NEWS RELEASE

GTECH S.p.A. Announced a Settlement with the Illinois Lottery to Terminate For Convenience the Northstar Lottery Groupôs Private Management Agreement

GTECH will remain supplier to the Lottery through June 30, 2021

ROME (ITALY) and **PROVIDENCE, RHODE ISLAND (US)**, December 10, 2014 ï GTECH S.p.A. today announced that, effective December 9, 2014, its subsidiary Northstar Lottery Group, LLC (Northstar) entered into an agreement with the Illinois Department of Lottery (the Lottery) to terminate the private management agreement (PMA) for convenience. The PMA went into effect on January 18, 2011, and is now expected to terminate in approximately 12 months. At the election of the Lottery, the termination agreement can be further extended for up to three six-month periods. Northstar is a consortium in which GTECH Corporation holds an 80 percent controlling interest, with Scientific Games International, Inc. (SGI) holding the remaining 20 percent interest.

Under the termination agreement, the Lottery will pay a termination for convenience fee and disentanglement services fees to Northstar for a 12-month period. Disentanglement services constitute all services that Northstar currently provides under the PMA. Northstar will continue providing those services until the earlier of: a transition of Northstarôs responsibilities to the Lottery or to another private manager, or 12 months from the termination notice date, unless otherwise extended as described above. Northstar will receive a maximum of $12.65 million in termination for convenience fees.

The Lottery will also pay Northstar for disentanglement services fees of approximately $121 million during the 12-month disentanglement period for the reimbursement of costs for ongoing Lottery operating expenses such as personnel, subcontractors (which includes fees to GTECH and SGI as suppliers), and additional transition-related expenses up to $17 million due to the termination of the PMA. These disentanglement fees are subject to a requirement that Northstar return any payments that it receives from the Lottery in excess of the costs actually incurred. The State will continue to have control and oversight over all Lottery operations during the disentanglement services period.

As part of the global settlement of disputes in the termination agreement, the Net Income Shortfall Payments for fiscal years 2012, 2013, and 2014 have also been agreed upon and settled for $21.8 million, $38.6 million, and $37.1 million, respectively. As a result of the settlement, Northstar will record an additional charge in the fourth quarter of 2014 that it preliminarily estimates to be $20 million. No further cash impact will result from this Net Income Shortfall Payments final determination. Northstar will not be responsible for the payment of any Net Income Shortfall Payment, nor will it be entitled to receive any Incentive Compensation, for all or any portion of fiscal year 2015, or any subsequent fiscal year.

GTECH will retain its separate facilities management agreement through June 30, 2021. The parties have agreed that Northstar will assign the GTECH facilities management agreement to another private manager, or to the State, if another private manager is not selected. The agreement may be extended for up to four additional one-year terms, to June 30, 2025, at the discretion of the new manager with the approval of the State, if required. If the State selects another private manager, the private manager has the option of issuing a competitive procurement for services provided by GTECH under the facilities management agreement after June 30, 2018, subject to certain conditions.

As part of the termination agreement, the Lottery and Northstar have agreed to cease a dispute resolution process intended to adjudicate all pending requests for adjustments to Net Income Levels in the PMA and all outstanding litigation and other disputes.
