ABOUT US

Metcash Limited is a leading marketing and distribution company operating in the grocery and liquor wholesale distribution industries through its three business pillars:

- > IGA Distribution
(Independent Grocers of Australia)
- > Australian Liquor Marketers
- > Campbells Cash & Carry

THE YEAR'S HIGHLIGHTS

- > Net profit after tax rose **11.3 per cent to \$110.1m*** despite sales reduction of 0.7%;
- > Capital reorganisation completed, **Metcash now an Australian owned company**;
- > **Operating cash flow remained strong, \$183.6m** generated;
- > **Acquisition of Foodland Associated Limited's Australian** businesses underway.

* Before Metoz goodwill amortisation, on a 52 week comparable basis.

OUR MISSION STATEMENT

To be the marketing and distribution leader in food and other fast-moving consumer goods

Wayne Grinyer, Storeperson, Blacktown, NSW.

REPORT FROM THE CHAIRMAN AND THE CHIEF EXECUTIVE OFFICER

Russell Smith, Branch General Manager and Wayne Weldon, Operations Manager at Amalgamated Confectionery in Springwood, Qld.

Strong sales growth was experienced in the petrol and convenience store market resulting in Campbells' market share of the total convenience market growing to 24 per cent.

Carlos S. dos Santos, Chairman.

Andrew Reitzer, Chief Executive Officer.

2005 has been an important year in the company's development and in terms of profit and cash flow generation, it has been a successful year.

The Group's net profit after tax rose 11.3 per cent from \$98.9m (52 week adjusted) to \$110.1m in the 52 weeks to 30 April 2005, before goodwill on consolidation of the newly acquired Metoz Holdings Limited (Metoz) companies, while cash flow from trading rose from \$171m to \$183.6m. After Metoz goodwill amortisation, profit after tax for the year was \$104.9m.

A capital reorganisation has been put in place with a new holding company, Metcash Limited, now owning Metcash Trading Limited as well as the former parent, Metoz. This means that Metcash is now an Australian owned public company. Simultaneously, a bid to acquire the Australian assets of Foodland Associated Limited (FAL), the Western Australian based wholesale grocer and supermarket operator, was launched.

There has been strong market support for both the capital reorganisation and the FAL acquisition and the value of Metcash shares has increased substantially to the benefit of Australian shareholders as a result.

Financial Results

The results for the year included another strong performance by the group's largest division, IGA Distribution, which posted a 9.6 per cent growth in earnings before interest and tax to \$141.6m. This came off a sales decrease of 1 per cent reflecting the loss of the supply contract with Franklins. Excluding the Franklins business, the result was a sales growth of 4 per cent (for comparable stores). The increased profit in the face of a sales decrease was an excellent result.

Campbells Cash & Carry also had a good year, lifting earnings before interest and tax by 17.8 per cent to \$17.3m. Strong sales growth was experienced in the petrol and convenience store market, resulting in Campbells' market share of the total convenience market growing to 24 per cent. This will be further strengthened by the recently announced supply agreement with the 350-strong 7-Eleven stores across Australia, that is expected to add a further \$200m per annum to Campbells' sales.

Australian Liquor Marketers experienced a 14.6 per cent drop in earnings before interest and tax to \$28.2m. This was largely due to the loss of business with Australian Leisure & Hospitality and other chain store acquisitions in the liquor market. A large percentage of the Australian Leisure & Hospitality business was subsequently regained towards the end of the financial year.

Capital Reorganisation

As a consequence of Metoz (formerly Metro Cash & Carry Limited of South Africa) selling its African business and other assets to a consortium including Metoz management, the only remaining asset of the listed company was its majority shareholding in Metcash Trading Limited. Metoz shares were trading at a discount to the underlying value of its Metcash investment and two key shareholders wished to sell their shareholding in Metoz. During March this year, schemes of arrangement incorporating a capital reorganisation were successfully concluded simultaneously in South Africa and Australia, in accordance with which Metoz shareholders accepted the offer by the new company, Metcash Limited, to acquire their shares. Metcash Limited now owns 100 per cent of Metcash Trading Limited and is the new holding company. This process removed the uncertainty and concerns arising from the desire of the Metoz shareholders to sell their shares and provided them with fair value for their holdings.

As a result of the capital reorganisation, this year's annual report contains the 11 months results under the control of Metcash Trading Limited and one month under Metcash Limited. The statutory reports for each of the two companies are included in the annual report, but for ease of reference, composite financial statements for 12 months have also been included. This allows the results of the year to be reviewed and also facilitates comparison with previous years.

Acquisition of Foodland Associated Limited (FAL)

At the same time that the capital reorganisation was announced, the company also announced a bid to acquire the Australian assets of FAL. FAL operates a wholesale grocery business in Western Australia and retail supermarkets in Western Australia, Queensland and northern New South Wales. Additionally, the company has a major supermarket retailing business in New Zealand. The Australian business is seen as complementary to the existing Metcash businesses, two of which do not operate in Western Australia.

The acquisition of the FAL Australian business will fulfil Metcash's long held ambition to become the third force in the Australian retail market. There are substantial synergies and economies of scale to be gained from the efficient integration of the FAL Australian operations into Metcash's existing business pillars.

ABOVE: Zen Barlow, Storeman, ALM, Crestmead, Qld.

BELOW: Peter Lord, Victoria State Manager, IBA, at Cellarbrations store in South Melbourne, Vic.

REPORT FROM THE CHAIRMAN AND THE CHIEF EXECUTIVE OFFICER continued

Grant Gearing, NSW/ACT Distribution Manager, Blacktown, NSW.

The results for the year included another strong performance by the group's largest division, IGA Distribution, which posted a 9.6 per cent growth in earnings before interest and tax to \$141.6m.

The Directors of FAL have recommended to their shareholders that the Australian and New Zealand businesses be sold to Metcash and Woolworths Limited respectively, through the medium of a Scheme of Arrangement which is expected to be finalised in October of this year. On the successful completion of the Scheme of Arrangement, Metcash will become the owner of the FAL Australian businesses and Woolworths Limited will own the New Zealand businesses and a small number of FAL Australian retail supermarkets.

As it is not the company's philosophy to operate supermarkets or other stores in competition with its retail customers, the 61 Action stores acquired from FAL will be divested to existing IGA Distribution customers, other potential buyers and management and staff.

Future Outlook

The key operating objectives for the 2006 financial year will be to maintain the strong growth of the existing Metcash businesses whilst assuming control of and integrating the FAL Australian business, including the operating systems and all merchandising, financial and administrative functions.

As a general observation, the three Metcash business pillars sell 'everyday' products that are usually not subject to material fluctuations due to the country's economic activity and the availability of discretionary spending. Thus, in relation to the three existing businesses:

- IGA Distribution's strong marketing and differentiated retail offer should deliver sales and profits in line with industry trends.
- Campbells Cash & Carry is expected to benefit from its increased penetration into the petrol and convenience store market whilst the benefits of its new structure should also start to flow through.
- ALM, whilst facing a tough competitive environment, is expected to hold its own.

Shareholders will also derive some benefit from the integration of the FAL Australian business. This will only start to flow in the second half of the 2006 financial year, depending on when Metcash gets control of the business.

The 2006 financial year should be exciting for the company and its shareholders.

Appreciation

Now that our successful relationship with Metoz has ended, it is timely to record the debt of gratitude owed to that company for its assistance in turning Metcash Trading Limited around from the poorly performing company trading as Davids Limited to the strong and vibrant company it is today. Without the involvement of Metoz, its leadership and the management it provided to the Australian operations, it is doubtful that the company would have survived.

We also take this opportunity of thanking our fellow directors, employees, customers and suppliers for their hard work, support and wise counselling during the past year.

IGA DISTRIBUTION

Operations Summary

Major Activities

- > IGA Distribution's role is to be 'The Champion of the Independent Retailer'.
- > Marketing and distribution specialists, supply over 4,500 independent grocery customers in NSW, Victoria, Queensland and South Australia.
- > Providing expertise, tailored to the Independent Retailer's requirements. From the full range of marketing, merchandising, buying and distribution services to the 1,099 IGA stores and distribution for 658 Foodworks/AUR stores.
- > Operating eight major distribution centres, benchmarked to international standards, to deliver 21,000 SKUs of dry, chilled and frozen groceries to 4,500 retail grocery customers.

Significant Achievements

- > Sales increased by 4 per cent for comparable stores.
- > Increased EBIT of 9.6 per cent to \$141.6m.
- > Recovered from loss of Franklins business with associated warehouse facilities closed down and all related costs and overheads removed.
- > Opening of 58 new stores, 45 major store refurbishments and 23 extensions completed during the year.
- > Successful consolidation of the IGA network into Supa IGA and IGA.
- > 26.5 per cent annual growth of corporate brand SKUs and 54 per cent increase in the range of fresh produce offered.
- > Successful repositioning of the IGA brand through the 'Local Heroes' TV campaign and co-sponsorship of the 'Ready Steady Cook' TV program.

Future Direction

- > Successfully integrate the FAL wholesale distribution system into the IGAD network.
- > Successfully divest the 61 FAL Action stores to independent retailers.
- > Extract all available synergies from the FAL business.
- > Further expand the existing customer base by implementing the 149 retail development opportunities that are 'currently on the books'.
- > Complete the IGA multi-store owner 'lock-in' program to secure the major portion of the current customer base.

FROM LEFT: Derek Lundberg, General Manager Commercial & Warehouse Operations and Carl Salem, IGAD National Merchandise Manager, review stock profit deals. Silverwater, NSW.

During 2004, the Franklins supply contract was terminated. For the first time in recent years, this resulted in a decrease in the IGA Distribution sales base. On a 52 week comparable basis, sales declined by 1 per cent compared to the previous year. The result was also impacted by zero food inflation during the year. However, when the sales of comparable stores are examined a 4 per cent increase in volume was achieved. This was a credible result in the light of market conditions.

Despite the lower level of sales, earnings before interest and tax (EBIT) grew by 9.6 per cent (again on a comparable 52 week basis) to \$141.6m. This was achieved by a number of factors, including continuing to grow income lines at a higher rate than the sales increase, maintaining direct cost relationships and minimising fixed cost increases. Importantly, all costs and overheads related to the lost Franklins business were removed and associated warehouse facilities closed down. The speed with which these actions were taken helped to minimise the effect of the lost volume on the bottom line.

Reductions in the cost of doing business continued with further productivity gains being obtained from the 'voice pick' system, which is now also being implemented at all dry and perishable distribution centres. At the same time, customer service levels increased from the previous high levels.

Customers' retail square metreage increased again with the completion of 58 new stores, 45 major store refurbishments and 23 extensions. This is a major engine for sales growth and customers are assisted with their expansions with the provision of planning and design advice, help with equipment selection and, where necessary, financial assistance to fund the developments. A further 149 developments have been identified – these will be implemented over the next two years ensuring future sales growth.

IGA Distribution has a number of multi store owners and their volume is an important part of the sales base, providing anchor volumes that enable the overall business to remain competitive and provide independent retailers with competitive prices and marketing programs. To secure the multi store volumes for the future a variety of mechanisms are being utilised. One approach was announced during the year, the planned acquisition of a 26 per cent interest in the equity of Ritchies Stores Pty Ltd. Ritchies operates 36 Supa IGA stores in Victoria and New South Wales. This equity investment will mainly be utilised by Ritchies to fund the development of 25 new stores over the next five years. Not only has the investment secured the retention of the Ritchies volume for the benefit of all IGA Distribution's independent customers but it is also fuelling future growth.

The IGA network was consolidated into Supa IGA and IGA stores during the year. Additionally, the brand was repositioned with the launch of the new 'Local Heroes' TV commercials and part sponsorship of the new Channel 10 show, 'Ready Steady Cook'. These programs are reinforcing the positive image of IGA with consumers.

Acquisition of the Foodland Associated Limited Australian business is expected to take place in the second half of the 2006 financial year. IGA Distribution will focus on maintaining current business, whilst integrating the FAL Western Australian business into the network and implementing IGA Distribution programs. New owners will be found from our existing customer base, Western Australian independent retailers and FAL management and staff for the 61 Action stores that will be acquired. The speedy and effective integration of the FAL Australian business into IGA Distribution will be necessary to ensure the process is seamless and all synergies are realised.

Customers' retail square metreage increased again with the completion of 58 new stores

FROM LEFT: Andrew Divaris, GM IGA Marketing; Celia Abood, IGA Marketing Coordinator; Kylie Gollan, Senior IGA Marketing Coordinator and Michael Dempsey, IGA National Brand Manager. Silverwater, NSW.

The brand was repositioned with the launch of the new 'Local Heroes' TV commercials and part sponsorship of the new Channel 10 show, 'Ready Steady Cook'.

AUSTRALIAN LIQUOR MARKETERS

Operations Summary

Major Activities

- > Broad range liquor wholesaler, supplying over 13,000 hotels, liquor stores, restaurants and other licensed premises throughout Australia and New Zealand.
- > Provides retailers with a one stop shop that allows them to receive all their liquor supplies in one delivery, on one invoice; in full, on time, every time, together with strong marketing support and a wide variety of retail services.
- > Operates out of 24 distribution centres throughout Australia and New Zealand.
- > Includes a specialist on-premise liquor supply and support division to the on-premise sector including bars, restaurants and hotels through Harbottle On-Premise.

Significant Achievements

- > Strong growth in sales of 8.6 per cent in the 'on premise' market.
- > Growth of Independent Brands Australia to 1,157 retail liquor stores and 228 hotel outlets consolidated under the Cellarbrations, Cheers and LiquorWise brands.
- > Moved to two specially designed warehouses in South Australia and Queensland (16,000 m²) – delivering higher service levels and reduced costs.
- > Productivity improvements in four major warehouses with the implementation of Voice Pick.
- > Regained the ALH Queensland Business.
- > Acquired Novocastrian in New South Wales.

Future Direction

- > Continue to encourage banner rationalisation through the growth of Independent Brands Australia and the Cellarbrations, Cheers and LiquorWise brands.
- > Maximise support for all hotel and bottle shop banners to increase their buying strength and improve their retail offer.

FROM LEFT: Customer Ashwin Deo from Liquid and Mary Swann, Account Manager, Allied Liquor, Auckland, New Zealand.

Due to the loss of the ALH business during the year and acquisition of key customers by the two chains, sales were 0.5 per cent below last year (on a 52 week comparable basis). However, if these losses are excluded, sales increased by 3.2 per cent during the year. Towards the end of the financial year, it was announced that the Queensland ALH business had been regained. On an annualised basis, this will add \$132m to sales volume.

As a consequence of the lower volumes and the high level of competition in the market place, earnings before interest and tax (EBIT) were 14.6 per cent lower at \$28.2m. Competition and margin pressure have not diminished and are expected to remain for the foreseeable future.

Membership of Independent Brands Australia (IBA) continues to show good growth and now stands at 1,157 retail liquor stores and 228 hotel outlets. The development of IBA is part of the program being undertaken by ALM and its liquor store customers to consolidate 12 banners into the three brands, namely, 'Cellarbrations', 'Cheers' and 'LiquorWise'. The targeted membership of 1,200 independent liquor retailers within the brands by the end of calendar 2005 has almost been achieved.

Customer Service levels were maintained above industry standards. Two new warehouses were constructed in Queensland and South Australia and are the most modern liquor warehouses in Australia. These, together with the implementation of 'Voice Pick' in the Division's four major warehouses, will improve productivity and reduce the cost of doing business whilst enhancing customer service.

Further gains were made in the on premise market segment, that includes restaurants and clubs. ALM's specialist unit, 'Harbottle On-Premise', increased sales by 8.6 per cent and EBIT by 15.1 per cent during the year. This continues to be an attractive market segment.

As a further step in extending the distribution network, the Novocastrian business was acquired during the year. Novocastrian services liquor customers on the Central Coast, Newcastle and mid north coast areas of New South Wales.

For the 2006 financial year, key actions will be focussed around growing IBA and providing strong support for external banners.

For independent liquor retailers to survive against the strengths of the two retail chains, it is essential that they drive critical mass through banner consolidation. This process will be continued with IBA during the year, providing retailers with an improved retail offer supported by strong marketing and better buying.

Strong support will be provided to external banners. This will include buying support, the provisions of retail services, technology and IT, and high service levels.

Progress is expected to be made in expanding distribution volumes by warehousing and distributing a greater share of suppliers' volumes and reducing their direct distribution. The ALM distribution network and customer base will provide a low cost and effective alternative to supplier direct distribution.

FROM LEFT: Scott Lambert, Store Manager, Beaumont Street Corkers, Newcastle, NSW and Michael O'Brian, ALM.

As a further step in extending the distribution network, the Novocastrian business was acquired during the year. Novocastrian services liquor customers in the Central Coast, Newcastle and mid north coast areas of New South Wales.

FROM LEFT: Ray Hope, Storeman and Grant Piunti, National Distribution Manager ALM, Crestmead, Qld.

CAMPBELLS CASH & CARRY

Operations Summary

Major activities

- > 42 wholesale cash and carry warehouses across NSW, Victoria, Queensland, South Australia and Northern Territory stocking a broad range of groceries, liquor, confectionery and foodservice, serving more than 78,000 business customers.
- > 4 Convenience Store Distribution Centres (CSD) and 6 specialist confectionery wholesale outlets.
- > Focus on the convenience sector of the market and servicing customers who buy in quantities that cannot be economically serviced through a full case grocery or liquor distribution centre.

Significant Achievements

- > Sales increase of 0.2 per cent to \$990m, confectionery growing by 24.7 per cent.
- > Increased EBIT of 17.8 per cent to \$17.3m.
- > Increased market share of the modern petrol and convenience market to 24 per cent.
- > Business re-engineered to three divisions, focussed on market segments.
- > Successfully negotiated 'one stop' supply agreement with 7-Eleven.
- > Expanded into WA with the acquisition of CD's Confectionery Wholesalers.
- > Expanded penetration of Northern Territory with acquisition of Alice Springs business.

Future Direction

- > Continue to grow market share in the Modern Petrol and Convenience market.
- > Complete national confectionery wholesale network.
- > Expand 'one stop' supply agreements with other Modern Petrol and Convenience market operators.

John Nasaris, Branch Manager, with customer, Campbells Cash & Carry, Northmead, NSW.

The 2005 financial year was another successful one for Campbells Cash & Carry with sales growing by a further 0.2 per cent to \$990m (on a 52 week comparable basis). Importantly, the sales increase masks a change in the mix of business with the important primary categories growing by 11.7 per cent. Within this, confectionery sales increased by 24.7 per cent for the year. The Primary sales categories now represent more than 50 per cent of total sales volume. The product mix change and further reductions in the cost of doing business helped to generate an increase in earnings before interest and tax (EBIT) of 17.8 per cent to \$17.3m.

During the year, the Campbells business was re-engineered to enable greater focus on the three main market segments as follows:

Campbells Cash & Carry

- Major Metropolitan Markets: To be served by 25 Cash & Carry branches focussed on strong promotions, a wide range and a high proportion of 'Cash & Carry' business customers;

Campbells Wholesale Distribution

- Rural and Country Markets: To be served by 17 Wholesale Distribution branches focussed on delivering in full, on time a wide range of products to large geographic areas;

C Store Distribution

- Modern Petrol and Convenience Markets: To be serviced by four Convenience Store Distribution branches and 6 Specialist Confectionery Wholesalers serving the needs of the \$1.6b Modern Petrol and Convenience market with a wide range of products and a low cost, one-stop supply service of all their needs.

With the acquisition of CD's, a Perth based confectionery wholesaler, the national network of confectionery 'route trade' distributors is almost complete. Growth in this business segment is reflected in the sales increase of 24.7 per cent for confectionery during the year.

The national 'footprint' of wholesale distribution outlets was strengthened by the acquisition of the Independent Grocers outlet in Alice Springs. This joins the Darwin business of the same name acquired in the previous year and establishes a strong wholesaling presence in the Northern Territory.

The four CSD warehouses continue to increase market penetration with market share of the total convenience markets (tiers 1-3) now at 24 per cent. The benefits of this network for 'one stop shopping' for convenience stores has been demonstrated by the supply agreement executed with 7-Eleven. When fully operational, this supply agreement will generate approximately \$200m per annum in sales.

For the coming financial year business focus will continue to be on growing market share in the petrol and convenience market and confectionery route market.

Robyn Wessling, Customer Service Officer, with customer, at Amalgamated Confectionery, Springwood, Qld.

FROM LEFT: Peter Edwards, Operations Manager and Peter Brown, Despatch Officer, Independent Grocers, Alice Springs, NT.

FROM LEFT: Noel Higgins, Branch General Manager and Gloria Gibbs, Warehouse Supervisor at CD's Confectionery Wholesalers, WA.

With the acquisition of CD's, a Perth based confectionery wholesaler, the national network of confectionery 'route trade' distributors is almost complete. Growth in this business segment is reflected in the sales increase of 24.7 per cent for confectionery during the year.

CORPORATE GOVERNANCE

The Directors support and adhere to the principles of corporate governance. In supporting these principles, the Directors acknowledge the need for the highest standards of behaviour and accountability.

The Board

The principal functions of the Board include:

- Charting the direction, strategies and financial objectives of the Company;
- Monitoring implementation of those strategies and the operational and financial performance and risk of each of the Company's activities;
- Reviewing major capital expenditure, acquisitions, divestments and funding;
- Reviewing performance, remuneration and succession of senior management;
- Monitoring compliance with legal regulatory requirements, including occupational health and safety laws, product safety and the protection of the environment;
- Monitoring the Company's relationships with its stakeholders and compliance with ethical standards and the Company's Code of Conduct.

The Board's Charter can be found on the company's web site (www.metcash.com) under the heading "Corporate Governance".

Nominations to the Board

The composition of the Board is monitored (both with respect to size and membership) to ensure that the Board has the appropriate mix of skills and experience.

When a vacancy exists, or when it is considered that the Board would benefit from the services of a new Director with particular skills, the Remuneration & Nomination Committee selects a panel of candidates with appropriate expertise and experience. This may be supplemented with advice from external consultants if necessary. The Board, on the Committee's recommendation, then appoints the most suitable candidate who must stand for election at the next general meeting of shareholders.

Directors are not appointed for a fixed term but, under the Company's Constitution, must be re-elected each three years by rotation and are subject to ASX Listing Rules and Corporations Act provisions

Board Composition (ASX Guidelines Principle 2)

Metcash has an overriding objective that the Board should consist of Directors who provide a mix of industry experience and knowledge and the overall skill and wisdom to enable the Company to grow for the benefit of all shareholders and stakeholders. The Board places a priority on selection of Directors for their ability to display independence of mind which will enable them to make decisions impartially and for the benefit of all shareholders. The Board is conscious that at times this may mean that Board membership does not precisely conform to the ASX Guidelines for composition.

For details of the skills, experience and expertise of the individual directors, please refer to page 12, headed 'The Board', of this report.

The Board of Metcash Limited is currently constituted as follows:

- 2 Non-executive Directors, including the Chairman, who were representatives of the former majority shareholder. These Directors have extensive knowledge and experience of grocery wholesaling and marketing. As they were executives of Metoz Holding Limited, the former majority shareholder, within the last three years, they do not meet the Australian Stock Exchange (ASX) Corporate Governance Guidelines definition of independent.
- 3 Independent Directors, holding key positions that include chairing the Board committees of Audit Risk & Compliance and Remuneration & Nomination. They provide an external perspective and checks & balances for the interests of all shareholders.
- 6 Executive Directors, each of whom is responsible for key activities of the company. Their membership of the Board enables direct access to key executives by the Independent Directors such that Board discussions and decisions are held on a fully informed basis and it enables the Non-executive Directors to obtain greater personal knowledge of key executives, aiding the management succession process. It also avoids the situation, common in a number of corporate collapses, where the Chief Executive Officer was the sole management spokesman on the Board.

The Board of Metcash Limited does not conform to Australian Stock Exchange (ASX) Corporate Governance Principle 2, in relation to board composition in two respects:

1. The Board does not have a majority of independent Directors; and
2. The Chairman (Carlos dos Santos) has an association with the former majority shareholder as described above.

Overall, the Board of Metcash Limited believes that it has the capacity and does bring independent judgement to bear on decision-making. As shareholders of Metcash Limited are entitled to be assured as to the belief, the Board last year commissioned Cameron Ralph Pty Ltd, a consultancy specialising in board performance, to conduct a review of the capacity of the Metcash Board to act in that way. Their findings are summarised under the heading 'Independent Review of Board Effectiveness'.

The Board believes that the presence of the Executive Directors adds considerable knowledge and expertise to the operations of the Board, and that the Board's mode of operation and processes ensure that the presence of the Executive Directors does not limit the ability of the independent Directors to contribute.

Neither Mr Harris, Mr Barnes nor Mr Longes are substantial shareholders of the company or associated with a substantial shareholder of the company. They have not been employed by the company in an executive position, are not material suppliers or customers of the group, have no material contractual relationship with the group, have no interest, business or other relationship, nor have they served on the board for a period which could be perceived to materially interfere with the director's responsibility to act in the best interests of the company.

Mr Harris has been a director of Metcash Trading Ltd since 1994. The Board considers Mr Harris' tenure to have provided valuable leadership continuity and experience and that this does not in any way limit his ability to act in the best interests of the company. Mr Barnes is Chairman of Samuel Smith & Sons Pty Ltd and a Director of Ansell Limited, suppliers to the Company, however the level of purchases involved is not considered material.

Independent Review of Board Effectiveness

Board Performance consultants Cameron Ralph Pty Ltd were engaged last year to conduct an independent review of the Board's effectiveness and in particular, its capacity to act independently and in the interests of all shareholders. A review was not conducted in the current year as the July 2004 review is judged to be still current. The following summary* of their findings is provided by Cameron Ralph.

"The Cameron Ralph review noted the unique context for Metcash as a large wholesale grocery and liquor company operating in Australia, with a majority shareholder, Metro Cash and Carry Limited.

Cameron Ralph considered materials provided by the company, interviewed each of the directors and reviewed board papers and decision processes for several key decisions over the past two years.

Cameron Ralph is satisfied that the Board of Metcash (in its current composition) has combined both people and processes in a manner that enables it to act effectively and to apply independent judgment to actions and decisions. We found that the presence of the Affiliated and Executive Directors adds to board effectiveness through depth of expertise, without diminishing the input from the Independent Directors.

Aspects of the culture and group dynamics which contribute to the Board's effectiveness include:

- a. high degree of integrity, courage, and diligence of Non-executive Directors
- b. high level of industry knowledge amongst the Non-executive Directors
- c. open and vigorous culture
- d. no inappropriate pressure from majority shareholder

The processes which produce this result include properly constituted and well-functioning committees of the Non-executive Directors, effective use of the Deputy Chair, full access by Non-executives to company executives,

Cameron Ralph observed that the ability of the Metcash Board to continue to bring independent judgment to bear in decision-making depends on the current composition, culture, systems and processes. Cameron Ralph made some recommendations aimed at protecting this capacity for independence of judgment into the future."

* Cameron Ralph has agreed to the inclusion of this summary in this form. The review was concluded in July 2004 and was confined to the independence aspect of governance risk. It is not relevant to credit risk or investment decisions.

Independent Professional Advice

The Board has a policy of enabling directors to seek independent professional advice at the company's expense. The Board will review in advance the estimated costs for reasonableness, but will not impede the seeking of advice.

CORPORATE GOVERNANCE CONTINUED

Audit Risk & Compliance Committee

The membership of the Audit Risk & Compliance Committee consists of the following Non-Executive Directors.

Member	Qualifications	Meetings Held	Meetings Attended
R A Longes (Chairman)	BA, LLB, MBA	3	3
P L Barnes	B Comm (Hons), MBA	3	3
V Dudley Rubin	CA (SA), HDIP, BDP, MBA	3	3

The function of the Audit Risk & Compliance Committee is to advise on the establishment and maintenance of a framework of internal control, effective management of financial and other risks, compliance with laws and regulations and appropriate ethical standards for the management of Metcash. It also gives the Board additional assurance regarding the quality and reliability of financial information prepared for use by the Board in determining policies or for inclusion in the financial statements.

The principal terms of reference of the Audit Risk & Compliance Committee are:

- The effective management of financial and other risk through ensuring that systems and management processes are in place to identify and manage operational, financial and compliance risks. Specific areas of review include:
 - Financial risk and exposure
 - Occupational Health & Safety
 - Environmental issues
 - HACCP
 - Integrity of Information Technology systems

The Board reviews the effectiveness of risk management policies and procedures by:

- Undertaking, annually, a comprehensive strategic and budget review of the Group's activities;
- Reviewing monthly financial performance against budget and updated forecasts at least quarterly
- Reviewing the internal audit of the Group's financial controls, taxation compliance and adherence to policies and regulations; and
- Reviewing annually the effectiveness and adequacy of the Group's insurance program.
- The provision of reliable management and financial reporting. This is done by reviewing and assessing the:
 - Quality and timing of management reporting to the Board to enable internal and external reporting of the company's risks, operations and financial condition;
 - Accounting policies and practices against generally accepted accounting principles and the requirements of the Corporations Law, Australian Accounting Standards and Australian Stock Exchange requirement;
 - Half-yearly and annual financial statements.
- Compliance with laws and regulation by monitoring developments and changes in the various rules, laws and regulations relating to the company's business operations, the responsibilities of directors and reviewing the extent to which the Board and the company are meeting their obligations and to ensure that all requirements are met.
- The maintenance of an effective and efficient audit function. This is achieved by:
 - Recommending to the Board the appointment of external and internal auditors;
 - Reviewing the effectiveness of the external and internal audit functions;
 - Ensuring audit scopes are adequate and cover areas of anticipated risk;
 - Review audit findings and management response;
 - Review the independence of the external auditor;
 - Ensure auditors have the necessary access to company information and staff to fulfil their obligations.

The Committee's Charter can be found on the company's web site (www.metcash.com) under the heading "Corporate Governance".

Code of Ethics/Conduct

The Company has a Code of Conduct that applies to Directors and all employees. Subjects covered by the Code include:

- Equal employment opportunity, discrimination and harassment;
- Security of Company records and assets and confidentiality guidelines
- Conflict of interest, acceptance of gifts, entertainment and services;
- Fraud, corruption and irregular transactions;
- Legal compliance;
- Honest ethical behaviour;
- Environmental protection, safe working environment.

The Code can be found on the company's web site (www.metcash.com) under the heading "Corporate Governance".

Compliance with the Code is checked through the Company's processes including internal audit, security, Human Resources and OH &S. New staff members are required to attend an induction program that includes behaviour guidelines. Additionally, the Company's staff appraisal process includes employees' performance against 'Key Behavioural Indicators' as well as 'Key Performance Indicators'.

The Company also has a Share Trading Policy and a Continuous Disclosure Policy, copies of which can be found on the company's web site (www.metcash.com) under the heading "Corporate Governance".

Remuneration & Nomination Committee

Members of the Committee, and attendance at meetings, is shown below:

Member	Qualifications	Meetings Held	Meetings Attended
A E (Ted) Harris, AC (Chairman)	F. INST D., FAIM, FAICD	4	4
C dos Santos	CA (SA)	4	4
P L Barnes	B Comm (Hons), MBA	4	4

Responsibilities of the Committee include:

- Advise the Board on remuneration of the CEO and senior management;
- Advise the Board on performance linked compensation for management;
- Oversee the administration of the Metcash Employee Option Plan;
- Advise the Board on directorship appointments, performance of the CEO
- Implement processes to assess the effectiveness of the Board and its Committees.

The Charter of the Committee can be found on the company's web site (www.metcash.com.) under the heading "Corporate Governance".

A formal review of the board's effectiveness was undertaken during the year 2004 by Cameron Ralph Pty Ltd.

In relation to key executives, the company maintains a performance evaluation process which measures them against key performances indicators and key behaviour indicators. This is performed formally once a year with quarterly reviews.

Remuneration Policy

The Company remuneration policy can be found on the Metcash Limited website (www.metcash.com) under the heading of Corporate Governance. It is summarised in the Directors' Report, together with details of the emoluments of the most highly paid executive officers of the company.

Non-Executive Directors Remuneration

A retirement benefit is paid to non-executive directors for past service. The benefits are in accordance with Section 7.3(g) and (h) of the Company's Constitution and Section 200 of the Corporations Law.

On appointment, the Company entered into an agreement with non-executive directors that a benefit will be paid on their retirement as follows:

- A retiring allowance equal to one half of the Director's remuneration during the period of service as a Director of the company;
- No allowance is paid unless the Director has served for at least three years;
- The maximum allowance that can be paid is an amount equal to the lesser of:
 - Three times the remuneration earned by the Director in the 12 months immediately prior to the date of retirement; and
 - The total emoluments of the director during the three years ending on the date of retirement.

This payment does not comply with Recommendation 9.3 of the Corporate Governance Council's Principles of Good Practice, which states that:

"Non-executive directors should not be provided with retirement benefits other than statutory superannuation."

This recommendation was considered by Directors. No benefit could be seen to the Company in the alternative approach of freezing and accruing existing entitlements and increasing directors' fees to compensate for future accruals. It was decided to continue the existing arrangements and pay directors a retirement benefit on the basis shown above, whilst providing full disclosure.

Based on remuneration earned over the past three years, the following amounts would be paid as a retirement benefit had directors resigned at 30 April 2005.

Mr A E Harris	\$294,733
Mr R A Longes	\$205,551
Mr P L Barnes	\$205,551

Non-executive directors do not participate in the Company's bonus or share option schemes.

Termination Entitlements

As a consequence of advice taken which identified the benefits to the company of entering into formal employment contracts with Executive Directors and covering some inadequacies in contracts with other executives, contractual arrangements were agreed with the Chief Executive Officer, the Chief Financial Officer and other key members of the management team.

The remuneration arrangements set out in the contracts are consistent with market practice in their totality (as advised by Hay Group), who have taken into consideration that, except at the discretion of the Board, any short-term or long-term incentive opportunity lapses under the circumstances of termination and redundancy, and the termination and redundancy payments are based on fixed remuneration only. Key components are summarised as follows:

Termination of employment

Chief Executive Officer

- | | |
|---------------------------------|--|
| 1. At the company's instigation | 15 months written notice or payment in lieu |
| 2. At the employees instigation | 3 months written notice |
| 3. Redundancy | 15 months TEC* as per 1. above, plus 9 months TEC* |

All other executive directors, key executives

- | | |
|---------------------------------|---|
| 1. At the company's instigation | 9 months written notice or payment in lieu |
| 2. At the employees instigation | 3 months written notice |
| 3. Redundancy | 9 months TEC* as per 1. above, plus 6 months TEC* |

* TEC = Total employment cost

DIRECTORS' REPORT CONTINUED

CORPORATE INFORMATION

Corporate structure

Metcash Trading Limited is a company limited by shares that is incorporated and domiciled in Australia. Metoz Holdings (South Africa) was the ultimate parent entity until the Company was acquired by Metcash Limited, which is now the ultimate parent entity.

Nature of operations and principal activities

The principal activities during the year of entities within the consolidated entity were the wholesale distribution of groceries, liquor and associated products.

There have been no significant changes in the nature of those activities during the year.

Employees

The consolidated entity employed 4,316 employees as at 30 April 2005 (2004: 4,317 employees).

REVIEW AND RESULTS OF OPERATIONS

Group Overview

A review of the operations during the year, and the results of those operations, appears in the foregoing Chairman's and Chief Executive Officer's (CEO) report.

Summarised operating results are as follows:

	2005	
	Revenues \$'000	Results \$'000
<i>Business segments</i>		
Food Distribution	4,292,033	141,621
Cash & Carry Distribution	990,112	17,308
Liquor Distribution	2,285,197	28,240
	7,567,342	187,169
Consolidated entity adjustments	(55,895)	(18,105)
Consolidated entity sales and operating profit	7,511,447	169,064

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

No significant changes in the state of affairs of the company occurred during the financial year, not otherwise disclosed in the Chairman's and CEO's report.

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

Metcash announced on 25 May 2005 that it had reached agreement with Foodland Associated Ltd (FAL) to acquire the Australian business of FAL excluding 19 Action stores and 3 Action development sites which will be acquired by Woolworths. Metcash will therefore acquire, on a debt free basis, FAL's West Australian Franchise and Supply division, Action Retail division (excluding Woolworths Actions Stores), and all other FAL Australian assets. Metcash is offering \$780m in cash (or \$6.61 per FAL share) or \$859m in Metcash shares (or \$7.29 per FAL share). It is expected the transaction will be implemented by way of a scheme of arrangement. Documents are expected to be sent to FAL shareholders by FAL during September with the acquisition becoming effective in October.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

Information with respect to likely developments is set out within the report of the Chairman and CEO elsewhere in this Annual Report.

ENVIRONMENTAL MANAGEMENT REGULATION AND PERFORMANCE

Environmental

Metcash considers environmental management an integral part of our corporate responsibility. The implementation of a National Environmental Strategy has involved the recent undertaking of a national assessment to identify those activities, products and services of Metcash that may have an environmental impact. The intention of this assessment is to provide a framework for action and for setting environmental objectives and goals and establishing a disciplined management process for achieving targeted performance levels.

Food Safety

Metcash continues to operate an effective education and training program to ensure staff at all warehouses comply with all FSANZ Food Standards Code requirements including the National Food Safety Standards and state Food Act regulations. This includes the ongoing management and continuous improvement of the food safety training and management system based on HACCP (Hazard Analysis and Critical Control Point) risk management principles that have been progressively implemented over all Metcash warehouses since 2001.

Annual third party "certified" audits have assisted Metcash to ensure its sites are operating to the highest standard in food safety by identifying and managing food safety risks and maintaining an effective continuous improvement culture. Throughout 2004 and 2005, Metcash has continued this HACCP based system of food safety management achieving 100% HACCP Certification across all the existing Metcash sites which is well above national food safety standards required for distribution warehouses.

In 2004/2005 a second full review of Metcash's QA management systems at Metcash Head Office also achieved ongoing HACCP Certification. This includes a review of the management of Corporate brand specifications, approval of suppliers, product recalls, customer complaints, product label data management and internal protocols against FSANZ Food Standards Code requirements.

Metcash became a signatory to the National Packaging Covenant (NPC) in November 2001. During the year there was an extensive reduction in cardboard waste by the utilisation of plastic tote bins across the C store distribution sites as well as significant increase in the amount of recycled cardboard & plastic packaging in all Metcash sites.

In 2004/2005, Metcash also continued to assist in the co-ordination of the ARA Code of Practice for Shopping Bags across the Independent retailer network. The IGA Distribution group was able to support the Retail sector's reduction of plastic shopping bags by 27% and continues to develop marketing and in-store initiatives that encourages a further reduction to the December 2005 target of a 50% reduction across the national Supermarkets.

OCCUPATIONAL HEALTH & SAFETY

People are the most important part of our business. Metcash acknowledge the need to maintain vigilance towards safety and to be proactive in identifying new ways to improve performance through actively engaging our people in 'Managing Safety Together'. Over the past twelve months Metcash has renewed this commitment with significant investment in the development and commencement of a National safety management strategy that aims to exceed legislative compliance and reduce workplace injuries.

Group Performance

No. of reported injuries	23% increase
No. of hours lost	4% decrease
Severity rate	10% decrease
No. of claims	15% decrease
Duration rate	25% decrease

Due to a purposefully targeted focus across the business on reporting injuries to effectively identify and control risk, the number of reported incidents has increased. Reductions in all other areas demonstrate effectiveness in controlling the management of injuries.

This is a pleasing performance and highlights the successful implementation of the new OHS strategy across the group.

WORKFORCE ENGAGEMENT

For all of us at Metcash, engagement means the alignment of employees' efforts and contributions to those of the business and of shareholders. It is about constant communication, regular and frequent team briefs and understanding and perhaps more importantly, "doing something about" what concerns employees in their day-to-day activities.

Engagement at all levels of the workforce is one key to Metcash's on-going success. Re-enforced by work/life balance policies such as the highly successful "Pro-Fit", which targets activities and programs designed to enrich the well being of all employees, Metcash continues to acknowledge and value the contributions of all its employees.

The second climate survey was conducted during 2005 and whilst results are still being compiled at the time of writing, preliminary results show that employees appreciate the opportunity to voice their feelings about Metcash and particularly the company's willingness to strive for continuous improvement. Metcash is regarded by employees as a good employer and a great place to work. This is particularly pleasing given the restructuring in some parts of the business and the continued and unrelenting pressure from our competitors.

With all of the challenges that the FAL integration brings to the business, there is a high degree of confidence in the ability of employees to meet those challenges and become a true "third force" on the grocery wholesaling and retailing sector.

INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

- (i) The Constitution of the Company permits the grant of an indemnity (to the maximum extent permitted by law) in favour of each Director, the Company Secretary, past Directors and Secretaries, and all past and present Executive Officers. The Company has entered into Deeds of Indemnity and Access with FJ Conroy, CP Curran, JR Fleming, TS Haggai, DWJ Bourke, RS Allan, JJ David and Sir Leo Heilscher together with all of the current directors and certain other officers of the Company. This indemnity is against any liability to third parties (other than related Metcash Trading companies), by such officers unless the liability arises out of conduct involving a lack of good faith. The indemnity also includes costs or expenses incurred by an officer in unsuccessfully defending proceedings relating to that person's position.
- (ii) During the financial year, the Company has paid, or agreed to pay, a premium in respect of a contract of insurance insuring officers (and any persons who are officers in the future) against certain liability incurred in that capacity. Disclosure of the total amount of the premiums and the nature of the liabilities in respect of such insurance, is prohibited by the contract of insurance.

DIRECTORS' AND OTHER OFFICERS' EMOLUMENTS

Remuneration policy

The Remuneration Committee of the Board of Directors is responsible for determining and reviewing compensation arrangements for the directors, the chief executive officer and the executive team. The Remuneration Committee assesses the appropriateness of the nature and amount of emoluments of such officers on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality Board and executive team. Such officers are given the opportunity to receive their base emolument in a variety of forms including cash and fringe benefits such as motor vehicles and expense payment plans. It is intended that the manner of payment chosen will be optimal for the recipient without creating undue cost for the company.

To assist in achieving these objectives, the Remuneration Committee links the nature and amount of executive directors' and officers' emoluments to the company's financial and operational performance. All senior executives have the opportunity to qualify for participation in the Management Bonus Scheme which provides for an annual cash bonus to be paid where specified financial performance criteria are achieved. In addition, an option plan has been implemented providing all employees (under the Employee Option Plan, which also covers senior executives), with the opportunity to participate in the future success of the Company. Details regarding the issue of share options under these two Plans are provided in the notes to the financial statements.

Details of the nature and amount of each element of the emolument of each director of the company and each of the five executive officers of the company and the consolidated entity receiving the highest emolument for the financial year are disclosed in note 30 of the annual report.

DIRECTORS' REPORT CONTINUED

DIRECTORS' MEETINGS

The numbers of meetings of directors (including meetings of committees of directors) held during the year and the number of meetings attended by each director were as follows:

	Directors' Meetings	Meetings of Committees	
		Remuneration	Audit
Number of meetings held:	13	4	3
Number of meetings attended:			
Carlos S dos Santos	12	4	
A E (Ted) Harris, AC	13	4	
Andrew Reitzer	13		
Michael R Jablonski	13		
Edwin M Jankelowitz	13		
V Dudley Rubin	13		3
Peter L Barnes	13	4	3
Richard A Longes	11		3
Bernard J Hale	13		
Joao Louis S Jardin	12		
Michael Wesslink	13		

Notes

Additionally, the Australian based non-executive directors met with the executive directors twice during the year, between board meetings, to review operations.

Committee membership

During the year, the company had an Audit Risk & Compliance Committee and a Remuneration & Nomination Committee. Members acting on the committees of the board during the year were:

Audit Risk & Compliance

R.A. Longes (c)
P.L. Barnes
V.D. Rubin

Remuneration & Nomination

A.E. Harris, AC (c)
C.S. dos Santos
P.L. Barnes

Notes

(c) Designates the chairman of the committee.

For details of the committees, their charters and current membership, please refer to the section under "Corporate Governance".

ROUNDING

The amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the company under ASIC Class Order 98/0100. The company is an entity to which the Class Order applies.

TAX CONSOLIDATION

Effective 1 May 2004, for the purpose of income taxation, Metcash Trading Limited and its 100% owned subsidiaries have formed a tax consolidated group. Members of the group have entered into a tax sharing arrangement in order to allocate income tax expense to the wholly-owned subsidiaries on a pro-rata basis. In addition the agreement provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations.

CORPORATE GOVERNANCE

In recognising the need for the highest standards of corporate behaviour and accountability, the directors of Metcash Trading Limited support and have adhered to the principles of corporate governance. The company's corporate governance statement is contained in the Corporate Governance section of this annual report.

Signed in accordance with a resolution of the directors.

Andrew Reitzer
Director

Sydney, 22 July 2005

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of accounting

The financial report is a general purpose financial report which has been prepared in accordance with the requirements of the Corporations Act 2001 which includes applicable Accounting Standards. Other mandatory professional reporting requirements (Urgent Issues Group Consensus Views) have also been complied with.

The financial report has been prepared in accordance with the historical cost convention.

(b) Changes in accounting policies

The accounting policies adopted are consistent with those of the previous year.

(c) Principles of consolidation

The consolidated financial statements are those of the consolidated entity, comprising Metcash Trading Limited (the parent entity) and all entities which Metcash Trading Limited controlled from time to time during the year and at balance date.

Information from the financial statements of controlled entities is included from the date the parent company obtains control until such time as control ceases. Where there is loss of control of a controlled entity, the consolidated financial statements include the results for the part of the reporting period during which the parent company has control.

Controlled entities acquisitions are accounted for using the purchase method of accounting.

The financial statements of controlled entities are prepared for the same reporting period as the parent entity, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies which may exist.

All intercompany balances and transactions, including unrealised profits arising from intra-group transactions, have been eliminated in full. Unrealised losses are eliminated unless costs cannot be recovered.

(d) Foreign currencies

Translation of foreign currency transactions

Transactions in foreign currencies of entities within the consolidated entity are converted to local currency at the rate of exchange ruling at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are translated using the spot rate at the end of the financial year.

Translation of financial reports of overseas operations

All overseas operations are deemed self-sustaining as each is financially and operationally independent of Metcash Trading Limited. The financial reports of overseas operations are translated using the current rate method and any exchange differences are taken directly to the foreign currency translation reserve.

(e) Cash and cash equivalents

Cash on hand and in banks and short-term deposits are stated at nominal value.

For the purposes of the Statement of Cash Flows, cash includes cash on hand and in banks, and money market investments readily convertible to cash within 2 working days, net of outstanding bank overdrafts.

Bank overdrafts are carried at the principal amount. Interest is charged as an expense as it accrues.

(f) Receivables

Trade receivables are recognised and carried at original invoice amount less a provision for any uncollectable debts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written-off as incurred.

Receivables from related parties are recognised and carried at the nominal amount due. Interest is taken up as income on an accrual basis.

Bills of exchange and promissory notes are measured at the lower of cost and net realisable value.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Investments

Listed shares held for trading are carried at cost.

Where listed shares have been revalued, any capital gains tax which may become payable has not been taken into account in determining the revalued carrying amount. Where it is expected that a liability for capital gains tax exists, this amount is recognised in the profit or loss for the reporting period.

Investments in associates are carried at the lower of the equity-accounted amount and recoverable amount in the consolidated financial report.

All other non-current investments are carried at the lower of cost and recoverable amount.

(h) Inventories

Inventories of finished goods are carried at the lower of cost and net realisable value. In accordance with industry practice, cost is determined by deducting from the supplier's invoice price any purchase incentives, allowances, discounts and net marketing income. The method adopted to assign costs to inventories is first-in, first-out.

Property held for resale are classified as inventory and valued at the lower of cost and net realisable value. Cost includes the cost of acquisition and any subsequent development costs or improvements.

(i) Recoverable Amount

Non-current assets measured using the cost basis are not carried at an amount above their recoverable amount, and where a carrying value exceeds this recoverable amount, the asset is written down. In determining recoverable amount, the expected net cash flows have been discounted to their present value using a market determined risk adjusted discount rate of 8.55%.

(j) Property, plant and equipment

Cost and valuation

All classes of property, plant and equipment are measured at cost.

Where assets have been previously revalued, the potential effect of the capital gains tax on disposal has not been taken into account in the determination of the revalued carrying amount. Where it is expected that a liability for capital gains tax will arise, this expected amount is disclosed by way of note.

Depreciation

Depreciation is provided on a straight-line basis on all property, plant and equipment, other than freehold land.

Major depreciation periods are:

	2005	2004
Freehold buildings:	50 years	50 years
Plant and equipment:	5–15 years	5–15 years

(k) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Operating leases

The minimum lease payments of operating leases, where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item, are recognised as an expense on a straight line basis.

The lease incentive liability in relation to the non-cancellable operating lease is being reduced on an imputed interest basis over the lease term (5 years) at the rate implicit in the lease.

Contingent rentals are recognised as an expense in the financial year in which they are incurred.

Finance leases

Leases which effectively transfer substantially all of the risks and benefits incidental to ownership of the leased item to the group are capitalised at the present value of the minimum lease payments and disclosed as property, plant and equipment under lease. A lease liability of equal value is also recognised.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Leases (continued)

Capitalised lease assets are depreciated over the shorter of the estimated useful life of the assets and the lease term. Minimum lease payments are allocated between interest expense and reduction of the lease liability with the interest expense calculated using the interest rate implicit in the lease and charged directly to the Statement of Financial Performance.

The cost of improvements to or on leasehold property is capitalised, disclosed as leasehold improvements, and amortised over the unexpired period of the lease or the estimated useful lives of the improvements, whichever is the shorter.

(l) Intangibles

Patents and licences

Patents and licences are carried at cost and amortised on a straight-line basis over their useful lives, being 20 years.

Goodwill

Goodwill represents the excess of the purchase consideration over the fair value of identifiable net assets acquired at the time of acquisition of a business or shares in a controlled entity.

Goodwill is amortised on a straight-line basis over the period during which benefits are expected to be received, up to a maximum of 20 years.

(m) Other non-current assets

Expenditure carried forward

Significant items of carry forward expenditure having a benefit or relationship to more than one period are written off over the periods to which such expenditure relates.

(n) Payables

Liabilities for trade creditors and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the consolidated entity.

Payables to related parties are carried at the principal amount. Interest, when charged by the lender, is recognised as an expense on an accruals basis.

Deferred cash settlements are recognised at the present value of the outstanding consideration payable on the acquisition of an asset discounted at prevailing commercial borrowing rates.

(o) Interest-bearing liabilities

All loans are measured at the principal amount. Interest is charged as an expense as it accrues.

Bills of exchange and promissory notes are carried at the principal amount plus deferred interest.

Finance lease liability is determined in accordance with the requirements of AASB 1008 "Leases".

(p) Provisions

Provisions are recognised when the economic entity has a legal, equitable or constructive obligation to make a future sacrifice of economic benefits to other entities as a result of past transactions or other past events, it is probable that a future sacrifice of economic benefits will be required and a reliable estimate can be made of the amount of the obligation.

Provisions for Store Lease & Remediations are raised where the economic entity has committed to the closure of stores. The future lease costs, net of any income from sub leasing, are discounted to their net present value in determining the provision.

Dividends payable are recognised when a legal or constructive obligation to pay the dividend arises, typically following approval of the dividend at a meeting of shareholders.

(q) Contributed equity

Issued and paid up capital is recognised at the fair value of the consideration received by the company.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(r) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the entity and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Sale of Goods

Control of the goods has passed to the buyer.

Interest

Control of the right to receive the interest payment.

Dividends

Control of the right to receive the dividend payment.

(s) Taxes

Tax-effect accounting is applied using the liability method whereby income tax is regarded as an expense and is calculated on the accounting profit after allowing for permanent differences. To the extent timing differences occur between the time items are recognised in the financial statements and when items are taken into account in determining taxable income, the net related taxation benefit or liability, calculated at current rates, is disclosed as a future income tax benefit or a provision for deferred income tax. The net future income tax benefit relating to tax losses and timing differences is not carried forward as an asset unless the benefit is virtually certain of being realised.

Where assets are revalued no provision for potential capital gains tax has been made.

Tax consolidation — Parent Entity

The Australian Group elected to form a tax consolidated sharing group for income tax purposes with effect from 1 May 2004. Metcash Trading Limited has entered into a tax funding agreement with the members of the tax consolidation group, effective from that financial year. The agreement is aimed at achieving an allocation of the Australian group's income tax expense to controlled entities within the tax-consolidated group as if they were operating on a stand-alone basis. The controlled entities party to the agreement will reimburse Metcash Trading Limited for an amount calculated as if they were on a stand-alone basis. Similarly, Metcash Trading Limited will reimburse controlled entities for losses when they are utilised to reduce Australian group tax payable.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(t) Employee benefits

Provision is made for employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages and salaries, annual leave, sick leave and long service leave.

Liabilities arising in respect of wages and salaries, annual leave, sick leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at their nominal amounts. All other employee benefits liabilities are measured at the present value of the estimated future cash outflow to be made in respect of services provided by employees up to the reporting date. In determining the present value of future cash outflows, the interest rates attaching to government guaranteed securities which have terms to maturity approximating the terms of the related liability are used.

Employee benefits expenses and revenues arising in respect of the following categories:

- wages and salaries, non-monetary benefits, annual leave, long service leave, sick leave and other leave entitlements; and
- other types of employee benefits

are charged against profits on a net basis in their respective categories.

The value of the employee share incentive scheme described in note 26 is not being charged as an employee benefit expense.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(u) Earnings per share

Basic EPS is calculated as net profit attributable to members, adjusted to exclude costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted EPS is calculated as net profit attributable to members, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
 - the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
 - other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;
- divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(v) Comparatives

Where necessary, comparatives have been reclassified and repositioned for consistency with current year disclosures.

(w) Securitisation

Securitisation arrangements, where the risks and benefits associated with the securitised assets are retained by the economic entity, are regarded as financing transactions. Accordingly, the related assets are brought to account and disclosed as securitised and the amounts arising under the financing arrangement are brought to account as borrowings. Interest is charged as an expense as it accrues

4. INCOME TAX

Notes	Metcash Trading Group		Metcash Trading Limited	
	2005 \$'000	2004 \$'000	2005 \$'000	2004 \$'000
The prima facie tax, using tax rates applicable in the country of operation, on profit differs from the income tax provided in the financial statements as follows:				
Prima facie tax on profit from ordinary activities	50,719	46,695	31,404	21,354
Tax effect of permanent differences				
Rebateable dividends	–	–	(31,350)	(21,300)
Amortisation of intangible assets	6,529	6,180	–	–
Other items (net)	504	289	–	–
Under/(over) provision of previous year	1,117	735	–	–
Income tax expense attributable to ordinary activities	58,869	53,899	54	54
Deferred tax assets and liabilities				
Provision for income tax – current	21,103	13,617	–	–
Future income tax benefit – non-current	5,472	2,584	–	–

This future income tax benefit will only be obtained if:

- future assessable income is derived of a nature and of an amount sufficient to enable the benefit to be realised;
- the conditions for deductibility imposed by tax legislation continue to be complied with; and
- no changes in tax legislation adversely affect the consolidated entity in realising the benefit.

Tax consolidation

From 1 May 2004, for the purposes of income tax, Metcash Trading Limited and its 100% owned Australian controlled entities formed a tax consolidated group. Members of the group entered into a tax sharing arrangement in order to allocate income tax expense to the wholly owned controlled entities on a pro-rata basis. In addition, the agreement provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. At the balance date the possibility of default is remote. The head entity of the tax consolidated group is Metcash Trading Limited.

– controlled entities and ultimate parent entity	32	–	–	1,336,626	243,307
		–	–	1,336,626	243,307

(b) Terms and conditions

- (i) Trade debtor terms vary by business unit. At 30 April 2005, 89.95% of trade debtors are required to be settled within 30 days (2004: 98.4%) and 10.05% of trade debtors have terms extending from 30 days to 60 days (2004: 1.6%).
- (ii) The economic entity has securitised certain trade receivables from 30 April 1999 by way of granting an equitable interest over those receivables to a special purpose trust managed by a major Australian bank. The terms of the securitisation require, as added security, that at any time the book value of the securitised receivables must exceed by at least a certain proportional amount, the funds provided by the trust to the economic entity as a consequence of securitisation. At the end of the financial year trade receivables of \$533,969,000 (2004: \$482,517,000) had been securitised as disclosed above, with \$nil (2004: \$45,000,000) of funds received. The resultant security margin exceeded the minimum required at that date.
- (iii) Other receivables are non-interest bearing and have repayment terms of less than 12 months.

(a) Entities subject to class order relief

Pursuant to Class Order 98/1418, relief has been granted to all controlled entities, except those marked (a), from the Corporations Law requirements for preparation, audit and lodgement of their financial reports. As a condition of the Class Order, Metcash Trading Limited and the controlled entities subject to the Class Order (the "Closed Group") entered into a Deed of Cross Guarantee on 27 May 1994 or assumption deeds dated 7 February 1995 and 20 May 1996. The effect of the deed is that Metcash Trading Limited has guaranteed to pay any deficiency in the event of winding up of these controlled entities. The controlled entities have also given similar guarantees in the event that Metcash Trading Limited is wound up.

Total written down amount		129,073	130,174	4,103	4,170

(a) Valuations

The fair values of freehold land, and buildings on freehold land have been determined by reference to director valuations, based upon independent valuations previously obtained. Such valuations are performed on an open market basis, being the amounts for which the assets could be exchanged between a knowledgeable willing buyer and a knowledgeable willing seller in an arm's length transaction at the valuation date.

In April 2003 a directors valuation was performed on the land and buildings that were owned by Metcash Trading Limited and its controlled entities. The valuation obtained stated the value of the land and buildings to be valued at \$28,285,000. Directors believe this valuation is still appropriate as at end of April 2005.

25. EXPENDITURE COMMITMENTS (continued)

Notes	Metcash Trading Group		Metcash Trading Limited	
	2005 \$'000	2004 \$'000	2005 \$'000	2004 \$'000
(c) Operating Leases Receivable				
Certain properties under operating lease have been sublet to third parties. The future lease payments expected to be received at the reporting date are:				
– not later than one year	21,390	17,331	–	–
– later than one year and not later than five years	62,064	52,940	–	–
– later than five years	57,538	42,122	–	–
	140,992	112,393	–	–

Notes

- (d) Operating leases have an average lease term of 5 years and an implicit interest rate of 7%. Assets which are the subject of operating leases are primarily Land, Buildings and Forklifts. Contingent rentals are payable to reflect movements in the Consumer Price Index on certain leases and to reflect the turnover of certain stores occupying the Land and Buildings.
- (e) These commitments represent payments due for either vacated lease premises or premises sublet to third parties at a subsidised rental under non-cancellable operating leases. The commitments have been recognised as a liability as the remaining payments for the premises will provide no further benefits to the consolidated entity. The payments have been discounted at the rate implicit in the lease.

26. EMPLOYEE BENEFITS AND SUPERANNUATION COMMITMENTS

Employee Benefits

The aggregate employee benefit liability is comprised of:

Provisions (current)	27,364	26,469	–	–
Provisions (non-current)	17,748	17,749	–	–
	45,112	44,218	–	–

Employee Share Scheme

On 23 November 1998, the Employee Option Plan was approved at the Annual General Meeting of Shareholders. Pursuant to this plan, the following options were issued to employees of the Company, including Executive Directors.

Information with respect to the number of options granted under the employee share incentive scheme is as follows:

	2005		2004	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price
Balance at beginning of year	19,242,210	1.10	26,606,790	1.10

A controlled entity has guaranteed third party loans to storeowners amounting to:	1,580	1,580	–	–
The Company and certain controlled entities have granted bank guarantees to third parties in respect of property lease obligations to the value of:	18,991	17,149	–	–

Franklins

Following termination of the Franklins contract in January 2005, Franklins has alleged that Metcash owes it various sums in respect of the supply contract. Franklins has commenced proceedings seeking as yet unquantified damages in respect of certain of the alleged claims. Metcash does not consider that Franklins has any valid claim against it. Should Franklins proceed with any of these alleged claims, they will be vigorously defended by Metcash.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

28. SUBSEQUENT EVENTS

Metcash announced on the 25 May 2005 that it had reached agreement with Foodland Associated Ltd (FAL) to acquire the Australian business of FAL excluding 19 Action stores and 3 Action development sites which will be acquired by Woolworths. Metcash will therefore acquire, on a debt free basis, FAL's West Australian Franchise and Supply division, Action Retail division (excluding Woolworths Actions Stores, and all other FAL Australian assets). Metcash is offering \$780m in cash (or \$6.61 per FAL share) or \$859m in Metcash shares (or \$7.29 per FAL share). It is expected the transaction will be implemented by way of a scheme of arrangement. Documents are expected to be sent to FAL shareholders by FAL during September with the acquisition becoming effective in October.

(i) *Remuneration of Specified Directors and Specified Executives*

The Remuneration Committee of the Board of Directors is responsible for determining and reviewing compensation arrangements for the directors, the Chief Executive Officer and the executive team. The Remuneration Committee assesses the appropriateness of the nature and amount of emoluments of such officers on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality Board and executive team. Such officers are given the opportunity to receive their base emolument in a variety of forms including cash and fringe benefits such as motor vehicles and expense payment plans. It is intended that the manner of payment chosen will be optimal for the recipient without creating undue cost for the company.

To assist in achieving these objectives, the Remuneration Committee links the nature and amount of executive directors and officers emoluments to the company's financial and operational performance. All senior executives have the opportunity to qualify for participation in the Management Bonus Scheme which provides for an annual cash bonus to be paid where specified financial performance criteria are achieved. In addition, an option plan has been implemented providing all employees (under the Employee Option Plan, which also covers senior executives), with the opportunity to participate in the future success of the Company. Details regarding the issue of share options under these two Plans are provided in the notes to the financial statements.

(c) Remuneration options: Granted during the year

During the financial year options were granted as equity compensation to certain specified directors as disclosed below. The options were issued free of charge. Each option entitles the holder to subscribe to one fully paid ordinary share in the entity at an exercise price of \$2.43.

	Granted Number	Grant Date	Value per Option at Grant Date \$	Exercise Price per Share	First Exercise Date	Last Exercise Date

32. RELATED PARTY DISCLOSURES

Directors

The directors of Metcash Trading Limited during the financial year were:

Carlos S dos Santos	A E (Ted) Harris, AC
Andrew Reitzer	Michael R Jablonski
Edwin M Jankelowitz	V Dudley Rubin
Peter L Barnes	Richard A Longes
Bernard J Hale	Joao Louis S Jardin
Michael Wesslink	

Other related party transactions

Purchases and funding

Management fees to the former ultimate controlling entity \$587,500 (2004: \$750,000)

Mr Barnes is Chairman of Samuel Smith & Sons Pty Ltd and a Director of Ansell Limited, both organisations are suppliers to the entity. However, the total level of purchases from both companies is less than 1% of Metcash's annual purchases and is not considered material.

With the approval of the Court, Metcash Trading Limited loaned \$1,097,503,000 to Metcash Limited in order for Metcash Limited to acquire Metoz Holdings and its 52.14% interest in Metcash Trading Limited.

Loans

Ultimate controlling entity \$906,621,000 (2004 NIL)

Ultimate parent

The ultimate controlling entity is Metcash Limited, a company incorporated in Australia.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

33. SEGMENT INFORMATION

Segment products and locations

The economic entity predominantly operates in the industries indicated. Food distribution activities comprise the distribution of grocery and tobacco supplies to retail outlets, convenience stores and hospitality outlets. Liquor distribution activities comprise the distribution of liquor products to retail outlets and hotels. Cash and Carry Distribution comprise the distribution of grocery and tobacco supplies via cash and carry warehouses. Geographically the group operates predominantly in Australia. The New Zealand operation represents less than 10% of revenue, results, and assets of the consolidated entity.

Segment accounting policies

The selling price between segments is at normal selling price and is paid under similar terms and conditions as any other customers of the economic entity.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

34. FINANCIAL INSTRUMENTS (continued)

34(b) Net fair values

At the reporting date, the carrying value of all financial assets and liabilities approximates their net fair values.

(i) *The following methods and assumptions are used to determine the net fair values of financial assets and liabilities*

Recognised financial instruments

Cash, cash equivalents and short-term investments: The carrying amount approximates fair value because of their short-term to maturity.

Trade receivables, trade creditors and dividends receivable: The carrying amount approximates fair value.

Short-term borrowings: The carrying amount approximates fair value because of their short-term to maturity.

Long-term loans receivable: The fair values of long-term loans receivable are estimated using discounted cash flow analysis, based on current incremental lending rates for similar types of lending arrangements.

Long-term bank borrowings and debentures: The fair values of long-term borrowings are estimated using discounted cash flow analysis, based on current incremental borrowing rates for similar types of borrowing arrangements.

Non-current investments/securities: For financial instruments traded in organised financial markets, fair value is the current quoted market bid price for an asset or offer price for a liability, adjusted for transaction costs necessary to realise the asset or settle the liability. For investments where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows or the underlying net asset base of the investment/security. The net fair value of the unlisted options is determined to be the difference between the market price and the exercise price of the underlying shares.

Unrecognised financial instruments

Options over ordinary shares: The fair value of options over ordinary shares is determined using the Black-Scholes option pricing model.

Concentrations of credit risk

The company minimises concentrations of credit risk in relation to trade receivables by undertaking transactions with a large number of customers from across the range of business segments in which the group operates. Refer also to Note 33 – Segment Information.

The Economic entity does not have any significant exposure to any individual customer or counterparty. Major concentrations of credit risk arising from the economic entity's trade receivables relate primarily to the retail grocery and liquor industries and are substantially based in Australia.

35. IMPACT OF ADOPTING AASB EQUIVALENTS TO IASB STANDARDS

Metcash has commenced transitioning its accounting policies and financial reporting from current Australian Standards to Australian equivalents of International Financial Reporting Standards (IFRS). As Metcash has a 30 April year-end, priority has been given to considering the preparation of an opening balance sheet in accordance with AASB equivalents to IFRS as at 1 May 2004. This will form the basis of accounting for Australian equivalents of IFRS in the future, and is required when Metcash prepare its first fully IFRS compliant financial report for the year ended 30 April 2006. Set out below is the key areas where accounting policies will change and may have an impact on the financial report of Metcash:

Goodwill

Under AGAAP, goodwill is amortised over the useful life of the assets acquired, not exceeding 20 years, resulting in charges for amortisation of goodwill. Under Australian IFRS (AASB 138 Intangibles and AASB 136 Impairment of Assets), goodwill will be allocated to the smallest 'cash generating unit', capitalised and be subject to an impairment test. Thus, rather than being amortised over a predetermined period, goodwill will be tested for impairment on an annual basis. Where impairment is identified, the carrying value of goodwill will be written down and profit reported for the period reduced accordingly. The impact for the 2005 statement of financial performance would be to reverse the amortisation of goodwill reflected in the financial result of \$21.7m.

Deferred taxes

Under AGAAP the tax effect of items of income and expense that are recognised in the statement of financial performance in one period but are taxable or deductible in other periods are included in the calculation of accounting income tax expense and reflected as deferred tax assets and liabilities in the statement of financial position. Australian IFRS introduces a balance sheet method of accounting for taxation. Under this approach, deferred tax is calculated as the tax expected to be payable or recoverable on differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Therefore, if an asset was held at valuation with changes in fair value recognised in an asset revaluation reserve, no deferred tax liability would be recognised under AGAAP but a deferred tax liability would be recognised under Australian IFRS. It is anticipated that there will be no material effect for Metcash.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

Impairment of assets

Under AGAAP the recoverable amount of an asset is determined as the amount that is expected to be recovered through cash inflows and outflows from the continued use and subsequent disposal of the asset, on the basis of discounted or undiscounted future cash flows. For this purpose, Metcash currently discount future cash flows at the weighted average costs of capital and risk free rate respectively. Under Australian IFRS (AASB 136 Impairment of Assets), 'recoverable amount' is determined as the higher of net selling value and value in use, determined by discounting cash flows at an asset-specific discount rate. Reliable estimation of future financial effects of this change in accounting policy is currently impracticable because the conditions under which impairment will be assessed are not yet known.

Share base payments

Under Australian IFRS (AASB 2, Share Based Payments) employers are required to determine the fair value of shares issued to employees as remuneration and recognise this as an expense in the statement of financial performance. This applies to both option and share based forms of equity based remuneration. Under AGAAP, shares issued to employees as remuneration do not need to be expensed. During the year \$139,599 would have been expensed to the statement of financial performance and will be adjusted against opening retained earnings. Options existing at year end will incur and additional \$685,616 expense to the statement of financial performance over the next five years.

Business Combinations

Metcash has used the election allowed under Australian IFRS (AASBI, First-time Adoption of Australian Equivalents to International Financial Reporting Standards) not to apply AASB3, – Business Combinations, retrospectively to past business combinations.

Financial Instruments

Under Australian IFRS, financial liabilities are to be recognised initially at fair value (net of transaction costs) and thereafter at amortised cost-determined using the effective interest rate method. At 30 April 2005 Metcash Trading Limited has brought to account the Convertible Unsecured Loan Stock (CULS) liability at face value, and separately brought to account the attributable transaction costs (\$7,894,000) as deferred debt costs. The financial effect of this change on the Company's and the Group's results before taxation to 30 April 2005 is estimated at \$1,300,000 decrement.

The amounts disclosed are management's best estimates of the quantitative impacts of the changes at the date of reporting the 30 April 2005 financial report. The actual effects of transition may differ from the estimates disclosed due to:

- (a) ongoing work being undertaken by the company's AIFRS project team;
- (b) potential amendments to AIFRS and Interpretations thereof being issued by the standard-setters and IFRIC; and
- (c) emerging accepted practice in the interpretation and application of AIFRS and UIG Interpretations.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Metcash Trading Limited, I state that:

(1) In the opinion of the directors:

- (a) the financial statements and notes of the company and of the consolidated entity are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the company's and consolidated entity's financial position as at 30 April 2005 and of their performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

(2) This declaration has been made after receiving the declarations required to be made to the directors in accordance with section 295A of the *Corporations Act 2001* for the financial year ended 30 April 2005.

(3) In the opinion of the directors, as at the date of this declaration, there are reasonable grounds to believe that the members of the Closed Group identified in note 12 will be able to meet any obligations or liabilities to which they are or may become subject, by virtue of the Deed of Cross Guarantee.

On behalf of the Board

Andrew Reitzer
Director

Sydney, 22 July 2005

INDEPENDENT AUDIT REPORT

TO MEMBERS OF METCASH TRADING LIMITED

Scope

The financial report and directors' responsibility

The financial report comprises the statement of financial position, statement of financial performance, statement of cash flows, accompanying notes to the financial statements, and the directors' declaration for Metcash Trading Limited (the company) and the consolidated entity, for the year ended 30 April 2005. The consolidated entity comprises both the company and the entities it controlled during that year.

The directors of the company are responsible for preparing a financial report that gives a true and fair view of the financial position and performance of the company and the consolidated entity, and that complies with Accounting Standards in Australia, in accordance with the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Audit approach

We conducted an independent audit of the financial report in order to express an opinion on it to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act 2001*, including compliance with Accounting Standards in Australia, and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's and the consolidated entity's financial position, and of their performance as represented by the results of their operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

We performed procedures to assess whether the substance of business transactions was accurately reflected in the financial report. These and our other procedures did not include consideration or judgement of the appropriateness or reasonableness of the business plans or strategies adopted by the directors and management of the company.

Independence

We are independent of the company, and have met the independence requirements of Australian professional ethical pronouncements and the *Corporations Act 2001*. In addition to our audit of the financial report, we were engaged to undertake the services disclosed in the notes to the financial statements. The provision of these services has not impaired our independence.

Audit Opinion

In our opinion, the financial report of Metcash Trading Limited is in accordance with:

- (a) the *Corporations Act 2001* including:
 - (i) giving a true and fair view of the financial position of Metcash Trading Limited and the consolidated entity as at 30 April 2005 and of their performance for the year ended on that date; and
 - (ii) complying with Accounting Standards in Australia and the *Corporations Regulations 2001*; and
- (b) other mandatory professional reporting requirements in Australia.

Paul Kaplan	Appointed: 12 January 2005;	Resigned: 18 April 2005
Michael Roche	Appointed: 3 December 2004;	Resigned: 18 April 2005
David Killingback	Appointed: 3 December 2004;	Resigned: 12 January 2005

For qualifications and experience of current Directors, please refer to "the Board" section of this financial report.

John Randall, BEc, FCPA, FCIS, MAICD

Mr Randall became a Director of Metcash Limited in December 2004 and resigned on 18 April 2005. Mr Randall is also currently the Company Secretary of Metcash, having joined Metcash in 1997.

Michael Roche

Mr Roche became a Director in December 2004 and resigned on 18 April 2005. Mr Roche is a Managing Director of Deutsche Bank and Co-Head of Capital Advisory and Debt Products in Australia and New Zealand. Prior to joining Deutsche Bank in 1993, Mr Roche was a director of ANZ Capel Court and prior to this an Actuary with National Mutual. He has over 20 years of corporate finance experience.

Paul Kaplan

Mr Kaplan became a Director in January 2005. Mr Kaplan is a Director of Momentum Corporate Pty Ltd, a boutique investment bank based in Sydney. Mr Kaplan is a member of the Institute of Chartered Accountants in Australia. Prior to joining Momentum Corporate in 2003, Mr Kaplan worked with Arthur Andersen and Brait Limited (a listed investment bank) as well as being a Director and Chief Operating Officer of Global Micro Solutions Pty Ltd, a technology services firm.

David Killingback

Mr Killingback became a Director of Metcash Limited in December 2004 and resigned on 12th January 2005. Mr Killingback is a Director of Deutsche Bank and head of Consumer & Retail.

COMPANY SECRETARY

John Randall, BEc, FCPA, FCIS, MAICD

John Randall has been company secretary of Metcash since 2000. He joined Metcash in 1997. Previously he was Chief Financial Officer of Metal Manufactures Limited and Overseas Telecommunications Corporation Limited, President of the Accounting Foundation, University of Sydney, a former National President of the Group of 100, NSW President and National Board Member of CPA Australia.

DIRECTORS' REPORT CONTINUED

CORPORATE INFORMATION

Corporate structure

Metcash Limited is a company limited by shares that is incorporated and domiciled in Australia.

Nature of operations and principal activities

The company was incorporated on 3 December 2004 as Newco Project X Limited and changed its name to Metcash Limited on 31 March 2005. Effective 7 April 2005 the Company acquired 100% ownership of Metcash Trading Limited by way of the acquisition of Metoz Holdings, majority owner of Metcash Trading Limited, and by way of issue of the Company's shares to the other shareholders in Metcash Trading Limited. This annual report should be read in conjunction with the annual report of Metcash Trading Limited.

Notwithstanding that the Company did not own Metcash Trading Limited before 7 April 2005, this directors report makes reference to the operations of Metcash Trading Limited prior to and since its acquisition by the Company in order to provide meaningful comment on the developments within the underlying ongoing business and activities of Metcash Trading Limited - that business is generally referred to herein as "Metcash."

The principal activities during the period of entities within the consolidated entity were the wholesale distribution of groceries, liquor and associated products.

Employees

The consolidated entity employed 4,316 employees as at 30 April 2005.

DIRECTORS' REPORT CONTINUED

REVIEW AND RESULTS OF OPERATIONS

Group Overview

A review of the operations during the period, and the results of those operations, appears in the foregoing Chairman's and Chief Executive Officer's (CEO) report.

Summarised operating results are as follows:

	2005	
	Revenues \$'000	Results \$'000
<i>Business segments</i>		
Food Distribution	295,164	13,632
Cash & Carry Distribution	77,021	2,072
Liquor Distribution	180,557	1,464
	552,742	17,168
Consolidated entity adjustments	17,279	(4,465)
Consolidated entity sales and operating profit	570,021	12,703

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

No significant changes in the state of affairs of the company occurred during the financial period, not otherwise disclosed in the Chairman's and CEO's report.

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

Metcash announced on 25 May 2005 that it had reached agreement with Foodland Associated Ltd (FAL) to acquire the Australian business of FAL excluding 19 Action stores and 3 Action development sites which will be acquired by Woolworths. Metcash will therefore acquire, on a debt free basis, FAL's West Australian Franchise and Supply division, Action Retail division (excluding Woolworths Actions Stores), and all other FAL Australian assets. Metcash is offering \$780m in cash (or \$6.61 per FAL share) or \$859m in Metcash shares (or \$7.29 per FAL share). It is expected the transaction will be implemented by way of a scheme of arrangement. Documents are expected to be sent to FAL shareholders by FAL during September with the acquisition becoming effective in October.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

Information with respect to likely developments is set out within the report of the Chairman and CEO elsewhere in this Annual Report.

ENVIRONMENTAL MANAGEMENT REGULATION AND PERFORMANCE

Environmental

Metcash considers environmental management an integral part of our corporate responsibility. The implementation of a National Environmental Strategy has involved the recent undertaking of a national assessment to identify those activities, products and services of Metcash that may have an environmental impact. The intention of this assessment is to provide a framework for action and for setting environmental objectives and goals and establishing a disciplined management process for achieving targeted performance levels.

Food Safety

Metcash continues to operate an effective education and training program to ensure staff at all warehouses comply with all FSANZ Food Standards Code requirements including the National Food Safety Standards and state Food Act regulations. This includes the ongoing management and continuous improvement of the food safety training and management system based on HACCP (Hazard Analysis and Critical Control Point) risk management principles that have been progressively implemented over all Metcash warehouses since 2001.

Annual third party "certified" audits have assisted Metcash to ensure its sites are operating to the highest standard in food safety by identifying and managing food safety risks and maintaining an effective continuous improvement culture. Throughout 2004 and 2005, Metcash has continued this HACCP based system of food safety management achieving 100% HACCP Certification across all the existing Metcash sites which is well above national food safety standards required for distribution warehouses.

In 2004/2005 a second full review of Metcash's QA management systems at Metcash Head Office also achieved ongoing HACCP Certification. This includes a review of the management of Corporate brand specifications, approval of suppliers, product recalls, customer complaints, product label data management and internal protocols against FSANZ Food Standards Code requirements.

DIRECTORS' REPORT CONTINUED

Metcash became a signatory to the National Packaging Covenant (NPC) in November 2001. During the period there was an extensive reduction in cardboard waste by the utilisation of plastic tote bins across the C store distribution sites as well as significant increase in the amount of recycled cardboard & plastic packaging in all Metcash sites.

In 2004/2005, Metcash also continued to assist in the co-ordination of the ARA Code of Practice for Shopping Bags across the Independent retailer network. The IGA Distribution group was able to support the Retail sector's reduction of plastic shopping bags by 27% and continues to develop marketing and in-store initiatives that encourages a further reduction to the December 2005 target of a 50% reduction across the national Supermarkets.

OCCUPATIONAL HEALTH & SAFETY

People are the most important part of our business. Metcash acknowledge the need to maintain vigilance towards safety and to be proactive in identifying new ways to improve performance through actively engaging our people in 'Managing Safety Together'. Over the past twelve months Metcash has renewed this commitment with significant investment in the development and commencement of a National safety management strategy that aims to exceed legislative compliance and reduce workplace injuries.

Group Performance

No. of reported injuries	23% increase
No. of hours lost	4% decrease
Severity rate	10% decrease
No. of claims	15% decrease
Duration rate	25% decrease

Due to a purposefully targeted focus across the business on reporting injuries to effectively identify and control risk, the number of reported incidents has increased. Reductions in all other areas demonstrate effectiveness in controlling the management of injuries.

This is a pleasing performance and highlights the successful implementation of the new OHS strategy across the group.

WORKFORCE ENGAGEMENT

For all of us at Metcash, engagement means the alignment of employees' efforts and contributions to those of the business and of shareholders. It is about constant communication, regular and frequent team briefs and understanding and perhaps more importantly, "doing something about" what concerns employees in their day-to-day activities.

Engagement at all levels of the workforce is one key to Metcash's on-going success. Re-enforced by work/life balance policies such as the highly successful "Pro-Fit", which targets activities and programs designed to enrich the well being of all employees, Metcash continues to acknowledge and value the contributions of all its employees.

The second climate survey was conducted during 2005 and whilst results are still being compiled at the time of writing, preliminary results show that employees appreciate the opportunity to voice their feelings about Metcash and particularly the company's willingness to strive for continuous improvement. Metcash is regarded by employees as a good employer and a great place to work. This is particularly pleasing given the restructuring in some parts of the business and the continued and unrelenting pressure from our competitors.

With all of the challenges that the FAL integration brings to the business, there is a high degree of confidence in the ability of employees to meet those challenges and become a true "third force" on the grocery wholesaling and retailing sector.

INDEMNIFICATION AND INSURANCE OF DIRECTORS AND OFFICERS

- (i) The Constitution of the Company permits the grant of an indemnity (to the maximum extent permitted by law) in favour of each Director, the Company Secretary, past Directors and Secretaries, and all past and present Executive Officers. The Company has entered into Deeds of Indemnity and Access with the current directors and certain other officers of the Company. This indemnity is against any liability to third parties (other than related Metcash Trading companies), by such officers unless the liability arises out of conduct involving a lack of good faith. The indemnity also includes costs or expenses incurred by an officer in unsuccessfully defending proceedings relating to that person's position.
- (ii) During the financial period, the Company has paid, or agreed to pay, a premium in respect of a contract of insurance insuring officers (and any persons who are officers in the future) against certain liability incurred in that capacity. Disclosure of the total amount of the premiums and the nature of the liabilities in respect of such insurance, is prohibited by the contract of insurance.

REMUNERATION REPORT

This report outlines the remuneration arrangements for directors and executives of Metcash Limited.

Remuneration and Nomination committee

Role

The Remuneration and Nomination Committee of the Board of Directors is responsible for determining and reviewing compensation arrangements for the Directors, the Chief Executive Officer (CEO) and the senior management team.

The Remuneration and Nomination Committee assesses the appropriateness of the nature and amount of remuneration of directors and senior managers on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality board and executive team.

Remuneration Structure

In accordance with best practice corporate governance, the structure of non-executive director and senior manager remuneration is separate and distinct.

Non-Executive Director remuneration

Aggregate Directors' remuneration is determined from time to time at a general meeting. The current limit, \$500,000, has not been increased since determination in 1994 on incorporation of the then Davids Limited. A resolution to increase the aggregate remuneration to \$1,000,000 is to be put to shareholders at the 1 September 2005 Annual General Meeting.

Non-executive Directors are paid an annual fee, which is periodically reviewed to verify that directors' remuneration is consistent with industry standards. If necessary, external advice is obtained. Additional amounts are paid to the Chairman and Deputy Chairman to recognise the responsibilities involved with those positions.

Non-executive Directors do not receive bonuses, and are not entitled to participate in the company's share option scheme.

A retirement benefit is paid to Non-executive Directors for past service. The benefits are in accordance with Section 8.3(h) and (i) of the Company's Constitution and Section 200 of the Corporations Law.

On appointment, the Company entered into an agreement with Non-executive Directors that a benefit will be paid on their retirement as follows:

- A retiring allowance equal to one half of the Director's remuneration during the period of service as a Director of the company;
- No allowance is paid unless the Director has served for at least three years;
- The maximum allowance that can be paid is an amount equal to the lesser of:
 - Three times the remuneration earned by the Director in the 12 months immediately prior to the date of retirement; and
 - The total emoluments of the director during the three years ending on the date of retirement.

Directors considered whether to continue to provide retirement allowances. No benefit can be seen to the Company in the alternative approach of freezing and accruing existing entitlements and increasing directors' fees to compensate for future accruals. It was decided to continue the existing arrangements and pay directors a retirement benefit on the basis shown above, whilst providing full disclosure.

Senior manager and executive director remuneration

Remuneration Policy

The Remuneration and Nomination Committee recognises that the Group operates in a very competitive environment and that its performance depends on the quality of its people. To continue to prosper, the Group must be able to attract, motivate and retain highly skilled executives.

The guiding principles of the Group's remuneration policy are to:

- provide competitive rewards to attract and retain executive talent;
- apply demanding key performance indicators to deliver results across the Group and to a significant portion of the total reward;
- link rewards to executives to the creation of value to shareholders;
- assess and reward executives using financial and non-financial measures of performance;
- ensure remuneration arrangements between executives are equitable and facilitate the deployment of human resources around the Group; and
- limit severance payments on termination to pre-established contractual arrangements which do not commit the Group to making unjustified payments in the event of non-performance.

Remuneration and Nomination Committee Memberships and Meetings

The following non-executive Directors were members of the Committee throughout the year:

- Mr A E (Ted) Harris, AC (Chairman)
- Mr Peter Barnes
- Mr Carlos dos Santos

The Committee did not meet during the year. However, the Remuneration and Nomination Committee of Metcash Trading Limited met four times during the year.

Advisors

The Chief Executive Officer and the Chief Human Resources Officer have assisted the committee in its deliberations during the year. In addition Hay Group and Egan and Associates were retained to provide assistance and advice on market-related remuneration and short, medium and long-term incentives.

Structure

Service contracts exist for senior executives including the Chief Executive Officer. They are unlimited in term but capable of termination on 15 months notice in the case of the Chief Executive Officer and 9 months notice in the case of executives who are direct reports to the Chief Executive Officer. The Group retains the right to terminate the contract immediately, by making payments equal to the notice period, in lieu of notice. In addition, should termination be as a result of redundancy, a further payment of 9 months of fixed remuneration (base salary plus superannuation) is payable to the Chief Executive Officer and 6 months further payment to Executives who are direct reports to the Chief Executive.

The Chief Executive Officer and Executives who are direct reports to the Chief Executive, may terminate their employment by giving 3 months notice.

The service contracts typically outline the components of remuneration paid to executives but do not prescribe how remuneration levels are reviewed each year to take account of cost-of-living changes, any change in the scope of the role performed by the executive and any changes required to meet the principles of the remuneration policy.

Remuneration is divided into two components. The first is the fixed or base component, which is made up of base salary and superannuation benefits. The second is the 'at risk' component which is subject to Key Performance Indicators (KPIs) and performance hurdles and is generally made up of short, medium and long-term incentives that take the form of cash payments and/or participation in the equity plans. The amount of 'at risk' remuneration, if any, that is earned by an executive is wholly dependent on that executive's and the Group's performance against those pre-determined KPIs and performance hurdles.

Fixed Remuneration

Base salary and benefits

Base salaries are determined by reference to the scope and nature of the individual's role and their performance and experience. Market data is used to benchmark salary levels. Particular consideration is given to competitive remuneration levels.

Superannuation benefits

Superannuation benefits are delivered in accordance with the Federal Government's Superannuation Guarantee Levy, which currently sits at 9% of fixed remuneration to a maximum of \$147,020 p.a. and for amounts above that at a flat \$12,140 p.a.

At risk remuneration

At risk remuneration is delivered at short, medium and long-term incentives and applies to the Group's senior management, which includes the Company Secretary. The components of the at risk remuneration are as follows:

- Executive management bonus scheme (short-term incentive). This scheme delivers a maximum of 50% of fixed remuneration subject to achievement of pre-determined KPIs relating to Pillar and/or Group financial and individual performance.
- Options plan (long-term incentive). This plan delivers options to individuals and is subject to achievement of performance hurdles for Executive Directors based on increase in earnings per share.

Earnings per share growth has been selected as the performance measure as it directly relates to the performance of the company and is not distorted by external influences as are other measures such as total shareholder value.

DIRECTORS' REPORT CONTINUED

The performance hurdle for options issued to executive Directors in 2001, as agreed by members at the Annual General Meeting held on 3 September 2001, was that, in each of the years in which options became available for exercise, earnings per share for the financial year preceding the tranche exercise date must be at least equal to a 20% annual increase of earnings per share compounded from the 2001 earnings per share, adjusted for any dilution that might occur as a consequence of any alteration to the number of ordinary shares issued. The same hurdle rates were agreed by members at the 2004 Annual General Meeting for options issued to an executive director.

Before options are exercised by executive directors, agreement is obtained from the Remuneration & Nomination Committee who verify that the hurdle has been achieved with confirmation obtained from the company's external auditors if thought necessary.

Performance hurdles have not been applied to options issued to the five senior managers listed in Note 29 'Directors and Executives Disclosure' as they do not have the ability to influence the performance of the company to the same degree as executive directors. They also generally are offered a smaller number of options than executive directors. The employee option scheme applies to all of the company's employees and it is not considered practicable for hurdles to apply in all instances. The cut off for hurdles selected by the company is at the executive director level.

'At Risk Remuneration' and Company Performance

The 'at risk remuneration', with the short term focus on sales and profit and the long term segment influenced by earnings per share and share price, has contributed to the growth in the shareholder returns displayed below:

Remuneration Summary

Detailed in Note 29 'Directors & Executives Disclosures' is the remuneration paid to Directors and the 5 named executives

Shareholder Returns

The ongoing performance of the Group has ensured that returns to shareholders, through both dividends and capital growth has continued. The recently announced capital reorganisation and takeover of FAL has increased the value of Metcash shares substantially.

MTT/MTS combined	2005	2004	2003	2002	2001
Earnings per share before Goodwill	19.53	18.86	16.19	14.09	10.40
Earnings per share	16.30*	16.10	13.10	8.89	3.93
Dividends per share	10.00	11.00	8.60	5.00	1.50
Return on Equity	15.80*	22.70	21.10	16.50	9.40
Share price	3.20	2.50	2.19	2.40	0.71

* Influenced by the Capital Re-organisation

Review of Financial condition

As discussed in the Chairman's and CEO report, the Group undertook a capital reorganisation during the year Metcash Limited acquired the equity of the Metcash Group previously owned by Metoz Holding Limited (the former Metro Cash & Carry Limited of South Africa). As a result Metcash Limited now owns 100% (directly or indirectly) of Metcash Trading Limited.

Operating cash flow for the year was strong at \$183.6m, up from \$171.0m in the previous year, a 7.4% increase.

The strength of the company's balance sheet and future prospects has allowed Metcash Limited to undertake the extensive capital and debt raising activities required to fund the capital reorganisation and the FAL takeover. Metcash management remained committed to prudent balance sheet and capital management initiatives to ensure shareholder value is maximised.

Risk Management

The Metcash Group takes a proactive approach to risk management. The Audit Risk and Compliance Committee has the responsibility to advise on the establishment and maintenance of a framework of internal control, effective management of financial and other risks, compliance with laws and regulations and appropriate ethical standards for the management of Metcash. A more detailed analysis of the Risk Management process undertaken by Metcash is contained in the 'Corporate Governance' section of the report.

DIRECTORS' REPORT CONTINUED

CEO and CFO Declaration

The Chief Executive Officer and Chief Financial Officer have provided a declaration which states

- (a) With regard to the integrity of the financial statements of Metcash Limited for the period to 30th April 2005:
- (i) The financial statements and associated notes comply in all material respects with the accounting standards as required by Section 296 of the Corporations Act 2001;
 - (ii) The financial statements and associated notes give a true and fair view, in all material respects, of the financial position as at 30th April 2005 and performance of the company for the period months then ended as required by Section 297 of the Corporations Act 2001;
 - (iii) In our opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.
- (b) With regard to the financial records and systems of risk management and internal compliance and control of Metcash Limited for the period ended 30th April 2005:
- (i) The financial records of the company have been properly maintained in accordance with Section 286 of the Corporations Act 2001;
 - (ii) The statements made in (a) above regarding the integrity of the financial statements are founded on a sound system of risk management and internal compliance and control which, in all material respects, implements the policies adopted by the Board of Directors;
 - (iii) The risk management and internal compliance and control systems of the company relating to financial reporting, compliance and operations objectives are operating efficiently and effectively, in all material respects.
 - (iv) Subsequent to 30th April 2005, no changes or other matters have arisen that would have a material effect on the operation of risk management and internal control and control systems of the company.

Auditor Independence and Non-Audit Services

Liability limited by the Accountants Scheme, approved
under the Professional Standards Act 1994 (NSW).

DIRECTORS' REPORT CONTINUED

Non-Audit Services

The following non-audit services were provided by the entity's auditor, Ernst & Young. The directors are satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act. The nature and scope of each type of non-audit service provided means that auditor independence was not compromised.

Ernst & Young received or are due to receive the following amounts for the provision of non-audit services:

Tax Compliance Services	– Australia	\$831,783
	– New Zealand	\$10,000
Assurance related		\$32,000
Transaction Advisory Services		\$120,000
Other Services	– Australia	\$132,198
	– New Zealand	\$15,000

DIRECTORS' MEETINGS

Prior to 7 April 2005, there were 13 directors' meetings, 4 remuneration and nomination committee meetings, 3 audit risk and compliance meetings held by Metcash Trading Limited.

Committee membership

As at the date of this report, the company had an Audit Risk & Compliance Committee and a Remuneration & Nomination Committee. Members on the committees are:

Audit Risk & Compliance	Remuneration & Nomination
R.A. Longes (c)	A.E. Harris, AC (c)
P.L. Barnes	C.S. dos Santos
V.D. Rubin	P.L. Barnes

Notes

(c) Designates the chairman of the committee.

For details of the committees, their charters and current membership, please refer to the section under "Corporate Governance".

ROUNDING

The amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the company under ASIC Class Order 98/0100. The company is an entity to which the Class Order applies.

CORPORATE GOVERNANCE

In recognising the need for the highest standards of corporate behaviour and accountability, the directors of Metcash Limited support and have adhered to the principles of corporate governance. The company's corporate governance statement is contained in the Corporate Governance section of this annual report.

Signed in accordance with a resolution of the directors.

Andrew Reitzer
Director

Sydney, 22 July 2005

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of accounting

The Company was incorporated on 3 December 2004. The financial report covers the period 3 December 2004 to 30 April 2005. Accordingly there are no prior year comparatives.

The financial report is a general purpose financial report which has been prepared in accordance with the requirements of the Corporations Act 2001 which includes applicable Accounting Standards. Other mandatory professional reporting requirements (Urgent Issues Group Consensus Views) have also been complied with.

The financial report has been prepared in accordance with the historical cost convention.

(b) Principles of consolidation

The consolidated financial statements are those of the consolidated entity, comprising Metcash Limited (the parent entity) and all entities which Metcash Limited controlled from time to time during the period and at balance date.

Information from the financial statements of controlled entities is included from the date the parent company obtains control until such time as control ceases. Where there is loss of control of a controlled entity, the consolidated financial statements include the results for the part of the reporting period during which the parent company has control.

Controlled entity acquisitions are accounted for using the purchase method of accounting.

The financial statements of controlled entities are prepared for the same reporting period as the parent entity, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies which may exist.

All intercompany balances and transactions, including unrealised profits arising from intra-group transactions, have been eliminated in full. Unrealised losses are eliminated unless costs cannot be recovered.

(c) Foreign currencies

Translation of foreign currency transactions

Transactions in foreign currencies of entities within the consolidated entity are converted to local currency at the rate of exchange ruling at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are translated using the spot rate at the end of the financial period.

Translation of financial reports of overseas operations

All overseas operations are deemed self-sustaining as each is financially and operationally independent of Metcash Limited. The financial reports of overseas operations are translated using the current rate method and any exchange differences are taken directly to the foreign currency translation reserve.

(d) Cash and cash equivalents

Cash on hand and in banks and short-term deposits are stated at nominal value.

For the purposes of the Statement of Cash Flows, cash includes cash on hand and in banks, and money market investments readily convertible to cash within 2 working days, net of outstanding bank overdrafts.

Bank overdrafts are carried at the principal amount. Interest is charged as an expense as it accrues.

(e) Receivables

Trade receivables are recognised and carried at original invoice amount less a provision for any uncollectable debts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written-off as incurred.

Receivables from related parties are recognised and carried at the nominal amount due. Interest is taken up as income on an accrual basis.

Bills of exchange and promissory notes are measured at the lower of cost and net realisable value.

(f) Investments

Listed shares held for trading are carried at cost.

Where listed shares have been revalued, any capital gains tax which may become payable has not been taken into account in determining the revalued carrying amount. Where it is expected that a liability for capital gains tax exists, this amount is recognised in the profit or loss for the reporting period.

Investments in associates are carried at the lower of the equity-accounted amount and recoverable amount in the consolidated financial report.

All other non-current investments are carried at the lower of cost and recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Inventories

Inventories of finished goods are carried at the lower of cost and net realisable value. In accordance with industry practice, cost is determined by deducting from the supplier's invoice price any purchase incentives, allowances, discounts and net marketing income. The method adopted to assign costs to inventories is first-in, first-out.

Property held for resale are classified as inventory and valued at the lower of cost and net realisable value. Cost includes the cost of acquisition and any subsequent development costs or improvements.

(h) Recoverable Amount

Non-current assets measured using the cost basis are not carried at an amount above their recoverable amount, and where a carrying value exceeds this recoverable amount, the asset is written down. In determining recoverable amount, the expected net cash flows have been discounted to their present value using a market determined risk adjusted discount rate of 8.55%.

(i) Property, plant and equipment

Cost and valuation

All classes of property, plant and equipment are measured at cost.

Where assets have been previously revalued, the potential effect of the capital gains tax on disposal has not been taken into account in the determination of the revalued carrying amount. Where it is expected that a liability for capital gains tax will arise, this expected amount is disclosed by way of note.

Depreciation

Depreciation is provided on a straight-line basis on all property, plant and equipment, other than freehold land.

Major depreciation periods are:

Freehold buildings:	50 years
Plant and equipment:	5–15 years

(j) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Operating leases

The minimum lease payments of operating leases, where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item, are recognised as an expense on a straight line basis.

The lease incentive liability in relation to the non-cancellable operating lease is being reduced on an imputed interest basis over the lease term (5 years) at the rate implicit in the lease.

Contingent rentals are recognised as an expense in the period in which they are incurred.

Finance leases

Leases which effectively transfer substantially all of the risks and benefits incidental to ownership of the leased item to the group are capitalised at the present value of the minimum lease payments and disclosed as property, plant and equipment under lease. A lease liability of equal value is also recognised.

Capitalised lease assets are depreciated over the shorter of the estimated useful life of the assets and the lease term. Minimum lease payments are allocated between interest expense and reduction of the lease liability with the interest expense calculated using the interest rate implicit in the lease and charged directly to the Statement of Financial Performance.

The cost of improvements to or on leasehold property is capitalised, disclosed as leasehold improvements, and amortised over the unexpired period of the lease or the estimated useful lives of the improvements, whichever is the shorter.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Intangibles

Patents and licences

Patents and licences are carried at cost and amortised on a straight-line basis over their useful lives, being 20 years.

Goodwill

Goodwill represents the excess of the purchase consideration over the fair value of identifiable net assets acquired at the time of acquisition of a business or shares in a controlled entity.

Goodwill is amortised on a straight-line basis over the period during which benefits are expected to be received, up to a maximum of 20 years.

(l) Other non-current assets

Expenditure carried forward

Significant items of carry forward expenditure having a benefit or relationship to more than one period are written off over the periods to which such expenditure relates.

(m) Payables

Liabilities for trade creditors and other amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the consolidated entity.

Payables to related parties are carried at the principal amount. Interest, when charged by the lender, is recognised as an expense on an accruals basis.

Deferred cash settlements are recognised at the present value of the outstanding consideration payable on the acquisition of an asset discounted at prevailing commercial borrowing rates.

(n) Interest-bearing liabilities

All loans are measured at the principal amount. Interest is charged as an expense as it accrues.

Bills of exchange and promissory notes are carried at the principal amount plus deferred interest.

Finance lease liability is determined in accordance with the requirements of AASB 1008 "Leases".

(o) Provisions

Provisions are recognised when the economic entity has a legal, equitable or constructive obligation to make a future sacrifice of economic benefits to other entities as a result of past transactions or other past events, it is probable that a future sacrifice of economic benefits will be required and a reliable estimate can be made of the amount of the obligation.

Provisions for Store Lease & Remediations are raised where the economic entity has committed to the closure of stores. The future lease costs, net of any income from sub leasing, are discounted to their net present value in determining the provision.

Dividends payable are recognised when a legal or constructive obligation to pay the dividend arises, typically following approval of the dividend at a meeting of shareholders.

(p) Contributed equity

Issued and paid up capital is recognised at the fair value of the consideration received by the company.

Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the entity and the revenue can be reliably measured.

The following specific recognition criteria must also be met before revenue is recognised:

Sale of Goods

Control of the goods has passed to the buyer.

Interest

Control of the right to receive the interest payment.

Dividends

Control of the right to receive the dividend payment.

(r) Taxes

Tax-effect accounting is applied using the liability method whereby income tax is regarded as an expense and is calculated on the accounting profit after allowing for permanent differences. To the extent timing differences occur between the time items are recognised in the financial statements and when items are taken into account in determining taxable income, the net related taxation benefit or liability, calculated at current rates, is disclosed as a future income tax benefit or a provision for deferred income tax. The net future income tax benefit relating to tax losses and timing differences is not carried forward as an asset unless the benefit is virtually certain of being realised.

Where assets are revalued no provision for potential capital gains tax has been made.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(s) Employee benefits

Provision is made for employee benefits accumulated as a result of employees rendering services up to the reporting date. These benefits include wages and salaries, annual leave, sick leave and long service leave.

Liabilities arising in respect of wages and salaries, annual leave, sick leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured at their nominal amounts. All other employee benefit liabilities are measured at the present value of the estimated future cash outflow to be made in respect of services provided by employees up to the reporting date. In determining the present value of future cash outflows, the interest rates attaching to government guaranteed securities which have terms to maturity approximating the terms of the related liability are used.

Employee benefit expenses and revenues arising in respect of the following categories:

- wages and salaries, non-monetary benefits, annual leave, long service leave, sick leave and other leave entitlements; and
- other types of employee benefits

are charged against profits on a net basis in their respective categories.

The value of the employee share incentive scheme described in note 25 is not being charged as an employee benefit expense.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(t) Earnings per share

Basic EPS is calculated as net profit attributable to members, adjusted to exclude costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted EPS is calculated as net profit attributable to members, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares;

divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

(u) Securitisation

Securitisation arrangements, where the risks and benefits associated with the securitised assets are retained by the economic entity, are regarded as financing transactions. Accordingly, the related assets are brought to account and disclosed as securitised and the amounts arising under the financing arrangement are brought to account as borrowings. Interest is charged as an expense as it accrues

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

4. INCOME TAX

Notes	Metcash Group		Metcash Limited	
	2005 \$'000		2005 \$'000	
The prima facie tax, using tax rates applicable in the country of operation, on profit differs from the income tax provided in the financial statements as follows:				
Prima facie tax on profit from ordinary activities	3,872		–	
Tax effect of permanent differences				
Amortisation of intangible assets	2,108		–	
Other items (net)	91		–	
Income tax expense attributable to ordinary activities	6,071		–	
Deferred tax assets and liabilities				
Provision for income tax – current	22,156		–	
Future income tax benefit – non-current	5,472		–	

This future income tax benefit will only be obtained if:

- future assessable income is derived of a nature and of an amount sufficient to enable the benefit to be realised;
- the conditions for deductibility imposed by tax legislation continue to be complied with; and
- no changes in tax legislation adversely affect the consolidated entity in realising the benefit.

5. RECEIVABLES (CURRENT)

Notes	Metcash Group		Metcash Limited	
	2005 \$'000		2005 \$'000	
Trade debtors – securitised	5(a)	533,969	–	
Trade debtors – non securitised	5(a)	79,029	–	
Provision for doubtful debts		(8,553)	–	
		604,445	–	
Other receivables	5(a)	43,561	–	
		648,006	–	

(a) Terms and conditions

- Trade debtor terms vary by business unit. At 30 April 2005, 89.95% of trade debtors are required to be settled within 30 days and 10.05% of trade debtors have terms extending from 30 days to 60 days.
- The economic entity has securitised certain trade receivables by way of granting an equitable interest over those receivables to a special purpose trust managed by a major Australian bank. The terms of the securitisation require, as added security, that at any time the book value of the securitised receivables must exceed by at least a certain proportional amount, the funds provided by the trust to the economic entity as a consequence of securitisation. At the end of the financial period trade receivables of \$533,969,000 had been securitised as disclosed above, with \$nil of funds received. The resultant security margin exceeded the minimum required at that date.
- Other receivables are non-interest bearing and have repayment terms of less than 12 months.

(a) Valuations

The fair values of freehold land, and buildings on freehold land have been determined by reference to director valuations, based upon independent valuations previously obtained. Such valuations are performed on an open market basis, being the amounts for which the assets could be exchanged between a knowledgeable willing buyer and a knowledgeable willing seller in an arm's length transaction at the valuation date.

In April 2003 a directors valuation was performed on the land and buildings that were owned by Metcash Trading Limited and its subsidiaries. The valuation obtained stated the value of the land and buildings to be valued at \$28,285,000. Directors believe this valuation is still appropriate as at 30 April 2005.

	7,995		–	
<i>Non-Current</i>				
– finance leases	17,469		–	
	17,469		–	
	25,464		–	
(c) Operating Leases Receivable				
Certain properties under operating lease have been sublet to third parties. The future lease payments expected to be received at the reporting date are:				
– not later than one year	21,390		–	
– later than one year and not later than five years	62,064		–	
– later than five years	57,538		–	
	140,992		–	

Notes

(d) Operating leases have an average lease term of 5 years and an implicit interest rate of 7%. Assets which are the subject of operating leases are primarily Land, Buildings and Forklifts. Contingent rentals are payable to reflect movements in the Consumer Price Index on certain leases and to reflect the turnover of certain stores occupying the Land and Buildings.

(e) These commitments represent payments due for either vacated lease premises or premises sublet to third parties at a subsidised rental under non-cancellable operating leases. The commitments have been recognised as a liability as the remaining payments for the premises will provide no further benefits to the consolidated entity. The payments have been discounted at the rate implicit in the lease.

NOTES TO THE FINANCIAL STATEMENTS

	2005 \$'000		2005 \$'000	
Other persons				
A controlled entity has guaranteed third party loans to storeowners amounting to:	1,580		–	
The Company and certain controlled entities have granted bank guarantees to third parties in respect of property lease obligations to the value of:	18,991		–	

Franklins

Following termination of the Franklins contract in January 2005, Franklins has alleged that Metcash owes it various sums in respect of the supply contract. Franklins has commenced proceedings seeking as yet unquantified damages in respect of certain of the alleged claims. Metcash does not consider that Franklins has any valid claim against it. Should Franklins proceed with any of these alleged claims, they will be vigorously defended by Metcash.

27. SUBSEQUENT EVENTS

Metcash announced on the 25 May 2005 that it had reached agreement with Foodland Associated Ltd (FAL) to acquire the Australian business of FAL excluding 19 Action stores and 3 Action development sites which will be acquired by Woolworths. Metcash will therefore acquire, on a debt free basis, FAL's West Australian Franchise and Supply division, Action Retail division (excluding Woolworths Actions Stores, and all other FAL Australian assets). Metcash is offering \$780m in cash (or \$6.61 per FAL share) or \$859m in Metcash shares (or \$7.29 per FAL share). It is expected the transaction will be implemented by way of a scheme of arrangement. Documents are expected to be sent to FAL shareholders by FAL during September with the acquisition becoming effective in October.

(c) Options granted as part of remuneration for the period ended 30 April 2005

During the financial period options were granted by Metcash Trading Limited as equity compensation to certain specified directors as disclosed below. The options were issued free of charge. Each option entitles the holder to subscribe to one fully paid ordinary share in the entity at an exercise price of \$2.43.

	Granted Number	Grant Date	Value per Option at Grant Date \$	Exercise Price per Share	First Exercise Date	Last Exercise Date
Specified Directors						
B Hale	510,000	2 Sep 04	0.97	2.43	2 Sep 07	2 Sep 10
	170,000	2 Sep 04	0.97	2.43	2 Sep 08	2 Sep 10
	170,000	2 Sep 04	0.97	2.43	2 Sep 09	2 Sep 10
	850,000					

Fair value of options: The fair value of each option (0.97c) has been determined by the use of the Black Scholes model. The fair values are currently not recognised as expenses in the financial statements. If they were expensed, the impact in the 2005 accounts would have been \$11,633.

All above audit remunerations relates to services rendered for Metcash Limited and Metcash Trading Limited.

31. RELATED PARTY DISCLOSURES

Directors

The directors of Metcash Limited during the period were:

Carlos S dos Santos	A E (Ted) Harris, AC
Andrew Reitzer	Michael R Jablonski
Edwin M Jankelowitz	V Dudley Rubin
Peter L Barnes	Richard A Longes
Bernard J Hale	Joao Louis S Jardim
Michael Wesslink	John A Randall
Paul Kaplan	Michael Roche
David Killingback	

Other related party transactions

Purchases and funding

Mr Barnes is Chairman of Samuel Smith & Sons Pty Ltd and a Director of Ansell Limited, both organisations are suppliers to the entity. However, the total level of purchases from both companies is less than 1% of Metcash's annual purchases and is not considered material.

Loans

From controlled entity \$906,621,000.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

32. SEGMENT INFORMATION

Segment products and locations

The economic entity predominantly operates in the industries indicated. Food distribution activities comprise the distribution of grocery and tobacco supplies to retail outlets, convenience stores and hospitality outlets. Liquor distribution activities comprise the distribution of liquor products to retail outlets and hotels. Cash and Carry Distribution comprise the distribution of grocery and tobacco supplies via cash and carry warehouses. Geographically the group operates predominantly in Australia. The New Zealand operation represents less than 10% of revenue, results, and assets of the consolidated entity.

Segment accounting policies

The selling price between segments is at normal selling price and is paid under similar terms and conditions as any other customers of the economic entity.

33. FINANCIAL INSTRUMENTS (continued)

33(b) Net fair values

At reporting date, the carrying value of all financial assets and liabilities approximates their net fair values.

(i) *The following methods and assumptions are used to determine the net fair values of financial assets and liabilities*

Recognised financial instruments

Cash, cash equivalents and short-term investments: The carrying amount approximates fair value because of their short-term to maturity.

Trade receivables, trade creditors and dividends receivable: The carrying amount approximates fair value.

Short-term borrowings: The carrying amount approximates fair value because of their short-term to maturity.

Long-term loans receivable: The fair values of long-term loans receivable are estimated using discounted cash flow analysis, based on current incremental lending rates for similar types of lending arrangements.

Long-term bank borrowings and debentures: The fair values of long-term borrowings are estimated using discounted cash flow analysis, based on current incremental borrowing rates for similar types of borrowing arrangements.

Non-current investments/securities: For financial instruments traded in organised financial markets, fair value is the current quoted market bid price for an asset or offer price for a liability, adjusted for transaction costs necessary to realise the asset or settle the liability. For investments where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows or the underlying net asset base of the investment/security. The net fair value of the unlisted options is determined to be the difference between the market price and the exercise price of the underlying shares.

Unrecognised financial instruments

Options over ordinary shares: The fair value of options over ordinary shares is determined using the Black-Scholes option pricing model.

Concentrations of credit risk

The company minimises concentrations of credit risk in relation to trade receivables by undertaking transactions with a large number of customers from across the range of business segments in which the group operates. Refer also to Note 32 – Segment Information.

The Economic entity does not have any significant exposure to any individual customer or counterparty. Major concentrations of credit risk arising from the economic entity's trade receivables relate primarily to the retail grocery and liquor industries and are substantially based in Australia.

34. IMPACT OF ADOPTING AASB EQUIVALENTS TO IASB STANDARDS

Metcash has commenced transitioning its accounting policies and financial reporting from current Australian Standards to Australian equivalents of International Financial Reporting Standards (IFRS). As Metcash has a 30 April year-end, priority has been given to considering the preparation of an opening balance sheet in accordance with AASB equivalents to IFRS as at 3 December 2004. This will form the basis of accounting for Australian equivalents of IFRS in the future, and is required when Metcash prepare its first fully IFRS compliant financial report for the year ended 30 April 2006. Set out below is the key areas where accounting policies will change and may have an impact on the financial report of Metcash:

Goodwill

Under AGAAP, goodwill is amortised over the useful life of the assets acquired, not exceeding 20 years, resulting in charges for amortisation of goodwill. Under Australian IFRS (AASB 138 Intangibles and AASB 136 Impairment of Assets), goodwill will be allocated to the smallest 'cash generating unit', capitalised and be subject to an impairment test. Thus, rather than being amortised over a predetermined period, goodwill will be tested for impairment on an annual basis. Where impairment is identified, the carrying value of goodwill will be written down and profit reported for the period reduced accordingly. The impact for the 2005 statement of financial performance would be to reverse the amortisation of goodwill reflected in the financial result of \$7.0m.

Reverse Take-over

Under Australian IFRS (AASB 3, Business Combinations) the acquisition by Metcash Ltd of Metcash Trading Ltd will be treated as a reverse acquisition since the substance of the transaction is that the existing public shareholders of Metcash Trading Ltd have, through Metcash Ltd, effectively acquired Metoz Holdings. Metcash Trading Ltd will retain operating and financial control and will be treated as the acquirer for accounting purposes. On consolidation by Metcash Ltd, no goodwill arises on the acquisition by Metcash Ltd of the Metoz Holdings shares and the amount paid in cash by Metcash Ltd to Metoz Holdings shareholders for their shares will be eliminated against shareholder equity. The amount of goodwill to be reversed is \$1,524m.

NOTES TO THE FINANCIAL STATEMENTS

30 APRIL 2005

Deferred taxes

Under AGAAP the tax effect of items of income and expense that are recognised in the statement of financial performance in one period but are taxable or deductible in other periods are included in the calculation of accounting income tax expense and reflected as deferred tax assets and liabilities in the statement of financial position. Australian IFRS introduces a balance sheet method of accounting for taxation. Under this approach, deferred tax is calculated as the tax expected to be payable or recoverable on differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Therefore, if an asset was held at valuation with changes in fair value recognised in an asset revaluation reserve, no deferred tax liability would be recognised under AGAAP but a deferred tax liability would be recognised under Australian IFRS. It is anticipated that there will be no material effect for Metcash.

Impairment of assets

Under AGAAP the recoverable amount of an asset is determined as the amount that is expected to be recovered through cash inflows and outflows from the continued use and subsequent disposal of the asset, on the basis of discounted or undiscounted future cash flows. For this purpose, Metcash currently discount future cash flows at the weighted average costs of capital and risk free rate respectively. Under Australian IFRS (AASB 136 Impairment of Assets), 'recoverable amount' is determined as the higher of net selling value and value in use, determined by discounting cash flows at an asset-specific discount rate. Reliable estimation of future financial effects of this change in accounting policy is currently impracticable because the conditions under which impairment will be assessed are not yet known.

Share base payments

Under Australian IFRS (AASB 2, Share Based Payments) employers are required to determine the fair value of shares issued to employees as remuneration and recognise this as an expense in the statement of financial performance. This applies to both option and share based forms of equity based remuneration. Under AGAAP, shares issued to employees as remuneration do not need to be expensed. During the period \$11,633 would have been expensed to the statement of financial performance and will be adjusted against opening retained earnings. Options existing at period end will incur an additional \$685,616 expense to the statement of financial performance over the next five years.

Financial Instruments

Under Australian IFRS, financial liabilities are to be recognised initially at fair value (net of transaction costs) and thereafter at amortised cost-determined using the effective interest rate method. At 30 April 2005 Metcash Limited has brought to account the Convertible Unsecured Loan Stock (CULS) liability at face value, and separately brought to account the attributable transaction costs (\$7,894,000) as deferred debt costs. The financial effect of this change on the Company's and the Group's results before taxation to 30 April 2005 is estimated at \$1,300,000 decrement.

The amounts disclosed are management's best estimates of the quantitative impacts of the changes at the date of reporting the 30 April 2005 financial report. The actual effects of transition may differ from the estimates disclosed due to:

- (a) ongoing work being undertaken by the company's AIFRS project team;
- (b) potential amendments to AIFRS and Interpretations thereof being issued by the standard-setters and IFRIC; and
- (c) emerging accepted practice in the interpretation and application of AIFRS and UIG Interpretations.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Metcash Limited, I state that:

(1) In the opinion of the directors:

(a) the financial statements and notes of the company and of the consolidated entity are in accordance with the *Corporations Act 2001*, including:

(i) giving a true and fair view of the company's and consolidated entity's financial position as at 30 April 2005 and of their performance for the period ended on that date; and

(ii) complying with Accounting Standards and *Corporations Regulations 2001*; and

(b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

(2) This declaration has been made after receiving the declarations required to be made to the directors in accordance with section 295A of the *Corporations Act 2001* for the financial period ended 30 April 2005.

On behalf of the Board

Andrew Reitzer
Director

Sydney, 22 July 2005

INDEPENDENT AUDIT REPORT

TO MEMBERS OF METCASH LIMITED

Scope

The financial report and directors' responsibility

The financial report comprises the statement of financial position, statement of financial performance, statement of cash flows, accompanying notes to the financial statements, and the directors' declaration for Metcash Limited (the company) and the consolidated entity, for the period ended 30 April 2005. The consolidated entity comprises both the company and the entities it controlled during that period.

The directors of the company are responsible for preparing a financial report that gives a true and fair view of the financial position and performance of the company and the consolidated entity, and that complies with Accounting Standards in Australia, in accordance with the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Audit approach

We conducted an independent audit of the financial report in order to express an opinion on it to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act 2001*, including compliance with Accounting Standards in Australia, and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's and the consolidated entity's financial position, and of their performance as represented by the results of their operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

We performed procedures to assess whether the substance of business transactions was accurately reflected in the financial report. These and our other procedures did not include consideration or judgement of the appropriateness or reasonableness of the business plans or strategies adopted by the directors and management of the company.

Independence

We are independent of the company, and have met the independence requirements of Australian professional ethical pronouncements and the *Corporations Act 2001*. In addition to our audit of the financial report, we were engaged to undertake the services disclosed in the notes to the financial statements. The provision of these services has not impaired our independence.

Audit Opinion

In our opinion, the financial report of Metcash Limited is in accordance with:

- (a) the *Corporations Act 2001* including:
 - (i) giving a true and fair view of the financial position of Metcash Limited and the consolidated entity as at 30 April 2005 and of their performance for the period ended on that date; and
 - (ii) complying with Accounting Standards in Australia and the *Corporations Regulations 2001*; and
- (b) other mandatory professional reporting requirements in Australia.
