RIVER THAMES, LONDON**

City Developments Limited (CDL) (through its subsidiary Pinenorth Properties Limited) will preview Phase One of Teddington Riverside – a rare luxurious residential waterfront development along London’s scenic River Thames. The Asian roadshow starts with an exhibition at The St. Regis Singapore this weekend on 6 and 7 October 2018 and will also cover China and Hong Kong.

The 999-leasehold project is the only riverside development overlooking the picturesque Teddington Lock on the River Thames. The 240-unit project sits on a sizable 196,022 square feet (sq ft) site. It has 217 apartments comprising one-, two- and three-bedroom units in four blocks; six townhouses; two duplex apartments which are part of the restored Weir Cottage and 15 affordable housing units.

Teddington Riverside’s Phase One preview will comprise the five-storey Carlton House and seven-storey Shepperton House¹. Unit sizes are from 549 sq ft for a one-bedroom, 764 sq ft for a two-bedroom and 1,152 sq ft for a three-bedroom. Apartments with views of the river are available for purchase. During the preview weekend, an exclusive promotion will be available. Prices start from £670,000 for a one-bedroom, £980,000 for a two-bedroom and £1.63 million for a three-bedroom unit, and the project comes with a 10-year building warranty.

Teddington Riverside is a 28-minute drive away from Heathrow Airport, 36-minute train ride to Waterloo in Central London and 48-minute drive to Gatwick Airport. The development is also minutes’ drive to Kingston and Richmond shopping districts with various amenities including department stores, boutiques, cafes, restaurants and theatres.

Furthermore, Teddington Riverside is a 10-minute drive to Waldegrave School, described by UK’s The Sunday Times as the best state secondary school in the country. Other reputable American and German international schools, universities, primary and secondary schools, as well as hospitals such as Kingston A&E, New Victoria and Parkside are also nearby.

Mr Mark Yip, CDL Chief Revenue Officer said, “We believe that London will remain a world-class city and a key financial hub in Europe. Connectivity to the world and infrastructure within are of paramount importance when choosing a property and these key factors still hold true in London. In addition, the weaker pound sterling has piqued interest among investors and offers a good opportunity to own a prime piece of London property.”

“Teddington Riverside has the best of South West London’s culture, parks and schools on its doorstep and benefits from excellent connectivity to Central London and major airports. The fact that the site used to house the former Teddington Studios has also been a key talking point for this project. Above

¹Carlton House and Shepperton House are expected to be completed by November 2018 and March 2019 respectively. The rest of the development will be completed by 2019.

all, not many people can have the famed River Thames as the backdrop of their home. We are confident that Teddington Riverside will attract discerning investors with its rare riverside address and the idyllic lifestyle it offers.”
