REGAL BELOIT REPORTS FIRST QUARTER 2011 FINANCIAL RESULTS

- Quarterly Sales Increased 31%
- Strong Operating Cash Flow

May 2, 2011 (Beloit, WI): Regal Beloit Corporation (NYSE: RBC) today reported financial results for the first quarter ended April 2, 2011. Net sales of \$662.7 million increased 30.6% compared to \$507.3 million for the first quarter of 2010. Diluted earnings per share were \$0.99 compared to \$0.98 for the first quarter of 2010.

"In line with our guidance, sales across all business units improved over the first quarter 2010," commented Mr. Mark Gliebe, Chief Executive Officer. "However, we faced continued inflationary pressure on input costs, especially costs for copper and steel. We are implementing our previously announced price increases that were effective beginning in March 2011 to help offset these cost increases. Additionally we incurred significant transaction-related expenses as we prepare for the closing of the acquisition of A.O. Smith's motor business."

Operating expenses for the first quarter 2011 increased \$32.5 million including (i) \$20.1 million related to the acquired businesses, (\$2.4 million of which was intangible amortization), and (ii) an incremental \$5.1 million of acquisition-related expenses.

Net interest expense for the first quarter 2011 was \$4.8 million, compared to \$4.4 million for the first quarter 2010. The effective tax rate for the first quarter 2011 was 31.2% which was in line with prior guidance.

Net income attributable to Regal Beloit Corporation for the first quarter 2011 was \$38.8 million, a 2.9% increase compared to \$37.8 million for the first quarter 2010. Fully diluted earnings per share for the first quarter 2011 were \$0.99 compared to \$0.98 for the first quarter 2010.

Net cash provided by operating activities was \$56.2 million for the first quarter 2011, an increase of 26.7% compared to the first quarter 2010. Capital expenditures were \$27.7 million which included the purchase of our factory in Faridabad, India which was previously leased. Cash and investments totaled \$259.5 million at April 2, 2011, an increase of \$28.6 million from January 1, 2011.

"Looking back on the quarter we are encouraged by the strength in our sales growth but are disappointed with our margin performance which was negatively impacted by commodity inflation," continued Mr. Gliebe. "As we look forward to the second quarter we are expecting to see the normal seasonal improvement in our HVAC sales which can be impacted by the weather. Steel input costs will be a significant headwind and copper costs remain at elevated levels. We anticipate starting to realize the benefit of previously announced price increases and seeing improved contributions from our 2010 acquisitions. Accordingly, we are projecting second quarter diluted earnings per share of \$1.22 to \$1.28 per share. Our guidance for the second quarter includes similar levels of acquisition related expense, but does not include the impact of closing on the acquisition of the A.O. Smith motor business.
