Management believes the following non-GAAP measures provide meaningful supplemental information to assist investors in understanding our financial results and to better analyze trends in our underlying business. These non-GAAP financial measures should not be considered in isolation or as a substitute for the most comparable GAAP financial measures. The non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the reconciliation to the corresponding GAAP financial measures, provide a more complete understanding of our business. Investors are strongly encouraged to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure. A reconciliation of the non-GAAP measures to the most directly comparable GAAP financial measures is included below.

Management believes that these non-GAAP measures provide insight into the company's core performance.
