Sales Vs Third Parties

* Organic Growth

Adjusted EBITDA ⁽¹⁾

(1) Adjusted excluding non-recurring income/expenses

Highlights

DISTRIBUTION

- Significant 9M volume growth driven by Europe
- Demand in Europe sustained by UK, Nordics and Eastern countries with no further improvement expected in Central and South of Europe
- US still slow in recovery
- Positive trend in Australia confirmed. Selective growth in India and other Asian markets to benefit from the strong demand with a focus on high-end customers/products
- Margins still at the bottom with limited profitability downside

TRANSMISSION – HV

- Order-book confirmed at peak level mainly driven by key European countries
- Positive projects inflow expected next quarters with new tenders for interconnections and grid upgrade in Europe
- Focus on high-end HVDC projects and cost optimization to sustain profitability
- Continuous growing trend in emerging countries (China and Russia)

TRANSMISSION – Submarine

- Further acceleration expected in demand driven by major interconnection links and new off-shore wind-farms projects
- European Commission recently (October'11) confirmed commitment to increase renewable energy generation and strengthen electricity grids by 2020
- First capacity increase up and running to sustain growth in 2012

Higher contribution from HV and Submarine expected in Q4 due to projects phasing

Utilities – Transmission

Long term drivers supporting orders backlog at peak level with potential to further increase

Utilities – Sales breakdown

Full 9M 2011 combined

Submarine (€ million)

Orders Backlog evolution

High Voltage (€ million)

Orders Backlog evolution

Utilities – Update on Major Transmission projects

Transmission infrastructure and Renewable energy confirmed as key priority in Europe

Major projects to be awarded next quarters

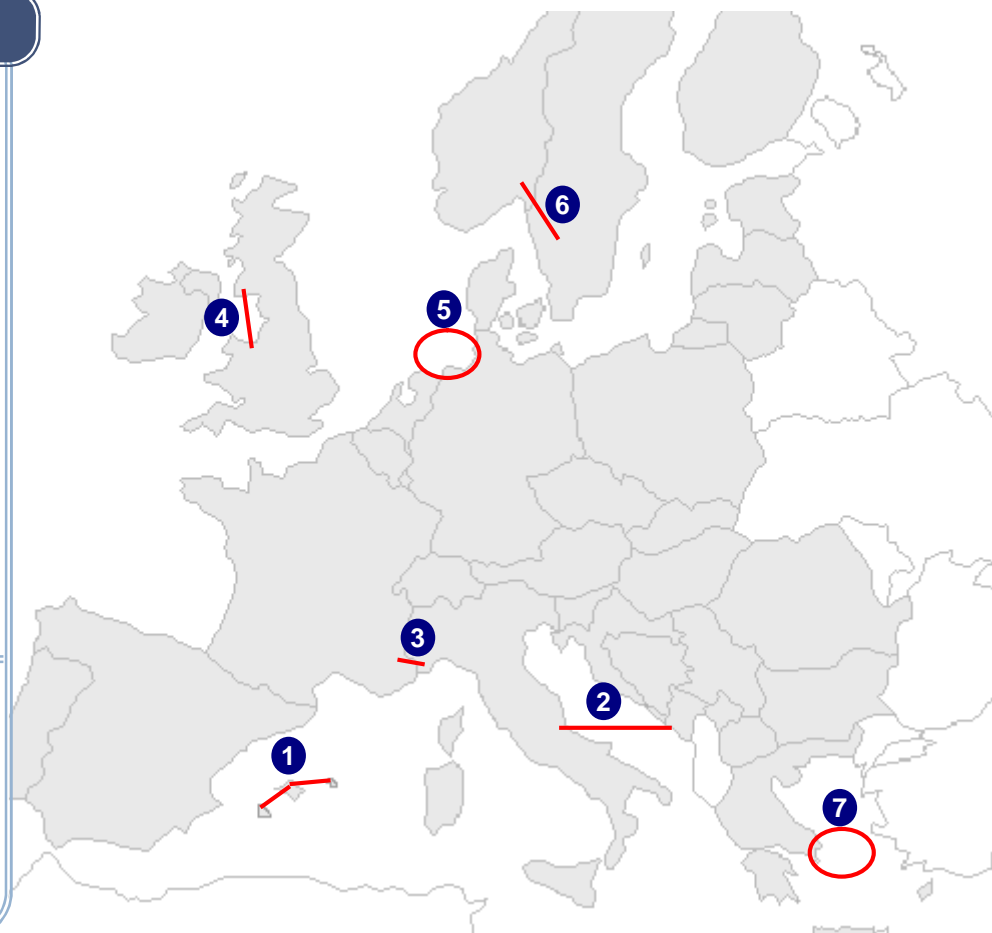

Total value: over € 3bn (cable portion)

Europe

1. Balearic Islands
2. Italy – Montenegro
3. Italy – France
4. Scotland – Wales (Western Link)
5. Germany (Dolwin III, Borwin III & IV, Sylwin II)
6. Sweden – Norway
7. Cyclades Islands

Emerging markets

- Ras Laffan – Halul (Qatar)
- Phu Quoc (Vietnam)

— Main interconnection projects

Limited downside for cyclical businesses on current profitability

The Power Distribution case

- Minor profitability improvement in 2011 despite volume recovery
- Low downside risk on current ebitda margin level (5-6%)

Trade & Installers

Euro Millions, % of Sales – Full Combined Results

Sales Vs Third Parties

* Organic Growth

Adjusted EBITDA (1)

(1) Adjusted excluding non-recurring income/expenses

Highlights

- Organic sales decrease in Q3 due to high comparable basis and no further improvement in demand
- European demand sustained by North and Eastern **Europe** with still low volumes in other countries particularly in Spain and Italy
- Positive construction market development in **South America** expected to continue next quarters
- Gradual volume increase in **APAC** targeting most profitable regions
- Production capacity utilization still too low to support a meaningful recovery in profitability. Limited downside risk on current profitability level

Trade & Installers

Improving geographical mix with higher exposure to Nordics and APAC (excl.China)

Sales breakdown by geographical area

Full 9M 2011 combined
(9M 2011 Prysmian excl.Draka)

Nordics: Norway, Sweden, Finland, Denmark, Estonia

Eastern Europe: Austria, Czech Rep, Slovakia, Hungary, Romania, Turkey, Russia

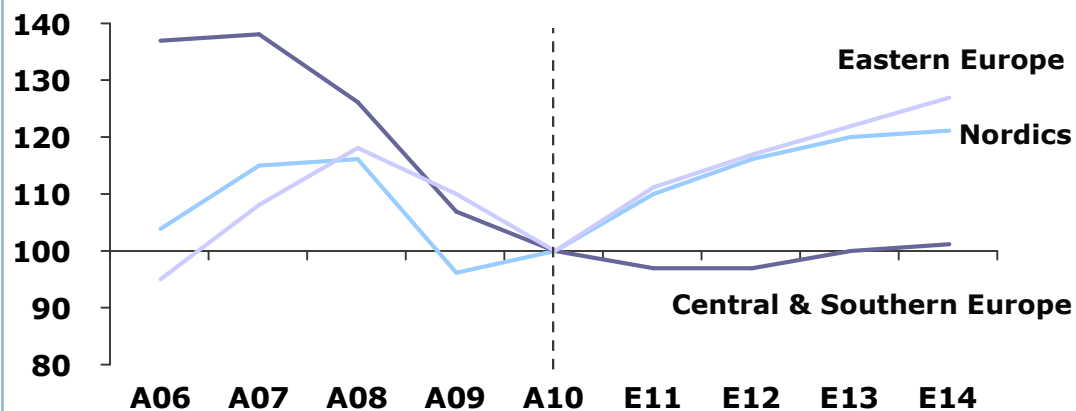

Total New Construction Output Worldwide

2010 = 100

Focus on New Construction Output in Europe

2010 = 100

Source: Cresme Ricerche - Euroconstruct, June 2011

Industrial

Euro Millions, % of Sales – Full Combined Results

Sales Vs Third Parties

* Organic Growth

Adjusted EBITDA ⁽¹⁾

(1) Adjusted excluding non-recurring income/expenses

Highlights

OGP

- Growing demand in Offshore with new installations in Middle East/Apac and recovering maintenance business in US and Europe. Onshore stable

SURF

- Flexible Pipes: positive order intake from Petrobras increasing contribution in next quarters
- New high value added Downhole Technology (US) extended to South America (First order from Petrobras) as first benefit from the integration. Leverage on Group presence in Europe to grow in North Sea and Russia

Renewable

- Double digit sales growth in wind. Positive demand expected in Europe driven by Germany, Denmark and Eastern Europe. Increasing presence in fast growing markets as Latin America, India and Australia
- Declining demand in solar. No recovery expected next quarters in Europe unless new incentives program

Automotive

- Ongoing portfolio rationalization focusing on profitable products/customers. European demand sustained by Germany; growing presence in Apac, Russia and India

Elevator

- Stable demand in US and Europe. Order book supported by China and South America

Specialties & OEM

- High potential recovery for most of applications still at bottom profitability level. Positive demand in Mining, Railway and other niches.

Industrial

A leading presence worldwide

Sales breakdown by geographical area

Full 9M 2011 combined
(9M 2011 Prysmian excl.Draka)

Increased exposure to North America

Sales breakdown by business segment

Full 9M 2011 combined

Wider presence in all the market segments

Industrial – Investing in the high value added off-shore oil business

New flexible pipes plant in Brazil and acquired downhole technology from Draka

Vila Velha (BRA): new flexible pipes plant built next to the pre-existing umbilical plant

Over US\$ 100m sales in FY2011

Flexible Pipes

Production line and chemical injection

Umbilical Control/Injection

Controlling valves on the sea bed. Can use thermoplastic hoses or steel tubes (STU)

Umbilical for Power

Connecting platforms to platforms to transmit power or feed pumps for upstream exploration

Bridgewater (USA): plant contributed by Draka specialized in downhole technology (DHT)

Approx. US\$ 40m sales in FY2011

Sales breakdown: N.A.(50%)-Europe(20%)-S.A.(20%)-MiddleEast/Apac(10%)

Hybrid Electro-Optical

Monitoring in real time the performance of the well. Tube of SS, Inconel, Duplex, etc

Electrical

Supplying power to the sensors or to the well

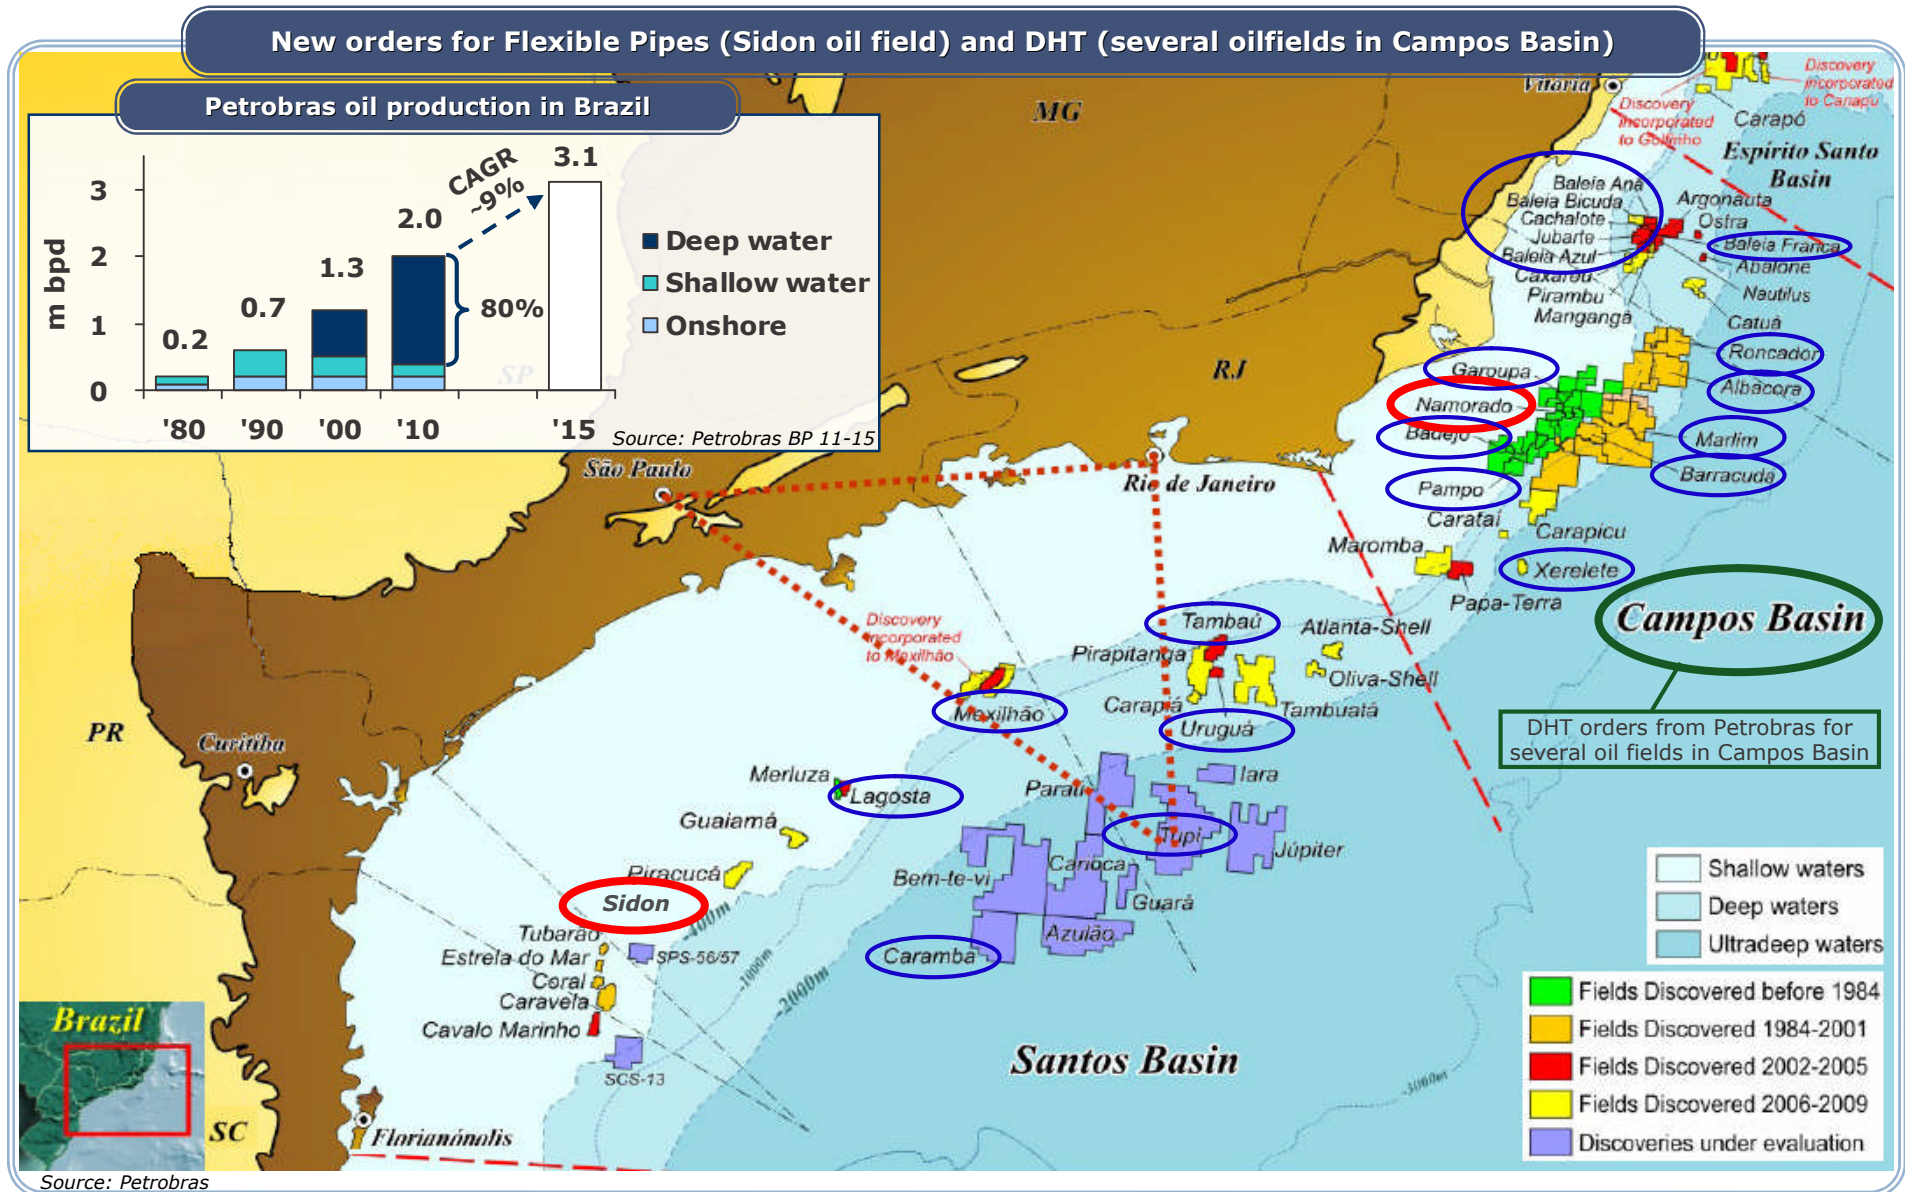

Packaged Gas & Fluid

For chemical/hydraulic injection, fiber sensing

Main customers: Schlumberger, Baker-Hughes, BJ Services, GCDT

Industrial – Strengthening presence in the key Brazilian market

First flexible Pipes delivered (Namorado field) and new orders for both Flexible Pipes and DHT (several oilfields in Campos Basin)

Sales Vs Third Parties

* Organic Growth

Adjusted EBITDA ⁽¹⁾

(1) Adjusted excluding non-recurring income/expenses

Highlights

Optical / Fiber

- Solid demand sustaining double digit volume growth. Ongoing margin recovery driven by better sales mix and costs reduction
 - Positive demand in North America supported by stimulus packages
 - Volume increase in Europe in first 9M but still limited capex level by large incumbents
 - First delivery to NBN (Australia) fulfilled in Q3. Ongoing capacity increase in Australia to accomplish with growing demand expected next quarters (based on awarded contract)
 - Keep leadership position in South America to benefit from high investments planned in next years
 - Leverage on global fiber production capacity to reduce production and logistic costs

Multimedia & Specials

- Mid-single digit volume growth driven by Germany and France. Focus on geographical diversification increasing presence in Nordics, Western Europe and Middle East

OPGW

- Double digit sales growth mainly driven by South America and Europe (e.g. Italy and France). Increasing exposure to emerging markets such as Africa, Middle East and Russia

Telecom

A more diversified portfolio to strengthen market presence worldwide

Sales breakdown by geographical area

Full 9M 2011 combined
(9M 2011 Prysmian excl. Draka)

Sales breakdown by business segment

Full 9M 2011 combined

New Leader in Optical fiber cables...

Prysmian Group market share*

...with strong presence in the fastest growing markets (e.g. Brazil & Australia)

Consumption of fiber optic cable (2010 = 100)

* Company estimates based on CRU

Source: CRU, July 2011

2011 Outlook

Initial FY Guidance confirmed despite worse economic scenario

FY 2011 Adj. EBITDA Target confirmed ⁽¹⁾

Higher profitability expected in Q4 vs Q3 based on:

- Higher Transmission contribution
- Start-up of Flexible Pipes sales
- No improvement in cyclical businesses
- First synergies from Draka integration

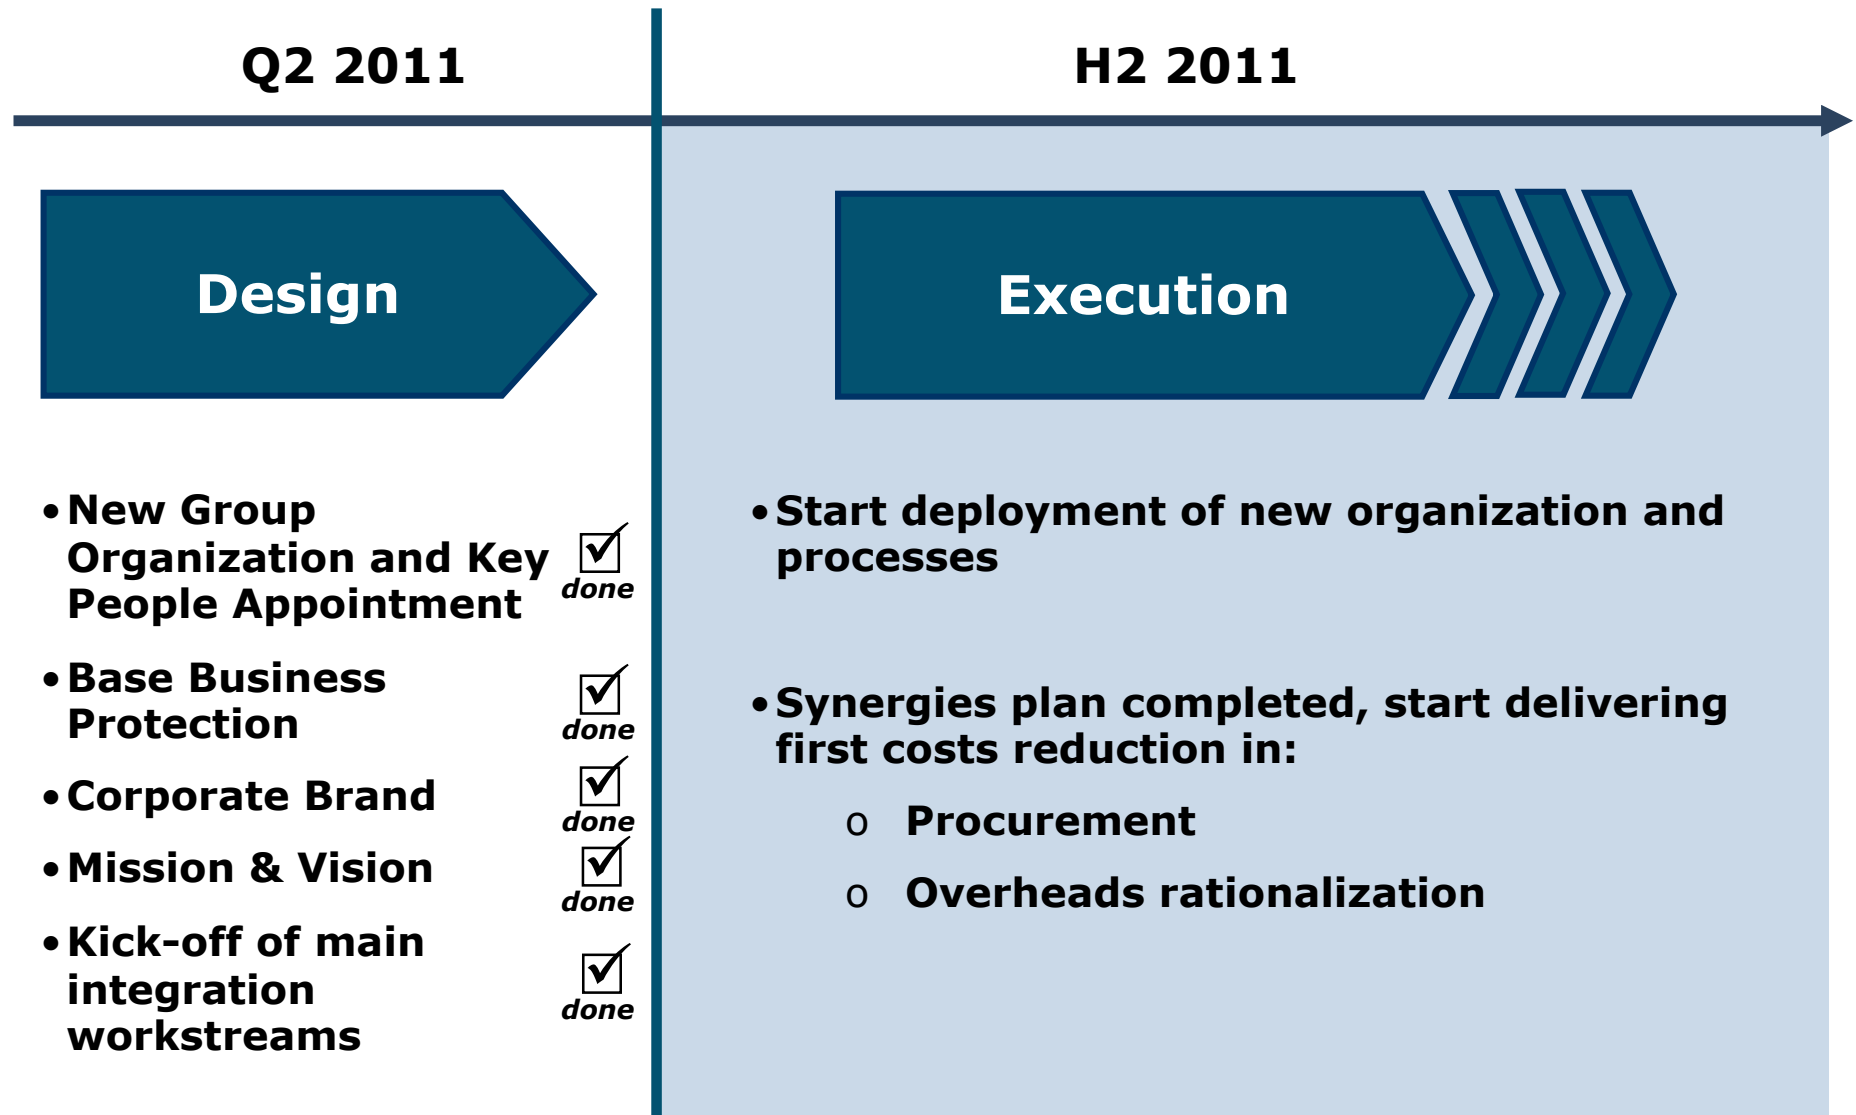

(1) Draka consolidated from 1 March 2011 (10 months)

AGENDA

- Group Overview
- **Draka integration**
- Financial Results
- Appendix

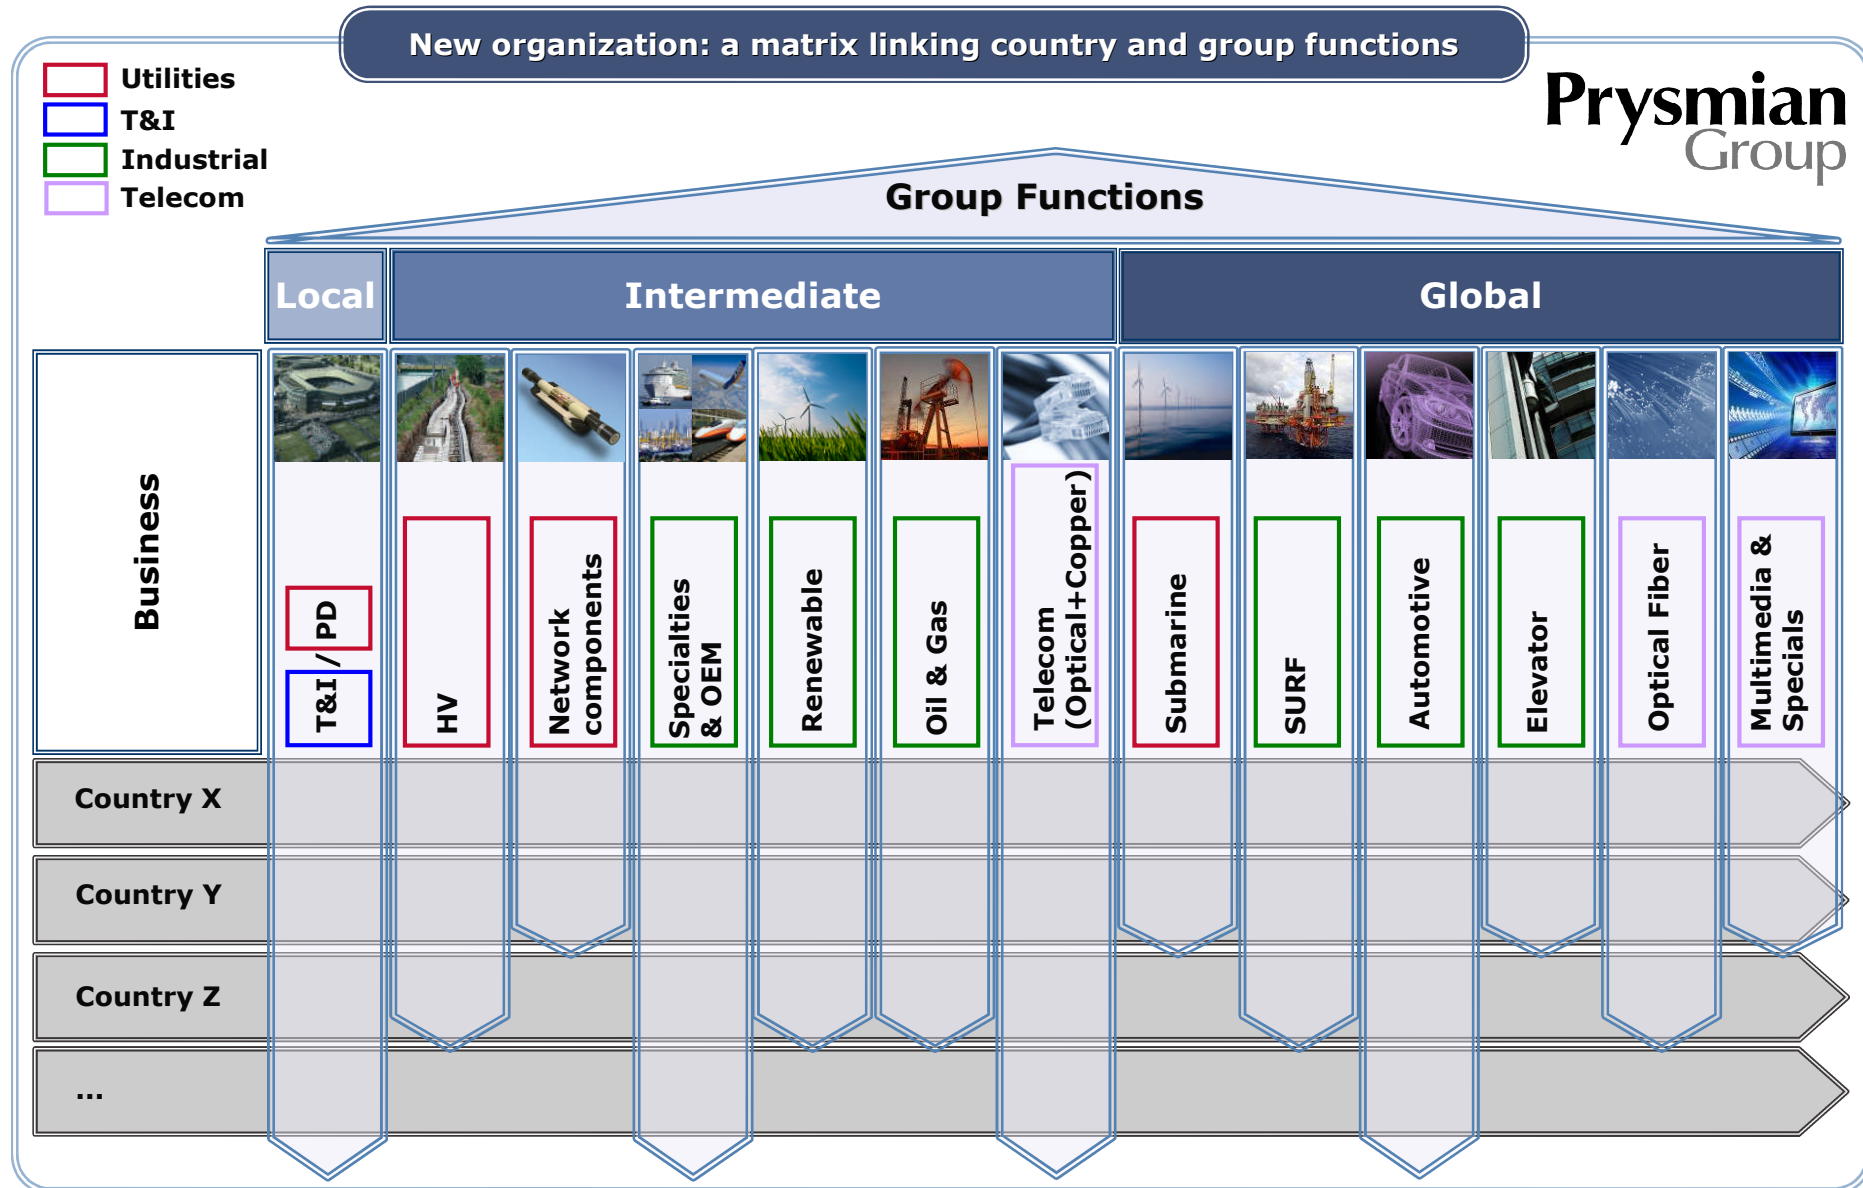

Integration process

Overview

The new organization model

To strengthen leadership in all business segments leveraging on a global platform

Synergies Plan

Upgrading initial synergies target

New Synergies plan (€ m)

- Strong contribution to FY2012 Adj.EBITDA
- Target of € 100 mln in FY2013

- Upgrade to € 150m yearly synergies at run-rate
- Restructuring process to be completed within 2014 (run-rate in 2015)

Net Restructuring costs (cash) in the region of € 200 mln over the integration period

Leading

Leading

Leading

Leading

1. Includes: Other Prysmian Energy Business

Transaction Rationale

Creation of a World's Leading Cables & Systems Company

Unique and Highly Complementary Combination, with Increased Coverage of Emerging Markets

Strengthened Leadership in All Value Added Market Segments

Significant Synergy Potential

Strong Platform for Future Organic Growth and Industry Consolidation

Significant Value for All Stakeholders

Creation of a World's Leading Cables & Systems Company

N°1 in cable solutions for the energy and telecommunication business

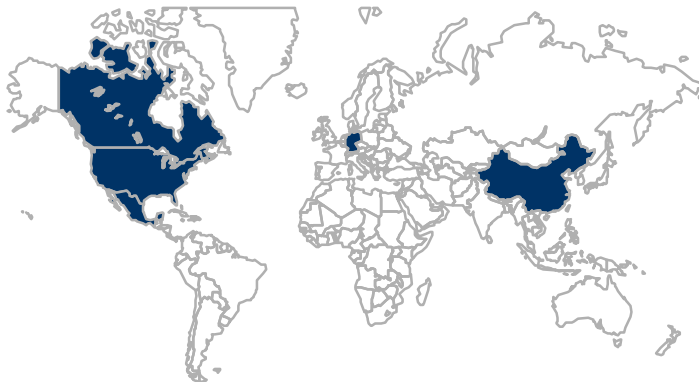

Source: Companies' Annual Reports and Press Releases

Note: Nexans excluding Electrical Wire Segment, General Cable excluding Rod Mill Products, Southwire as of December 2008 (€ 2.0bn sales in 2009), Furukawa considering only Electric Telecommunications and Energy & Industrial Products segments, LTM figures as of 31-Dec-2010, Fujikura including Telecom and Metal Cables & Systems segments, LTM figures as of 31-Dec-2010, Hitachi considered Sales to Customers, including Wires & Cables and Information & Telecom Networking segments, LTM figures as of 31-Dec-2010, LS Cable non-consolidated sales (Cables and Components segments) pro forma for sales of acquired Superior Essex (Communications Cable segment) as of December 2007. All sales are in € based on the average exchange rate of the reference period

Unique and Highly Complementary Combination 1/2

Strengthening Geographical Presence

- Enlarged presence in Industrial cables in key markets of North America, Germany and China

- Improved country mix in Europe as a result of complementary geographical presence; Draka in Northern Europe and Prysmian in Southern Europe

- Increased presence in attractive emerging markets (e.g. China, Middle East, Brazil, ASEAN, India and Russia)

- Increased presence in the Telecom business across EMEA, North and South America and China

Unique and Highly Complementary Combination 2/2

Excellent Business Fit

- The combination will leverage on leading technology in all key cable segments
- Excellent business fit in Energy and Telecom businesses creating leadership positions in high-technology sub-segments

- Leader in Optical Cables with global fiber production facilities
- Access to Draka fiber production technology
- Leading position in Submarine, Underground High Voltage, Wind and Elevator businesses
- Extended product offering and cross selling opportunities in industrial cables portfolio (mining, solar, crane, oil & gas,...)

- Complementary industrial presence to better serve the needs of customer worldwide
- Improved manufacturing footprint will increase service level and op. efficiencies on the T&I segment

- Innovation, basic research
- Concepts identification (process, materials, products, compounds, IT systems)
- Product feasibility
- Prototype realization
- Industrialization
- Product range evolution/development (New Product Introduction)
- Network Diagnosis (T, PD, PMD,...)
- EMF protection
- International Standardization Groups

- Total of **21 R&D excellence centres**, in **10 countries** across the Americas and Western Europe, including **Milan R&D Headquarters** in Italy
- **More than 600 skilled** professionals
- **More than 3,500 patents** granted
- **Over € 60 M invested** in 2010

Prysmian's Offer Creates Value for all Draka's Stakeholders While Preserving the Interests of its Own Shareholders

- Value enhancement for Draka products through the creation of a larger platform with global reach and resources
- Opportunity to take a leading role in the consolidation wave of the industry
- Offer price represents a premium to Draka's market price
- Opportunity to benefit from synergies thanks to the share component of the Offer
- Employees become part of the world leader in the cable industry with enhanced career opportunities

The integration of teams will respect the existing corporate cultures and businesses and will focus on compelling and value creating industrial projects

- Creation of a leader in the cable industry with global presence and strong, sustainable and profitable growth
- Merger of strengths between highly complementary businesses
- Expansion of footprint to attractive emerging markets
- Increase presence in attractive industrial cable market
- Very significant value creation opportunity: synergies at an annual run-rate of approx. €150 million in 2014-2015

Draka – Company Overview

Historical Net Sales and EBITDA^{1,2} (€m)

2010A Net Sales Breakdown

By Business

By Geography

- 9,375 employees as at 2010 year end
- Operating companies in 31 countries throughout Europe, North and South America, Asia and Australia
- Energy & Infrastructure - supplier of cable for construction and utilities market
 - Top 3 position in Europe
 - No.1 in Singapore and Hong Kong
- Industry & Specialty – automotive & aviation, elevator products, wind, mining, crane, oil & gas
 - Market leader in elevator cables in North America with a strong position in Europe and recent entrance in the fast growing Chinese market
 - Leading presence in wind tower business globally
 - World no. 1 independent supplier of advanced automotive cable; principal supplier to Airbus
 - Entrance in the growing energy submarine business
- Communications – optical fiber cable, copper cable, data communication cable, mobile network cable
 - Optical fiber: no. 2 worldwide, no. 1 in Europe and China; no. 1 in optical fiber cable in Europe and also no. 1 in datacom within Europe

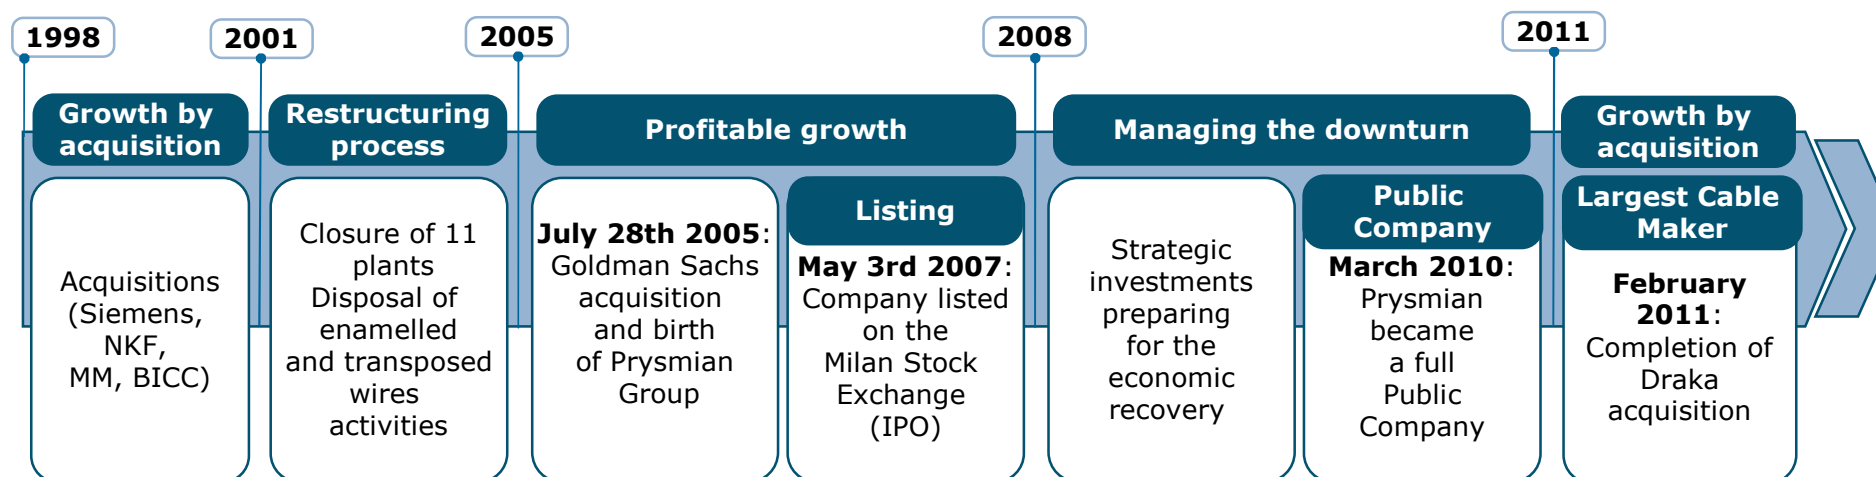

1. Draka's joint ventures Telcon Fios e Cabos Para Telecomunicacoes SA in Brazil (50%), Precision Fiber Optics Ltd. in Japan (50%) and Yangtze Optical Fibre & Cable Co. Ltd. in China (37.5%) have been proportionally consolidated since 1 January 2009. These joint ventures are all part of Draka's Communications Group. All comparative figures for 2008 have been restated accordingly. 2007 data may not be entirely comparable.

2. EBITDA adjusted for non recurring items as reported by Draka.
Note: all figures as reported by Draka pre acquisition

(2) % of Capacity Increase & Product mix

(3) % of Total Capex excluding Submarine

Strong track record in cost optimization

Fixed costs evolution and efficiencies (pre Draka acquisition)

Prysmian Focus on Fixed Costs Reduction (Total Fixed Costs p.a. in €m)

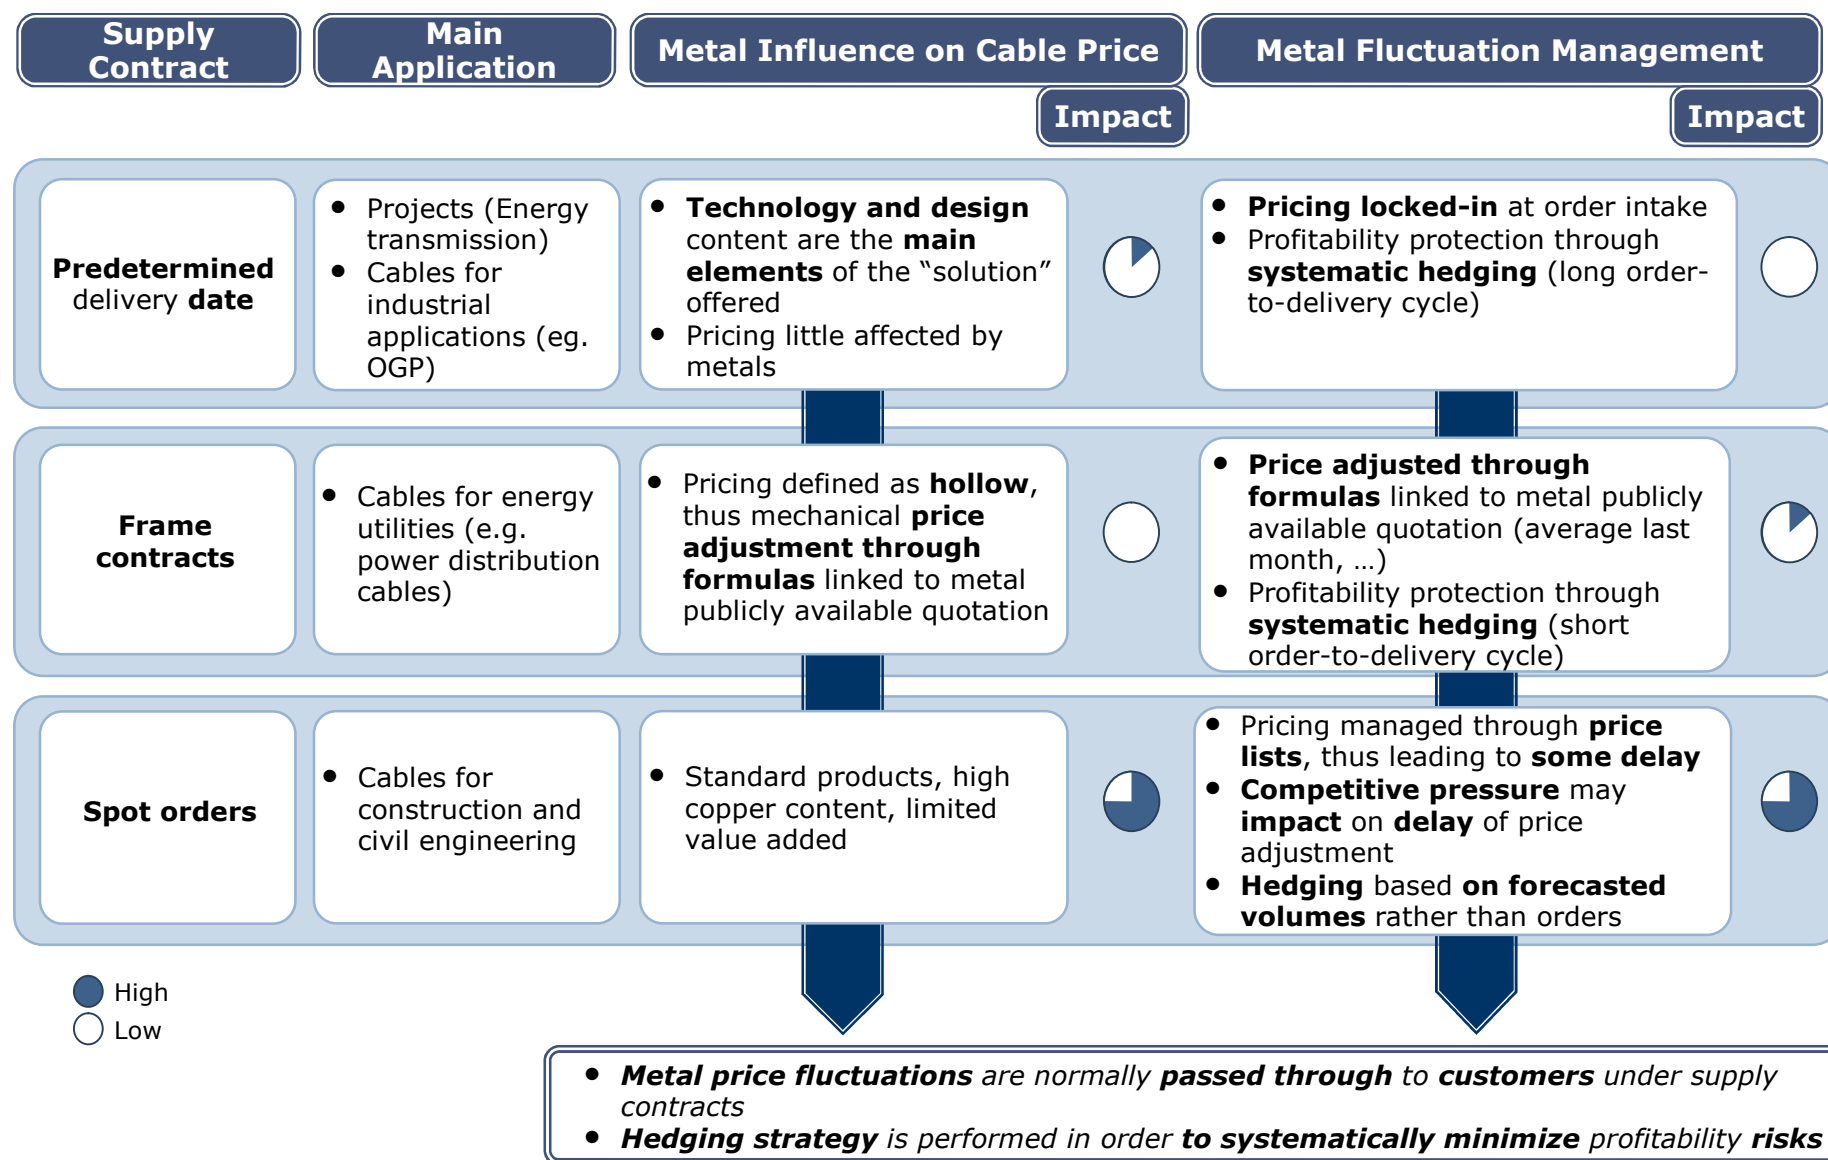

- Continuous optimization of geographical production footprint
- Improve plants productivity through optimized production process
- Lean organizational structure at Headquarter and subsidiaries level

Prysmian Focus on Industrial Efficiencies (Cumulative Gross Efficiencies in €m)

- Continue improving material efficiency, reducing scrap and over-usage
- More effective cable design
- Optimize organization and process to achieve further manpower efficiency
- Reduce impact of other costs (logistic, utilities, maintenance, ...)

Metal Price Impact on Profitability

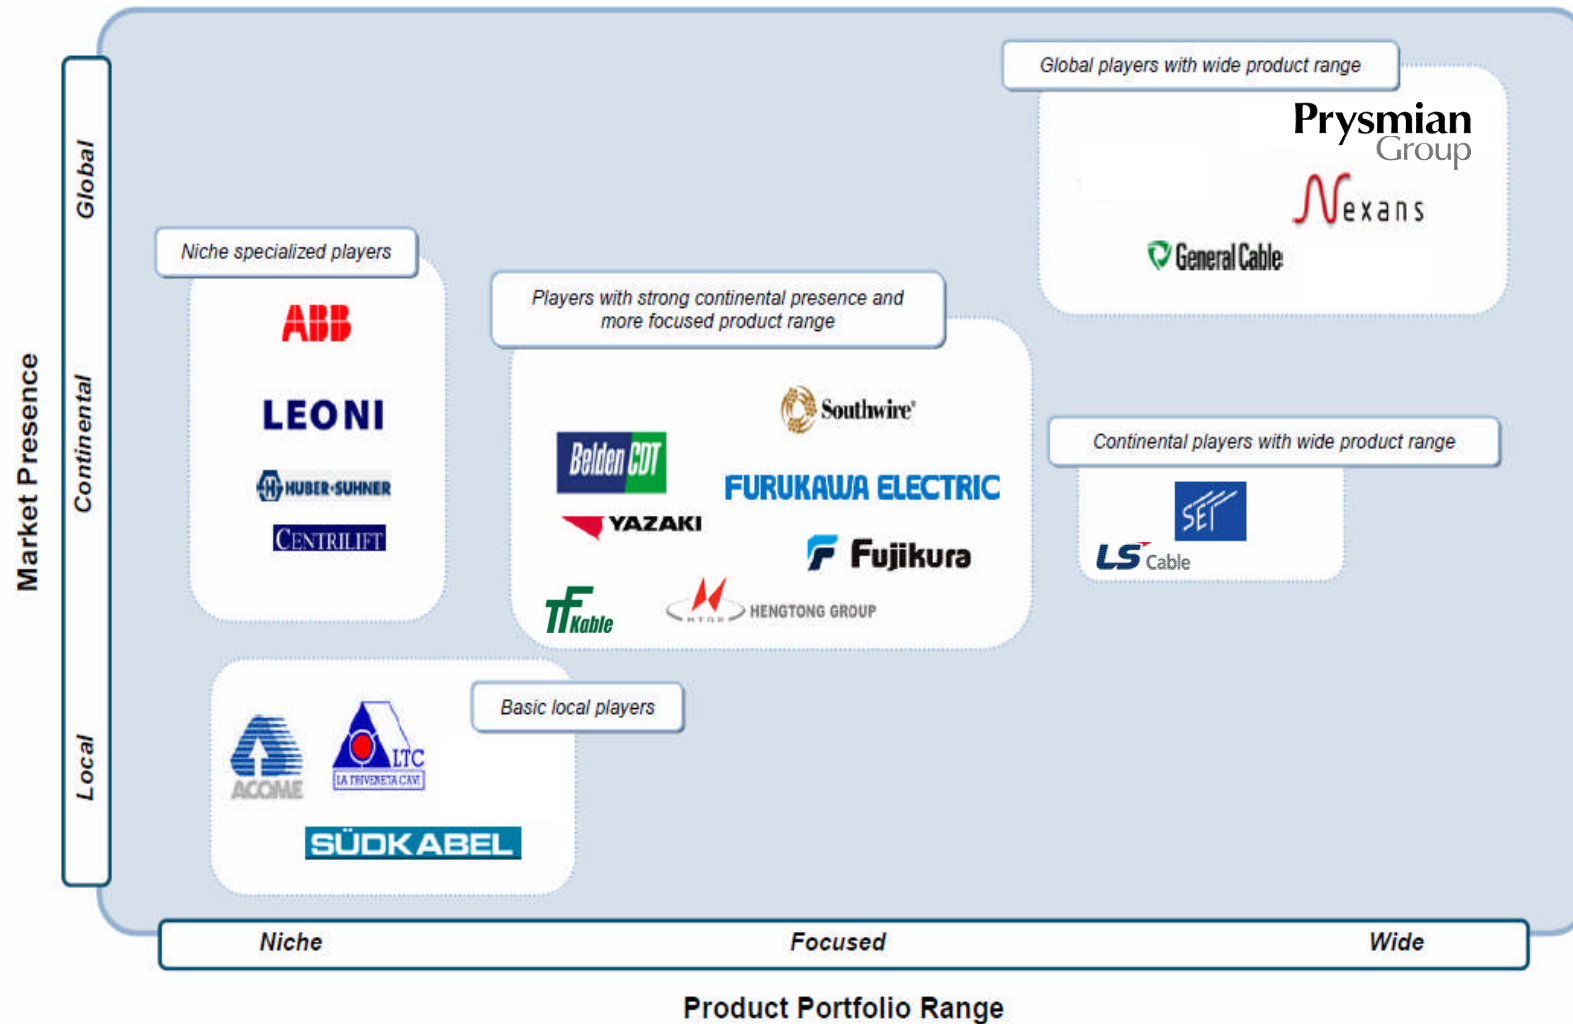

AGENDA

- Group Overview
- Draka integration
- Financial Results
- Appendix - Energy

Clusters of Cable Manufacturers in the Industry

Competitive scenario – Energy Cables

Full package of solutions for Energy Business

Utilities

- **Power Transmission**
 - Underground EHV, HV-DC/AC
 - Submarine (turn-key) EHV-DC/AC (extruded, mass impregnated and SCFF) and MV
- **Power Distribution**
 - LV, MV (P-Laser)
- **Network components**
 - joints, connectors and terminations from LV to EHV

Trade & Installers

- **LV cables for construction**
 - Fire performing
 - Environmental friendly
 - Low smoke-zero halogen (LSOH)
 - Application specific products

Industrial

- **Specialties & OEM** (rolling stock, nuclear, defence, crane, mining, marine, electro medical, railway, other infrastructure)
- **Automotive**
- **OGP & SURF**
- **Renewables**
- **Elevator**
- **Other industrial (aviation, branchment, other)**

Utilities – Power Transmission

Business description

High/extra high voltage power transmission solutions for the utilities sector

- **Underground High Voltage**

Cabling solutions for power plant sites and primary distribution networks

- **Submarine High Voltage**

Turnkey cabling solutions for submarine power transmission systems at depths of up to 2,000 meters

- **Network components**

Joints, connectors and terminations for low to extreme high voltage cables suitable for industrial, building or infrastructure applications and for power transmission and distribution

Key customers

Customer base drawn from all major national distribution networks

Utilities – Submarine Systems

Key success factors

- Track record and reliability
- Ability to design/execute turnkey solution
- Quality of network services
- Product innovation
- State-of-the-art cable laying ship

Action plan

Capacity expansion completed to support growth in 2011-12 (production capacity fully saturated for 2011 and 2012) through:

- Leverage on strong off-shore wind-farms trend
- Secure orders to protect long-term growth
- Focus on flawless execution

Utilities - Leading position in underground HV with a global reach

Utilities – Power Distribution

Market drivers

- Long term growth in electricity consumption
- Mandated improvements in service quality
- Investment incentives to utilities
- Urbanization

Key success factors

- Time to market
- Quality of service
- Technical support
- Cost leadership
- Customer relationship

Key customers

Key customers are all major national distribution network operators

Action plan

- Improve service level and time to market
- Reduce product cost
 - Cable design optimization
 - Alternative materials / compounds introduction
 - Process technologies improvement
- Innovate
 - New insulation materials
 - P-LASER launch in Europe

Trade & Installers

Business description

- Low voltage cables for residential and non residential construction
- Channel differentiation with both:
 - Direct sales to end customers (Installers)
 - Indirect sales through
 - Specialized distributors
 - General distributors
 - Wholesalers
 - Do-it-yourself/modern distribution
- Wide range of products including
 - Value added fire retardant
 - Environmental friendly
 - Specialized products

Key customers

- Key customers include major:
 - Specialized distributors

- General distributors

- Wholesalers

- Installers

Trade & Installers

Key success factors

- Product range
- On-time delivery / Product availability
- Inventory/WC management
- Cost leadership
- Channel management
- Customers' relationship

Action plan

- Continuously redefine product portfolio
 - Focus on high-end products (e.g. Fire Performance)
- Exploit channel/market specificity
 - Focus on wholesalers and installers
 - Protect positioning in high margin countries
 - Grow global accounts
- Continuously improve service level
- Benefit from changes in regulatory regime

Product overview

Industrial

Business description

Integrated cable solutions highly customized to our industrial customers worldwide

Oil & Gas

Addressing the cable needs of research and refining, exploration and production. Products range from low & medium voltage power and control cables to dynamic multi-purpose umbilicals for transporting energy, telecommunications, fluids and chemical products

Renewable

Advanced cabling solutions for wind and solar energy generation contribute to our clients increased efficiency, reliability and safety

Surf (Subsea umbilical, riser and flowline)

SURF provides the flexible pipes and umbilicals required by the petro-chemicals industry for the transfer of fluids from the seabed to the surface and vice versa

Elevator

Meeting the global demand for high-performing, durable and safe elevator cable and components we design manufacture and distribute packaged solutions for the elevator industry

Auto & Transport

Products for trains, automobiles, ships and planes including the Royal Caribbean's Genesis fleet (world's biggest ship) & Alstom designed TGV (world's fastest train)

Specialties & OEM

Products for mining, crane and other niches

Key customers

Large and differentiated customer base generally served through direct sales

Industrial – Off-shore oil exploration

Cross selling opportunities driven by the new Downhole technology business contributed by Draka

Downhole Technology (DHT)

HYBRID ELECTRO-OPTIC

FIBER OPTIC

ELECTRICAL

GAS & FLUID TUBING

PACKAGED GAS & FLUID TUBING

Industrial – Off-shore oil exploration

Oilfield structure

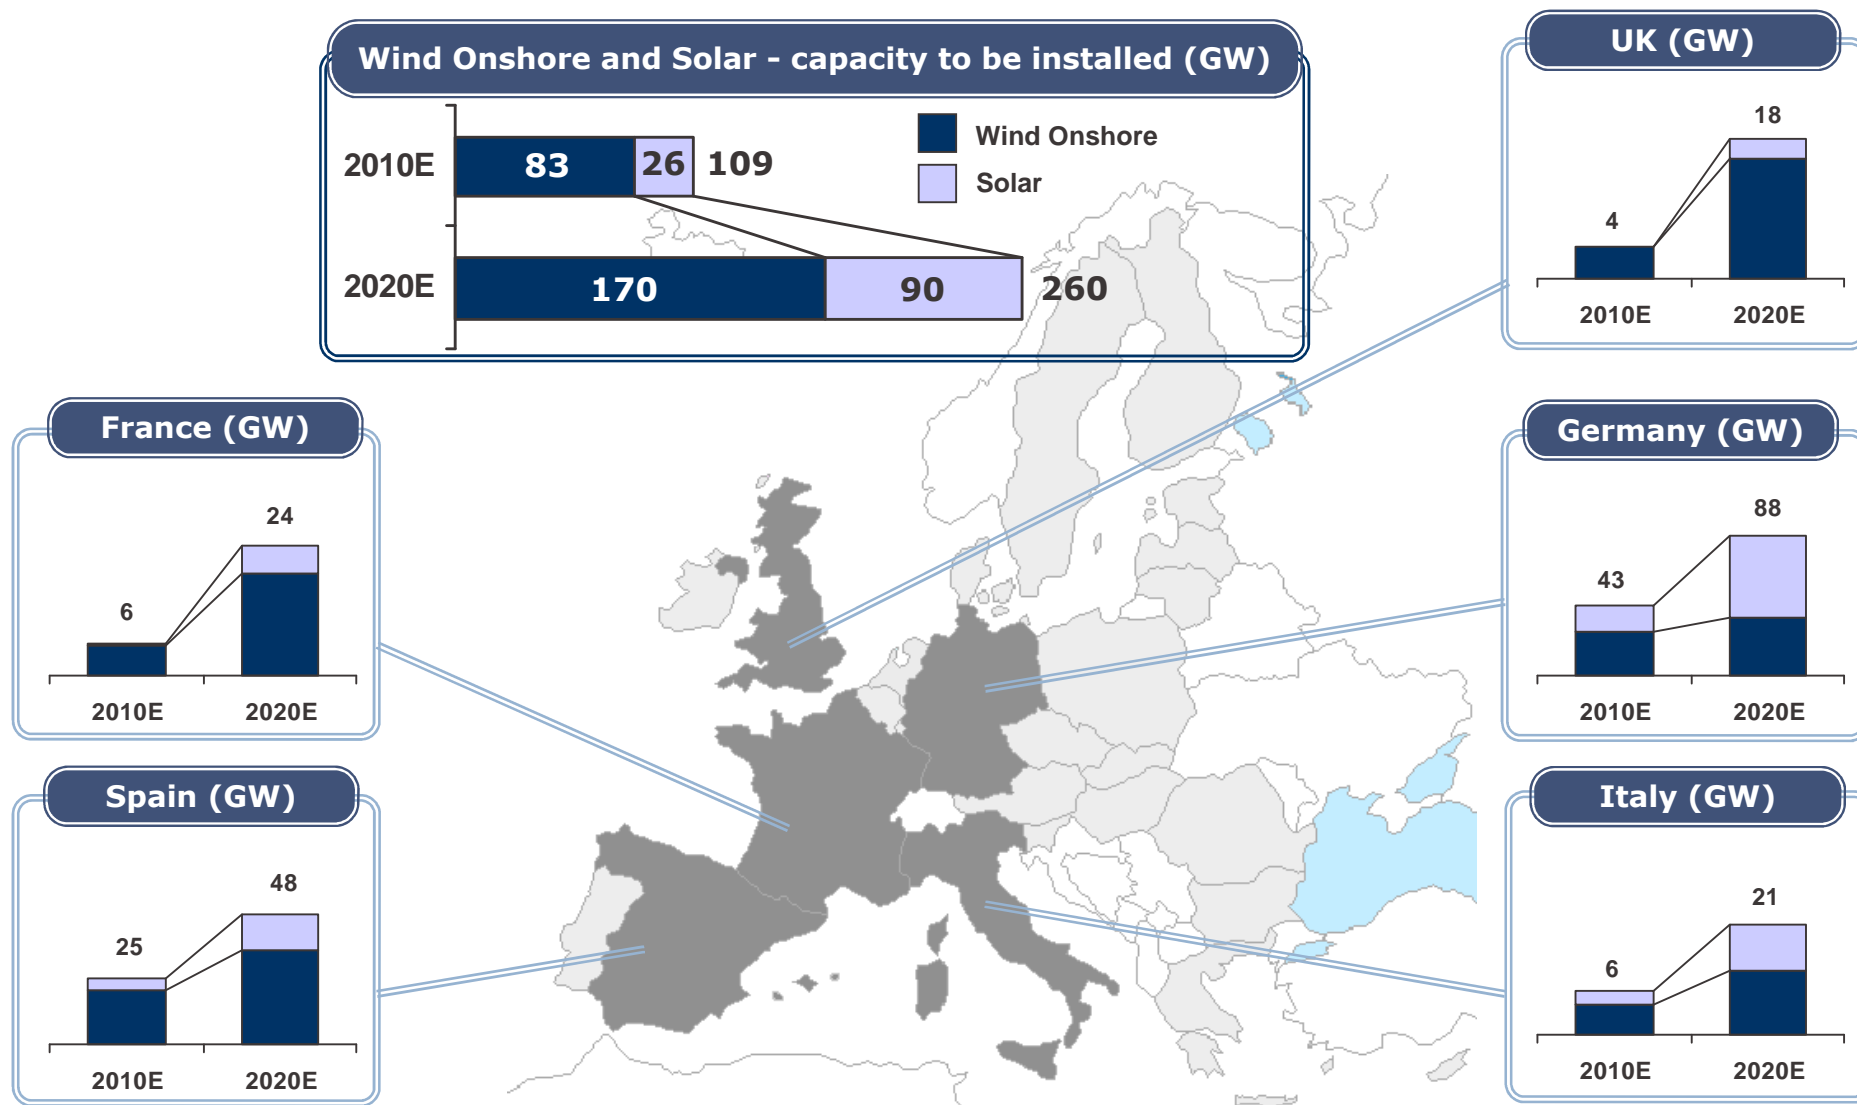

Flexible Pipes

Industrial – 150GW of new Solar and Wind Onshore capacity by 2020

Five major countries accounting for about 75% of total new capacity

Source: National Renewable Energy Action Plans (June 2010)

Note: includes EU-27 countries

Industrial

Leadership in the most promising segment

New Leader in Renewables...

Prysmian Group market share*

...leveraging on global exposure to high growth trend

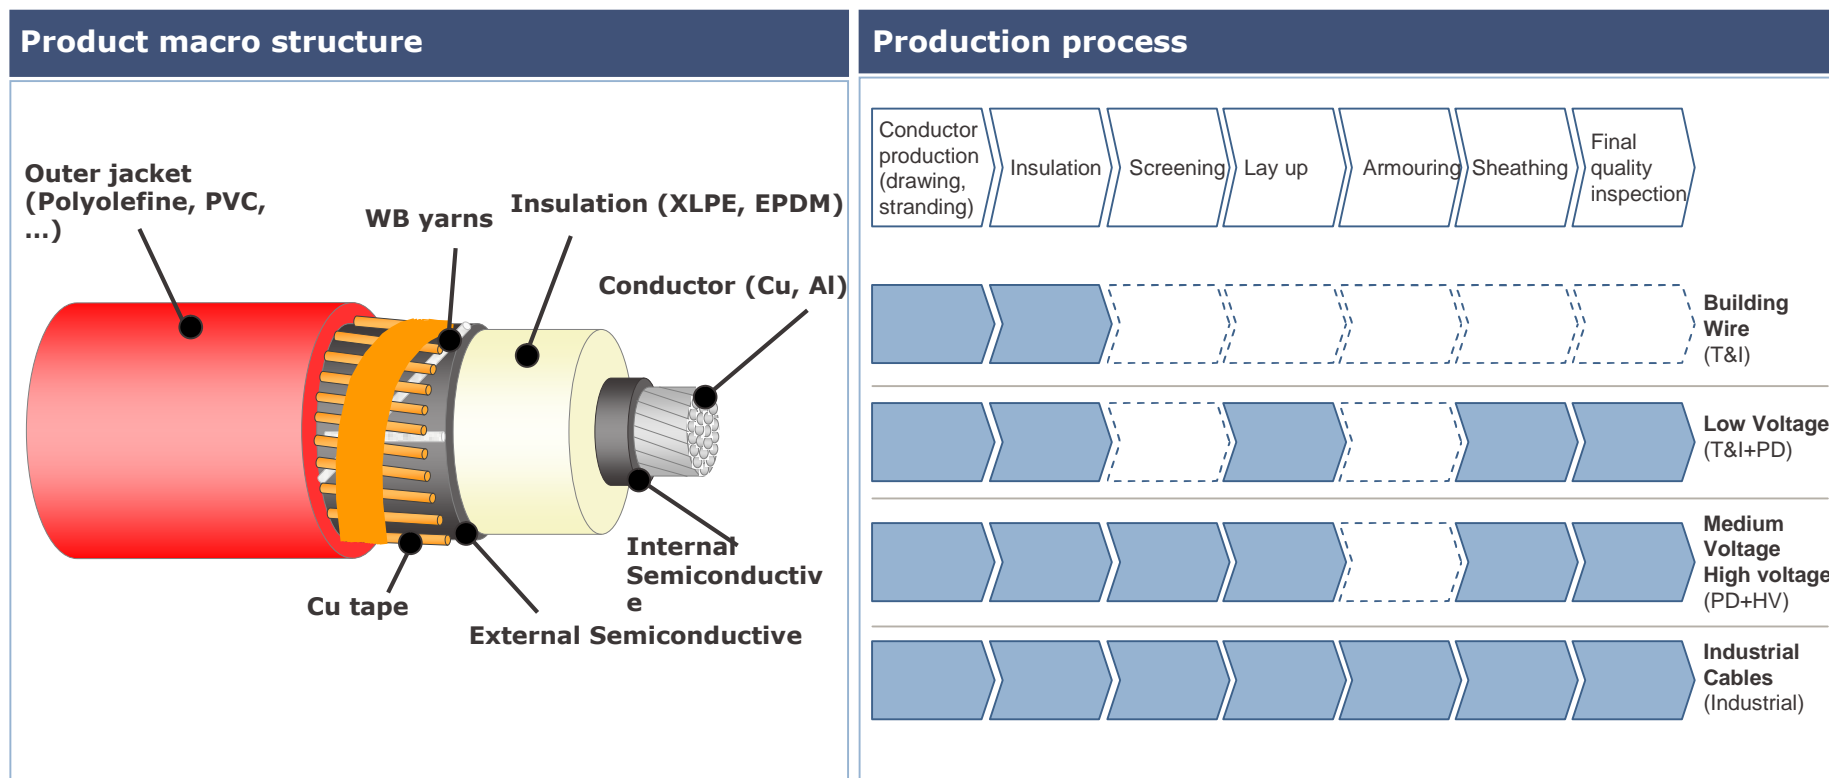

Worldwide annual capacity increase

* Company estimates based on GWEC and EPIA. Market share related to combined Solar and Wind on-shore segments

Macro-structure of Energy Cables

AGENDA

- Group Overview
- Draka integration
- Financial Results
- Appendix - Telecom

Major Players within the Telecom Industry

Competitive scenario

All cable solutions for Telecom Business

Telecom

- **Optical Cables**
- **Connectivity/FTTx passive systems**
- **Optical Fiber**
- **Copper Cables**
- **Multimedia Solutions**
- **Telecom Solutions**

Our Telecom Business

Business description

Integrated cable solutions focused on high -end Telecom

Telecom solutions

Optical cables: tailored for all today's challenging environments from underground ducts to overhead lines, rail tunnels and sewerage pipes

Copper cables: broad portfolio for underground and overhead solutions, residential and commercial buildings

Connectivity: FTTH systems based upon existing technologies and specially developed proprietary optical fibres

MMS

Multimedia specials: solutions for radio, TV and film, harsh industrial environments, radio frequency, central office switching and datacom

Mobile networks: Antenna line products for mobile operators

Railway infrastructure: Buried distribution & railfoot cables for long distance telecommunication and advanced signalling cables for such applications as light signalling and track switching

Optical Fiber

Optical fiber products: single-mode optical fiber, multimode optical fibers and specialty fibers (DrakaElite)

Manufacturing: our proprietary manufacturing process for Plasma-activated Chemical Vapor Deposition and Licensed OVD Technology (600 unique inventions corresponding to > 1.4K patents) positions us at the forefront of today's technology

Key customers

Key customers include key operators in the telecom sector

Optical cables

Global overview

Market trends

- Demand function of level of capital expenditures budgeted by large telecom companies (PTT/incumbents as well as alternative operators) for network infrastructures, mainly as a consequence of:
 - Growing number of internet users
 - Diffusion of broadband services / other high-tech services (i.e. IPTV)

Key success factors

- Continuous innovation and development of new cable & fibre products
- Cable design innovation with special focus on installation cost reduction
- Relentless activity to maintain the highest quality and service level
- Focus on costs to remain competitive in a highly price sensitive environment

Strategic value of fibre

- Fibre optic represents the major single component cost of optical cables
- Fibre optic production has high entry barriers:
 - Proprietary technology or licenses difficult to obtain
 - Long time to develop know-how
 - Capital intensity
- When fibre optic is short, vertically integrated cable manufacturers leverage on a strong competitive advantage

Action plan

- Maintain & reinforce position with key established clients
- Further penetration of large incumbents in emerging regions
- Optimize utilization of low cost manufacturing units
- Expand distribution model in Domestic & Export
- Streamline the inter-company process
- Fully integrated products sales
- Refocus on export activities
- Increase level and effectiveness of agents

Telecom Cables Main Applications

BACKBONE

METROPOLITAN RING

ACCESS NETWORK

Consolidated leadership in Australia to benefit from new NBN project

Start-up of National broadband network in 2011

Rollout plan for National Broadband Network

- Government initiative to provide direct fibre connection to 93% of Australian subscribers (residential and business)
- AUD 43 bn capex planned during the period (2011-2019); construction will begin in 2011
- Telstra and NBN agreed to jointly develop the new network
- Prysmian signed a 5-year agreement with NBN as major supplier of optical cables for the network (AUD 300m)
- Prysmian signed new 4-year frame agreement with Telstra to supply optical and copper cables
- Large part of existing and new Telstra cable infrastructure being used within the NBN network
- Prysmian doubling optical cable capacity in Australian Dee Why site

Asian markets leading Fiber to the home penetration

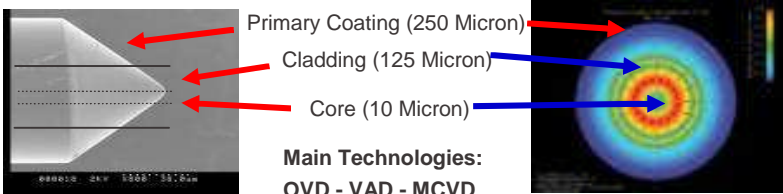

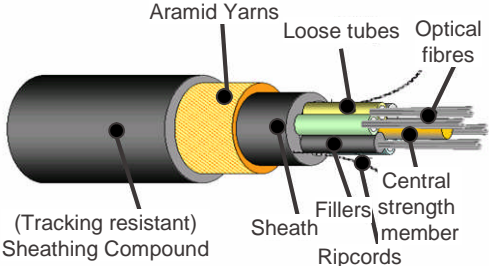

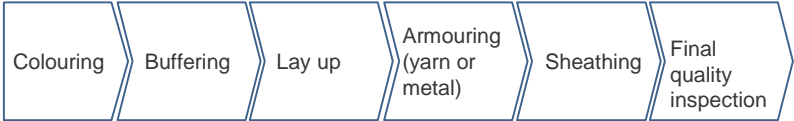

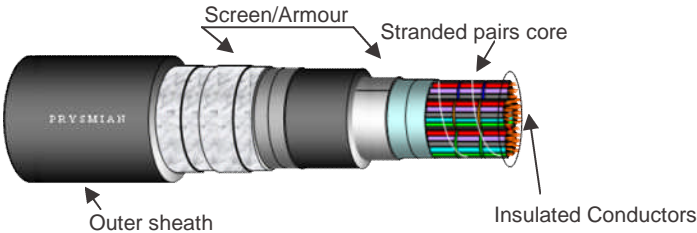

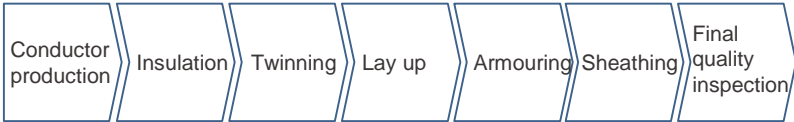

Weak optical cables infrastructure in Europe to drive higher investments by large incumbents

Source: IDATE and FTTH Council (October 2010)

(1) Economies with at least 200,000 households and with greater than 1% household penetration

(4) Net Financial Position to Third Parties YE/ Adj. EBITDA

AGENDA

- Group Overview
- Draka integration
- Financial Results
- Appendix – Cable Industry Reference Scenario

The Global Cables Reference Market

World-Wide Cable Reference Market Size, 2010

Global Cables Reference Market € 91 bn

Energy Cables Reference Market (~€82bn)

Telecom Cables Reference Market (~€9bn)

Optical Cables €5.4bn

Copper Cables €3.6bn

Source: Company analysis based on CRU data- Wire and Cable Quarterly July 2011. Prysmian reference markets are obtained by excluding from the global cable market the segments where the company does not compete (winding wire for the energy sector and internal telecom data and copper LAN cables for the telecom sector). Energy = Low Voltage and Power Cable; TLC = External Copper Tlc Cable, Fibre Optic

Market Volumes Trend

Energy Cables Reference Market

Million Tons
Conductor

• Long term growth driven by:

- Energy consumption
- Investments in power grid interconnections
- Investments in power transmission and distribution
- Infrastructure investments
- Renewable energy

Telecom Cables Reference Market

Optical Fiber Cables

Million Km Fibre

Market growth driven by increased investment in fibre access networks (FTTx) and Next Generation Networks

Copper Cables

Million Km Pair

Declining historical development in copper cables expected to continue

Source: Company analysis based on July '11 CRU data. Energy = Low Voltage and Power Cable; TLC = External Copper Tlc Cable, Fibre Optic.

Telecom – Demand evolution by geographical area

Optical fibre cable (Million km)

CAGR (10-14)
+3.4%
