**“WYNN RESORTS, LIMITED REPORTS FOURTH QUARTER
AND YEAR END 2017 RESULTS**

Net revenues were \$1.69 billion for the fourth quarter of 2017, an increase of 29.9%, or \$388.7 million, from \$1.30 billion for the same period of 2016. The increase in net revenues was the result of increases of \$274.7 million from Wynn Palace and \$120.2 million from Wynn Macau, partially offset by a decrease of \$6.2 million from our Las Vegas Operations.

On a U.S. generally accepted accounting principles (“GAAP”) basis, net income attributable to Wynn Resorts, Limited was \$491.7 million, or \$4.77 per diluted share, for the fourth quarter of 2017, compared to \$113.8 million, or \$1.12 per diluted share, for the same period of 2016. The increase in net income attributable to Wynn Resorts, Limited was primarily the result of the income tax benefit from U.S. tax reform and increases in operating income from Wynn Palace and Wynn Macau, partially offset by a smaller decrease in the Redemption Note fair value.

Adjusted Property EBITDA (2) was \$480.2 million for the fourth quarter of 2017, an increase of 40.9%, or \$139.3 million, from \$340.9 million for the same period of 2016, primarily the result of increases of \$112.6 million from Wynn Palace and \$37.2 million from Wynn Macau, partially offset by a decrease of \$10.5 million from our Las Vegas Operations.

For the full year, net revenues were \$6.31 billion in 2017, an increase of 41.2%, or \$1.84 billion, from \$4.47 billion for the same period of 2016. The increase in net revenues was the result of increases of \$1.56 billion, \$221.7 million and \$62.5 million from Wynn Palace, which opened in August 2016, Wynn Macau and our Las Vegas Operations, respectively.

On a GAAP basis, net income attributable to Wynn Resorts, Limited was \$747.2 million, or \$7.28 per diluted share, in 2017, compared to \$242.0 million, or \$2.38 per diluted share, for the same period of 2016. The increase in net income attributable to Wynn Resorts, Limited was primarily the result of the income tax benefit from U.S. tax reform and increases in operating income from Wynn Palace, Wynn Macau and our Las Vegas Operations, partially offset by increases in the Redemption Note fair value and interest expense as the Company is no longer capitalizing interest on Wynn Palace.

Adjusted Property EBITDA (2) was \$1.81 billion in 2017, an increase of 43.8%, or \$551.4 million, from \$1.26 billion for the same period of 2016. The increase in Adjusted Property EBITDA was the result of increases of \$424.5 million, \$79.2 million, \$47.7 million from Wynn Palace, Wynn Macau and our Las Vegas Operations, respectively.

Non-GAAP Financial Measures

(2) “Adjusted Property EBITDA” is net income before interest, income taxes, depreciation and amortization, pre-opening expenses, property charges and other, management and license fees, corporate expenses and other (including intercompany golf course and water rights leases), stock-based compensation, loss on extinguishment of debt, change in interest rate swap fair value, change in Redemption Note fair value and other non-operating income and expenses, and includes equity in income from unconsolidated affiliates. Adjusted Property EBITDA is presented exclusively as a supplemental disclosure because management believes that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses Adjusted Property EBITDA as a measure of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors, as well as a basis for determining certain incentive compensation. The Company also presents Adjusted Property EBITDA because it is used by some investors as a way to measure a company’s ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDA as a supplement to GAAP. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including Wynn Resorts, Limited, have historically excluded from their EBITDA calculations pre-opening expenses, property charges, corporate expenses and stock-based compensation, that do not relate to the management of specific casino properties. However, Adjusted Property EBITDA should not be considered as an alternative to operating income as an indicator of the Company’s performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure determined in accordance with GAAP. Unlike net income, Adjusted Property EBITDA does not include depreciation or interest expense and therefore does not reflect current or future capital expenditures or the cost of capital. The Company has significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, income taxes and other non-recurring charges, which are not reflected in Adjusted Property EBITDA. Also, Wynn Resorts’ calculation of Adjusted Property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited.
