ANZ launches Convertible Preference Share Offer

ANZ has lodged a Prospectus with the Australian Securities and Investments Commission for an offer of convertible preference shares (**CPS2**) to raise \$750 million with the ability to increase or reduce the size of the offer.

The Offer forms part of ANZ's diversified capital management strategy and follows reductions in Tier 1 capital following hybrid capital redemptions and notices of redemption totaling approximately \$1 billion over the past six months. Prior to this Offer, hybrid capital, both innovative and non-innovative, constituted approximately 14% of ANZ's Net Tier 1 capital compared to the 25% maximum imposed by the Australian Prudential Regulatory Authority (**APRA**).

Key Features of CPS2

- CPS2 will qualify as non-innovative Tier 1 capital under current APRA rules.
- CPS2 are preference shares issued by ANZ, which will Convert into Ordinary Shares on 15 December 2016 (subject to certain conditions being satisfied), unless ANZ elects for a third party to purchase the CPS2 or they are exchanged earlier.
- Dividends on CPS2 are preferred, non-cumulative, based on a floating rate and expected to be fully or substantially franked. Dividends are scheduled to be paid quarterly in arrears, subject to the Payment Tests.
- The Dividend Rate will be calculated each quarter as the sum of the Bank Bill Rate plus the Margin, together multiplied by $(1 - \text{corporate tax rate (which is currently 30\%)})$. The Margin will be determined following the Bookbuild (17 November 2009) and is expected to be in the range of 3.10% to 3.30%.
- On 15 December 2016, CPS2 Holders will receive a variable number of Ordinary Shares on Conversion unless the Mandatory Conversion Conditions are not satisfied or ANZ elects for a third party to purchase the CPS2.
- CPS2 have been assigned an indicative credit rating of A+ by Standard & Poor's.
- ANZ will apply for CPS2 to be quoted on the Australian Securities Exchange (**ASX**) and are expected to trade under ASX code 'ANZPA'.

The Offer is expected to open on 18 November 2009 and comprises:

- an ANZ Securityholder Offer, open to Australian resident holders of Ordinary Shares or convertible preference shares issued by ANZ in September 2008 (**2008 CPS**) on the Register at 7.00pm (Melbourne time) on Friday 30 October 2009;
- a General Offer, open to Australian residents who are neither an ANZ Securityholder Applicant, Broker Firm Applicant nor Institutional Investor;
- a Broker Firm Offer, open to clients of Syndicate Brokers invited to participate through the Broker Firm Offer; and
- an Institutional Offer, open to investors that have been invited by the Joint Lead Managers to bid for CPS2 through the Institutional Offer.

KEY FEATURES OF CPS2

This Prospectus contains information about the offer by ANZ of CPS2 and you should read it in its entirety before deciding whether to apply for CPS2.

CPS2 are preference shares issued by ANZ, which will Mandatorily Convert into Ordinary Shares on 15 December 2016 (subject to certain conditions being satisfied). However, ANZ may elect for a third party to purchase the CPS2 (as described below) rather than delivering the Ordinary Shares issued on Conversion to the investor.

CPS2 are being offered as part of ANZ's capital management strategy, with the CPS2 proceeds being used for general corporate purposes.

FLOATING RATE DIVIDENDS

- Dividends on CPS2 are preferred, non-cumulative, based on a floating rate and are expected to be fully or substantially franked. Dividends are scheduled to be paid quarterly in arrears, subject to the Directors at their absolute discretion resolving to pay Dividends and the other Payment Tests.
- The Dividend Rate will be calculated each quarter as the sum of the Bank Bill Rate plus the Margin, together multiplied by $(1 - \text{Tax Rate})$. The Margin will be determined following the Bookbuild.

MANDATORY CONVERSION OR RESALE

- On 15 December 2016, CPS2 Holders will receive a variable number of Ordinary Shares on Conversion unless the Mandatory Conversion Conditions are not satisfied or ANZ elects for a third party to purchase the CPS2 for \$100.
- The Mandatory Conversion Conditions are intended to prevent CPS2 Holders from receiving less than approximately \$101.01 worth of Ordinary Shares per CPS2 on Conversion based on the average of the daily volume weighted average sale prices of Ordinary Shares sold on ASX during the 20 Business Days before the Mandatory Conversion Date.³ ANZ may, with APRA's prior written approval, elect to Redeem CPS2 for \$100 if any of the Mandatory Conversion Conditions are not satisfied.

EXCHANGE

- CPS2 may, subject to APRA's prior written approval where required, be Exchanged by ANZ at its election at certain times before 15 December 2016 if an Acquisition Event, a Tax Event or a Regulatory Event occurs. CPS2 must, subject to APRA's prior written approval where required, be Exchanged if a Change of Control Event occurs.

LISTING

- ANZ will apply for CPS2 to be quoted on ASX and are expected to trade under ASX code "ANZPA".

CREDIT RATING

- CPS2 have been assigned an indicative investment grade Issue Credit Rating of "A+" by Standard & Poor's.⁴

RANKING

- On a winding up of ANZ, CPS2 rank for payment ahead of Ordinary Shares, equally with the 2008 CPS, equally with the preference shares comprised in the 2003 Trust Securities, the 2004 Trust Securities and the 2007 Stapled Securities and equally with any other equal ranking instruments, but behind all senior ranking securities or instruments, and all depositors and other creditors of ANZ.

There are risks associated with investing in CPS2 and in ANZ. The key risks are summarised in Section 1.8 and risks generally are explained in detail in Section 4.

³ This VWAP may differ from the Ordinary Share price on or after the Mandatory Conversion Date. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

⁴ Standard & Poor's has indicated that it will rate CPS2 "A+" upon issue. Any Issue Credit Rating of "BBB-" or higher from Standard & Poor's is currently considered in capital markets to be investment grade – see Section 3.5 for further information about the credit ratings associated with ANZ and CPS2 and Section 4.1.15 for risks associated with credit ratings. The above Issue Credit Rating is current as at the date of this Prospectus, but may be revised, withdrawn or suspended by Standard & Poor's at any time. The Issue Credit Rating is not a recommendation by Standard & Poor's to apply for CPS2. No consent has been obtained from Standard & Poor's for the disclosure of the credit ratings in this Prospectus and it is not liable for any statements in this Prospectus under section 729(1) of the Corporations Act. As at the date of this prospectus, ANZ has not sought a rating of CPS2 from any other rating agency.

Subject to APRA's prior written approval where required, ANZ may also elect to Exchange CPS2 prior to 15 December 2016 in certain circumstances and must do so where a Change of Control Event occurs.	Clauses 4, 5 and 6 of the CPS2 Terms

1.1 GENERAL (CONT)		
1.1.7 How do CPS2 rank in relation to other ANZ instruments?	For the payment of Dividends, CPS2 rank ahead of Ordinary Shares and rank equally with the 2008 CPS, equally with the preference shares comprised in the 2003 Trust Securities, the 2004 Trust Securities and the 2007 Stapled Securities and equally with any other equal ranking instruments, but behind all senior ranking securities or instruments, and all depositors and other creditors. On a winding up of ANZ, CPS2 rank for payment ahead of Ordinary Shares, equally with the 2008 CPS, equally with the preference shares comprised in the 2003 Trust Securities, the 2004 Trust Securities and the 2007 Stapled Securities and equally with any other equal ranking instruments, but behind all senior ranking securities or instruments, and all depositors and other creditors.	Clauses 10.1 and 10.2 of the CPS2 Terms
1.1.8 Will CPS2 be quoted on ASX?	ANZ will apply for CPS2 to be quoted on ASX and are expected to trade under ASX code "ANZPA".	Section 2.6.1
1.1.9 What is the Issue Credit Rating of CPS2?	CPS2 have been assigned an indicative Issue Credit Rating of "A+" by Standard & Poor's. Standard & Poor's has indicated that it will rate CPS2 "A+" upon issue. Any Issue Credit Rating of "BBB-" or higher from Standard & Poor's is currently considered in capital markets to be investment grade.	Sections 3.5 and 4.1.15
1.1.10 Are CPS2 guaranteed by the Australian Government?	No. CPS2 are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction. CPS2 do not represent deposits of ANZ and are not protected accounts for the purposes of the Financial Claims Scheme.	
1.1.11 What is Non-innovative Residual Tier 1 Capital?	Under APRA's capital adequacy standards for banks, Tier 1 Capital consists of Fundamental Tier 1 Capital and Residual Tier 1 Capital (divided into innovative and non-innovative) less Tier 1 Capital Deductions. Under these APRA standards, mandatory convertible preference shares can qualify as Non-innovative Residual Tier 1 Capital if certain requirements are met. APRA has confirmed that CPS2 will be treated as Non-innovative Residual Tier 1 Capital under the capital adequacy standards.	
1.1.12 What are the taxation implications of investing in CPS2?	The taxation implications of investing in CPS2 will depend on an investor's individual circumstances. Prospective investors should obtain their own taxation advice. A general outline of the Australian taxation implications is included in the Taxation Summary in Section 5.	Section 5

1.2 DIVIDENDS												
1.2.1 What are Dividends?	Dividends on CPS2 are preferred, non-cumulative, based on a floating rate, subject to certain Payment Tests, and expected to be fully or substantially franked. Accordingly, CPS2 Holders are expected to receive a combination of cash Dividends and franking credits. The value and availability of franking credits to a CPS2 Holder will differ depending on the CPS2 Holder's particular tax circumstances. Each CPS2 Holder will only receive the benefit of the franking credits where those credits are able to be claimed in the CPS2 Holder's tax return. Dividends are scheduled to be paid quarterly in arrears on the Dividend Payment Dates, subject to the Payment Tests – see Section 1.2.7. If any Dividend is not franked or only partially franked, the amount of the Dividend will be increased to compensate for the unfranked component, subject to the Payment Tests. Dividends are non-cumulative. If a Dividend or part of a Dividend is not paid on a Dividend Payment Date, CPS2 Holders have no claim or entitlement in respect of non-payment nor any right to receive that Dividend at any later time (however, the Distribution Restriction may apply in this scenario – see Section 1.2.8).	Clause 3 of the CPS2 Terms										
1.2.2 How will the Dividend Rate be calculated?	The Dividend Rate for each Dividend Period will be set on the first Business Day of each Dividend Period and will be calculated using the following formula: Dividend Rate = (Bank Bill Rate + Margin) x (1 – Tax Rate) where: Bank Bill Rate means the Bank Bill Rate on the first Business Day of the Dividend Period – see Section 1.2.5; Margin will be determined under the Bookbuild. The Margin is expected to be in the range of 3.10% and 3.30% per annum; and Tax Rate is the Australian corporate tax rate applicable to the franking account of ANZ as at the relevant Dividend Payment Date. As at the date of this Prospectus, the relevant rate is 30%. As an example, assuming the Bank Bill Rate on the first Business Day of the Dividend Period is 3.9550% per annum and the Margin is 3.2000% per annum, then the Dividend Rate for that Dividend Period will be calculated as follows: <table><tr><td>Bank Bill Rate</td><td>3.9550% per annum</td></tr><tr><td>Plus the Margin</td><td>+ 3.2000% per annum</td></tr><tr><td>Equivalent unfranked dividend rate</td><td>7.1550% per annum</td></tr><tr><td>Multiplied by (1 – Tax Rate)</td><td>x 0.70</td></tr><tr><td>Indicative fully franked Dividend Rate</td><td>5.0085% per annum</td></tr></table>	Bank Bill Rate	3.9550% per annum	Plus the Margin	+ 3.2000% per annum	Equivalent unfranked dividend rate	7.1550% per annum	Multiplied by (1 – Tax Rate)	x 0.70	Indicative fully franked Dividend Rate	5.0085% per annum	Clause 3.1 of the CPS2 Terms

1.2 DIVIDENDS (CONT)										
1.2.3 How will the Dividend be calculated for each Dividend Period?	Dividends scheduled to be paid on each Dividend Payment Date will be calculated using the following formula: $\text{Dividend} = \frac{\text{Issue Price} \times \text{Dividend Rate} \times \text{N}}{365}$ where: Issue Price means \$100 per CPS2; and Dividend Rate means the rate (expressed as a percentage per annum) calculated as set out in Section 1.2.2; N means the number of days in the Dividend Period calculated as set out in the CPS2 Terms. As an example, if the fully franked Dividend Rate was 5.0085% per annum, then the Dividend on each CPS2 for that Dividend Period (if the Dividend Period was for 91 days) would be calculated as follows: <table><tr><td>Indicative fully franked Dividend Rate</td><td>5.0085% per annum</td></tr><tr><td>Multiplied by the Issue Price</td><td>x \$100.00</td></tr><tr><td>Multiplied by the number of days in the Dividend Period¹²</td><td>x 91</td></tr><tr><td>Divided by 365</td><td>÷ 365</td></tr></table> Indicative fully franked Dividend payment for the Dividend Period per CPS2 \$1.2487 The above example is for illustrative purposes only and does not indicate, guarantee or forecast the actual Dividend payable for any Dividend Period. Actual Dividends may be higher or lower than this example. The Dividend Rate for the first Dividend Period will be set on the Issue Date and will include the Margin as determined under the Bookbuild. For the purposes of calculating the first Dividend, there are 88 days in the first Dividend Period. Dividends will be paid in Australian dollars by direct credit into an Australian dollar account (excluding credit card accounts) of an Australian financial institution nominated by the CPS2 Holder or in any other manner determined by the Directors in accordance with the Constitution. Multiplied by the number of days in the Dividend Period ¹²	x 91									
Divided by 365	÷ 365									

¹² Dividend Periods will generally contain 90–92 days with the exception of the first Dividend Period which will contain 88 days.

1.2 DIVIDENDS (CONT)		
1.2.4 What is the impact of franking credits?	Dividends are expected to be fully or substantially franked and, accordingly, CPS2 Holders are expected to receive a combination of cash Dividends and franking credits. The franking credits represent the CPS2 Holder's share of tax paid by ANZ on the profits from which the cash Dividend is paid. If the potential value of the franking credits is taken into account in full, the fully franked Dividend Rate of 5.0085% per annum in the example on Section 1.2.3 would be equivalent to an unfranked dividend rate of approximately 7.1550% per annum. However, CPS2 Holders should be aware that the potential value of any franking credits does not accrue at the same time as the receipt of any cash Dividend. CPS2 Holders should also be aware that the ability to use the franking credits, either as an offset to a tax liability or by claiming a refund after the end of the income year, will depend on the individual tax position of each CPS2 Holder. CPS2 Holders should refer to the Taxation Summary in Section 5 and seek professional advice in relation to their tax position.	Section 5
1.2.5 What is the Bank Bill Rate?	The Bank Bill Rate is a benchmark interest rate for the Australian money market, commonly used by major Australian financial institutions to lend short-term cash to each other over a 90 day period. This rate changes to reflect the supply and demand within the cash market. The graph below illustrates the movement in the Bank Bill Rate over the last 10 years. The rate on 6 November 2009 was 3.9550% per annum. 90 DAY BANK BILL RATE FROM 6 NOVEMBER 1999 TO 6 NOVEMBER 2009  The above graph is for illustrative purposes only and does not indicate, guarantee or forecast the actual Bank Bill Rate. The actual Bank Bill Rate for the first and subsequent Dividend Periods may be higher or lower than the rates in the above graph.	Clause 3.1 of the CPS2 Terms

1.2 DIVIDENDS (CONT)		
1.2.6 When are the Dividend Payment Dates?	Subject to the Payment Tests, Dividends are payable quarterly in arrears on the Dividend Payment Dates. The first Dividend Payment Date is 15 March 2010. Subsequent Dividend Payment Dates occur on 15 June, 15 September, 15 December and 15 March each year, subject to adjustment for Business Days. If any of these dates are not Business Days, then the Dividend Payment Date will occur on the next Business Day.	Clause 3.5 of the CPS2 Terms
1.2.7 What are the Payment Tests?	Dividends may not always be paid. The payment of each Dividend is subject to the following Payment Tests being satisfied: ■ the Directors, at their absolute discretion, resolving to pay that Dividend; ■ unless APRA otherwise approves in writing: ■ such payment of the Dividend does not result in the Prudential Capital Ratio or the Tier 1 Capital Ratio of ANZ (on a Level 1 basis) or of the Group (on a Level 2 basis or, if applicable, Level 3 basis) not complying with APRA's then current capital adequacy guidelines as they are applied to ANZ or the Group (as the case may be) at the time; and ■ the amount of the Dividend does not exceed Distributable Profits; ■ such payment does not result in ANZ becoming, or likely to become, insolvent for the purposes of the Corporations Act; and ■ APRA does not otherwise object to the payment of the Dividend.	Clauses 3.3 and 19.2 of the CPS2 Terms
1.2.8 What is the Distribution Restriction and when will it apply?	If for any reason a scheduled Dividend has not been paid in full within 21 Business Days of the relevant Dividend Payment Date, ANZ must not, subject to certain exceptions, without approval of a Special Resolution: ■ declare or pay a dividend or make any distribution on any capital instruments of ANZ which rank equally with or junior to CPS2 for distributions; or ■ redeem, buy back or reduce capital on any capital instruments of ANZ which rank equally with or junior to CPS2 for a return of capital in a winding up, unless: ■ consecutive Dividends scheduled to be payable on CPS2 on the Dividend Payment Dates falling during the 12 months after the Dividend Payment Date of the Dividend that has not been paid have been paid in full; ■ with the prior written approval of APRA, an Optional Dividend has been paid to CPS2 Holders equal to the aggregate unpaid amount of any unpaid Dividends which were scheduled to be paid in the 12 months prior to the date of payment of the Optional Dividend; or ■ all CPS2 have been Redeemed or Converted.	Clauses 3.8 and 3.9 of the CPS2 Terms

1.3 MANDATORY CONVERSION		
1.3.1 What is Mandatory Conversion?	Investors will receive Ordinary Shares on Conversion of the CPS2 on the earliest Mandatory Conversion Date unless the Mandatory Conversion Conditions are not satisfied or Resale occurs. Upon Conversion, CPS2 Holders will receive approximately \$101.01 worth of Ordinary Shares per CPS2 based on the VWAP during the 20 Business Days before the Mandatory Conversion Date.¹³	Clauses 4 and 7 of the CPS2 Terms
1.3.2 What is Resale?	Before a possible Mandatory Conversion Date, ANZ may choose to arrange that all CPS2 on issue be acquired from CPS2 Holders by a third party (a Nominated Purchaser) on the possible Mandatory Conversion Date. The obligation of the Nominated Purchaser to pay the purchase price may be subject to conditions. ANZ will reasonably endeavour to minimise these conditions but gives no assurance as to the details of any such conditions. This process is called Resale. Resale can occur whether or not the Mandatory Conversion Conditions are satisfied. If Resale is chosen by ANZ, CPS2 Holders will be notified and on the possible Mandatory Conversion Date they will receive \$100 from the Nominated Purchaser for each CPS2 rather than Ordinary Shares from ANZ. If the Nominated Purchaser does not pay the purchase price to CPS2 Holders, the Resale of the relevant CPS2 will not occur, CPS2 will not Convert and CPS2 Holders will continue to hold CPS2 until CPS2 are otherwise Redeemed, Converted or Resold in accordance with the CPS2 Terms. If Resale does not occur, ANZ may, subject to APRA's prior written approval, elect to Exchange all of the relevant CPS2 on issue no later than 45 Business Days after the possible Mandatory Conversion Date.	Clauses 4.7 and 9 of the CPS2 Terms
1.3.3 When is the Mandatory Conversion Date?	The Mandatory Conversion Date is 15 December 2016 provided that all of the Mandatory Conversion Conditions are satisfied (see Section 1.3.4). If any of the Mandatory Conversion Conditions are not satisfied with respect to 15 December 2016, then the Mandatory Conversion Date will be deferred until the next Dividend Payment Date in respect of which all of the Mandatory Conversion Conditions are satisfied.	Clause 4 of the CPS2 Terms

¹³ The VWAP during the 20 Business Days before the Mandatory Conversion Date that is used to calculate the number of Ordinary Shares that CPS2 Holders receive may differ from the Ordinary Share price on or after the Mandatory Conversion Date. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

1.3 MANDATORY CONVERSION (CONT)		
1.3.4 What are the Mandatory Conversion Conditions?	The Mandatory Conversion Conditions are as follows: First Mandatory Conversion Condition: the VWAP on the 25th Business Day before (but not including) a possible Mandatory Conversion Date (or, if no trading in Ordinary Shares took place on that 25th Business Day, the first Business Day on which trading in Ordinary Shares took place before that date) is greater than 56.00% of the Issue Date VWAP. The Issue Date VWAP means the VWAP during the period of 20 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Issue Date, subject to certain adjustments. Second Mandatory Conversion Condition: the VWAP during the period of 20 Business Days before (but not including) a possible Mandatory Conversion Date (Second Test Period) is greater than 50.51% of the Issue Date VWAP. This condition partly satisfies one of the criteria that enables CPS2 to qualify as Non-innovative Residual Tier 1 Capital under APRA’s capital adequacy guidelines, which require that the number of Ordinary Shares per CPS2 that CPS2 Holders are issued on Conversion may not be greater than the number determined using the following formula: Issue Price Issue Date VWAP × 0.5 This number is known as the Maximum Conversion Number. The Maximum Conversion Number is set to reflect a VWAP of 50.00% of the Issue Date VWAP. As an example, if the Issue Date VWAP is \$22.40, then the Maximum Conversion Number would be calculated as follows: Issue Price Divided by Issue Date VWAP × 0.5 \$100.00 ÷ \$11.20 Indicative Maximum Conversion Number 8.9286 The above example is for illustrative purposes only and does not indicate, guarantee or forecast the actual Issue Date VWAP or Maximum Conversion Number. The actual Issue Date VWAP and Maximum Conversion Number may be higher or lower than in the example and these factors may be adjusted after the Issue Date (see Section 1.3.6). Setting the Second Mandatory Conversion Condition at 50.51% reflects this 50.00% limit adjusted for the 1.00% conversion discount.	Clauses 4.3 and 19.2 of the CPS2 Terms

Topic	Summary	Where to find more information
1.3 MANDATORY CONVERSION (CONT)		
1.3.4 (continued) What are the Mandatory Conversion Conditions?	The First Mandatory Conversion Condition and the Second Mandatory Conversion Condition are intended to provide protection to CPS2 Holders from receiving less than approximately \$101.01 worth of Ordinary Shares per CPS2 on Conversion (based on the VWAP during the 20 Business Days before the Mandatory Conversion Date).¹⁴ Third Mandatory Conversion Condition: Ordinary Shares remain listed and admitted to trading on ASX, and trading of Ordinary Shares has not been suspended for at least five consecutive Business Days prior to a possible Mandatory Conversion Date and the suspension is continuing on the possible Mandatory Conversion Date. The Third Mandatory Conversion Condition is intended to provide protection to CPS2 Holders to enable them to sell the Ordinary Shares they receive on ASX, if they wish to do so. See Section 4.1.1 regarding the risk of liquidity as it relates to Ordinary Shares.	Clauses 4.3 and 19.2 of the CPS2 Terms
1.3.5 How many Ordinary Shares will CPS2 Holders receive on Mandatory Conversion?	If CPS2 are Converted, CPS2 Holders will receive a number of Ordinary Shares per CPS2 that is equivalent to the number calculated using the following formula: $\frac{\text{Issue Price}}{99\% \times \text{VWAP}}$ VWAP for this purpose is the VWAP during the 20 Business Days before the Mandatory Conversion Date. Conversion is subject to the Maximum Conversion Number (see Section 1.3.4).	Clause 7 of the CPS2 Terms
1.3.6 What adjustments are made to account for changes to ANZ's capital?	The Issue Date VWAP, and consequently the Maximum Conversion Number, may be adjusted to reflect transactions affecting the capital of ANZ (including capital reconstructions, off-market buy-backs, returns of capital and bonus and rights issues) as set out in the CPS2 Terms.	Clauses 7.3 to 7.9 of the CPS2 Terms
1.3.7 What can happen if the Mandatory Conversion Conditions are not satisfied?	If any of the Mandatory Conversion Conditions are not satisfied, ANZ may (subject to APRA giving its prior written approval) Redeem all CPS2 for \$100 each. Otherwise, Conversion is deferred until the next Dividend Payment Date on which all of the Mandatory Conversion Conditions are satisfied. Regardless of whether the Mandatory Conversion Conditions are satisfied, ANZ may arrange for CPS2 to be Resold (see Section 1.3.2).	Clauses 4.5, 4.7, 7, 8 and 9 of the CPS2 Terms

¹⁴ The VWAP during the 20 Business Days before the Mandatory Conversion Date that is used to calculate the number of Ordinary Shares that Holders receive may differ from the Ordinary Share price on or after the Mandatory Conversion Date. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

1.4 OPTIONAL EXCHANGE BY ANZ		
1.4.1 What is optional Exchange?	ANZ may choose to Exchange all or some CPS2 on issue after the occurrence of a Tax Event or Regulatory Event, and may choose to Exchange all (but not some only) CPS2 on issue after the occurrence of an Acquisition Event. Exchange means: ■ subject to APRA's prior written approval and provided certain conditions are satisfied (see below), CPS2 may be Converted into a variable number of Ordinary Shares with a value (based on the VWAP during the 20 Business Days before the Exchange Date) of approximately \$101.01 per CPS2;¹⁵ ■ subject to APRA's prior written approval and provided certain conditions are satisfied (see below), CPS2 may be Redeemed for \$100 per CPS2; ■ CPS2 may be Resold for \$100 per CPS2; or ■ a combination of the above.	Clause 5 of the CPS2 Terms
1.4.2 What are the requirements for Conversion to be elected as the Exchange Method?	ANZ may not choose to Convert CPS2 under an optional Exchange if, on the second Business Day before the date on which ANZ sends a notice advising CPS2 Holders that it wishes to Convert CPS2 (or, if trading in Ordinary Shares did not occur on that date, the last Business Day prior to that date on which trading in Ordinary Shares occurred) (Non-Conversion Test Date), an Optional Conversion Restriction applies (see Section 1.4.3). Further, if ANZ has chosen to Convert CPS2, ANZ may not proceed to Convert CPS2 if, on the Exchange Date, certain further restrictions apply (see Section 1.4.4).	Clauses 5.4 and 5.5 of the CPS2 Terms
1.4.3 What are the Optional Conversion Restrictions?	The Optional Conversion Restrictions are: First Optional Conversion Restriction: the VWAP on the Non-Conversion Test Date is less than 56.00% of the Issue Date VWAP; and Second Optional Conversion Restriction: Ordinary Shares are not listed and admitted to trading on ASX, or trading of Ordinary Shares has been suspended for at least five consecutive Business Days prior to the Non-Conversion Test Date and remains suspended on the Non-Conversion Test Date.	Clause 5.4 of the CPS2 Terms

¹⁵ The VWAP of Ordinary Shares during the 20 Business Days before the Exchange Date that is used to calculate the number of Ordinary Shares that CPS2 Holders receive may differ from the Ordinary Share price on or after the Exchange Date. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

1.4 OPTIONAL EXCHANGE BY ANZ (CONT)		
1.4.4 What are the further Conversion restrictions on the Exchange Date?	The further Conversion restrictions on the Exchange Date are that the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition would not be satisfied in respect of the Exchange Date if the Exchange Date were a possible Mandatory Conversion Date. If the Conversion restrictions on the Exchange Date apply, ANZ will notify CPS2 Holders and the Conversion will be deferred until the next Dividend Payment Date on which the Mandatory Conversion Conditions would be satisfied if that Dividend Payment Date were a possible Mandatory Conversion Date unless otherwise Exchanged in accordance with the CPS2 Terms.	Clause 5.5 of the CPS2 Terms
1.4.5 Can CPS2 Holders request Exchange?	CPS2 Holders do not have a right to request Exchange.	Clause 10.10(g) of the CPS2 Terms
1.5 OPTIONAL EXCHANGE BY ANZ ON CERTAIN EXTRAORDINARY EVENTS		
1.5.1 What are the extraordinary events that give ANZ an option to Exchange CPS2?	The extraordinary events giving ANZ a right to Exchange CPS2 are: ■ a Tax Event, which will broadly occur if ANZ receives professional advice that, as a result of a change in Australian tax law, or an administrative pronouncement or ruling, on or after the Issue Date, there is a more than insubstantial risk which the Directors determine to be unacceptable that ANZ would be exposed to more than an insignificant increase in its costs in relation to CPS2 being on issue, any Dividend would not be a frankable dividend or distribution for tax purposes or franking credits may not be available to Australian tax resident CPS2 Holders generally or the CPS2 would cease to be disregarded for certain purposes in relation to a NOHC; ■ a Regulatory Event, which will broadly occur if ANZ receives legal advice that, as a result of a change of law or regulation on or after the Issue Date, additional requirements would be imposed on ANZ in relation to CPS2 which the Directors determine to be unacceptable, or the Directors determine that ANZ will not be entitled to treat all CPS2 as Non-innovative Residual Tier 1 Capital; or ■ an Acquisition Event, which will broadly occur if certain takeover bids or schemes of arrangement occur in relation to ANZ.	Clauses 5.1 and 19.2 of the CPS2 Terms
1.6 EXCHANGE ON A CHANGE OF CONTROL EVENT		
1.6.1 What must ANZ do on a Change of Control Event?	Subject to APRA's prior written approval where required, ANZ must Exchange all CPS2 on issue if a Change of Control Event occurs.	Clauses 6 of the CPS2 Terms

Topic	Summary	Where to find more information
1.6 EXCHANGE ON A CHANGE OF CONTROL EVENT (CONT)		
1.6.2 What Exchange Method can be elected by ANZ on a Change of Control Event?	If a Change of Control Event occurs, ANZ must elect (by giving a Change of Control Exchange Notice) to do one of the following in relation to CPS2, subject to APRA's prior written approval where required and certain further restrictions: ■ Convert each CPS2 into a number of Ordinary Shares with a value of approximately \$101.01 (based on the VWAP during the 20 Business Days before the Exchange Date), provided certain conditions are satisfied (see below);¹⁶ or ■ Redeem each CPS2 for \$100. If APRA does not approve Redemption and the restrictions to electing Conversion apply, ANZ will not be required to give a Change of Control Exchange Notice to CPS2 Holders and, accordingly, will not be required to make this election.	Clauses 6.3(c) and 6.4 of the CPS2 Terms
1.6.3 What are the requirements for Conversion to be elected as the Exchange Method?	The same restrictions apply on electing Conversion as the Exchange Method following a Change of Control Event as apply to optional Exchange (see Sections 1.4.2 and 1.4.3).	Clauses 5.4 and 6.3(c) of the CPS2 Terms
1.6.4 What are the further Conversion restrictions on the Change of Control Exchange Date?	If ANZ has elected to Convert CPS2 as the Exchange Method on the occurrence of a Change of Control Event, ANZ may not proceed to Convert CPS2 if, on the date on which Exchange is to occur (Change of Control Exchange Date), certain further restrictions apply. These Conversion restrictions on the Change of Control Exchange Date apply if the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition would not be satisfied in respect of the Change of Control Exchange Date if the Change of Control Exchange Date were a possible Mandatory Conversion Date.	Clause 6.5 of the CPS2 Terms
1.6.5 What happens if Exchange does not occur?	If ANZ is not required to give a Change of Control Exchange Notice or the restrictions prevent Conversion, ANZ will, unless APRA does not approve Redemption and the restrictions to electing Conversion apply, give a new Change of Control Exchange Notice which will specify either Redemption or Conversion (as elected by ANZ) as the Exchange Method for Exchange on the next Dividend Payment Date. This will be repeated until an Exchange occurs.	Clause 6.5 of the CPS2 Terms

¹⁶ The VWAP during the 20 Business Days before the Change of Control Exchange Date that is used to calculate the number of Ordinary Shares that CPS2 Holders receive may differ from the Ordinary Share price on or after the Change of Control Exchange Date. 1.6 EXCHANGE ON A CHANGE OF CONTROL EVENT (CONT)		
1.6.6 What other obligations does ANZ have in connection with a takeover or scheme of arrangement?	On the occurrence of a recommended takeover or scheme of arrangement which would result in an Acquisition Event, if the Directors consider that APRA will not approve Exchange where required or the Second Mandatory Conversion Condition or Third Mandatory Conversion Condition will not be satisfied, the Directors will use all reasonable endeavours to procure that equivalent takeover offers are made to CPS2 Holders or that CPS2 Holders are entitled to participate in the scheme of arrangement or a similar transaction.	Clause 12 of the CPS2 Terms
1.7 OTHER		
1.7.1 Can ANZ issue further CPS2, preference shares or other instruments?	ANZ reserves the right to issue further preference shares (including further CPS2) or other instruments, or permit the conversion of shares to preference shares or other instruments, which rank behind, equal with or (to the maximum extent permitted by the Constitution) ahead of CPS2, whether in respect of dividends, return of capital on a winding up of ANZ or otherwise. CPS2 do not confer on CPS2 Holders any right to subscribe for new securities in ANZ, to participate in any bonus issues of shares in ANZ's capital or to participate in ANZ's dividend reinvestment or bonus option plans.	Clauses 10.3 and 10.12(b) of the CPS2 Terms
1.7.2 What voting rights do CPS2 carry?	CPS2 Holders generally do not have voting rights, except in the limited circumstances described in the CPS2 Terms.	Clause 11.2 of the CPS2 Terms
1.7.3 Can ANZ amend the CPS2 Terms?	Subject to complying with all applicable laws, and with APRA's prior written approval, ANZ may amend the CPS2 Terms without the consent of CPS2 Holders in certain circumstances. ANZ may also, with APRA's prior written approval, amend the CPS2 Terms if the amendment has been approved by a Special Resolution.	Clause 16 of the CPS2 Terms
1.7.4 What is an Approved NOHC Event?	An Approved NOHC Event is an event that would otherwise be an Acquisition Event, except that: ■ the event is initiated by the Directors and would result in the ultimate holding company of ANZ becoming a "non-operating holding company" within the meaning of the Banking Act (NOHC); ■ the ordinary shares of the NOHC are listed on ASX; and ■ the NOHC assumes all of ANZ's obligations to Convert the CPS2 into ordinary shares in the NOHC. If an Approved NOHC Event occurs, the CPS2 Terms may be amended to enable the substitution of the Approved NOHC as the issuer of ordinary shares on Conversion (including following the Mandatory Conversion Date). The Approved NOHC will use all reasonable endeavours to procure quotation on ASX of all these shares at the time of Conversion. The occurrence of an Approved NOHC Event does not allow ANZ to elect to Exchange CPS2 nor does it entitle CPS2 Holders to Exchange their CPS2.	Clauses 13, 16 and 19.2 of the CPS2 Terms

1.8 POTENTIAL INVESTMENT RISKS		
Before deciding whether to apply for CPS2, you should consider whether CPS2 are a suitable investment for you. There are risks associated with investing in CPS2 and in ANZ. Many of those risks are outside the control of ANZ and its Directors. A summary of the key risks which are detailed in Section 4 follows.		
1.8.1 Financial market conditions and liquidity	The market price of CPS2 may fluctuate due to various factors that affect financial market conditions. It is possible that CPS2 may trade at a market price below their Issue Price of \$100. There may be no liquidity or an illiquid market for CPS2 and that market may be volatile. The market for CPS2 may be less liquid and/or more volatile than the market for Ordinary Shares or comparable securities issued by ANZ or other entities. CPS2 Holders who wish to sell their CPS2 may be unable to do so at an acceptable price, or at all, if insufficient liquidity exists in the market for CPS2 or the market for CPS2 is volatile.	Sections 4.1.1 and 4.1.2
1.8.2 Fluctuation in Ordinary Share price	The market price of Ordinary Shares will fluctuate due to various factors, including investor perceptions, domestic and worldwide economic conditions and ANZ's financial performance and position – see Sections 4.1.2 and 4.1.3. As a result, the value of Ordinary Shares received by CPS2 Holders upon Conversion may be greater than or less than anticipated when they are issued or thereafter.	Section 4.1.4
1.8.3 Dividends may not be paid	There is a risk that Dividends will not be paid. If for any reason a scheduled Dividend has not been paid in full within 21 Business Days after the relevant Dividend Payment Date, then the Distribution Restriction will apply. The CPS2 Terms contain no events of default and, accordingly, a failure to pay a scheduled Dividend on CPS2 will not constitute an event of default. Further, in the event that ANZ does not pay a scheduled Dividend on CPS2, a CPS2 Holder has no right to apply for ANZ to be wound up and will have no right of set-off or offsetting rights or claim on ANZ.	Section 4.1.5
1.8.4 Dividends may not be fully franked	ANZ expects Dividends to be fully or substantially franked. However, there is no guarantee that ANZ will have sufficient franking credits in the future to fully frank Dividends. If a Dividend is unfranked or partially franked, the Dividend will be increased to compensate for the unfranked component, subject to the Payment Tests. The value and availability of franking credits to a CPS2 Holder will differ depending on the CPS2 Holder's particular tax circumstances.	Section 4.1.6
1.8.5 Changes in Dividend Rate	The Dividend Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the Bank Bill Rate. There is a risk that this rate may become less attractive when compared to the rates of return available on comparable securities.	Section 4.1.7

1.8 POTENTIAL INVESTMENT RISKS (CONT)		
1.8.6 Mandatory Conversion may not occur	CPS2 are expected to Convert into Ordinary Shares on the Mandatory Conversion Date, unless ANZ requires CPS2 to be Resold or CPS2 are otherwise Exchanged prior to that date. However, there is a risk that Conversion will not occur because the Mandatory Conversion Conditions are not satisfied due to a large fall in the Ordinary Share price relative to the Issue Date VWAP, or if Ordinary Shares cease to be quoted on ASX or have been suspended from trading for a certain period. Mandatory Conversion may therefore not occur when scheduled or at all.	Section 4.1.9
1.8.7 Ranking	CPS2 are not deposit liabilities of ANZ, do not have the benefit of the depositor protection provisions of the Banking Act and are not protected accounts for the purposes of the Financial Claims Scheme. CPS2 are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction. CPS2 are issued by ANZ on the CPS2 Terms and CPS2 Holders have no claim on ANZ in respect of CPS2 except as provided in those CPS2 Terms. CPS2 are not secured. On a winding up of ANZ, CPS2 rank for payment ahead of Ordinary Shares, equally with the 2008 CPS, equally with the preference shares comprised in the 2003 Trust Securities, the 2004 Trust Securities and the 2007 Stapled Securities and equally with any other equal ranking instruments, but behind all senior ranking securities or instruments, and all depositors and other creditors. On a winding up, there is a risk that CPS2 Holders will lose all or some of their investment.	Section 4.1.14
1.8.8 ANZ's financial performance and position	The market price of CPS2 (and the Ordinary Shares into which they are expected to Convert) may be affected by ANZ's financial performance and position. For specific risks associated with an investment in ANZ, see Section 4.2. ANZ's financial performance and position may also affect the credit rating associated with CPS2, which may impact the market price and liquidity of CPS2. The credit rating may be revised, withdrawn or suspended by Standard & Poor's at any time.	Section 4.2

2.5 ALLOCATION POLICY

2.5.1 OVERVIEW

The Allocation policy for Syndicate Brokers and Institutional Investors will be determined under the Bookbuild – see Section 2.5.2. The Bookbuild allocation will be agreed by the Joint Lead Managers and ANZ following completion of the Bookbuild.

Allocations for the ANZ Securityholder Offer and the General Offer will be determined by ANZ in consultation with the Joint Lead Managers after the Closing Date – as set out in Section 2.5.4. There is no specified proportion of the Offer that may be allocated to the ANZ Securityholder Offer or the General Offer. ANZ (at its discretion and in consultation with the Joint Lead Managers) reserves the right to scale back Applications from ANZ Securityholder Applicants and General Applicants. Any scale back will be announced on ASX on the day CPS2 commence trading on a deferred settlement basis – expected to be 18 December 2009.

2.5.2 BOOKBUILD

The Bookbuild is a process that is conducted by the Joint Lead Managers in consultation with ANZ before the Opening Date to determine the Margin and firm Allocations of CPS2 to Syndicate Brokers and Institutional Investors. In this process, the Syndicate Brokers (including the Joint Lead Managers) and Institutional Investors are invited to lodge bids for a number of CPS2. On the basis of those bids, the Joint Lead Managers and ANZ will, by mutual agreement, determine the Margin and the firm allocations to Syndicate Brokers and Institutional Investors. The Bookbuild will be conducted in the manner contemplated in this Prospectus and otherwise on the terms and conditions agreed to by ANZ and the Joint Lead Managers in the Offer Management Agreement – see Section 6.6.

ANZ Securities, as a Syndicate Broker, may increase the size of its allocation following the close of the Bookbuild, in order to meet demand for allocation from its clients and from ANZ customers.

2.5.3 SETTLEMENT SUPPORT

The Joint Lead Managers have agreed with ANZ to provide settlement support for the number of CPS2 that are allocated to Syndicate Brokers (other than ANZ Securities) and Institutional Investors under the Bookbuild. This means that if any of the Syndicate Brokers (other than ANZ Securities) or Institutional Investors fail to deliver Applications including Application Payments to ANZ by the Issue Date, the Joint Lead Managers will be issued with and pay for a proportion of those CPS2.

Under the Offer Management Agreement, as part of this settlement support, the Joint Lead Managers will pay to ANZ, or procure payment to ANZ of, the aggregate proceeds raised from Syndicate Brokers (other than ANZ Securities) and Institutional Investors under the Bookbuild by the Issue Date.

The Offer Management Agreement may be terminated by the Joint Lead Managers in certain circumstances – see Section 6.6. If the Offer Management Agreement is terminated, Syndicate Brokers and Institutional Investors who participate in the Bookbuild can withdraw their firm Allocations. For details of the fees payable under the Offer Management Agreement – see Section 6.8.

2.5.4 ALLOCATIONS

Institutional Offer	Allocations to Institutional Investors will be agreed by the Joint Lead Managers and ANZ.
Broker Firm Offer	Allocations to Syndicate Brokers will be agreed by the Joint Lead Managers and ANZ. Allocations to Broker Firm Applicants by a Syndicate Broker are at the discretion of that Syndicate Broker.
ANZ Securityholder Offer and General Offer	ANZ Securityholder Applicants and General Applicants who submit a valid Application Form and Application Payment may receive an Allocation, subject to the right of ANZ in consultation with the Joint Lead Managers to determine the Allocations, when the Offer closes. If there is excess demand for CPS2, priority will be given to ANZ Securityholder Applicants over General Applicants. ANZ, after consultation with the Joint Lead Managers, has absolute discretion to determine the method and extent of the priority Allocation. ANZ (at its discretion and in consultation with the Joint Lead Managers) and the Joint Lead Managers reserve the right to: ■ allocate to any ANZ Securityholder Applicant or General Applicant all CPS2 for which they have applied; ■ reject any Application by an ANZ Securityholder Applicant or a General Applicant; or ■ allocate to any ANZ Securityholder Applicant or General Applicant a lesser number of CPS2 than that applied for, including less than the minimum Application of CPS2 or none at all. No assurance is given that any ANZ Securityholder Applicant or General Applicant will receive an Allocation.

2.6 ASX QUOTATION, HOLDING STATEMENTS AND OTHER INFORMATION

2.6.1 ASX QUOTATION

ANZ will apply to ASX for CPS2 to be quoted on ASX. If ASX does not grant permission for CPS2 to be quoted within three months after the date of this Prospectus, CPS2 will not be issued and all Application Payments will be refunded (without interest) to Applicants as soon as practicable.

It is expected that CPS2 will begin trading on ASX on a deferred settlement basis on 18 December 2009 under ASX code "ANZPA". Trading is expected to continue on that basis until 23 December 2009, when it is anticipated that trading of CPS2 will begin on a normal settlement basis. Deferred settlement will occur as a consequence of trading which takes place before entries are made in the Register by the Registry in respect of your holdings of CPS2 and before Holding Statements are despatched to successful Applicants.

You are responsible for confirming your holding before trading in CPS2. If you are a successful Applicant and sell your CPS2 before receiving your Holding Statement, you do so at your own risk.

You may call the ANZ Information Line on 1800 113 399 (within Australia) or +61 3 9415 4010 (international) (Monday to Friday – 8:30am to 5:30pm AEDT) or your Syndicate Broker, after the Issue Date to enquire about your Allocation.

2.6.2 HOLDING STATEMENTS

ANZ will apply for CPS2 to participate in CHESS. No certificates will be issued for CPS2. ANZ expects that Holding Statements for issuer sponsored holders and confirmations for CHESS holders will be despatched to successful Applicants by 22 December 2009.

2.6.3 PROVISION OF BANK ACCOUNT DETAILS FOR DIVIDENDS

ANZ's current policy is that Dividends will be paid in Australian dollars by direct credit into nominated Australian financial institution accounts (excluding credit card accounts), for CPS2 Holders with a registered address in Australia. For all other CPS2 Holders, ANZ's current policy is that Dividends will be paid by Australian dollar cheque.

2.6.4 PROVISION OF TAX FILE NUMBER OR AUSTRALIAN BUSINESS NUMBER

If you are an ANZ Securityholder Applicant or a General Applicant who has not already quoted your TFN or ABN to the Registry and you are issued any CPS2, then the Registry may contact you to obtain your TFN, ABN or both.

The collection and quotation of TFNs and ABNs are authorised, and their use and disclosure is strictly regulated, by tax laws and the Privacy Act.

The profit information in Section 3.2.1 is historical information and is not a forecast of results to be expected in future periods.

²³ Adjusted for material items that are not part of the normal ongoing operations of the Group including one-off gains and losses, gains and losses on the sale of businesses, non-continuing businesses, timing differences on economic hedges, and acquisition related costs.

3.2.3 IMPACT OF THE OFFER ON ANZ'S CONSOLIDATED BALANCE SHEET

The issue of the CPS2 will increase ANZ's bonds and note liabilities by \$736 million and increase ANZ's liquid assets by \$736 million, with no impact on ANZ's net assets or shareholders' equity. Total assets and Total liabilities will increase by approximately 0.2%.

ANZ may raise more or less than \$750 million pursuant to the Offer and these figures will be impacted accordingly.

3.3 CAPITAL ADEQUACY

3.3.1 PRUDENTIAL REGULATION

APRA is the prudential regulator of the Australian financial services industry. It oversees banks, credit unions, building societies, general insurance and reinsurance companies, life insurance companies, friendly societies and most members of the superannuation industry. APRA's website at www.apra.gov.au includes further details of its functions and Prudential Standards.

ANZ is regulated by APRA because of its status as an ADI. APRA's Prudential Standards aim to ensure that ADIs (including ANZ) remain adequately capitalised to support the risks associated with their activities.

ANZ must also comply with Basel II which is the common name for a framework issued by the Bank of International Settlements' Basel Committee on Banking Supervision for the calculation of capital adequacy for banks worldwide. The objective of the Basel II framework is to develop capital adequacy guidelines that are more accurately aligned with the individual risk profile of banks. The Basel II framework is based on three "pillars":

- Pillar one covers the capital requirements for banks;
- Pillar two covers the supervisory review process; and
- Pillar three relates to market disclosure.

Following APRA's adoption of the Basel II framework, ANZ sought and has been granted accreditation from APRA to use the Advanced Internal Ratings Based methodology for credit risk and the Advanced Management Approach for operational risk.

The effect of the Offer on ANZ's capital adequacy ratio is set out in Section 3.3.5.

3.3.2 PRUDENTIAL CAPITAL CLASSIFICATION

APRA classifies an ADI's regulatory capital into two tiers for its supervisory purposes – referred to as Tier 1 Capital and Tier 2 Capital.

Tier 1 Capital consists of Fundamental Tier 1 Capital and Residual Tier 1 Capital (divided into innovative and non-innovative) less Tier 1 Capital Deductions. Fundamental Tier 1 Capital includes paid up ordinary shares, general reserves and retained earnings, together with minority interests, but excludes retained earnings and reserves of subsidiaries and associates that are not consolidated for capital adequacy purposes, and expected dividend payments (net of expected dividend reinvestment) that have yet to be accrued in the financial statements.

APRA has provided confirmation that CPS2 will, once issued, qualify for Non-innovative Residual Tier 1 Capital treatment under Prudential Standards current at the date of this Prospectus.

3.3.3 CAPITAL MANAGEMENT STRATEGY

ANZ pursues an active approach to capital management. This involves ongoing review of the level and composition of ANZ's capital base, assessed against a range of objectives including maintaining:

- regulatory compliance, particularly those required by APRA, the RBNZ and the US Federal Reserve Board;
- an appropriate level of capital to meet the risks in the business as measured by ANZ's economic capital methodology;
- a long-term "AA" credit rating category for senior debt (refer also Section 3.5);
- sufficient capital to meet strategic and business development plans; and
- an appropriate balance between maximising shareholder returns and prudent capital management principles.

3.3.4 CAPITAL MANAGEMENT INITIATIVES

In the period between 30 September 2009 and the launch of the Offer, ANZ's main capital management initiatives have included:

- ANZ issued a notice on 6 November 2009 to redeem US\$350 million US Trust Securities issued by ANZ Capital Trust I for cash on 15 January 2010.

3.3.5 PRO FORMA CONSOLIDATED CAPITAL ADEQUACY POSITION AS AT 30 SEPTEMBER 2009

ANZ's summarised consolidated capital management report set out below is derived from supplementary information included in the consolidated results and dividend announcement for the year ended 30 September 2009. This information is not subject to KPMG's audit opinion.

The purpose of the pro forma capital management report is to present ANZ's regulatory capital adequacy position as at 30 September 2009 adjusted for:

- the effect of the issue of CPS2 pursuant to the Offer;
- the impact of the acquisition by ANZ of certain Asian assets from RBS as announced on 4 August 2009 (which is expected to complete from late 2009, through 2010 as each acquisition remains subject to regulatory approval in the relevant jurisdiction);
- the impact of the acquisition by ANZ of the remaining 51% interest in each of INGA and INGNZ, which are the Australian and New Zealand life and funds management joint ventures between ANZ and the ING Group, as announced on 25 September 2009 (which is expected to complete in the fourth quarter of 2009, subject to regulatory approval in Australia and New Zealand); and
- the fact that ANZ issued a notice on 6 November 2009 to redeem US\$350 million US Trust Securities for cash issued by ANZ Capital Trust I on 15 January 2010, with the effect that from the date of that notice those securities no longer constitute Tier 1 Capital.

The first column presents the summarised consolidated regulatory capital position of ANZ as at 30 September 2009 the second column reflects the impact of the pro forma adjustments as a result of the transactions outlined above, and the third column reflects the impact of the issue of CPS2 pursuant to the Offer.

26 ANZ has agreed to purchase the remaining 51% interest in INGA and INGNZ, which is expected to increase Tier 1 Capital Deductions by approximately \$1.9 billion and increase Tier 2 deductions by \$115 million (based upon June 2009 unaudited management accounts).

27 ANZ has issued a notice to redeem US\$350 million US Trust Securities for cash on 15 January 2010.

28 Tier 1 Capital Deductions are \$14 million, being the estimated costs of the Offer. If there is over or under-subscription for CPS2, the volume shown for Non-innovative Tier 1 Capital and Tier 1 Capital Deductions will be adjusted for the amount of the over or under-subscription and associated transaction costs.

29 ANZ's capital adequacy ratios will have also been impacted by the capital initiatives identified in Section 3.3.4 along with organic capital growth, changes in provisions and Risk Weighted Assets growth since 30 September 2009.

3.4 FUNDING AND LIQUIDITY

ANZ's liquidity and funding risks are governed by a detailed policy framework which is approved by the Board of Directors. The management of the liquidity and funding positions and risks is overseen by the Group Asset and Liability Committee (GALCO). In addition to the policy framework, ANZ maintains a Liquidity Crisis Contingency Plan, which details the identification, escalation and management procedures in the event of a liquidity crisis.

ANZ manages liquidity and funding risk using various reporting and modelling techniques, including but not limited to the following.

- Name Crisis scenario modelling: ANZ requires that it remains cash flow positive under stressed "name-crisis" scenarios, whereby a proportion of deposits are assumed to be withdrawn by customers and ANZ's access to wholesale capital markets is severely restricted. These stresses capture "name-crisis" scenarios under both normal and stressed financial market conditions.
- Funding Market Stress scenario modelling: ANZ requires that it remains cash flow positive for an extended period of time under stressed funding market scenarios, whereby access to wholesale funding markets is severely restricted. These stresses capture both global and offshore specific funding market disruptions.
- Normal Business Conditions scenario modelling: ANZ monitors its expected liquidity position under normal conditions, based on statistical modelling of balance sheet behaviour.
- Liquid Asset Portfolio: ANZ's liquidity and funding risk is reduced through the holding of a portfolio of highly liquid assets. In a market stress event, these assets are pledgeable securities with the RBA and other central banks for cash.
- Wholesale Funding Maturity Concentration Limits: to ensure that ANZ's wholesale funding requirements are not overly reliant on large issuance over a short period, maturity concentration limits are used. These limits require funding to be issued for an appropriate and well diversified duration.

ANZ strictly observes its prudential obligations in relation to liquidity and funding risk as required by APRA Prudential Standard APS 210, as well the prudential requirements of overseas regulators on ANZ's offshore operations. APRA is currently in the process of revising its Liquidity Risk prudential standard (see Section 4.2.18 for further information).

ANZ targets a range of funding sources, and aims to diversify its funding in relation to tenor, currency and investor market. The monitoring of internal balance sheet metrics ensures that a high proportion of the funding is sourced from both "sticky" customer deposits and long-term wholesale funding.

3.5 CREDIT RATINGS

ANZ and CPS2 have been rated by Standard & Poor's. ANZ has been rated by Moody's but ANZ will not be seeking a rating for CPS2 from Moody's (see Section 4.1.15 for further information). The following ratings are current at the date of this Prospectus.

Credit rating type	Standard & Poor's	Moody's
CPS2 – Issue Credit Rating	A+ (indicative)	N/A
ANZ – Long-term credit ratings	AA	Aa1

The indicative CPS2 Issue Credit Rating was issued in respect of the CPS2 by Standard & Poor's on 9 November 2009.

Standard & Poor's affirmed ANZ's long-term credit rating of "AA" on 27 July 2009. The rating outlook was "outlook stable", which means that the rating is not likely to change in the near term.

Moody's affirmed ANZ's long-term credit rating of "Aa1" on 2 March 2009. The rating outlook was revised from "outlook stable" to "outlook negative", which means there are potential downward rating pressures over the next 12 to 18 months – see Section 4.1.15.

These credit rating references are current but may be withdrawn, revised or suspended by the relevant credit rating agency at any time. These credit rating references are not a recommendation by the relevant credit rating agency to apply for CPS2 offered under this Prospectus. Neither Standard & Poor's nor Moody's have consented to the use of their credit rating references in this Prospectus and they are not liable for any statements in this Prospectus under section 729(1) of the Corporations Act.

For a description of what each of these ratings mean, see Sections 3.5.1 and 3.5.2 below.

Ratings are statements of opinion, not statements of fact or recommendations to buy, hold or sell any securities (including CPS2). Ratings may be withdrawn, revised or suspended at any time.

As at the date of this Prospectus, ANZ has not approached any other rating agency for a rating of CPS2.

3.5.1 CPS2 – ISSUE CREDIT RATING

An Issue Credit Rating is a current opinion of the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations or a specific financial program.

Issues rated “BBB–” or higher by Standard & Poor’s are generally considered in capital markets to be investment grade. CPS2 have been assigned an Issue Credit Rating of “A+” by Standard & Poor’s and are therefore expected to be considered investment grade once issued. An obligation rated “A” category is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor’s capacity to meet its financial commitment on the obligation is still considered to be strong.

Standard & Poor’s ratings from “AA” to “CCC” may be modified by the addition of a plus (+) or minus (–) sign to show relative standing within the major rating categories.

3.5.2 ANZ LONG-TERM CREDIT RATINGS

A long-term credit rating is a current opinion of an obligor’s overall financial capacity to pay its financial obligations (that is, its creditworthiness).

Standard & Poor’s and Moody’s have rated ANZ.

The Standard & Poor’s long-term credit rating for ANZ is “AA”. An obligation rated “AA” differs from the highest-rated obligations only to a small degree. According to Standard & Poor’s, a credit rating of “AA” means that the obligor’s capacity to meet its financial commitment on the obligation is very strong.

The outlook applied to ANZ’s long-term credit rating above is “outlook stable”, which means that the rating is not likely to change in the near term.

The Moody’s long-term credit rating for ANZ is “Aa1”. According to Moody’s, obligations rated “Aa1” are judged to be of high quality and are subject to very low credit risk, and the obligation ranks in the higher end of the “Aa” rating category.

The outlook applied to ANZ’s long-term credit rating above is “outlook negative”, which means there are potential downward rating pressures over the next 12 to 18 months – see Section 4.1.15.

SECTION 4

INVESTMENT RISKS

THIS SECTION DESCRIBES SOME OF THE POTENTIAL RISKS ASSOCIATED WITH AN INVESTMENT IN CPS2 AND IN ANZ.

THE SELECTION OF RISKS HAS BEEN BASED ON AN ASSESSMENT OF A COMBINATION OF THE PROBABILITY OF THE RISK OCCURRING AND IMPACT OF THE RISK IF IT DID OCCUR. THERE IS NO GUARANTEE OR ASSURANCE THAT THE IMPORTANCE OF DIFFERENT RISKS WILL NOT CHANGE OR OTHER RISKS EMERGE.

BEFORE APPLYING FOR CPS2, YOU SHOULD CONSIDER WHETHER CPS2 ARE A SUITABLE INVESTMENT FOR YOU. THERE ARE RISKS ASSOCIATED WITH AN INVESTMENT IN CPS2 AND IN ANZ, MANY OF WHICH ARE OUTSIDE THE CONTROL OF ANZ AND ITS DIRECTORS. THESE RISKS INCLUDE THOSE IN THIS SECTION AND OTHER MATTERS REFERRED TO IN THIS PROSPECTUS.

4.1 RISKS ASSOCIATED WITH INVESTING IN CPS2

4.1.1 LIQUIDITY

There may be no liquid market for CPS2. The market for CPS2 may be less liquid than the market for Ordinary Shares or comparable securities issued by ANZ or other entities. CPS2 Holders who wish to sell their CPS2 may be unable to do so at an acceptable price, or at all, if insufficient liquidity exists in the market for CPS2.

CPS2 are expected to Convert into Ordinary Shares on 15 December 2016 (subject to certain conditions being satisfied). However, ANZ may elect for a third party to purchase the CPS2 rather than delivering the Ordinary Shares to be issued on Conversion to the investor. Where CPS2 are Converted, there may be no liquid market for Ordinary Shares at the time of Conversion or the market for Ordinary Shares may be less liquid than that for comparable securities issued by other entities at the time of Conversion.

4.1.2 FINANCIAL MARKET CONDITIONS

The market price of CPS2 may fluctuate due to various factors, including investor perceptions, worldwide economic conditions, interest rates, movements in the market price of Ordinary Shares or senior or subordinated debt, and factors that may affect ANZ's financial performance and position. CPS2 may trade at a market price below the Issue Price.

The market price of CPS2 may be more sensitive than that of Ordinary Shares to changes in interest rates. Increases in relevant interest rates may adversely affect the market price of CPS2.

In recent years equity markets have become more volatile. Volatility risk is the potential for fluctuations in the price of securities, sometimes markedly and over a short period. Investing in volatile conditions implies a greater level of volatility risk for investors than an investment in a more stable market.

You should carefully consider this additional volatility risk before making any investment in CPS2.

The Ordinary Shares held as a result of any Conversion of CPS2 will, following Conversion, rank equally with existing Ordinary Shares. Accordingly, the ongoing value of any Ordinary Shares received upon Conversion will depend upon the market price of Ordinary Shares after the Mandatory Conversion Date or other date on which CPS2 are Converted. That market is also subject to the factors outlined above and may also be volatile.

4.1.3 EXPOSURE TO ANZ'S FINANCIAL PERFORMANCE AND POSITION

If ANZ's financial performance or position declines, or if market participants anticipate that it may decline, an investment in CPS2 could decline in value even if CPS2 have not been Converted. Accordingly, when you evaluate whether to invest in CPS2 you should carefully evaluate the investment risks associated with an investment in ANZ – see Section 4.2.

4.1.4 FLUCTUATION IN ORDINARY SHARE PRICE

Upon Conversion, CPS2 Holders will receive approximately \$101.01 worth of Ordinary Shares per CPS2 (based on the VWAP during the 20 Business Days before the Mandatory Conversion Date or other date on which CPS2 are Converted).³⁰ The market price of Ordinary Shares will fluctuate due to various factors, including investor perceptions, domestic and worldwide economic conditions and ANZ's financial performance and position – see Section 4.1.2. As a result, the value of Ordinary Shares received upon Conversion may be greater than or less than \$101.01 per CPS2 when they are issued or thereafter, and could be less than the Issue Price of CPS2.

ANZ SHARE PRICE FROM 6 NOVEMBER 1999 – 6 NOVEMBER 2009

³⁰ The VWAP during the 20 Business Days before the Mandatory Conversion Date that is used to calculate the number of Ordinary Shares that CPS2 Holders receive may differ from the Ordinary Share price on or after the Mandatory Conversion Date. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

4.1.5 DIVIDENDS MAY NOT BE PAID

There is a risk that Dividends will not be paid. CPS2 do not oblige ANZ to pay Dividends.

The payment of Dividends is subject to the Payment Tests – see Section 1.2.7. The Payment Tests require, among other things, that the Directors, at their absolute discretion, resolve to pay a Dividend and that ANZ has sufficient profits as required by the Corporations Act and by APRA (the latter profits being referred to as Distributable Profits) available to pay the Dividend. There is a risk that one or more elements of the Payment Tests will not be satisfied, and there is therefore a risk that a Dividend may not be paid in full or at all.

Distributable Profits are the amounts of profits from which APRA allows Dividends to be paid. APRA requires that Dividends may only be paid to the extent that they do not exceed Distributable Profits in respect of any Dividend Payment Date. APRA prescribes the calculation of Distributable Profits for both Level 1 (broadly, ANZ and a limited class of subsidiaries closely controlled by ANZ) and for Level 2 (broadly, the Group, but excluding certain prescribed entities and associates). Distributable Profits are determined as the lesser of the profits at these two levels.

For each level, the amount of Distributable Profits as at any Dividend Payment Date is calculated by taking the current year profits (excluding certain interest, dividends and distributions on Upper Tier 2 Capital and Tier 1 Capital) for the 12 month period that ended on 31 March or 30 September immediately before the relevant Dividend Payment Date, and subtracting from that amount the amount of dividends or other distributions paid by the Group (at the relevant level) in the 12 months up to and including that date on Tier 1 Capital and Upper Tier 2 Capital securities.

The CPS2 Terms contain no events of default and, accordingly, failure to pay a Dividend when scheduled will not constitute an event of default. Further, in the event that ANZ does not pay a Dividend when scheduled, a CPS2 Holder:

- has no right to apply for ANZ to be wound up, or placed in administration, or cause a receiver or a receiver and manager to be appointed in respect of ANZ merely on the grounds that ANZ does not pay a Dividend when scheduled; and
- will have no right of set-off and no offsetting rights or claims on ANZ.

Dividends are non-cumulative, and therefore if a Dividend is not paid CPS2 Holders will have no recourse whatsoever to payment from ANZ and will not receive payment of those Dividends unless the Directors, at their absolute discretion and with the prior written approval of APRA, determine to pay an Optional Dividend at a later time.

However, if ANZ does not declare a Dividend or pay a declared Dividend in full within 21 Business Days of a Dividend Payment Date, then the Distribution Restriction applies to ANZ – see Section 1.2.8 for more details.

ANZ may also be prevented from paying Dividends by the terms of other securities (such as Tier 1 Capital and Upper Tier 2 Capital securities) if a dividend or other distribution has not been paid on those securities. If such a constraint applies, ANZ may not be able to pay Dividends on CPS2 without the approval of the holders of those other securities – see Section 4.1.8.

4.1.6 DIVIDENDS MAY NOT BE FULLY FRANKED

ANZ expects Dividends to be fully or substantially franked. However, there is no guarantee that ANZ will have sufficient franking credits in the future to fully frank Dividends.

If a Dividend is unfranked or partially franked, any Dividend paid will be increased to compensate for the unfranked component, subject to the Payment Tests – see Section 1.2.7.

The value and availability of franking credits to a CPS2 Holder will differ depending on the CPS2 Holder's particular tax circumstances. CPS2 Holders should be aware that the potential value of any franking credits does not accrue at the same time as the receipt of any cash Dividend. CPS2 Holders should also be aware that the ability to use the franking credits, either as an offset to a tax liability or by claiming a refund after the end of the income year, will depend on the individual tax position of each CPS2 Holder. CPS2 Holders should also refer to the Taxation Summary in Section 5 and seek professional advice in relation to their tax position.

4.1.7 CHANGES IN DIVIDEND RATE

The Dividend Rate is calculated for each Dividend Period by reference to the Bank Bill Rate, which is influenced by a number of factors and varies over time. The Dividend Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the Bank Bill Rate – see Section 1.2.5.

As the Dividend Rate fluctuates, there is a risk that it may become less attractive when compared to the rates of return available on comparable securities issued by ANZ or other entities.

4.1.8 DISTRIBUTIONS ON CPS2 MAY BE RESTRICTED BY THE TERMS OF OTHER SIMILAR SECURITIES

The terms of ANZ's other outstanding and future securities could limit ANZ's ability to make payments on CPS2. If ANZ does not make payments on CPS2, payments may not be permitted to be made in respect of other similar capital securities (such as certain other Tier 1 Capital and Upper Tier 2 Capital securities). Similarly, if ANZ does not make payments on other similar securities, payments may not be permitted to be made in respect of CPS2.

The payment tests applying to other securities (whether currently outstanding or issued in the future) may be different to the Payment Tests applying to CPS2. Accordingly, ANZ may not be permitted to make a payment on another security in circumstances where it would otherwise be permitted to make a payment on CPS2. In these circumstances, the distribution restrictions on the other securities may then apply, preventing ANZ from making a payment on CPS2. Similarly, ANZ may not be permitted to make a payment on CPS2 in circumstances where the payment tests on other securities have been passed.

If distribution restrictions for another security apply to payments on CPS2, ANZ may not be able to pay Dividends when scheduled to do so under the CPS2 Terms and may not be able to Redeem CPS2. ANZ is not restricted from issuing other securities of this kind or from agreeing in the terms of issue of other securities to additional or different payment tests or distribution restrictions – see also Section 4.1.20.

4.1.9 CPS2 ARE PERPETUAL AND MANDATORY CONVERSION MAY NOT OCCUR ON THE INITIAL MANDATORY CONVERSION DATE OR AT ALL

CPS2 are expected to Convert into Ordinary Shares on 15 December 2016 (subject to certain conditions being satisfied). ANZ may, but is not obliged to, elect that CPS2 be Resold rather than delivering Ordinary Shares issued on Conversion to the investor. However, there is a risk that Conversion will not occur because the Mandatory Conversion Conditions are not satisfied due to a large fall in the Ordinary Share price relative to the Issue Date VWAP, or if Ordinary Shares cease to be quoted on ASX, or have been suspended from trading for at least five consecutive Business Days prior to, and remain suspended on, the Mandatory Conversion Date. Mandatory Conversion would then occur on the next Dividend Payment Date on which all of the Mandatory Conversion Conditions are satisfied unless CPS2 are otherwise Exchanged before that date. If Mandatory Conversion does not occur on a possible Mandatory Conversion Date and CPS2 are not otherwise Exchanged, Dividends will continue to be paid on CPS2, subject to the Payment Tests.

However, CPS2 are a perpetual instrument. If the Ordinary Share price deteriorates significantly and never recovers, it is possible that the Mandatory Conversion Conditions will never be satisfied and, if this occurs, CPS2 will never Convert.

If a Mandatory Conversion Condition is not satisfied, ANZ may, subject to APRA's prior written approval, elect to Redeem CPS2 for cash. However, in the case of ANZ electing to Redeem where the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition is not satisfied, this Redemption may be deferred for up to 30 Business Days after the possible Mandatory Conversion Date. This may be disadvantageous to CPS2 Holders in terms of individual preference and timing.

Regardless of whether the Mandatory Conversion Conditions are satisfied, ANZ may choose to arrange for a Resale to occur from CPS2 Holders to the Nominated Purchaser on a possible Mandatory Conversion Date, which would mean CPS2 Holders would receive \$100 for each CPS2 that was Resold rather than a number of Ordinary Shares upon Conversion – see Sections 4.1.10 and 4.1.11.

Any Redemption or Resale is subject to the discretion of ANZ, and, in the case of Redemption, to obtaining APRA's prior written approval. Accordingly, it is also possible that neither of these will ever occur.

4.1.10 EXCHANGE AND EXCHANGE METHOD ARE AT ANZ'S OPTION

ANZ may (subject to APRA's prior written approval if required) elect to Exchange some or all CPS2 on the occurrence of a Tax Event or a Regulatory Event and may elect to Exchange all (but not some) CPS2 on the occurrence of an Acquisition Event. ANZ may also elect to Redeem all (but not some) CPS2 if a Mandatory Conversion Condition is not satisfied in respect of a possible Mandatory Conversion Date or to Resell all (but not some) CPS2 on a Mandatory Conversion Date regardless of whether the Mandatory Conversion Conditions are satisfied. In addition, ANZ must (subject to certain conditions) Exchange all CPS2 on the occurrence of a Change of Control Event. CPS2 Holders have no right to request or require an Exchange.

Any such Exchange at ANZ's option may occur on dates not previously contemplated by CPS2 Holders, which may be disadvantageous in light of market conditions or their individual circumstances and may not coincide with their individual preference in terms of timing. This also means that the period for which CPS2 Holders will be entitled to the benefit of the rights attaching to CPS2 (such as Dividends) is unknown.

Subject to certain conditions, ANZ also has in many cases a discretion to elect which Exchange Method will apply to an Exchange. The method chosen by ANZ may be disadvantageous to CPS2 Holders and may not coincide with their individual preference in terms of whether they receive Ordinary Shares or cash on the relevant date.

For example, if ANZ elects to Resell the CPS2, CPS2 Holders will receive cash equal to \$100 per CPS2 rather than Ordinary Shares and, accordingly, they will not benefit from any subsequent increases in the Ordinary Share price after the Exchange occurs. In addition, where CPS2 Holders receive cash on Redemption or Resale, the rate of return at which they could reinvest their funds may be lower than the Dividend Rate at the time. Where CPS2 Holders receive Ordinary Shares on Conversion, they will have the same rights as other Shareholders, which are different to the rights attaching to CPS2.

4.1.11 EXCHANGE BY ANZ IS SUBJECT TO CERTAIN EVENTS OCCURRING

If ANZ elects to Exchange by way of Conversion or Redemption, APRA's prior written approval is required. Additionally, ANZ may choose to arrange for a Resale to occur from CPS2 Holders to the Nominated Purchaser on a possible Exchange Date, which would mean CPS2 Holders would receive \$100 for each CPS2 – see Section 4.1.12.

The choice of Conversion as the Exchange Method is subject to the level of the Ordinary Share price on the second Business Day before the date on which an Exchange Notice is to be sent by ANZ. If the VWAP on that date is less than 56.00% of the Issue Date VWAP, ANZ is not permitted to choose Conversion as the Exchange Method. Also if a Delisting Event has occurred before that date and is continuing, ANZ is not permitted to choose Conversion as the Exchange Method.

The conditions to Conversion on the Exchange Date are that the Second Mandatory Conversion Condition and the Third Mandatory Conversion Condition must both be satisfied in respect of the Exchange Date as if the Exchange Date were a possible Mandatory Conversion Date.

If the conditions to Conversion on the Exchange Date are not satisfied, ANZ will notify CPS2 Holders and the Conversion will be deferred until the next Dividend Payment Date on which the Mandatory Conversion Conditions would be satisfied if that Dividend Payment Date were a possible Mandatory Conversion Date.

Where ANZ has chosen to Exchange all CPS2 following an Acquisition Event, the Exchange of CPS2 is subject to obtaining APRA's prior written approval. APRA is not obliged to give this approval and, depending on the facts and circumstances existing at the time of any Acquisition Event, may not do so. If the Directors consider that APRA will not approve the Exchange where required to do so, or the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition will not be satisfied, the Directors are required to use all reasonable endeavours to procure that equivalent takeover offers are made to CPS2 Holders or that they are entitled to participate in the scheme of arrangement or a similar transaction (see clause 12 of the CPS2 Terms). However, any acquirer of ANZ may not agree to do so.

4.1.12 RESALE MAY NOT COMPLETE

If ANZ chooses to Resell CPS2, ANZ will appoint one or more Nominated Purchasers to acquire all CPS2 for cash equal to \$100 per CPS2 based on the terms and conditions agreed between ANZ and the Nominated Purchaser. It will be the Nominated Purchaser's obligation to pay the consideration to CPS2 Holders for CPS2 that are to be Resold. The obligation of a Nominated Purchaser to pay the aggregate purchase price to CPS2 Holders may be subject to conditions. Although ANZ will reasonably endeavour to minimise these conditions, ANZ can give no assurance as to the details of any such conditions. ANZ will have no obligation to pay this amount if it is not paid by the Nominated Purchaser (whether because a condition is not satisfied or otherwise). Accordingly, there is a risk that despite ANZ appointing the Nominated Purchaser, they may not deliver cash equal to \$100 for each CPS2 to be Resold.

If a Nominated Purchaser does not pay cash equal to \$100 for each CPS2 to be Resold, or the Resale otherwise does not complete, if CPS2 would otherwise Convert on that date the relevant CPS2 will not Convert on that date and CPS2 Holders will continue to hold the relevant CPS2 until CPS2 are otherwise Redeemed, Converted or Resold in accordance with the CPS2 Terms.

In addition, in these circumstances, ANZ may, subject to APRA's prior written approval, choose to Exchange all relevant CPS2 at a later date by giving a new Exchange Notice. The new timing and Exchange Method chosen by ANZ may be disadvantageous to the CPS2 Holder in light of market conditions or individual circumstances at the time of Exchange.

If CPS2 Holders receive cash on the Resale, the rate of return at which the cash could be reinvested may be lower than the Dividend Rate at the time.

4.1.13 CONVERSION CONDITIONS

The only conditions to Conversion are the Mandatory Conversion Conditions or the Optional Conversion Restrictions (as the case may be). CPS2 Holders acknowledge that no other conditions will affect the Conversion except as expressly provided by the CPS2 Terms – see clause 10.10(e) of the CPS2 Terms.

Although one condition to Conversion is that a Delisting Event has not occurred, other events and conditions may affect the ability of CPS2 Holders to trade or dispose of the Ordinary Shares issued on Conversion, for example, the willingness or ability of ASX to accept the Ordinary Shares issued on Conversion for listing or any practical issues which affect that listing, any disruption to the market for the Ordinary Shares or to capital markets generally, the availability of purchasers for Ordinary Shares and any costs or practicalities associated with trading or disposing of Ordinary Shares at that time.

4.1.14 RESTRICTIONS ON RIGHTS AND RANKING IN A WINDING UP OF ANZ

CPS2 are not deposit liabilities of ANZ and the payment of Dividends and payment on Resale or Redemption is not guaranteed by ANZ. CPS2 are not subject to the depositor protection provisions of the Banking Act and are not protected accounts for the purposes of the Financial Claims Scheme. CPS2 are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction. CPS2 are issued by ANZ under the CPS2 Terms. A CPS2 Holder has no claim on ANZ in respect of CPS2 except as provided in the CPS2 Terms. CPS2 are unsecured.

In the event of a winding up of ANZ, and assuming CPS2 have not been Exchanged, CPS2 Holders will be entitled to claim for the Liquidation Sum for each CPS2. This is an amount for each CPS2 up to \$100 in respect of its Issue Price and any Dividend (including any Optional Dividend) resolved by the Directors to be paid but unpaid at the commencement of the winding up of ANZ. The claim for the Liquidation Sum ranks ahead of Ordinary Shares, equally with the 2008 CPS, equally with the preference shares comprised in the 2003 Trust Securities, the 2004 Trust Securities and the 2007 Stapled Securities and equally with any other equal ranking instruments, but behind all senior ranking securities and instruments and all depositors and other creditors. Claims in respect of CPS2 are subordinated notwithstanding a winding up of ANZ, as to rank as preference shares as set out in the CPS2 Terms.

If there is a shortfall of funds on a winding up of ANZ to pay all amounts ranking senior to and equally with CPS2, there is a significant risk that CPS2 Holders will not receive a full (or any part of the) Liquidation Sum in a winding up of ANZ. Although the CPS2 may pay a higher rate of dividend than comparable instruments which are not subordinated, there is a significant risk that a CPS2 Holder will lose all or some of their investment should ANZ become insolvent.

4.1.15 CHANGES TO CREDIT RATINGS

ANZ has been assigned a long-term credit rating of “AA” (outlook stable) by Standard & Poor’s and “Aa1” (outlook negative) by Moody’s. CPS2 have been assigned an indicative Issue Credit Rating of “A+” by Standard & Poor’s – see Section 3.5 for further information.

There is a risk that:

- any of the long-term credit ratings assigned to ANZ could be withdrawn, revised or suspended; or
- the Issue Credit Rating assigned to CPS2 or an Issue Credit Rating assigned to one of ANZ’s other rated securities could be withdrawn, revised or suspended,

either of which may impact the market price and liquidity of CPS2. In addition, ANZ currently understands that credit rating agencies may be required to obtain an AFSL by 1 January 2010 and that, if a credit rating agency does not obtain a licence that would permit it to assign or maintain a rating, the credit rating agency may be legally required to withdraw that rating. This increases the risk of withdrawal of ratings. ANZ has no control over whether credit ratings agencies obtain AFSLs and understands that Moody’s may not seek a licence which would permit it to assign or maintain a rating of a retail hybrid security such as the 2008 CPS or CPS2.

Credit ratings are not “market” ratings, nor are they a recommendation to buy, hold or sell securities and are subject to revision or withdrawal at any time.

The credit ratings may not reflect the potential impact of all risks related to the CPS2 structure, market conditions and additional factors discussed in this Section 4, and other factors that may affect the value of CPS2 or ANZ’s financial performance or position.

Credit rating agencies may revise the methodology by which hybrid securities are rated, and ANZ considers it is likely that such changes will shortly be made by Moody’s. If these changes occur, they may result in the rating of CPS2 (if rated by the relevant credit rating agency revising its methodology) and/or other hybrid securities issued by ANZ being materially downgraded. Any such methodology change or downgrade (even if CPS2 are not rated by the relevant credit rating agency or are not themselves downgraded) could adversely affect the market price and liquidity of CPS2.

If ANZ fails to maintain its current corporate credit ratings, this may adversely affect its cost of funds and related margins, access to capital markets, competitive position and other aspects of its performance, and consequently the performance of CPS2.

4.1.16 REGULATORY CLASSIFICATION

APRA has provided confirmation that CPS2 will, once issued, qualify for Non-innovative Residual Tier 1 Capital treatment under Prudential Standards current at the date of this Prospectus. However, if APRA subsequently determines that CPS2 are not or will not qualify for Non-innovative Residual Tier 1 Capital treatment, ANZ may decide that a Regulatory Event has occurred. This will allow Exchange of all or some CPS2 on issue at the option of ANZ (subject to APRA's prior written approval of any Exchange by way of Conversion or Redemption). For the risks attaching to ANZ's discretion to Exchange in certain specified circumstances – see Sections 4.1.10 and 4.1.11.

4.1.17 AUSTRALIAN TAX CONSEQUENCES

A general outline of the tax consequences of investing in CPS2 for certain potential investors who are Australian residents for tax purposes is set out in the Taxation Summary in Section 5. This discussion is in general terms and is not intended to provide specific advice addressing the circumstances of any particular potential investor. Accordingly, potential investors should seek independent advice concerning their own individual tax position.

If a change is made to the Australian tax system and that change leads to a more than insubstantial risk of:

- a significant increase in ANZ's costs in relation to CPS2 being on issue;
- a dividend on CPS2 not being frankable;
- franking credits not being available to Australian tax resident CPS2 Holders generally; or
- the CPS2 not being disregarded in accordance with section 703-37 of the Tax Act,

ANZ is entitled to Exchange all or some CPS2 (subject to APRA's prior written approval where required) – see Section 4.1.10.

If the corporate tax rate were to change, the relative components of CPS2 Holder Dividends, which are in the form of cash and franking credits, will change.

ANZ has applied for a class ruling from the Australian Taxation Office for confirmation of certain Australian tax consequences for CPS2 Holders as discussed in the Taxation Summary in Section 5. The issue of any class ruling is expected in December 2009.

4.1.18 ACCOUNTING STANDARDS

A change in accounting standards by either the International Accounting Standards Board or Australian Accounting Standards Board may affect the reported earnings and financial position of ANZ in future financial periods. This may adversely affect the ability of ANZ to pay Dividends.

4.1.19 EXCHANGE ON CHANGE OF CONTROL EVENT

If a Change of Control Event occurs, ANZ is required to Exchange all CPS2 in accordance with the CPS2 Terms (see clause 6 of the CPS2 Terms). However, the obligation of ANZ to Exchange CPS2 is subject to obtaining APRA's prior written approval where required. APRA is not obliged to give this approval and, depending on the facts and circumstances existing at the time of any Change of Control Event, may not do so.

As detailed in Section 1.6.2, if ANZ is not required to give a Change of Control Exchange Notice as a result of APRA failing to approve Redemption as the Exchange Method, and ANZ is prevented from electing Conversion as the Exchange Method (see clauses 5.4 and 6.4 of the CPS2 Terms), ANZ will, as noted in Section 1.6.5, give a new Change of Control Exchange Notice which, subject to APRA's prior written approval where required, will specify either Redemption or Conversion (as elected by ANZ) as the Exchange Method for Exchange on the next Dividend Payment Date. This process will be repeated for each Dividend Payment Date until an Exchange occurs.

4.1.20 FUTURE ISSUES OR REDEMPTIONS OF SECURITIES BY ANZ

CPS2 do not in any way restrict ANZ from issuing further securities or from incurring further indebtedness. ANZ's obligations under CPS2 rank subordinate and junior in right of payment and in a winding up to ANZ's obligations to holders of senior ranking securities and instruments, and its depositors and other creditors, including subordinated creditors. Accordingly, ANZ's obligations under CPS2 will not be satisfied unless it can satisfy in full all of its other obligations ranking senior to CPS2.

ANZ may in the future issue securities that:

- rank for dividends or payments of capital (including on the winding up of ANZ) equal with, behind or ahead of CPS2;
- have the same or different dividend, interest or distribution rates as CPS2;
- have payment tests and distribution restrictions or other covenants which affect CPS2 (including by restricting circumstances in which Dividends can be paid on CPS2 or CPS2 can be Redeemed); or
- have the same or different terms and conditions as CPS2.

ANZ may incur further indebtedness and may issue further securities including further Tier 1 Capital securities before, during or after the issue of CPS2. For example, as part of its ongoing capital management program, ANZ continually considers the issuance of hybrid securities in domestic and offshore markets.

An investment in CPS2 carries no right to participate in any future issue of securities (whether equity, hybrid, debt or otherwise) by ANZ.

No prediction can be made as to the effect, if any, which the future issue of securities by ANZ may have on the market price or liquidity of CPS2 or of the likelihood of ANZ making payments on CPS2.

Similarly, CPS2 do not restrict ANZ from redeeming or otherwise repaying its other existing securities, including other existing securities which rank equally with CPS2 (other than to the extent the Distribution Restrictions apply or insofar as CPS2 Holders have a right to vote in respect of a buy back or reduction of capital on a security in the form of a share).

ANZ may redeem or otherwise repay existing securities including existing equal ranking Tier 1 Capital securities before, during or after the issue of CPS2. An investment in CPS2 carries no right to be redeemed or otherwise repaid at the same time as ANZ redeems or otherwise repays other securities (whether equity, hybrid, debt or otherwise).

No prediction can be made as to the effect, if any, which the future redemption or repayment by ANZ of existing securities may have on the market price or liquidity of CPS2 or on ANZ's financial position or performance.

4.1.21 APPROVED NOHC EVENT

Certain events which would otherwise constitute Acquisition Events are categorised under the CPS2 Terms as Approved NOHC Events. Where an Approved NOHC Event occurs and certain other conditions are satisfied, the Approved NOHC Event will not trigger an Exchange of CPS2 but will instead allow ANZ to make amendments to substitute the Approved NOHC as the issuer of the ordinary shares issued on Conversion and will permit ANZ to make certain other amendments to the CPS2 Terms. Accordingly, potential investors should be aware that, if an Approved NOHC Event occurs and a substitution of the issuer of the ordinary shares on Conversion is effected under the CPS2 Terms, CPS2 Holders will be obliged to accept the Approved NOHC ordinary shares and will not receive Ordinary Shares on Conversion.

Potential investors should also be aware that CPS2 Holders acknowledge and agree pursuant to the CPS2 Terms that they have no right to vote on any proposal to approve, implement or give effect to a NOHC Event.

Any consideration by ANZ of proposals that would constitute an Approved NOHC Event has only been preliminary and no formal decision has been made to pursue such an event.

Following an Approved NOHC Event, ANZ would continue to be regulated by APRA. However, depending on the structure of the acquirer following an Approved NOHC Event and the capital framework which APRA determines to apply to it, the composition of ANZ's three capital measurement levels may be affected, which in turn may affect the likelihood of ANZ having Distributable Profits in an amount sufficient to enable Dividends to be paid on CPS2. It may also affect ANZ's credit rating, and the net assets of ANZ which may affect the likelihood CPS2 Holders will receive their claims in full if ANZ is wound up.

4.1.22 SHAREHOLDING LIMITS

The Financial Sector (Shareholdings) Act 1998 (Cth) restricts ownership by people (together with their associates) of an Australian bank, such as ANZ, to a 15% stake. A shareholder may apply to the Australian Treasurer to extend their ownership beyond 15%, but approval will not be granted unless the Treasurer is satisfied that a holding by that person greater than 15% is in the national interest.

Mergers, acquisitions and divestments of Australian public companies listed on ASX (such as ANZ) are regulated by detailed and comprehensive legislation and the rules and regulations of ASX. These provisions include restrictions on the acquisition and sale of relevant interests in certain shares in an Australian listed company under the Corporations Act and a requirement that acquisitions of certain interests in Australian listed companies by foreign interests are subject to review and approval by the Treasurer. In addition, Australian law also regulates acquisitions which would have the effect, or be likely to have the effect, of substantially lessening competition in a market, or in a state or in a territory of, Australia.

CPS2 Holders should take care to ensure that by acquiring any CPS2 (taking into account any Ordinary Shares into which they may Convert), CPS2 Holders do not breach any applicable restrictions on ownership.

4.2 PRINCIPAL RISKS AND UNCERTAINTIES ASSOCIATED WITH ANZ

4.2.1 BUSINESS RISKS

The Group's performance is primarily influenced by economic conditions in Australia, New Zealand and the Asia Pacific region including the level and cyclical nature of the Group's business activity in these regions, which in turn are affected by both domestic and international economic and political events. The Australian and New Zealand economies, as well as the economies of Asian countries in which the Group operates, may be significantly and adversely affected by events in global markets.

The Group would be at risk of loss of earnings if it were unable to adapt cost structures, products, pricing, or activities in response to lower than expected revenues, or higher than expected costs (including credit costs), caused by an adverse change in the economy and general business conditions or operating environment.

Economic and political factors and events in Australia, New Zealand and Asian countries in which the Group operates which can adversely affect the Group's performance and results include, but are not limited to, short term and long-term interest rates, inflation and monetary supply, commodity price volatility, fluctuations in both debt and equity capital markets, relative changes in foreign exchange rates, consumer confidence and the strength of the Australian and New Zealand economies as well as the economies of Asian countries in which the Group operates.

Australian, New Zealand and Asian economic conditions may also be affected by geo-political instability, including, among other factors, actual or potential conflict and terrorism. The Group's future performance may also be affected by the economic conditions of other regions in which the Group's operations are conducted.

The ongoing dislocation in credit and capital markets has impacted global economic activity and created many challenges for financial services companies worldwide. Australian economic conditions in early 2009 revealed a weakening trend in retail sales, rapid declines in personal and business credit growth, lower growth in housing credit and subdued business and consumer confidence. The New Zealand economy contracted sharply in 2008 and the first half of 2009. Conditions still remain difficult, especially in the rural and commercial sectors. A continued or worsening general economic downturn, reduced asset values in the housing, commercial or rural property markets (including a decrease in housing, commercial or rural property prices), an increase in unemployment or other events that negatively impact household or corporate incomes or asset values could have a negative effect on the demand for the Group's loan and non-loan products and services and increase the number of customers who fail to pay interest or repay principal on their loans.

In the Group's wealth management business, earnings are in part dependent on asset and equity values and demand is affected by past investment performance. Deterioration in global markets, including equity, property and other asset markets, could impact our customers and the security we hold against loans which may impact the Group's operation and profitability.

Climatic events (e.g. droughts), geological events (e.g. volcanic or seismic activity) or other extrinsic events (e.g. flu pandemic) could have a negative effect on the Group's ability and the ability of customers to pay interest or repay principal on their loans. As a consequence of the Group's large market share in the New Zealand rural sector (particularly the dairy sector), the Group has exposure to events affecting this sector.

4.2.2 COMPETITION, ESPECIALLY IN AUSTRALIA, NEW ZEALAND AND ASIAN MARKETS

The financial services sector in which the Group operates is highly competitive and could become even more so, particularly in those segments that are considered to provide higher growth prospects or are in greatest demand (e.g. deposits). Factors that contribute to competition risk include industry deregulation, mergers and acquisitions, changes in customers' needs and preferences, entry of new participants, development of new distribution and service methods and increased diversification of products by competitors. For example, changes in the financial services sector in Australia and New Zealand have made it possible for non-banks to offer products and services traditionally provided by banks, such as automatic payment systems, mortgages and credit cards. In addition, banks in different jurisdictions are subject to different levels of regulation and consequently some may have lower cost structures.

The effect of the competitive market conditions in which the Group operates may have a material adverse effect on its financial performance and position, especially in Australia, New Zealand and the Asian markets. For example, increasing competition for customers can lead to a compression in the Group's net interest margins, or increased advertising and related expenses to attract and retain customers.

4.2.3 GENERAL ACQUISITION RISK

The Group regularly examines a range of corporate opportunities including material acquisitions and dispositions with a view to determining whether those opportunities will enhance the Group's financial performance and position. Any corporate opportunity that is pursued could, for a variety of reasons, turn out to have a material adverse effect on the Group. The successful implementation of the Group's corporate strategy will depend on a range of factors including potential funding strategies and challenges associated with integrating and adding value to an acquired business.

There can be no assurance that any acquisitions will have the anticipated positive results, including results relating to the total cost of integration, the time required to complete the integration, the amount of longer-term cost savings, the overall performance of the combined entity, or an improved price for the Group's securities, including CPS2. Integration of an acquired business can be complex and costly, sometimes including combining relevant accounting and data processing systems and management controls, as well as managing relevant relationships with employees, clients, suppliers and other business partners. Integration efforts could divert management attention and resources, which could adversely affect the Group's operations or results.

Acquisitions may also result in business disruptions that cause the Group to lose customers or cause customers to remove their accounts from the Group and move their business to competing financial institutions. It is possible that the integration process related to acquisitions could result in the disruption of the Group's ongoing businesses or inconsistencies in standards, controls, procedures and policies that could adversely affect the Group's ability to maintain relationships with clients, customers, depositors and employees. The loss of key employees in connection with an acquisition could adversely affect the Group's ability to conduct its business successfully.

The Group's operating performance, risk profile or capital structure may also be affected by these corporate opportunities and there is a risk that any of the Group's credit ratings may be placed on credit watch or downgraded if these opportunities are pursued.

The Group announced on 4 August 2009 it had reached agreement with RBS to acquire selected RBS businesses in Asia for around \$626 million (US\$550 million). The acquisition includes the RBS retail, wealth and commercial businesses in Taiwan, Singapore, Indonesia and Hong Kong, and the institutional businesses in Taiwan, the Philippines and Vietnam. On 25 September 2009, the Group announced it had reached agreement with the ING Group to acquire its 51% shareholding in the ANZ-ING wealth management and life insurance joint ventures in Australia and New Zealand for \$1,760 million. As at the date of this Prospectus these transactions have not yet completed.

4.2.4 UNCERTAINTY OF GLOBAL FINANCIAL STABILISATION PACKAGES

In response to the ongoing global financial crisis affecting the banking system and financial markets generally and deteriorating global financial conditions, on 12 October 2008 the Australian Government announced a program to guarantee deposits and certain wholesale term funding of eligible Australian financial institutions including ANZ. In addition, the Minister of Finance of New Zealand announced an opt-in retail deposit guarantee scheme on 12 October 2008 and, on 1 November 2008, a wholesale funding guarantee facility, available to financial institutions that have an investment grade credit rating and have substantial New Zealand borrowing and lending operations. Similar stabilising actions have been announced by governments and regulatory bodies in the United States, United Kingdom, Europe and other jurisdictions.

Stabilisation packages announced by governments and regulators have contributed to an improvement in credit and capital market conditions. Specific programs have also enabled banks to support their capital and funding positions by debt and equity. It is not certain that these or other government sponsored economic stabilisation efforts will be successful.

Internationally, financial stabilisation packages are progressively being withdrawn. This may result in unexpected stress on the global financial system, including ANZ and its customers and counterparties.

The withdrawal of the Australian Government guarantee scheme for deposits and wholesale funding may adversely impact Bank's ability to access sources of funding and lead to a decrease in the Group's liquidity position and increase in funding costs.

It is also possible that new risks may emerge as a result of markets experiencing stress, or existing risks manifest in ways that are not currently foreseeable.

4.2.5 CHANGES IN MONETARY POLICIES

The Reserve Bank of Australia and the Reserve Bank of New Zealand regulate the supply of money and credit in Australia and New Zealand respectively. Their policies determine in large part the Group's cost of funds for lending and investing and the return that the Group will earn on those loans and investments. Both of these factors impact the Group's net interest margin and can affect the value of financial instruments it holds, such as debt securities and hedging instruments. The policies of the RBA and the RBNZ, and any other relevant central monetary authority, can also affect the Group's borrowers, potentially increasing the risk that they may fail to repay loans. Changes in the RBA and RBNZ's policies are difficult to predict accurately.

4.2.6 CREDIT RISK

As a financial institution, the Group is exposed to the risks associated with extending credit to other parties. Less favourable business or economic conditions, whether generally or in a specific industry sector or geographic region, could cause customers or counterparties to experience adverse financial consequences, thereby exposing the Group to the increased risk that those customers or counterparties will fail to meet their obligations in accordance with agreed terms.

The Group holds provisions for credit impairment. The amount of these provisions is determined by assessing the extent of impairment inherent within the current lending portfolio, based on current information. This process, which is critical to the Group's financial results and condition, requires difficult, subjective and complex judgements, including forecasts of how current and future economic conditions might impair the ability of borrowers to repay their loans. However, if the information upon which the assessment is made proves to be inaccurate, or if the Group fails to identify proper factors or fails to accurately estimate the impact of factors the Group does identify, the provisions made for credit impairment may be insufficient, which could have a material adverse effect on the Group's financial performance.

Although an increase in credit costs is to be expected as the economic cycle turns after a long period of low interest rates, high liquidity and robust economic growth in Australia and New Zealand, there can be no guarantee as to when or if impairment charges will begin to decline.

In addition, in assessing whether to extend credit or enter into other transactions with customers, the Group relies on information provided by or on behalf of customers, including financial statements and other financial information. The Group may also rely on representations of customers as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors. The Group's financial performance could be negatively impacted to the extent that it relies on information that is inaccurate or materially misleading.

4.2.7 WEAKENING OF THE REAL ESTATE MARKETS IN AUSTRALIA OR NEW ZEALAND

Residential, commercial and rural property lending, together with property finance, including real estate development and investment property finance, constitute important businesses to the Group. As of 30 September 2009, housing loans represented approximately 56%, and commercial property finance represented approximately 8%, of the Group's net loans and advances respectively. Property values have been quite volatile and in some locations there has been substantially reduced asset values. A decrease in property valuations in Australia and New Zealand could decrease the amount of new lending the Group is able to write and/or increase the losses that the Group may experience from existing loans, which, in either case, could materially and adversely impact the Group's financial condition and results of operations. In particular, a significant slowdown in the Australian and New Zealand housing markets could adversely affect the results of operations of the Group.

4.2.8 COUNTERPARTY RISK

The Group is exposed to the potential risk of credit related losses that can occur as a result of a counterparty being unable or unwilling to honour its contractual obligations. As with any financial services organisation, the Group assumes counterparty risk in connection with its lending, trading, derivatives and other businesses where it relies on the ability of a third party to satisfy its financial obligations to the Group on a timely basis. The resultant credit exposure will depend on a number of factors including declines in the financial condition of the counterparty, the value of assets the Group holds as collateral and the market value of the counterparty instruments and obligations it holds. Credit losses can and have resulted in financial services organisations realising significant losses and in some cases failing altogether. To the extent the Group's credit exposure increases, the increase could have an adverse effect on the Group's business and profitability if material unexpected credit losses occur. The Group is also subject to the risk that its rights against third parties may not be enforceable in certain circumstances.

4.2.9 LITIGATION AND CONTINGENT LIABILITIES

From time to time, the Group may be subject to material litigation, regulatory actions, legal or arbitration proceedings and other contingent liabilities which, if they crystallise, may adversely affect the Group's results. Details regarding the Group's material contingent liabilities as at 30 September 2009 are contained in Note 15 ("Contingent liabilities and contingent assets") to the Group's Condensed Consolidated Financial Information and Other Disclosures for the full year ended 30 September 2009. There is a risk that these contingent liabilities may be larger than anticipated or that additional litigation or other contingent liabilities may arise.

4.2.10 LIQUIDITY AND FUNDING RISK

Liquidity risk is the risk that the Group has insufficient capacity to fund increases in assets, or is unable to meet its payment obligations as they fall due, including repaying depositors or maturing wholesale debt. Liquidity risk is inherent in all banking operations due to the timing mismatch between cash inflows and cash outflows which is closely monitored by the Group. Reduced liquidity could also lead to an increase in the cost of the Group's borrowings and possibly constrain the volume of new lending, which could adversely affect the Group's profitability. A significant deterioration in investor confidence in the Group could materially impact the Group's ongoing operations and funding.

The Group utilises a variety of funding sources including customer deposits and wholesale funding to ensure that it continues to meet its funding obligations and to maintain or grow its business generally. As at 30 September 2009, approximately 22% of ANZ's overall funding requirement was comprised of wholesale debt with a term to maturity of less than 12 months.

In times of systemic liquidity stress, or in the event of damage to market confidence in the Group, the Group's ability to access sources of funding and liquidity may be constrained. Deterioration in global markets and systemic market liquidity stress may limit the Group's ability to access sources of funding and liquidity.

Since the second half of 2007, developments in the US mortgage industry and in the US and European markets more generally, have adversely affected the liquidity in global credit and capital markets. This has resulted in an increase in funding costs and in many cases a reduction in the availability of some funding sources. Ongoing instability or future deterioration in these market conditions may limit the Group's ability to replace maturing liabilities and access capital in a timely manner necessary to fund and grow its business. The duration and ramifications of global credit and capital markets are unknown.

4.2.11 CHANGE IN CREDIT RATING

The Group's credit rating has a significant impact on both its access to, and cost of, wholesale funding. A reduction in the Group's credit rating could reduce its access to wholesale debt markets and lead to an increase in funding costs. Credit rating references may be withdrawn revised, or suspended by the relevant credit rating agency at any time. Credit rating references are not a recommendation by the relevant credit rating agency to invest in securities, including the CPS2, offered by ANZ.

4.2.12 MARKET RISK

Market risk is the risk to the Group's earnings arising from changes in interest rates, foreign exchange rates, credit spreads, equity prices and indices prices of commodities, debt securities and other financial contracts including derivatives. Losses arising from these risks may have a material adverse effect on the Group.

As the Group conducts business in several different currencies, mainly Australian and New Zealand dollars, its businesses may be affected by a change in currency exchange rates. Additionally, as ANZ's annual and interim reports are prepared and stated in Australian dollars, any appreciation in the Australian dollar against other currencies in which the Group earns revenues may adversely affect the reported earnings.

4.2.13 CAPITAL ADEQUACY RISK

The Group's capital base is critical to the management of its businesses and access to funding. The Group is required by regulators including, but not limited to APRA, the RBNZ, the UK Financial Services Authority and US regulators to maintain adequate regulatory capital.

Under Basel II, risk weighted assets and expected loan losses increase as a counterparty's risk grade worsens. These additional regulatory capital requirements compound the reduction in capital resulting from increased provisions for loan losses. Accordingly, greater volatility in capital ratios may arise.

4.2.14 FAIR VALUE ADJUSTMENTS

Under Australian Accounting Standards, the Group recognises at fair value:

- financial instruments classified as “held-for-trading” or “designated as at fair value through profit or loss”;
- financial assets classified as “available-for-sale”; and
- derivatives.

Generally, in order to establish the fair value of these instruments, the Group relies on quoted market prices or, where the market for a financial instrument is not sufficiently active, fair values are based on present value estimates or other market accepted valuation techniques. In certain circumstances, the data for individual financial instruments or classes of financial instruments used by such estimates or techniques may not be available or may become unavailable due to changes in market conditions. In these circumstances, the fair value is determined using data derived and extrapolated from market data and tested against historic transactions and observed market trends.

The valuation models incorporate the impact of factors that would influence the fair value determined by a market participant. Principal inputs used in the determination of fair value of financial instruments based on valuation techniques include data inputs such as statistical data on delinquency rates, foreclosure rates, actual losses, counterparty credit spreads, recovery rates, implied default probabilities, credit index tranche prices and correlation curves. These assumptions, judgements and estimates need to be updated to reflect changing trends and market conditions. The resulting change in the fair values of the financial instruments could have a material adverse effect on the Group's earnings.

4.2.15 CREDIT INTERMEDIATION AND EXPOSURE TO FINANCIAL GUARANTORS

ANZ entered into a series of structured credit intermediation trades from 2004 to 2007. The underlying structures involve credit default swaps (CDSs) over synthetic collateralised debt obligations (CDOs) (78%), portfolios of external collateralised loan obligations (CLOs) (13%) and specific bonds/floating rate notes (9%).

Under these credit intermediation trades, ANZ sold protection using CDSs over structures to investment banks and purchased protection from eight financial guarantors.

As derivatives, both the sold protection and purchased protection are marked-to-market. Prior to the commencement of the global credit crisis, gains and losses were not significant and were offset. As at 30 September 2009, the value of the obligation under the sold protection is \$1.020 billion (US\$0.897 billion), for which the purchased protection has provided only a partial offset as a result of:

- one of the purchased protection counterparties defaulting and many of the remaining counterparties being downgraded;
- ANZ making a credit valuation adjustment on the remaining counterparties which reflects changes to credit spreads; and
- realised losses related to restructuring trades to reduce risks and foreign exchange hedging losses.

As a result of the two points above, as at 30 September 2009, the aggregate life to date credit risk on derivatives expense for these trades was \$584 million (US\$427 million) before tax.

It is expected that there will continue to be volatility in the credit risk on derivative charge. This volatility could continue to have a material adverse effect on the Group's reported results and capital.

4.2.16 OPERATIONAL RISK

Operational risk refers to risks arising from day-to-day operational activities which may result in direct or indirect losses. These losses may result from both internal and external events.

Operational risks that the Group is exposed to include the risks arising from process error or failure, inadequate processes, people or systems, fraud, systems failure, failure and breach of security, physical protection and recovery systems, failure of customer services, staff skills and performance, product development and maintenance, and breaches of the Group's internal policies and of laws and regulations. Similarly, there are operational risks in the management, design and implementation of major projects.

Further, the Group is exposed to operational failures by third party providers, including outsourcing, natural disasters, political, security and social events and to failings in the financial services sector.

4.2.17 FAILURE OF INFORMATION TECHNOLOGY SYSTEMS

The Group is highly dependent on information systems and technology and there is a risk that these, or the services it uses or is dependent upon, might fail. Most of the Group's daily operations are computer based and information technology systems are essential to maintaining effective communications with customers. The exposure to systems risks includes the complete or partial failure of information technology systems or data centre infrastructure, the inadequacy of internal third-party information technology systems due to, among other things, failure to keep pace with industry developments, and the capacity of the existing systems to effectively accommodate planned growth and integrate existing and future acquisitions and alliances. To manage some of these risks, the Group has disaster recovery and systems continuity plans in place. However, any failure of these systems could result in business interruption, loss of customers, damage to reputation and/or a weakening of the Group's competitive position and could adversely impact the Group's business and have a material adverse effect on the Group's financial condition and operations. In addition, the Group must constantly update and implement new information technology systems, in part to assist it to satisfy regulatory demands, ensuring information security, enhancing computer based banking services for the Group's customers and integrating the various segments of its business. The Group may not organise these implementation projects effectively or execute them efficiently, which could lead to increased project costs, delays in the ability to comply with regulatory requirements, failure of the Group's information security controls or a decrease in the Group's ability to enhance services to customers.

4.2.18 REGULATORY RISK

There is a risk of significant change in the global regulatory environment in response to the ongoing global financial crisis that has affected financial markets around the world. It is difficult to predict the impact of any such changes on the Group.

One potential outcome of the ongoing global financial crisis is that capital regulations may be tightened and minimum capital requirements increased. The impact of those changes on the Group and holders of CPS2 are unable to be predicted at this stage.

Entities in the Group are subject to laws, regulations, policies and codes of practice in Australia, New Zealand and in the other countries (including but not limited to the United Kingdom, the United States and different countries within Asia) in which they have operations, trade or raise funds or in respect of which it has some other connection. Regulations vary from country to country but generally are designed to protect depositors and the banking system as a whole.

The Australian Government and its agencies, including APRA, the RBA and other financial industry regulatory bodies including ASIC, have supervisory oversight of the Group. The New Zealand Government and its agencies, including the RBNZ, have supervisory oversight of the Group's operations in New Zealand. To the extent that a member of the Group has operations, trades or raises funds in, or has some other connection with, countries other than Australia or New Zealand, then such activities may be subject to the laws of, and regulation by agencies in, these countries. Such regulatory agencies include, by way of example, the US Federal Reserve Board, the US Department of Treasury, the US Office of the Comptroller of the Currency, the UK's Financial Services Authority, the Monetary Authority of Singapore, the Hong Kong Monetary Authority and other financial regulatory bodies in those countries and in other relevant countries. A failure to comply with any laws, regulations or policies in any of those jurisdictions could result in sanctions by these or other regulatory agencies, or the exercise of any discretionary powers that the regulators hold, which may cause substantial damage to the Group's reputation. To the extent that these regulatory requirements limit the Group's operations or flexibility, they could adversely impact the Group's profitability and prospects, and the Group's ability to pay coupons, distributions and principal on securities issued by the Group.

Consistent with global regulatory changes relating to liquidity risk, APRA is currently revising the prudential standard for Liquidity Risk management, APS 210. The process is currently at the consultative stage, with final details not expected until mid 2010. The changes may impact the Group's future funding capacity and may have adverse earnings implications for the Group.

In addition, the Group's failure to comply with laws, regulations or codes of practice could result in the imposition of sanctions by regulatory agencies and compensatory action by affected persons, and could damage the Group's reputation, in any jurisdiction.

These regulatory and other governmental agencies (including revenue and tax authorities) frequently review banking and tax laws, regulations, codes of practice and policies. Changes to laws, regulations, codes of practice or policies

including changes in interpretation or implementation of laws, regulations, codes of practice or policies, could affect the Group in substantial and unpredictable ways. These may include increasing required levels of bank liquidity and capital adequacy, limiting the types of financial services and products the Group can offer and/or increasing the ability of non-banks to offer competing financial services or products, as well as changes to accounting standards, taxation laws and prudential regulatory requirements.

4.2.19 REPUTATION RISK

Reputation risk may arise as a result of an external event or as a result of the Group's own actions and adversely affect perceptions about the Group held by the public, shareholders, investors, regulators or rating agencies. The impact of a risk event on the Group's reputation may exceed any direct cost of the risk event itself and may adversely impact the Group's results.

Damage to the Group's reputation may have wide ranging impacts, including the Group's profitability, capacity to source funding and liquidity, cost of sourcing funding and liquidity and business opportunities.

4.2.20 CHANGES TO ACCOUNTING POLICIES

The accounting policies and methods that the Group applies are fundamental to how it records and reports its financial position and results of operations. Management must exercise judgement in selecting and applying many of these accounting policies and methods so that not only do they comply with generally accepted accounting principles but they also reflect the most appropriate manner in which to record and report on the financial position and results of operations. However, these accounting policies may be applied inaccurately, resulting in a misstatement of financial position and results of operations.

In some cases, management must select an accounting policy or method from two or more alternatives, any of which might comply with generally accepted accounting principles and be reasonable under the circumstances, yet might result in reporting materially different outcomes than would have been reported under another alternative.

SECTION 5 TAXATION SUMMARY

THIS SECTION CONTAINS A SUMMARY OF THE AUSTRALIAN TAX CONSEQUENCES FOR POTENTIAL CPS2 HOLDERS AND IS BASED ON AUSTRALIAN TAX LAW AND ADMINISTRATIVE PRACTICE AS AT THE DATE OF THIS PROSPECTUS. THIS SUMMARY IS NECESSARILY GENERAL IN NATURE AND IS NOT INTENDED TO BE DEFINITIVE TAX ADVICE TO CPS2 HOLDERS. ACCORDINGLY, EACH PROSPECTIVE CPS2 HOLDER SHOULD SEEK THEIR OWN TAX ADVICE, WHICH IS SPECIFIC TO THEIR PARTICULAR CIRCUMSTANCES, AS TO THE TAX CONSEQUENCES OF INVESTING IN, HOLDING AND DISPOSING OF CPS2.

The Directors
Australia and New Zealand Banking Group Limited
Level 14

Dear Directors

Australian tax consequences of investing in CPS2

We have been instructed by Australia and New Zealand Banking Group Limited (**ANZ**) to prepare a tax summary for inclusion in the Prospectus dated 10 November 2009 in relation to the issue of CPS2.

1

Scope

This letter provides a summary of the Australian income tax, capital gains tax (**CGT**) and goods and services tax (**GST**) consequences for Australian tax resident CPS2 Holders (**Resident CPS2 Holders**) and CPS2 Holders who are not tax residents of Australia (**Non Resident CPS2 Holders**) who subscribe for CPS2 and hold them on capital account for tax purposes.

Tax considerations which may arise for Resident CPS2 Holders who are in the business of share trading, are dealing in securities or otherwise hold CPS2 on revenue account, or Non Resident CPS2 Holders who carry on a business at or through a permanent establishment in Australia, have not been considered in this summary.

This summary is based on the Australian tax law and administrative practice currently in force as at the date of the Prospectus. It is necessarily general in nature and is not intended to be definitive tax advice to Resident CPS2 Holders or Non Resident CPS2 Holders. Accordingly, each Resident CPS2 Holder and each Non Resident CPS2 Holder should seek their own tax advice that is specific to their particular circumstances.

The representatives of Greenwoods & Freehills involved in preparing this tax summary are not licensed to provide financial product advice in relation to dealing in securities. Accordingly, Greenwoods & Freehills does not seek to recommend, promote or otherwise encourage any party to participate in the issue of CPS2. Potential investors should consider seeking advice from a suitably qualified Australian Financial Services licence holder before making any investment decision. Potential investors should also note that taxation is only one of the matters that may need to be considered.

Unless defined in this letter or the context indicates otherwise, all capitalised terms in this letter bear the same meaning as those contained in the Prospectus and the CPS2 Terms.

Greenwoods & Freehills has given its consent to the inclusion of this letter in the Prospectus.

Anticipated Class Ruling – applicable to certain Resident CPS2 Holders

ANZ has applied to the Australian Taxation Office (**ATO**) for a public class ruling (**Class Ruling**) confirming certain tax consequences for Resident CPS2 Holders. The Class Ruling does not become operative until it is published in the Government Gazette.

When issued, copies of the Class Ruling will be available free of charge from the ATO (www.ato.gov.au), or by downloading them from ANZ's website (www.anz.com.au).

It is expected that, when issued, the Class Ruling will:

- only be binding on the Commissioner of Taxation (**Commissioner**) if the Offer is carried out in the specific manner described in the Class Ruling;

Doc 510046230.8

- only apply to Resident CPS2 Holders that are within the class of entities specified in the Class Ruling (**Applicable Resident CPS2 Holders**), being Resident CPS2 Holders who acquire their CPS2 by initial subscription and hold them on capital account for tax purposes. Accordingly, the Class Ruling will not apply to Resident CPS2 Holders who hold their CPS2 as trading stock or revenue assets;
- only rule on the taxation laws as at the date the Class Ruling is issued;
- not consider the tax implications of the Exchange of CPS2 by Conversion, Redemption or Resale; and
- not consider the taxation treatment of Dividends received by partnerships or trustee investors.

You should also be aware that the Class Ruling will not mean the ATO guarantees or endorses the commercial viability of investing in CPS2.

Subject to the above qualifications or where otherwise indicated, it is expected that the Class Ruling will confirm the taxation consequences as outlined in sections 3.1 to 3.4 below.

3 Tax consequences for Resident CPS2 Holders expected to be addressed in the Class Ruling

3.1 Dividends on CPS2

Dividends paid on the CPS2 (together with the attached franking credits) must be included in the assessable income of an Applicable Resident CPS2 Holder.

Provided an Applicable Resident CPS2 Holder is a “**qualified person**” (see discussion below in section 4.1 for further details) in relation to their CPS2 holding, the Applicable Resident CPS2 Holder will be entitled to a tax offset equal to the amount of the franking credits attached to the Dividends. To the extent that the tax offset attributable to the franking credits on a Dividend exceeds the income tax liability for an income year of an Applicable Resident CPS2 Holder who is an individual or complying superannuation entity, the excess tax offset may be refunded to the Applicable Resident CPS2 Holder.

The Resale facility in CPS2 will not, of itself, affect an Applicable Resident CPS2 Holder’s ability to satisfy the “qualified person” rules discussed below.

If a Dividend (or a part of it) is either exempt income or non-assessable non-exempt income in the hands of an Applicable Resident CPS2 Holder, then the amount of any franking credit on the Dividend is not included in the assessable income of the CPS2 Holder and the CPS2 Holder is not entitled to a tax offset.

It is anticipated that the Commissioner will not apply the anti-avoidance provisions contained in the Australian tax law to deny the whole or any part of the imputation benefits received by Applicable Resident CPS2 Holders in relation to the Dividends payable in respect of CPS2.

3.2 CGT cost base and acquisition date for CPS2

The cost base (or reduced cost base) of each CPS2 acquired by an Applicable Resident CPS2 Holder may include \$100 (being the issue price of CPS2). Although it is not expected to be addressed in the Class Ruling, the cost base (or reduced cost base) of each CPS2 should also include any incidental costs (e.g. broker fees, adviser fees) associated with the acquisition and disposal of CPS2. This will be relevant in determining the capital gain or capital loss resulting on a disposal of CPS2 (see discussion below for further details).

Each CPS2 will be taken to have been acquired by an Applicable Resident CPS2 Holder on the date the CPS2 are issued (which is expected to be 17 December 2009).

3.3 Conversion of CPS2¹

The Conversion of each CPS2 into an Ordinary Share and the allotment of additional Ordinary Shares will not result in a CGT event for CGT purposes.

¹ The Class Ruling is expected to only address the tax implications of Conversion other than in the context of an Exchange. Although it is not expected to be addressed in the Class Ruling, the tax implications of a Conversion as part of an Exchange should be the same.

The value of any additional Ordinary Shares that are issued on a Conversion of CPS2 will not be assessable as dividend income or ordinary income in the hands of the Applicable Resident CPS2 Holders.

It is anticipated that the Commissioner will not apply the anti-avoidance provisions contained in the Australian tax law to treat the additional Ordinary Shares acquired on Conversion of CPS2 as an unfranked dividend in the hands of Applicable Resident CPS2 Holders.

3.4 CGT cost base and acquisition date for Ordinary Shares

Upon Conversion, the cost base (or reduced cost base) of the Ordinary Shares issued to an Applicable Resident CPS2 Holder will be determined by spreading the cost base (or reduced cost base) of the original CPS2 of an Applicable Resident CPS2 Holder across all of the Ordinary Shares issued to that holder, being the additional Ordinary Shares and each CPS2 that has been converted into an Ordinary Share.

The additional Ordinary Shares will be taken to have been acquired by an Applicable Resident CPS2 Holder at the time the relevant CPS2 were acquired by the Applicable Resident CPS2 Holder.

4 Other tax consequences for Resident CPS2 Holders not expected to be addressed in the Class Ruling

The following tax consequences for Resident CPS2 Holders are not expected to be addressed in the Class Ruling.

4.1 Qualification for franking credits on Dividends – “qualified person”

A Resident CPS2 Holder is not required to include the amount of the franking credits in their assessable income and is not entitled to the tax offset unless the Resident CPS2 Holder is a “qualified person” in relation to a Dividend.

A Resident CPS2 Holder is a “qualified person” if the “holding period” and “related payments” rules are satisfied in respect of the Dividend.

In relation to the holding period rule, a Resident CPS2 Holder must have held CPS2 “at risk” for a continuous period of at least 90 days (excluding the days of acquisition and disposal) within a period beginning on the day after the date on which the Resident CPS2 Holder acquired CPS2 and ending on the 90th day after the date on which CPS2 became ex Dividend.

If the related payments rule applies, a Resident CPS2 Holder is required to hold CPS2 “at risk” for at least 90 days (excluding the days of acquisition and disposal) within a period beginning 90 days before and ending 90 days after the date on which CPS2 became ex Dividend. Broadly speaking, the related payments rule would apply where a Resident CPS2 Holder makes a payment which passes the benefit of a Dividend to another person.

Alternatively, a Resident CPS2 Holder is automatically taken to be a qualified person in relation to Dividends if the total amount of the tax offsets in respect of all franked distributions to which the Resident CPS2 Holder would be entitled in an income year is \$5,000 or less. This is referred to as the “small shareholder rule”. However, a Resident CPS2 Holder will not be a “qualified person” by virtue of the small shareholder rule if related payments have been made, or will be made, in respect of a Dividend.

4.2 Sale of CPS2

A sale of CPS2 by a Resident CPS2 Holder on ASX or to a Nominated Purchaser will give rise to a capital gain if the sale proceeds exceed the cost base of CPS2. Conversely, a capital loss will result if the reduced cost base of CPS2 exceeds the sale proceeds.

If CPS2 have been owned for at least 12 months prior to the sale (excluding the days of acquisition and disposal), a Resident CPS2 Holder (other than a company) may be entitled to receive CGT discount treatment in respect of any gain arising on disposal of CPS2, such that a percentage of the gain is not included in assessable income. The discount percentage is applied to the amount of the capital gain after offsetting any current year or carried forward capital losses. The discount percentages are 50%, 50% and 33⅓% for Resident CPS2 Holders who are individuals, trusts and complying superannuation entities respectively.

Resident CPS2 Holders who dispose of CPS2 within 12 months of acquiring them, or who dispose of CPS2 under an agreement entered into within 12 months of acquiring them, will not receive CGT discount treatment. Companies are not entitled to obtain CGT discount treatment in respect of any gain arising on disposal of CPS2.

4.3 Redemption of CPS2

ANZ may elect to Redeem CPS2 in certain circumstances. For each CPS2 that is being Redeemed, an amount equal to the Redemption Price will be paid by ANZ in cash. The Redemption proceeds should not be treated as a dividend to the extent to which they are debited against an amount standing to the credit of ANZ's share capital account, provided that ANZ gives the Resident CPS2 Holder a notice specifying the amount paid up on each CPS2 to be Redeemed.

Redemption of CPS2 will constitute a disposal of CPS2 for CGT purposes. Accordingly, a Resident CPS2 Holder may derive a capital gain or a capital loss on such disposal to the extent to which the Redemption proceeds paid to the Resident CPS2 Holders are greater than the cost base or are less than the reduced cost base of CPS respectively. A Resident CPS2 Holder (other than a company) may be entitled to CGT discount treatment in respect of any remaining capital gain, in the same manner as discussed above.

4.4 Conversion after an Approved NOHC Event

An Approved NOHC Event will not of itself result in CGT consequences for Resident CPS2 Holders on the basis that there will be no Conversion or other Exchange at that time.

If a Conversion of CPS2 occurs subsequent to an Approved NOHC Event, then CPS2 may be Converted into ordinary shares in the Approved NOHC (**Approved NOHC Ordinary Shares**).

A Conversion into Approved NOHC Ordinary Shares (**NOHC Conversion**) should not give rise to a capital gain or loss for Resident CPS2 Holders, due to special rules in the CGT provisions that deal with convertible interests.

The cost base (or reduced cost base) of the Approved NOHC Ordinary Shares issued to a Resident CPS2 Holder following a NOHC Conversion will be determined by spreading the cost base (or reduced cost base) of the original CPS2 across the Approved NOHC Ordinary Shares issued to that CPS2 Holder.

For CGT purposes, Approved NOHC Ordinary Shares will be taken to have been acquired on the Conversion date. This means that the 12 month holding period for the purposes of the CGT discount mentioned in section 4.2 above will run from the acquisition date of the Approved NOHC Ordinary Shares, and not from the time of acquisition of CPS2.

4.5 Pay-as-you-go withholding tax

Resident CPS2 Holders may, if they choose, notify ANZ of their tax file number (**TFN**), Australian Business Number (**ABN**), or a relevant exemption from withholding tax with respect to Dividends.

In the event that ANZ is not so notified, tax will be automatically deducted at the highest marginal tax rate (including Medicare Levy) from the cash amount of the unfranked part (if any) of the Dividends. The rate of withholding is currently 46.5%.

ANZ is required to withhold and remit to the ATO such tax until such time as the relevant TFN, ABN or exemption notification is given to it. Resident CPS2 Holders will be able to claim a tax credit/rebate (as applicable) in respect of any tax withheld on the Dividends in their income tax returns.

4.6 Goods and services tax (GST)

CPS2 Holders should not be liable for GST in respect of their investment in CPS2 or the disposal or Conversion of CPS2.

CPS2 Holders registered for GST are unlikely to be entitled to an input tax credit for any GST paid in respect of costs associated with the acquisition of CPS2 (e.g. adviser fees).

5 Taxation of Financial Arrangements

The *Tax Laws Amendment (Taxation of Financial Arrangements) Act 2009* (**TOFA Act**) was enacted earlier this year. The TOFA Act contains a new regime for the taxation of financial arrangements.

Subject to certain exceptions, the TOFA Act will apply on a mandatory basis to defined "financial arrangements" entered into during a taxpayer's first year of income commencing on or after 1 July 2010 (unless the taxpayer elects to apply TOFA to income years commencing on or after 1 July 2009), where the taxpayer exceeds certain relevant asset/turnover thresholds. Taxpayers below the relevant asset/turnover thresholds may elect to join the TOFA regime. Taxpayers can also elect to bring their pre-existing financial arrangements into the TOFA regime.

Due to certain relevant exceptions, in general the TOFA Act should not apply to individual CPS2 Holders in respect of their investment in CPS2. In addition, the TOFA Act should have limited application to other CPS2 Holders in respect of their investment in CPS2 unless certain elections under the TOFA Act are made by the relevant CPS2 Holder. However, it is recommended that CPS2 Holders obtain specific tax advice pertaining to their particular circumstances regarding the application of the TOFA Act to their investment in CPS2.

6 Non Resident CPS2 Holders

Below is a summary of the Australian income tax consequences for Non Resident CPS2 Holders with respect to Dividends received on CPS2:

- Non Resident CPS2 Holders should not be subject to dividend withholding tax in respect of fully franked Dividends that may be paid by ANZ. A separate credit or refund for the attached franking credits is not available to Non Resident CPS2 Holders.
- In the event that part of a Dividend is unfranked, the payment will be made to the Non Resident CPS2 Holders net of dividend withholding tax. If applicable, dividend withholding tax would be payable at the rate of 30% but reduced to 15%, 10% or nil depending on the applicable Double Tax Agreement that Australia may have with the Non Resident CPS2 Holder's home jurisdiction. Such withholding tax may be available as a credit against local tax payable by the Non Resident CPS2 Holder, depending upon applicable laws in the relevant jurisdiction.

ANZ may source the unfranked portion of the Dividend from its "conduit foreign income" (CFI). Unfranked Dividends paid out of CFI to Non Resident CPS2 Holders will be exempt from Australian dividend withholding tax.

For Non Resident CPS2 Holders, any capital gain or capital loss resulting from a disposal of CPS2 should be disregarded for CGT purposes provided that:

- the Non Resident CPS2 Holder (together with their associates) holds less than 10% of the shares in ANZ at any time throughout a 12 month period that began no earlier than 24 months before the disposal of CPS2 and ending no later than that time; and
- the Non Resident CPS2 Holder does not hold CPS2 at any time in carrying on a business at or through a permanent establishment in Australia.

Yours faithfully

SECTION 6

ADDITIONAL INFORMATION

THIS SECTION SETS OUT A NUMBER OF OTHER MATTERS THAT MAY NOT HAVE BEEN ADDRESSED IN DETAIL ELSEWHERE IN THIS PROSPECTUS. THESE INCLUDE RIGHTS ATTACHING TO ORDINARY SHARES THAT MAY BE ISSUED ON CONVERSION, A SUMMARY OF THE OFFER MANAGEMENT AGREEMENT, THE DISCLOSURE OF INTERESTS OF THE DIRECTORS AND ADVISERS AND THE RELIEF THAT REGULATORS HAVE GRANTED TO ANZ IN RESPECT OF THE OFFER.

6.1 REPORTING AND DISCLOSURE OBLIGATIONS

ANZ is admitted to the official list of ASX and is a disclosing entity for the purposes of the Corporations Act. As a disclosing entity, it is subject to regular reporting and disclosure obligations under the Corporations Act and Listing Rules. Broadly, these obligations require ANZ to prepare both yearly and half yearly financial statements and to report on its operations during the relevant accounting period, and to obtain an audit or review report from its auditor.

Copies of these and other documents lodged with ASIC may be obtained from or inspected at an ASIC office.

ANZ must ensure that ASX is continuously notified of information about specific events and matters as they arise for the purposes of ASX making the information available to the Australian securities market.

ANZ has an obligation under the Listing Rules (subject to certain exceptions) to notify ASX immediately of any information concerning it of which it becomes aware, which a reasonable person would expect to have a material effect on the price or value of its quoted securities.

6.2 AVAILABILITY OF DOCUMENTS

ANZ will provide a copy of any of the following documents free of charge to any person who requests a copy during the Offer Period:

- the half year financial reports for the half year ended 31 March 2009 lodged with ASIC by ANZ (being the most recent half yearly financial report reviewed and lodged with ASIC before lodgement of this Prospectus with ASIC);
- the annual financial report for the year ended 30 September 2008 lodged with ASIC by ANZ;
- the consolidated results and dividend announcement for the year ended 30 September 2009;
- any continuous disclosure notices given by ANZ in the period after the lodgement of the annual financial statements of ANZ for the year ended 30 September 2008 and before lodgement of this Prospectus with ASIC; and
- the Constitution.

On or about 17 November 2009 until the Closing Date, ANZ will provide a copy of its annual financial report for the year ended 30 September 2009 that is lodged with ASIC.

The financial reports for the year ended 30 September 2008 and half year ended 31 March 2009, together with copies of continuous disclosure notices lodged with ASX, are available at www.asx.com.au or at www.anz.com/aus/about/media/ASX-Announcements/default.asp. On or about 17 November 2009, the financial report for the year ended 30 September 2009 will also be available at these web addresses.

The Constitution is available at www.anz.com.au/documents/au/policies/Constitution.pdf.

6.3 RIGHTS AND LIABILITIES ATTACHING TO CPS2

The rights and liabilities attaching to CPS2 are contained in the CPS2 Terms set out in Appendix A. Rights and liabilities attaching to CPS2 may also arise under the Corporations Act, the Listing Rules, the Constitution and other laws.

6.4 RIGHTS AND LIABILITIES ATTACHING TO ORDINARY SHARES

CPS2 Holders may receive Ordinary Shares on Conversion. The rights and liabilities attaching to the Ordinary Shares are set out in the Constitution and are also regulated by the Corporations Act, Listing Rules and the general law.

This Section 6.4 summarises the key rights attaching to the Ordinary Shares. It is not intended to be an exhaustive summary of the rights and obligations of Shareholders. Investors who wish to inspect the Constitution may do so at the registered office of ANZ during normal office hours or may obtain a copy as provided under Section 6.2.

6.4.1 VOTING RIGHTS

Subject to any rights or restrictions attached to any shares or class of shares, each Shareholder is entitled to attend and vote at a general meeting of ANZ. Any resolution being considered at a general meeting is decided on a show of hands unless a poll is held. On a show of hands, each Shareholder present has one vote.

On a poll, each Shareholder has one vote for each Ordinary Share. Partly paid ordinary shares confer that fraction of a vote which is equal to the proportion which the amount paid bears to the total issue price of the ordinary share.

6.4.2 GENERAL MEETINGS

Notice of a general meeting must be given to each shareholder in accordance with the Corporations Act.

Each shareholder is entitled to receive notices, financial statements and other documents required to be sent to shareholders under the Constitution, Corporations Act and Listing Rules, but in the case of financial statements and annual reports only where the shareholder has requested one to be sent to them in accordance with the Corporations Act.

6.4.3 DIVIDEND ENTITLEMENT

Subject to the Corporations Act, the Constitution and the terms of issue of Ordinary Shares, the Board may resolve to pay dividends on ordinary shares which are considered by the Board to be appropriate, in proportion to the capital paid up on the ordinary shares held by each shareholder (subject to the rights of holders of shares carrying preferred rights including CPS2).

6.4.4 DIVIDEND REINVESTMENT PLAN AND BONUS OPTION PLAN

Shareholders who are eligible may participate in ANZ's dividend reinvestment plan or bonus option plan, as in force from time to time, in accordance with (and subject to) the rules of those plans. Shareholders who are subject to the laws of a country or place other than Australia may not be eligible to participate, because of legal requirements that apply in that country or place or in Australia. Until the Board otherwise determines, participation in ANZ's dividend reinvestment plan and bonus option plan is not available to any person (including any legal or beneficial owner of ordinary shares) who is (or who is acting on behalf of or for the account or benefit of an entity or person who is) in or resident in the United States (including its territories and possessions) or Canada.

6.4.5 RIGHTS OF SHAREHOLDERS ON A WINDING UP OF ANZ

If ANZ is wound up and its property is more than sufficient to pay all debts, preference share capital of ANZ and expenses of the winding up, the excess must be divided among shareholders in proportion to the capital paid up on the ordinary shares at the commencement of the winding up (subject to the rights of holders of shares carrying preferred rights on winding up including CPS2). A partly paid ordinary share is counted as a fraction equal to the proportion which the amount paid on it bears to the total issue price of the ordinary share.

However, with the sanction of a special resolution, the liquidator may divide among shareholders the assets of ANZ in kind and decide how the division is to be carried out or vest assets in trustees of any trusts for the benefit of shareholders as the liquidator thinks appropriate.

6.4.6 TRANSFER OF ORDINARY SHARES

Ordinary shares may be transferred by any means permitted by the Corporations Act or by law. The Board may decline to register a transfer where permitted to do so under the Listing Rules or the ASTC Settlement Rules, or where registration of the transfer is forbidden by the Corporations Act, Listing Rules or ASTC Settlement Rules. In addition, subject to the Corporations Act, Listing Rules and ASTC Settlement Rules, the Board may decline to register a transfer if registration would create a new holding of less than a marketable parcel under the Listing Rules.

6.4.7 ISSUES OF FURTHER SHARES

Subject to the Constitution, Corporations Act and Listing Rules, the Board may issue or grant options in respect of shares on such terms as the Board decides. In particular, the Board may issue preference shares, including redeemable preference shares, with preferred, deferred or special rights or restrictions in relation to dividends, voting, return of capital and participation in surplus on a winding up of ANZ.

6.4.8 VARIATION OF RIGHTS

ANZ may only modify or vary the rights attaching to any class of shares with the prior approval, by a special resolution, of the holders of shares in that class at a meeting of those holders, or with the written consent of the holders of at least 75% of the issued shares of that class.

Subject to the terms of issue, the rights attached to a class of shares are not treated as varied by the issue of further shares which rank equally with that existing class for participation in profits and assets of ANZ.

6.4.9 VARIATION OF THE CONSTITUTION

The Constitution can only be modified by a special resolution in accordance with the Corporations Act. Under the Corporations Act, for a resolution to be passed as a special resolution it must be passed by at least 75% of the votes cast by members entitled to vote on the resolution.

6.5 RIGHTS AND LIABILITIES ATTACHING TO APPROVED NOHC ORDINARY SHARES

If an Approved NOHC Event occurs and the CPS2 Terms are amended to enable substitution of the Approved NOHC as the issuer of ordinary shares on Conversion (including Mandatory Conversion), the rights and liabilities of the Approved NOHC ordinary shares will not be materially different to the rights and liabilities of Ordinary Shares. It is a condition to substitution that the Approved NOHC ordinary shares be quoted on ASX – see clause 19.2 of the CPS2 Terms.

6.6 SUMMARY OF THE OFFER MANAGEMENT AGREEMENT

ANZ has entered into an Offer Management Agreement with ANZ Securities, CommSec, Deutsche Bank, Goldman Sachs JBWere, Macquarie, Morgan Stanley, UBS and Westpac (together, the Joint Lead Managers). Under the OMA, the Joint Lead Managers have agreed to manage the Offer, including the Bookbuild and Allocation process in relation to the Offer, and to provide settlement support for the settlement obligations of Syndicate Brokers (other than ANZ Securities) and Institutional Investors under the Bookbuild.

The OMA provides that in certain circumstances after the Bookbuild, the title of a Joint Lead Manager may change (with no change to the obligations of that Joint Lead Manager under the OMA).

The following is the summary of the principal provisions of the OMA.

6.6.1 FEES

The fees payable to the Joint Lead Managers are set out in Section 6.8.

6.6.2 ANZ'S OBLIGATIONS IN RELATION TO THE CONDUCT OF THE OFFER

Under the OMA, ANZ has agreed to conduct the Offer in accordance with this Prospectus, the OMA, the Constitution and all applicable laws.

6.6.3 ANZ'S REPRESENTATIONS, WARRANTIES AND UNDERTAKINGS

Under the OMA, ANZ makes various representations and warranties in relation to this Prospectus and compliance with the Constitution, the Corporations Act, the Listing Rules and other applicable laws. ANZ also warrants that it has the power (including under the Constitution) to enter into and perform transactions in connection with the Offer and the OMA.

ANZ has undertaken that it will not (and will ensure that its related bodies corporate do not), without the Joint Lead Managers' prior written consent, allot or agree to allot, announce an issue of, indicate an intention to allot, or otherwise authorise the issue of, any ASX listed hybrid or preference securities in Australia, with Tier 1 Capital status, at any time prior to 17 December 2009. This undertaking does not apply to the issue by ANZ of CPS2 or securities pursuant to an employee share or option plan, a bonus share plan, a dividend reinvestment plan or an underwriting of a dividend reinvestment plan, a share purchase plan or an underwriting of a share purchase plan or in accordance with the terms of issue of securities or financial products on issue as at the date of the OMA.

6.6.4 TERMINATION EVENTS

Each Joint Lead Manager may terminate the OMA after the occurrence of any one or more of the following events (non-exhaustive list):

- a credit rating of ANZ or CPS2 is downgraded;
- ASIC issues a stop order or similar proceeding in relation to the Prospectus;
- ASX does not grant its approval or indicates that the approval will not be granted (other than in respect of the customary pre-listing conditions), for official quotation of CPS2, or the approval is, or ASX indicates it is likely to be, subsequently withdrawn, qualified or withheld;
- a supplementary prospectus is required under section 719 of the Corporations Act;
- any of the All Ordinaries Index of ASX, the S&P/ASX200 and the Dow Jones Industrial Average (**Relevant Index**):
 - closes on three consecutive business days at a level that is 10% or more below the level of the Relevant Index as at the close of trading on the business day before the date of the OMA (**Starting Level**); or
 - closes at a level that is 10% or more below the Starting Level at any time in the period of three business days prior to 17 December 2009; or
 - closes at a level that is 15% or more below the Starting Level;
- an adverse change occurs in the assets, liabilities, financial position or performance, profits, losses or prospects of ANZ or its related bodies corporate;

- certain breaches of the OMA;
- any licence, permit, authorisation or consent which is material to anything referred to in this Prospectus, or necessary to conduct ANZ's business or a business of any of its related bodies corporate, is repealed, revoked, terminated or expires in a manner unacceptable to the Joint Lead Managers (acting reasonably);
- trading of ANZ's securities is suspended for a certain period of time;
- unauthorised alterations to ANZ or any of its Group members' share capital or constitution; and
- ANZ withdraws the Prospectus or the Offer other than in accordance with the OMA.

Some of these events will only give rise to a right to terminate if the Joint Lead Manager has reasonable and bona fide grounds to believe and does believe that the event has or is likely to have a material adverse effect on the Offer or that the event is likely to give rise to a liability of that Joint Lead Manager. If this occurs, the Joint Lead Manager which terminates (or each Joint Lead Manager) will no longer be a lead manager or bookrunner and it will not be obliged to conduct the Bookbuild or provide settlement support for the Bookbuild.

Under the OMA, if a Joint Lead Manager terminates, the Joint Lead Manager must give notice in writing to ANZ and each of the other Joint Lead Managers. If one or more of Deutsche Bank, Goldman Sachs JBWere, Macquarie or UBS terminates, the remaining Joint Lead Managers from that group may elect to assume the rights and obligations of the terminating Joint Lead Manager in equal proportions by providing ANZ with written notice.

In addition, if any Joint Lead Manager terminates its obligations under the OMA, then the obligations of the Syndicate Brokers or Institutional Investors under the Bookbuild may, by the terms of the invitation to participate in the Bookbuild, terminate.

ANZ indemnifies the Joint Lead Managers and their affiliates and representatives (each an **Indemnified Party**) against liabilities arising out of, or in connection with, their appointment under the OMA, except to the extent that those liabilities resulted from the fraud, wilful misconduct, wilful default or negligence of, or material breach of the OMA by, the Indemnified Party or any party associated with the Joint Lead Manager with which that Indemnified Party is associated (except to the extent any such conduct is caused or induced by ANZ or its affiliates).

2.3 NON-RECOGNITION OF INTERESTS

No notice of any trust, Encumbrance or other interest in, or claim to, any CPS2 will be entered in the Register. Neither ANZ nor the Registrar need take notice of any trust, Encumbrance or other interest in, or claim to, any CPS2, except as ordered by a court of competent jurisdiction or required by law, and no trust, Encumbrance or other interest in, or claim to, any CPS2 will in any way affect any provision of these CPS2 Terms (including without limitation any Resale).

3 DIVIDENDS

3.1 DIVIDENDS

Subject to these CPS2 Terms, each CPS2 entitles the CPS2 Holder on a Record Date to receive on the relevant Dividend Payment Date a dividend (**Dividend**) calculated according to the following formula:

$$\text{Dividend} = \frac{\text{Issue Price} \times \text{Dividend Rate} \times N}{365}$$

where:

Dividend Rate (expressed as a percentage per annum) is calculated according to the following formula:

$$\text{Dividend Rate} = (\text{Bank Bill Rate} + \text{Margin}) \times (1 - \text{Tax Rate})$$

where:

Bank Bill Rate (expressed as a percentage per annum) means, for a Dividend Period, the average mid-rate for bills of a term of 90 days which average mid-rate is displayed on Reuters page BBSW (or any page which replaces that page) on the first Business Day of the Dividend Period or if there is a manifest error in the calculation of that average mid-rate or that average mid-rate is not displayed by 10.30am (Melbourne time) on that date, the rate specified in good faith by ANZ at or around that time on that date having regard, to the extent possible, to:

- (a) the rates otherwise bid and offered for bills of a term of 90 days or for funds of that tenor displayed on Reuters page BBSW (or any page which replaces that page) at that time on that date; or
- (b) if bid and offer rates for bills of a term of 90 days are not otherwise available, the rates otherwise bid and offered for funds of that tenor at or around that time on that date;

Margin (expressed as a percentage per annum) means the margin determined under the Bookbuild; and

Tax Rate (expressed as a decimal) means the Australian corporate tax rate applicable to the franking account of ANZ as at the relevant Dividend Payment Date; and

N means in respect of:

- (a) the first Dividend Payment Date, the number of days from (and including) the Issue Date until (but not including) the first Dividend Payment Date; and
- (b) each subsequent Dividend Payment Date, the number of days from (and including) the preceding Dividend Payment Date until (but not including) the relevant Dividend Payment Date.

3.2 FRANKING ADJUSTMENTS

If any Dividend is not franked to 100% under Part 3-6 of the Tax Act (or any provisions that revise or replace that Part), the Dividend will be calculated according to the following formula:

$$\text{Dividend} = \frac{D}{1 - [\text{Tax Rate} \times (1 - F)]}$$

where:

D means the Dividend calculated under clause 3.1;

Tax Rate has the meaning given in clause 3.1; and

F means the applicable Franking Rate.

3.3 PAYMENT OF A DIVIDEND

Each Dividend (including an Optional Dividend) is subject to:

- (a) the Directors, at their absolute discretion, resolving to pay that Dividend on the relevant Dividend Payment Date; and
- (b) no APRA Condition existing in respect of the relevant Dividend Payment Date.

Subject to this clause 3.3, the Directors, at their absolute discretion but with the prior written approval of APRA, may determine an Optional Dividend to be payable on any date.

3.4 DIVIDENDS ARE NON-CUMULATIVE

Dividends are non-cumulative. If all or any part of a Dividend is not paid because of clause 3.3 or because of any applicable law, ANZ has no liability to pay the unpaid amount of the Dividend and, notwithstanding the Directors' discretion to pay an Optional Dividend under clause 3.3, CPS2 Holders have no claim or entitlement in respect of such non-payment and such non-payment does not constitute an event of default. No interest accrues on any unpaid Dividends or Optional Dividends and the CPS2 Holders have no claim or entitlement in respect of interest on any unpaid Dividends or Optional Dividends.

3.5 DIVIDEND PAYMENT DATES

Subject to this clause 3, Dividends (other than Optional Dividends) in respect of a CPS2 will be payable in arrears on the following dates (each a **Dividend Payment Date**):

- (a) each 15 March, 15 June, 15 September and 15 December commencing on 15 March 2010 until (but not including) the date on which a Redemption or Conversion of that CPS2 occurs in accordance with these CPS2 Terms; and
- (b) each date on which:
 - (i) a Conversion or Resale of that CPS2 occurs; and
 - (ii) subject to clause 8.3(a)(iii), a Redemption of that CPS2 occurs,
 in each case in accordance with these CPS2 Terms.

If a Dividend Payment Date is a day which is not a Business Day, then the Dividend Payment Date will be the next day which is a Business Day.

3.6 RECORD DATES

- (a) A Dividend is only payable on a Dividend Payment Date to those persons registered as CPS2 Holders on the Record Date for that Dividend.
- (b) An Optional Dividend is only payable on the date of payment determined by the Directors to those persons registered as CPS2 Holders on the Record Date for that Optional Dividend.

3.7 DEDUCTIONS

- (a) ANZ may deduct from any Dividend payable the amount of any withholding or other tax, duty or levy required by law to be deducted in respect of such amount. If any such deduction has been made and the amount of the deduction accounted for by ANZ to the relevant revenue authority and the balance of the Dividend payable has been paid to the relevant CPS2 Holder, then the full amount payable to such CPS2 Holder shall be deemed to have been duly paid and satisfied by ANZ.
- (b) ANZ shall pay the full amount required to be deducted to the relevant revenue authority within the time allowed for such payment without incurring any penalty under the applicable law and shall, if required by any CPS2 Holder, deliver to that CPS2 Holder a copy of any relevant receipt issued by the revenue authority (to the extent issued) without delay after it is received by ANZ.

3.8 RESTRICTIONS IN THE CASE OF NON-PAYMENT

If for any reason a Dividend has not been paid in full within 21 Business Days of the relevant Dividend Payment Date, ANZ must not, without approval of a Special Resolution:

- (a) declare or pay a dividend or make any distribution on any capital instruments of ANZ which rank equally with or junior to CPS2 for distributions; or
 - (b) redeem, buy back or reduce capital on any capital instruments of ANZ which rank equally with or junior to CPS2 for a return of capital in a winding up,
- unless:
- (i) consecutive Dividends scheduled to be payable on CPS2 on the Dividend Payment Dates falling during the 12 months after the Dividend Payment Date of the Dividend that has not been paid have been paid in full;
 - (ii) with the prior written approval of APRA, an optional dividend (**Optional Dividend**) has been paid to CPS2 Holders equal to the aggregate unpaid amount of any unpaid Dividends which were scheduled to be paid in the 12 months prior to the date of payment of the Optional Dividend; or
 - (iii) all CPS2 have been Redeemed or Converted.

3.9 EXCLUSIONS FROM RESTRICTIONS IN CASE OF NON-PAYMENT

The restrictions in clause 3.8 do not apply to:

- (a) *pro rata* payments on the CPS2 and any Equal Ranking Instruments;
- (b) repurchases (including buy-backs), redemptions or other acquisitions of ANZ Shares in connection with:
 - (i) any employment contract, employee share scheme, benefit plan or other similar arrangement with or for the benefit of any one or more employees, officers, directors or consultants of ANZ or any Controlled Entity;
 - (ii) a dividend reinvestment or bonus option plan or shareholder share purchase plan; or
 - (iii) the issuance of ANZ Shares, or securities convertible into or exercisable for such shares, as consideration in an acquisition transaction entered into prior to non-payment of the Dividend;
- (c) an exchange, redemption or conversion of any class or series of ANZ Shares, or any securities of a Subsidiary or of any other entity whose financial results are required to be consolidated with ANZ's financial statements, for any class or series of ANZ Shares, or of any class or series of ANZ's indebtedness for any class or series of ANZ Shares;
- (d) the purchase of fractional interests in ANZ Shares under the conversion or exchange provisions of the shares or the security being converted or exchanged;
- (e) any payment, distribution or declaration of a dividend in connection with any shareholder's rights plan, or the issuance of rights, shares or other property under any shareholder's rights plan, or the redemption or repurchase of rights pursuant to the plan;
- (f) any dividend in the form of shares, warrants, options or other rights where the dividend shares or the shares issuable upon exercise of such warrants, options or other rights are the same class or series of shares as those on which the dividend is being paid or rank equal or junior to those shares; or
- (g) a capital raising by way of a rights or entitlement issue made to holders of one or more capital instruments of ANZ.

Nothing in these CPS2 Terms prohibits ANZ or a Controlled Entity from purchasing ANZ Shares (or an interest therein) in connection with transactions for the account of customers of ANZ or customers of entities that ANZ Controls or in connection with the distribution or trading of ANZ Shares in the ordinary course of business. This includes (for the avoidance of doubt and without affecting the foregoing) any acquisition resulting from:

- (a) taking security over ANZ Shares in the ordinary course of business; and
- (b) acting as trustee for another person where neither ANZ nor any entity it Controls has a beneficial interest in the trust (other than a beneficial interest that arises from a security given for the purposes of a transaction entered into in the ordinary course of business).

4 MANDATORY CONVERSION

4.1 MANDATORY CONVERSION

Subject to clauses 4.5 and 4.7, on the Mandatory Conversion Date ANZ must Convert all (but not some) CPS2 on issue at that date into Ordinary Shares in accordance with clause 7 and this clause 4.

4.2 MANDATORY CONVERSION DATE

The **Mandatory Conversion Date** will be the earlier of:

- (a) 15 December 2016 (the **Initial Mandatory Conversion Date**); and
- (b) the first Dividend Payment Date after the Initial Mandatory Conversion Date (a **Subsequent Mandatory Conversion Date**),

(each a **Relevant Date**) on which the Mandatory Conversion Conditions are satisfied.

4.3 MANDATORY CONVERSION CONDITIONS

The Mandatory Conversion Conditions for each Relevant Date are:

- (a) the VWAP on the 25th Business Day immediately preceding (but not including) the Relevant Date (the **First Test Date**, provided that if no trading in Ordinary Shares took place on that date, the First Test Date is the first Business Day before the 25th Business Day immediately preceding (but not including) the Relevant Date on which trading in Ordinary Shares took place) is greater than 56.00% of the Issue Date VWAP (the **First Mandatory Conversion Condition**);

- (b) the VWAP during the period of 20 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Relevant Date (the **Second Test Period**) is greater than 50.51% of the Issue Date VWAP (the **Second Mandatory Conversion Condition**); and
- (c) no Delisting Event applies in respect of the Relevant Date (the **Third Mandatory Conversion Condition** and, together with the First Mandatory Conversion Condition and the Second Mandatory Conversion Condition, the **Mandatory Conversion Conditions**).

4.4 NON-CONVERSION NOTICES

If:

- (a) the First Mandatory Conversion Condition is not satisfied in relation to a Relevant Date, ANZ will notify CPS2 Holders between the 25th and the 21st Business Day before the Relevant Date; or
- (b) the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition is not satisfied in relation to a Relevant Date, ANZ will notify CPS2 Holders on or as soon as practicable after the Relevant Date unless it has given a Resale Notice or a Redemption Notice,

in either case that Mandatory Conversion will not (or, as the case may be, did not) occur on the Relevant Date (a **Non-Conversion Notice**).

4.5 REDEMPTION WHERE MANDATORY CONVERSION CONDITIONS ARE NOT SATISFIED

If:

- (a) the First Mandatory Conversion Condition is not satisfied in relation to a Relevant Date, ANZ may, subject to APRA's prior written approval, elect to Redeem all (but not some) CPS2 on the Relevant Date in accordance with clause 8 by giving a notice (a **Redemption Notice**) no later than 10 Business Days prior to the Relevant Date; or
- (b) the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition is not satisfied in relation to a Relevant Date, ANZ may, subject to APRA's prior written approval, elect to Redeem all (but not some) CPS2 on a date no later than 30 Business Days after the Relevant Date (the **Deferred Redemption Date**) by giving a Redemption Notice no later than 10 Business Days prior to the Deferred Redemption Date.

A Redemption Notice once given is irrevocable.

4.6 CONTENTS OF REDEMPTION NOTICE

A Redemption Notice must specify:

- (a) the details of the Mandatory Conversion Condition to which the Redemption Notice relates;
- (b) the date on which Redemption is to occur (the **Redemption Date**), which must be the Relevant Date in the case of a Redemption under clause 4.5(a) and the Deferred Redemption Date in the case of a Redemption under clause 4.5(b);
- (c) whether the Redemption Price is payable by way of redemption, buy-back or reduction of capital (or a combination of these methods); and
- (d) whether any Dividend or any amount under clause 8.3(a)(iii) will be paid on the Redemption Date.

4.7 RESALE ON THE RELEVANT DATE

Whether or not the Mandatory Conversion Conditions are satisfied in relation to a Relevant Date, ANZ may elect to Resell all (but not some) CPS2 on the Relevant Date in accordance with clause 9 by giving a notice (a **Resale Notice**) no later than 21 Business Days prior to the Relevant Date. A Resale Notice once given is irrevocable.

4.8 CONTENTS OF RESALE NOTICE

A Resale Notice must specify the identity of the Nominated Purchaser or Nominated Purchasers for that Resale.

4.9 ELECTION BETWEEN RESALE AND REDEMPTION

ANZ may only give a Resale Notice or a Redemption Notice in respect of a Relevant Date where permitted to do so by clause 4.5 or clause 4.7 (as the case may be) and may not give both a Resale Notice and a Redemption Notice in respect of a Relevant Date.

If, notwithstanding this clause 4.9, more than one notice is given, the Resale Notice will be deemed never to have been given and the Redemption Notice will prevail.

5 OPTIONAL EXCHANGE BY ANZ

5.1 OPTIONAL EXCHANGE BY ANZ

ANZ may by notice to CPS2 Holders (an **Exchange Notice**) elect to Exchange:

- (a) all or some CPS2 on an Exchange Date following the occurrence of a Tax Event or a Regulatory Event; or
- (b) all (but not some only) CPS2 on an Exchange Date following the occurrence of an Acquisition Event.

An Exchange Notice once given is irrevocable.

5.2 CONTENTS OF EXCHANGE NOTICE

An Exchange Notice must specify:

- (a) the details of the Acquisition Event, Tax Event or Regulatory Event to which the Exchange Notice relates;
- (b) the date on which Exchange is to occur (the **Exchange Date**), which:
 - (i) in the case of an Acquisition Event:
 - (A) if the Exchange Notice provides that CPS2 are to be Converted, is the Business Day prior to the date reasonably determined by ANZ to be the last date on which holders of Ordinary Shares can participate in the bid or scheme concerned or such other earlier date as ANZ may reasonably determine having regard to the timing for implementation of the bid or scheme concerned; or
 - (B) otherwise, must be no later than 35 Business Days after the date on which the Acquisition Event occurred, or in either case such later date as APRA may require; or
 - (ii) in the case of a Tax Event or a Regulatory Event, will be the last Business Day of the month following the month in which the Exchange Notice was given by ANZ unless ANZ determines an earlier Exchange Date having regard to the best interests of CPS2 Holders as a whole and the relevant event;
- (c) the Exchange Method;
- (d) if less than all outstanding CPS2 are subject to Exchange, which CPS2 are subject to Exchange;
- (e) if the Exchange Notice provides that CPS2 are to be Redeemed, whether the Redemption Price is payable by way of redemption, buy-back or reduction of capital (or a combination of these methods);
- (f) if the Exchange Notice provides that CPS2 are to be Resold, the identity of the Nominated Purchaser or Nominated Purchasers for that Resale; and
- (g) whether any Dividend or any amount under clause 8.3(a)(iii) will be paid on the Exchange Date.

5.3 EXCHANGE METHOD

If ANZ elects to Exchange CPS2 in accordance with this clause 5, it must, subject to clause 5.4, elect which of the following (or which combination of the following) it intends to do in respect of CPS2 (the **Exchange Method**):

- (a) subject to APRA's prior written approval, Convert CPS2 into Ordinary Shares in accordance with clause 7;
- (b) subject to APRA's prior written approval, Redeem CPS2 in accordance with clause 8; or
- (c) Resell CPS2 in accordance with clause 9.

If ANZ issues an Exchange Notice to Exchange only some CPS2, ANZ must endeavour to treat CPS2 Holders on an approximately proportionate basis, but may discriminate to take account of the effect on holdings which would be Non-marketable Parcels and other considerations (including the circumstances described in clause 9.6).

5.4 RESTRICTIONS ON ELECTION BY ANZ OF CONVERSION AS EXCHANGE METHOD

ANZ may not elect Conversion as the Exchange Method in respect of an Exchange if:

- (a) on the second Business Day before the date on which an Exchange Notice is to be sent by ANZ (or, if trading in Ordinary Shares did not occur on that date, the last Business Day prior to that date on which trading in Ordinary Shares occurred) (the **Non-Conversion Test Date**) the VWAP on that date is less than or equal to 56.00% of the Issue Date VWAP (the **First Optional Conversion Restriction**); or
- (b) a Delisting Event applies in respect of the Non-Conversion Test Date (the **Second Optional Conversion Restriction** and, together with the First Optional Conversion Restriction, the **Optional Conversion Restrictions**).

5.5 CONDITIONS TO CONVERSION OCCURRING ONCE ELECTED BY ANZ

If ANZ has given an Exchange Notice in which it has elected Conversion as the Exchange Method but, if the Exchange Date were a Relevant Date for the purposes of clause 4, either the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition would not be satisfied in respect of that date, then, notwithstanding any other provision of these CPS2 Terms:

- (a) the Exchange Date will be deferred until the first Dividend Payment Date on which the Mandatory Conversion Conditions would be satisfied if that Dividend Payment Date were a Relevant Date for the purposes of clause 4 (the **Deferred Conversion Date**);
- (b) ANZ must Convert the CPS2 on the Deferred Conversion Date (unless (without prejudice to clause 9.6) the CPS2 are earlier Exchanged in accordance with these CPS2 Terms); and
- (c) until the Deferred Conversion Date, all rights attaching to the CPS2 will continue as if the Exchange Notice had not been given.

ANZ will notify CPS2 Holders on or as soon as practicable after an Exchange Date in respect of which this clause 5.5 applies that Conversion did not occur on that Exchange Date (a **Deferred Conversion Notice**).

6 EARLY EXCHANGE ON CHANGE OF CONTROL EVENT

6.1 NOTICE OF CHANGE OF CONTROL EVENT

ANZ must notify CPS2 Holders of the occurrence of a Change of Control Event as soon as practicable after becoming aware of that event (a **Change of Control Event Notice**).

6.2 EXCHANGE ON OCCURRENCE OF CHANGE OF CONTROL EVENT

If a Change of Control Event occurs, ANZ must, subject to obtaining the prior written approval of APRA for any Redemption, Exchange all (but not some only) CPS2 on the Change of Control Exchange Date by notice to CPS2 Holders (a **Change of Control Exchange Notice**) in accordance with this clause 6 and clause 7 or clause 8 (as the case may be).

6.3 CONTENTS OF CHANGE OF CONTROL EXCHANGE NOTICE

A Change of Control Exchange Notice must specify:

- (a) the details of the Change of Control Event to which the Change of Control Exchange Notice relates;
- (b) the date on which Exchange is to occur (the **Change of Control Exchange Date**), which must be:
 - (i) if the Exchange Notice provides that CPS2 are to be Converted, the Business Day prior to the date reasonably determined by ANZ to be the last date on which holders of Ordinary Shares can participate in the bid or scheme concerned or such other earlier date as ANZ may reasonably determine having regard to the timing of implementation of the bid or scheme concerned; or
 - (ii) otherwise, no later than 35 Business Days after the date on which the Change of Control Event occurred, or in either case such later date as APRA may require;
- (c) the Exchange Method, which, subject to clause 5.4, must be either Conversion in accordance with clause 7 or Redemption in accordance with clause 8 as elected by ANZ;
- (d) if the Change of Control Exchange Notice provides that CPS2 are to be Redeemed, whether the Redemption Price is payable by way of redemption, buy-back or reduction of capital (or a combination of these methods); and
- (e) whether any Dividend or any amount under clause 8.3(a)(iii) will be paid on the Change of Control Exchange Date.

6.4 WHERE CHANGE OF CONTROL EXCHANGE NOTICE NOT REQUIRED

Notwithstanding any other provision of clause 6.2 or clause 6.3, if APRA does not approve Redemption as the Exchange Method and ANZ is prevented from electing Conversion as the Exchange Method by clause 5.4, ANZ is not required to give a Change of Control Exchange Notice and the provisions of clause 6.5 will apply.

6.5 DEFERRED EXCHANGE ON CHANGE OF CONTROL EVENT

If clause 6.4 applies or ANZ has given a Change of Control Exchange Notice in which it has elected Conversion as the Exchange Method but, if the Change of Control Exchange Date were a Relevant Date for the purposes of clause 4, either the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition would not be satisfied in respect of that date, then, notwithstanding any other provision of these CPS2 Terms:

- (a) the Change of Control Exchange Notice, if given, is taken to be revoked and Exchange will not occur on the Change of Control Exchange Date specified in the Change of Control Event Notice;
- (b) ANZ will notify CPS2 Holders as soon as practicable that Exchange will not (or, as the case may be, did not) occur (a **Deferred Change of Control Exchange Notice**); and
- (c) ANZ must, unless clause 6.4 then applies, give a Change of Control Exchange Notice (or, as the case may be, a new Change of Control Exchange Notice) on or before the 25th Business Day prior to the immediately succeeding Dividend Payment Date which is at least 25 Business Days after the date on which the Deferred Change of Control Exchange Notice was given.

The Change of Control Exchange Notice given in accordance with paragraph (c) above must:

- (d) specify the Exchange Method, which, subject to clause 5.4, must be either Conversion in accordance with clause 7 or Redemption in accordance with clause 8 as elected by ANZ; and
- (e) otherwise comply with clause 6.3.

If this clause 6.5 applies but:

- (i) clause 6.4 applies in respect of the Dividend Payment Date such that no Change of Control Exchange Notice (or, as the case may be, no new Change of Control Exchange Notice) is given under this clause 6.5; or
- (ii) a Change of Control Exchange Notice (or, as the case may be, a new Change of Control Exchange Notice) is given under this clause 6.5 but, if the Change of Control Exchange Date specified in the Change of Control Exchange Notice were a Relevant Date for the purpose of clause 4, either the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition would not be satisfied in respect of that date,

then this clause 6.5 will be reapplied in respect of each subsequent Dividend Payment Date until an Exchange occurs.

7 CONVERSION MECHANICS

7.1 CONVERSION

If ANZ elects to Convert CPS2 or must Convert CPS2 in accordance with these CPS2 Terms, then, subject to clause 13, the following provisions apply:

- (a) each CPS2 that is being Converted will Convert into one Ordinary Share on the Mandatory Conversion Date, the Exchange Date or the Change of Control Exchange Date (as the case may be);
- (b) each CPS2 Holder will be allotted, for no consideration, an additional number of Ordinary Shares for each CPS2 that is being Converted on the Mandatory Conversion Date, the Exchange Date or the Change of Control Exchange Date (as the case may be) equal to **one less than** the Conversion Number, where the Conversion Number (but subject to the Conversion Number being no more than the Maximum Conversion Number) is a number calculated according to the following formula:

$$\text{Conversion Number} = \frac{\text{Issue Price}}{99\% \times \text{VWAP}}$$

where:

VWAP (expressed in dollars and cents) means the VWAP during the VWAP Period;

- (c) if the total number of additional Ordinary Shares to be allotted to a CPS2 Holder in respect of their aggregate holding of CPS2 upon Conversion includes a fraction of an Ordinary Share, that fraction of an Ordinary Share will be disregarded;
- (d) a CPS2, upon Conversion, confers all of the rights attaching to one Ordinary Share but these rights do not take effect until 5.00pm (Melbourne time) on the Mandatory Conversion Date, the Exchange Date or the Change of Control Exchange Date (as the case may be). At that time:
 - (i) all other rights conferred or restrictions imposed on that CPS2 under these CPS2 Terms will no longer have effect (except for rights relating to a Dividend which has been determined to be payable but has not been paid on or before the Mandatory Conversion Date, the Exchange Date or the Change of Control Exchange Date (as the case may be) which will continue); and
 - (ii) the Ordinary Share resulting from a Conversion will rank equally with all other Ordinary Shares.

Conversion does not constitute a redemption, buy-back, cancellation or termination of CPS2 or an issue, allotment or creation of a new Ordinary Share (other than the additional Ordinary Shares allotted under clause 7.1(b)).

7.2 ADJUSTMENTS TO VWAP

For the purposes of calculating VWAP in these CPS2 Terms:

- (a) where, on some or all of the Business Days in the relevant VWAP Period, Ordinary Shares have been quoted on ASX as cum dividend or cum any other distribution or entitlement and CPS2 will Convert into Ordinary Shares after the date those Ordinary Shares no longer carry that dividend or any other distribution or entitlement, then the VWAP on the Business Days on which those Ordinary Shares have been quoted cum dividend or cum any other distribution or entitlement shall be reduced by an amount (**Cum Value**) equal to:
 - (i) (in case of a dividend or other distribution), the amount of that dividend or other distribution including, if the dividend or other distribution is franked, the amount that would be included in the assessable income of a recipient of the dividend or other distribution who is both a resident of Australia and a natural person under the Tax Act;
 - (ii) (in the case of any other entitlement that is not a dividend or other distribution under clause 7.2(a)(i) which is traded on ASX on any of those Business Days), the volume weighted average sale price of all such entitlements sold on ASX during the VWAP Period on the Business Days on which those entitlements were traded; or
 - (iii) (in the case of any other entitlement which is not traded on ASX during the VWAP Period), the value of the entitlement as reasonably determined by the Directors; and
- (b) where, on some or all of the Business Days in the VWAP Period, Ordinary Shares have been quoted on ASX as ex dividend or ex any other distribution or entitlement, and CPS2 will Convert into Ordinary Shares which would be entitled to receive the relevant dividend or other distribution or entitlement, the VWAP on the Business Days on which those Ordinary Shares have been quoted ex dividend or ex any other distribution or entitlement shall be increased by the Cum Value.

7.3 ADJUSTMENTS TO VWAP FOR CAPITAL RECONSTRUCTION

Where the Ordinary Shares are reconstructed, consolidated, divided or reclassified (other than by way of a bonus issue, rights issue or other essentially *pro rata* issue) into a lesser or greater number of securities during the relevant VWAP Period, the VWAP shall be adjusted by ANZ as it considers appropriate to ensure that the CPS2 Holders are in an economic position in relation to their CPS2 that is as similar as reasonably practicable to the economic position prior to the occurrence of the event that gave rise to the need for the adjustment. Any adjustment made by ANZ will be effective and binding on CPS2 Holders under these CPS2 Terms and these CPS2 Terms will be construed accordingly. Any such adjustment must be promptly notified to all CPS2 Holders.

7.4 ADJUSTMENTS TO ISSUE DATE VWAP

For the purposes of determining the Issue Date VWAP, adjustments to VWAP will be made in accordance with clause 7.2 and clause 7.3 during the VWAP Period for the Issue Date VWAP. On and from the Issue Date, adjustments to the Issue Date VWAP:

- (a) may be made in accordance with clauses 7.5, 7.6, 7.7, 7.8 or 7.9; and
- (b) if so made, will correspondingly affect the application of the Mandatory Conversion Conditions and the Optional Conversion Restrictions, and cause an adjustment to the Maximum Conversion Number.

7.5 ADJUSTMENTS TO ISSUE DATE VWAP FOR BONUS AND RIGHTS ISSUES

- (a) Subject to clauses 7.5(b) and 7.5(c) below, if ANZ makes a *pro rata* bonus issue or a rights issue or other essentially *pro rata* issue (including an issue of the kind known as a "jumbo" or "RAPIDS" issue, where offers to certain institutional holders (or beneficial holders) are made in advance of offers to other holders) of Ordinary Shares to holders of Ordinary Shares generally, the Issue Date VWAP will be adjusted immediately in accordance with the following formula:

$$V = V_0 \times \frac{1}{P} \times \frac{(RD \times P) + (RN \times A)}{(RD + RN)}$$

where:

V means the Issue Date VWAP applying immediately after the application of this formula;

V₀ means the Issue Date VWAP applying immediately prior to the application of this formula;

P means the VWAP during the period from (and including) the first Business Day after the announcement of the bonus, rights or other relevant issue to the ASX up to (and including) the last Business Day of trading cum rights, bonus or other relevant issue (or if there is no period of cum rights, bonus or other relevant issue trading, an amount reasonably determined by the Directors as representing the value of an Ordinary Shares cum the rights, bonus or other relevant issue);

A means the subscription or unit price per Ordinary Share for a rights issue and is zero in the case of a bonus issue;

RN means the number of Ordinary Shares issued pursuant to the rights, bonus or other relevant issue; and

RD means the number of Ordinary Shares on issue immediately prior to the allotment of new Ordinary Shares pursuant to the rights, bonus or other relevant issue.

- (b) No adjustment to the Issue Date VWAP will occur if A exceeds P.
- (c) Clause 7.5(a) does not apply to Ordinary Shares issued as part of a bonus share plan, employee or executive share plan, executive option plan, share top up plan, share purchase plan or a dividend reinvestment plan.
- (d) For the purpose of clause 7.5(a), an issue will be regarded as a *pro rata* issue notwithstanding that ANZ does not make offers to some or all holders of Ordinary Shares with registered addresses outside Australia, provided that in so doing ANZ is not in contravention of the ASX Listing Rules.

7.6 ADJUSTMENT TO ISSUE DATE VWAP FOR OFF MARKET BUY-BACK

- (a) Subject to clause 7.6(b), if ANZ undertakes an off market buy-back under a scheme which but for restrictions on transfer would be generally available to holders of Ordinary Shares, the Issue Date VWAP will be adjusted immediately in accordance with the following formula:

$$V = V_0 \times \frac{1}{P} \times \frac{(BD \times P) - (BN \times A)}{(BD - BN)}$$

where:

V means the Issue Date VWAP respectively applying immediately after the application of this formula;

V₀ means the Issue Date VWAP respectively applying immediately prior to the application of this formula;

P means the VWAP during the 20 Business Days prior to the announcement to the ASX of the buy-back;

A means the buy-back price per Ordinary Share;

BN means the number of Ordinary Shares bought back; and

BD means the number of Ordinary Shares on issue immediately prior to the buy-back.

- (b) No adjustment to the Issue Date VWAP will occur if P exceeds A.

7.7 ADJUSTMENT TO ISSUE DATE VWAP FOR RETURN OF CAPITAL

If ANZ makes a *pro rata* return of capital to holders of Ordinary Shares, the Issue Date VWAP will be adjusted in accordance with the following formula:

$$V = V_0 \times \frac{(P - C)}{(P)}$$

where:

V means the Issue Date VWAP applying immediately after the application of this formula;

V₀ means the Issue Date VWAP applying immediately prior to the application of this formula;

P means the VWAP during the period from (and including) the first Business Day after the announcement of the return of capital to ASX up to and including the last Business Day of trading *cum* the return of capital (or if there is no period of *cum* return of capital trading, an amount reasonably determined by the Directors as representing the value of Ordinary Shares *cum* the return of capital); and

C means, with respect to a return of capital, the amount of the cash and/or the value (as reasonably determined by the Directors) of any other property distributed to holders of Ordinary Shares per Ordinary Share (or such lesser amount such that the difference between P and C is greater than zero).

7.8 ADJUSTMENT TO ISSUE DATE VWAP FOR CAPITAL RECONSTRUCTION

If at any time the Ordinary Shares are reconstructed, consolidated, divided or reclassified into a lesser or greater number of securities, the Directors may if they consider it appropriate reconstruct the Issue Date VWAP in the same way as the exercise price of options over Ordinary Shares would be reconstructed in the same context, in accordance with the ASX Listing Rules (as they apply to ANZ). Each CPS2 Holder acknowledges that ANZ may reconstruct, consolidate, divide or reclassify into a lesser or greater number of securities the Ordinary Shares at any time in its absolute discretion without any such action constituting a variation of rights of CPS2 Holders or otherwise requiring any consent or concurrence.

7.9 DIRECTORS' SOLE DISCRETION REGARDING ADJUSTMENTS TO ISSUE DATE VWAP

Despite the provisions of clauses 7.5 to 7.8, where:

- (a) the effect of any of the adjustment provisions set out in clauses 7.5 to 7.8 is not, in the reasonable opinion of the Directors, appropriate in any particular circumstances (including because more than one adjustment provision applies); or
- (b) any other event occurs in relation to ANZ that may have a dilutive or concentrative effect on the value of the Ordinary Shares, and, in the reasonable opinion of the Directors, such occurrence would have a dilutive or concentrative effect on the value of Ordinary Shares,

the Directors may (subject to APRA's prior written approval):

- (i) make such alterations (if any) to the Issue Date VWAP as they reasonably consider appropriate or necessary to compensate for that effect; or
- (ii) extend an entitlement to the CPS2 Holders to participate in such event based on the number of Ordinary Shares to which those CPS2 Holders would have been entitled if their CPS2 had been Converted on a date nominated by the Directors to compensate for that effect.

7.10 ANNOUNCEMENT OF ADJUSTMENT TO ISSUE DATE VWAP

ANZ will notify CPS2 Holders (an **Adjustment Notice**) of any adjustment to the Issue Date VWAP under this clause 7 within 10 Business Days of ANZ determining the adjustment and the adjustment set out in the announcement will be final and binding.

7.11 ORDINARY SHARES

Each Ordinary Share issued or arising upon Conversion ranks *pari passu* with all other fully paid Ordinary Shares.

7.12 FOREIGN CPS2 HOLDERS

Where CPS2 held by a Foreign CPS2 Holder are to be Converted, unless ANZ is satisfied that the laws of the Foreign CPS2 Holder's country of residence permit the issue of Ordinary Shares to the Foreign CPS2 Holder (but as to which ANZ is not bound to enquire), either unconditionally or after compliance with conditions which ANZ in its absolute discretion regards as acceptable and not unduly onerous, the Ordinary Shares which the Foreign CPS2 Holder is obliged to accept will be issued to a nominee who will sell those Ordinary Shares and pay a cash amount equal to the net proceeds received, after deducting any applicable brokerage, stamp duty and other taxes and charges, to the Foreign CPS2 Holder accordingly.

7.13 LISTING ORDINARY SHARES ISSUED ON CONVERSION

ANZ shall use all reasonable endeavours to list the Ordinary Shares issued upon conversion of the CPS2 on ASX or the principal securities exchange on which its Ordinary Shares are then listed.

8 REDEMPTION MECHANICS

8.1 REDEMPTION MECHANICS TO APPLY TO REDEMPTION

If, subject to APRA's prior written approval, ANZ elects to Redeem CPS2 or must Redeem CPS2 in accordance with these CPS2 Terms, the provisions of this clause 8 apply to that Redemption.

8.2 REDEMPTION

CPS2 will be Redeemed by payment on the Redemption Date, the Exchange Date or the Change of Control Exchange Date (as the case may be) of the Issue Price plus any amount payable under clause 8.3(a)(iii) (together, the **Redemption Price**) by way of redemption, buy-back, reduction of capital or any combination thereof to the CPS2 Holder.

8.3 EFFECT OF REDEMPTION ON CPS2 HOLDERS

On the Redemption Date, the Exchange Date or the Change of Control Exchange Date (as the case may be) the only right CPS2 Holders will have in respect of CPS2 will be to obtain the Redemption Price payable in accordance with these CPS2 Terms and upon payment of the Redemption Price, all other rights conferred, or restrictions imposed, by CPS2 will no longer have effect.

For the purposes of this clause 8:

- (a) where the Redemption involves a buy-back of CPS2:
 - (i) the Redemption Notice, the Exchange Notice or the Change of Control Exchange Notice (as the case may be) constitutes a buy-back offer for the Redemption Price payable on the relevant Redemption Date, Exchange Date or Change of Control Exchange Date (as the case may be);

- (ii) the CPS2 Holder must accept the buy-back offer for their CPS2 and will be deemed to have accepted that buy-back offer for CPS2 held by that CPS2 Holder to which the Redemption Notice, the Exchange Notice or the Change of Control Exchange Notice (as the case may be) relates on the date the Redemption Notice, the Exchange Notice or the Change of Control Exchange Notice (as the case may be) is given and will be deemed to have sold those CPS2 to ANZ free of all Encumbrances on the Redemption Date, the Exchange Date or the Change of Control Exchange Date (as the case may be);
 - (iii) no Dividend is payable on CPS2 on the Redemption Date, the Exchange Date or the Change of Control Exchange Date (as the case may be), but the Directors may, in their absolute discretion, determine that the consideration payable for each CPS2 that is bought back will include an amount (in addition to the Issue Price) equal to a Dividend calculated in accordance with clause 3 for the Dividend Period ending on (but not including) the Redemption Date, the Exchange Date or the Change of Control Exchange Date (as the case may be);
 - (iv) the buy-back agreement will be taken to include ANZ's undertaking in clause 3.8 (as qualified by clause 3.9); and
 - (v) for the purposes of calculating the Redemption Price, any suspension of the right to receive a Dividend arising from the buy-back agreement under applicable law shall be disregarded; and
- (b) if the Redemption involves either or both a reduction of capital with respect to CPS2 and a cancellation of CPS2 and under applicable law CPS2 Holders are entitled to vote on a resolution to approve that reduction of capital or that cancellation, each CPS2 Holder agrees to vote in favour of that or those resolutions.

9 RESALE MECHANICS

9.1 RESALE MECHANICS TO APPLY TO RESALE

If ANZ elects to Resell CPS2 or must Resell CPS2 in accordance with these CPS2 Terms, the provisions of this clause 9 apply to that Resale.

9.2 APPOINTMENT OF NOMINATED PURCHASER

ANZ must appoint one or more Nominated Purchasers for the Resale on such terms as may be agreed between ANZ and the Nominated Purchaser. If ANZ appoints more than one Nominated Purchaser in respect of a Resale, all or any of the CPS2 held by a CPS2 Holder which are being Resold may be purchased by any one or any combination of the Nominated Purchasers, as determined by ANZ.

The obligation of a Nominated Purchaser to pay the aggregate purchase price on the Relevant Date or the Exchange Date (as the case may be) may be subject to conditions.

ANZ will reasonably endeavour, in light of the circumstances then existing, to minimise the conditionality of a Nominated Purchaser's obligation to pay the aggregate purchase price but gives no assurance as to the details of any such conditions.

9.3 IDENTITY OF NOMINATED PURCHASER

ANZ may not appoint a person as a Nominated Purchaser unless that person:

- (a) has undertaken on such terms and subject to such conditions as ANZ reasonably determines for the benefit of each CPS2 Holder to acquire each CPS2 from the CPS2 Holder for the Issue Price on the Relevant Date or the Exchange Date (as the case may be);
- (b) has a long term counterparty credit rating from one of Standard & Poor's, Moody's or Fitch of not less than the rating assigned to CPS2 at that time by that rating agency; and
- (c) is not a Controlled Entity of ANZ (unless otherwise approved in writing by APRA).

9.4 IRREVOCABLE OFFER TO SELL CPS2

Each CPS2 Holder is taken irrevocably to offer to sell CPS2 the subject of that Resale to the Nominated Purchaser on the Relevant Date or the Exchange Date (as the case may be) for a cash amount equal to the Issue Price.

9.5 EFFECT OF RESALE

On the Relevant Date or the Exchange Date (as the case may be), subject to payment by the Nominated Purchaser of the Issue Price to the CPS2 Holders, all right, title and interest in such CPS2 (excluding the right to any Dividend payable on that date) will be transferred to the Nominated Purchaser on the Relevant Date or the Exchange Date (as the case may be).

9.6 CPS2 TERMS AFTER RESALE

If CPS2 are Resold in accordance with these CPS2 Terms, unless otherwise agreed between ANZ and the Nominated Purchaser with the prior written approval of APRA, these CPS2 Terms will apply in all respects to the CPS2 held by the Nominated Purchaser on and from the Resale taking effect in accordance with these CPS2 Terms (including that the CPS2 will Convert in the hands of the Nominated Purchaser on the Mandatory Conversion Date if the Mandatory Conversion Conditions are satisfied in respect of that date or on any other date on which CPS2 are to be Converted in accordance with these CPS2 Terms).

Notwithstanding any other provision of these CPS2 Terms, after the CPS2 have been Resold, any provision of these CPS2 Terms as it relates to the CPS2 held by the Nominated Purchaser (including without limitation any term relating to Conversion) may be amended by agreement between the Nominated Purchaser and ANZ without the consent of any other CPS2 Holder but with the prior written approval of APRA. For the purposes of any such amendment, CPS2 held by:

- (a) a Nominated Purchaser and CPS2 held by other CPS2 Holders; and
- (b) CPS2 held by different Nominated Purchasers,

shall be treated as though they were separate classes of shares, so that without limitation:

- (i) where there is more than one Nominated Purchaser; or
- (ii) where CPS2 are held by a person other than a Nominated Purchaser,

then:

- (A) amendments may be made to the CPS2 held by a Nominated Purchaser; and
- (B) the CPS2 held by a Nominated Purchaser can be Redeemed or Converted,

in each case without the consent of or consideration for the interests of any CPS2 Holders other than the Nominated Purchaser the terms of whose CPS2 are being amended, Redeemed or Converted and without any corresponding amendment, Redemption or Conversion (as the case may be) to the CPS2 held by other CPS2 Holders.

9.7 EFFECT OF FAILURE BY THE NOMINATED PURCHASER TO PAY

If a Nominated Purchaser does not pay the Issue Price to the CPS2 Holders on the Relevant Date or the Exchange Date (as the case may be) (a **Defaulting Nominated Purchaser**) (whether as a result of a condition to purchase not being satisfied or otherwise):

- (a) the Resale Notice or the Exchange Notice (as the case may be) as it relates to the Defaulting Nominated Purchaser will be void;
- (b) CPS2 will not be transferred to the Defaulting Nominated Purchaser;
- (c) in the case of a Resale Notice, CPS2 referable to the Defaulting Nominated Purchaser will not Convert into Ordinary Shares on that Relevant Date and the Mandatory Conversion Date:
 - (i) will be deemed not to have occurred on that Relevant Date; and
 - (ii) will occur on the next Relevant Date on which it is otherwise determined to occur in accordance with clause 4.2;
- (d) the CPS2 Holder will continue to hold those CPS2 until otherwise Redeemed, Converted or Resold in accordance with these CPS2 Terms; and
- (e) ANZ may, subject to APRA's prior written approval and without prejudice to any other rights of ANZ under these terms to elect an Exchange, elect to Exchange all (but not some) CPS2 referable to the Defaulting Nominated Purchaser on a date no later than 45 Business Days after the Relevant Date or the Exchange Date (as the case may be) (the **Deferred Exchange Date**) by giving another Exchange Notice in accordance with clause 5.1 at least 25 Business Days prior to the Deferred Exchange Date. In these circumstances, the date on which the Exchange is to occur for the purposes of clause 5.2(b) will be the Deferred Exchange Date.

10.4 CALCULATIONS AND ROUNDING OF PAYMENTS

Unless otherwise specified in these CPS2 Terms:

- (a) all calculations of amounts payable in respect of a CPS2 will be rounded to four decimal places; and

10.5 NO SET-OFF OR OFFSETTING RIGHTS

A CPS2 Holder:

- (a) may not exercise any right of set-off against ANZ in respect of any claim by ANZ against that CPS2 Holder; and
- (b) will have no offsetting rights or claims on ANZ if ANZ does not pay a Dividend when scheduled under CPS2.
