Notes to the Group's Income Statement:

- (1) Profit before tax includes the following:

	The Group		The Group	
	Third quarter ended 30 September		9-month period ended 30 September	
	2016	2015	2016	2015
	S\$'000	S\$'000	S\$'000	S\$'000

Impairment loss on available-for-sale financial asset	(500)	-	(500)	-

- (2) Other operating income comprises mainly management fee, miscellaneous income and profit on sale/realisation of investments and property, plant and equipment. This had increased significantly by \$49.6 million to \$50.2 million (Q3 2015: \$0.6 million) for third quarter of 2016 (Q3 2016) and \$65.6 million to \$73.5 million (YTD Sep 2015: \$7.9 million) for the 9-month period ended 30 September 2016 (YTD September 2016). The significant increases for Q3 2016 and YTD September 2016 were primarily due to gains recognised from the sale of the Group's entire 52.52% interest in City E-Solutions Limited (CES). In addition, increased realisation of investment in a private real estate fund and gain accounted following settlement with the insurers in respect of material damage claim relating to fixtures, fittings and equipment of Millennium Hotel Christchurch, which was affected by the 2011 New Zealand earthquake, also attributed to the increase for YTD September 2016.
- (3) Administrative expenses comprise mainly depreciation, hotel administrative expenses, operating lease expenses and salaries and related expenses. This had decreased by \$6.7 million to \$134.1 million (Q3 2015: \$140.8 million) for Q3 2016 but remained flat at \$394.3 million (YTD September 2015: \$397.0 million) for YTD September 2016. The decrease for Q3 2016 was largely due to absence of depreciation from Central Mall Office Tower, 7 & 9 Tampines Grande and Manulife Centre which the Group had disposed of the leasehold interests in these 3 investment properties in December 2015.
- (4) Other operating expenses comprise mainly property taxes and insurance on hotels, other operating expenses on hotels, net exchange differences, professional fees and impairment losses on loans to joint ventures. This had decreased by \$16.5 million to \$100.8 million (Q3 2015: \$117.3 million) for Q3 2016 but remained relatively flat at \$305.5 million (YTD September 2015: \$312.5 million) for YTD September 2016. The decrease for Q3 2016 was primarily due to net exchange gains accounted in Q3 2016 vis-à-vis net exchange losses incurred in Q3 2015.
- (5) Finance income comprises mainly interest income and fair value gain on financial assets held for trading. This had decreased by \$2.4 million to \$9.1 million (Q3 2015: \$11.5 million) for Q3 2016 and \$8.0 million to \$33.2 million (YTD September 2016: \$41.2 million) for YTD September 2016. The decreases for Q3 2016 and YTD September 2016 were due to lower interest income earned.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

- (6) Finance costs comprise mainly interest on borrowings, fair value loss on financial assets held for trading and amortisation of capitalised transaction costs on borrowings. This had decreased by \$1.7 million to \$31.8 million (Q3 2015: \$33.5 million) and \$4.1 million to \$92.2 million (YTD September 2015: \$96.3 million) for Q3 2016 and YTD September 2016 respectively. The decrease for Q3 2016 was due to absence of fair value loss on financial assets held for trading from CES following the Group's disposal of CES. The decrease for YTD September 2016 were due to lower interest expenses incurred on decreased average borrowings and lower fair value loss on financial assets held for trading accounted in 2016.
- (7) Share of after-tax profit of associates relates primarily to the Group's share of results of First Sponsor Group Limited (FSGL). This had increased marginally by \$0.3 million to \$6.4 million (Q3 2015: \$6.1 million) for Q3 2016 and \$0.6 million to \$13.0 million (YTD September 2015: \$12.4 million) for YTD September 2016. Despite FSGL reporting increased contribution from property sales with more units from its Millennium Waterfront project being handed over in the current period and higher contribution from rental properties with its investment in Zuiderhof I and Arena Towers located in Netherlands, acquired in February 2015 and June 2015 respectively, this was offset by property financing business. The property financing performance was impacted by various loan defaults in December 2015 and January 2016, leading to no interest income being recognised on these loans after the point of default.
- (8) Share of after-tax profit of joint ventures decreased by \$4.4 million to \$10.1 million (Q3 2015: \$14.5 million) for Q3 2016 and \$38.7 million to \$26.6 million (YTD September 2015: \$65.3 million) for YTD September 2016. The decreases for Q3 2016 and YTD September 2016 were due to lower contribution from Bartley Ridge and The Inflora as well as absence of contribution from Bartley Residences which obtained Temporary Occupation Permit (TOP) in Q2 2015. In addition, the absence of profit recognised in entirety from an executive condominium (EC), The Rainforest which obtained TOP in Q1 2015 also attributed to the decrease for YTD September 2016.
- (9) Tax expense for the period is derived at by applying the varying statutory tax rates on the taxable profits/(losses) and taxable/deductible temporary differences of the different countries in which the Group operates.

	<u>35.6</u>	<u>24.4</u>	<u>87.7</u>	<u>75.3</u>

The overall effective tax rate of the Group was 14.9% (Q3 2015: 15.8%) for Q3 2016 and 15.1% (YTD September 2015: 14.6%) for YTD September 2016. Excluding the under/(over) provision in respect of prior periods, the effective tax rate of the Group is 14.6% (Q3 2015: 19.7%) for Q3 2016 and 16.3% (YTD September 2015: 17.3%) for YTD September 2016.

* These balances are stated at amortised cost after taking into consideration their related transaction costs.

Notes to the statement of financial position of the Group

- 1) The increase for the Group was mainly due to the Group's participation in a joint development of a residential land site in Brisbane by providing funding via preferred equity interest, additional investment in the Group's joint venture mixed-use South Beach development, and share of after-tax profit contribution from joint ventures but partially offset by dividend income received.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

- 2) The increase for the Company was mainly due to reclassification of loans due from a subsidiary from trade and other receivables to other non-current assets as settlement of the loans is neither planned nor likely to occur in foreseeable future, coupled with additional loans granted to subsidiaries in 2016.
- 3) The increase for the Group was largely due to the acquisition of remaining 50% interest in Summervale Properties Pte Ltd (Summervale), a joint venture which holds Nouvel 18, in July 2016. Following the acquisition, Summervale became a wholly-owned subsidiary of the Group.

The increase for the Company was due to the development expenditure incurred for D'Nest and Coco Palms.

- 4) As at 30 September 2016, these relate to assets and liabilities associated with Exchange Tower Limited (ETL) and its subsidiary, which owns an office building. The Group via its indirect wholly-owned subsidiary had entered into an agreement in August 2016 to dispose off its entire interest in ETL. This transaction was completed on 21 October 2016.

(b)(ii) Aggregate amount of group's borrowings and debt securities.

The Group's net borrowings refer to aggregate borrowings from banks, financial institutions and finance lease creditors, after deducting cash and cash equivalents. Unamortised balance of transaction costs have not been deducted from the gross borrowings.

- assignment of all rights and benefits to sale, lease and insurance proceeds in respect of hotels, investment and development properties;
- pledge of cash deposits;
- pledge of shares in a wholly-owned subsidiary;
- a statutory lien on certain assets of a foreign subsidiary; and
- a statutory preferred right over the assets of a foreign subsidiary.

Notes to the statement of cash flows

- (1) The cash outflow for Q3 2016 and YTD September 2016 relates to the acquisition of the remaining 50% interest in Summervale.

The cash outflows for YTD September 2015 relates to progressive payments made in relation to the acquisition of 2 Singapore entities by the Group in January 2015.

- (2) The cash outflows for Q3 2016 and YTD September 2016 relates mainly to the Group's additional investments in the Group's joint venture mixed-use South Beach development, progressive investments via preferred equity interest in a joint development of a prime residential land site in Brisbane, as well as investment for a 20% stake in a joint venture in China which owns a Chinese online apartment rental platform.
- (3) The cash inflows for Q3 2015 and YTD September 2015 relate mainly to the proceeds from sale of the Group's entire 52.52% shareholding in City E-Solutions Limited to a third party in July 2016.
- (4) The Group had lower net cash outflows from financing activities of \$417.6 million (Q3 2015: \$855.2 million) for Q3 2016 and \$701.2 million (YTD September 2015: \$1,219.5 million) for YTD September 2016.

For Q3 2016, the decrease in net cash outflows was due to lower net repayments from borrowings of \$315.0 million (Q3 2015: \$620.6 million), coupled with fewer transactions on acquisition of non-controlling interest in current quarter. Payment for acquisition of non-controlling interest in Q3 2015 was made by the Group in relation to acquisition of shares in Millennium & Copthorne plc (M&C). The acquisition of non-controlling interest for current quarter relates to purchase of the remaining 20% interest in PT Millennium Sirih Jakarta Hotel by M&C.

For YTD September 2016, the decrease in net cash outflows was due to lower net repayment of borrowings of \$361.1 million (YTD September 2015: \$687.8 million) as well as fewer transactions on acquisition of non-controlling interest. In YTD September 2015, the substantial expenditure on acquisition of non-controlling interest relate to purchase of shares in M&C and the remaining 38.7% interest in KIN Holdings Limited by Millennium & Copthorne Hotels New Zealand Limited, an indirect non-wholly owned subsidiary of the Group.

Group Performance

For the third quarter (Q3 2016) and nine months ended 30 September 2016 (YTD Sep 2016) under review, the Group is pleased to report a strong year-on-year performance with an increase in net attributable profit after tax and non-controlling interests (PATMI) by 60.1% and 12.8% respectively.

For Q3 2016 and YTD Sep 2016, revenue increased 14.0% and 11.8% to \$922.8 million (Q3 2015: \$809.3 million) and \$2,738.5 million (YTD Sep 2015: \$2,449.1 million) respectively. These increases were driven by the property development business segment propelled by the maiden contribution in Q3 2016 from both Gramercy Park in Singapore and Hanover House in Reading, United Kingdom (UK) coupled with contributions from Coco Palms, D'Nest and The Venue Residences and Shoppes. For UK's Hanover House, the profit was a result of the Group's small investment made in 2014. The full revenue recognition for Lush Acres in Q2 2016, a 100% sold and completed Executive Condominium (EC), also boosted the revenue increase for YTD Sep 2016.

The Group's PATMI increased by 60.1% to \$170.3 million for Q3 2016 (Q3 2015: \$106.4 million) and 12.8% to \$409.4 million for YTD Sep 2016 (YTD Sep 2015: \$362.9 million). In addition to the strong performance in the property development segment, the significant leap in PATMI for Q3 2016 was attributed to gains following the divestment of the Group's entire 52.52% interest in City e-Solutions Limited (CES), a subsidiary listed on The Stock Exchange of Hong Kong Limited.

In terms of pre-tax profits by the various business segments for Q3 2016 and YTD Sep 2016, property development continued to be the highest contributor at 39.6% and 47.6% of the pre-tax profits respectively followed by the hotel operations segment which comprises mainly Millennium & Copthorne Hotels plc (M&C). M&C's hotel segment registered a decline on a constant currency basis in pre-tax profits due to a myriad of factors including competitive trading conditions for hotels in London, New York and Singapore and ongoing refurbishment works. Although M&C benefited superficially on a reported currency basis from the depreciation of the Sterling Pound following Brexit, M&C's results when translated into the Singapore dollar (the Group's reporting currency) showed a marked decline. These results remain disappointing, especially when the base year of comparison, 2015, was also one where M&C had underperformed. The business segment for others, which includes management fee income, dividend income and returns from long-term financial assets reported a substantial pre-tax profit increase of \$64.5 million and \$72.8 million in the current quarter and YTD Sep 2016 due to the gains from sale of CES shares.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Accordingly, basic earnings per share increased by 59.8% to 18.7 cents for Q3 2016 (Q3 2015: 11.7 cents) and 13.0% to 44.3 cents for YTD Sep 2016 (YTD Sep 2015: 39.2 cents).

As at 30 September 2016, the Group's balance sheet remained robust, with net gearing (excluding any fair value surpluses on investment properties) at 27%, and cash and cash equivalents at \$3.0 billion. Interest cover for YTD Sep 2016 stood at 10.9 times.

Property

Advance estimates indicate that Singapore's economy expanded by 0.6% in Q3 2016 year-on-year, declining from the 2% growth recorded in Q2 2016. On a quarter-on-quarter seasonally-adjusted annualised basis, the economy contracted by 4.1% compared to the 0.2% growth of the preceding quarter.

The construction sector grew 2.5% on a year-on-year basis in Q3 2016, marginally slower than the 2.6% growth of the previous quarter.

The Urban Redevelopment Authority (URA) data indicates that the Residential Property Price Index (PPI) decreased by 1.5% in Q3 2016 compared with a 0.4% decline in Q2 2016. On a year-on-year basis, the PPI declined by 3.1% compared to a year ago. The PPI in Q3 2016 represents the 12th consecutive quarter of decline since Q3 2013 and is 10.8% lower than in Q3 2013.

Rentals of private residential properties fell by 1.2% quarter-on-quarter in Q3 2016 compared to a 0.6% decline in the previous quarter. Rentals fell by 4.4% year-on-year in Q3 compared to the same period last year.

In Q3 2016, developers sold 1,981 private residential units, excluding ECs. This is 12% less than the 2,256 units sold in Q2 2016.

Notwithstanding challenging market conditions, the Group continued to move inventory. Soft launched in end-May 2016, the 174-unit high-end freehold Gramercy Park project along Grange Road in the prime residential area near Orchard Road sold 38 out of the 40 units released for sale. Private viewings by appointment are ongoing. The Group continues to monitor market conditions and will officially launch this project at the appropriate time.

The Group's two existing joint venture (JV) EC projects continued to register relatively healthy sales. The Brownstone, a 638-unit EC located next to the upcoming Canberra MRT station is now almost 80% sold while The Criterion, a 505-unit EC at Yishun has sold 161 units (32%) to date.

The Group's other ongoing JV projects, the 266-unit The Venue Residences near the Potong Pasir MRT station is approximately 64% sold. Commonwealth Towers, adjacent to the Queenstown MRT station, has sold over 52% of its 845 units. The 944-unit Coco Palms at Pasir Ris is now over 91% sold.

In September 2016, the 616-unit Jewel @ Buangkok which is fully sold and the Group's JV project, Echelon, which only has two remaining penthouses, both obtained their Temporary Occupation Permits (TOP).

During the period under review, profits were booked in from Gramercy Park, Jewel @ Buangkok and JV projects namely Coco Palms, D'Nest, The Venue Residences and Shoppes, Echelon and Bartley Ridge. However, profits from the two JV EC projects – The Brownstone and The Criterion, were not booked in due to the prevailing accounting treatment for EC projects.

For the office sector, URA statistics showed that the overall price index decreased by 0.4% in Q3 2016 compared to a 1.5% decline in the previous quarter. The overall rental index for office space fell by 1.1% in Q3 2016 compared to a decline of 3.5% in Q2 2016.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Office rentals fell 8.2% year-on-year in Q3 2016 compared to the same period last year. With expected increased supply of new office space in the pipeline and slowing economic activities, the office sector is likely to face significant near-term challenges. For Q3 2016, the Group's office portfolio continues to enjoy healthy occupancy of 96.2% versus the national average occupancy rate of 89.6% for office space (Q2 2016: 90.9%).

South Beach

South Beach, the Group's JV mixed-use development on Beach Road has made good progress on its leasing efforts. Both the 510,000 sq ft of Grade A office space in the 34-storey South Beach Tower and the 32,000 sq ft of retail space have been fully leased. To date, about 70% of the retail outlets have already commenced business with the remainder scheduled to open shortly. The Group is confident that with the extensive underground MRT connections, the opening of the rebranded hotel, coupled with the footfall generated by the retail precinct, the traffic flow into the development will be greatly enhanced.

The rebranding exercise of the 634-room South Beach hotel into The JW Marriott Hotel Singapore South Beach is progressing smoothly. The rebranded hotel is expected to open for business in January 2017. It is noted that the Marriott Group's proposed merger with Starwood has now been completed and the enlarged entity is expected to offer greater distribution and a larger customer base.

The final TOP for the whole development is expected to be obtained by year-end. The partners will evaluate and review market conditions before selecting an appropriate launch date for the 190-unit South Beach Residences.

Overseas Platforms

China

In September 2016, CDL China Limited, the Group's wholly-owned subsidiary, announced an investment of RMB 100 million (approximately \$20 million) for a 20% stake in mamahome, one of China's fastest growing online apartment rental platforms with more than 150,000 apartment listings spanning over 20 cities in China. More than 75% of the portfolio is located in key gateway cities – Shanghai, Beijing and Guangzhou. The platform caters to the rapidly growing demand for mid- to long-term leasing from leisure travellers to business executives on assignment. Aside from contributing future long-term recurring income streams to the Group, this partnership offers exposure to a business segment with significant potential for growth and future synergies, as the platform may be applied to the Group's portfolio of residential and serviced apartments in Singapore and overseas.

For Q3 2016, CDL China continued its steady sales performance of its residential projects in the first and second tier cities of Suzhou, Shanghai and Chongqing.

Hong Leong City Center (HLCC) commenced sales for Phase 2 with the launch of its 28-storey, 430-unit residential tower (Tower 2). As a high quality mixed-use development located on Jinji Lake in Suzhou Industrial Park, the launch received an overwhelming response with all 156 units released purchased within an hour, generating sales value of RMB 429 million (approximately \$88 million). This phase, which also includes a five-star 287-room hotel, 56,000 sqm shopping mall and a 30,000 sqm premium Grade A office tower, is currently under construction and scheduled to complete by Q4 2017.

Sales in HLCC's 1,374 residential units in Phase 1 (30-storey, 462-unit residential Tower 1 and 41-storey, 912-unit SOHO Tower 3) have totaled 995 to date, amounting to a sales value of RMB 2.12 billion (approximately \$436 million). With only two units left in Tower 1, sales momentum is expected to continue for the remaining 377 units in Tower 3 following the completion of units in Q4 2016. HLCC's strong sales performance will translate into a maiden profit contribution and expected to be booked from Q4 2016.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Hongqiao Royal Lake, located in the upper-class residential district of Qingpu in Shanghai has recorded consistent sales despite property tightening measures with 32 out of 85 villas sold/booked to date amounting to a sales value of RMB 634 million (approximately \$130 million). Profits will be booked in progressively as villas are handed over to their owners. The Group is not in a hurry to sell these villas given the Chinese government's restriction on land supply for low-density residential housing projects as well as soaring land and home prices in Shanghai. These villas are likely to become rare assets and it is expected that its value will accelerate over time.

The Group's investments in Chongqing are expected to benefit from the recent designation by the Chinese government of Chongqing as a free trade zone, as well as the growing collaboration between Singapore and China emanating from the Chongqing Connectivity Initiative. Chongqing is one of the world's largest urban centres and a major manufacturing hub. More than 50% of Fortune 500 companies already have a presence in this city.

The 126-unit Eling Residences was launched in October 2016. Located on Eling Hill in the Yuzhong district of Chongqing, the high-end apartments boast of scenic views of the Yangtze River, Jialing River and the city skyline. Five units were sold/booked amounting to a sales value of RMB 49.8 million (approximately \$10 million), achieving an average of RMB 38,000 per square metre (psm), one of the top prices in Chongqing for condominiums.

Huang Huayuan, a riverside location, also in the prime Yuzhong district of Chongqing, has confirmed its project mix and is currently at design stage. This mixed-use development consists of three high-rise residential towers comprising over 600 units and a shopping mall. The residences are scheduled for launch in 2019.

Despite multiple tightening measures implemented for the property market across China, the Group holds a positive long-term view of the three cities in which it is represented.

UK

The Bank of England (BoE) moved quickly in the immediate aftermath following UK's European Union (EU) referendum (i.e. Brexit) to cut interest rates by 0.25%, the first interest rate change since March 2009 and to expand quantitative easing to provide economic support against a background of weakening business confidence. The early and decisive action appears to have averted a slowdown in spending that might have threatened to tip the UK into recession. Now three months on, the BoE has kept base rates at 0.25% having observed an increase in economic activity which has surprised many forecasters.

Activity has been buoyed by the depreciation of the Sterling Pound which is likely to push up inflation estimated by the BoE to be running at 1% per annum and is forecasted to rise to 2% during 2017. There is still considerable uncertainty over the terms of the Brexit with the latest High Court ruling that the British government cannot trigger the Article 50 process for Brexit without Parliament's involvement. News on Brexit continues to impact the Sterling Pound upwards or downwards and fluctuating exchange rates will create further challenges and opportunities for additional investment and sales.

While several new UK Government and Mayor of London initiatives to increase housing starts and address housing shortages have been initiated, delays in the planning system and capacity constraints in the construction sector combine to restrict supply. Overall, housing supply shortage is likely to be a dominant market characteristic for the foreseeable future.

London's infrastructure was given a much needed boost by the Government's decision to promote the expansion of Heathrow airport and the High Speed 2 Rail line while the opening of Crossrail in 2018 will demonstrate London's commitment to remaining a leading financial centre.

The Group's UK projects continue to operate profitably. The series of smaller scale projects that it had invested in the earlier years to better understand the market are now producing results. Whilst these projects are generating relatively smaller profits compared to Singapore vis-à-vis the Group's initial investments in the UK, it expects the profits to scale up as its larger scale projects at Pavilion Road Knightsbridge, Teddington and Stag Brewery Mortlake are developed.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

At Hanover House, Reading, all the buyers of all 82 units completed their purchases, with total sales value of £18.34 million.

Chesham Street in Belgravia and Hans Road in Knightsbridge are expected to complete redevelopment in Q1 2017 and will launch shortly thereafter. 90-100 Sydney Street Chelsea will commence redevelopment shortly with an expected completion Q2 March 2018.

For 28 Pavilion Road, the 34-unit luxury care home in Knightsbridge, discussions are progressing with several leading UK and international care home operators. Detailed designs and the planning conditions are being worked through to allow demolition to commence in Q2 2017.

Work on the basement car park at Teddington Riverside has commenced. Block A comprising 57 units is expected to be launched with the formal opening of the onsite sales centre in Q1 2017. After Block A is completed in Q2 2018, five further blocks will follow in succession.

For the 22 acre Stag Brewery site at Mortlake, a well advanced master plan in consultation with local stakeholders is under development and applications are planned for submission by end-Q1 2017. In order to commence development quickly, the scheme will be split into two phases comprising both a parameter plan covering the entire site and, in the near-term, a detailed planning application covering phase one.

For Development House at 56-64 Leonard Street Shoreditch, plans are being advanced for a new 90,000 sq ft office scheme. Planning application is expected to be submitted in Q2 2017. The existing building (28,000 sq ft) remains fully leased and vacant possession is expected from Q2 2018.

Japan

For the fiscal year starting in April 2017, the Bank of Japan is likely to cut its consumer inflation forecast from 1.7% to 1% as a strong yen, weak oil prices and sluggish consumer spending curb inflation. Given the Bank's negative interest rates policy, an influx of capital could further compress commercial real estate cap rates particularly in central Tokyo office which is already at historical lows.

The Ministry of Land, Infrastructure, Transport and Tourism data indicates that the Japan Residential PPI for Condominiums in Tokyo increased by 17.4% over the past two years. There were a total of 53,873 condominium transactions in Tokyo in the past 12 months, an increase of 11.6% compared to the prior corresponding period.

In October 2016, the Group announced with JV partner, Mitsui Fudosan Residential Co. Ltd, its investment in a second residential development project in Tokyo to acquire a 20% stake in a prime freehold residential project in the highly-sought-after Aoyama district within Minato ward. Aoyama is one of Tokyo's most popular entertainment and residential areas, well known for its fashion houses, restaurants and shopping. Minato ward is a centre of Tokyo business activity where offices of many multinational corporations are situated. Named Park Court Aoyama The Tower, the project comprising a 26-storey tower with 163 apartments and facilities such as a swimming pool, gym, sky lounge, private garden and 93 parking lots, is expected to appeal to both the high-end domestic and foreign buyers. Expected to be completed in 1H 2018, the project has recently been launched for sale and initial sales have been very promising.

The Group's other prime freehold site located in the prestigious residential enclave of Shirokane district also in Minato ward is set amidst lush greenery and rich history. The proposed development is targeted at the luxury segment and will include the provision of a public park and open space to support the local community. The planning process for this rare and exclusive site is extremely lengthy but has gone smoothly so far. The Group is in the midst of discussions with a potential JV partner that has a reputable and proven track record in Japan to help undertake the development and construction of the project as domestic expertise is required.

To date, the Group has invested over JPY 50 billion in two residential developments and three hotels in Tokyo. It will continue to source for attractive opportunities in Japan to further broaden its presence there.

Australia

Ivy and Eve, the Group's JV residential development at Merivale Street in the heart of the South Bank precinct of Brisbane, Australia, benefitted from a timely launch of the units in mid-2015. The two 30-storey towers with 472 apartments are now approximately 93% sold. The Group expects to realise profits from this project in early 2018 when the development is complete.

A downturn in the Australian residential market appears to be an increasing risk given that both Queensland and New South Wales recently introduced new foreign investor levies, similar to those announced by the Victorian government in 2015. The levies apply to foreign purchasers of residential properties and specifically in Queensland where the Group's project is located, an extra levy of 3% of the purchase price applies.

While the Group believes the outlook for the Australian property market remains attractive in the long-term, it will observe carefully the impact of these regulatory changes before investing further in this sector.

Hotel

M&C, in which the Group holds a 64.9% interest reported PATMI of £29 million for Q3 2016 (Q3 2015: £24 million) and £59 million for YTD Sep 2016 (YTD Sep 2015: £60 million).

On constant currency basis, revenue increased by 2.9% to £247 million for Q3 2016 (Q3 2015: £240 million). For YTD Sep 2016, revenue increased by 1.1% to £665 million (YTD Sep 2015: £658 million) due to higher property revenue from one-off property sales and increased contribution from M&C's REIT subsidiary, CDL Hospitality Trusts (CDLHT).

Hotel revenue on a constant currency basis increased by 0.5% to £221 million for Q3 2016 (Q3 2015: £220 million) but declined by 2.8% to £581 million for YTD Sep 2016 (YTD Sep 2015: £598 million) due to declines in RevPAR in key gateway cities such as New York and Singapore.

On a constant currency basis, property revenue for YTD Sep 2016 increased by 68% to £42 million (YTD Sep 2015: £25 million) primarily due to increased land sales in New Zealand (NZ) in 1H 2016 and an increased contribution from Millennium Mitsui Garden Hotel Tokyo. Revenue from CDLHT increased by 20% to £42 million for the same period (YTD Sep 2015: £35 million) as a result of contribution from its first UK hotel, Hilton Cambridge City Centre which was acquired in October 2015.

For YTD Sep 2016, global RevPAR in constant currency fell by 3.2% to £73.94 (YTD Sep 2015: £76.37) due to decreases in both occupancy and average room rate by 0.5% points and 2.4% respectively. In Q3 2016, global RevPAR decreased by 1.7% in constant currency with occupancy up by 1.1% points and average room rate down by 3.1%.

Hotel operating performance in two of M&C's gateway cities, New York and Singapore showed the largest RevPAR drop for YTD Sep 2016 at 14.8% and 9.6% respectively. Australasia was the best performing area for YTD Sep 2016 with RevPAR growth of 16.2% due to positive results from the management of sales channels and market segments.

On the property development front, M&C expects to commence construction for a proposed hotel and serviced apartments in Seoul, South Korea in early 2017. In Sunnyvale, California, its proposed mixed-use development comprising a 263-room hotel and a 250-unit residential apartment block is pending approval. Meanwhile, efforts are progressing with continuous changes to improve the design, space planning and improve cost efficiency.

M&C's refurbishment programme continues with guest rooms in the east tower of ONE UN New York completed in early September 2016 and the tower's timely re-opening prior to the UN General Assembly. The rest of its phased hotel refurbishment works in Grand Copthorne Waterfront in Singapore, Grand Millennium Kuala Lumpur and M Hotel Singapore are progressing well and on track to meet their completion timelines.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Copthorne Hotel Auckland Harbour City in New Zealand (NZ) which was closed for a major NZ\$40 million (£22 million) refurbishment programme in Q3 2015 is making good progress on construction. The hotel will be rebranded under M&C's new M Social brand and is expected to re-open in mid-2017. This new brand made its debut with the opening of M Social Singapore in June this year.

In London, refurbishment works at Millennium Hotel London Mayfair is expected to commence before mid-2017. To minimise the impact on London occupancy, there will be a gap of at least 12 months prior to the commencing planned refurbishment works at Millennium Hotel London Knightsbridge.

With effect from 7 September 2016, M&C assumed the lease of Rendezvous Grand Hotel Auckland which is owned by CDLHT. Rebranded as the Grand Millennium Auckland, the 452-room hotel is the largest in NZ and is M&C's first Grand Millennium hotel in NZ.

On the management front, M&C had earlier updated that Mr Aloysius Lee, M&C's Director and Group Chief Executive Officer will retire from M&C in Q1 2017. His successor will be announced in due course.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

The Group's performance for the period under review is in line with its expectations as disclosed in the announcement of results for the second quarter ended 30 June 2016.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Property

The Government has narrowed its growth forecast for Singapore, with the economy now expected to grow by 1% to 2% (revised downwards from 1% to 3% previously).

Residential property prices continue to decline across most market segments. It has been reported that projects launched in 2015 and earlier made up about 70% of units sold year-to-date as the number of new launches tapered off. In challenging market conditions, developers are more proactive in tailoring innovative finance schemes to attract buyers. However, the Total Debt Servicing Ratio (TDSR) regime continues to impact sales volume as many buyers remain undecided on their purchases given decreased financing capacity.

The Government has moderated new supply of residential properties through its Government Land Sales (GLS) programme especially through the Reserve List. The reduction in new supply has helped developers move unsold units in their existing inventory.

Land is stock-in-trade for property development business, and in Singapore, land parcels are awarded based on the highest bid price. Hence, as the Group is not a contractor, it is disadvantaged from overbidding for the land and remains highly disciplined in its investment strategy. The Group has continued to focus on its overseas diversification efforts and to develop new business platforms.

The combination of the uncertain interest rate environment together with property cooling measures has continued to dampen outlook for the residential market and investor sentiment.

Despite challenging market conditions, select projects with strong locational attributes have a higher prospect to perform better. In October 2016, the Group launched a new JV project, the 519-unit Forest Woods, located on Lorong Lew Lian adjacent to the Serangoon MRT interchange and Nex Shopping Mall. Response was overwhelming, with 65% of units purchased during the launch weekend. To date, more than 70% have been sold. This strong demand can be attributed to an optimal mix of location, design features and pricing for a prime development.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

For the office sector, vacancy rates in Q3 2016 remained stable due to a lack of immediate new supply. Over the next 12 months, the vacancy rate is expected to increase as more large-scale Grade A office buildings are completed. On a positive note, reports indicate that the pre-commitment rates in these buildings have been healthy. Nonetheless, there has been increased momentum in leasing activity as tenants take advantage of attractive leasing terms offered by landlords.

While many industries are consolidating office space to reduce their footprint, some new sectors such as co-working, fin-tech and other e-commerce providers and social media businesses have emerged. Although new office demand is unlikely to increase in the near-term, these shifting patterns augur well for long-term prospects in the sector.

Funds Management

On 21 October 2016, the Group announced that it had unlocked value in Nouvel 18, a 156-unit luxury freehold residential development along Anderson Road, via its third Profit Participation Securities (PPS) platform for \$977.6 million.

The Group, through its wholly-owned subsidiary Sunmaster Holdings Pte Ltd, entered into an agreement to exit its entire interest in Summervale Properties Pte Ltd (Summervale), which owns Nouvel 18.

The PPS comprises \$102 million issued in the form of ordinary and preference shares to Green 18 Pte Ltd, a special purpose vehicle company whose shareholders are high net worth Singaporeans and companies wholly-owned by Singapore citizens. Green 18 investors will enjoy a preferred 5% annual internal rate of return (IRR) and upside beyond that when the units are sold, less any incentives fees payable. Concurrently, two banks have provided \$579.2 million in senior loans facilities, with the remainder of \$296.4 million raised via issuance of notes. One of the lending banks purchased \$156.4 million of notes due in 2021 while the Group, through its wholly-owned subsidiary, Ventagrand Holdings Ltd, subscribed to \$140.0 million of notes due in 2023.

The Group's wholly-owned subsidiary, Trentwell Management Pte Ltd, was appointed as exclusive asset manager and marketing agent (for five years with an option to extend to seven) to manage, lease, market and sell the units of Nouvel 18.

Trentwell will receive an incentive fee after a performance benchmark is met. The benchmark ensures that Summervale will have funds to repay the Senior Loans and Notes, and then redeem and deliver an annual 5% internal rate of return on the PPS. After the benchmark is fulfilled, Summervale will pay a portion of any excess as an incentive fee to Trentwell with the remainder distributed to Green 18.

Summervale received its Clearance Certificate from the Land Dealings (Approval) Unit on 20 October 2016. Accordingly, Summervale is no longer bound by the conditions imposed under the Qualifying Certificate (QC), and not subjected to QC penalties.

With Singapore's luxury residential segment showing signs of bottoming out, this PPS initiative presented a strong value proposition to a pool of untapped Singaporean high net worth investors. The Group intends to deploy the funds raised for its growth plans.

The Group is on track to achieve its target of \$5 billion in funds under management (FUM) by 2018. To date, it has over \$3.5 billion in FUM.

Divestment

On 21 October 2016, the Group announced the completion of the sale of its interest in Exchange Tower Ltd which owns Exchange Tower, a commercial building comprising a 42-storey office tower and five-storey retail mall located in Sukhumvit in Bangkok, Thailand. The Group capitalised on the favourable offer to unlock the value of this asset which it has held since 2005 as part of its capital recycling strategy.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

The interest was held through the Group's indirect wholly-owned subsidiary, Venus Real Estate Investments Limited, and was sold to Thailand Prime Property Freehold and Leasehold Real Estate Investment Trust (TPRIME) for a total consideration approximating THB 4.8 billion (\$184 million).

Hotel

Although the outlook for the UK economy remains uncertain, M&C's London hotels saw some positive benefits from a weaker Sterling Pound from leisure travellers following the UK referendum vote to leave the European Union in June 2016. This performance was likely a short-term event post-Brexit and highly unlikely to be replicated as the impact of Brexit truly begins to affect the UK economy. For the three weeks ended 21 October 2016, flash trading data for M&C reinforces this observation with London RevPAR declining by 15% on constant currency basis. Trading at M&C's New York and Singapore hotels has continued to remain disappointing, declining by 14.2% and 14% respectively.

The Group is working closely with M&C's management team to arrest these trends. A number of initiatives have been set in motion including recruitment of new personnel. Further restructuring and hiring will continue to be required in order to get M&C back on track to drive improved performance and manage operating cost as key priorities.

Notwithstanding this revitalisation strategy, M&C will continue to adopt a prudent approach to protect its strong financial position including an ongoing review of all capital expenditure with a focus on cost management and revenue generation. It is also monitoring the operational performance in all its markets closely with a focus on improving margins. As actions are taken quickly to retool the company, the Group remains positive regarding M&C's overall prospects given its ability to adopt a longer-term perspective as both the asset owner and manager of the vast majority of assets.

Group Prospects

Domestic headwinds continue to persist while global markets remain unpredictable.

During this period of challenging market conditions, the Group is reviewing its asset portfolio and business model with a view to enhancing shareholder returns. It is focused on improving its performance across all its segments – property development, hotel operations, investment properties and funds management.

The Group is armed with an exceptionally robust balance sheet and is building its war chest for acquisitions as it believes that there will be multiple opportunities during this period of market dislocation.

The Group expects to remain profitable for the current year.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

15. In the review of performance, the factors leading to any material changes in contributions to turnover and earnings by the business or geographical segments.

Property Development

Revenue increased by \$143.8 million to \$371.8 million (Q3 2015: \$228.0 million) for Q3 2016 and \$351.2 million to \$1,146.6 million (YTD September 2015: \$795.4 million) for YTD September 2016 respectively.

Pre-tax profits also increased by \$30.7 million to \$94.8 million (Q3 2015: \$64.1 million) for Q3 2016 and \$37.1 million to \$277.1 million (YTD September 2015: \$240.0 million) for YTD September 2016 respectively.

Projects that contributed to both revenue and profit for YTD September 2016 include Coco Palms, D'Nest, Jewel@Buangkok, The Venue Residences and Shoppes, UP@Robertson Quay, Lush Acres, Gramercy Park and Hanover House in Reading, United Kingdom. In accordance with the Group's policy of equity accounting for the results of its joint ventures, whilst revenue from joint venture developments such as The Inflora, Bartley Ridge and Echelon had not been consolidated into the Group's total revenue, the Group's share of profits arising from the joint venture developments had been included in pre-tax profit.

The increase in revenue for Q3 2016 was primarily due to the maiden contribution for Gramercy Park and Hanover House located in London in Q3 2016 and increased contribution from Coco Palms. For YTD September 2016, the increase in revenue was largely due to the full revenue recognition from an executive condominium (EC), Lush Acres, which obtained Temporary Occupation Permit (TOP) in June 2016, coupled with the maiden contribution from the aforesaid two projects as well as higher contribution from D'Nest, Coco Palms, The Venue Residences and Shoppes and land sales in New Zealand by M&C. Under prevailing accounting standards, both revenue and profit for EC are recognised in entirety upon TOP. The above increases were however partially offset by absence of contribution from H₂O Residences and The Palette which obtained TOP in Q2 2015 and Q4 2015 respectively and lower contribution from Jewel@Buangkok, UP@Robertson Quay and HAUS@SERANGOON GARDEN.

The increases in pre-tax profits for Q3 2016 and YTD September 2016 were in tandem with the increases in revenue. The increase in pre-tax profit for YTD September 2016 was however partially offset by the absence of share of profit contribution from a joint venture EC, The Rainforest, being recognised in its entirety in Q1 2015 when it obtained TOP in March 2015 and lower contribution from The Inflora and Bartley Residences.

Hotel Operations

Revenue for this segment decreased by \$13.8 million to \$424.0 million (Q3 2015: \$437.8 million) for Q3 2016 and \$45.4 million to \$1,190.0 million (YTD September 2015: \$1,235.4 million) for YTD September 2016 respectively.

Pre-tax profits decreased by \$3.9 million to \$55.3 million (Q3 2015: \$59.2 million) for Q3 2016 and \$36.8 million to \$125.0 million (YTD September 2015: \$161.8 million) for YTD September 2016.

The decreases in revenue and pre-tax profits for Q3 2016 and YTD September 2016 were due to continued deterioration of trading conditions in the Group's key gateway cities such as New York and Singapore, refurbishment/improvements works carried out at several hotels in various locations including east tower of ONE UN New York, Grand Copthorne Waterfront Hotel in 2016 and the operating expenses incurred by The South Beach and newly opened M Social. Further, the weakening of Sterling Pound against Singapore dollar in 2016 following the outcome of the Brexit referendum, had also negatively impact the Group's hotel operations when Millennium & Copthorne Hotels plc's hotel revenue and pre-tax profits were consolidated at Group level. The decreases were partially mitigated by the contribution from new hotels such as Hard Days Night Hotel Liverpool and Hilton Cambridge City Centre which were acquired in 2015.

CITY DEVELOPMENTS LIMITED

(REG. NO. 196300316Z)

Rental Properties

Revenue for this segment decreased by \$9.4 million to \$92.0 million (Q3 2015: \$101.4 million) for Q3 2016 and \$22.4 million to \$278.2 million (YTD September 2015: \$300.6 million) for YTD September 2016 respectively.

Pre-tax profits for this segment also decreased by \$6.7 million to \$33.2 million (Q3 2015: \$39.9 million) for Q3 2016 and \$4.7 million to \$106.4 million (YTD September 2015: \$111.1 million) for YTD September 2016 respectively.

The decreases in revenue for Q3 2016 and YTD September 2016 were largely due to the absence of contribution following the sale of leasehold interests in Central Mall Office Tower, 7 & 9 Tampines Grande and Manulife Centre to subsidiaries of Golden Crest Holdings Pte. Ltd., an associate of the Group, in December 2015. The decrease was however partially mitigated by increased rental contribution from Millennium Mitsui Garden Hotel Tokyo and Claymore Connect, a refurbished mall which re-opened in Q4 2015.

The decreases in pre-tax profits for Q3 2016 and YTD September 2016 were in tandem with the decreases in revenue, partially mitigated by higher share of rental contribution from South Beach Tower, which is part of the Group's mixed-use joint venture development that was completed in Q1 2015. In addition, higher contribution from FSGL, underpinned by the full nine months contribution from its investment in Zuiderhof I and Arena Towers located in Netherlands, acquired in February 2015 and June 2015 respectively, mitigated the decline in profit contribution from rental properties segment for YTD September 2016.

Others

Revenue, comprising mainly income from building maintenance contracts, project management, club operations, laundry services and dividend income, decreased by \$7.2 million to \$35.0 million (Q3 2015: \$42.2 million) for Q3 2016 but increased by \$5.9 million to \$123.7 million (YTD September 2015: \$117.8 million) for YTD September 2016. The decrease in Q3 2016 was largely due to lower project management fees and the absence of hospitality income following the sale of the Group's entire 52.52% interest in CES in July 2016. The increase in YTD September 2016 was due to higher income from building maintenance contracts and project management, partially offset by the lower contribution from the aforesaid sale of CES.

This segment reported a substantial pre-tax profit of \$55.8 million (Q3 2015: pre-tax loss of \$8.7 million) for Q3 2016 and pre-tax profit of \$73.9 million (YTD September 2015: \$1.1 million) for YTD September 2016.

The significant increases for Q3 2016 and YTD September 2016 were largely due to gains arising from the disposal of CES, coupled with higher gains from realisation of investments in a private real estate fund recognised in 2016. This was partially offset by lower contribution from FSGL's property financing business as no interest income was recognised on various loans which defaulted in December 2015 and January 2016.
