PRICE SENSITIVE INFORMATION

RESULTS OF OUR CONTROLLING SHAREHOLDER, LAS VEGAS SANDS CORP., FOR THE FISCAL FIRST QUARTER ENDED MARCH 31, 2010

This announcement is issued pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

On or about May 6, 2010 (1:30 p.m. Pacific standard time), our controlling shareholder, Las Vegas Sands Corp. (“LVSC”), announced its financial results for its fiscal first quarter ended March 31, 2010.

This announcement is issued by Sands China Ltd. (“**we**” or our “**Company**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Our Company’s controlling shareholder, LVSC, is a company listed on the New York Stock Exchange (the “**NYSE**”) in the United States. As at the date of this announcement, LVSC beneficially owns approximately 70.3% of the issued and outstanding share capital of our Company.

LVSC files quarterly and annual reports, including quarterly and annual financial information and certain operating statistics under Form 10-Q and Form 10-K, respectively, with the United States Securities and Exchange Commission (the “**SEC**”), in accordance with the ongoing reporting and disclosure obligations applicable to a publicly traded NYSE-listed company. Such filings include segment financial information about the Macao operations of LVSC, which Macao operations are owned by our Company, and the filings are available in the public domain.

LVSC has, on or about May 6, 2010 (1:30 p.m. Pacific standard time), announced its financial results for the fiscal first quarter ended 31 March, 2010 (the “**Quarterly Financial Results**”) and held its First Quarter 2010 Earnings Conference Call (the “**Earnings Call**”). If you wish to review the Quarterly Financial Results prepared by LVSC, which were filed with the SEC, please visit <http://investor.lasvegassands.com/secfiling.cfm?filingID=950142-10-784> or <http://www.sec.gov/Archives/edgar/data/1300514/000095014210000784/0000950142-10-000784-index.htm>.

The financial results of LVSC and its consolidated subsidiaries, including those contained in the Quarterly Financial Results and Earnings Call, have been prepared in accordance with the generally accepted accounting principles of the United States (“**US GAAP**”), which are different from the International Financial Reporting Standards (“**IFRS**”) that we are subject to when preparing and presenting our stand-alone financial results and related financial information. As such, the financial results and related information set forth in the Quarterly Financial Results and Earnings Call is not directly comparable to the financial results and related financial information that our Company discloses as a company listed on the Main Board of The Stock Exchange of Hong Kong Limited. In particular, Average Daily Rate (“**ADR**”) and Revenue Per Available Room (“**RevPAR**”) as presented in the Quarterly Financial Results and Earnings Call are based on gross room revenues as reported under US GAAP, which include associated promotional allowances within room revenues. Under US GAAP, promotional allowances are then deducted from total gross revenues in presenting net revenues. Under IFRS, room revenues exclude such promotional allowances. Our shareholders and potential investors in our ordinary shares are advised that the consolidated financial results and related financial information of LVSC set forth in the Quarterly Financial Results and Earnings Call with respect to our Company’s operating results have not been prepared or presented by our Company, and there is no indication or assurance from our Company that the financial results and related financial information of our Company will be the same as that presented in the Quarterly Financial Results and Earnings Call.

To ensure that all shareholders of, and potential investors in, our Company’s ordinary shares have equal and timely access to the information pertaining to our Company, set forth below are extracts of key highlights of the financial results and related financial information published by LVSC in the Quarterly Financial Results and Earnings Call that relate to our Company and our operations in Macao:

Earnings Call Extracts

Mr. Sheldon G. Adelson, Chairman and Chief Executive Officer of LVSC, announced that:

The strength of our business model in Macao remains on display in our quarterly results. We again generated record Revenues and EBITDA in the quarter and continue to lead the Macao market in EBITDA generation. While total net revenue at our three properties in Macao increased 24% compared to last year's first quarter, adjusted property EBITDA increased 47% across our portfolio of properties in Macao.

At The Venetian Macao, EBITDA for the quarter was US\$170 million dollars, an increase of 40% compared to last year's first quarter. EBITDA margin increased to a quarterly record 30.9%. That financial performance reflects strong revenue growth coupled with our continued focus on efficiency throughout our operations.

The results of the Sands Macao and Four Seasons Hotel Macao and Plaza Casino also reflect these trends. Revenue was up 26% at Sands Macao for the quarter, while EBITDA was up 38%. At The Four Seasons Hotel Macao and Plaza Casino, revenues were up 118% for the quarter, while EBITDA was up 343%.

Our focus on the highly profitable mass gaming, hotel and retail businesses, together with our attention to cost structure and efficiency has allowed us to bring record revenue dollars through to the EBITDA line.

We will recommence construction shortly on parcels 5 and 6, which is our largest Cotai Strip development to date. We believe the 13.3 million square foot integrated resort complex, with its array of world-class attractions and amenities, will broaden the appeal of Macao as an international tourism destination. Importantly, the development will more than double the hotel inventory on the Cotai Strip — that hotel inventory is critical to increasing the competitiveness of Macao as an international MICE destination and enhancing retail growth.

Mr. Michael Leven, President and Chief Operating Officer of LVSC, announced that:

In Macao, we have outstanding organic growth opportunities in the gaming, hotel, MICE and retail areas. We will also significantly expand our asset base in Macao with the debut of Parcels 5 and 6 on the Cotai Strip.

The Venetian Macao remains the market leader in mass play in Macao, delivering non-rolling drop of US\$922 million dollars and record slot handle of US\$670 million dollars for the quarter.

The trend of high hold at The Venetian Macao on Non-rolling play continued last quarter and also occurred in April. We believe these higher hold rates at The Venetian Macao on non-rolling play, which are impacted by many factors including the length of play, the customer profile, and the mix of games on the Venetian floor, should continue in the foreseeable future.

Our contribution to EBITDA at The Venetian Macao continues to reflect our strategy. For every dollar of EBITDA generated at the property during the quarter, nearly 60% was produced by less volatile, higher margin mass gaming and slot play; over 25% was generated from non-gaming areas — including our hotel, convention, banquet and retail operations; and less than 15% was contributed by the more variable, lower margin VIP rolling play segment.

We remain focused on developing and growing our premium direct business, which is the higher margin segment of VIP rolling play. Our direct VIP play at The Venetian Macao grew to US\$2.1 billion dollars, or approximately 21% of the more than US\$10 billion dollars of rolling volume during the quarter. At the Four Seasons Hotel Macao and Plaza Casino, total rolling volume was US\$3.7 billion dollars, with direct VIP rolling business growing to US\$1.6 billion, or 43% of that total.

Looking ahead, we remain confident that the development of additional destinations on the Cotai Strip will expand the market, driving greater mass play, hotel and retail revenues to our current and future properties.

The Sands remains both a cash cow and a market leader in mass play on the Macao peninsula. EBITDA increased 38% to US\$70 million dollars for the quarter. EBITDA margin improved to 24.6% this quarter, compared to 22.4% in last year's first quarter.

Mr. Kenneth J. Kay, Senior Vice President and Chief Financial Officer of LVSC, announced that:

Approximately \$400 million in additional equity contributions will be made toward the development of parcels 5 and 6 on the Cotai Strip in Macao.

In addition, we expect to close later this month the previously announced US\$1.75 billion dollar credit facility to fund construction of parcels 5 and 6 in Macao. The US\$400 million in equity and the project financing together are sufficient to complete the first two phases of that development, which will feature approximately 6,000 hotel rooms and all the major cash flow generating components of the development.

For the Venetian Macao Restricted Group at March 31, 2010, our trailing twelve months EBITDA for compliance purposes was US\$1.0 billion, total gross debt at the Venetian Macao Restricted group was US\$2.6 billion, and our leverage ratio was 2.6 X (times), compared to a maximum leverage covenant of 4.0 X (times).

Please see below further highlights from the Questions and Answers session of the Earnings Call:

In response to a question concerning casino receivables, Mr. Kay commented that the Company had approximately US\$190 million in casino receivables as of March 31, 2010, against which the Company is holding a 23% reserve for doubtful accounts.

In response to a question concerning the Apart-Hotel Tower at the Plaza Macao, Mr. Adelson reconfirmed the Company's intention to begin to monetize this asset as and when possible, subject to obtaining necessary approvals, at a price of up to US\$1,750 per square foot.

Forward-Looking Statements

This announcement contains forward-looking statements. Forward-looking statements involve a number of risks, uncertainties or other factors beyond the Company's control, which may cause material differences in actual results, financial performance or our expectations for future results.
