal income tax purposes as having received on each dividend payment date with respect to shares of Cincinnati Financial common stock held for you, a dividend equal to the full amount of the cash dividends payable on both the shares of our common stock registered in your own name and the Cincinnati Financial common stock held through the plan, even though the amount of dividends reinvested is not actually received in cash but is instead applied to the purchase of our common stock for your account under the plan. In addition, the Internal Revenue Service has ruled that the amount of brokerage commissions paid by us on your behalf (where plan common stock is purchased on the open market) is to be treated as a distribution to you which is subject to income tax in the same manner as dividends. The sum of those amounts becomes your cost basis for those shares of our common stock.

Your statement of account under the plan shows the price per share to you of our common stock purchased with reinvested dividends. That price, which includes the brokerage commissions paid by us on your behalf on purchase under the plan of shares of our common stock, is the federal income tax cost basis to you of shares of our common stock acquired under the plan. Your statement of account also shows the date on which the shares of common stock purchased under the plan were credited to your account. Your holding period for our common stock purchased under the plan generally begins on the date following the date on which those shares of our common stock are credited to your plan account.

You receive an annual statement summarizing all the transactions in your account for that year. The year-end statement includes an Information Return summarizing dividend paid (1099-DIV) to you during the year. If applicable, you also receive an Information Return summarizing proceeds from sales transactions during the prior year (1099-B) or an Information Return for dividends paid on non-U.S. accounts (1042-S). Shareholder Services must provide copies of these Information Returns to the U.S. Internal Revenue Service. Although the company makes efforts to assist plan participants by providing periodic statements and other reports, plan participants have the ultimate responsibility for maintaining your own records for tax and other purposes.

Information forms (Forms 1099-DIV) are mailed to plan participants each year and set forth the taxable dividends and brokerage commissions reportable for U.S. federal income tax purposes. These dividends and brokerage commissions must be reported on your federal income tax return.

Reinvested dividends are not subject to withholding unless (1) you fail to give your Social Security or tax identification number to us, (2) the Internal Revenue Service notifies us that you are subject to tax withholding, or (3) you fail to certify, under penalties of perjury, that you are not subject to backup withholding if such certification is required. If you are a shareholder whose dividends are subject to tax withholding, we apply toward the purchase of our common stock under the plan an amount equal to the dividends being reinvested less the amount of tax required to be withheld. Your statement of account under the plan indicates the amount of tax withheld.

You do not recognize any taxable income upon receipt of a certificate for whole shares of common stock credited to your account under the plan, whether upon request for such a certificate, upon termination of your participation in the plan or upon termination of the plan. However, you may recognize a gain or loss upon receipt of a cash payment for whole shares of Cincinnati Financial common stock or a fractional common share credited to your account under the plan when that account is terminated by you, when shares of our common stock credited to your account under the plan are sold or when the plan is terminated. A gain or loss may also be recognized upon your disposition of the Cincinnati Financial common stock received from the plan. The amount of any such gain or loss is the difference between the amount received for the whole or fractional shares of our common stock and the cost basis of the Cincinnati Financial common stock. Generally, gain or loss recognized on the disposition of shares of our common stock acquired under the plan is treated for U.S. federal income tax purposes as a capital gain or loss and is long-term capital gain or loss if, as of the date of such disposition, the holding period with respect to the shares of Cincinnati Financial common stock sold exceeds one year.

The discussion above is a summary of the important United States federal income tax consequences of your participation in the plan. The summary is based on the Internal Revenue Code of 1986, as amended, United States Treasury Regulations, administrative rulings and court decisions, in effect as of the date of this prospectus, all of which are subject to change at any time, possibly with retroactive effect. This summary is not a complete description of all of the tax consequences of your participation in the plan. For example, it does not address any state, local or foreign tax consequences of your participation. You should consult your own tax adviser about the tax consequences of your participation in the plan.

Direct Registration

We are eligible to participate in the Direct Registration System (DRS). DRS is a method of recording shares of stock in book-entry form. Book entry means that your shares are registered in your name on our books without the need for physical certificates and are held separately from any plan shares you may own. Shares held in book-entry form have all the traditional rights and privileges as shares held in certificate form. With DRS you can:

- eliminate the risk and cost of storing certificates in a secure place
- eliminate the cost associated with replacing lost, stolen, or destroyed certificates
- move shares electronically to a broker or to other registered accounts.

Any future share transactions will be issued in book-entry form rather than physical certificates unless you specify otherwise. You may convert any stock certificate(s) you are currently holding into book-entry form by sending the stock certificate(s) to Shareholder Services at Cincinnati Financial Corporation with a request to deposit them to your DRS account or your plan account. There is no cost to you for this custodial service and by doing so you will be relieved of the responsibility for loss or theft of your certificate(s). Your certificate(s) should not be endorsed, and we recommend sending your certificate(s) registered mail, insured for 3 percent of the current market value of the shares.

You may choose to have a portion or all of your book-entry or plan shares delivered directly to your broker by contacting your broker/dealer. When using your broker to facilitate a share movement, please provide the broker with a copy of your DRS account statement.

Other Plan Information

Stock Dividends and Stock Splits. Stock dividends or split shares issued by Cincinnati Financial on plan shares are credited to your account. Stock dividends or split shares issued with respect to your certificated or direct registration shares are handled in the same manner as for shareholders who are not participating in the plan. Cash dividends paid on the shares issued as stock dividends or stock splits are processed in accordance with the dividend reinvestment option then elected. If Shareholder Services receives, between the record date and payable date for a stock distribution, a request for plan termination or a request to sell plan shares, the request is not processed until the stock distribution is credited to your account.

Dividend and Voting Rights. Dividend and voting rights of shares purchased under the plan commence upon settlement of the transaction, which normally is three business days after purchase. Shares purchased on or within two business days prior to a dividend record date are considered “ex-dividend” and therefore not entitled to payment of that dividend.

Voting of Plan Shares. Each shareholder entitled to vote at a meeting of shareholders is sent proxy materials before the meeting. You are encouraged to read the proxy statement carefully. You may vote online or by phone or by returning the signed, dated proxy material. The proxies will vote the shares in accordance with your instructions.

Limitation of Liability. In administering the plan, neither Cincinnati Financial, Shareholder Services nor any broker/dealer selected by Shareholder Services to execute purchases and sales on behalf of plan participants will be liable for any good faith act or good faith omission to act, including but not limited to any claim of liability (1) arising out of the failure to terminate a participant’s account upon such participant’s death prior to receipt of a notice in writing of such death from a duly authorized representative of the estate, (2) with respect to the prices or times at which our common stock is purchased or sold, or (3) as to the value of the Cincinnati Financial common stock acquired for participants.

Shareholder Services is acting solely as the agent of Cincinnati Financial and owes no duties, fiduciary or otherwise, to any other person by reason of the plan, and no implied duties, fiduciary or otherwise, will be read into the status of Shareholder Services under the plan. Shareholder Services undertakes to perform such duties and only such duties as are expressly described in this prospectus to be performed by it, and no implied covenants or obligations will be read into the plan against the Shareholder Services or Cincinnati Financial.

In the absence of negligence or willful misconduct on its part, Shareholder Services, whether acting directly or through agents or attorneys, will not be liable for any action taken, suffered or omitted, or for any error of judgment made by it, in the performance of its duties under the plan. In no event will Shareholder Services be liable for special, indirect or consequential loss or damage of any kind whatsoever (including, but not limited to, lost profit), even if they have been advised of the likelihood of such loss or damage and regardless of the form of action.

Shareholder Services will not be required to make and will make no representations and have no responsibilities as to the validity, accuracy, value or genuineness of any signatures or endorsements, other than its own. In addition, they will not be obligated to take any legal action under the plan that might, in its judgment, involve any expense or liability, unless it has been furnished with reasonable indemnity.

Shareholder Services will not be responsible or liable for any failure or delay in the performance of its obligations under the plan arising out of or caused, directly or indirectly, by circumstances beyond its reasonable control, including, without limitation, acts of God; earthquakes; fires; floods; wars; civil or military disturbances; sabotage; epidemics; riots; interruptions, loss or malfunctions of utilities, computer (hardware or software) or communications services; accidents; labor disputes; acts of civil or military authority or governmental actions; it being understood that they will use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances.

Shareholder Services is authorized to choose a registered broker/dealer, including a broker/dealer affiliated with the Cincinnati Financial, at its sole discretion to facilitate purchases and sales of our common stock by plan participants. Shareholder Services will furnish the name of the registered broker/dealer, including any affiliated broker/dealer, utilized in common share transactions within a reasonable time upon written request from a plan participant.

Modification or Termination of the Plan. Cincinnati Financial can suspend, modify or terminate the plan at any time in whole or in part or with respect to participants in certain jurisdictions. Notice of any suspension, material modification or termination will be sent to all affected participants.

Denial or Termination of Participation by Cincinnati Financial. Shareholder Services may terminate your participation in the plan if you do not own at least one full share in your name or held through the plan. Cincinnati Financial also reserves the right to deny, modify, suspend or terminate participation in the plan by otherwise eligible persons to the extent Cincinnati Financial deems it advisable or necessary in its discretion to comply with applicable laws or to eliminate practices that are not consistent with the purposes of the plan. Participants whose participation in the plan is terminated will have your full plan shares converted to direct registration and will receive a check less any service fees and broker commissions for any fractional plan share.

Where You Can Find More Information

Registration Statement

We have filed a registration statement on Form S-3 to register with the Securities and Exchange Commission the shares of our common stock to be offered for purchase by plan participants. This prospectus is part of that registration statement. The registration statement, including the exhibits to the registration statement, contains additional relevant information about us and our common stock. As allowed by SEC rules, the prospectus does not contain all of the information you can find in the registration statement or the exhibits to the registration statement.
