Focus of Board of Commissioners's Supervision In 2017

The Board of Commissioners provided direction and support to the Directors in re-focusing on Corporate and Consumer segments as the new core business of Bank Mandiri without prejudice to other business segments.

The Board of Commissioners emphasized the supervision of several matters that needed attention as follows:

1. Credit
 - a. Credit disbursement was always conducted by prioritizing prudential principles, improving the quality of internal controls and applying adequate credit risk management, being selective in choosing the industry segment, which became the target of credit expansion, and further optimizing the function of Credit Portfolio Group in determining the most appropriate credit portfolio mix for Bank Mandiri.
 - b. Related to the reorganization process that had been conducted in Semester I/2017, especially in terms of authority to terminate the credit facilities in the Commercial Segment, it needed to continue to monitor its progress and review its effectiveness.
 - c. It needed to consider a special unit performing independent monitoring and review of credit quality and not to have KPI (Key Performance Indicators) targets related to the NPL level, so as to provide an objective assessment of credit quality.
 - d. It needs to optimize the function of Special Asset Management (SAM) Directorate especially in performing the function of restructuring and collecting non-performing loans.
