

Stockholder Communication Procedures

The Company has provided a telephone hotline for stockholders wishing to communicate with the Board of Directors. The Audit Committee of the Board of Directors will monitor these calls. All calls will be documented, and those reports that are deemed to be substantive will be passed to the Board.

To communicate with the Board, call the Company's toll-free Governance Hotline at 1-800-506-6374. A sufficiently detailed description of the nature of the matter that the stockholder wishes to communicate with the Board should be given in order to allow for an appropriate response. Stockholders should also provide a name, telephone number, email address, or other contact information so that the Company can either respond to the communication or obtain additional information about the matter.
