

Ross Stores, Inc.
2013 Annual Report

Always a Great Bargain

Always A Great Bargain

California-based Ross Stores, Inc. operates two brands of off-price stores — Ross Dress for Less® (“Ross”) and dd’s DISCOUNTS®. At the end of fiscal 2013, Ross was the largest off-price apparel and home fashion chain in the United States, with 1,146 locations in 33 states, the District of Columbia and Guam, while dd’s DISCOUNTS operated 130 stores in ten states.

Ross, which was founded in 1982, offers a wide selection of first quality, in-season, name brand and designer apparel, accessories, footwear, and home fashions for the entire family at everyday savings of 20% to 60% off department and specialty store regular prices. dd’s DISCOUNTS was launched in 2004 and features more moderately-priced assortments of exciting fashions for the family and the home, all at 20% to 70% off moderate department and discount store regular prices.

The Company’s ongoing ability to consistently offer great bargains to our customers drove another year of record results in fiscal 2013.

To Our Stockholders

Our top priority at both Ross Dress for Less and dd's DISCOUNTS is always offering great bargains to our customers. This unwavering focus on delivering compelling values enabled us to deliver another year of record sales and earnings in fiscal 2013.

Solid Sales and EPS Growth in Fiscal 2013 on Top of Exceptional Multi-Year Gains

For the 52 weeks ended February 1, 2014, sales grew to \$10.2 billion, up from \$9.7 billion for the 53 weeks ended February 2, 2013. Comparable store sales for the 52 weeks ended February 1, 2014 grew 3% on top of a 6% gain in fiscal 2012.

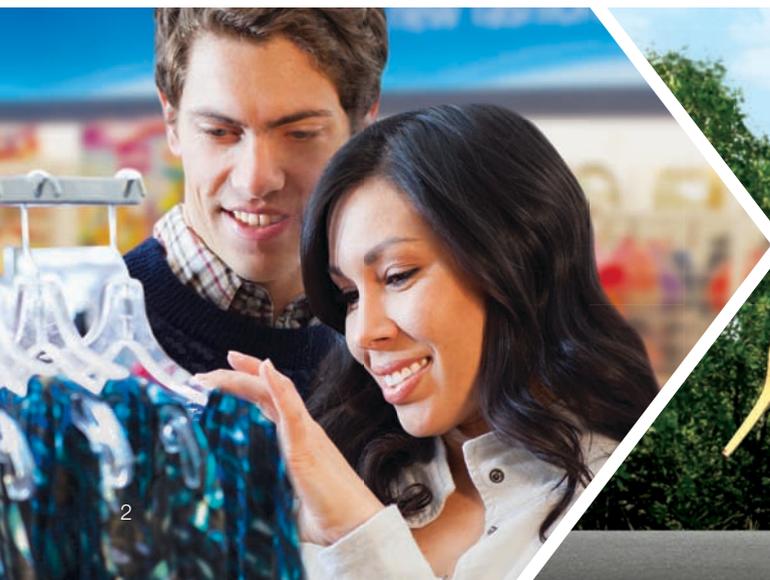

Net earnings for the 52-week year in 2013 grew to a record \$837.3 million, up from \$786.8 million for the 53-week year in 2012. Earnings per share for fiscal 2013 were \$3.88, up from \$3.53 in 2012. The Company's fiscal 2012 results included a per share benefit of approximately \$.10 from the 53rd week. On a 52 vs. 52-week comparison, 2013 earnings per share rose 13% on top of robust gains of 20% and 24% in 2012 and 2011, respectively.

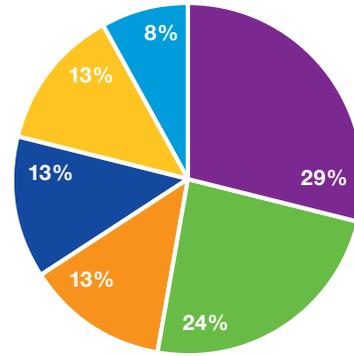

In addition, we were able to maintain fiscal 2013 operating margin at a record 13.1%, despite the estimated 20 basis point benefit from the 53rd week in 2012. Profit margins for 2013 benefited from higher-than-planned merchandise gross margin offset by an increase in operating expenses as a percent of sales.

Ongoing Store Growth and Expansion into New Markets

As planned, the Company opened 77 net new locations in 2013, consisting of 55 Ross Dress for Less and 22 dd's DISCOUNTS. We ended the year with a combined 1,276 stores in 33 states, the District of Columbia and Guam.

Our store growth during the year included ongoing expansion in the new markets Ross Dress for Less entered beginning in October 2011. By the end of 2013, we operated a total of 64 Ross locations in Illinois, Missouri, Arkansas, Kansas, Kentucky and Indiana. In addition, dd's DISCOUNTS entered New Mexico and South Carolina in 2013.

- 29%** Ladies
- 24%** Home Accents, Bed and Bath
- 13%** Men's
- 13%** Accessories, Lingerie, Fine Jewelry, Fragrances
- 13%** Shoes
- 8%** Children's

For 2014, we plan to open about 85 net new locations, including approximately 65 Ross Dress for Less and 20 dd's DISCOUNTS stores. We continue to believe that Ross Dress for Less can grow into a chain of at least 2,000 locations across the United States and that dd's DISCOUNTS can eventually expand to about 500 stores. Combined, this reflects a long-term domestic potential of about 2,500 locations, which is almost double our existing store base.

Continued Growth in Sales and Profits at dd's DISCOUNTS

dd's DISCOUNTS delivered another year of solid gains in sales and operating profits in 2013. Similar to Ross, dd's DISCOUNTS continued to benefit from our ability to deliver a faster flow of fresh and exciting product to our stores while operating on lower inventory levels. Its improved performance also reflects that dd's value-focused merchandise assortments continue to be well received by its customers.

Healthy Cash Flows Fund Growth and Ongoing Stock Repurchases

Operating cash flows in 2013 provided the necessary resources to fund new store growth and infrastructure improvements. We invested approximately \$550 million of capital during the year, including approximately \$180 million to open new locations and update existing stores and about \$370 million mainly for distribution infrastructure and information technology projects, including the relocation of our data center and our move into new corporate headquarters. We ended 2013 with \$435 million in cash and short-term investments and \$150 million in long-term debt.

For fiscal 2014, capital expenditures are expected to increase to approximately \$800 million to fund new store openings over the next year, as well as infrastructure investments we are making to support our long-term expansion plans. We are in the process of constructing two new distribution centers and also expect to complete the purchase of our New York Buying Office building in 2014. This purchase is a unique, one-time opportunity that will enable us to continue to house all our New York merchants together, which maximizes the cohesiveness and effectiveness of this critical organization. Operating cash flows are projected to self-fund all of our planned investments, except for our New York Buying Office, which we intend to finance.

During 2013, we also repurchased \$550 million of our common stock, or about 8.2 million shares, under the two year \$1.1 billion stock repurchase program authorized by our Board of Directors at the beginning of the year. We expect to complete that ongoing program in 2014. In addition, in February 2014, our Board of Directors increased the quarterly cash dividend by 18% on top of a 21% increase in January 2013 to \$.20 per share.

The growth of our stock repurchase and dividend programs has been driven by the significant amounts of cash our business generates after self-funding store expansion and other capital needs. We have repurchased stock as planned every year since 1993, and have also raised our quarterly cash dividend annually since 1994. This consistent record reflects our unwavering commitment to enhancing stockholder value and returns.

Flexible Business Model Enhances Long-Term Profitability

We are pleased with our record level of sales and profitability in 2013. Looking ahead, in order to operate successfully in today's continued uncertain macro-economic and retail landscape, we will continue to focus on the execution of our proven off-price strategies that have historically enabled us to perform well in a variety of business environments.

To maximize our ability to deliver great bargains every day to our customers, we will continue to invest in our merchandise organization, which remains our top priority. Experience shows that this is the key to increasing our access to the best name brand merchandise in the marketplace.

In addition, to enhance both sales and profitability, we will continue to strictly control both expenses and inventories.

Our ongoing focus on fine-tuning our merchandising systems and processes to plan and allocate at a much more detailed level also remains more important than ever today. This is especially true as we continue to grow in new markets and operate our stores with lean inventory levels.

We also continue to implement numerous productivity enhancements and efficiencies throughout the business. These initiatives are driving down costs in our distribution centers, stores organization and back office functions.

Looking ahead, we are excited and optimistic about our long-term growth prospects. We believe that off-price will remain a strong-performing sector of the retail industry for the foreseeable future. We know that our ability to consistently deliver great bargains every day will always be the key to enhancing our opportunities for growth in both sales and profits over the short and long term.

Social Responsibility at Ross

The six Ross Dress for Less stores we opened in Northern California in 1982 have grown into the largest off-price apparel and home fashion chain in the United States, with 1,146 locations at the end of 2013; dd's DISCOUNTS, which we launched in 2004, had 130 stores at year end. Our success over the past 31 years has been driven by an unwavering commitment to creating value, with a focus on excellence, ethics and integrity in all we do.

This extends far beyond our mission of offering customers great name brand bargains. It also means enhancing the lives of more than 66,000 associates by providing a work environment where they can grow and succeed. Further, we continue to support the communities where we operate through local hiring and philanthropic efforts, including a new foundation we established in 2013 that will support our charitable mission to help create a brighter future for today's youth. In addition, we continually look for ways to strengthen operating efficiencies while minimizing our impact on the environment.

In closing, we extend our sincere appreciation to all of our customers, business partners and stockholders for their continued support. We especially want to thank our valued associates throughout the Company whose continued commitment and hard work will always be the most important drivers of our ongoing success.

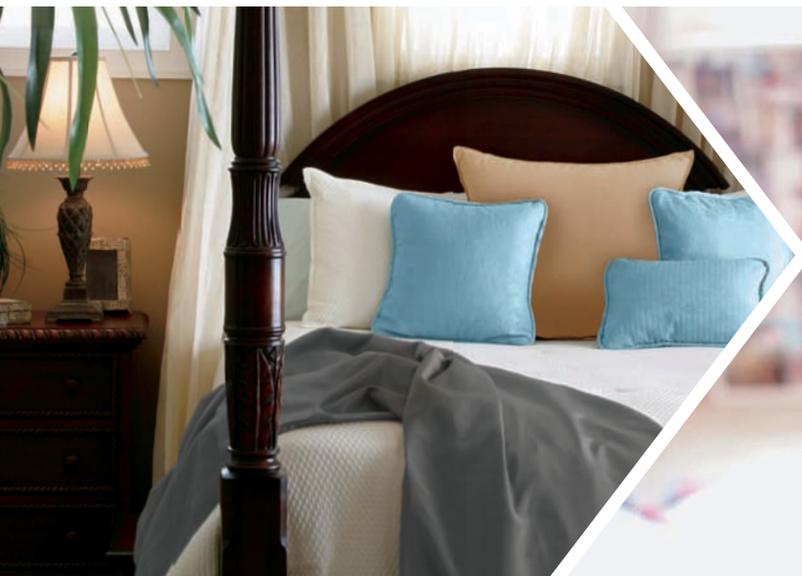

Sincerely,

PART I

ITEM 1. BUSINESS

Ross Stores, Inc. and its subsidiaries (“we” or the “Company”) operate two brands of off-price retail apparel and home fashion stores — Ross Dress for Less® (“Ross”) and dd’s DISCOUNTS®.

Ross is the largest off-price apparel and home fashion chain in the United States, with 1,146 locations in 33 states, the District of Columbia and Guam, as of February 1, 2014. Ross offers first-quality, in-season, name brand and designer apparel, accessories, footwear, and home fashions for the entire family at everyday savings of 20% to 60% off department and specialty store regular prices. Ross target customers are primarily from middle income households.

We also operate 130 dd’s DISCOUNTS stores in 10 states as of February 1, 2014. dd’s DISCOUNTS features more moderately-priced first-quality, in-season, name brand apparel, accessories, footwear, and home fashions for the entire family at everyday savings of 20% to 70% off moderate department and discount store regular prices. The typical dd’s DISCOUNTS store is located in an established shopping center in a densely populated urban or suburban neighborhood and its target customers typically come from households with more moderate incomes than Ross customers.

The merchant, store, and distribution organizations for Ross and dd’s DISCOUNTS are separate and distinct. The two chains share certain other corporate and support services.

Both our Ross and dd’s DISCOUNTS brands target value-conscious women and men between the ages of 18 and 54. The decisions we make, from merchandising, purchasing, and pricing, to the locations of our stores, are based on these customer profiles. We believe that both brands derive a competitive advantage by offering a wide assortment of product within each of our merchandise categories in organized and easy-to-shop store environments.

Our mission is to offer competitive values to our target customers by focusing on the following key strategic objectives:

- Maintain an appropriate level of recognizable brands, labels, and fashions at strong discounts throughout the store.
- Meet customer needs on a local basis.
- Deliver an in-store shopping experience that reflects the expectations of the off-price customer.
- Manage real estate growth to compete effectively across all our markets.

We refer to our fiscal years ended February 1, 2014, February 2, 2013, and January 28, 2012 as fiscal 2013, fiscal 2012, and fiscal 2011, respectively. Fiscal 2012 was a 53-week year. Fiscal 2013 and 2011 were each 52-week years.

Merchandising, Purchasing, and Pricing

We seek to provide our customers with a wide assortment of first-quality, in-season, brand name and designer apparel, accessories, footwear, and home merchandise for the entire family at everyday savings of 20% to 60% below department and specialty store regular prices at Ross, and 20% to 70% below moderate department and discount store regular prices at dd’s DISCOUNTS. We sell recognizable brand name merchandise that is current and fashionable in each category. New merchandise typically is received from three to six times per week at both Ross and dd’s DISCOUNTS stores. Our buyers review their merchandise assortments on a weekly basis, enabling them to respond to selling trends and purchasing opportunities in the market. Our merchandising strategy is reflected in our advertising, which emphasizes a strong value message. Our stores offer a treasure-hunt shopping experience where customers can find great savings every day on a broad assortment of brand name bargains for the family and the home.

Merchandising. Our merchandising strategy incorporates a combination of off-price buying techniques to purchase advance-of-season, in-season, and past-season merchandise for both Ross and dd’s DISCOUNTS. We believe nationally recognized name brands sold at compelling discounts will continue to be an important determinant of our success. We generally leave the brand name label on the merchandise we sell.

We have established merchandise assortments that we believe are attractive to our target customers. Although we offer fewer classifications of merchandise than most department stores, we generally offer a large selection within each classification with a wide assortment of vendors, labels, prices, colors, styles, and fabrics within each size or item. The mix of comparable store sales by department in fiscal 2013 was approximately as follows: Ladies 29%, Home Accents and Bed and Bath 24%, Accessories, Lingerie, Fine Jewelry, and Fragrances 13%, Shoes 13%, Men's 13%, and Children's 8%. Our merchandise offerings also include, but are not limited to, small furniture and furniture accents, educational toys and games, luggage, gourmet food and cookware, watches, and sporting goods.

Purchasing. We have a combined network of approximately 7,900 merchandise vendors and manufacturers for both Ross and dd's DISCOUNTS and believe we have adequate sources of first-quality merchandise to meet our requirements. We purchase the vast majority of our merchandise directly from manufacturers, and we have not experienced any difficulty in obtaining sufficient merchandise inventory.

We believe that our ability to effectively execute certain off-price buying strategies is a key factor in our success. Our buyers use a number of methods that enable us to offer our customers brand name and designer merchandise at strong everyday discounts relative to department and specialty stores for Ross and moderate department and discount stores for dd's DISCOUNTS. By purchasing later in the merchandise buying cycle than department, specialty, and discount stores, we are able to take advantage of imbalances between retailers' demand for products and manufacturers' supply of those products.

Unlike most department and specialty stores, we typically do not require that manufacturers provide promotional allowances, co-op advertising allowances, return privileges, split shipments, drop shipments to stores, or delayed deliveries of merchandise. For most orders, only one delivery is made to one of our four distribution centers. These flexible requirements further enable our buyers to obtain significant discounts on in-season purchases.

The majority of the apparel and apparel-related merchandise that we offer in all of our stores is acquired through opportunistic purchases created by manufacturer overruns and canceled orders both during and at the end of a season. These buys are referred to as "close-out" and "packaway" purchases. Close-outs can be shipped to stores in-season, allowing us to get in-season goods into our stores at lower prices. Packaway merchandise is purchased with the intent that it will be stored in our warehouses until a later date, which may even be the beginning of the same selling season in the following year. Packaway purchases are an effective method of increasing the percentage of prestige and national brands at competitive savings within our merchandise assortments. Packaway merchandise is mainly fashion basics and, therefore, not usually affected by shifts in fashion trends.

In fiscal 2013, we continued our emphasis on this important sourcing strategy in response to compelling opportunities available in the marketplace. Packaway accounted for approximately 49% and 47% of total inventories as of February 1, 2014 and February 2, 2013, respectively, and reflects our merchants' continued ability to take advantage of a large amount of close-out opportunities in the marketplace. We believe the strong discounts we are able to offer on packaway merchandise are one of the key drivers of our business results.

Our primary buying offices are located in New York City and Los Angeles, the nation's two largest apparel markets. These strategic locations allow our buyers to be in the market on a daily basis, sourcing opportunities and negotiating purchases with vendors and manufacturers. These locations also enable our buyers to strengthen vendor relationships — a key element to the success of our off-price buying strategies.

Over the past year, we continued to make strategic investments in our merchandising organization to further enhance our ability to deliver name brand bargains to our customers. At the end of fiscal 2013, we had approximately 660 merchants for Ross and dd's DISCOUNTS combined. The Ross and dd's DISCOUNTS buying organizations are separate and distinct, and each includes merchandise management, buyers, and assistant buyers. Ross and dd's DISCOUNTS buyers have on average eight years of experience, including merchandising positions with other retailers such as Bloomingdale's, Burlington Coat Factory, Foot Locker, Kohl's, Loehmann's, Lord & Taylor, Macy's, Marshalls, Nordstrom, Saks, and T.J. Maxx. We expect to continue

to make additional targeted investments in new merchants to further develop our relationships with an expanding number of manufacturers and vendors. Our ongoing objective is to strengthen our ability to procure the most desirable brands and fashions at competitive discounts.

The off-price buying strategies utilized by our experienced team of merchants enable us to purchase Ross merchandise at net prices that are lower than prices paid by department and specialty stores, and to purchase dd's DISCOUNTS merchandise at net prices that are lower than prices paid by moderate department and discount stores.

Pricing. Our policy is to sell brand name merchandise at Ross that is priced 20% to 60% below most department and specialty store regular prices. At dd's DISCOUNTS, we sell more moderate brand name product and fashions that are priced 20% to 70% below most moderate department and discount store regular prices. Our pricing policy is reflected on the price tag displaying our selling price as well as the comparable selling price for that item in department and specialty stores for Ross merchandise, or in more moderate department and discount stores for dd's DISCOUNTS merchandise.

Our pricing strategy at Ross differs from that of a department or specialty store. We purchase our merchandise at lower prices and mark it up less than a department or specialty store. This strategy enables us to offer customers consistently low prices and compelling value. On a weekly basis our buyers review specified departments in our stores for possible markdowns based on the rate of sale as well as at the end of fashion seasons to promote faster turnover of merchandise inventory and to accelerate the flow of fresh product. A similar pricing strategy is in place at dd's DISCOUNTS where prices are compared to those in moderate department and discount stores.

Stores

As of February 1, 2014, we operated a total of 1,276 stores comprised of 1,146 Ross stores and 130 dd's DISCOUNTS stores. Our stores are located predominantly in community and neighborhood shopping centers in heavily populated urban and suburban areas. Where the size of the market and real estate opportunities permit, we cluster Ross stores to benefit from economies of scale in advertising, distribution, and field management. We do the same for dd's DISCOUNTS stores.

We believe a key element of our success at both Ross and dd's DISCOUNTS, is our organized, attractive, easy-to-shop, in-store environments which allow customers to shop at their own pace. While our stores promote a self-service, treasure hunt shopping experience, the layouts are designed to enhance customer convenience in their merchandise presentation, dressing rooms, checkout, and merchandise return areas. Our store's sales area is based on a prototype single floor design with a racetrack aisle layout. A customer can locate desired departments by signs displayed just below the ceiling of each department. We enable our customers to select among sizes and prices through prominent category and sizing markers. At most stores, shopping carts and / or baskets are available at the entrance for customer convenience. Cash registers are primarily located at store exits for customer ease and efficient staffing.

We use point-of-sale ("POS") hardware and software systems in all stores, which minimizes transaction time for the customer at the checkout counter by electronically scanning each ticket at the point of sale and authorizing personal checks, debit, credit, and stored-value cards in a matter of seconds. For Ross and dd's DISCOUNTS combined, approximately 62% and 61% of payments in fiscal 2013 and fiscal 2012, respectively, were made with credit cards and debit cards. We provide cash, credit card, and debit card refunds on all merchandise (not used, worn, or altered) returned with a receipt within 30 days. Merchandise returns having a receipt older than 30 days are exchanged or refunded with store credit.

Operating Costs

Consistent with the other aspects of our business strategy, we strive to keep operating costs as low as possible. Among the factors which have enabled us to do this are: labor costs that are generally lower than full-price department and specialty stores due to a store design that creates a self-service retail format and due to the utilization of labor saving technologies; economies of scale with respect to general and administrative costs resulting from centralized merchandising, marketing, and purchasing decisions; and flexible store layout criteria which facilitate conversion of existing buildings to our formats.

Information Systems

We continue to invest in new information systems and technology to provide a platform for growth over the next several years. Recent initiatives include enhancements to our merchandise planning, core merchandising, allocation management, and store labor management systems. These initiatives support our expansion in both new and existing markets and our assortment execution and plan achievement, while also supporting future growth. In addition, we completed the build-out and relocation of our new data center in fiscal 2013.

Distribution

We have four distribution processing facilities — two in California, one in Pennsylvania, and one in South Carolina. We ship all of our merchandise to our stores through these distribution centers, which are large, highly automated, and built to suit our specific off-price business model. Two additional distribution centers in Rock Hill, South Carolina and Shafter, California are currently under construction and expected to open in 2014 and 2015, respectively.

Currently we own two and lease three other warehouse facilities for packaway storage. We are in the process of building two additional warehouses which we plan to open in 2014. We also use other third-party facilities as needed for storage of packaway inventory.

We also utilize third-party cross dock facilities to distribute merchandise to stores on a regional basis. Shipments are made by contract carriers to the stores three to six times per week depending on location.

We believe that our distribution centers with their current expansion capabilities will provide adequate processing capacity to support our current store growth. Information on the size and locations of our distribution centers and warehouse facilities is found under “Properties” in Item 2.

Advertising

Advertising for Ross Dress for Less relies primarily on television to communicate the Ross value proposition — everyday savings off the same brands carried at leading department stores. This strategy reflects our belief that television is the most efficient and cost effective medium for communicating our brand position. We continue to utilize additional channels to build awareness. Advertising for dd’s DISCOUNTS is primarily focused on new store grand openings and local grass roots initiatives.

Trademarks

The trademarks for Ross Dress For Less® and dd’s DISCOUNTS® have been registered with the United States Patent and Trademark Office.

Employees

As of February 1, 2014, we had approximately 66,300 total employees, including an estimated 48,900 part-time employees. Additionally, we hire temporary employees especially during the peak seasons. Our employees are non-union. Management considers the relationship between the Company and our employees to be good.

Competition

We believe the principal competitive factors in the off-price retail apparel and home fashion industry are offering significant discounts on brand name merchandise, offering a well-balanced assortment that appeals to our target customers, and consistently providing store environments that are convenient and easy to shop. To execute this concept, we continue to make strategic investments in our merchandising organization. We also continue to make improvements to our core merchandising system to strengthen our ability to plan, buy, and allocate product based on more local versus regional trends. We believe that we are well positioned to compete on the basis of each of these factors.

Nevertheless, the retail apparel market is highly fragmented and competitive. We face a challenging macro-economic and retail environment that creates intense competition for business from department stores, specialty stores, discount stores, warehouse stores, other off-price retailers, and manufacturer-owned outlet stores, many of which are units of large national or regional chains that have substantially greater resources. We also compete to some degree with retailers that sell apparel and home fashions through catalogs or online. The retail apparel and home-related businesses may become even more competitive in the future.

ITEM 1A. RISK FACTORS

Our Annual Report on Form 10-K for fiscal 2013, and information we provide in our Annual Report to Stockholders, press releases, telephonic reports, and other investor communications, including those on our corporate website, may contain forward-looking statements with respect to anticipated future events and our projected financial performance, operations, and competitive position that are subject to risks and uncertainties that could cause our actual results to differ materially from those forward-looking statements and our prior expectations and projections. Refer to Management's Discussion and Analysis for a more complete identification and discussion of "Forward-Looking Statements."

Our financial condition, results of operations, cash flows, and the performance of our common stock may be adversely affected by a number of risk factors. Risks and uncertainties that apply to both Ross and dd's DISCOUNTS include, without limitation, the following:

We are subject to the economic and industry risks that affect large retailers operating in the United States.

Our business is exposed to the risks of a large, multi-store retailer, which must continually and efficiently obtain and distribute a supply of fresh merchandise throughout a large and growing network of stores and distribution centers. These risk factors include:

- An increase in the level of competitive pressures in the apparel or home-related merchandise retailing industry.
- Changes in the level of consumer spending on or preferences for apparel or home-related merchandise.
- The impacts from the macro-economic environment and financial and credit markets that affect consumer disposable income and consumer confidence, including but not limited to interest rates, recession, inflation, deflation, energy costs, tax rates and policy, unemployment trends, and fluctuating commodity costs.
- Changes in geopolitical and geoeconomic conditions.
- Unseasonable weather trends that could affect consumer demand for seasonal apparel and apparel-related products.
- Changes in the availability, quantity, or quality of attractive brand name merchandise at desirable discounts that could impact our ability to purchase product and continue to offer customers a wide assortment of merchandise at competitive prices.
- Potential disruptions in the supply chain or in information systems that could impact our ability to deliver product to our stores in a timely and cost-effective manner.
- A change in the availability, quality, or cost of new store real estate locations.
- A downturn in the economy or a natural disaster in California or in another region where we have a concentration of stores or a distribution center. Our corporate headquarters, Los Angeles buying office, two distribution centers, one warehouse, and 25% of our stores are located in California.

We are subject to operating risks as we attempt to execute on our merchandising and growth strategies.

The continued success of our business depends in part upon our ability to increase sales at our existing store locations, to open new stores, and to operate stores on a profitable basis. Our existing strategies and store and distribution center expansion programs may not result in a continuation of our anticipated revenue or profit growth. In executing our off-price retail strategies and working to improve efficiencies, expand our store network, and reduce our costs, we face a number of operational risks, including our ability to:

- Attract, train, and retain associates with the retail talent necessary to execute our strategies.
- Effectively operate and continually upgrade our various supply chain, store, core merchandising, and other information systems.
- Improve our merchandising and transaction processing capabilities, and the reliability and security of our data communication systems, through implementation of new processes and systems enhancements.
- Protect against security breaches, including cyber-attacks on our transaction processing and computer information systems, that could result in the theft, transfer or unauthorized disclosure of customer, credit card, employee or other private and valuable information that we collect and process in the ordinary course of our business, and avoid resulting damage to our reputation, loss of customer confidence, exposure to litigation and regulatory action, unanticipated costs and disruption of our operations.
- Improve new store sales and profitability, especially in newer regions and markets.
- Add capacity to our existing distribution centers, find new distribution center sites, and build out planned additional distribution centers timely and cost effectively.
- Achieve and maintain targeted levels of productivity and efficiency in our existing and future distribution centers.
- Lease or acquire acceptable new store sites with favorable demographics and long-term financial returns.
- Identify and successfully enter new geographic markets.
- Achieve planned gross margins by effectively managing inventories, markdowns, and inventory shortage.
- Effectively manage all operating costs of the business, the largest of which are payroll and benefit costs for store and distribution center employees.

ITEM 2. PROPERTIES

At February 1, 2014, we operated a total of 1,276 stores, of which 1,146 were Ross locations in 33 states, the District of Columbia and Guam, and 130 were dd's DISCOUNTS stores in 10 states. All stores are leased, with the exception of three locations which we own.

During fiscal 2013, we opened 65 new Ross stores and closed 10 existing stores. The average approximate Ross store size is 29,100 square feet.

During fiscal 2013, we opened 23 new dd's DISCOUNTS stores and closed one existing store. The average approximate dd's DISCOUNTS store size is 23,600 square feet.

During fiscal 2013, no one store accounted for more than 1% of our sales.

We carry earthquake insurance to help mitigate the risk of financial loss due to an earthquake.

Our real estate strategy in 2014 is to open stores in states where we currently operate to increase our market penetration and to reduce overhead and advertising expenses as a percentage of sales in each market. We also expect to continue our store expansion in newer markets in 2014. Important considerations in evaluating a new store location in both newer and more established markets are the availability and quality of potential sites, demographic characteristics, competition, and population density of the local trade area. In addition, we continue to consider opportunistic real estate acquisitions.

The following table summarizes the locations of our stores by state/territory as of February 1, 2014 and February 2, 2013.

Where possible, we obtain sites in buildings requiring minimal alterations, allowing us to establish stores in new locations in a relatively short period of time at reasonable costs in a given market. At February 1, 2014, the majority of our stores had unexpired original lease terms ranging from three to ten years with three to four renewal options of five years each. The average unexpired original lease term of our leased stores is five years or 21 years if renewal options are included. See Note E of Notes to Consolidated Financial Statements.

See additional discussion under “Stores” in Item 1.

The following table summarizes the location and approximate sizes of our distribution centers, warehouses, and office locations as of February 1, 2014. ¹ We are currently in the process of completing the infrastructure build-out of this distribution center site with an estimated occupancy of 2014.

² We are currently in the process of completing construction of these warehouses with an estimated occupancy of 2014.

³ We plan to purchase our New York buying office in 2014.

⁴ Our former corporate headquarters is leased under several facility leases the majority of which expire in June 2014. The lease term for the remaining space of approximately 11,000 square feet expires in March 2015. We do not plan to renew any of these leases. In January 2014, we moved to our current corporate headquarters in Dublin, California.

See additional discussion under “Distribution” in Item 1.

ITEM 3. LEGAL PROCEEDINGS

Like many California retailers, we have been named in class action lawsuits alleging violation of wage and hour and other employment laws. Class action litigation remains pending as of February 1, 2014.

We are also party to various other legal and regulatory proceedings arising in the normal course of business. Actions filed against us include commercial, product and product safety, customer, intellectual property, and labor and employment-related claims, including lawsuits in which private plaintiffs or governmental agencies allege that we violated local, state or federal laws. Actions against us are in various procedural stages. Many of these proceedings raise factual and legal issues and are subject to uncertainties.

We believe that the resolution of our pending class action litigation and other currently pending legal proceedings will not have a material adverse effect on our financial condition, results of operations, or cash flows.

Stockholder Return Performance Graph

The following information in this Item 5 shall not be deemed filed for purposes of Section 18 of the Securities Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933.

Total stockholder returns for our common stock outperformed the Standard & Poor's ("S&P") 500 Index and the S&P Retailing Group over the last five years as set forth in the graph below. The cumulative total return listed below assumed an initial investment of \$100 and reinvestment of dividends at each fiscal year end and measures the performance of this investment as of the last trading day in the month of January for each of the following five years. These measurement dates are based on the historical month-end data available and may vary slightly from our actual fiscal year-end date for each period. Data with respect to returns for the S&P indexes is not readily available for periods shorter than one month. The graph is a historical representation of past performance only and is not necessarily indicative of future performance.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Ross Stores, Inc. operates two brands of off-price retail apparel and home fashion stores — Ross Dress for Less® (“Ross”) and dd’s DISCOUNTS®. Ross is the largest off-price apparel and home fashion chain in the United States with 1,146 locations in 33 states, the District of Columbia and Guam as of February 1, 2014. Ross offers first-quality, in-season, name brand and designer apparel, accessories, footwear, and home fashions for the entire family at everyday savings of 20% to 60% off department and specialty store regular prices. We also operate 130 dd’s DISCOUNTS stores in 10 states that feature a more moderately-priced assortment of first-quality, in-season, name brand apparel, accessories, footwear, and home fashions for the entire family at everyday savings of 20% to 70% off moderate department and discount store regular prices as of February 1, 2014.

Our primary objective is to pursue and refine our existing off-price strategies to maintain or improve both profitability and financial returns over the long term. In establishing appropriate growth targets for our business, we closely monitor market share trends for the off-price industry and believe our share gains over the past few years were driven mainly by continued focus on value by consumers. Our sales and earnings gains in 2013 continued to benefit from efficient execution of our off-price model throughout all areas of our business. Our merchandise and operational strategies are designed to take advantage of the expanding market share of the off-price industry as well as the ongoing customer demand for name brand fashions for the family and home at compelling everyday discounts.

Looking ahead to 2014, we are planning additional incremental reductions in average store inventory levels while continuing to maintain strict controls on operating expenses as part of our strategy to maximize our profitability.

We refer to our fiscal years ended February 1, 2014, February 2, 2013, and January 28, 2012 as fiscal 2013, fiscal 2012, and fiscal 2011, respectively. Fiscal 2012 was 53 weeks. Fiscal 2013 and 2011 were 52 weeks.

Results of Operations

The following table summarizes the financial results for fiscal 2013, 2012, and 2011:

Stores. Total stores open at the end of fiscal 2013, 2012, and 2011 were 1,276, 1,199, and 1,125, respectively. The number of stores at the end of fiscal 2013, 2012, and 2011 increased by 6%, 7%, and 7% from the respective prior years. Our expansion strategy is to open additional stores based on market penetration, local demographic characteristics, competition, expected store profitability, and the ability to leverage overhead expenses. We continually evaluate opportunistic real estate acquisitions and opportunities for potential new store locations. We also evaluate our current store locations and determine store closures based on similar criteria.

Store Count	2013	2012	2011
Beginning of the period	1,199	1,125	1,055
Opened in the period	88	82	80

Sales. Sales for fiscal 2013 increased \$0.5 billion, or 5.2%, compared to the prior year due to the opening of 77 net new stores during 2013 and a 3% increase in comparable store sales (defined as stores that have been open for more than 14 complete months). Sales for fiscal 2012 increased \$1.1 billion, or 12.9%, compared to the prior year due to the opening of 74 net new stores during 2012, a 6% increase in sales from comparable stores, and approximately \$149 million in sales from the 53rd week.

We intend to address the competitive climate for off-price apparel and home goods by pursuing and refining our existing strategies and by continuing to strengthen our organization, diversify our merchandise mix, and more fully develop our systems to improve regional and local merchandise offerings. Although our strategies and store expansion program contributed to sales gains in fiscal 2013, 2012, and 2011, we cannot be sure that they will result in a continuation of sales growth or in an increase in net earnings.

Cost of goods sold. Cost of goods sold in fiscal 2013 increased \$349.5 million compared to the prior year mainly due to increased sales from the opening of 77 net new stores during the year and a 3% increase in sales from comparable stores.

Cost of goods sold as a percentage of sales for fiscal 2013 decreased approximately 15 basis points from the prior year. This improvement was due primarily to a 45 basis point increase in merchandise gross margin, which was partially offset by increases in occupancy of about 20 basis points and increases in distribution and buying expenses of about 5 basis points each.

Cost of goods sold in fiscal 2012 increased \$770.7 million compared to the prior year mainly due to increased sales from the opening of 74 net new stores during the year and a 6% increase in sales from comparable stores.

Cost of goods sold as a percentage of sales for fiscal 2012 decreased approximately 40 basis points from the prior year. This improvement was due primarily to a 40 basis point increase in merchandise gross margin. In addition, occupancy leveraged 25 basis points and distribution expenses as a percent of sales also declined approximately 15 basis points. These favorable items were partially offset by increases in buying and freight costs of 25 and 10 basis points, respectively, and 5 basis points related to the year over year true-up in our shortage reserve.

We cannot be sure that the gross profit margins realized in fiscal 2013, 2012, and 2011 will continue in future years.

Selling, general and administrative expenses. For fiscal 2013, selling, general and administrative expenses (“SG&A”) increased \$88.5 million compared to the prior year, mainly due to increased store operating costs reflecting the opening of 77 net new stores during the year. SG&A as a percentage of sales for fiscal 2013 increased by approximately 15 basis points compared to the prior year primarily due to higher costs related to the relocation of our data center.

For fiscal 2012, SG&A increased \$133.8 million compared to the prior year, mainly due to increased store operating costs reflecting the opening of 74 net new stores during the year. SG&A as a percentage of sales for fiscal 2012 decreased by approximately 35 basis points compared to the prior year primarily due to leverage on store operating expenses.

The largest component of SG&A is payroll. The total number of employees, including both full and part-time, as of fiscal year end 2013, 2012, and 2011 was approximately 66,300, 57,500, and 53,900, respectively.

Interest (income) expense, net. In fiscal 2013, interest expense decreased by \$7.2 million primarily due to higher capitalization of interest related to construction of our new distribution centers. Interest income decreased by \$0.1 million primarily due to lower investment yields as compared to the prior year. As a percentage of sales, net interest expense in fiscal 2013 decreased by approximately five basis points compared to the same period in the prior year. The table below shows interest expense and income for fiscal 2013, 2012, and 2011:

(\$ millions)	2013	2012	2011
Interest expense	\$ 0.3	\$ 7.5	\$ 11.0
Interest income	(0.5)	(0.6)	(0.7)
Total interest (income) expense, net	\$ (0.2)	\$ 6.9	\$ 10.3

Taxes on earnings. Our effective tax rate for fiscal 2013, 2012 and 2011 was approximately 38% in each year, which represents the applicable combined federal and state statutory rates reduced by the federal benefit of state taxes deductible on federal returns. The effective rate is impacted by changes in laws, location of new stores, level of earnings, and the resolution of tax positions with various taxing authorities. We anticipate that our effective tax rate for fiscal 2014 will be about 38%.

Net earnings. Net earnings as a percentage of sales for fiscal 2013 were higher than fiscal 2012 primarily due to lower cost of goods sold partially offset by higher SG&A. Net earnings as a percentage of sales for fiscal 2012 were higher compared to fiscal 2011 primarily due to both lower cost of goods sold and lower SG&A expenses.

Earnings per share. Diluted earnings per share in fiscal 2013 was \$3.88 compared to \$3.53 in the prior year period. The 10% increase in diluted earnings per share is attributable to an approximate 6% increase in net earnings and a 4% reduction in weighted average diluted shares outstanding, largely due to the repurchase of common stock under our stock repurchase program. Diluted earnings per share in fiscal 2012 was \$3.53 compared to \$2.86 in fiscal 2011. The 23% increase in diluted earnings per share is attributable to a 20% increase in net earnings and a 3% reduction in weighted average diluted shares outstanding, largely due to the repurchase of common stock under our stock repurchase program.

Financial Condition

Liquidity and Capital Resources

Our primary sources of funds for our business activities are cash flows from operations and short-term trade credit. Our primary ongoing cash requirements are for merchandise inventory purchases, payroll, rent, taxes, and capital expenditures in connection with new and existing stores, and investments in distribution centers, information systems, and buying and corporate offices. We also use cash to repurchase stock under our stock repurchase program and to pay dividends.

(\$ millions)	2013	2012	2011
Cash provided by operating activities	\$ 1,022.0	\$ 979.6	\$ 820.1
Cash used in investing activities	(563.8)	(425.7)	(471.8)
Cash used in financing activities	(681.8)	(557.0)	(532.4)
Net decrease in cash and cash equivalents	\$ (223.6)	\$ (3.1)	\$ (184.1)

Operating Activities

Net cash provided by operating activities was \$1,022.0 million, \$979.6 million, and \$820.1 million in fiscal 2013, 2012, and 2011 respectively, and was primarily driven by net earnings excluding non-cash expenses for depreciation and amortization. Our primary source of operating cash flow is the sale of our merchandise inventory. We regularly review the age and condition of our merchandise and are able to maintain current merchandise inventory in our stores through replenishment processes and liquidation of slower-moving merchandise through clearance markdowns.

Net cash from operations increased in 2013 compared to 2012 and in 2012 compared to 2011 primarily due to higher net earnings.

The change in total merchandise inventory, net of the change in accounts payable, resulted in a use of cash of approximately \$52 million, \$39 million, and \$55 million for fiscal 2013, 2012, and 2011, respectively. Accounts payable leverage (defined as accounts payable divided by merchandise inventory) was 62%, 67%, and 67% as of February 1, 2014, February 2, 2013, and January 28, 2012, respectively. Changes in accounts payable leverage are primarily driven by timing of packaway receipts and payments. Accounts payable leverage at the end of fiscal 2013 was also impacted due to the timing shift of the dividend declaration from January 2014 to February 2014.

As a regular part of our business, packaway inventory levels will vary over time based on availability of compelling opportunities in the marketplace. Packaway merchandise is purchased with the intent that it will be stored in our warehouses until a later date. The timing of the release of packaway inventory to our stores is principally driven by the product mix and seasonality of the merchandise, and its relation to our store merchandise assortment plans. As such, the aging of packaway varies by merchandise category and seasonality of purchase, but typically packaway remains in storage less than six months. We expect to continue to take advantage of packaway inventory opportunities to deliver bargains to our customers.

Changes in packaway inventory levels impact our operating cash flow. At the end of fiscal 2013, packaway inventory was 49% of total inventory compared to 47% and 49% at the end of fiscal 2012 and 2011, respectively.

Investing Activities

Net cash used in investing activities was \$563.8 million, \$425.7 million, and \$471.8 million in fiscal 2013, 2012, and 2011, respectively. The increase in cash used for investing activities in fiscal 2013 compared to fiscal 2012 was primarily due to an increase in our capital expenditures. The decrease in cash used for investing activities for fiscal 2012 compared to fiscal 2011 was primarily due to a transfer of funds in fiscal 2011 into restricted accounts to serve as collateral for our insurance obligations.

In fiscal 2013, 2012, and 2011, our capital expenditures were \$550.5 million, \$424.4 million, and \$416.3 million, respectively. Our capital expenditures include costs to build or expand distribution centers, develop our new data center, open new stores and improve existing stores, and for various other expenditures related to our information technology systems, buying, and corporate offices. We opened 88, 82, and 80 new stores in fiscal 2013, 2012, and 2011, respectively. In 2013 we purchased the land and building of our previously leased 1.3 million square foot Perris, California distribution center for \$70 million; we also spent approximately \$60 million building out our new corporate headquarters. Our buying offices, our former corporate headquarters, two truck and trailer parking facilities, three warehouse facilities, and all but three of our store locations are leased and, except for certain leasehold improvements and equipment, do not represent capital investments.

Our capital expenditures over the last three years are set forth in the table below:

(\$ millions)	2013	2012	2011
Distribution	\$ 248.4	\$ 157.9	\$ 86.1
New stores	121.3	118.7	114.2
Existing stores	59.1	86.9	126.8
Information systems, corporate, and other	121.7	60.9	89.2
Total capital expenditures	\$ 550.5	\$ 424.4	\$ 416.3

In October 2013, we entered into a Sale-Purchase Agreement under which we have the right to purchase the office building where our New York buying office is located for \$222 million. The building is subject to a 99 year ground lease through June 2111. The Sale-Purchase Agreement contemplates completion of the sale and purchase of the building on or before September 20, 2014, subject to satisfaction of various closing conditions. Under the Sale-Purchase Agreement, we provided a deposit of 10% of the purchase price. In the event we are unable or choose not to complete the purchase of the building, we would forfeit the deposit but have no further liability to the seller or obligation to complete the purchase. In September 2013, we deposited \$11.1 million and provided an \$11.1 million standby letter of credit to meet the 10% deposit obligation. In January 2014, we deposited an additional \$2.2 million in escrow for the building bringing our total deposit to \$13.3 million. We plan to finance the purchase of the building in 2014.

We are forecasting approximately \$800 million in capital expenditures for fiscal year 2014, up from \$550.5 million in fiscal 2013. In addition to funding costs for fixtures and leasehold improvements to open both new Ross and dd's DISCOUNTS stores, the upgrade or relocation of existing stores, investments in information technology systems, and for various other expenditures related to our stores, distribution centers, buying and corporate offices, this higher capital spending is primarily driven by the expected purchase of our New York buying office and continued construction of our two new distribution centers. We expect to primarily fund capital expenditures with available cash and cash flows from operations and with proceeds from our planned financing of the purchase of our New York buying office.

We purchased \$12.0 million and \$5.4 million of investments in fiscal 2013 and fiscal 2012, respectively. We purchased no investments in fiscal 2011. We had proceeds from investments of \$1.6 million, \$6.2 million, and \$4.6 million in fiscal 2013, 2012, and 2011, respectively.

Financing Activities

Net cash used in financing activities was \$681.8 million, \$557.0 million, and \$532.4 million in fiscal 2013, 2012, and 2011, respectively. During fiscal 2013, 2012, and 2011, our liquidity and capital requirements were provided by available cash and cash flows from operations.

In January 2013, our Board of Directors approved a two-year \$1.1 billion stock repurchase program for fiscal 2013 and 2014. We repurchased 8.2 million, 7.5 million, and 11.3 million shares of common stock for aggregate purchase prices of approximately \$550 million, \$450 million, and \$450 million in fiscal 2013, 2012, and 2011, respectively. We also acquired 496,000, 505,000, and 442,000 shares of treasury stock from our employee stock equity compensation programs, for aggregate purchase prices of approximately \$29.9 million, \$29.4 million, and \$15.9 million during fiscal 2013, 2012, and 2011, respectively.

In February 2014, our Board of Directors declared a quarterly cash dividend of \$0.20 per common share, payable on March 31, 2014. Our Board of Directors declared cash dividends of \$0.17 per common share in January, May, August, and November 2013, cash dividends of \$0.14 per common share in January, May, August, and November 2012, and cash dividends of \$0.11 per common share in January, May, August, and November 2011.

During fiscal 2013, 2012, and 2011, we paid dividends of \$147.9 million, \$125.7 million, and \$102.0 million, respectively.

Short-term trade credit represents a significant source of financing for merchandise inventory. Trade credit arises from customary payment terms and trade practices with our vendors. We regularly review the adequacy of credit available to us from all sources and expect to be able to maintain adequate trade, bank, and other credit lines to meet our capital and liquidity requirements, including lease payment obligations in 2014.

Our existing \$600 million unsecured revolving credit facility expires in June 2017 and contains a \$300 million sublimit for issuance of standby letters of credit. Interest on this facility is based on LIBOR plus an applicable margin (currently 100 basis points) and is payable quarterly and upon maturity. As of February 1, 2014, we had no borrowings or standby letters of credit outstanding on this facility and our \$600 million credit facility remains in place and available.

We estimate that existing cash balances, cash flows from operations, bank credit lines, and trade credit are adequate to meet our operating cash needs and to fund our planned capital investments, common stock repurchases, and quarterly dividend payments for at least the next twelve months.

Contractual Obligations

The table below presents our significant contractual obligations as of February 1, 2014:

(\$000)	Less than 1 year	1 – 3 years	3 – 5 years	After 5 years	Total ¹
Senior notes	\$ —	\$ —	\$ 85,000	\$ 65,000	\$ 150,000
Interest payment obligations	9,668	19,335	18,657	12,203	59,863
Operating leases (rent obligations)	417,443	801,735	569,380	498,371	2,286,929
Purchase obligations	1,792,423	19,260	—	—	1,811,683
Total contractual obligations	\$ 2,219,534	\$ 840,330	\$ 673,037	\$ 575,574	\$ 4,308,475

¹ We have a \$104.9 million liability for unrecognized tax benefits that is included in other long-term liabilities on our consolidated balance sheet. This liability is excluded from the schedule above as the timing of payments cannot be reasonably estimated.

Senior notes. We have issued two series of unsecured senior notes in the aggregate principal amount of \$150 million, held by various institutional investors. The Series A notes totaling \$85 million are due in December 2018 and bear interest at a rate of 6.38%. The Series B notes totaling \$65 million are due in December 2021 and bear interest at a rate of 6.53%. Interest on these notes is included in Interest payment obligations in the table above. These notes are subject to prepayment penalties for early payment of principal.

Borrowings under these notes are subject to certain operating and financial covenants, including interest coverage and other financial ratios. As of February 1, 2014, we were in compliance with these covenants.

Off-Balance Sheet Arrangements

Operating leases. We currently lease our buying offices, our former corporate headquarters, three warehouse facilities, all but three of our store locations, and two truck and trailer parking facilities. Except for certain leasehold improvements and equipment, these leased locations do not represent long-term capital investments.

We lease three warehouses. Two of the warehouses are in Carlisle, Pennsylvania with leases expiring in 2016 and 2017. The third warehouse is in Fort Mill, South Carolina, with a lease expiring in 2016. The leases for all three warehouses contain renewal provisions.

We lease a 10-acre parcel for trailer parking adjacent to our Perris, California distribution center that expires in 2017 and a 20-acre facility located in Moreno Valley, California primarily for ancillary truck and trailer parking that expires in 2015. Both of these leases contain renewal provisions.

We lease approximately 192,000 square feet of office space for our former corporate headquarters in Pleasanton, California, under several facility leases. The term for the majority of these leases expires in June 2014. The lease term for the remaining space of approximately 11,000 square feet expires in March 2015. We do not plan to renew any of these leases.

We currently lease approximately 411,000 and 52,000 square feet of office space for our New York City and Los Angeles buying offices, respectively. The lease terms for these facilities expire in 2022 and 2017, respectively, and contain renewal provisions. We plan to purchase our New York buying office in 2014.

Purchase obligations. As of February 1, 2014 we had purchase obligations of approximately \$1,812 million. These purchase obligations primarily consist of merchandise inventory purchase orders, commitments related to construction projects, store fixtures and supplies, and information technology service and maintenance contracts.

Commercial Credit Facilities

The table below presents our significant available commercial credit facilities at February 1, 2014:

(\$000)	Amount of Commitment Expiration Per Period				Total amount committed
	Less than 1 year	1 – 3 years	3 – 5 years	After 5 years	
Revolving credit facility	\$ —	\$ —	\$ 600,000	\$ —	\$ 600,000
Total commercial commitments	\$ —	\$ —	\$ 600,000	\$ —	\$ 600,000

For additional information relating to this credit facility, refer to Note D of Notes to Consolidated Financial Statements.

Revolving credit facility. Our existing \$600 million unsecured revolving credit facility expires in June 2017 and contains a \$300 million sublimit for issuance of standby letters of credit. Interest on this facility is based on LIBOR plus an applicable margin (currently 100 basis points) and is payable quarterly and upon maturity. As of February 1, 2014 we had no borrowings outstanding or standby letters of credit issued under this facility.

Our revolving credit facility and senior notes have covenant restrictions requiring us to maintain certain interest coverage and other financial ratios. In addition, the interest rates under the revolving credit facility may vary depending on actual interest coverage ratios achieved. As of February 1, 2014 we were in compliance with these covenants.

Standby letters of credit and collateral trust. We use standby letters of credit outside of our revolving credit facility in addition to a funded trust to collateralize our insurance obligations. As of February 1, 2014 and February 2, 2013, we had \$24.3 million and \$33.8 million, respectively, in standby letters of credit outstanding and \$47.2 million and \$34.9 million, respectively, in a collateral trust. The standby letters of credit are collateralized by restricted cash and the collateral trust consists of restricted cash, cash equivalents, and investments.

As of February 1, 2014, we also had an \$11.1 million standby letter of credit in connection with our New York buying office Sale-Purchase Agreement.

Trade letters of credit. We had \$31.6 million and \$38.0 million in trade letters of credit outstanding at February 1, 2014 and February 2, 2013, respectively.

Effects of inflation or deflation. We do not consider the effects of inflation or deflation to be material to our financial position and results of operations.

Other

Critical Accounting Policies

The preparation of our consolidated financial statements requires our management to make estimates and assumptions that affect the reported amounts. These estimates and assumptions are evaluated on an ongoing basis and are based on historical experience and on various other factors that management believes to be reasonable. We believe the following critical accounting policies describe the more significant judgments and estimates used in the preparation of our consolidated financial statements.

Merchandise inventory. Our merchandise inventory is stated at the lower of cost (determined using a weighted average basis) or net realizable value. We purchase manufacturer overruns and canceled orders both during and at the end of a season which are referred to as “packaway” inventory. Packaway inventory is purchased with the intent that it will be stored in our warehouses until a later date. The timing of the release of packaway inventory to our stores is principally driven by the product mix and seasonality of the merchandise, and its relation to the Company’s store merchandise assortment plans. As such, the aging of packaway varies by merchandise category and seasonality of purchase, but typically packaway remains in storage less than six months. Packaway inventory accounted for approximately 49%, 47%, and 49% of total inventories as of February 1, 2014, February 2, 2013, and January 28, 2012, respectively. Merchandise inventory includes acquisition, processing, and storage costs related to packaway inventory.

Included in the carrying value of our merchandise inventory is a provision for shortage. The shortage reserve is based on historical shortage rates as evaluated through our annual physical merchandise inventory counts and cycle counts. If actual market conditions, markdowns, or shortage are less favorable than those projected by us, or if sales of the merchandise inventory are more difficult than anticipated, additional merchandise inventory write-downs may be required.

Long-lived assets. We record a long-lived asset impairment charge when events or changes in circumstances indicate that the carrying amount of a long-lived asset may not be recoverable based on estimated future cash flows. An impairment loss would be recognized if analysis of the undiscounted cash flow of an asset group was less than the carrying value of the asset group. If our actual results differ materially from projected results, an impairment charge may be required in the future. In the course of performing our annual analysis, we determined that no long-lived asset impairment charge was required for fiscal 2013, 2012, or 2011.

Depreciation and amortization expense. Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation is calculated using the straight-line method over the estimated useful life of the asset, typically ranging from three to 12 years for equipment and 20 to 40 years for land improvements and buildings. The cost of leasehold improvements is amortized over the lesser of the useful life of the asset or the applicable lease term.

Lease accounting. When a lease contains “rent holidays” or requires fixed escalations of the minimum lease payments, we record rental expense on a straight-line basis over the term of the lease and the difference between the average rental amount charged to expense and the amount payable under the lease is recorded as deferred rent. We begin recording rent expense on the lease possession date. Tenant improvement allowances are included in other long-term liabilities and are amortized over the lease term. Changes in tenant improvement allowances are included as a component of operating activities in the consolidated statements of cash flows.

Insurance obligations. We use a combination of insurance and self-insurance for a number of risk management activities, including workers’ compensation, general liability, and employee-related health care benefits. Our self-insurance and deductible liability is determined actuarially, based on claims filed and an estimate of claims incurred but not reported. Should a greater amount of claims occur compared to what is estimated or the costs of medical care increase beyond what was anticipated, our recorded reserves may not be sufficient and additional charges could be required.

Stock-based compensation. We recognize compensation expense based upon the grant date fair value of all stock-based awards. We use historical data to estimate pre-vesting forfeitures and to recognize stock-based compensation expense. All stock-based compensation awards are expensed over the service or performance periods of the awards.

Income taxes. We account for our uncertain tax positions in accordance with Accounting Standards Codification (“ASC”) 740. We are required to make assumptions and judgments regarding our income tax exposures. Our policy is to recognize interest and/or penalties related to all tax positions in income tax expense. To the extent that accrued interest and penalties do not ultimately become payable, amounts accrued will be reduced and reflected as a reduction of the overall income tax provision in the period that such determination is made.

The critical accounting policies noted above are not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by Generally Accepted Accounting Principles (“GAAP”), with no need for management’s judgment in their application. There are also areas in which management’s judgment in selecting one alternative accounting principle over another would not produce a materially different result. See our audited consolidated financial statements and notes thereto under Item 8 in this Annual Report on Form 10-K, which contain accounting policies and other disclosures required by GAAP.

Forward-Looking Statements

Our Annual Report on Form 10-K for fiscal 2013, and information we provide in our Annual Report to Stockholders, press releases, telephonic reports, and other investor communications including those on our corporate website, may contain a number of forward-looking statements regarding, without limitation, planned store growth, new markets, expected sales, projected earnings levels, capital expenditures, and other matters. These forward-looking statements reflect our then current beliefs, projections, and estimates with respect to future events and our projected financial performance, operations, and competitive position. The words “plan,” “expect,” “target,” “anticipate,” “estimate,” “believe,” “forecast,” “projected,” “guidance,” “looking ahead” and similar expressions identify forward-looking statements.

Future economic and industry trends that could potentially impact revenue, profitability, and growth remain difficult to predict. As a result, our forward-looking statements are subject to risks and uncertainties which could cause our actual results to differ materially from those forward-looking statements and our previous expectations and projections. Refer to Item 1A in this Annual Report on Form 10-K for a more complete discussion of risk factors for Ross and dd’s DISCOUNTS. The factors underlying our forecasts are dynamic and subject to change. As a result, any forecasts or forward-looking statements speak only as of the date they are given and do not necessarily reflect our outlook at any other point in time. We disclaim any obligation to update or revise these forward-looking statements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, which primarily include changes in interest rates. We do not engage in financial transactions for trading or speculative purposes.

We occasionally use forward contracts to hedge against fluctuations in foreign currency prices. We had no outstanding forward contracts as of February 1, 2014.

Interest that is payable on our revolving credit facility is based on variable interest rates and is, therefore, affected by changes in market interest rates. As of February 1, 2014, we had no borrowings outstanding under our revolving credit facility.

In addition, we have two outstanding series of unsecured notes held by institutional investors: Series A for \$85 million accrues interest at 6.38% and Series B for \$65 million accrues interest at 6.53%. The amount outstanding under these notes as of February 1, 2014 was \$150 million.

Interest is receivable on our short- and long-term investments. Changes in interest rates may impact interest income recognized in the future, or the fair value of our investment portfolio.

A hypothetical 100 basis point increase or decrease in prevailing market interest rates would not have a material impact on our consolidated financial position, results of operations, cash flows, or the fair values of our short- and long-term investments as of and for the year ended February 1, 2014. We do not consider the potential losses in future earnings and cash flows from reasonably possible, near-term changes in interest rates to be material.

Notes to Consolidated Financial Statements

Note A: Summary of Significant Accounting Policies

Business. Ross Stores, Inc. and its subsidiaries (the “Company”) is an off-price retailer of first-quality, in-season, name brand and designer apparel, accessories, footwear, and home fashions for the entire family. At the end of fiscal 2013, the Company operated 1,146 Ross Dress for Less® (“Ross”) locations in 33 states, the District of Columbia and Guam, and 130 dd’s DISCOUNTS® stores in 10 states. The Ross and dd’s DISCOUNTS stores are supported by four distribution centers. The Company’s headquarters, one buying office, two operating distribution centers, one warehouse, and 25% of its stores are located in California.

Segment reporting. The Company has one reportable segment. The Company’s operations include only activities related to off-price retailing in stores throughout the United States.

Basis of presentation and fiscal year. The consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly-owned. Intercompany transactions and accounts have been eliminated. The Company follows the National Retail Federation fiscal calendar and utilizes a 52-53 week fiscal year whereby the fiscal year ends on the Saturday nearest to January 31. The fiscal years ended February 1, 2014, February 2, 2013 and January 28, 2012 are referred to as fiscal 2013, fiscal 2012, and fiscal 2011, respectively. Fiscal 2012 was 53 weeks. Fiscal 2013 and 2011 were each 52 weeks.

Stock dividend. On December 15, 2011 the Company issued a two-for-one stock split in the form of a 100 percent stock dividend. All share and per share amounts have been adjusted for the two-for-one stock split effective December 15, 2011.

Use of accounting estimates. The preparation of consolidated financial statements in conformity with Generally Accepted Accounting Principles in the United States of America (“GAAP”) requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The Company’s significant accounting estimates include valuation reserves for inventory shortage, packaway inventory costs, useful lives of fixed assets, insurance reserves, and reserves for uncertain tax positions.

Purchase obligations. As of February 1, 2014, the Company had purchase obligations of approximately \$1,812 million. These purchase obligations primarily consist of merchandise inventory purchase orders, commitments related to store fixtures and supplies, and information technology service and maintenance contracts.

Cash and cash equivalents. Cash equivalents consist of highly liquid, fixed income instruments purchased with an original maturity of three months or less.

Restricted cash, cash equivalents, and investments. The Company has restricted cash, cash equivalents, and investments that serve as collateral for certain insurance obligations of the Company. These restricted funds are invested in bank deposits, money market mutual funds, U.S. Government and agency securities, and corporate securities and cannot be withdrawn from the Company’s account without the prior written consent of the secured parties. The following table summarizes total restricted cash, cash equivalents, and investments which were included in prepaid expenses and other and other long-term assets in the Consolidated Balance Sheet as of February 1, 2014 and February 2, 2013:

Restricted Assets (\$000)	2013	2012
Prepaid expenses and other	\$ 20,734	\$ 19,941
Other long-term assets	50,763	48,821
Total	\$ 71,497	\$ 68,762

The classification between current and long-term is based on the timing of expected payments of the insurance obligations.

Estimated fair value of financial instruments. The carrying value of cash and cash equivalents, short- and long-term investments, restricted cash and cash equivalents, restricted investments, accounts receivable, other long-term assets, accounts payable, and other long-term liabilities approximates their estimated fair value. See Note B and Note D for additional fair value information.

Cash and cash equivalents were \$423.2 million and \$646.8 million, at February 1, 2014 and February 2, 2013, respectively, and include bank deposits and money market funds for which the fair value was determined using quoted prices for identical assets in active markets, which are considered to be Level 1 inputs under the fair value measurements and disclosures guidance.

Investments. The Company's investments are comprised of various debt securities. At February 1, 2014 and February 2, 2013, these investments were classified as available-for-sale and are stated at fair value. Investments are classified as either short- or long-term based on their original maturities and the Company's intent. Investments with an original maturity of less than one year are classified as short-term. See Note B for additional information.

Merchandise inventory. Merchandise inventory is stated at the lower of cost (determined using a weighted average basis) or net realizable value. The Company purchases manufacturer overruns and canceled orders both during and at the end of a season which are referred to as "packaway" inventory. Packaway inventory is purchased with the intent that it will be stored in the Company's warehouses until a later date. The timing of the release of packaway inventory to the stores is principally driven by the product mix and seasonality of the merchandise, and its relation to the Company's store merchandise assortment plans. As such, the aging of packaway varies by merchandise category and seasonality of purchase, but typically packaway remains in storage less than six months. Packaway inventory accounted for approximately 49% and 47%, of total inventories as of February 1, 2014 and February 2, 2013. Merchandise inventory includes acquisition, processing, and storage costs related to packaway inventory. The cost of the Company's merchandise inventory is reduced by valuation reserves for shortage based on historical shortage experience from the Company's physical merchandise inventory counts and cycle counts.

Cost of goods sold. In addition to product costs, the Company includes in cost of goods sold its buying, distribution and freight expenses as well as occupancy costs, and depreciation and amortization related to the Company's retail stores, buying, and distribution facilities. Buying expenses include costs to procure merchandise inventories. Distribution expenses include the cost of operating the Company's distribution centers.

Prepaid expenses and other. Prepaid expenses and other as of February 1, 2014 and February 2, 2013 consisted of the following:

(\$000)	2013	2012
Restricted cash and investments	\$ 20,734	\$ 19,941
Prepaid expenses	81,257	74,377
Total	\$ 101,991	\$ 94,318

Property and equipment. Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation is calculated using the straight-line method over the estimated useful life of the asset, typically ranging from three to 12 years for equipment and 20 to 40 years for land improvements and buildings. Depreciation and amortization expense on property and equipment was \$206.1 million, \$185.5 million, and \$159.9 million for fiscal 2013, 2012, and 2011, respectively. The cost of leasehold improvements is amortized over the useful life of the asset or the applicable lease term, whichever is less. Computer hardware and software costs, net of depreciation, of \$209.4 million and \$166.2 million at February 1, 2014 and February 2, 2013, respectively, are included in fixtures and equipment and are amortized over their estimated useful life,

generally ranging from three to seven years. The Company capitalizes interest during the construction period. Interest capitalized was \$10.8 million, \$3.9 million, and \$0.5 million in fiscal 2013, fiscal 2012, and fiscal 2011, respectively. As of February 1, 2014, February 2, 2013, and January 28, 2012 the Company had \$61.3 million, \$23.7 million, and \$11.1 million, respectively, of property and equipment purchased but not yet paid. These purchases are included in Property and Equipment and in Accounts payable and Accrued expenses and other in the accompanying consolidated balance sheets.

In July 2013, the Company purchased the land and building of its previously leased, 1.3 million square foot Perris, California distribution center for \$70 million.

In October 2013, the Company entered into a Sale-Purchase Agreement under which it has the right to purchase the office building where its New York buying office is located for \$222 million. The building is subject to a 99 year ground lease through June 2111. The Sale-Purchase Agreement contemplates completion of the sale and purchase of the building on or before September 20, 2014, subject to satisfaction of various closing conditions. Under the Sale-Purchase Agreement, the Company provided a deposit of 10% of the purchase price. In the event the Company is unable or chooses not to complete the purchase of the building, the Company would forfeit the deposit but have no further liability to the seller or obligation to complete the purchase. In September 2013, the Company deposited \$11.1 million and provided an \$11.1 million standby letter of credit to meet the 10% deposit obligation. In January 2014, the Company deposited an additional \$2.2 million in escrow for the building bringing the total deposit to \$13.3 million. The Company plans to finance the purchase of the building in 2014.

Other long-term assets. Other long-term assets as of February 1, 2014 and February 2, 2013 consisted of the following:

(\$000)	2013	2012
Deferred compensation (Note B)	\$ 88,269	\$ 76,911
Restricted cash and investments	50,763	48,821
Goodwill	2,889	2,889
Deposits	3,285	3,185
Other	5,423	9,670
Total	\$ 150,629	\$ 141,476

Other assets are principally comprised of prepaid rent and other long-term prepayments.

Property and other long-term assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Intangible assets that are not subject to amortization, including goodwill, are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset may be impaired. Based on the Company's evaluation during fiscal 2013, 2012, and 2011, no impairment charges were recorded.

Store closures. The Company continually reviews the operating performance of individual stores. For stores that are closed, the Company records a liability for future minimum lease payments net of estimated sublease recoveries and related ancillary costs at the time the liability is incurred. In 2013, the Company closed 11 Ross stores. In 2012, the Company closed eight Ross stores. The lease loss liability was \$6.3 million and \$3.4 million, as of February 1, 2014 and February 2, 2013, respectively. Operating costs, including depreciation, of stores to be closed are expensed during the period they remain in use.

Accounts payable. Accounts payable represents amounts owed to third parties at the end of the period. Accounts payable includes book cash overdrafts (checks issued under zero balance accounts not yet presented for payment) in excess of cash balances in such accounts of approximately \$75.7 million and \$82.6 million at February 1, 2014 and February 2, 2013, respectively. The Company includes the change in book cash overdrafts in operating cash flows.

Insurance obligations. The Company uses a combination of insurance and self-insurance for a number of risk management activities, including workers' compensation, general liability, and employee-related health care benefits. The self-insurance and deductible liability is determined actuarially, based on claims filed and an estimate of claims incurred but not yet reported. Self-insurance and deductible reserves as of February 1, 2014 and February 2, 2013 consisted of the following:

(\$000)	2013	2012
Workers' compensation	\$ 82,223	\$ 80,079
General liability	34,524	30,670
Medical plans	3,537	3,451
Total	\$ 120,284	\$ 114,200

Workers' compensation and self-insured medical plan liabilities are included in Accrued payroll and benefits, and accruals for general liability are included in Accrued expenses and other in the accompanying consolidated balance sheets.

Other long-term liabilities. Other long-term liabilities as of February 1, 2014 and February 2, 2013 consisted of the following:

(\$000)	2013	2012
Deferred compensation (Note G)	\$ 88,269	\$ 76,911
Deferred rent	64,671	62,250
Income taxes (Note F)	104,944	82,483
Tenant improvement allowances	19,744	23,944
Other	9,939	1,227
Total	\$ 287,567	\$ 246,815

Lease accounting. When a lease contains "rent holidays" or requires fixed escalations of the minimum lease payments, the Company records rental expense on a straight-line basis over the term of the lease and the difference between the average rental amount charged to expense and the amount payable under the lease is recorded as deferred rent. The Company begins recording rent expense on the lease possession date. Tenant improvement allowances are included in Other long-term liabilities and are amortized over the lease term. Changes in tenant improvement allowances are included as a component of operating activities in the consolidated statements of cash flows.

Revenue recognition. The Company recognizes revenue at the point of sale and maintains an allowance for estimated future returns. Sales of stored value cards are deferred until they are redeemed for the purchase of Company merchandise. The Company's stored value cards do not have expiration dates. Based upon historical redemption rates, a small percentage of stored value cards will never be redeemed, which represents breakage. The Company recognizes income from stored value card breakage as a reduction of operating expenses when redemption by a customer is considered to be remote. Income recognized from breakage was not significant in fiscal 2013, 2012, and 2011.

Sales tax collected is not recognized as revenue and is included in Accrued expenses and other.

Allowance for sales returns. An allowance for the gross margin loss on estimated sales returns is included in Accrued expenses and other in the consolidated balance sheets. The allowance for sales returns consists of the following:

(\$000)	Beginning Balance	Additions	Returns	Ending Balance
Year ended:				
February 1, 2014	\$ 7,165	\$ 699,835	\$ (699,569)	\$ 7,431
February 2, 2013	\$ 6,426	\$ 680,058	\$ (679,319)	\$ 7,165
January 28, 2012	\$ 5,869	\$ 606,293	\$ (605,736)	\$ 6,426

Store pre-opening. Store pre-opening costs are expensed in the period incurred.

Advertising. Advertising costs are expensed in the period incurred and are included in Selling, general and administrative expenses. Advertising costs for fiscal 2013, 2012, and 2011 were \$70.2 million, \$67.7 million, and \$59.9 million, respectively.

Stock-based compensation. The Company recognizes compensation expense based upon the grant date fair value of all stock-based awards, typically over the vesting period. See Note C for more information on the Company's stock-based compensation plans.

Taxes on earnings. The Company accounts for income taxes in accordance with Accounting Standards Codification ("ASC") 740, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's consolidated financial statements or tax returns. In estimating future tax consequences, the Company generally considers all expected future events other than changes in the tax law or tax rates. ASC 740 also clarifies the criteria that an individual tax position must satisfy for some or all of the benefits of that position to be recognized in a company's consolidated financial statements and prescribes a recognition threshold of more-likely-than-not, and a measurement standard for all tax positions taken or expected to be taken on a tax return, in order for those tax positions to be recognized in the consolidated financial statements. See Note F.

Treasury stock. The Company records treasury stock at cost. Treasury stock includes shares purchased from employees for tax withholding purposes related to vesting of restricted stock grants.

Earnings per share ("EPS"). The Company computes and reports both basic EPS and diluted EPS. Basic EPS is computed by dividing net earnings by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net earnings by the sum of the weighted average number of common shares and dilutive common stock equivalents outstanding during the period. Diluted EPS reflects the total potential dilution that could occur from outstanding equity plan awards, including unexercised stock options and unvested shares of both performance and non-performance based awards of restricted stock and restricted stock units.

In fiscal 2013, 2012, and 2011 there were 2,900, 53,900, and 5,900 weighted average shares, respectively, that were excluded from the calculation of diluted EPS because their effect would have been anti-dilutive for those years.

The following is a reconciliation of the number of shares (denominator) used in the basic and diluted EPS computations:

Shares in (000s)	Basic EPS	Effect of dilutive common stock equivalents	Diluted EPS
2013			
Shares	212,881	2,924	215,805
Amount	\$ 3.93	\$ (0.05)	\$ 3.88
2012			
Shares	219,130	3,654	222,784
Amount	\$ 3.59	\$ (0.06)	\$ 3.53
2011			
Shares	225,915	4,067	229,982
Amount	\$ 2.91	\$ (0.05)	\$ 2.86

Sales mix. The Company's sales mix is shown below for fiscal 2013, 2012, and 2011:

	2013	2012	2011
Ladies	29%	29%	29%
Home Accents and Bed and Bath	24%	24%	25%
Accessories, Lingerie, Fine Jewelry, and Fragrances	13%	13%	13%
Shoes	13%	13%	12%
Men's	13%	13%	13%
Children's	8%	8%	8%
Total	100%	100%	100%

Comprehensive income. Comprehensive income includes net earnings and components of other comprehensive income (loss), net of tax, consisting of unrealized investment gains or losses.

Note B: Investments and Restricted Investments

The amortized cost and fair value of the Company's available-for-sale securities as of February 1, 2014 were:

The change in fair value of investment securities for fiscal years 2013, 2012, and 2011 was a decrease of \$0.3 million and \$0.1 million, and an increase of \$0.2 million, respectively.

Accounting standards pertaining to fair value measurements establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. This fair value hierarchy also requires the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Corporate, U.S. government and agency, and mortgage-backed securities are classified within Level 1 or Level 2 because these securities are valued using quoted market prices or alternative pricing sources and models utilizing market observable inputs.

Investments and restricted investments measured at fair value at February 1, 2014 are summarized below:

(\$000)	Fair Value Measurements at Reporting Date			
	February 1, 2014	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)

The underlying assets in the Company's non-qualified deferred compensation program as of February 1, 2014 and February 2, 2013 (included in other long-term assets and in other long-term liabilities) primarily consist of participant-directed money market, stable value, stock, and bond funds. The fair value measurement for funds with quoted market prices in active markets (Level 1) and for funds without quoted market prices in active markets (Level 2) are as follows:

(\$ millions)	2013	2012
Level 1	\$ 76.9	\$ 65.9
Level 2	11.4	11.0
Total	\$ 88.3	\$ 76.9

Fair market value for Level 2 funds is considered to be the sum of participant funds invested under a group annuity contract plus accrued interest.

Note C: Stock-Based Compensation

For fiscal 2013, 2012, and 2011, the Company recognized stock-based compensation expense as follows:

(\$000)	2013	2012	2011
Restricted stock	\$ 30,921	\$ 29,191	\$ 22,994
Performance awards	13,812	17,872	15,944
ESPP	2,114	1,889	1,466
Total	\$ 46,847	\$ 48,952	\$ 40,404

Capitalized stock-based compensation cost was not significant in any year.

No stock options were granted during fiscal 2013, 2012, and 2011. The Company recognizes expense for ESPP purchase rights equal to the value of the 15% discount given on the purchase date. At February 1, 2014, the Company had one stock-based compensation plan, which is further described in Note H.

Total stock-based compensation recognized in the Company's Consolidated Statements of Earnings for fiscal 2013, 2012, and 2011 is as follows:

Statements of Earnings Classification (\$000)	2013	2012	2011
Cost of goods sold	\$ 24,432	\$ 22,915	\$ 17,670
Selling, general and administrative	22,415	26,037	22,734
Total	\$ 46,847	\$ 48,952	\$ 40,404

Note D: Debt

Senior notes. The Company has issued two series of unsecured senior notes in the aggregate principal amount of \$150 million, held by various institutional investors. The Series A notes totaling \$85 million are due in December 2018 and bear interest at a rate of 6.38%. The Series B notes totaling \$65 million are due in December 2021 and bear interest at a rate of 6.53%. The fair value of these notes as of February 1, 2014 of approximately \$182 million is estimated by obtaining comparable market quotes which are considered to be Level 1 inputs under the fair value measurements and disclosures guidance. The senior notes are subject to prepayment penalties for early payment of principal.

Revolving credit facility. The Company's \$600 million unsecured revolving credit facility expires in June 2017 and contains a \$300 million sublimit for issuance of standby letters of credit. Interest on this facility is based on LIBOR plus an applicable margin (currently 100 basis points) and is payable quarterly and upon maturity. As of February 1, 2014 the Company had no borrowings or standby letters of credit outstanding under this facility and the \$600 million credit facility remains in place and available.

Borrowings under the credit facility and the senior notes are subject to certain covenants, including interest coverage and other financial ratios. In addition, the interest rates under the revolving credit facility may vary depending on actual interest coverage ratios achieved. As of February 1, 2014, the Company was in compliance with these covenants.

Standby letters of credit and collateral trust. The Company uses standby letters of credit outside of its revolving credit facility in addition to a funded trust to collateralize its insurance obligations. As of February 1, 2014 and February 2, 2013, the Company had \$24.3 million and \$33.8 million, respectively, in standby letters of credit and \$47.2 million and \$34.9 million, respectively, in a collateral trust. The standby letters of credit are collateralized by restricted cash and the collateral trust consists of restricted cash, cash equivalents, and investments.

As of February 1, 2014, the Company also had an \$11.1 million standby letter of credit in connection with the New York buying office Sale-Purchase Agreement.

Trade letters of credit. The Company had \$31.6 million and \$38.0 million in trade letters of credit outstanding at February 1, 2014 and February 2, 2013, respectively.

Note E: Leases

The Company leases all but three of its store locations with original, non-cancelable terms that in general range from three to ten years. Store leases typically contain provisions for three to four renewal options of five years each. Most store leases also provide for minimum annual rentals and for payment of certain expenses. In addition, some store leases also have provisions for additional rent based on a percentage of sales.

The Company leases three warehouses. Two of the warehouses are in Carlisle, Pennsylvania with leases expiring in 2016 and 2017. The third warehouse is in Fort Mill, South Carolina, with a lease expiring in 2016. The leases for all three warehouses contain renewal provisions.

The Company leases a 10-acre parcel for trailer parking adjacent to its Perris, California distribution center, that expires in 2017 and a 20-acre facility located in Moreno Valley, California primarily for ancillary truck and trailer parking that expires in 2015. Both of these leases contain renewal provisions.

The Company leases approximately 192,000 square feet of office space for its former headquarters in Pleasanton, California, under several facility leases the majority of which expire in June 2014. The term for the remaining space of approximately 11,000 square feet expires in March 2015. The Company does not plan to renew any of these leases.

The Company leases approximately 411,000 and 52,000 square feet of office space for its New York City and Los Angeles buying offices, respectively. The lease terms for these facilities expire in 2022 and 2017, respectively, and contain renewal provisions. The Company plans to purchase its New York buying office in 2014.

The aggregate future minimum annual lease payments under leases in effect at February 1, 2014 are as follows:

(\$000)	Total operating leases
2014	\$ 417,443
2015	430,394
2016	371,341
2017	317,126
2018	252,254
Thereafter	498,371
Total minimum lease payments	\$ 2,286,929

Total rent expense was \$434.9 million, \$406.6 million, and \$380.0 million in fiscal 2013, 2012, and 2011, respectively.

Note F: Taxes on Earnings

The provision for income taxes consisted of the following:

(\$000)	2013	2012	2011
Current			
Federal	\$ 486,203	\$ 485,882	\$ 343,550

	(15,250)	(39,028)	21,722
Total	\$ 506,006	\$ 478,081	\$ 395,974

In fiscal 2013, 2012, and 2011, the Company realized tax benefits of \$27.7 million, \$30.0 million and \$19.0 million, respectively, related to employee equity programs that were credited to additional paid-in capital.

The provision for taxes for financial reporting purposes is different from the tax provision computed by applying the statutory federal income tax rate. The differences are reconciled below:

	2013	2012	2011
Federal income taxes at the statutory rate	35%	35%	35%
State income taxes (net of federal benefit) and other, net	3%	3%	3%
Total	38%	38%	38%

The components of deferred income taxes at February 1, 2014 and February 2, 2013 are as follows:

(\$000)	2013	2012
Deferred Tax Assets		
Accrued liabilities	\$ 87,835	\$ 72,266

Long-term net deferred tax liability	(58,871)	(84,301)
Net Deferred Tax Liabilities	\$ (48,644)	\$ (63,894)

The changes in amounts of unrecognized tax benefits (gross of federal tax benefits and excluding interest and penalties) at fiscal 2013, 2012, and 2011 are as follows:

(\$000)	2013	2012	2011
Unrecognized tax benefits — beginning of year	\$ 65,667	\$ 56,524	\$ 43,990
Gross increases:			
Tax positions in current period	15,591	11,009	9,245
Tax positions in prior period	2,418	4,167	12,193
Gross decreases:			
Tax positions in prior periods	(519)	(1,476)	(4,491)
Lapse of statute limitations	(2,274)	(1,312)	(682)
Settlements	(560)	(3,245)	(3,731)
Unrecognized tax benefits — end of year	\$ 80,323	\$ 65,667	\$ 56,524

At the end of fiscal 2013, 2012, and 2011, the reserves for unrecognized tax benefits were \$104.9 million, \$82.5 million, and \$72.4 million inclusive of \$24.6 million, \$16.8 million, and \$15.9 million of related interest and penalties, respectively. The Company accounts for interest and penalties related to unrecognized tax benefits as a part of its provision for taxes on earnings. If recognized, \$49.9 million would impact the Company's effective tax rate. The difference between the total amount of unrecognized tax benefits and the amounts that would impact the effective tax rate relates to amounts attributable to deferred income tax assets and liabilities. These amounts are net of federal and state income taxes.

During the next twelve months, it is reasonably possible that the statute of limitations may lapse pertaining to positions taken by the Company in prior year tax returns. If this occurs, the total amount of unrecognized tax benefits may decrease, reducing the provision for taxes on earnings by up to \$4.8 million.

The Company is generally open to audit by the Internal Revenue Service under the statute of limitations for fiscal years 2010 through 2013. The Company's state income tax returns are generally open to audit under the various statutes of limitations for fiscal years 2009 through 2013. Certain state tax returns are currently under audit by state tax authorities. The Company does not expect the results of these audits to have a material impact on the consolidated financial statements.

Note G: Employee Benefit Plans

The Company has a defined contribution plan that is available to certain employees. Under the plan, employee and Company contributions and accumulated plan earnings qualify for favorable tax treatment under Section 401(k) of the Internal Revenue Code. This plan permits employees to make contributions up to the maximum limits allowable under the Internal Revenue Code. The Company matches up to 4% of the employee's salary up to the plan limits. Company matching contributions to the 401(k) plan were \$10.4 million, \$9.4 million, and \$8.7 million in fiscal 2013, 2012, and 2011, respectively.

The Company also has an Incentive Compensation Plan which provides cash awards to key management and employees based on Company and individual performance.

The Company also makes available to management a Non-qualified Deferred Compensation Plan which allows management to make payroll contributions on a pre-tax basis in addition to the 401(k) plan. Other long-term assets include \$88.3 million and \$76.9 million at February 1, 2014 and February 2, 2013, respectively, of long-term plan investments, at market value, set aside or designated for the Non-qualified Deferred Compensation Plan (See Note B). Plan investments are designated by the participants, and investment returns are not guaranteed by the Company. The Company has a corresponding liability to participants of \$88.3 million and \$76.9 million at February 1, 2014 and February 2, 2013, respectively, included in Other long-term liabilities in the consolidated balance sheets.

In addition, the Company has certain individuals who receive or will receive post-employment medical benefits. The estimated liability for these benefits of \$6.8 million and \$6.6 million is included in Accrued expenses and other in the accompanying consolidated balance sheets as of February 1, 2014 and February 2, 2013, respectively.

Note H: Stockholders' Equity

Common stock. The Company repurchased 8.2 million, 7.5 million, and 11.3 million shares of common stock for aggregate purchase prices of approximately \$550 million, \$450 million, and \$450 million in fiscal 2013, 2012, and 2011, respectively. In January 2013, the Company's Board of Directors approved a two-year \$1.1 billion stock repurchase program for fiscal 2013 and 2014.

The following table summarizes the Company's stock repurchase activity in fiscal 2013, 2012, and 2011:

Fiscal Year	Shares repurchased (in millions)	Average repurchase price	Repurchased (in millions)
2013	8.2	\$ 67.24	\$ 550
2012	7.5	\$ 60.34	\$ 450
2011	11.3	\$ 39.95	\$ 450

Preferred stock. The Company has four million shares of preferred stock authorized, with a par value of \$.01 per share. No preferred stock is issued or outstanding.

Dividends. In February 2014, the Company's Board of Directors declared a quarterly cash dividend of \$0.20 per common share, payable on March 31, 2014. The Company's Board of Directors declared cash dividends of \$0.17 per common share in January, May, August, and November 2013, cash dividends of \$0.14 per common share in January, May, August, and November 2012, and cash dividends of \$0.11 per common share in January, May, August, and November 2011.

2008 Equity Incentive Plan. In 2008, the Company's stockholders approved the adoption of the Ross Stores, Inc. 2008 Equity Incentive Plan (the "2008 Plan") with an initial share reserve of 16.5 million shares of the Company's common stock, of which 12.0 million shares can be issued as full value awards. The 2008 Plan provides for various types of incentive awards, which may potentially include the grant of stock options, stock appreciation rights, restricted stock purchase rights, restricted stock bonuses, restricted stock units, performance shares, performance units, and deferred compensation awards. As of February 1, 2014, there were 7.0 million shares that remained available for grant under the 2008 Plan.

A summary of the stock option activity for fiscal 2013 is presented below:

Unvested at February 1, 2014	3,914	\$ 37.14

The market value of shares of restricted stock and of the stock underlying restricted stock units at the date of grant is amortized to expense ratably over the vesting period of generally three to five years. The unamortized compensation expense at February 1, 2014 and February 2, 2013 was \$74.9 million and \$75.8 million, respectively, which is expected to be recognized over a weighted average remaining period of 1.7 years. Intrinsic value for restricted stock, defined as the closing market value on the

last business day of fiscal year 2013 (or \$67.91), was \$265.8 million. A total of 6,986,000, 7,202,000, and 7,811,000 shares were available for new restricted stock awards at the end of fiscal 2013, 2012, and 2011, respectively. During fiscal 2013, 2012, and 2011, shares purchased by the Company for tax withholding totaled 496,000, 505,000, and 442,000 shares, respectively, and are considered treasury shares which are available for reissuance. As of February 1, 2014 and February 2, 2013, the Company held 4,354,000 and 3,858,000 shares of treasury stock, respectively.

Performance share awards. The Company has a performance share award program for senior executives. A performance share award represents a right to receive shares of restricted stock or restricted stock units on a specified settlement date based on the Company's attainment of a profitability-based performance goal during the performance period, which is the Company's fiscal year. If attained, the restricted stock or units then vest over a service period, generally two to three years from the date the performance award was granted. The release of shares related to restricted stock units earned is deferred generally for one year from the date earned. The Company issued approximately 240,000, 280,000, and 467,000 shares in settlement of the fiscal 2013, 2012, and 2011 awards.

Employee Stock Purchase Plan. Under the Employee Stock Purchase Plan ("ESPP"), eligible employees participating in the quarterly offering period can choose to have up to the lesser of 10% or \$21,250 of their annual base earnings withheld to purchase the Company's common stock. The purchase price of the stock is 85% of the closing market price on the date of purchase. Purchases occur on a quarterly basis (on the last trading day of each calendar quarter). The Company recognizes expense for ESPP purchase rights equal to the value of the 15% discount given on the purchase date.

During fiscal 2013, 2012, and 2011, employees purchased approximately 208,000, 211,000, and 243,000 shares, respectively, of the Company's common stock under the plan at weighted average per share prices of \$57.57, \$50.67, and \$34.24, respectively. Through February 1, 2014, approximately 19,142,000 shares had been issued under this plan and 858,000 shares remained available for future issuance.

Note I: Related Party Transactions

The Company has a consulting agreement with Norman Ferber, its Chairman of the Board of Directors, under which the Company pays him an annual consulting fee of \$1.3 million through May 2016. In addition, the agreement provides for administrative support and health and other benefits for the individual and his dependents, which totaled approximately \$0.3 million in fiscal 2013 and 2012 and \$0.2 million in 2011, along with amounts to cover premiums through May 2016 on a life insurance policy with a death benefit of \$2.0 million. On termination of Mr. Ferber's consultancy with the Company, the Company will pay Mr. Ferber \$75,000 per year for a period of 10 years.

Robert Ferber, the son of Norman Ferber, is a buyer with the Company. For fiscal 2013, the Company paid Robert Ferber compensation including salary and bonus of approximately \$134,000.

Note J: Litigation, Claims, and Assessments

Like many California retailers, the Company has been named in class action lawsuits alleging violation of wage and hour and other employment laws. Class action litigation remains pending as of February 1, 2014.

The Company is also party to various other legal and regulatory proceedings arising in the normal course of business. Actions filed against the Company include commercial, product and product safety, customer, intellectual property, and labor and employment-related claims, including lawsuits in which private plaintiffs or governmental agencies allege that the Company violated local, state or federal laws. Actions against the Company are in various procedural stages. Many of these proceedings raise factual and legal issues and are subject to uncertainties.

In the opinion of management, the resolution of pending class action litigation and other currently pending legal proceedings is not expected to have a material adverse effect on the Company's financial condition, results of operations, or cash flows.

Note K: Quarterly Financial Data (Unaudited)

Summarized quarterly financial information for fiscal 2013 and 2012 is presented in the tables below.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders

Ross Stores, Inc.

Dublin, California

We have audited the accompanying consolidated balance sheets of Ross Stores, Inc., and subsidiaries (the “Company”) as of February 1, 2014 and February 2, 2013, and the related consolidated statements of earnings, comprehensive income, stockholders’ equity, and cash flows for each of the three years in the period ended February 1, 2014. We also have audited the Company’s internal control over financial reporting as of February 1, 2014, based on criteria established in *Internal Control — Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company’s management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying “Management’s Annual Report on Internal Control over Financial Reporting”. Our responsibility is to express an opinion on these financial statements and an opinion on the Company’s internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company’s internal control over financial reporting is a process designed by, or under the supervision of, the company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the company’s board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of February 1, 2014 and February 2, 2013, and the results of their operations and their cash flows for each of the three years in the period ended February 1, 2014, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 1, 2014, based on the criteria established in *Internal Control — Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our “disclosure controls and procedures,” (as defined in Exchange Act Rule 13a-15(e)), as of the end of the period covered by this report. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at that reasonable assurance level as of the end of the period covered by this report.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events.

Management’s Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) as set forth in *Internal Control — Integrated Framework (1992)*. Based on our evaluation under the framework in *Internal Control — Integrated Framework (1992)*, our management concluded that our internal control over financial reporting was effective as of February 1, 2014.

Our internal control over financial reporting as of February 1, 2014 has also been audited by Deloitte & Touche LLP, an independent registered public accounting firm, and their opinion as to the effectiveness of our internal control over financial reporting is stated in their report, dated April 1, 2014, which is included in Item 8 in this Annual Report on Form 10-K.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Quarterly Evaluation of Changes in Internal Control Over Financial Reporting

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, also conducted an evaluation of our internal control over financial reporting to determine whether any change occurred during the fourth fiscal quarter of 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, our management concluded that there was no such change during the fourth fiscal quarter.

Ross Stores, Inc.
Certification of Chief Executive Officer
Pursuant to Sarbanes-Oxley Act Section 302(a)

I, Michael Balmuth, certify that:

1. I have reviewed this annual report on Form 10-K of Ross Stores, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
