FOR IMMEDIATE RELEASE

DUPONT FABROS TECHNOLOGY INC. TO PRESENT AT MEF GLOBAL ETHERNET NETWORKING 2014

WASHINGTON, DC – Nov. 20, 2014 – [DuPont Fabros Technology Inc.](http://www.dft.com) (NYSE: DFT), a leading owner, developer, operator and manager of enterprise-class, carrier-neutral, large multi-tenant wholesale data centers, today announced that Vinay Nagpal, Director, Carrier Relations, and Board Liaison and Marketing Committee Chair, Open-IX, will be speaking at the [MEF Global Ethernet Networking 2014 Conference](http://www.gen14.com/).

Nagpal will be speaking as part of a breakfast session providing an Industry Initiatives Update. Topics that the group will discuss include: MEF Wholesale Services, Internet Peering and Interconnection. Nagpal will also discuss the emergence and proliferation of Open-IX, and provide an update on the recent and future Open-IX initiatives. He will be joined on the panel by Stan Hubbard, GEN14 Program Director, and Rami Yaron, Co-Chair, Mobile Backhaul & CE 2.0 Specialist, MEF; Strategy & Development, Telco Systems.

MEF GEN14 is the global gathering of the Carrier Ethernet (CE) community defining the future of network-enabled cloud, data and mobile services powered by the convergence of CE 2.0, software defined networking and virtualization technologies. GEN14 attracts nearly 1,200 participants from more than 360 companies and organizations from around the globe. It is the must-attend networking event of the year for senior professionals involved in the Ethernet services & technology ecosystem that consists of retail, wholesale and mobile service providers; data center providers; cloud service providers; mid to large businesses; government and defense organizations; network solutions vendors; the press; analysts; and others.

- Who: DuPont Fabros Director, Carrier Relations, Vinay Nagpal
- What: MEF Global Ethernet Networking 2014 Conference
- When: Thurs., Nov. 20, 7:30 a.m. EST
