

Technip Hosts Technology Day Today on Onshore Solutions

Technip will conduct later today, in Los Angeles, California, USA, a Technology Day for investors and sell-side analysts, in conjunction with our Inaugural Ethylene Forum with experts from around the world. This is a unique opportunity to learn more about Technip's technological offer for tomorrow's Onshore Market.

The briefing will provide its investors, clients and partners better understanding of Technip's business, with a detailed review of the different technologies through a series of presentations given by senior management and guest speakers.

The presentations will focus on Technip's core strengths and opportunities for sustainable and profitable growth in the Onshore business, including presentations as follows:

- Providing Solutions to the Energy Industry,
Thierry Pilenko, Chairman and CEO, Technip
- An Integrated Energy Perspective,
Jorge Leis, Partner, Bain & Company
- Technip Onshore: Delivering Technological Projects,
Nello Uccelletti, Senior Vice President Onshore, Technip
- Technip Stone & Webster Process Technology: A World-class Downstream Technology Leader,
Stan Knez, Senior Vice President Process Technology, Technip
- Global Ethylene Market Outlook: Low Cost Feedstocks Fuel The Next Wave Of Investments In North America and China,
Mark Eramo, Vice President Chemical Insights, IHS Inc.
- Shale Gas and Ethylene: Implications of Increased NGL Production,
Claire Cagnolatti, Vice President of Chemicals Studies, HSB Solomon Associates LLC
- Technip: A Wider Ethylene Offering,
Jean-Paul Laugier, Vice President Ethylene Product Line, Technip

Thierry Pilenko, Chairman and CEO, will open discussions at Technology Day, which will focus on providing solutions to the energy industry. He stated *"With the acquisition of Stone & Webster just over a year ago, we enhanced substantially Technip's position as a key technology provider, notably in areas such as the promising US downstream market boosted by the supply of unconventional gas. This event provides an excellent opportunity to see what we are doing across a broad spectrum of projects around the world and to understand the trends of our market"*.

No material price-sensitive information will be disclosed and no information relating to current trading will be provided.

The presentations made by Technip's management and guest speakers at Technip's Technology Day, as well as videos shown during the event are available on the Company's investor relations website at <http://investors-en.technip.com>. Transcripts of the event will be available later in the week.

Technip is a world leader in project management, engineering and construction for the energy industry. From the deepest Subsea oil & gas developments to the largest and most complex Offshore and Onshore infrastructures, our 38,000 people are constantly offering the best solutions and most innovative technologies to meet the world's energy challenges.

Present in 48 countries, Technip has state-of-the-art industrial assets on all continents and operates a fleet of specialized vessels for pipeline installation and subsea construction.

Technip shares are listed on the NYSE Euronext Paris exchange and traded in the USA on the OTCQX marketplace (OTCQX: TKPPY).
