CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Notes to the Group's Income Statement:

- (1) Profit before income tax includes the following:

	The Group Second quarter ended 30 June		The Group Half year ended 30 June	
	2008 S\$'000	2007 S\$'000	2008 S\$'000	2007 S\$'000
Interest income	7,028	11,307	15,208	22,261
(Loss)/profit on sale of investments, property, plant and equipment (net)	(603)	(472)	(585)	795
Investment income	2,984	3,848	3,837	5,069
Depreciation and amortisation	(33,449)	(34,865)	(66,580)	(69,342)
Interest expenses	(22,070)	(28,057)	(47,591)	(57,248)
Net exchange (loss)/gain	(4,629)	2,487	(370)	2,287
Mark-to-market (loss)/gain on financial assets held for trading (net)	(920)	(1,290)	(5,186)	8,364

- (2) Other operating income, comprising mainly management fee, miscellaneous income and net exchange gain, decreased by \$3.2 million for Q2 2008 and \$12.5 million for 1H 2008. The decreases were due to exchange loss arising from foreign loans and lower management fees. In addition, the profit from partial sale of stapled securities held in CDL Hospitality Trusts and the release of £1.0 million (approximately S\$3.0 million) property tax provision set aside by its subsidiary, Millennium & Copthorne Hotels plc on the acquisition of Regal hotels located in United States in 1999 following protracted negotiations in Q1 2007 had also attributed to the decline in 1H 2008.
- (3) Administrative expenses comprise mainly depreciation, hotel administrative expenses, operating lease expenses and salaries and related expenses, decreased by \$12.5 million for Q2 2008 and \$1.3 million for 1H 2008 primarily due to lower salaries and related expenses. This is partially offset by higher rental expenses incurred for the leasing of hotels from CDL Hospitality Trusts.
- (4) Other operating expenses comprise mainly property taxes and insurance on hotels, hotel other operating expenses and professional fees.
- (5) Finance income comprises mainly interest income and mark-to-market gain on financial assets held for trading. The finance income is lower by \$2.3 million for Q2 2008 and \$14.6 million for 1H 2008 on account of lower interest income earned from fixed deposits and decline in mark-to-market gain on financial assets held for trading.
- (6) Finance costs comprise primarily interest on borrowings, mark-to-market loss on financial assets held for trading and amortisation of capitalised transaction costs on borrowings. Finance costs decreased by \$4.2 million and \$4.4 million for Q2 2008 and 1H 2008 respectively on account of lower average borrowings.
- (7) Share of after-tax profit of associates relates mainly to the Group's share of results of CDL Hospitality Trusts.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

- (8) Share of after-tax profit of jointly-controlled entities decreased by \$50.7 million for Q2 2008 and \$36.1 million for 1H 2008 primarily due to lower contributions from St. Regis Residences, The Sail @ Marina Bay and Cuscaden Residences.
- (9) Income tax expense for the period is derived at by applying the varying statutory tax rates on the taxable profits/(losses) and taxable/deductible temporary differences of the different countries in which the Group operates.

	The Group Second quarter 30 June		The Group Half year 30 June	
	2008 S\$m	2007 S\$m	2008 S\$m	2007 S\$m
The tax charge/(credit) relates to the following:				
Profit for the period	41.6	45.8	85.8	75.9
Under/(Over)provision in respect of prior periods	5.3	(59.0)	3.4	(62.9)
	<u>46.9</u>	<u>(13.2)</u>	<u>89.2</u>	<u>13.0</u>

The \$59.0 million and \$62.9 million write-back of overprovision of tax for Q2 2007 and 1H 2007 are primarily due to changes made in the UK tax legislation on hotel tax allowances and reduction in tax rates in various geographical regions where the Group's operations are located. Excluding the under/(over)provision in respect of prior periods, the effective tax rate for the Group is 16.7% for Q2 2008 (Q2 2007: 18.5%) and 17.8% for 1H 2008 (1H 2007: 17.8%).

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Notes to the Balance Sheet of the Group

- 1) The increase is mainly due to additional investment in First Sponsor Capital Limited and share of profit of CDL Hospitality Trusts, partially offset by dividend received.
- 2) The increase is due primarily to share of jointly-controlled entities' after-tax profit for the period.
- 3) The decrease is due to the reclassification of lease premium prepayments to property, plant and equipment.
- 4) The assets and liabilities classified as held for sale, in accordance to *Singapore Financial Reporting Standards 105 – Non-current assets held for sale and discontinued operations*, comprised the following:
 - a) A wholly-owned subsidiary of City Developments Limited had entered into a sale and purchase agreement on 19 June 2008 to sell Commerce Point for a total sale consideration of \$180.7 million. Accordingly, the carrying amount of this property and liabilities directly associated with it had been transferred to "Assets classified as held for sale" and "Liabilities classified as held for sale". The sale was completed on 3 July 2008.
 - b) A wholly-owned subsidiary of Millennium & Copthorne Hotels plc, a 53% subsidiary of City Developments Limited, had entered into a conditional agreement on 24 June 2008 to sell the 100% holding in CDL Hotels (Korea) Limited for a total sale consideration of KRW468.6 billion. Completion of the transaction is expected to take place on 30 September 2008 (or such other dates as the parties agree). Henceforth, the associated assets and liabilities of CDL Hotels (Korea) Limited were transferred to "Assets classified as held for sale" and "Liabilities classified as held for sale".

1(b)(ii) Aggregate amount of group's borrowings and debt securities.

The Group's net borrowings refer to aggregate borrowings from banks, financial institutions and finance lease creditors, after deducting cash and cash equivalents. It excludes advances from minority shareholders of certain subsidiaries, deferred real estate taxes payable, retention sums payable, other payables and deposits received. Unamortised balance of transaction costs have not been deducted from the gross borrowings.

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-
- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
 - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Group Performance

The Group's profit before income tax increased for both Q2 2008 and 1H 2008 by 0.7% and 13.1% respectively, compared to the same corresponding periods in 2007 despite the sub-prime woes. Profit before income tax for 1H 2008 increased to \$481.4 million (1H 2007: \$425.5 million).

For 1H 2007, the Group benefited from substantial one-off tax credits as a result of changes in the UK tax legislation on hotel tax allowances and reduction in tax rates in various geographical regions where the Group's hotel operations are located. Despite the absence of these tax credits in 1H 2008, the Group's profit after tax and minority interest for 1H 2008 increased 3.0% to \$330.1 million as compared to \$320.5 million in 1H 2007.

The Group's net profits are core earnings and do not include valuation differences arising from investment properties as the Group adopted the conservative policy of stating them at cost less accumulated depreciation and impairment losses, unlike other listed major developers.

Basic earnings per share for 1H 2008 increased 3.2% to 35.6 cents (1H 2007: 34.5 cents).

Property development segment remains the main contributor of the Group's profit before tax. Hotel operations continued to be the second biggest contributor to the Group's results. Profit contribution from rental properties had also shown a significant increase of 84.9% to \$49.6 million, as compared to 1H 2007.

Property

The property market for Q2 2008 continued to be subdued. GDP for Q2 2008 fell to 2.1% compared to 9.1% for Q2 2007. Though residential property prices remained steady, with a small increase of 0.2% in the price index, transaction volume continued to be low. The sub-prime woes and credit crunch have created poor sentiments and their effects are broader than anticipated. Total turnover for the industry in the first half of the year was 2,147 units, a far cry from the record turnover of 9,385 units in the same period in 2007. Nevertheless, Q2 2008 recorded higher transaction volume with 1,417 units sold, an increase of 94% compared to the 730 units sold during Q1 2008.

The Group just launched 25 units in Phase 1 of the boutique, 77-unit freehold Shelford Suites in June. 16 units have been sold to-date. Anticipating the growth of the mass market, the Group also began previewing its joint-venture project – Livia, a 724-unit development at Pasir Ris near Changi Airport, Singapore Expo and Changi Business Park, towards the end of Q2 2008. When Phase 1 of Livia comprising 360 units, was launched in the first week of July 2008, it was met with overwhelming response with more than 300 units sold. The Group has a 51% share in Livia and profits from this project have not been recognised yet, as construction has just begun.

During the year, the Group continued to book in profits from its pre-sold projects namely City Square Residences, Tribeca, The Solitaire, One Shenton and Cliveden at Grange. It also booked in profits from its joint-venture projects such as The Sail @ Marina Bay, St. Regis Residences, Botannia, The Oceanfront @ Sentosa Cove, Parc Emily and Ferraria Park.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

The office sector continued to remain steady. The Group's office portfolio continued to enjoy healthy occupancy of over 94% with upward rental revision upon renewal of existing tenancies. Although rental increase has moderated compared to last year, the Group enjoyed good rental growth of 24.3% in 1H 2008 as compared to 1H 2007.

In June 2008, the Group contracted to sell one of its non-core office assets – Commerce Point, for a total consideration of \$180.7 million. The sale was completed in July and profits will be booked in Q3 2008.

The securing of tenants for the Group's mega retail complex, City Square Mall continued to progress at a healthy pace. Most of the anchor tenants have already been confirmed and the rest of the space is being taken up progressively. The complex is expected to open for business in Q4 next year.

Hotel

Millennium & Copthorne Hotels plc (M&C), in which the Group has a 53% interest, achieved a credible set of half year results, in line with its expectations.

Revenue for the half year was up by 2.2% to £338.4 million at constant exchange rates, with hotel revenue growth up by 4.9% to £334.5 million.

M&C Group RevPAR rose 6.0% to £54.91 for 1H 2008 at constant exchange rates.

M&C's net profit before tax for the first half of the year went up 9.2% to £60.3 million, from £55.2 million for 1H 2007. Its profit after tax and minority interest for 1H 2008 amounted to £40.4 million, down by 23.3% from £52.7 million in 1H 2007. The decline is largely due to M&C benefiting from the changes made in the UK tax legislation in respect of the removal of claw back on hotel tax allowances and reduction in tax rates totalling £17.9 million, which were factored into its 1H 2007 results. The comparison is therefore not like-for-like.

In Australia/New Zealand, there was a significant slowdown in general property market conditions. Excluding this property operations, M&C's profit before tax increased by 17.1% for 1H 2008 compared to 1H 2007. Hotel operations continued to perform strongly in Singapore, New York and London, although they were partially offset by slower growth in Regional UK and New Zealand, and the impact of the major renovation and total refurbishment works at the Millennium Bostonian in Boston and the Millennium Knickerbocker in Chicago. All the new rooms for these hotels are expected to be completed in August 2008.

In particular, Singapore experienced healthy growth with a RevPAR increase of 33.3% over 2007.

Expansion in Asia continued with three more hotels opened in China. After the 352-room Millennium Harbourview Hotel Xiamen (formerly the Crown Plaza Harbourview Hotel Xiamen) contracted under a franchise agreement was opened in January, the 521-room Grand Millennium Beijing was officially opened in April, and the 453-room Copthorne Hotel Qingdao (formerly Hotel Equatorial Qingdao), also contracted under a franchise agreement, in May.

In the Middle East, M&C opened four new properties under management contracts, namely, the 352-room Grand Millennium Dubai, the 163-room Copthorne Hotel Dubai, the Al Jahrah Copthorne Hotel & Resort – M&C's first property in Kuwait and finally, the 108-room Kingsgate Abu Dhabi Hotel.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

On 24 June 2008, M&C announced the proposed disposal of CDL Hotels (Korea) Limited, a wholly-owned subsidiary of M&C with one principal asset, namely the Millennium Seoul Hilton Hotel. The total sale consideration for the 100% holding in the issued share capital in CDL Hotels (Korea) Limited has been agreed at KRW 468.6 billion (or approximately £232.6 million based on an exchange rate of £1 to KRW 2,014.9), subject to certain completion adjustments. The disposal is expected to result in a pre-tax profit of approximately £155.0 million, subject to exchange rate and completion adjustments and net of adjustment costs. Completion of the proposed disposal is expected to take place on 30 September 2008 or such other date as the parties may agree. This sale value is once again a testament to M&C's ability to maximise shareholder value.

Notwithstanding the credible results of M&C for 1H 2008, the effect of translating the results at a weakening exchange rate of the Sterling Pound against the Singapore Dollar has resulted in the decline in revenue and profit before tax contributions of the hotel operations.

Please also refer to Section 14 for review of the Group's performance by business segments.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The Group's performance for the period under review is in line with its expectations as disclosed in the announcement of results for the first quarter ended 31 March 2008.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Property

With the global economy experiencing a slow-down and credit crunch, compounded by the weak US market, the Singapore economy is inevitably not spared these economic challenges. It is not surprising that many sectors, including the property market, are affected somewhat.

The Group is optimistic that under this challenging economic situation lies tremendous opportunities. With its relatively low gearing, the Group is well-positioned with financial prowess to explore various opportunistic investments, at the appropriate time.

We have continued to remain nimble and agile in our business approach, committed to finding innovative ways which will be beneficial to our shareholders. The Group is pleased to announce that it will be issuing Singapore's first Islamic *Sukuk-Ijarah* unsecured financing arrangement, under a proposed \$1 billion Islamic Multi-Currency Medium Term Notes (MTN) Programme. This is the first-of-its kind product in Singapore and the Group is excited to be the pioneer for this MTN programme to tap new markets and investors. This issuance marks a milestone for Singapore as the city develops Islamic Finance as an alternative mode for investment and fund raising. This programme will provide the Group with a diversified, alternative and non-traditional financing stream to further enhance its war-chest. The Group will make further announcements on this development in due course.

The Group has a diversified portfolio of land bank that caters to the high-end, mid-tier and mass market segments, which it has strategically accumulated at relatively low cost over the years. This enables the Group to adapt to market conditions and tailor its launches to meet changes in market demands. In October 2004, the Group kick-started the property market with the successful launch of The Sail @ Marina Bay and it continued with timely launches, from 2005 to 1H 2007, of premium properties and innovative lifestyle concepts to meet pent-up demand. Prices of the luxury properties during this period experienced phenomenal growth and the Group managed to lock-in good profits. With the current upward trend for the mass market segment, the Group launched Livia to much success. Despite the high development cost in today's operating climate, the Group has the option to price its launches competitively to sell due to its low land cost as in the case of Livia, and yet still be able to attain healthy profits.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

A few high-end property buyers, who had bought their properties at lower prices at the early stages, could have resorted to panic-selling in the secondary market, for reasons of their own. However, these unusual, low transacted prices should not represent the overall market price and sentiments for the high-end market. The slow down in the property market is not as widespread as some may believe.

Some research reports have projected oversupply for the residential market. However, the oversupply projection may not happen materially. Firstly, in today's environment, land cost is becoming increasingly more expensive in land scarce Singapore. Under current operating climate, where there is a credit crunch, developers will likely be more cautious in their purchase or tender for land. Secondly, construction costs have also escalated significantly. Developers who delay their residential launches may hold back on their construction plans. Thirdly, the construction industry may continue to face delivery pressures. Even the government has also recently announced the postponement of some public sector projects to ease pressure on construction resources. All these factors have an impact on the supply which may not be as high as some have anticipated. Depending on when market sentiments improve, the paced launches will likely lead to another bottle-neck of pent-up demand in the years to come. Ultimately, sentiments are fundamentally the most important factor in the demand and supply equation.

The Group has two projects in the pipeline to launch, namely the 336-unit freehold development at Thomson area called The Arte and the 228-unit exclusive luxury residences at The Quayside Collection at Sentosa Cove. The Group has the option to either proceed to launch and make good profits as its land cost was not high or alternatively, wait for the right time to launch so as to maximise its profits substantially.

In view of the very good sales, the Group will be releasing Phase 2 of the remaining units in its Livia project at Pasir Ris.

The Group will proceed to construct developments where it has favourably secured reasonable construction cost from reputable and strong construction companies, even before launching them. Construction of the hotel and the residences at The Quayside Collection at Sentosa Cove has already started. Land parcels at Sentosa Cove which are extremely exclusive, limited and difficult to acquire, have all been sold. The Group is therefore confident that the prospects for The Quayside Collection will be good, especially when the Sentosa Integrated Resort (IR) is expected to be completed in 2010. It is therefore under no pressure to launch especially since its land cost was low. When the Group decides to launch, it can book in more profits based on the stage of construction at the time of sales.

Office leasing is expected to remain strong. Even if there should be a decline in rental rates, the renewed rental rates will still be much higher than compared to the doldrum years when some tenancy agreements were locked in at extremely low rates for a long period of time. A number of the Group's leases are up for renewal at higher rates and its investment properties which it has chosen to carry at cost, will provide good rental yields. The Group has the option to either keep its assets and enjoy the higher yields or dispose some of them, so as to build its war-chest for good acquisition opportunities which may become available at some point in time.

Diversification

The Group's exposure to overseas regional developments is largely through its portfolio of M&C hotels and joint-venture investments. M&C remains committed to its twin strategy of being both an owner and operator of hotels. It will continue to review and evaluate the potential of its hotel assets, especially since many of its hotels were bought at a low cost and have since appreciated in value. When the opportunity arises, it may unlock the capital value of its assets, such as in the case of its recent disposal of Millennium Seoul Hilton Hotel.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

The Group will continue to explore emerging markets. It had explored Vietnam previously but it found the market at a cyclical high which was not sustainable. Given its current high inflation environment and credit crunch, there may be potential opportunities at some future date. The Group has some investments in China but they are not significant. It has some equity interest in the 521-room Grand Millennium Beijing and owns an almost-completed office project in Tianjin.

Currently, the Group has relatively more presence in Thailand. Its early direct investment in the commercial development – Exchange Tower, is about 90% occupied. Through Real Estate Capital Asia Partners, L.P (RECAP), a private estate fund, its investment in the 605-unit Millennium Residences @ Sukhumvit in Bangkok is substantially sold and the mega Jungceylon complex, located at Patong Beach, Phuket's largest shopping mall (approximately 1.5 million square feet) on the island is enjoying good occupancy. This complex was timely acquired at a much lower cost as compared to today's replacement cost. The Group's 421-room Millennium Resort Patong Phuket, located next to the mall, which was officially opened recently, has good potential.

Hotel

The rate of growth has slowed in Asia in June and July of 2008. In this uncertain economic environment, M&C will be more vigilant in controlling costs and in reacting quickly to changing market conditions.

Even with a slow-down of the hospitality market in Asia, this will need to be taken into context. Growth in this region (especially in Singapore) has escalated tremendously and it is not realistic to expect continuous linear growth. Even if there is moderation due to the uncertain economic environment, the sector is still performing much better than before the sub-prime woes. While there may be a slower growth, it is highly unlikely to result in a steep downhill decline.

Companies are likely to cut back on their corporate travel spending especially for high-end hotels. M&C on the other hand, will benefit from this as the majority of its hotels are in the four-star category and it anticipates a shift in customers selecting this class of hotels instead.

M&C expects the RevPAR growth trend of the second quarter to continue into the third quarter, with RevPAR already up by 6.7% in July 2008.

With its diversified geographical spread, strong balance sheet and low gearing, M&C is in a good position to take advantage of any attractive opportunities that may arise. Furthermore, M&C has 38.6% interest in the Singapore-listed CDL Hospitality Trusts which provides good yields to investors and can also be strategically used as another vehicle for its expansion at the right time.

M&C will continue its expansion into key gateway cities in Asia and the Middle East. Two hotels operating under management contracts will open later in the year in China, namely in Chengdu and Wuxi.

In the Middle East, a further eight management contracts were signed, with seven in the United Arab Emirates and one in Kuwait. These properties are due to open between 2009 and 2011, and will account for another 2,300 additional rooms. This brings M&C's worldwide pipeline to 4,555 rooms (17 hotels).

The £25.1 million major renovation and complete refurbishment at the Millennium Bostonian in Boston and the Millennium Knickerbocker in Chicago will reposition both hotels which are prominently sited in prime locations, into better properties that can charge higher hotel rates than currently.

Group Prospects

The Group has locked in substantial profits from its property sales and its investment properties will provide good yield, even if there is no growth or a decline in rental rates from its peak. We are confident that hotel operations will continue to be a big contributor to the Group's performance.

While the Singapore economy remains subdued, it is still fundamentally sound, with no shortage of housing loans, strong governance and a pro-business environment. As Singapore continues to attract foreign talent, these new residents will seek housing options. With our housing loans at low interest rates and present high inflationary trend, this environment is conducive for real estate investments which augur well for the Singapore property market.

The plans to develop Singapore into a global city are still progressing well with many of the upcoming developments such as the highly anticipated IRs currently under construction. The Marina Bay IR is poised to attract new large-scale meetings, incentives, conventions, and exhibitions (MICE) business while the other IR at Sentosa, with the largest Universal Studios in Asia, will be a major attraction for leisure travellers. Singapore will also be the host for the inaugural Youth Olympics in 2010.

The current slow-down in the economy is different from the Asian Financial Crisis of 1997. The Group has very little unsold residential stock, a healthy balance sheet and locked-in profits yet to be recognised from its pre-sold residential units.

The Group is confident of Singapore's prospects, especially given the Republic's strong fundamentals. When the two IRs become operational, the tourism market in Singapore will experience a new stream of tourist arrivals as well as strong growth in the property market as witnessed in cities like Macau. In the meantime, we will wait for the right time to seize opportunities.

The Group is confident of remaining profitable in the next 12 months.

14. In the review of performance, the factors leading to any material changes in contributions to turnover and earnings by the business or geographical segments.

Property Development

Revenue increased by 3.9% for Q2 2008 to \$219.1 million (Q2 2007: \$210.9 million) but declined by 3.5% for 1H 2008 to \$453.2 million (1H 2007: \$469.4 million).

Pre-tax profit of \$147.8 million and \$302.9 million registered for Q2 2008 and 1H 2008 respectively were 10.5% and 27.4% higher as compared to the corresponding period for 2007.

Projects that contributed to both revenue and profit for 2008 include City Square Residences, Botannia, One Shenton, Cliveden at Grange, The Solitaire, Tribeca and sale of land banks in New Zealand. In accordance to the Group's policy of equity accounting for the results of its jointly-controlled entities, whilst revenue from The Sail @ Marina Bay, Parc Emily, The Oceanfront @ Sentosa Cove, Ferrara Park and St. Regis Residences, had not been consolidated into the Group's total revenue, the Group's share of profits arising from these joint venture developments had been included in pre-tax profit.

The increase in revenue for Q2 2008 was primarily due to revenue recognised for Cliveden at Grange and One Shenton, partially offset by decrease in contribution from Monterey Park, Residences@Evelyn, Savannah CondoPark, The Imperial, The Pier at Robertson, Chelsea Garden and lower sale of land banks in New Zealand.

The marginal decline in 1H 2008 revenue was mainly due to the fact that projects such as Butterworth Lane, Monterey Park, The Imperial, The Pier at Robertson, Savannah CondoPark, Residences@Evelyn which had contributed to revenue for 1H 2007, were fully sold by end of 2007. This was partially mitigated by revenue accounted for The Solitaire, One Shenton and Cliveden at Grange in 1H 2008.

The increase in pre-tax profits for Q2 2008 and 1H 2008 was on account of higher profit margins achieved for projects launched in recent years.

Hotel Operations

Revenue declined by 2.8% to \$487.5 million (Q2 2007: \$501.5 million) for Q2 2008 and 0.9% for 1H 2008 to \$943.1 million (1H 2007: \$952.0 million) respectively.

Pre-tax profit for this segment reported a decrease of 15.4% to \$74.0 million (Q2 2007: \$87.5 million) for Q2 2008 and 2.6% to \$126.1 million (1H 2007: \$129.4 million) for 1H 2008.

The decrease in both revenue and pre-tax profits for Q2 2008 and 1H 2008 was mainly due to weakening of sterling pound and US dollar against Singapore dollars, in which the Group's hotel operations in United Kingdom and United States were one of the main contributors. This was however partially mitigated by improvement in the Group's RevPAR, backed by the strong demand in Singapore, London and New York despite Millennium Bostonian in Boston and Millennium Knickerbocker in Chicago currently undergoing renovation.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Rental Properties

Revenue increased by 26.0% for Q2 2008 to \$61.5 million (Q2 2007: \$48.8 million) and 24.3% to \$118.7 million (1H 2007: \$95.5 million) for 1H 2008 on account of general improvements in both average rental rates and occupancy.

Pre-tax profit increased by 76.3% to \$24.5 million (Q2 2007: \$13.9 million) for Q2 2008 and 85.1% to \$49.6 million (1H 2007: \$26.8 million) for 1H 2008. These increases were a result of higher rental income, the recovery of some property taxes from tenants and increased profit contribution from CDL Hospitality Trusts.

Others

Revenue, comprising mainly building maintenance contracts, project management, club operations and dividend income, has remained relatively constant at \$12.6 million for Q2 2008 (Q2 2007: \$13.9 million) and \$24.5 million for 1H 2008 (1H 2007: \$27.5 million).

Pre-tax profit for this segment had fallen by 77.7% to \$2.7 million in Q2 2008 (Q2 2007: \$12.1 million) and 91.1% to \$2.8 million in 1H 2008 (1H 2007: \$31.6 million). The decline was a result of exchange loss on foreign currency loans and higher mark-to-market loss on financial assets held for trading recognised in 2008 as opposed to mark-to-market gains recorded in 2007 in light of the bearish stock market.

15. A breakdown of the total annual dividend (in dollar value) for the issuer's latest full year and its previous full year.

Total Annual Net Dividend (*Refer to Para 16 of Appendix 7.2 for the required details*)

	Full Year 2007 S\$'000	Full Year 2006 S\$'000

Special	188,226	129,121
Preference	12,904	12,904
Total	269,328	197,947

The final tax exempt (one-tier) ordinary dividend and special final tax exempt (one-tier) ordinary dividend for the year ended 31 December 2007 of 7.5 cents and 12.5 cents respectively per ordinary share have been approved by the ordinary shareholders at the Annual General Meeting held on 24 April 2008 and the dividend amounts are based on the number of issued ordinary shares as at 8 May 2008.
