## Fosun and CRCC Sign Strategic Cooperation Agreement

On 27th October 2016, Fosun and China Railway Construction Corporation Limited ("CRCC") held a contract signing ceremony. This ceremony marks that the two parties will jointly build an optimal "investment - construction" collaboration platform with their respective strengths in Public-Private-Partnership (PPP) model. Taking "Hang Shao Tai Railway PPP project" as the starting point, the two parties plan to make full use of respective advantages to form a complete industrial chain cycle of "investment - construction - operation management - capital recovery - reinvestment". Additionally, the two parties will establish resource sharing platform and seek opportunities for cooperation jointly.

Fosun supports the global expansion of China's high-speed rail, and hopes to take this opportunity to work with CRCC to go abroad and promote global cooperation. It will contribute more to improve public facilities and product services.

### Ang Lee's New Movie Releases in China

On 11<sup>th</sup> November 2016, Ang Lee's new movie, Billy Lynn's Long Halftime Walk, released in China. Billy Lynn's Long Halftime Walk, the hottest new film, achieved incredible results with wide acclaim. Studio 8, a Hollywood movie company, is jointly invested by Fosun and Sony Pictures. It dedicates to work with outstanding filmmakers for a long time to develop and produce quality films with rich commercial elements and a unique visual experience. Ang Lee's new movie, Billy Lynn's Long Halftime Walk, is the first investment and production of Studio 8.

Fosun has been committed to sending the Chinese power to the global film industry and introducing the Hollywood film industry system. Fosun will break the single content research and production links, and open up all the links such as production, distribution, screening and derivatives.

## Investment

### Fosun Invests in Sun Paper

On 10th October 2016, Fosun Group and Sun Paper signed a strategic cooperation agreement. Fosun will become a strategic shareholder of Sun Paper, marking the two parties will carry out all-round, multi-level in-depth cooperation. Sun Paper is a leading enterprise in Chinese paper industry, the global advanced multinational paper-making group and listed company. It always uses high-tech to upgrade the traditional industries and has a number of high-end technologies. The strategic cooperation between the two parties, not only allows more Chinese consumers not have to do cross-border online shopping in order to buy high-quality products, but also complement their respective resources and capabilities and open a broader space for cooperation and development. Based on the team's industry background and the advantages of consumer areas, Fosun will integrate its own resources and help the transformation and upgrading and long-term development of Sun Paper.

### Fosun Leads Investment in Easy Parking

On 2nd November 2016, online parking company Easy Parking announced that it had completed Round B financing worth several hundred million Chinese Yuan. This round of financing was led by Fosun with investments from Redstar Macaline, CMIG, FreesFund, Taoyun Capital and other well-known industrial investors and leading investment institutions. Through the Internet technology and the concept of ecological cooperation, Easy Parking uses the Internet + parking mode to enhance the parking lot planning and intelligent parking management, to create a better experience for users. By using the Internet, Easy Parking promotes the rebuilding of parking ecology, and promotes the deep transformation of parking.
