- Net income – Net income in 3Q12 was US\$ 6.22 mn, compared to US\$ 17.26 mn net loss in the same period last year but a 21.2% decrease compared to net income of US\$ 7.89 mn in 2Q12. Basic net income per American Depositary Shares ("ADS") was US\$ 0.15.

The share repurchase plan calls for the ADSs to be acquired in the open market from time to time depending upon market conditions, the market price of Company’s ADSs and the management’s assessment of the Company’s liquidity and cash flow needs. The repurchase plan is intended to increase shareholder value and reduce the dilutive effect of the Company’s equity incentive plans.
- Cash and cash equivalents – As of September 30, 2012, the Company had US\$ 180.91 mn in cash and cash equivalents, held-to-maturity securities, trading securities and restricted cash or US\$ 4.37 per ADS in cash and cash equivalents, held-to-maturity securities, trading securities and restricted cash.

Our focus over the next year will be work closely with our online game partners to optimize their games for the China market and commercially launch these games, all of which are highly anticipated by Chinese gamers."

Business Highlights:

- World of Tanks ("WoT") continued to be the primary contributor to the Company's 3Q12 results. During 3Q/4Q, we introduced new content including new French tank types, English tank tree and new gameplay modes. In addition, as part of our strategic alliance with Wargaming initiated by our May 2012 announcement, we have been working closely with Wargaming to develop a China tank tree which we expect to introduce to the China market sometime late 4Q12 or early 1Q13.
- World of Warplanes: Part of the trinity of Wargaming's War Saga series, World of Warplanes (World of Warplanes is an action MMO game dedicated to the golden era of military aviation) will begin closed beta testing in mainland China sometime late 4Q12 or 1Q13.
- WoT Generals: During 3Q12, we also obtained the exclusive rights to bring Wargaming.net's WoT Generals game to the China market. WoT Generals is a free-to-play collectible card online game focused on World War II gameplay and is a cross-platform, browser-based game.
- HAWKEN: On August 2nd 2012, KONG announced that it has entered into a definitive agreement with Meteor Entertainment, Inc. to bring its game Hawken to the mainland China online game market. HAWKEN is a free-to-play, online, multiplayer, mech-based first-person shooter that puts you in the pilot seat of a giant robotic war machine. In addition, during 4Q12, the Company also participated in the Meteor's recently announced Series B financing.
- Guild Wars 2: On August 29th 2012, KONG announced that it has entered into a definitive agreement with ArenaNet, Inc, developer of the renowned Guild Wars franchise, to bring Guild Wars 2 to the mainland China online game market as its exclusive mainland China partner. Guild Wars 2 is a visually stunning game that is poised to revolutionize the MMO genre by providing players the epic grandeur of a massive roleplaying environment as well as innovative combat mechanics, dynamic events, and personal storytelling. The Company has begun to build out a new team which will be dedicated to support the localization and operation of Guild Wars 2 in mainland China.

Revenues

WVAS Revenues

WVAS revenues in 3Q12 were US\$ 23.10 mn, a 10.3% increase from 2Q12. 3Q12 WVAS revenues saw a sequential uptick in lower margin 2G services and while WVAS revenues were relatively stable compared to prior periods the WVAS operating environment remains difficult.

WVAS made up 46.3% of total revenues in 3Q12.

Mobile Games Revenues

Total mobile game revenues in 3Q12 were US\$ 5.26 mn, a 15.2% decrease from 2Q12.

Feature phone mobile games revenues in 3Q12 were US\$ 3.48 mn, compared to US\$ 4.86 mn in 2Q12 or a 28.4% QoQ decrease. Our mobile operator partners continued to implement strict operating policies and continued their de-emphasis of marketing feature phone mobile games. We see these difficulties continuing in 4Q12 for our legacy feature-phone mobile game business.

Smartphone mobile game revenues in 3Q12 were US\$ 1.78 mn, a 33.1% increase from 2Q12, representing 33.8% of total mobile game revenues. Up to the end 3Q12, our smartphone mobile games have been downloaded over 25.0 mn times cumulatively and during the 3Q12 period, we averaged over 1.5 mn monthly active users to our smartphone games.

Mobile game revenues made up 10.5% of total revenues in 3Q12.

Internet Games Revenues

Internet Game (“Net Game”) revenues were US\$ 21.56 mn in 3Q12, a 144.6% increase from the same period last year. Revenues from World of Tanks (“WoT”) continued to grow in 3Q compared to 2Q, while revenues from self-developed games and overseas game revenues declined significantly as the Company has re-focused our efforts on domestic game development towards more differentiated Internet game genres and smartphone games.

Domestic Net game revenues were US\$ 20.32 mn, a 161.3% increase from the same period last year, but a 2.8% decrease from 2Q12. The sequential decrease in domestic revenues was mainly due to the revenue decrease of several self-developed games, including Kung Fu Hero. Overseas Net game revenues were US\$ 1.24 mn, a 36.7% decrease from 2Q12. Total overseas revenues as a percentage of total Net game revenues in 3Q12 were 5.7% compared to 8.5% in 2Q12.

For the 3Q12 3-month period, mainland China online game operations achieved average concurrent users (“ACUs”) of 286k and aggregated paying accounts (“APAs”) of 781k with quarterly average revenue per user (“ARPU”) of RMB165. ACUs in 3Q12 were up 82% from the same period last year. However, the sequential decline in ACUs and APAs was driven by the decline of the user base of Kung Fu Hero and our other self-developed games, while WoT users remained stable compared to 2Q.

	For the Three Months Ended September 30, 2011	For the Three Months Ended June 30, 2012	For the Three Months Ended September 30, 2012
ACU	157k	302k	286k
APA	450k	821k	781k
ARPU(RMB/Q)	111	161	165

Net game revenues made up 43.2% of total revenues in 3Q12.

Gross Profit

Total gross profit was US\$ 19.07 mn in 3Q12. Total gross margin was 38.2% in 3Q12.

WVAS Gross Profit

WVAS gross profit in 3Q12 was US\$ 6.98 mn, a 3.0% increase from 2Q12. 3Q12 WVAS gross margin was 30.2% compared to 32.4% in 2Q12.

Mobile Game Gross Profit

Mobile games gross profit in 3Q12 was US\$ 2.53 mn, an 8.4% decrease from 2Q12 as policies from our mobile operator partners in our mobile game monthly subscription business continued to lead to a higher churn, offset by sequential growth in gross profits from smartphone games. 3Q12 mobile games gross margin improved overall to 48.1% from 44.6% in 2Q12.

Internet Game Gross Profit

Internet game gross profit in 3Q12 was US\$ 9.56 mn. The decrease was mainly due to the increase of acquired intangible assets amortization in 3Q12 of US\$ 1.36 mn associated with warrants issued to Wargaming.net for World of Tanks and other Wargaming games in perpetuity in May 2012. In addition, gross profits were negatively impacted by the decline in gross profits of Kung Fu Hero's and other self-developed games domestic and overseas revenues. Internet game gross margin was 44.4%.

Going forward, we plan to deemphasize headline marketing activities for Kung Fu Hero but continue marketing activities around WoT in preparation of future 4Q12 and 2013 content updates.

General and administrative (“G&A”) expenses in 3Q12 were US\$ 2.87 mn compared to US\$ 2.72 mn in 2Q12.

The Company’s total headcount increased in 3Q12 at 1035 compared to 985 at the end of 2Q12. The increase in headcount is associated with our recruitment of new talent for our 2013 game pipeline.

As of September 30, 2012, the intangible assets of the Company increased by US\$ 64 mn compared from 2Q12 to a total of US\$ 76.3 mn. This increase was due to the Company's newly signed Internet Game license agreements, which includes license fees and minimum revenue share commitments over the next 5 years, for Guild Wars 2, World of Tanks, World of Warplanes, World of Warships, WoT Generals, Hawken, Dragon's Inn and Offensive Combat. The combined total license fee, annual minimum payment guarantees and additional payment in the form of warrants were all recorded as intangible assets on the contract date.

In September 2012 as part of our license agreement with ArenaNet, for the exclusive rights for Guild Wars 2 in mainland China, the Company issued a Standby Letter of Credit (L/C) to ArenaNet. The purpose of the L/C is to backstop our future minimum revenue share and license fee commitments for Guild Wars 2 over the next 4 to 5 years. The Company pledged RMB 225 mn (equivalent to roughly US\$ 35 mn at the time of pledge) for 5 years at the Company's bank account as part of this L/C. The pledged deposit was recorded as restricted cash in balance sheet.

September 2011 Stock Repurchase Program: Completed

The Company began to repurchase its ADSs in the open market on September 30, 2011. As of July 31, 2012, 2.35mn ADSs, representing 94.14 mn ordinary shares of the Company, were repurchased at an average price of US\$ 6.37 per ADS for a total repurchase amount of US\$ 15 mn.

November 2012 Stock Repurchase Program: Approved

The Board of Directors has authorized the Company to repurchase up to another US\$ 20 million worth of the Company's American Depositary Shares (ADSs). The share repurchase plan calls for the ADSs to be acquired in the open market from time to time depending upon market conditions, the market price of Company's ADSs and the management's assessment of the

Company's liquidity and cash flow needs. The repurchase plan is intended to increase shareholder value and reduce the dilutive effect of the Company's equity incentive plans.

Business Outlook (For the 3-month period ending December 31, 2012):

Combined, our 4Q12 non-GAAP net profit outlook assumes roughly US\$ 1.15 mn in additional expenses associated with the early buildout of our newly licensed games.

Non-GAAP Financial Measures

To supplement the unaudited condensed statements of comprehensive income presented in accordance with US GAAP, the Company uses non-GAAP financial measures (Non-GAAP Financial Measures) of net income and net income per diluted ADS, which are adjusted from results based on GAAP to exclude certain infrequent or unusual or non-cash based expenses, gains and losses. The Non-GAAP Financial Measures are provided as additional information to help both management and investors compare business trends among different reporting periods on a consistent and more meaningful basis and enhance investors' overall understanding of the Company's current financial performance and prospects for the future.

The Non-GAAP Financial Measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. In addition, the Company's calculation of the Non-GAAP Financial Measures may be

different from the calculation used by other companies, and therefore comparability may be limited.

For the periods presented, the Company's non-GAAP net income and non-GAAP net income per diluted ADS exclude, as applicable, the amortization of intangibles, share-based compensation expense, interest expense on convertible note, imputed interest on long-term payables, impairment loss on intangible assets and goodwill, as well as is adjusted for the dilution impact on ADS numbers of the options, nonvested shares and convertible note.

Reconciliation of the Company's Non-GAAP financial measures to the GAAP financial measures is set forth below.

About KongZhong:

We are one of the leading providers of digital entertainment services for consumers in the PRC. We operate three main business units, namely WVAS, mobile games and Internet games. We are one of the leading providers of WVAS to mobile phone users and have been in cooperation with all major telecommunications operators in the PRC since 2002. In 2005, we began providing feature-phone mobile games on the networks of China Mobile with the acquisition of Tianjin Mammoth, a feature phone mobile games developer. To further expand our mobile games development capabilities, we acquired Noumena in 2012 in order to develop smartphone mobile games on smartphone mobile operating systems, such as iOS and Android. We commenced our Internet games business in 2010 through our acquisition of Dacheng, a developer and operator of Internet games in the PRC. In addition to developing and operating our self-developed Internet games, such as Loong, Demon Code and Kung Fu Hero, we are the exclusive operator of the popular World of Tanks game for the PRC Internet games market. In May 2012, KONG entered into a strategic partnership with Wargaming.net's granting KONG exclusive rights to all of Wargaming.net's future games in mainland China, including but not limited to World of Tanks, World of Warplanes and World of Warships. In addition, KONG is the also the exclusive China partner for Guild War 2 from ArenaNet, Offensive Combat from U4iA Games and Hawken from Meteor Entertainment.
