- Offering Price: €37.75 per share, at the top end of the indicative price range
- Full exercise of the increase option
- Total amount of the offering: €1,078 million, representing a public float of approximately 27% of the company's share capital, which may be increased to €1,240 million if the over-allotment option is fully exercised

**Paris, October 23, 2007** – Bureau Veritas, which ranks as the world's second largest group in conformity assessment and certification services in the fields of quality, health and safety, environment, and social responsibility, announces the definitive terms and conditions of its initial public offering on the Eurolist market of Euronext Paris™ (Compartment A, ISIN code FR 0006174348, trading symbol: BVI ).

The initial public offering met with great success with French and international institutional investors as well as with individual private investors. The high level of demand and the high institutional oversubscription rate of over 10 times the base offering allowed the IPO price to be set at the top of the indicative price range and the increase option to be fully exercised. Retail investor demand was also particularly strong with over 140,000 orders. Thus, 10% of the total offering, after exercise of the increase option, was allocated to retail investors.

Trading of Bureau Veritas shares on the Eurolist market of Euronext Paris™ is expected to begin on October 24, 2007, at 10:00 a.m. (Paris time). Settlement and delivery of the shares is expected to take place on October 26.

Frank Piedelièvre, President & Chief Executive Officer of Bureau Veritas, commented on the results of the operation: *"I am particularly happy with the success of the Bureau Veritas IPO and with the strong interest shown by both institutional and retail investors. The listing represents an important phase in the history of Bureau Veritas; it will allow us to increase our growth potential in a sector that is currently in a phase of worldwide consolidation, and allow us to reinforce our visibility to attract new clients and employees as we grow."*
