Link Net and IDX Channel Launch First Stock Market TV Channel in HD

Dear Friends of Link Net,

Link Net, a broadband internet provider and subsidiary of First Media Group, has collaborated with the IDX Channel TV station, a subsidiary of the Indonesia Stock Exchange, to launch Indonesia's first and only high-definition capital market TV channel in Jakarta on Monday (05/12).

The IDX Channel HD will be shown on Channel 398 on First Media, the same channel as the previous non-HD IDX Channel.

This is not the first time Link Net has partnered with the IDX, since it has actually been providing high-speed internet connection to the stock exchange building in the past 16 years. It is another step in Link Net's foray to the corporate segment after launching its First Media Business.

IDX Channel HD, so far Indonesia's only stock market TV channel, starts airing today with key programs, such as Movers & Shakers, News Screen and Market Headlines. The original IDX Channel was launched by President Joko Widodo in August last year, and has 3.4 million subscribers to date according to an official statement.
