

BSD MEDICAL

Shareholder's Meeting 2008

Building a New World Market

BSD MEDICAL CORPORATION
2188 West 2200 South, Salt Lake City, Utah 84119

**NOTICE OF ANNUAL MEETING OF STOCKHOLDERS OF
BSD MEDICAL CORPORATION**

February 1, 2008

TO THE STOCKHOLDERS OF BSD MEDICAL CORPORATION:

The annual meeting of the stockholders (the "Annual Meeting") of BSD Medical Corporation (the "Company") will be held on February 1, 2008, at The Grand America Hotel located at 555 South Main Street, Salt Lake City, Utah 84111. The Annual Meeting will convene at 9:00 a.m. Mountain Time, to consider and take action on the following proposals, which are more fully described in the Proxy Statement:

1. to elect six members to the Board of Directors to serve until the next annual meeting or until their successors are duly elected and qualified;
2. to approve an amendment and restatement of the Company's Amended and Restated 1998 Directors Stock Plan to increase the number of shares of common stock reserved for issuance under the plan from 1,000,000 to 1,500,000;
- (3-5) to approve an amendment and restatement of the Company's Amended and Restated 1998 Stock Incentive Plan to:
 3. increase the number of shares of common stock reserved for issuance under the plan from 2,677,300 to 3,427,300;
 4. increase the number of shares that may be awarded to each participant; and
 5. extend the termination date of the plan from February 9, 2008 to ten years from the date the plan is adopted by the Board of Directors, or the date the plan is approved by the shareholders, whichever is earlier, subject to earlier termination by the Board of Directors;
6. to ratify the selection of Tanner LC as the Company's independent registered public accountants for the fiscal year ending August 31, 2008; and
7. to transact such other business as may properly come before the Annual Meeting or any adjournment or postponement thereof.

Only owners of record of the Company's issued and outstanding common stock as of the close of business on December 5, 2007 (the "Record Date") will be entitled to notice of and to vote at the Annual Meeting. Each share of common stock is entitled to one vote.

The Company's Proxy Statement is attached hereto. Financial and other information concerning the Company is contained in the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007, which accompanies this Proxy Statement.

THE ATTENDANCE AT AND/OR VOTE OF EACH STOCKHOLDER AT THE ANNUAL MEETING IS IMPORTANT, AND EACH STOCKHOLDER IS ENCOURAGED TO ATTEND. TO ASSURE THAT YOUR VOTE IS COUNTED, PLEASE COMPLETE, SIGN, DATE AND PROMPTLY MAIL THE ENCLOSED PROXY WHETHER OR NOT YOU PLAN TO ATTEND THE ANNUAL MEETING.

BSD MEDICAL CORPORATION
BY ORDER OF THE BOARD OF DIRECTORS

Salt Lake City, Utah, December 31, 2007

Dennis E. Bradley, Secretary

BSD MEDICAL CORPORATION
2188 West 2200 South, Salt Lake City, Utah 84119

PROXY STATEMENT

BSD MEDICAL CORPORATION

**ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON FEBRUARY 1, 2008**

This Proxy Statement is furnished in connection with the solicitation of proxies by and on behalf of the Board of Directors (the "Board of Directors" or the "Board") of BSD Medical Corporation, a Delaware corporation (the "Company" or "BSD"), for use at the annual meeting of the stockholders (the "Annual Meeting") to be held February 1, 2008 at the Grand America Hotel located at 555 South Main Street, Salt Lake City, Utah 84111, at 9:00 a.m., Mountain Time.

**THIS PROXY STATEMENT, THE NOTICE OF ANNUAL MEETING OF STOCKHOLDERS
AND FORM OF PROXY ARE FIRST BEING MAILED TO THE COMPANY'S STOCKHOLDERS ON
OR ABOUT DECEMBER 31, 2007.**

At the Annual Meeting, the stockholders of the Company will be asked to vote on six proposals. Proposal 1 is the annual election of six directors to serve on the Company's Board of Directors. Proposal 2 is an amendment and restatement of the Company's Amended and Restated 1998 Directors Stock Plan to increase the number of shares of common stock reserved for issuance under the plan from 1,000,000 to 1,500,000. Proposals 3, 4 and 5 relate to an amendment and restatement of the Company's Amended and Restated 1998 Stock Incentive Plan to increase the number of shares of common stock reserved for issuance under the plan from 2,677,300 to 3,427,300, to increase the number of shares that may be awarded to each participant and to extend the termination date of the plan from February 9, 2008 to ten years from the date the plan is adopted by the Board of Directors, or the date the plan is approved by the shareholders, whichever is earlier, subject to earlier termination by the Board of Directors. Proposal 6 is the ratification of the selection of Tanner LC as the Company's independent registered public accountants for the fiscal year ending August 31, 2008.

A proxy for use at the Annual Meeting is enclosed. Any stockholder who executes and delivers such proxy by mailing a proxy card, or by voting via the internet or telephone has the right to revoke it any time before it is exercised by delivering to the Secretary of the Company an instrument revoking it or a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. Subject to revocation, the proxy holders will vote all shares represented by a properly executed proxy received in time for the Annual Meeting in accordance with the instructions on the proxy. If no instruction is specified with respect to a matter to be acted upon, the shares represented by the proxy will be voted **FOR** the proposal in accordance with the recommendation of the Board of Directors.

The expenses of preparing, assembling, printing and mailing this Proxy Statement and the materials used in the solicitation of proxies will be borne by the Company. Proxies will be solicited through the mail and may be solicited by the Company's officers, directors and employees in person or by telephone. They will not receive additional compensation for this effort. The Company does not anticipate paying any compensation to any other party for the solicitation of proxies, but may reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to beneficial owners.

RECORD DATE AND QUORUM REQUIREMENTS

December 5, 2007 has been fixed as the record date (the "Record Date") for the determination of stockholders entitled to notice of and to vote at the Annual Meeting. As of the Record Date, 21,288,333 shares of

the Company's common stock were issued and outstanding. Each outstanding share of common stock will be entitled to one vote on each matter submitted to a vote of the stockholders at the Annual Meeting.

The holders of one-third of the shares of the common stock outstanding on the Record Date, present in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting and at any adjournment or postponement thereof. Any abstentions and broker non-votes will be deemed as present for purposes of determining a quorum at the Annual Meeting. The six individuals receiving the most votes will be elected to serve as directors of the Company. Abstentions and broker non-votes will not have the effect of being counted as voted in favor of or against the election of directors. All proposals, except for the election of directors, must be approved by a majority of the votes present in person or represented by proxy at the Annual Meeting, at which a quorum is present. Abstentions will have the effect of being counted as voted against any of these proposals. Broker non-votes will not have the effect of being counted as voted in favor of or against any of these proposals.

MAIL VOTING PROCEDURES

To vote by mail, a stockholder should complete, sign and date their proxy card and mail it in the pre-addressed postage-paid envelope that accompanies the delivery of the proxy card. A proxy card submitted by mail must be received by the time of the Annual Meeting in order for the shares to be voted.

TELEPHONE VOTING PROCEDURES

The telephone authorization procedure is designed to authenticate a stockholder's identity to allow stockholders to vote their shares and confirm that their instructions have been properly recorded. Specific instructions to be followed are set forth on the enclosed proxy card. Telephone voting facilities for stockholders of record are available 24 hours a day and will close at 11:59 p.m. Eastern Time on January 31, 2008.

INTERNET VOTING PROCEDURES

The internet authorization procedure is designed to authenticate a stockholder's identity to allow stockholders to vote their shares and confirm that their instructions have been properly recorded. Specific instructions to be followed are set forth on the enclosed proxy card. Internet voting facilities for stockholders of record are available 24 hours a day and will close at 11:59 p.m. Eastern Time on January 31, 2008.

PROPOSAL 1: ELECTION OF DIRECTORS

At the Annual Meeting, six directors are to be elected to serve until the next annual meeting of stockholders or until a successor for such director is elected and qualified, or until the death, resignation, or removal of such director. It is intended that the proxies will be voted for the six nominees named below for election to the Company's Board of Directors unless authority to vote for any such nominee is withheld. Each of the nominees is currently a director of the Company. Each person nominated for election has agreed to serve if elected, and the Board of Directors has no reason to believe that any nominee will be unavailable or will decline to serve. In the event, however, that any nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who is designated by the current Board of Directors to fill the vacancy. Unless otherwise instructed, the proxy holders will vote the proxies received by them **FOR** the nominees named below. The six candidates receiving the highest number of affirmative votes of the shares entitled to vote at the Annual Meeting will be elected as directors of the Company.

DIRECTORS

The names of the nominees, their ages and their respective business backgrounds are set forth below as of August 31, 2007.

<u>Name</u>	<u>Position(s) With the Company</u>	<u>Age</u>	<u>Director Since</u>
Paul F. Turner, MSEE	Chairman of the Board, Senior Vice President and Chief Technology Officer	60	1994
Hyrum A. Mead, MBA	President and Director	60	1999
Gerhard W. Sennewald, Ph.D.	Director	71	1994
Michael Nobel, Ph.D.	Independent Director	67	1998
Douglas P. Boyd, Ph.D.	Independent Director	65	2005
Steven G. Stewart, CPA	Independent Director and Financial Expert	59	2006

NOMINEES FOR ELECTION TO THE BOARD OF DIRECTORS

Paul F. Turner, MSEE, has served as a director of BSD since 1994 and currently serves as Chairman of the Board of Directors. Mr. Turner also has served as the Senior Vice President and Chief Technology Officer of BSD since August 1999. From October 1995 to August 1999, Mr. Turner served as the Acting President of BSD. From 1986 to October 1995, Mr. Turner served in various capacities with BSD, including Staff Scientist, Senior Scientist, Vice President of Research, and Senior Vice President of Research. Mr. Turner has led the design of microwave treatment systems for tumors, including the development of external phased array antenna technology to focus radiated microwave energy deep into the central area of the body to treat deep tumors. He has also integrated this technology with magnetic resonance imaging to non-invasively monitor treatments within the patient's body.

Hyrum A. Mead, MBA, has served as President and a director of BSD since August 1999. Previously, he served five years as Vice President of Business Development at ZERO Enclosures, a manufacturer in the telecommunications, computer and aerospace enclosures industry and seven years as President of Electro Controls, a manufacturer of computer controlled power systems. Mr. Mead began his career in marketing with IBM where he was involved with the introduction of many new products.

Gerhard W. Sennewald, Ph.D., has served as a director of BSD since 1994. From April 1985 to the present, Dr. Sennewald has served as the President and Chief Executive Officer of Medizin-Technik GmbH, of Munich, Germany, a firm which is engaged in the business of distributing hyperthermia equipment and diagnostic imaging equipment and services. In connection with his service to Medizin-Technik GmbH, Dr. Sennewald has been BSD's key European representative and distributor for 17 years and has been instrumental in obtaining the majority of BSD's foreign sales. He also serves on the Board of Directors of TherMatrx, Inc.

Michael Nobel, Ph.D., has served as a director of BSD since January 1998. From 1991 to the present, Dr. Nobel has served as the Executive Chairman of the MRAB Group, a privately-held company that provides diagnostic imaging services. From 1995 to the present, Dr. Nobel has served as the Chairman of the Board of the Nobel Family Society. From 1995 to the present, he also has served as Chairman of the American Non-Violence Project Inc., and has served as a consultant to Unesco in Paris and the United Nations Social Affairs Division in Geneva. Dr. Nobel participated in the introduction of magnetic resonance imaging as European Vice President for Fonar Corp.

Douglas P. Boyd, Ph.D., has served as a director of BSD since 2005. He currently serves as CEO of TeleSecurity Sciences, Inc., and on the Board of Directors of Techniscan Medical Systems, Inc. He is internationally known as an expert in radiology and computed tomography ("CT") imaging systems, and has pioneered the development of fan-beam CT scanners, Xenon detector arrays and EBT scanners. Dr. Boyd has been awarded 13 U.S. patents. As a former professor of radiology at the University of California, San Francisco, he has published more than 100 scientific papers and is a frequent speaker at universities and symposia.

Steven G. Stewart, CPA, has served as a director of BSD since 2006. He is currently the Chief Financial Officer for Headwaters, Inc. (a New York Stock Exchange company). Mr. Stewart served as Headwaters' Chief Financial Officer from July 1998 until October 2005 when he became the Treasurer and subsequently the Director of Financial Affairs. He was re-appointed as the Chief Financial Officer of Headwaters on September 4, 2007. Prior to joining Headwaters, Mr. Stewart served as a business assurance partner for PricewaterhouseCoopers LLP

(formerly Coopers & Lybrand LLP), and as an audit partner with Ernst & Young (formerly Arthur Young), including service as the Salt Lake City office Director of High Technology and Entrepreneurial Services.

COMPOSITION OF THE BOARD OF DIRECTORS

The Board of Directors of the Company currently consists of six directors. Directors are elected at each annual meeting of stockholders to serve until the next annual meeting of stockholders or until their successors are duly elected and qualified. There are no family relationships among any of the Company's directors, officers or key employees.

CODE OF ETHICS

We have adopted a Code of Ethics that applies to all directors, officers and employees of BSD. Our Code of Ethics is available on our website (www.bsdlmc.com) on our investor information webpage. We intend to post amendments to or waivers from our Code of Ethics (to the extent applicable to our chief executive officer, principal financial officer or principal accounting officer) on our website.

AFFIRMATIVE DETERMINATIONS REGARDING DIRECTOR INDEPENDENCE

The Board of Directors has determined each of the following directors to be an "independent director" as such term is defined in Section 121A of the Rules of the American Stock Exchange: Michael Nobel, Douglas P. Boyd and Steven G. Stewart.

In this Proxy Statement, these three directors are referred to individually as an "Independent Director" and collectively as the "Independent Directors."

MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS

During fiscal year 2007, the Company's Board of Directors met three times and no director attended fewer than 75% of meetings of the Board or any of the Board committees of which a director was a member. Although the Company does not have a formal policy regarding attendance by directors at the Company's annual meeting, it encourages directors to attend and all directors attended the Company's last annual meeting. The Board will give consideration during the upcoming year to establishing a formal policy so as to maximize attendance by directors, taking into account the directors' schedules and the timing requirements of applicable law.

The Board of Directors has formed an audit committee and a compensation committee. A copy of the charter of our audit committee is available on our website (www.bsdlmc.com) on our investor information webpage.

The Audit Committee. The Audit Committee, which held four meetings during fiscal year 2007, is responsible for reviewing and monitoring the Company's financial statements and internal accounting procedures, recommending the selection of independent auditors by the Board, evaluating the scope of the annual audit, reviewing audit results, consulting with management and the Company's independent auditor prior to presentation of financial statements to stockholders and, as appropriate, initiating inquiries into aspects of the Company's internal accounting controls and financial affairs. The Board of Directors has adopted a written audit committee charter.

The members of the Audit Committee are Messrs., Boyd, Stewart and Nobel. Mr. Stewart is currently serving as the audit committee chairman and financial expert. All members of the Audit Committee are independent directors.

The Nominating Committee. The Company does not have a standing nominating committee or nominating committee charter. Each director participates in decisions relating to making the Company's nominations for directors. The Board of Directors believes that, considering the size of the Company and the Board of Directors, nominating decisions can be easily made on a case-by-case basis and there is no need for the added formality of a nominating committee. Based on criteria established by the American Stock Exchange relating to director independence, Messrs. Stewart, Boyd and Nobel are the Company's only independent directors.

The Board of Directors does not have an express policy with regard to the consideration of any director candidates since the Board believes that it can adequately evaluate nominees on a case-by-case basis. The Board has not previously received any recommendations for director candidates from stockholders, and has not adopted a formal process for considering director candidates who may be recommended by stockholders. However, the Company's policy is to give due consideration to any and all such candidates, and in evaluating director nominees, the Board considers the appropriate size of the Board, the needs of the Company, the skills and experience of its directors, and a candidate's familiarity with the Company's industry. A stockholder may submit a recommendation for director candidates to the Company at its corporate offices, to the attention of Hyrum A. Mead. The Company does not pay fees to any third parties to assist it in identifying potential nominees.

The Compensation Committee. The members of the Compensation Committee are Messrs. Boyd, Stewart and Nobel. Mr. Boyd is currently serving as the Compensation Committee chairman. All members of the Compensation Committee are independent directors. The Company's Compensation Committee does not currently have a charter. The Compensation Committee has responsibility for establishing and monitoring the executive compensation programs of the Company and for making decisions regarding the compensation of the Company's Named Executive Officers. The agenda for meetings of the Compensation Committee is determined by the Chairman of the Compensation Committee. The Compensation Committee sets the compensation package of the Named Executive Officers and their annual bonus.

DIRECTOR COMPENSATION

During fiscal 2006 we revised our 1998 Director Stock Plan to provide an annual retainer in the amount of \$30,000 to each non-employee director other than the Chair of the Audit Committee, who is to receive \$35,000. Of the Annual Retainer, \$15,000 is to be paid in cash to each such director, other than the Chairman of the Audit Committee, who is to receive \$20,000 in cash. The balance of the Annual Retainer is to be paid in the form of restricted shares of our common stock to each non-employee director. The restricted stock has a vesting period of six months. The retainer is payable in equal installments on March 1 and September 1 of each year in which each non-employee director continues to serve as a member of the Board. The portion of the annual retainer that is paid in restricted stock will be determined by reference to the fair market value of the Company's common stock, par value \$0.01 per share (the "Common Stock"). The fair market value of the Common Stock will be determined by reference to the average closing prices, as reported by the American Stock Exchange, of the Common Stock for the twenty days preceding the payment dates, or the average of the prices quoted by the market makers in the Company's Common Stock on the payment dates, or by the Board. In addition, each non-employee director will receive an annual stock option to purchase 30,000 shares of our Common Stock. The options vest ratably over five years and expire in 10 years.

On September 1, 2006, our non-employee directors were issued a stock option grant for 30,000 shares with an exercise price of \$4.77 per share for their services for fiscal 2007. In addition, for fiscal 2007, each of these directors was paid \$15,000 cash and 2,572 shares of restricted stock, other than the Audit Committee Chairman, who received \$20,000 cash and 2,572 shares of restricted stock.

DIRECTOR COMPENSATION TABLE

The table below summarizes the compensation paid by the Company to, or earned by, our non-employee directors for the year ended August 31, 2007.

Name (1)	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)(2)	Option Awards (\$) (3)	Total (\$)
(a)	(b)	(c)	(d)	(e)
Douglas P. Boyd	15,000	15,000	17,173	47,173
Michael Nobel	15,000	15,000	17,173	47,173
Gerhard W. Sennewald	15,000	15,000	17,173	47,173
Steven G. Stewart	20,000	15,000	17,172	52,172

- (1) Paul F. Turner and Hyrum A. Mead served as directors of the Company in fiscal year 2007, but are omitted from the Director Compensation Table because of their status as a Named Executive Officer. No additional remuneration was paid to Messrs. Turner and Mead for their services as directors.
- (2) The amounts shown in column (c) reflect the value of the shares of Common Stock issued to the non-employee directors. Each of these directors was issued 2,572 shares of Common Stock for services as a director during fiscal year 2007.
- (3) The amounts shown in column (d) reflect the dollar amount recognized for financial statement reporting purposes with respect to non-employee director stock options for the year ended August 31, 2007 in accordance with SFAS 123(R). The grant date value under SFAS 123(R) of stock options awarded to each of the non-employee directors in 2007 was \$86,100 (based on the grant of an option for 30,000 shares with a per share Black-Sholes value of \$2.87 per share). Assumptions used in the calculation of these amounts are included in footnotes to the Company's audited financial statements for the year ended August 31, 2007, included in our Annual Report on Form 10-K. As of the end of fiscal year 2007, each non-employee director had outstanding options for the following number of Company shares: Douglas P. Boyd, 55,000 shares; Michael Nobel, 105,000 shares; Gerhard W. Sennewald, 80,000 shares; and Steven G. Stewart, 46,368 shares.

COMMUNICATIONS WITH DIRECTORS

The Company has not adopted a formal process for stockholder communications with the Board. Nevertheless, the Company has tried to ensure that the views of stockholders are heard by the Board or individual directors, as applicable, and that appropriate responses are provided to stockholders in a timely manner. The Company believes its responsiveness to stockholder communications to the Board has been good. A stockholder may submit any communication with directors to the Company at its corporate offices, to the attention of Hyrum A. Mead.

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS OF THE COMPANY VOTE **FOR** THE ELECTION OF ALL THE DIRECTOR NOMINEES LISTED ABOVE.

PROPOSAL 2: AMENDMENT AND RESTATEMENT OF THE AMENDED AND RESTATED 1998 DIRECTOR STOCK PLAN TO INCREASE THE NUMBER OF SHARES FROM 1,000,000 TO 1,500,000.

At the Annual Meeting, our stockholders will be asked to approve an amendment and restatement to the Amended and Restated 1998 Director Stock Plan (the “Director Stock Plan”) in order to increase the number of shares of Common Stock reserved for issuance under the Director Stock Plan from 1,000,000 to 1,500,000 shares.

The affirmative vote of the holders of a majority of the shares of Common Stock present, in person or by proxy, and entitled to vote at the Annual Meeting is required to amend and restate the Director Stock Plan. If the amendment and restatement of the Director Stock Plan is not so approved, it will not become effective.

The four directors who are not employees of the Company (the “Non-Employee Directors”) have an interest in the amendment and restatement of the Director Stock Plan because they are eligible for awards under the Director Stock Plan.

Introduction to Director Stock Plan

In September 1997, the Board adopted, subject to approval by the Company’s stockholders, the Director Stock Plan, reserving 1,000,000 shares of Common Stock for issuance under the Director Stock Plan. On January 11, 2006, the Board amended and restated, with the approval of the Company’s stockholders on February 13, 2006, the Director Stock Plan to extend the termination date for the Director Stock Plan to August 31, 2011. The Board believes that the availability of stock options and other incentives is an important factor in the Company’s ability to attract and retain qualified directors and to provide incentives for them to exert their best efforts on behalf of the Company. The affirmative vote of the holders of a majority of the shares of Common Stock present, in person or by proxy, and entitled to vote at the meeting is required to amend and restate the Director Stock Plan. If the amendment and restatement of the Director Stock Plan is not so approved it will not become effective.

As of November 30, 2007, options to purchase 406,368 shares of Common Stock were outstanding under the Director Stock Plan and no shares were available for issuance under the Director Stock Plan. The outstanding options had a weighted average exercise price of \$4.15.

Certain provisions of the Director Stock Plan are summarized below. The complete text of the proposed amendment and restatement of the Director Stock Plan is attached to this Proxy Statement as Appendix A and the following summary is qualified in its entirety by express reference to the complete text of the proposed amendment and restatement of the Director Stock Plan.

Summary of Amendment and Restatement of the Director Stock Plan

The Board believes that the remaining number of shares of Common Stock is not sufficient for future granting needs under the Director Stock Plan. Accordingly, the proposed amendment and restatement of the Director Stock Plan increases the number of shares of Common Stock authorized for issuance under the Director Stock Plan from 1,000,000 shares to 1,500,000 shares. The Board believes that these additional shares would result in an adequate number of shares of Common Stock being available for grant under the Director Stock Plan.

Summary of Other Principal Provisions of the Director Stock Plan

The purpose of the Director Stock Plan is to provide for a method of compensation for the Non-Employee Directors that will strengthen the alignment of their financial interests with those of the Company’s stockholders. The following is a summary of the principal provisions of the proposed amendment and restatement of the Director Stock Plan, a copy of which is attached to this Proxy Statement as Appendix A, and the effect of the proposed amendment and restatement. This summary is qualified in its entirety by express reference to the complete text of the proposed amendment and restatement of the Director Stock Plan.

The Director Stock Plan provides each Non-Employee Director with an annual retainer (the “Annual Retainer”) of \$30,000 for Non-Employee Directors, other than the Chair of the Audit Committee, who receives \$35,000. Of the Annual Retainer, a cash payment of \$15,000 is made in arrears to each Non-Employee Director, other than the Chair of the Audit Committee, who receives a cash payment of \$20,000, payable in equal installments on March 1 and September 1 of each year in which each Non-Employee Director continues to serve as a member of the Board.

The portion of the Annual Retainer not paid in cash is paid in the form of Common Stock (the “Common Stock Payments”). The total number of shares of Common Stock included in each Common Stock Payment will be determined by dividing the amount of the Annual Retainer that is to be paid in Common Stock by the fair market value of a share of Common Stock (with any resulting fractional shares to be paid in cash). The fair market value of the Common Stock will be determined by reference to the average closing prices, as reported by the American Stock Exchange, of the Common Stock for the twenty days preceding the payment dates, or the average of the prices quoted by the market makers in the Company’s Common Stock on the payment dates, or by the Board. The Common Stock Payments will be made on March 1 and September 1 of each year.

The Director Stock Plan currently provides and, if the amendment and restatement of the Director Stock Plan is approved, will continue to provide, each Non-Employee Director with an annual Option to acquire shares of Common Stock on September 1st of each year. The total number of shares of Common Stock included in the annual Option granted to each Non-Employee Director is 30,000. Each Option will vest in five equal and annual installments, and will expire ten years from the date of grant. The portion of each Non-Employee Director’s Option which has vested may be exercised at the fair market value of the Common Stock at the date the Option is granted, as calculated with respect to the Annual Retainer. The exercise price may be paid in cash, or by exchange of the vested and exercised portion of the Option for the number of shares of Common Stock equal in value to the difference in the fair market value of one share of Common Stock as of the date the Option is exercised and the fair market value of one share of Common Stock on the date the Option is granted, multiplied by the number of shares of Common Stock for which the Option is being exercised.

Annual grants under the Director Stock Plan may be made out of the authorized but unissued shares of Common Stock or by transfer of shares of Common Stock previously reacquired by the Company. The number of shares issuable in connection with any annual grant and the aggregate number of shares remaining available for issuance under the Director Stock Plan will be proportionately adjusted to reflect any subdivision or combination of outstanding shares of Common Stock. The aggregate number of shares of Common Stock which may be granted during the term of the Director Stock Plan is currently 1,000,000. Approval of the amendment to the Director Stock Plan would increase the aggregate number of shares of Common Stock which may be granted during the term of the Director Stock Plan to 1,500,000. Going forward, each Non-Employee Director will continue to receive such annual grants and payments as long as the director has the status of Non-Employee Director. If a Non-Employee Director no longer serves as a director of the Company for any reason, that director will be entitled to all unpaid portions of his or her Annual Retainer which will have accrued on a daily basis through the date of such termination.

The Board may from time to time amend, modify, or suspend the Director Stock Plan for the purpose of meeting or addressing any changes in legal requirements or for any other purpose permitted by law except that (i) no amendment or alteration shall be effective prior to approval by the Company’s stockholders to the extent such approval is then required by applicable legal requirements and (ii) the Director Stock Plan shall not be amended more than once every six months to the extent such limitation is required by Rule 16b-3 (or any successor provision) under the Securities Exchange Act of 1934, as then in effect.

Certain Federal Income Tax Consequences

The following is a summary of the principal U.S. federal income tax consequences generally applicable to awards under the Director Stock Plan.

Annual Retainer. A director must recognize ordinary income upon receipt of cash pursuant to the Annual Retainer, and the Company will be entitled to a deduction for the same amount if and to the extent that the amount satisfies applicable rules concerning deductibility of compensation. A director must also recognize ordinary income equal to the fair market value of the shares of Common Stock received (determined as of the date the shares are

released from escrow) pursuant to the Annual Retainer, and the Company will be entitled to a deduction for the same amount at the same time, subject to applicable rules regarding the deductibility of compensation.

Options. The grant of an option should not result in any taxable income for a director. If a special election is made pursuant to Section 83(b) of the Internal Revenue Code upon exercise of an option, a director will recognize ordinary income equal to the excess of the fair market value of the shares of Common Stock acquired on the date of exercise over the exercise price, and the Company will be entitled at that time to a tax deduction for the same amount. For individuals subject to Section 16(b) of the Securities Exchange Act of 1934, if the special election under Section 83(b) of the Internal Revenue Code is not made, shares of Common Stock received pursuant to the exercise of an option may be treated as restricted as to transferability and subject to a substantial risk of forfeiture for a period of up to six months after the date of exercise. Accordingly, the amount of any ordinary income recognized, and the amount of the Company's tax deduction, may be determined as of the end of such period. The tax consequence to a director upon a disposition of shares of Common Stock acquired through the exercise of an option will depend on how long the shares have been held. Except in the case of incentive stock options ("ISOs"), generally there will be no tax consequences to the Company in connection with the disposition of shares acquired pursuant to an option.

NEW PLAN BENEFITS

No benefits under the Director Stock Plan have been or will be available to any Named Executive Officers, executive officers, or employees. Under the Director Stock Plan, each Non-Employee Director who continues to serve on the Board will automatically receive an annual grant of an option to acquire 30,000 shares of the Company's Common Stock. Each such option will vest in five equal and annual installments, and will expire ten years from the date of grant. In addition, Non-Employee Directors will receive \$15,000, except for the Audit Committee Chairman who will receive \$20,000, and an amount of Common Stock determined by dividing \$15,000 by the fair market value of a share of Common Stock, as described in the Director Stock Plan. Assuming a fair market value of \$5.50 per share, the closing price of our Common Stock on November 30, 2007 as reported by the American Stock Exchange, this annual grant would amount to 2,727.27 shares per director. These grants are contingent upon the election of Non-Employee Directors at the Annual Meeting and will occur at a future date.

BSD Medical Corporation Amended and Restated 1998 Director Stock Plan

	Dollar Value (\$)(1)	Number of Units	
Hyrum A. Mead	-	-	
Dennis P. Gauger	-	-	
Paul F. Turner	-	-	
Executive Group	-	-	
Non-Executive Director Group	(1) 60,000 65,000	120,000 10,909.09 (2)	(Option) (Restricted Stock)
Non-Executive Officer Employee Group	-	-0-	(Cash)

(1) We are unable to determine the dollar value of the options to purchase 30,000 shares that are granted annually to each non-employee director under the Amended and Restated 1998 Director Stock Plan.

(2) Any payment for a fractional share automatically shall be paid in cash based upon the fair market value on the date of the respective award of such fractional share.

VALUATION OF OUR COMMON STOCK

On November 30, 2007, the closing price of the Company's Common Stock, as reported on the American Stock Exchange, was \$5.50 per share.

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS OF THE COMPANY VOTE **FOR** THE AMENDMENT AND RESTATEMENT OF THE DIRECTOR STOCK PLAN.

(PROPOSALS 3-5) AMENDMENT AND RESTATEMENT OF THE COMPANY'S AMENDED AND RESTATED 1998 STOCK INCENTIVE PLAN TO:

PROPOSAL 3: INCREASE THE NUMBER OF SHARES OF COMMON STOCK RESERVED FOR ISSUANCE UNDER THE PLAN FROM 2,677,300 SHARES TO 3,427,300 SHARES;

PROPOSAL 4: TO INCREASE THE NUMBER OF SHARES THAT MAY BE AWARDED TO EACH PARTICIPANT; AND

PROPOSAL 5: TO EXTEND THE TERMINATION DATE OF THE PLAN FROM FEBRUARY 9, 2008 TO TEN YEARS FROM THE DATE THE PLAN IS ADOPTED BY THE BOARD OF DIRECTORS, OR THE DATE THE PLAN IS APPROVED BY THE SHAREHOLDERS, WHICHEVER IS EARLIER, SUBJECT TO EARLIER TERMINATION BY THE BOARD OF DIRECTORS.

At the Annual Meeting, our stockholders will be asked to approve an amendment and restatement of the Company's Amended and Restated 1998 Stock Incentive Plan (the "Incentive Plan") to increase the number of shares of Common Stock reserved for issuance under the Incentive Plan from 2,677,300 shares to 3,427,300 shares, to increase the number of shares that may be awarded to each participant and to extend the termination date of the Incentive Plan from February 9, 2008 to ten years from the date the plan is adopted by the Board of Directors, or the date the plan is approved by the shareholders, whichever is earlier, subject to earlier termination by the Board of Directors.

The affirmative vote of the holders of a majority of the shares of Common Stock present, in person or by proxy, and entitled to vote at the Annual Meeting is required to amend and restate the Incentive Plan. If the amendment and restatement of the Incentive Plan is not so approved, it will not become effective.

The Company's directors and executive officers have an interest in the amendment and restatement of the Incentive Plan because they are eligible for awards under the Incentive Plan.

Introduction to Incentive Plan

In December 1997, the Board adopted, subject to approval by the Company's stockholders, the Incentive Plan, reserving 2,000,000 shares of Common Stock for issuance under the Incentive Plan and providing that the Incentive Plan would terminate on February 9, 2008. On July 29, 2004, the Board amended and restated, subject to approval by the Company's stockholders, the Incentive Plan to reserve 2,677,300 shares of Common Stock for issuance under the Incentive Plan. The Board believes that the availability of stock options and other incentives is an important factor in the Company's ability to attract and retain qualified employees and to provide incentives for them to exert their best efforts on behalf of the Company. The affirmative vote of the holders of a majority of the shares of Common Stock present, in person or by proxy, and entitled to vote at the meeting is required to amend the Incentive Plan. If the amendment to the Incentive Plan is not so approved it will not become effective.

As of November 30, 2007, options to purchase 1,509,485 shares of Common Stock were outstanding under the Incentive Plan and 549,732 were available for issuance under the Incentive Plan. The outstanding options had a weighted average exercise price of \$2.15.

Certain provisions of the Incentive Plan are summarized below. The complete text of the Incentive Plan is attached to this Proxy Statement as Appendix B and the following summary is qualified in its entirety by express reference to the complete text of the Incentive Plan.

Summary of Amendment and Restatement of the Incentive Plan

The Board believes that the remaining number of shares of Common Stock is not sufficient for future granting needs under the Incentive Plan. Accordingly, the proposed amendment and restatement of the Incentive

Plan increases the number of shares of Common Stock authorized for issuance under the Incentive Plan from 2,677,300 to 3,427,300 shares. The Board believes that these additional shares would result in an adequate number of shares of Common Stock being available for grant under the Incentive Plan.

The Board believes that certain limitations on the size of awards that may be granted to an individual under the Incentive Plan currently allow for awards that may be inadequate to attract and retain qualified employees and to provide incentives for them to exert their best efforts on behalf of the Company. Accordingly, the proposed amendment and restatement of the Incentive Plan raises these limits to a level the Board believes is appropriate. Pursuant to the proposed amendment and restatement of the Incentive Plan, no one participant in the Amended and Restated Incentive Plan may be granted (i) options or stock appreciation rights during any consecutive three-year period with respect to more than 1,000,000 shares, (ii) more than 1,000,000 Shares (as defined in the Second Amended and Restated Incentive Plan), or (iii) Performance-based Awards (as defined in the Second Amended and Restated Incentive Plan) in any period that are intended to comply with the performance-based exception under Section 162(m) of the Internal Revenue Code and are denominated in shares with respect to more than 1,000,000 shares or are denominated in dollars in excess of \$5,000,000.

The Incentive Plan is set to terminate as of February 9, 2008. The amendment and restatement extends the termination date to ten years from the date the plan is adopted by the Board of Directors, or the date the plan is approved by the shareholders, whichever is earlier, subject to earlier termination by the Board of Directors. The Board believes that the availability of stock options and other incentives is an important factor in the Company's ability to attract and retain qualified employees and to provide incentives for them to exert their best efforts on behalf of the Company. The Board believes this extension would allow the Company to continue this incentive program.

Summary of Other Principal Provisions of the Incentive Plan

All employees, officers and directors of the Company and its subsidiaries are eligible to participate in the Incentive Plan. Also eligible are non-employee agents, consultants, advisors and independent contractors of the Company or any subsidiary. The Company has approximately 46 employees, officers and directors eligible to participate in the Incentive Plan.

The Incentive Plan is administered by the Board, which designates from time to time the individuals to whom awards are made under the Incentive Plan, the amount of any such award and the price and other terms and conditions of any such award. The Board may delegate any or all authority for administration of the Incentive Plan to a committee of the Board. Subject to the provisions of the Incentive Plan, the Board, or a committee, if any, may adopt and amend rules and regulations relating to the administration of the Incentive Plan. Only the Board may amend, modify or terminate the Incentive Plan.

Types of Awards

The Incentive Plan permits the grants of incentive stock options, nonstatutory stock options, stock awards, stock appreciation rights, cash bonus rights, dividend equivalent rights, performance-based awards and foreign qualified grants. The total number of shares of Common Stock reserved for issuance under the Incentive Plan is currently 2,677,300. Shares awarded under the Incentive Plan may be authorized and unissued shares or shares acquired in the market. If any award granted under the Incentive Plan expires, terminates or is cancelled, or if shares sold or awarded under the Incentive Plan are forfeited to the Company or repurchased by the Company, the shares again become available for issuance under the Incentive Plan.

The Board determines the persons to whom options are granted, the option price, the number of shares to be covered by each option, the period of each option, the times at which options may be exercised and whether the option is an incentive stock option ("ISO"), as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), or a non-statutory stock option ("NSO"). Currently, no employee may be granted options or stock appreciation rights under the Incentive Plan for more than an aggregate of 400,000 shares in any consecutive three-year period and under the proposed amendment and restatement of the Incentive Plan may not exceed 1,000,000 shares in such period. No monetary consideration is paid to the Company upon the granting of options.

Options are exercisable in accordance with the terms of an option agreement entered into at the time of grant. If the option is an ISO, all terms must be consistent with the requirements of the Code and applicable regulations, including that the option price cannot be less than the fair market value of the shares of Common Stock on the date of the grant. If the option is an NSO, the option price may be any price determined by the Board, which may be less than the fair market value of the shares of Common Stock on the date of grant. Upon the exercise of an option, the number of shares subject to the option is reduced by the number of shares with respect to which the option is exercised, and the number of shares available under the Incentive Plan for future option grants are reduced by the number of shares with respect to which the option is exercised, less the number of shares surrendered or withheld in connection with the exercise of the option and the number of shares surrendered or withheld to satisfy withholding obligations.

The Board may award shares of Common Stock under the Incentive Plan as stock bonuses, restricted stock awards or otherwise. The Board determines the persons to receive awards, the number of shares to be awarded and the time of the award. Shares received as a stock bonus are subject to the terms, conditions and restrictions determined by the Board at the time the bonus is awarded. The aggregate number of shares that may be awarded to any one person pursuant to stock awards under the Incentive Plan currently may not exceed 100,000 shares and under the proposed amendment and restatement of the Incentive Plan may not exceed 1,000,000 shares. No stock awards have been granted under the Incentive Plan.

The Incentive Plan provides that the Company may issue shares under the Incentive Plan subject to a purchase agreement between the Company and the prospective recipient in such amounts, for such consideration, subject to such restrictions and on such terms as the Board may determine.

Stock appreciation rights (“SARs”) may be granted under the Incentive Plan. SARs may, but need not, be granted in connection with an option grant or an outstanding option previously granted under the Incentive Plan. A SAR gives the holder the right to payment from the Company of an amount equal in value to the excess of the fair market value on the date of exercise of a share of Common Stock over its fair market value on the date of grant or, if granted in connection with an option, the option price per share under the option to which the SAR relates.

A SAR is exercisable only at the time or times established by the Board. If a SAR is granted in connection with an option, it is exercisable only to the extent and on the same conditions that the related option is exercisable.

Payment by the Company upon exercise of a SAR may be made in shares of Common Stock valued at its fair market value, in cash, or partly in stock and partly in cash, as determined by the Board. The Board may withdraw any SAR granted under the Incentive Plan at any time and may impose any condition upon the exercise of a SAR or adopt rules and regulations from time to time affecting the rights of holders of SARs. No SARs have been granted under the Incentive Plan.

The Board may grant cash bonus rights under the Incentive Plan in connection with (i) options granted or previously granted, (ii) SARs granted or previously granted, (iii) stock awarded or previously awarded, and (iv) shares sold or previously sold under the Incentive Plan. Bonus rights may be used to provide cash to employees for the payment of taxes in connection with awards under the Incentive Plan. No cash bonus rights have been granted under the Incentive Plan.

The Board may grant awards intended to qualify as performance-based compensation under Section 162(m) of the Code and the regulations thereunder (“Performance-based Awards”). Performance-based Awards may be denominated either in shares of Common Stock or in dollar amounts. All or part of the awards will be earned if performance goals established by the Board for the period covered by the awards are met and the employee satisfies any other restrictions established by the Board. The performance goals will be expressed as one or more targeted levels of performance with respect to the Company or any subsidiary, division or other unit of the Company: earnings, earnings per share, stock price increase, total stockholder return (stock price increase plus dividends), return on equity, return on assets, return on capital, economic value added, revenues, operating income, cash flows or any of the foregoing. Currently, no participant may receive Performance-based Awards denominated in Common Stock in any fiscal year with respect to which the maximum number of shares issuable under the award, when aggregated with the shares issuable under any awards made in the preceding two fiscal years, exceeds 150,000 shares of Common Stock or Performance-based Awards denominated in dollars under which the maximum amount

of cash payable under awards made in the immediately preceding two fiscal years, exceeds an aggregate of \$300,000. Under the proposed amendment and restatement of the Incentive Plan, these limits are increased to 1,000,000 shares and \$5,000,000, respectively. No Performance-based Awards have been granted under the Incentive Plan.

Awards under the Incentive Plan may be granted to eligible persons residing in foreign jurisdictions. The Board may adopt supplements to the Incentive Plan necessary to comply with the applicable laws of foreign jurisdictions and to afford participants favorable treatment under those laws, but no award may be granted under any supplement with terms that are more beneficial to the participants than the terms permitted by the Incentive Plan. No foreign qualified grants have been awarded under the Incentive Plan.

Changes in Capital Structure

The Incentive Plan provides that if the number of outstanding shares of Common Stock is increased or decreased or changed into or exchanged for a different number or kind of shares or other securities of the Company or of another corporation by reason of any recapitalization, stock split or similar transaction, appropriate adjustment will be made by the Board in the number and kind of shares available for awards under the Incentive Plan. In the event of a merger, consolidation or plan of exchange to which the Company is a party or a sale of all or substantially all of the Company's assets (each a "Transaction"), the Board will, in its sole discretion and to the extent possible under the structure of the Transaction, select one of the following alternatives for treating outstanding options under the Incentive Plan: (i) outstanding options will remain in effect in accordance with their terms, (ii) outstanding options shall be converted into options to purchase stock in the corporation that is the surviving or acquiring corporation in the Transaction, or (iii) the Board will provide a 30-day period prior to the consummation of the Transaction during which outstanding options shall be exercisable to the extent exercisable and upon the expiration of such 30-day period, all unexercised options shall immediately terminate. The Board may, in its sole discretion, accelerate the exercisability of options so that they are exercisable in full during such 30-day period. In the event of the dissolution of the Company, options shall be treated in accordance with clause (iii) above.

Certain Federal Income Tax Consequences

The following is a brief summary of the certain U.S. federal income tax consequences generally applicable to awards under the Incentive Plan.

This summary is for general information purposes only and does not purport to be a complete analysis or listing of all potential U.S. federal income tax consequences that may apply with respect to participation in the Incentive Plan. In addition, this summary does not take into account the individual facts and circumstances of any particular recipient that may affect the U.S. federal income tax consequences of participation in the Incentive Plan. Accordingly, this summary is not intended to be, and should not be construed as, legal or U.S. federal income tax advice with respect to any recipient. Each recipient should consult his or her own financial advisor, legal counsel, or accountant regarding the U.S. federal, U.S. state and local, and foreign tax consequences of participation in the Incentive Plan.

Scope of This Disclosure

Authorities. This summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations, published Internal Revenue Service ("IRS") rulings, published administrative positions of the IRS and U.S. court decisions that are applicable as of the date of this document. Any of the authorities on which this summary is based could be changed in a material and adverse manner at any time, and any such change could be applied on a retroactive basis. This summary does not discuss the potential effects, whether adverse or beneficial, of any proposed legislation that, if enacted, could be applied on a retroactive basis.

Grant and Exercise of Options

Incentive Stock Options

If the options granted under the Plan qualify as “incentive stock options” within the meaning of Section 422 of the Code, the following tax consequences will apply to recipients:

- *Grant.* A recipient will not recognize any taxable income at the time an incentive stock option is granted.
- *Exercise.* Upon the exercise of an incentive stock option, a recipient will not recognize any income for purposes of the regular income tax. However, a recipient may be required to recognize income for purposes of the alternative minimum tax (or “AMT”).

For purposes of the AMT, an incentive stock option will be treated as a non-qualified option. Accordingly, for purposes of the AMT, a recipient must recognize ordinary income in the amount by which the fair market value of the common stock at the time of exercise exceeds the option exercise price. As a result, if a recipient recognizes a substantial amount of AMT income upon exercise of the incentive stock option in relation to a recipient’s taxable income from wages and other sources in the year a recipient exercises the option, a recipient may be subject to the AMT. Furthermore, the fact that a recipient recognizes AMT income at the time a recipient exercise an incentive stock option may not alter the amount of regular income a recipient must recognize at the time a recipient sells or otherwise disposes of the shares acquired upon exercise of the incentive stock option.

A recipient is urged to consult his or her own tax advisor regarding the effect of the AMT and the desirability of selling or otherwise disposing of shares acquired upon exercise of an incentive stock option in the same calendar year in which such recipient acquired the shares to avoid having the AMT apply in the year a recipient exercises the option and the regular tax apply in the year the shares are sold. A recipient is also urged to consult his or her own tax advisor regarding the benefit that may be available from a tax credit for a prior year’s minimum tax liability provided for in Section 53 of the Internal Revenue Code.

- *Tax Deduction for Company.* If a recipient sells or otherwise dispose of shares acquired upon the exercise of an incentive stock option more than two years from the date the option was granted to such recipient and more than one year after he or she exercised the option, then the Company will not be allowed a deduction for federal income tax purposes in connection with the grant or exercise of the option. However, if a recipient sells or otherwise disposes of the shares before the holding period described above is satisfied, then the Company will be allowed a tax deduction at the time and in the amount the recipient recognizes ordinary income, if and to the extent the amount satisfies the general rules concerning deductibility of compensation. Under current law, this income is not subject to income or payroll tax withholding.
- *Tax Basis of the Acquired Shares.* If a recipient pays the exercise price for an incentive stock option in cash, his or her original tax basis in the shares received upon exercise will equal the option exercise price.

If a recipient pays the exercise price for an incentive stock option by tendering other shares of the Company’s common stock already owned by a recipient, and the recipient acquired those tendered shares through any means other than by exercising one or more incentive stock options, he or she will not recognize gain or loss on the tendered shares, but the recipient’s original tax basis for an equal number of shares acquired upon exercise of the option will be the same as his or her adjusted tax basis for the tendered shares. The remaining acquired shares will have an original tax basis equal to the amount of the exercise price paid in cash, if any. If a recipient pays the exercise price solely by tendering other shares of the Company’s stock, then the original tax basis of the remaining acquired shares will be zero.

If a recipient pays the exercise price for an incentive stock option by tendering shares of the Company’s common stock already owned by a recipient, and the recipient acquired those tendered

shares by exercising another incentive stock option, Section 1036 of the Internal Revenue Code generally provides that such recipient will recognize no gain or loss with respect to the tendered shares (except possibly for purposes of the AMT as described above), as long as he or she has held the tendered shares for a period of time ending at least two years after the date the option for the tendered shares was granted and at least one year after acquiring the tendered shares upon exercise of the option.

- *Sale of Shares and Characterization of Capital Gain or Loss.* If a recipient sells or otherwise disposes of shares acquired upon exercise of an incentive stock option at a time more than two years from the date the option was granted to such recipient and more than one year after the recipient exercised the option, and if, as usually is the case, the common stock is a capital asset in such recipient's hands, then the recipient will recognize long-term capital gain or loss in an amount equal to the difference between the sale price of the shares and the exercise price he or she paid for the shares.
- If a recipient sells or otherwise disposes of shares acquired upon exercise of an incentive stock option before the holding period described above is satisfied, then such recipient will recognize ordinary income at the time of the disposition in an amount equal to the lesser of (1) the difference between the exercise price and the fair market value of the shares at the time the option was exercised or (2) the difference between the exercise price and the amount realized upon disposition of the shares, and such recipient will recognize long-term or short-term capital gain or loss (depending on whether he or she has held the shares for more than 12 months or for 12 months or less) in an amount equal to the difference between the sale price of the shares and the fair market value of the shares on the date such recipient exercised the option.

Non-Qualified Stock Options

If the options granted under the Incentive Plan do not qualify as "incentive stock options" within the meaning of Section 422 of the Code, they will be treated as "non-qualified" stock options (an "NQO") with the following tax consequences to recipients:

- *Grant.* A recipient will not recognize any taxable income upon the grant of an NQO.
- *Exercise.* Upon the exercise of an NQO, a recipient will recognize ordinary income in the amount, if any, by which (a) the fair market value of the Common Shares at the time of exercise exceeds (b) the exercise price for the NQO. The Company generally will be required to report this income to the IRS and to withhold income and payroll taxes.
- *Tax Basis in the Common Shares.* If a recipient pays the exercise price for an NQO in cash, the tax basis in the Common Shares received generally will be equal to the sum of (a) such exercise price plus (b) the amount that such U.S. Participant is required to recognize as ordinary income as a result of the exercise of such NQO. A recipient who pays the exercise price for an NQO in property other than cash (including Common Shares) should consult his or her own financial advisor, legal counsel, or accountant regarding his or her tax basis in the Common Shares.
- *Tax Deduction for our Company.* The Company generally will be allowed a deduction at the time and in the amount that such recipient recognizes ordinary income upon exercise of an NQO, subject to the general rules concerning deductibility of compensation and the special rules applicable to foreign corporations.

Stock Appreciation Rights

Grant. At the time a SAR is granted, a recipient will not recognize any taxable income.

Exercise. At the time a recipient exercises a SAR, he/she will recognize ordinary income equal to the cash or fair market value of any shares of common stock received at that time (in the amount that is equal to the excess of the fair market value of a share of the Company's common stock on the date the SAR is exercised over the grant price of the SAR).

Tax Deduction for Ensign. Subject to the general rules concerning deductibility of compensation, the Company will be allowed an income tax deduction in the amount that, and for the Company's taxable year in which a recipient recognizes ordinary income upon the exercise of a SAR.

Tax Basis of the Acquired Shares. A recipient's tax basis in any shares received will equal the fair market value of those shares at the time he or she recognizes ordinary income as a result of exercising the SAR.

Sale of Shares. If, as usually is the case, the shares are a capital asset in a recipient's hands, any additional gain or loss recognized on a subsequent sale or exchange of the shares will not be ordinary income but will qualify as a capital gain or loss.

Characterization of Capital Gain or Loss. Any capital gain or loss a recipient recognizes upon a sale of the shares will be characterized as long-term capital gain or loss if he or she has held the shares for more than 12 months and as short-term capital gain or loss if he or she has held the stock for 12 months or less. For purposes of determining whether a recipient will recognize long-term or short-term capital gain or loss on a subsequent sale of the shares, the holding period will begin at the time a recipient exercises the SAR.

Restricted Stock Awards

Grant and Lapse of Restrictions. Section 83(b) of the Internal Revenue Code allows a recipient to elect, within 30 days after the date a restricted stock award is received, to recognize and be taxed on ordinary income equal to the fair market value of the common stock at that time. If a recipient does not make a Section 83(b) election within 30 days from the date the restricted stock award is received, he or she will recognize ordinary income equal to the fair market value of the common stock upon expiration of the restriction period.

Forfeiture. If a recipient does not make the Section 83(b) election described above and, before the restriction period expires, he or she forfeits the restricted stock under the terms of the award, such recipient will not recognize any ordinary income in connection with the restricted stock award. If a recipient does make a Section 83(b) election and subsequently forfeits the restricted stock under the terms of the award, he or she will not be allowed an ordinary income tax deduction with respect to the forfeiture. However, such recipient may be entitled to a capital loss.

The Company urges each recipient to consult a tax advisor to determine, in light of current tax rates and possible future tax legislation, whether it is more advantageous to make a Section 83(b) election upon receipt of a restricted stock award (resulting in a current tax liability plus the potential for future capital gains, currently taxed at lower rates than the rate applicable to ordinary income, and a risk of forfeiture without an ordinary income tax deduction) than not making the Section 83(b) election (resulting in the deferral of tax and the eventual recognition as ordinary income of any appreciation in the fair market value of a recipient's shares).

Dividends Received on Restricted Stock. Dividends, if any, received by a recipient before the end of the restriction period will be taxed as ordinary income to you.

Tax Deduction for the Company. Subject to the general rules concerning deductibility of compensation, the Company will be allowed an income tax deduction in the amount that, and for its taxable year in which, a recipient recognizes ordinary income in connection with a restricted stock award. Dividends, if any, on the restricted stock that are received by a recipient before the end of the

restriction period will also be deductible by the Company subject to the general rules concerning compensation.

Tax Basis of Shares. A recipient's basis in the shares will equal their fair market value at the time you recognize ordinary income.

Sale of Shares. A recipient cannot sell or otherwise dispose of the restricted stock until after the restriction period expires. When a recipient sells the shares after the restriction period expires, he or she will recognize gain or loss in an amount by which the sale price of the shares differs from his or her tax basis in the shares. If, as usually is the case, the shares are a capital asset in a recipient's hands, any gain or loss recognized on a sale or other disposition of the shares will qualify as capital gain or loss.

Characterization of Capital Gain or Loss. Any capital gain or loss a recipient recognizes upon sale of the shares will be treated as long-term capital gain or loss if he or she has held the shares for more than 12 months from the date he or she recognized ordinary income with respect to the shares and as short-term capital gain or loss if he or she has held the stock for 12 months or less from the date such recipient recognized ordinary income.

Performance Awards and Other Stock-Based Awards

The Incentive Plan also authorizes performance awards and other stock-based awards, the terms of which are not specified in the Plan. The federal income tax consequences to recipients and to the Company upon the grant and exercise of the performance awards and other stock-based awards will depend on the terms of such awards.

SPECIAL RULES FOR EXECUTIVE OFFICERS AND DIRECTORS SUBJECT TO SECTION 16(B)

If a recipient is an executive officer or director of the Company subject to Section 16(b) of the Securities Exchange Act of 1934, any shares acquired upon exercise or payout of a non-qualified option, an incentive stock option (for purposes of the AMT only), a SAR or a restricted stock unit, and any shares of restricted stock that vest, may be treated as restricted property for purposes of Section 83 of the Internal Revenue Code if a recipient has had a non-exempt acquisition of shares of Company stock within the six months prior to the exercise, payout or vesting. In that case, the recipient may be deemed to have acquired the shares at a date up to six months after the date the award was exercised or paid out or vested, and such recipient will recognize (and be taxed on) ordinary income as of the later date, rather than as of the date of exercise, payout or vesting.

However, Section 83(b) of the Internal Revenue Code allows a recipient to elect to recognize ordinary income as of the date of exercise, payout or vesting, without regard to Section 16(b) restrictions. The recipient must make the election in the manner specified in Section 83(b) within 30 days after the date the recipient exercises the option or SAR or the date of payout or vesting, as applicable. If (1) the shares a recipient acquired upon the exercise, payout or vesting of the award are treated as restricted property for purposes of Section 83 of the Internal Revenue Code because of the application of Section 16(b) of the Securities Exchange Act of 1934 and (2) a recipient does not make a Section 83(b) election within the required time period, the amount of taxable ordinary income will be determined as follows:

For non-qualified options (and incentive stock options treated as non-qualified options for purposes of the AMT), a recipient will recognize and be taxed on ordinary income in the amount by which the fair market value of the shares at the later date exceeds the exercise price, rather than recognizing, and being taxed on, ordinary income in the amount by which the fair market value of the shares on the exercise date exceeds the exercise price.

For a SAR, a recipient will recognize and be taxed on ordinary income in the amount of the fair market value of the shares of common stock at the later date, rather than recognizing, and being taxed on, ordinary income in the amount of the fair market value of the shares as of the date the recipient exercised the SAR.

For restricted stock, a recipient will recognize and be taxed on ordinary income in the amount of the fair market value of the shares of common stock at the later date, rather than recognizing, and being taxed on, ordinary income in the amount of the fair market value of the shares on the date the restricted stock vested.

The Company urges each recipient to consult his or her own tax advisor for more details about these special rules and to help determine if he or she should make a Section 83(b) election.

Deductibility of Executive Compensation Under Code Section 162(m). Section 162(m) of the Code generally limits to \$1,000,000 the amount that a publicly-held corporation is allowed each year to deduct for the compensation paid to each of the corporation's principal executive officer and three most highly compensated officers (other than our principal financial officer). However, "qualified performance-based compensation" is not subject to the \$1,000,000 deduction limit. In general, to qualify as performance-based compensation, the following requirements need to be satisfied: (1) payments must be computed on the basis of an objective, performance-based compensation standard determined by a committee consisting solely of two or more "outside directors," (2) the material terms under which the compensation is to be paid, including the business criteria upon which the performance goals are based, and a limit on the maximum bonus amount which may be paid to any participant with respect to any performance period, must be approved by a majority of the corporation's stockholders and (3) the committee must certify that the applicable performance goals were satisfied before payment of any performance-based compensation.

The Incentive Plan has been designed to permit grants of options, SARs and other performance-based awards issued under the Incentive Plan to qualify under the performance-based compensation rules so that income attributable to the exercise of a NSO or a SAR or the receipt of other performance-based awards may be exempt from the \$1,000,000 deduction limit. Other awards under the Incentive Plan may not so qualify for this exemption. The Incentive Plan's provisions are consistent in form with the performance-based compensation rules, so that if the committee that grants options, SARs and other performance-based awards consists exclusively of members of the Board who qualify as "outside directors," and the exercise price of the options (or deemed exercise price, with respect to SARs) is not less than the fair market value of the shares of Common Stock to which such grants relate, the compensation income arising on exercise of those options or SARs or on receipt of other performance-based awards should qualify as performance-based compensation which is deductible even if that income would be in excess of the otherwise applicable limits on deductible compensation income under Code Section 162(m).

NEW PLAN BENEFITS

It is not possible to currently determine the exact number of options to be granted in the future under the Incentive Plan to our Named Executive Officers, to all executive officers as a group, to all non-executive directors as a group or to all employees as a group. During fiscal year 2007, no options were granted to the Named Executive Officers. On December 19, 2007, we granted 36,000 stock options to each of Mr. Mead and Mr. Turner, which vest ratably over three years. We do not, however, have any specific current plans or commitments for awards under the Incentive Plan.

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS OF THE COMPANY VOTE **FOR** THE AMENDMENT AND RESTATEMENT OF THE INCENTIVE PLAN.

PROPOSAL 6: RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

The Company is asking the stockholders to ratify the selection of Tanner LC as the Company's independent registered public accountants for the fiscal year ending August 31, 2008. The affirmative vote of the

holders of a majority of the shares of Common Stock present, in person or by proxy, and entitled to vote at the meeting will be required to ratify the selection of Tanner LC.

In the event the stockholders fail to ratify the appointment, the Audit Committee of the Board of Directors will consider it as a direction to select other auditors for the subsequent year. Even if the selection is ratified, the Board or Audit Committee in their discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if the Board determines that such change would be in the best interest of the Company and its stockholders.

Tanner LC audited the Company's financial statements for fiscal years ending August 31, 2007 and 2006. Its representatives will be present at the annual meeting, and will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

Principal Accountant Fees and Services

The following table presents fees for professional services rendered by Tanner LC for the audit of our annual financial statements for the fiscal years ended August 31, 2007 and August 31, 2006 and fees billed for other services rendered by Tanner LC during those periods.

	2007	2006
Audit Fees(1)	\$ 126,000	\$ 75,500
Audit-Related Fees(2)	5,900	6,265
Total	<u>\$ 131,900</u>	<u>\$ 81,765</u>

(1) Audit Fees consist of fees billed for the annual audits and quarterly reviews.

(2) Audit-Related Fees consist of fees billed for various SEC filings and accounting research.

PRE-APPROVAL POLICIES

The Audit Committee pre-approved all audit, audit-related and non-audit services performed by our independent auditors and subsequently reviewed the actual fees and expenses paid to Tanner LC. The Audit Committee has determined that the fees paid to Tanner LC for services are compatible with maintaining Tanner LC's independence as our auditors.

AUDIT COMMITTEE REPORT

The Audit Committee has reviewed and discussed the Company's audited financial statements with its management and has discussed with the Company's independent registered public accountant the matters to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

The Audit Committee has received the written disclosures and the letter from the Company's independent registered public accountant required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committee) and has discussed with the Company's independent registered public accountant the independent registered public accountant's independence.

Based on its review, the Audit Committee recommended to the Board of Directors that the audited financial statements for the Company's fiscal year ended August 31, 2007 be included in the Company's Annual Report on Form 10-K for its fiscal year ended August 31, 2007, which was filed on November 14, 2007.

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS RECOMMENDS A VOTE **FOR** THE PROPOSAL TO RATIFY THE SELECTION OF TANNER LC TO SERVE AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR THE FISCAL YEAR ENDING AUGUST 31, 2008.

EXECUTIVE OFFICERS

The names of the Company's executive officers, their ages and their respective business backgrounds are set forth below as of August 31, 2007. For information regarding the backgrounds of Hyrum A. Mead and Paul F. Turner, please see their biographical descriptions above under Proposal 1 regarding the election of directors. There are no family relationships among any of the Company's directors, officers or key employees.

<u>Name</u>	<u>Age</u>	<u>Position</u>
Hyrum A. Mead, MBA	60	President and Director
Dennis P. Gauger, CPA	55	Chief Financial Officer
Paul F. Turner, MSEE	60	Senior Vice President, Chief Technology Officer and Chairman of the Board

Dennis P. Gauger, CPA, has served as Chief Financial Officer since May 2007. Mr. Gauger is a licensed Certified Public Accountant in Utah and Nevada, and serves on a part-time, contract basis. Mr. Gauger has served or currently serves other publicly held companies as a part-time, contract chief financial officer, including the following: since January 2004, Mr. Gauger has served as a director, Chief Financial Officer, and Secretary for Groen Brothers Aviation, Inc., a publicly held aviation company (GNBA — OTCBB); since April 2004, Mr. Gauger has served as a Chief Financial Officer for Cimetrix Incorporated, a publicly held software company (CMXX.OB – NASD OTC); since December 2006, Mr. Gauger has served as a Chief Financial Officer for Golden Phoenix Minerals, Inc. a publicly held mining company (GPXM.OB – NASD OTC); and from November 2001 until March 2007, Mr. Gauger served as a Chief Financial Officer for Nevada Chemicals, Inc., a chemical supply company to the gold mining industry (NCEM-NNM). Additionally, over the past eight years, he has served several public and private companies in a variety of industries as a part-time, contract financial executive, corporate troubleshooter and consultant. Previously, Mr. Gauger worked for Deloitte & Touche LLP, an international accounting and consulting firm, for 22 years, including 9 years as an accounting and auditing partner. He is a member of the American Institute of Certified Public Accountants and the Utah Association of Certified Public Accountants.

SIGNIFICANT EMPLOYEES

In addition to the officers and directors identified above, the Company expects the following individuals to make significant contributions to the Company's business during fiscal 2008:

<u>Name</u>	<u>Age</u>	<u>Position</u>
Brian L. Ferrand	52	Vice President of Sales
Dixie Toolson Sells	57	Vice President of Regulatory Affairs
Richard A. White	52	Vice President of International Sales

Brian L. Ferrand, joined BSD Medical as Vice President of Sales in October 2005. From October 2004 to October 2005, Mr. Ferrand worked as an independent consultant. Previously, Mr. Ferrand served as Vice President of Sales and as a corporate officer of Merit Medical Systems, Inc. from 1993 until October 2004. At Merit Medical Systems, Mr. Ferrand also served as Director of Sales from 1992 to 1993 and as a National Sales Manager from 1991 to 1992. Merit Medical Systems (a NASDAQ company), is a leading manufacturer and marketer of products used in diagnostic and interventional cardiology and radiology procedures worldwide.

Dixie Toolson Sells has served as Vice President of Regulatory Affairs of BSD since December 1994. Ms. Sells served as Administrative Director of BSD from 1978 to 1984; as Director of Regulatory Affairs from 1984 to September 1987; and as Vice President of Regulatory Affairs from September 1987 to October 1993. In October 1993, Ms. Sells resigned as Vice President of Regulatory Affairs, and she served as Director of Regulatory Affairs from October 1993 to December 1994. In December 1994, Ms. Sells was re-appointed as Vice President of Regulatory Affairs and was appointed as Corporate Secretary by the Board of Directors. Ms. Sells also serves on

the Board of Directors of the Intermountain Biomedical Association. Ms. Sells resigned as Corporate Secretary of BSD in March 2002.

Richard A. White, joined BSD Medical in 2004, and serves as Vice President of International Sales for the company. Mr. White has been deeply involved in international sales since obtaining his degree in international business at The Garvin School of International Management “Thunderbird” in 1980. He has played a key role in the founding of new companies, has led a national sales organization selling large capital equipment in power control systems and served as International Sales Manager for Merit Medical Systems (a NASDAQ company), which is a leading manufacturer and marketer of products used in diagnostic and interventional cardiology and radiology procedures worldwide. Prior to joining BSD Medical, Mr. White served for two years as manager of the Home Touch sales division of Life Touch.

EXECUTIVE COMPENSATION

Compensation Discussion And Analysis

The following discussion and analysis provides information regarding the Company’s executive compensation objectives and principles, procedures, practices and decisions, and is provided to help give perspective to the numbers and narratives that follow in the tables in this section. This discussion will focus on the Company’s objectives, principles, practices and decisions with regards to the compensation of Paul F. Turner, Chairman of the Board, Senior Vice President and Chief Technology Officer, Hyrum A. Mead, President and Dennis P. Gauger, Chief Financial Officer, our named executive officers (“Named Executive Officers”).

Executive Compensation Objectives and Principles

The overall objective of our executive compensation program is to help create long-term value for our shareholders by attracting and retaining talented executives, rewarding superior operating and financial performance, and aligning the long-term interests of our executives with those of our shareholders. Accordingly our executive compensation program incorporates the following principles:

Compensation should be based upon individual job responsibility, demonstrated leadership ability, management experience, individual performance and Company performance.

Compensation should reflect the fair market value of the services received. The Company believes that a fair and competitive pay package is essential to attract and retain talented executives in key positions.

Compensation should reward executives for long-term strategic management and enhancement of shareholder value.

Compensation should reward performance and promote a performance oriented environment.

Executive Compensation Procedures

We believe that compensation paid to our executive officers should be closely aligned with our performance and the performance of each individual executive officer on both a short-term and a long-term basis, should be based upon the value each executive officer provides to our company, and should be designed to assist us in attracting and retaining the best possible executive talent, which we believe is critical to our long-term success. To attain our executive compensation objectives and implement the underlying compensation principles, we follow the procedures described below.

Role of the Compensation Committee. The Compensation Committee has responsibility for establishing and monitoring our executive compensation programs and for making decisions regarding the compensation of our Named Executive Officers. The agenda for meetings of the Compensation Committee is determined by the Chairman of the Compensation Committee. The Compensation Committee sets the compensation package and annual bonus of the Named Executive Officers. Our President, Mr. Mead, suggests items to be considered by the

Compensation Committee from time to time, including the compensation package for the other Named Executive Officers, and participates in the meetings of the Compensation Committee.

The Compensation Committee relies on its judgment in making compensation decisions after reviewing our performance and evaluating our executives' leadership abilities and responsibilities with our company and their current compensation arrangements. The Compensation Committee assessment process is designed to be flexible so as to better respond to the evolving business environment and individual circumstances.

Role of Compensation Consultant. Mercer Human Resource Consulting has assisted the Compensation Committee with its administration of compensation programs for the Company's executive officers. In 2006, the Compensation Committee engaged Mercer, an outside human resources consulting firm, to conduct a review of its total compensation program for executive officers and to provide peer compensation data. Based upon the market analyses performed by Mercer, it made recommendations to the Compensation Committee as to the form and amount of executive compensation to be awarded to the executive officers. The Compensation Committee considered the recommendations of Mercer in setting executive compensation for fiscal 2007.

Elements of Compensation

Our executive compensation objectives and principles are implemented through the use of the following elements of compensation, each discussed more fully below:

- Base Salary
- Annual Incentive Bonuses
- Stock-Based Compensation
- Other Benefits

Base Salary. The Compensation Committee approved the salaries of all our executive officers for fiscal year 2007. Salary decisions concerning these officers were based upon a variety of considerations consistent with the compensation philosophy stated above. First, salaries were competitively set relative to both other companies in the medical products industry and other comparable companies. In determining the salaries for our executives in fiscal 2007, the Compensation Committee compared the compensation of some of the public companies in the biotechnology industry to the compensation of our executives. In August 2006, our Compensation Committee reviewed the published compensation of the named executive officers of Introgen Therapeutics, Inc., RITA Medical Systems, Inc., Cell Therapeutics, Inc., Immunicon Corporation, Poniard Pharmaceuticals, Inc., Entremed, Inc., OXiGENE, Inc., Theragenics Corporation, Antigenics Inc./DE, Inovio Biomedical Corporation, Praecis Pharmaceuticals Incorporated and Celsion Corporation. We believe that the base salaries and the total compensation of our executives are approximately equal to or less than the median base salaries and median total compensation of executives with similar positions at these companies. Second, the Compensation Committee considered each officer's level of responsibility and individual performance, including an assessment of the person's overall value to the Company. Third, internal equity among employees was factored into the decision. Finally, the Compensation Committee considered our financial performance and our ability to absorb any increases in salaries. In the case of Mr. Gauger, base pay was paid in the form of a monthly fee for his services under his consulting agreement.

Annual Incentive Bonuses. Each Named Executive Officer, other than Mr. Gauger, is eligible to receive an annual performance-based bonus. The annual bonus is intended to motivate participating executives to achieve both short-term and long-term strategic and financial objectives. Mr. Mead and Mr. Turner received bonuses determined by the Compensation Committee. For fiscal 2007, the Compensation Committee did not precisely define the parameters of the bonuses for Mr. Mead and Mr. Turner at the beginning of the year. However, the general goals of the company were discussed with these officers throughout the year. Based upon an assessment of the progress of the company, the Compensation Committee decided to award each of Mr. Mead and Mr. Turner a bonus equal to 25% of his base salary.

Stock-Based Compensation. Each Named Executive Officer is eligible to participate in the BSD Medical Corporation 1998 Stock Incentive Plan, which provides for the granting of stock options, stock appreciation rights, performance awards, and other stock-based awards and cash-based awards to selected employees, non-employees

and directors. Historically, we have issued options pursuant to this incentive plan, and typically these options vest ratably over a term of up to 5 years as determined by the Compensation Committee. We do not have any policies for allocating compensation between long-term and currently paid out compensation or between cash and non-cash compensation or among different forms of non-cash compensation. Although we do not have any formal policy for determining the amount of stock options or the timing of our stock option grants, we have historically granted stock options to high-performing employees (i) in recognition of their individual achievements and contributions to our company, and (ii) in anticipation of their future service and achievements. During fiscal year 2007, no options were granted to the Named Executive Officers. On December 19, 2007, we granted 36,000 stock options to each of Mr. Mead and Mr. Turner, which vest ratably over three years.

Other Benefits. Our Named Executive Officers receive the same benefits that are available to all other full time employees, including the payment of health, dental, life and disability insurance premiums.

Deductibility of Executive Compensation

Internal Revenue Code Section 162(m) limits the amount that we may deduct for compensation paid to our principal executive officer and to each of our three most highly compensated officers (other than our principal financial officer) to \$1.0 million per person, unless certain exemption requirements are met. Exemptions to this deductibility limit may be made for various forms of performance-based compensation. In the past, annual cash compensation to our executive officers has not exceeded \$1.0 million per person, so the compensation has been deductible. In addition to salary and bonus compensation, upon the exercise of stock options that are not treated as incentive stock options, the excess of the current market price over the option price, or option spread, is treated as compensation and accordingly, in any year, such exercise may cause an officer's total compensation to exceed \$1.0 million. Under certain regulations, option spread compensation from options that meet certain requirements will not be subject to the \$1.0 million cap on deductibility. While the compensation committee cannot predict how the deductibility limit may impact our compensation program in future years, the compensation committee intends to maintain an approach to executive compensation that strongly links pay to performance.

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. No Named Executive Officer's compensation in 2007 exceeded the \$1 million deduction limit.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed the foregoing Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K and discussed the Compensation Discussion and Analysis with the Company's management. Based on such review and discussions with management, the Compensation Committee recommended to the Board that the foregoing Compensation Discussion and Analysis be included in this Annual Report.

COMPENSATION COMMITTEE

Douglas P. Boyd
Steven G. Stewart
Michael Nobel

Summary Compensation Table

The table below summarizes the total compensation paid to or earned by each of the Named Executive Officers for services in all capacities to the Company and its affiliates for the year ended August 31, 2007:

Name and Principal Position	Year	Salary	Bonus(1)	Non-Equity Incentive Plan Compensation	All Other Compensation	Total
(a)	(b)	(c)	(d)	(g)	(h)	(i)
Paul F. Turner Chairman of the Board, Senior VP and Chief Technology Officer	2007	\$215,000	\$53,000	\$ -	\$7,049 (2)	\$275,049
Hyrum A. Mead President	2007	250,000	63,000	-	7,049 (3)	320,049
Dennis P. Gauger Chief Financial Officer	2007	-	-	-	24,000 (4)	24,000

- (1) The amounts shown in this column constitute the cash bonuses made to certain named executive officers. These awards are discussed in further detail in the Compensation Discussion and Analysis section of this proxy statement.
- (2) This amount consists of life insurance premiums of \$145, medical insurance premiums of \$6,263 and disability insurance premiums of \$641 paid by the Company.
- (3) This amount consists of life insurance premiums of \$145, medical insurance premiums of \$6,263 and disability insurance premiums of \$641 paid by the Company.
- (4) This amount consists entirely of fees paid to Mr. Gauger as Chief Financial Officer on a part-time, contract basis in fiscal 2007.

Employment and Independent Contractor Agreements.

We entered into an employment agreement with Mr. Mead dated August 10, 1999. This agreement provides that Mr. Mead shall receive an annual base salary, which shall be reviewed annually by the Board of Directors. Mr. Mead's annual base salary was raised to \$250,000 effective September 1, 2006. In the event of termination of Mr. Mead's employment with the Company without cause (as defined in the agreement) or Mr. Mead's resignation for good reason (as defined in the agreement), the agreement provides that Mr. Mead will receive severance compensation for a period of six months, including an extension of all benefits and perquisites. The severance amount shall include six months of salary at the highest rate paid to Mr. Mead prior to termination and an additional amount equal to all bonuses received by Mr. Mead during the 12-month period preceding termination (excluding any signing bonus received during such period). The agreement also requires us to vest any options granted to Mr. Mead for the purchase of our Common Stock, allowing a 90-day period for Mr. Mead to exercise those options. Mr. Mead's agreement includes a non-competition covenant prohibiting him from competing with us for one year following his termination.

We entered into an employment agreement with Mr. Turner dated November 2, 1988. The agreement sets Mr. Turner's annual base salary for each year until October 1, 1993 and provides that after October 1, 1993 Mr. Turner's annual base salary will be based upon a reasonable mutual agreement between Mr. Turner and the Company. Mr. Turner's annual base salary was raised to \$210,000 effective September 1, 2006. In the event of termination of Mr. Turner's employment with the Company without cause (as defined in the agreement) or Mr. Turner's resignation for good reason (as defined in the agreement), the agreement provides that Mr. Turner will receive severance pay for a one-year period, which pay includes an extension of all of his rights, privileges and benefits as an employee (including medical insurance). The one-year severance pay shall be equal to Mr. Turner's average annual salary for the 12-month period immediately prior to the termination. The agreement also requires us to pay Mr. Turner for any accrued, unused vacation at the time of termination. We are also obligated to pay Mr. Turner \$1,000 (or the equivalent value in stock options) for each newly issued patent obtained by us as a result of

Mr. Turner's efforts (Mr. Turner receives only \$500 if multiple inventors are involved). Mr. Turner's agreement includes a non-competition covenant prohibiting him from competing with us for one year following his termination. We may continue the non-competition period for up to four additional years by notifying Mr. Turner in writing and by continuing the severance payments for the additional years during which the non-competition period is extended.

Dennis P. Gauger, Chief Financial Officer, serves the Company on a part-time, contract basis. The Company has an agreement with Mr. Gauger for a term ending May 1, 2008, which provides monthly compensation of \$6,000.

Outstanding Equity Awards at Fiscal Year-End

This table provides information on the year-end 2007 holdings of Company stock options by the Named Executive Officers.

Name	Number of Securities Underlying Unexercised Options Exercisable (#)	Number of Securities Underlying Unexercised Options Unexercisable (#)	Option Exercise Price (\$)	Option Expiration Date
(a)	(b)	(c)	(d)	(e)
Paul F. Turner	277,212 (1)	-	1.20	04/09/2014
Hyrum A. Mead	74,464 (1)	-	0.37	08/09/2010
Hyrum A. Mead	200,000 (2)	-	0.81	01/18/2010
Hyrum A. Mead	400,000 (1)	-	1.20	04/09/2014

(1) Options vest in equal annual installments (33.3% each year) on the anniversary of the date of grant.

(2) Options vest in equal annual installments (20% each year) on the anniversary of the date of grant.

Option Exercises and Stock Vested

The named executive officers exercised stock options during the year ended August 31, 2007 as outlined below.

Name	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$) (1)
(a)	(b)	(c)
Paul F. Turner	22,788	88,501
Hyrum A. Mead	5,284	30,013

(1) The amounts in this column reflect the difference between the exercise price of the options and the market price of the Company's Common Stock on the date of exercise.

Potential Payments Upon Termination

The information below describes and quantifies certain payments or benefits that would be payable to Named Executive Officers under their existing employment agreements and our existing plans and programs had they been terminated on August 31, 2007. These benefits are in addition to benefits generally available to all salaried employees of the Company in connection with a termination of employment such as disability and life insurance benefits, the value of employee-paid group health plan continuation coverage under COBRA and accrued vacation pay.

As discussed above, Messrs. Turner and Mead have written employment agreements that provide for certain severance payments and benefits in the event of termination of their employment with the Company without cause or their resignation for good reason. Additionally, their employment agreements provide for acceleration of vesting of a portion of their otherwise unvested stock options in the event they are terminated without cause or resign for good reason. In order for Mr. Mead to receive his severance payment for the vesting of his options to accelerate, his termination must occur prior to a change of control of our company.

Name	Severance Pay (\$)	Stock Option Vesting Acceleration (3) (\$)
(a)	(b)	(c)
Paul F. Turner (1)	210,000	-
Hyrum A. Mead (2)	125,500	-

- (1) Mr. Turner's employment agreement provides for severance pay equal to Mr. Turner's average annual salary for the 12-month period immediately prior to the termination. Mr. Turner will also be granted an extension of all rights, privileges and benefits as an employee (including medical insurance).
- (2) Mr. Mead's employment agreement provides for six months severance pay at the highest rate of salary paid to Mr. Mead prior to termination and an additional amount equal to all bonuses received during such period (excluding any signing bonus received during such period). Mr. Mead is also entitled to accelerated vesting of his options under the Company's equity compensation plans, allowing a 90-day period for Mr. Mead to exercise those options. Mr. Mead will also be granted an extension of all rights, privileges and benefits as an employee (including medical insurance).
- (3) All stock options held by Messrs. Turner and Mead as of August 31, 2007 were fully vested at August 31, 2007.

The Company does not have any agreement with Mr. Gauger to pay him severance or other benefits following termination of his engagement, other than monthly fees for services rendered prior to the effective date of such termination. Therefore, if Mr. Gauger's engagement by the Company had terminated for any reason on August 31, 2007, he would not have been entitled to any severance or other benefits following such termination other than monthly fees earned for services rendered prior to such termination.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information known to us with respect to beneficial ownership of our Common Stock as of November 30, 2007 for (i) each director and nominee, (ii) each holder of 5.0% or greater of our Common Stock, (iii) our Named Executive Officers, and (iv) all executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission (the "Commission"), and generally includes voting or investment power with respect to securities. Shares subject to options that are exercisable within 60 days following November 30, 2007 are deemed to be outstanding and beneficially owned by the optionee or group of optionees for the purpose of computing share and percentage ownership of that optionee or group of optionees, but are not deemed to be outstanding for the purpose of computing the percentage ownership of any other person. Except as indicated by footnote, the persons named in the

table have sole voting and investment power with respect to all shares of Common Stock shown beneficially owned by them. The inclusion of any shares as beneficially owned does not constitute an admission of beneficial ownership of those shares. The percentage calculation of beneficial ownership is based on 21,288,333 shares of Common Stock outstanding as of November 30, 2007. Except as otherwise noted, the address of each person listed on the following table is 2188 West 2200 South, Salt Lake City, Utah 84119.

<u>Name of Beneficial Owner</u>	<u>Common Stock Beneficially Owned</u>	
	<u>Shares</u>	<u>Percent</u>
<i>Officers and Directors</i>		
Dr. Gerhard W. Sennewald (1)	6,536,173	30.7%
Paul F. Turner (2)	2,162,994	10.0%
Hyrum A. Mead (3)	778,164	3.5%
Dr. Michael Nobel (4)	273,324	1.3%
Douglas P. Boyd (5)	247,507	1.2%
Steven G. Stewart (6)	13,543	*
Dennis P. Gauger	-	-
<i>Holders of More Than 5%</i>		
John E. Langdon (7)	1,295,010	6.2%
All Executive Officers and Directors as a Group (7 persons) (8)	10,011,705	44.8%

* Less than 1%

- (1) Includes 26,000 shares subject to stock options that are currently exercisable or exercisable within 60 days after November 30, 2007.
- (2) Includes 277,212 shares subject to stock options that are currently exercisable or exercisable within 60 days after November 30, 2007.
- (3) Includes 674,464 shares subject to stock options that are currently exercisable or exercisable within 60 days after November 30, 2007.
- (4) Includes 51,000 shares subject to stock options that are currently exercisable or exercisable within 60 days after November 30, 2007.
- (5) Includes 16,000 shares subject to stock options that are currently exercisable or exercisable within 60 days after November 30, 2007.
- (6) Includes 9,274 shares subject to stock options that are currently exercisable or exercisable within 60 days after November 30, 2007.
- (7) Includes 351,862 shares owned directly by Mr. Langdon. The remaining shares are held in the Dora Lee Langdon 1994 Children's trust for the Benefit of Clay Allison Langdon and Lee Kendall Langdon, for which Mr. Langdon is Trustee. Mr. Langdon's address is: 2501 Parkview Drive, Suite 500, Fort Worth, TX 76102.
- (8) Includes 1,053,950 shares subject to stock options that are currently exercisable or exercisable within 60 days after November 30, 2007.

EQUITY COMPENSATION PLAN INFORMATION

The following table summarizes the Company's equity compensation plans as of August 31, 2007.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders (1)	1,795,853	\$2.31	631,185 (2)
Equity compensation plans not approved by security holders	-	-	-
Total	1,795,853	\$2.31	631,185

(1) A total of 3,677,300 shares of Common Stock have been reserved for issuance under the plans. To date, a total of 1,092,231 options have been exercised under the plans.

(2) A total of 883,326 shares were available for future issuances under our equity compensation plans as of September 1, 2006.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's directors and officers, and persons who own more than 10% of a registered class of the Company's equity securities to file with the Commission initial reports of ownership and reports of changes in ownership of equity securities of the Company. Officers, directors, and greater than 10% stockholders are required to furnish the Company with copies of all Section 16(a) forms they file. Based solely on review of the copies of such forms received by the Company, or written representations from certain reporting persons, the Company believes that during the year ended August 31, 2007, all reporting persons complied with all applicable filing requirements.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Since September 1, 2006, there has not been, nor is there any proposed transaction in which the Company was or will be a party or in which it was or will be a participant, involving an amount that exceeded or will exceed \$120,000 and in which any director, executive officer, beneficial owner of more than 5% of any class of the Company's voting securities, or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest, other than the transactions which are described below.

Medizin-Technik GmbH. BSD supplies equipment components to Medizin-Technik GmbH located in Munich, Germany, which is a significant distributor of BSD's products in Europe. Medizin-Technik purchases

equipment, which it installs, and components to service the BSD hyperthermia therapy systems that Medizin-Technik sells to its customers in Europe. For the fiscal years 2006 and 2007 and for the first quarter of fiscal year 2008, BSD had revenue of \$689,086, \$1,385,332 and \$908,025, respectively, from the sale of systems and various component parts sold to Medizin-Technik. As of August 31, 2006 and 2007, and as of the end of the first quarter of fiscal year 2008, accounts receivable from Medizin-Technik were \$261,543, \$488,200 and \$1,036,247, respectively. Dr. Gerhard W. Sennewald, one of BSD's directors and significant stockholders, is the President and Chief Executive Officer of Medizin-Technik and its sole stockholder. Management believes the terms of the transactions with Medizin-Technik were arms length and fair to the Company.

The Company does not have a formal written process for reviewing related person transactions. The Company expects that its management will review for potential conflict of interest situations, on an ongoing basis, any future proposed transaction, or series of transactions, with related persons, and either approve or disapprove each reviewed transaction or series of related transactions with related persons.

STOCKHOLDER PROPOSALS

No proposals have been submitted by stockholders of the Company for consideration at the Annual Meeting. It is anticipated that the next annual meeting of stockholders will be held on or about February 1, 2009. Stockholders may present proposals for inclusion in the proxy statement to be mailed in connection with the 2009 annual meeting of stockholders of the Company, provided such proposals are received by the Company in writing no later than September 2, 2008 and are otherwise in compliance with Commission regulations regarding the inclusion of stockholder proposals in company-sponsored proxy materials. Pursuant to rules adopted by the Commission, if a shareholder intends to propose any matter for a vote at the Company's 2009 annual meeting of stockholders, but fails to notify the Company of that intention by November 16, 2008, then a proxy solicited by the Board of Directors may be voted on that matter in the discretion of the proxy holder, without discussion of the matter in the proxy statement soliciting the proxy and without the matter appearing as a separate item on the proxy card.

OTHER MATTERS

The Company is unaware of any business, other than described in this Proxy Statement, that may be considered at the Annual Meeting. If any other matters should properly come before the Annual Meeting, it is the intention of the persons named in the accompanying form of proxy to vote the proxies held by them in accordance with their best judgment.

To assure the presence of the necessary quorum and to vote on the matters to come before the Annual Meeting, please promptly indicate your choices via the internet, by phone or by mail according to the procedures described on the proxy card. The submission of a proxy via the internet, by phone or by mail does not prevent you from attending and voting at the Annual Meeting.

AVAILABLE INFORMATION

The Company is subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and, in accordance therewith, files reports and other information with the Commission. Any interested party may inspect information filed by the Company, without charge, at the public

reference facilities of the Commission at its principal office at 100 F. Street, N.E., Washington, D.C. 20549. Any interested party may obtain copies of all or any portion of the information filed by the Company at prescribed rates from the Public Reference Section of the Commission at its principal office at 100 F. Street, N.E., Washington, D.C. 20549. In addition, the Commission maintains an Internet site that contains reports, proxy and information statements and other information regarding the Company and other registrants that file electronically with the Commission at <http://www.sec.gov>.

The Company's Common Stock is quoted on the AMEX and trades under the symbol "BSM".

ADDITIONAL INFORMATION

The Company will provide without charge to any person from whom a proxy is solicited by the Board of Directors, upon the written request of that person, a copy of the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2007, including the financial statements and schedules thereto (as well as exhibits thereto, if specifically requested), required to be filed with the Commission. Written requests for that information should be directed to the Secretary of the Company at the address on the first page of this proxy statement.

APPENDIX A

**BSD MEDICAL CORPORATION
SECOND AMENDED AND RESTATED
1998 DIRECTOR STOCK PLAN**

(This page intentionally left blank.)

BSD MEDICAL CORPORATION
SECOND AMENDED AND RESTATED
1998 DIRECTOR STOCK PLAN

PART A. PLAN ADMINISTRATION AND ELIGIBILITY

1. Purpose.

The purpose of this Second Amended and Restated 1998 Director Stock Plan (the "Plan") of BSD Medical Corporation (the "Company") is to encourage ownership in the Company by outside directors of the Company (each, a "Non-Employee Director," or collectively, the "Non-Employee Directors") whose continued services are considered essential to the Company's continued progress and thus to provide them with a further incentive to remain as directors of the Company.

2. Administration.

The Board of Directors (the "Board") of the Company or any committee (the "Committee") of the Board that will satisfy Rule 16b-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and any regulations promulgated thereunder, as from time to time in effect, including any successor rule ("Rule 16b-3"), shall supervise and administer the Plan. The Committee shall consist solely of two or more non-employee directors of the Company, who shall be appointed by the Board. A member of the Board shall be deemed to be a "non-employee director" only if such member satisfies such requirements as the Securities and Exchange Commission may establish for non-employee directors under Rule 16b-3. No member of the Board or the Committee shall receive additional compensation for services in connection with the administration of the Plan.

The Board or the Committee may adopt such rules or guidelines as it deems appropriate to implement the Plan. All questions of interpretation of the Plan or of any shares issued under it shall be determined by the Board or the Committee and such determination shall be final and binding upon all persons having an interest in the Plan.

3. Participation in the Plan.

Each member of the Board who is not an employee of the Company or any of its subsidiaries or affiliates shall receive payment for his or her Annual Retainer (as defined in Section 6 below) under the Plan, and shall receive an Option annually, for so long as he or she serves as a director of the Company.

4. Stock Subject to the Plan.

The maximum number of shares of the Company's common stock, par value \$0.01 per share ("Common Stock"), which may be issued under the Plan, either as a Common Stock Payment, as defined below, or upon exercise of Options, as defined below, shall be one million five hundred

thousand (1,500,000). The limitation on the number of shares which may be issued under the Plan shall be subject to adjustment as provided in Section 9 of the Plan.

PART B. TERMS OF THE PLAN

1. Effective Date of the Plan.

The Plan shall be effective as of September 1, 1998, subject to the approval and ratification of the Plan by the shareholders of the Company. The Plan shall terminate on August 31, 2011, unless earlier terminated by the Board of Directors or the Committee.

2. Terms and Conditions.

a. *Compensation.* During the term of the Plan, the Company shall pay to each Non-Employee Director for each year in which the Non-Employee Director serves as a Non-Employee Director of the Company, annual compensation in the amount of Thirty Thousand Dollars (\$30,000) (the "Annual Retainer"); provided, however, that any Non-Employee Director qualifying as a "financial expert" pursuant to Item 407(d)(5) of Regulation S-K promulgated under the Securities Exchange Act of 1934, as amended ("Financial Expert"), shall receive an Annual Retainer of Thirty-five Thousand Dollars (\$35,000). If a Non-Employee Director no longer serves as a director of the Company, for any reason including death or disability, such Non-Employee Director shall be entitled to all unpaid portions of his or her Annual Retainer which shall have accrued (on a daily basis) through the date of such termination.

b. *Cash Payments.* Each Non-Employee Director shall receive annually from the Company, as part of the Annual Retainer, Fifteen Thousand Dollars (\$15,000) in cash (the "Cash Payment"); provided, however, that the Financial Expert shall receive an annual Cash Payment of Twenty Thousand Dollars (\$20,000). The Cash Payment shall be made in arrears in equal semi-annual installments on March 1 and September 1 of each year (or if such day is not a business day, on the next succeeding business day), with the first Cash Payment to be made on or about March 1, 1999.

c. *Common Stock Payments.*

(i) *Number of Shares Subject to Common Stock Payment.* Each Non-Employee Director shall receive annually and automatically from the Company the balance of the Annual Retainer in the form of shares of Common Stock (the "Common Stock Payment"). The Common Stock Payment shall be made in arrears in semi-annual installments on March 1 and September 1 of each year (or if such day is not a business day, on the next succeeding business day), with the first Common Stock Payment to be made on or about March 1, 1999. The number of shares of Common Stock included in each Common Stock Payment shall be determined by dividing Fifteen Thousand Dollars (\$15,000) by (i) the preceding twenty (20) day average of the closing prices for the Common Stock as reported by the American Stock Exchange, if available, on the date in question (or, if such day is not a business day, on the next succeeding business day), (ii) the average of the prices quoted by the then market makers in the Company's Common Stock on such dates or (iii) by such amount as the Board or Committee determines in

good faith to be the fair value of a share of Common Stock (each, the "Fair Market Value"). The amount of each installment shall be equal to the largest number of whole shares determined as follows:

$$\frac{\$15,000 = \text{Number of Shares}}{\text{Fair Market Value on Date of Award}}$$

Any payment for a fractional share automatically shall be paid in cash based upon the Fair Market Value on the date of the respective award of such fractional share.

(ii) *Holding Period for Common Stock Payment Shares.* The shares of Common Stock included in each Common Stock Payment shall be deposited in certificate or book entry form in escrow with the Company's Secretary until the six-month anniversary of the date of issuance. The Non-Employee Director shall retain all rights in the shares while they are held in escrow, such as voting rights and the right to receive dividends, but the Non-Employee Director shall not have the right to pledge, sell or otherwise transfer such shares until after the six-month anniversary of the issuance date, at which time the Company's Secretary shall release the shares from escrow and deliver any applicable stock certificates to the Non-Employee Director or release any applicable restrictions on the Non-employee Director's book entry account.

d. *Options.*

(i) *Annual Grant.* In addition to the Annual Compensation, during the term of the Plan, the Company shall grant to each Non-Employee Director for each year in which the Non-Employee Director serves as a Non-Employee Director of the Company, an option to purchase 30,000 shares of Common Stock (the "Option"). The Option shall be granted effective September 1 in each year, beginning in 1998. The Option shall not qualify as an "incentive stock option" as defined in Section 422 of the Internal Revenue Code of 1986. If a Non-Employee Director no longer serves as a director of the Company, for any reason including death or disability, such Non-Employee Director shall be entitled to the portion of his or her Option which shall have accrued (on a daily basis) through the date of such termination.

(ii) *Purchase Price.* The purchase price of the Common Stock issued pursuant to an exercise of the Option shall be the Fair Market Value of the Common Stock at the date the Option is granted (the "Purchase Price"), with such fair market value to be determined as provided in Section 6.c.(i) above. The Purchase Price shall be payable upon the exercise of the Option and may be paid by (i) cash or check payable to the Company, (ii) the delivery to the Company of the number of outstanding shares of Common Stock equal in Fair Market Value to the Purchase Price, or (iii) receiving from the Company in exchange for the Option the number of shares of Common Stock equal in value to the excess of the Fair Market Value of one share of Common Stock of the Company over the Purchase Price per share of Common Stock, multiplied by the number of shares of Common Stock underlying the Option.

(iii) *Term and Vesting.* Except as otherwise set forth herein, unless earlier exercised, each Option shall terminate and expire upon the tenth anniversary of the date such Option is awarded. Twenty percent (20%) of each Option granted to a Non-Employee Director shall vest on each anniversary of the effective date of the award, provided that the Non-Employee shall have remained a director of the Company since the date of the award. In the event a Non-Employee Director ceases to serve as a director of the Company for any reason, any Option granted to a Non-Employee Director which has (i) not vested in accordance with this section shall be forfeited without compensation by the Company, and all rights of the Non-Employee Director in respect of such non-vested portion of the Option shall terminate and be of no further force or effect, and (ii) vested in accordance with this section shall remain exercisable for a period of one hundred eighty days following the last day such Non-Employee Director is a director of the Company, after which period the Option shall terminate and be of no further force or effect.

PART C. GENERAL PROVISIONS

1. Assignments.

The rights and benefits under this Plan may not be assigned, pledged or hypothecated. Upon the death of a Non-Employee Director, such person's rights to receive any payments hereunder will transfer to such person's named beneficiary, if any, or to his or her estate, and any Option to which such beneficiary or estate is entitled and has vested shall remain exercisable by such beneficiary or estate for a period of one hundred eighty days after the death of the Non-Employee Director.

2. Limitation of Rights.

Neither the Plan, nor the issuance of shares of Common Stock nor any other action taken pursuant to the Plan, shall constitute or be evidence of any agreement or understanding, express or implied, that the Company will retain a Director for any period of time, or at any particular rate of compensation.

3. Changes in Present Stock.

In the event of any merger, consolidation, reorganization, recapitalization, stock dividend, stock split, or other change in the corporate structure or capitalization affecting the Company's present Common Stock, at the time of such event the Board or the Committee shall make appropriate adjustments to the number (including the aggregate number specified in Section 4) and kind of shares to be issued under the Plan and the price of any Common Stock Payment and Purchase Price.

4. Amendment of the Plan.

The Board shall have the right to amend, modify, suspend or terminate the Plan at any time for any purpose; provided, that following the approval of the Plan by the Company's shareholders, the Company will seek shareholder approval for any change to the extent required by applicable law, regulation or rule.

5. Compliance with Section 16 of the Exchange Act.

It is the Company's intent that the Plan comply in all respects with Rule 16b-3. If any provision of this Plan is found not to be in compliance with such rule and regulations, the provision shall be deemed null and void, and the remaining provisions of the Plan shall continue in full force and effect. All transactions under this Plan shall be executed in accordance with the requirements of Section 16 of the Exchange Act and regulations promulgated thereunder. The Board or the Committee may, in its sole discretion, modify the terms and conditions of this Plan in response to and consistent with any changes in applicable law, rule or regulation.

6. Governing Law.

This Plan and all determinations made and actions taken pursuant hereto shall be governed by the law of the State of Delaware.

APPENDIX B

**BSD MEDICAL CORPORATION
SECOND AMENDED AND RESTATED
1998 STOCK INCENTIVE PLAN**

**BSD MEDICAL CORPORATION
SECOND AMENDED AND RESTATED
1998 STOCK INCENTIVE PLAN**

BSD MEDICAL CORPORATION, a Delaware corporation, (the "Company") adopts this Second Amended and Restated Stock Incentive Plan (the "Plan"), effective December 31, 2007, subject to stockholder approval.

1. Purpose. The purpose of this Plan is to enable the Company to attract and retain the services of and provide performance incentives to (1) selected employees, officers and directors of the Company or of any subsidiary of the Company ("Employees") and (2) selected nonemployee agents, consultants, advisors and independent contractors of the Company or any subsidiary.

2. Shares Subject to the Plan. Subject to adjustment as provided below and in paragraph 13, the shares to be offered under the Plan shall consist of shares of the common stock of the Company, par value \$.01 per share ("Shares"), and the total number of Shares that may be issued under the Plan shall not exceed three million four hundred twenty seven thousand three hundred (3,427,300) Shares, all of which may be issued pursuant to the exercise of options granted pursuant to the Plan. The Shares issued under the Plan may be authorized and unissued Shares or reacquired Shares or Shares acquired in the market. If any award granted under the Plan expires, terminates or is canceled, the unissued Shares subject to such award shall again be available under the Plan and if Shares which are awarded under the Plan are forfeited to the Company or repurchased by the Company, that number of Shares shall again be available under the Plan.

3. Effective Date and Duration of Plan.

(a) *Effective Date.* The Plan (as amended and restated) shall be effective on the date adopted by the Board of Directors, subject to stockholder approval. Awards may be granted and Shares may be awarded or sold under the Plan at any time after the effective date and before termination of the Plan.

(b) *Duration.* The Plan shall terminate ten years from the date the plan is adopted by the Board of Directors, or the date the plan is approved by the shareholders, whichever is earlier, subject to earlier termination by the Board of Directors. The Board of Directors may suspend or terminate the Plan at any time, except with respect to awards then outstanding under the Plan. Termination shall not affect the terms of any outstanding awards.

4. Administration.

(a) *Board of Directors.* The Plan shall be administered by the Board of Directors of the Company, which shall determine and designate from time to time the individuals to whom awards shall be made, the amount of the awards and the other terms and conditions of the awards. Subject to the provisions of the Plan, the Board of Directors may from time to time adopt and amend rules and regulations relating to the administration of the Plan, advance the lapse of any waiting period, accelerate any exercise date, waive or modify any restriction applicable to Shares (except those restrictions imposed by law) and make all other determinations in the judgment of the Board of Directors necessary or desirable for the

administration of the Plan. The interpretation and construction of the provisions of the Plan and related agreements by the Board of Directors shall be final and conclusive. The Board of Directors may correct any defect or supply any omission or reconcile any inconsistency in the Plan or in any related agreement in the manner and to the extent it shall deem expedient to carry the Plan into effect, and it shall be the sole and final judge of such expediency.

(b) *Committee.* The Board of Directors may delegate to a committee of the Board of Directors (the "Committee") any or all authority for administration of the Plan. If authority is delegated to a Committee, all references to the Board of Directors in the Plan shall mean and relate to the Committee except (i) as otherwise provided by the Board of Directors and (ii) that only the Board of Directors may amend or terminate the Plan as provided in paragraphs 3 and 14.

(c) *Officer.* The Board of Directors or the Committee, as applicable, may delegate to an executive officer of the Company authority to administer those aspects of the Plan that do not involve the designation of individuals to receive awards or decisions concerning the timing, amounts or other terms of awards. No officer to whom administrative authority has been delegated pursuant to this provision may waive or modify any restriction applicable to an award to such officer under the Plan.

5. Types of Awards; Eligibility. The Board of Directors may, from time to time, take the following actions, separately or in combination, under the Plan: (i) grant "Incentive Stock Options", as defined in section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), as provided in paragraph 6; (ii) grant options other than Incentive Stock Options ("Non-Statutory Stock Options") as provided in paragraph 6; (iii) award Shares as provided in paragraph 7; (iv) sell Shares subject to restrictions as provided in paragraph 8; (v) grant stock appreciation rights as provided in paragraph 9; (vi) grant cash bonus rights as provided in paragraph 10; (vii) grant Performance-based Rights as provided in paragraph 11 and (viii) grant foreign qualified awards as provided in paragraph 12. Any such awards may be made to Employees, including Employees who are officers or directors, and to other individuals described in paragraph 1 whom the Board of Directors believes have made or will make an important contribution to the Company or any subsidiary of the Company; provided, however, that only Employees shall be eligible to receive Incentive Stock Options under the Plan. The Board of Directors shall select the individuals to whom awards shall be made and shall specify the action taken with respect to each individual to whom an award is made. Unless otherwise determined by the Board of Directors with respect to an award, each option, stock appreciation right, cash bonus right or performance-based right granted pursuant to the Plan by its terms shall be nonassignable and nontransferable by the recipient, either voluntarily or by operation of law, except by will or by the laws of descent and distribution of the state or country of the recipient's domicile at the time of death. No fractional Shares shall be issued in connection with any award. In lieu of any fractional Shares, cash may be paid in an amount equal to the value of the fraction or, if the Board of Directors shall determine, the number of Shares may be rounded downward to the next whole share. No Employee may be granted options or stock appreciation rights under the Plan for more than an aggregate of 1,000,000 Shares in any consecutive three-year period.

6. Option Grants. With respect to each option grant, the Board of Directors shall determine the number of Shares subject to the option, the option price, the period of the option, the time or times at which the option may be exercised and whether the option is an Incentive Stock Option

or a Non-Statutory Stock Option and any other terms of the grant, all of which shall be set forth in an option agreement between the Company and the optionee. In the case of Incentive Stock Options, all terms shall be consistent with the requirements of the Code and applicable regulations. Upon the exercise of an option, the number of Shares reserved for issuance under the Plan shall be reduced by the number of Shares issued upon exercise of the option less the number of Shares surrendered or withheld in connection with the exercise of the option and the number of Shares surrendered or withheld to satisfy withholding obligations in accordance with paragraph 17.

7. Award of Shares. The Board of Directors may award Shares under the Plan as bonuses or otherwise. The aggregate number of Shares that may be awarded to any single participant pursuant to this provision shall not exceed 1,000,000 Shares. Shares awarded pursuant to this paragraph shall be subject to the terms, conditions, and restrictions determined by the Board of Directors. The Board of Directors may require the recipient to sign an agreement as a condition of the award, but may not require the recipient to pay any monetary consideration other than amounts necessary to satisfy tax withholding requirements. The agreement may contain any other terms, conditions, restrictions, representations and warranties required by the Board of Directors. The certificates representing the Shares awarded shall bear any legends required by the Board of Directors. Upon the issuance of a an award of Shares, the number of Shares available for issuance under the Plan shall be reduced by the number of Shares issued less the number of any Shares surrendered to satisfy withholding obligations in accordance with paragraph 17.

8. Purchased Shares. The Board of Directors may issue Shares under the Plan for such consideration (including promissory notes and services) as determined by the Board of Directors. Shares issued under the Plan shall be subject to the terms, conditions and restrictions determined by the Board of Directors. All Shares issued pursuant to this paragraph 8 shall be subject to a purchase agreement, which shall be executed by the Company and the prospective recipient of the Shares prior to the delivery of certificates representing such Shares to the recipient. The purchase agreement may contain any terms, conditions, restrictions, representations and warranties required by the Board of Directors. The certificates representing the Shares shall bear any legends required by the Board of Directors. Upon the issuance of purchased Shares, the number of Shares available for issuance under the Plan shall be reduced by the number of Shares issued less the number of any Shares surrendered to satisfy withholding obligations in accordance with paragraph 17.

9. Appreciation Rights.

(a) *Grant.* Stock appreciation rights may be granted under the Plan by the Board of Directors, subject to such rules, terms, and conditions as the Board of Directors prescribes.

(b) *Exercise.* Each stock appreciation right shall entitle the holder, upon exercise, to receive from the Company in exchange therefor an amount equal in value to the excess of the fair market value on the date of grant (or, in the case of a stock appreciation right granted in connection with an option, the excess of the fair market value of one Share over the option price per Share under the option to which the stock appreciation right relates), multiplied by the number of Shares covered by the stock appreciation right or the option, or portion thereof, that is

surrendered. Payment by the Company upon exercise of a stock appreciation right may be in Shares valued at fair market value, in cash, or partly in Shares and partly in cash, all as determined by the Board of Directors. The Board of Directors may withdraw any stock appreciation right granted under the Plan at any time and may impose any conditions upon the exercise of a stock appreciation right or adopt rules and regulations from time to time affecting the rights of holders of stock appreciation rights. Such rules and regulations may govern the right to exercise stock appreciation rights granted thereafter. Upon the exercise of a stock appreciation right for Shares, the number of Shares available for issuance under the Plan shall be reduced by the number of Shares issued less the number of any Shares surrendered or withheld to satisfy withholding obligations in accordance with paragraph 17. Cash payments for stock appreciation rights shall not reduce the number of Shares available for issuance under the Plan.

10. Cash Bonus Rights. The Board of Directors may grant cash bonus rights under the Plan in connection with (i) options granted or previously granted, (ii) stock appreciation rights granted or previously granted, (iii) Shares awarded or previously awarded and (iv) Shares sold or previously sold under the Plan. Cash bonus rights will be subject to rules, terms and conditions as the Board of Directors may prescribe. The payment of a cash bonus shall not reduce the number of Shares available for issuance under the Plan. A cash bonus right granted in connection with an option will entitle an optionee to a cash bonus when the related option is exercised (or terminates in connection with the exercise of a stock appreciation right related to the option) in whole or in part if, in the sole discretion of the Board of Directors, the bonus right will result in a tax deduction that the Company has sufficient taxable income to use. A cash bonus right granted in connection with an award of Shares pursuant to paragraph 7 or purchase of Shares pursuant to paragraph 8 will entitle the recipient to a cash bonus payable when the award of Shares is made or the Shares are purchased or restrictions, if any, to which the Shares are subject lapse. If the Shares awarded or purchased are subject to restrictions and are repurchased by the Company or forfeited by the holder, the cash bonus right granted in connection with the Shares awarded or purchased shall terminate and may not be exercised.

11. Performance-based Awards. The Board of Directors may grant awards intended to qualify as performance-based compensation under section 162(m) of the Code and the regulations thereunder ("Performance-based Awards"). Performance-based Awards shall be denominated at the time of grant either in Shares ("Stock Performance Awards") or in dollar amounts ("Dollar Performance Awards"). Payment under a Stock Performance Award or a Dollar Performance Award shall be made, at the discretion of the Board of Directors, subject to the limitations set forth in paragraph 2, in Shares ("Performance Shares"), or in cash or any combination thereof. Performance-based Awards shall be subject to the following terms and conditions:

(a) *Award Period.* The Board of Directors shall determine the period of time for which a Performance-based Award is made (the "Award Period").

(b) *Performance Goals and Payment.* The Board of Directors shall establish in writing objectives ("Performance Goals") that must be met by the Company or any subsidiary, division or other unit of the Company ("Business Unit") during the Award Period as a condition to payment being made under the Performance-based Award. The Performance Goals for each award shall be one or more targeted levels of performance with respect to one or more of the

following objective measures with respect to the Company or any Business Unit: earnings, earnings per Share, stock price increases, total shareholder return (stock price increase plus dividends), return on equity, return on assets, return on capital, economic value added, revenues, operating income, cash flows or any of the foregoing (determined according to criteria established by the Board of Directors). The Board of Directors shall also establish the number of Performance Shares or the amount of cash payment to be made under a Performance-based Award if the Performance Goals are met or exceeded, including the fixing of a maximum payment (subject to paragraph 11(d)). The Board of Directors may establish other restrictions to payment under a Performance-based Award, such as a continued employment requirement, in addition to satisfaction of the Performance Goals. Some or all of the Performance Shares may be issued at the time of the award as restricted Shares subject to forfeiture in whole or in part if Performance Goals, or if applicable, other restrictions are not satisfied.

(c) *Computation of Payment.* During or after an Award Period, the performance of the Company or Business Unit, as applicable, during the period shall be measured against the Performance Goals. If the Performance Goals are not met, no payment shall be made under a Performance-based Award. If the Performance Goals are met or exceeded, the Board of Directors shall certify that fact in writing and certify the number of Performance Shares earned or the amount of cash payment to be made under the terms of the Performance-based Award.

(d) *Maximum Awards.* No participant may receive Stock Performance Awards in any fiscal year under which the maximum number of Shares issuable under the award, when aggregated with the Shares issuable under any awards made in the immediately preceding two fiscal years, exceeds 1,000,000 Shares or Dollar Performance Awards in any fiscal year under which the maximum amount of cash payable under the award, when aggregated with the amount of cash payable under awards made in the immediately preceding two fiscal years, exceeds an aggregate of \$5,000,000.

(e) *Effect on Shares Available.* The payment of a Performance-based Award in cash shall not reduce the number of Shares available for issuance under the Plan. The number of Shares available for issuance under the Plan shall be reduced by the number of Shares issued upon payment of an award, less the number of Shares surrendered or withheld to satisfy withholding obligations.

12. Foreign Qualified Grants. Awards under the Plan may be granted to such Employees and such other persons described in paragraph 1 residing in foreign jurisdictions as the Board of Directors may determine from time to time. The Board of Directors may adopt such supplements to the Plan as may be necessary to comply with the applicable laws of such foreign jurisdictions and to afford participants favorable treatment under such laws; provided, however, that no award shall be granted under any such supplement with terms that are more beneficial to the participants than the terms permitted by the Plan.

13. Changes in Capital Structure.

(a) *Share Splits and Dividends.* If the number of outstanding Shares of the Company is hereafter increased or decreased or changed into or exchanged for a different number or kind of securities of the Company by reason of any Share split, combination or dividend payable in

Shares, recapitalization or reclassification, appropriate adjustment shall be made by the Board of Directors in the number and kind of Shares available for grants under the Plan. In addition, the Board of Directors shall make appropriate adjustment in the number and kind of Shares as to which outstanding options, or portions thereof then unexercised, shall be exercisable, so that the optionee's proportionate interest before and after the occurrence of the event is maintained. Notwithstanding the foregoing, the Board of Directors shall have no obligation to effect any adjustment that would or might result in the issuance of fractional Shares, and any fractional Shares resulting from any adjustment may be disregarded or provided for in any manner determined by the Board of Directors. Any such adjustments made by Board of Directors shall be conclusive.

(b) *Mergers, Reorganizations, Etc.* The Board of Directors may include such terms and conditions, including without limitation, provisions relating to acceleration in the event of a change in control, as it deems appropriate in connection with any award under the Plan with respect to a merger, consolidation, plan of exchange, acquisition of property or stock, separation, reorganization or liquidation to which the Company or a subsidiary is a party or a sale or all or substantially all of the Company's assets (each, a "Transaction"). Notwithstanding the foregoing, in the event of a Transaction, the Board of Directors shall, in its sole discretion and to the extent possible under the structure of the Transaction, select one or the following alternatives for treating outstanding Incentive Stock Options or Non-Statutory Stock Options under the Plan:

(i) Outstanding options shall remain in effect in accordance with their terms;
or

(ii) Outstanding options shall be converted into options to purchase securities issued by the company that is surviving or acquiring company in the Transaction. The amount, type of securities subject thereto and exercise price of the converted options shall be determined by the Board of Directors of the Company, taking into account the relative values of the companies involved in the Transaction and the exchange rate, if any, used in determining securities of the surviving corporation to be issued to holders of Shares of the Company. Unless otherwise determined by the Board of Directors, the converted options shall be vested only to the extent that the vesting requirements relating to options granted hereunder have been satisfied; or

(iii) The Board of Directors shall provide a 30-day period prior to the consummation of the Transaction during which outstanding options may be exercised to the extent then exercisable, and upon the expiration of such 30-day period, all unexercised options shall immediately terminate. The Board of Directors may, in its sole discretion, accelerate the exercisability of options so that they are exercisable in full during such 30-day period.

(c) *Dissolution of the Company.* In the event of the dissolution of the Company, options shall be treated in accordance with paragraph 13(b)(iii).

(d) *Rights Issued by Another Corporation.* The Board of Directors may also grant options, stock appreciation rights, performance units, stock bonuses and cash bonuses and issue restricted stock under the Plan having terms, conditions and provisions that vary from those

specified in this Plan provided that any such awards are granted in substitution for, or in connection with the assumption of, existing options, stock appreciation rights, stock bonuses, cash bonuses, restricted stock and performance units granted, awarded or issued by another corporation and assumed or otherwise agreed to be provided for by the Company pursuant to or by reason of a Transaction.

14. Amendment of Plan. The Board of Directors may at any time, and from time to time, modify or amend the Plan in such respects as it shall deem advisable because of changes in the law while the Plan is in effect or for any other reason. Except as provided in paragraphs 9, 10 and 13, however, no change in an award already granted shall be made without the written consent of the holder of such award.

15. Approvals. The obligations of the Company under the Plan are subject to the approval of state and federal authorities or agencies with jurisdiction in the matter. The Company will use its best efforts to take steps required by state or federal law or applicable regulations, including rules and regulations of the Securities and Exchange Commission and any stock exchange on which the Company's Shares may then be listed, in connection with the grants under the Plan. The foregoing notwithstanding, the Company shall not be obligated to issue or deliver Shares under the Plan if such issuance or delivery would violate applicable state or federal securities laws.

16. Employment and Service Rights. Nothing in the Plan or any award pursuant to the Plan shall (i) confer upon any Employee any right to be continued in the employment of the Company or any subsidiary or interfere in any way with the right of the Company or any subsidiary by whom such Employee is employed to terminate such Employee's employment at any time, for any reason, with or without cause, or to decrease such Employee's compensation or benefits, or (ii) confer upon any person engaged by the Company any right to be retained or employed by the Company or to the continuation, extension, renewal, or modification of any compensation, contract, or arrangement with or by the Company.

17. Taxes. Each participant who has received an award under the Plan shall, upon notification of the amount due, pay to the Company in cash amounts necessary to satisfy any applicable federal, state and local withholding requirements. If the participant fails to pay the amount demanded, the Company may withhold that amount from other amounts payable by the Company to the participant including salary, subject to applicable law. With the consent of the Board of Directors, a participant may satisfy this withholding obligation, in whole or in part, by having the Company withhold from any Shares to be issued that number of Shares that would satisfy the amount due or by delivering Shares to the Company to satisfy the withholding amount.

18. Rights as a Shareholder. The recipient of any award under the Plan shall have no rights as a shareholder with respect to any Shares until the date of issue to the recipient of a stock certificate for such Shares. Except as otherwise expressly provided in the Plan, no adjustment shall be made for dividends or other rights for which the record date occurs prior to the date such stock certificate is issued.

APPENDIX C

FORM OF PROXY

BSD MEDICAL CORPORATION

SOLICITED BY THE BOARD OF DIRECTORS FOR THE ANNUAL MEETING OF STOCKHOLDERS TO BE HELD FEBRUARY 1, 2008

The undersigned hereby constitutes, appoints and authorizes Paul F. Turner and Hyrum A. Mead and each of them, the true and lawful attorneys and Proxies of the undersigned with full power of substitution and appointment, for and in the name, place and stead of the undersigned, to act for and vote as designated below, all of the undersigned's shares of the common stock of BSD Medical Corporation, a Delaware corporation, at the Annual Meeting of Stockholders to be held at 9:00 A.M. Mountain Time, on February 1, 2008, at The Grand America Hotel located at 555 South Main Street, Salt Lake City, Utah, and at any and all adjournments thereof, for the following purposes:

1. To elect five (6) Directors:

For all nominees listed below (except as marked to the contrary):

Withhold authority to vote for the nominees listed below:

Paul F. Turner	Hyrum A. Mead
Gerhard W. Sennewald	Michael Nobel
Douglas P. Boyd	Steven G. Stewart

(INSTRUCTION: To withhold authority to vote for any individual nominee, draw a line through or otherwise strike out his name. If authority to vote for the election of any nominee is not withheld, the execution of this Proxy shall be deemed to grant such authority.)

2. To approve the amendment and restatement of the Amended and Restated 1998 Director Stock Plan to increase the number of shares of common stock reserved for issuance under from 1,000,000 to 1,500,000.

FOR AGAINST ABSTAIN

- (3-5) To approve the amendment and restatement of the Company's Amended and Restated 1998 Employee Stock Option Plan to:

3. Increase the number of shares of common stock reserved for issuance from 2,677,300 to 3,427,300;

FOR AGAINST ABSTAIN

4. Increase the number of shares that may be awarded to each participant; and

FOR AGAINST ABSTAIN

5. Extend the termination date of the plan from February 9, 2008 to ten years from the date the plan is adopted by the Board of Directors, or the date the plan is approved by the shareholders, whichever is earlier, subject to earlier termination by the Board of Directors.

FOR AGAINST ABSTAIN

6. To approve the selection of Tanner LC as the Company's independent registered public accounting firm for the fiscal year ending August 31, 2008.

FOR AGAINST ABSTAIN

7. To transact such other business as may properly come before the meeting, or any adjournment thereof.

FOR AGAINST ABSTAIN

The undersigned hereby revokes any Proxies as to said shares heretofore given by the undersigned, and ratifies and confirms all that said attorneys and Proxies may lawfully do by virtue hereof.

THIS PROXY WHEN PROPERLY EXECUTED WILL BE VOTED IN THE MANNER DIRECTED HEREIN BY THE UNDERSIGNED STOCKHOLDER. IF NO DIRECTION IS MADE, THIS PROXY WILL BE VOTED FOR ALL PROPOSALS. THIS PROXY CONFERS DISCRETIONARY AUTHORITY IN RESPECT TO MATTERS NOT KNOWN OR DETERMINED AT THE TIME OF THE MAILING OF THE NOTICE OF THE ANNUAL MEETING OF STOCKHOLDERS TO THE UNDERSIGNED.

The undersigned hereby acknowledges receipt of the Notice of Annual Meeting of Stockholders and Proxy Statement furnished herewith.

DATED: _____

Signature

Signature(s) should agree with the name(s) shown hereon. Executors, administrators, trustees, guardians and attorneys should indicate their capacity when signing. Attorneys should submit powers of attorney.

THIS PROXY IS SOLICITED ON BEHALF OF THE BOARD OF DIRECTORS OF BSD MEDICAL CORPORATION. PLEASE SIGN AND RETURN THIS PROXY IN THE ENCLOSED ENVELOPE . THE GIVING OF A PROXY WILL NOT AFFECT YOUR RIGHT TO VOTE IN PERSON IF YOU ATTEND THE MEETING.

(State or other jurisdiction of
incorporation or organization)

75-1590407
(I.R.S. Employer
Identification No.)

2188 West 2200 South, Salt Lake City, Utah
(Address of principal executive office)

84119
(Zip Code)

Registrant's telephone number, including area code: (801) 972-5555

Securities registered pursuant to Section 12(b) of the Act: None

Securities registered pursuant to Section 12(g) of the Act: Common Stock, Par Value \$.001

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.
Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.)
Yes No

State the registrant's revenues for its most recent fiscal year: \$2,834,386

As of October 29, 2007, the registrant had 21,288,333 shares of its common stock, par value \$.001, outstanding. The aggregate market value of the common stock held by non-affiliates of the registrant as of October 29, 2007 was approximately \$73,490,000.

Documents Incorporated by Reference: Portions of the definitive Proxy Statement to be delivered to shareholders in connection with the Annual Meeting of Shareholders to be held January 28, 2008, are incorporated by reference into Part III hereof

PART I

ITEM 1. BUSINESS

Overview

BSD Medical Corporation develops, manufactures, markets and services medical systems that deliver precision-focused radio frequency (RF) or microwave energy into diseased sites of the body, heating them to specified temperatures as required by a variety of medical therapies. Our business objectives are to commercialize our products developed for the treatment of cancer and to further expand our developments to treat other diseases and medical conditions. Our product line for cancer therapy has been created to offer hospitals and clinics a complete solution for thermal treatment of cancer as provided through microwave/RF systems. We consider our operations to comprise one business segment.

While our primary developments to date have been cancer treatment systems, we also pioneered the use of microwave thermal therapy for the treatment of symptoms associated with enlarged prostate, and we are responsible for much of the technology that has successfully created a substantial new medical industry addressing the needs of men's health. In accordance with our strategic plan, we subsequently sold our interest in TherMatrx, Inc., the company established to commercialize our technology to treat enlarged prostate symptoms, to provide substantial funding that we can utilize for commercializing our systems used in the treatment of cancer and in achieving other business objectives.

In spite of the advances in cancer treatment technology, over 40% of cancer patients continue to die from the disease in the United States, and cancer has now surpassed heart disease as the number one killer from all causes of death in the United States. Commercialization of our systems used to treat cancer, including the BSD-2000 and BSD-500 families of systems and the new MicroThermX 100 microwave thermal ablation system, is our most immediate business objective. Our BSD-2000 and BSD-500 cancer treatment systems are used to treat cancer with heat while boosting the effectiveness of radiation and chemotherapy through a number of biological mechanisms. Our MicroThermX 100 system is used to treat cancer with heat alone. Current and targeted cancer treatment sites for our systems include cancers of the prostate, breast, head, neck, bladder, cervix, colon/rectum, esophagus, liver, brain, bone, stomach and lung. Our cancer treatment systems have been used to treat thousands of patients throughout the world, and have received much notoriety, including the 2005 Frost & Sullivan "Technology Innovation of the Year Award" for cancer therapy devices awarded for the development of the BSD-2000.

Our BSD-2000 systems are used to non-invasively treat cancers located deeper in the body, and are designed to be companions to the estimated 7,500 linear accelerators used to treat cancer through radiation and in combination with chemotherapy treatments. Our BSD-500 systems treat cancers on or near the body surface and those that can be approached through body orifices such as the throat, the rectum, etc., or through interstitial treatment in combination with interstitial radiation (brachytherapy). BSD-500 systems can be used as companions to our BSD-2000 systems and the estimated 2,500 brachytherapy systems installed, as well as with chemotherapy treatments. The MicroThermX 100 system is used to treat cancers that are prescribed for treatment with heat alone.

Based on our management team's knowledge of the market, we believe that the fully saturated potential market for these developed cancer therapy systems is in excess of \$5 billion. We also project an after-market opportunity based on service agreements that equates to approximately 15% of the purchase price of our systems per year. We believe that the replacement cycle for our systems, based on advances in software, hardware and other components, will average 5-7 years. Our financial model in the higher production environment of established commercial sales is to achieve a 60% gross margin

on systems and an 80% gross margin on service agreements and disposable applicators used with our MicroThermX 100 system.

We have received United States Food and Drug Administration, or FDA, approval to market our commercial version of the BSD-500, and in March 2006, we completed a submission for FDA approval to sell the BSD-2000 in the United States. The submission seeking FDA approval for the MicroThermX 100 system is currently being prepared. We have designed our cancer therapy systems such that together they are capable of providing treatment for most solid tumors located virtually anywhere in the body.

Although we have not entered these markets, we also believe that our technology has application for a number of other medical purposes, including the treatment of such conditions as psoriasis, arthritis, fibroids, hemorrhoids, menorrhagia (excessive menstrual bleeding), benign tumors and cysts. We believe our technology is also applicable to treating special medical problems such as sleep apnea and for certain cosmetic uses. Our mission is to develop the full spectrum of medical uses for our special competence in precision-focused RF/microwave systems, and to broadly apply the utilization of our technology to treat cancer and benign diseases and conditions.

On June 9, 2005, our common stock began trading on the American Stock Exchange (“AMEX”) under the symbol “BSM.”

The Sale of TherMatrx

One of our important contributions to the advancement of medical therapy has been our pioneering work in developing a new treatment for conditions associated with enlargement of the prostate that afflicts most men as they age. As the prostate enlarges it constricts urine flow. The condition is known medically as benign prostatic hyperplasia or BPH. We developed a technology that allows men to be treated for BPH through an outpatient procedure as an alternative to surgery or a lengthy regimen of medication.

We determined early in our planning that we would treat our development of BPH therapy as a spin-off business with the intent of providing funding for our primary business objectives. As a result, we introduced the opportunity to investment groups and subsequently on October 31, 1997 entered into an agreement with investors Oracle Strategic Partners, L. P. and Charles Manker. Together we established a new company, TherMatrx, Inc. TherMatrx received capital from these investors to conduct clinical trials, and after obtaining FDA approval in July 2001, the funding to commercialize the development. We were compensated for providing manufacturing, regulatory and engineering support to assure the success of the new company.

On July 15, 2004, TherMatrx, Inc. was sold to American Medical Systems Holdings, Inc. (AMS). Our part of the total proceeds from this sale was approximately 25%. A portion of the payout from the sale was based on contingency payments. By the close of fiscal 2006, we had concluded the receipt of contingency payments from the TherMatrx sale; the payout to us, including contingency payments, being approximately \$33.5 million. In April 2007, the Company received an additional \$202,223 in proceeds from the sale of TherMatrx.

Our Contributions to Cancer Therapy

Despite the massive attention given to cancer prevention and treatment, the American Cancer Society estimates that 1,444,920 new cancer cases will be diagnosed and that 559,650 Americans will die from cancer during 2007. In the United States the chance of developing cancer during a person’s lifetime is one in two for men and one in three for women. Cancer develops when abnormal cells in a part of the body begin to grow out of control and spread to other parts of the body.

Our cancer treatment systems have been developed to both kill cancer directly with heat and to increase the effectiveness of the primary cancer treatment used with it. The primary cancer therapies currently used include:

- Radiation therapy, which is treatment with high-energy rays to kill or shrink cancer cells. The radiation may come from outside of the body (external radiation) or from radioactive materials placed directly in a tumor (internal or implant radiation, sometimes called brachytherapy).
- Chemotherapy, which is treatment with drugs to destroy cancer cells.
- Surgery, which is the resection, or removal, of a tumor or organ of the body.

Some cancers, such as certain cancers of the liver, prostate, bone metastases and even lung cancer can be killed using heat alone. For these treatments we have developed the MicroThermX 100 thermal ablation system that is used to kill cancerous tumors at high temperatures as a stand-alone therapy.

The treatment of many cancers is generally prescribed with one or more of the primary cancer therapies noted above. Because cancer remains a leading cause of death, these three cancer therapies are still grossly inadequate, and an enormous need for better treatment is obvious. We have engineered systems designed to increase the effectiveness of these cancer treatments through the use of precision-focused RF/microwave energy to selectively heat cancer, creating “hyperthermia” in cancerous tumors. Hyperthermia is an emerging cancer therapy that both kills cancer cells directly and has been shown to be a potent additive treatment in making certain of the major existing cancer therapies more effective for some cancers.

Hyperthermia therapy has been shown to substantially improve the results from cancer treatments for a variety of tumors. Completed randomized clinical trials in which the effectiveness of radiation therapy combined with hyperthermia therapy was compared with the results of radiation therapy alone in cancer treatment produced the following results: For melanoma, after two years, local control (local regression or disappearance of the tumor) was 28% for the control group of patients who received radiation therapy alone versus 46% local control for the patients who received both hyperthermia and radiation therapy. For recurrent breast cancer, the complete response rate (complete disappearance of the tumor) increased from 38% for those receiving radiation therapy alone to 60% for those patients who received both hyperthermia and radiation therapy. For glioblastoma (brain cancer), the two-year survival rate for patients who received radiation therapy alone was 15%, compared to 31% survival rate two years after treatment for those who received both hyperthermia and radiation therapy. For advanced cervical cancer, the complete response rate (disappearance of the tumor) rose from 57% for patients who received radiation treatments alone to 83% for patients receiving both hyperthermia and radiation therapy. The cervical cancer data was based on the condition of patients three years after treatment.

Cancerous tumors are uncontrolled growths of mutated cells that require more energy to survive than do cells of normal tissue. As cancer cells grow rapidly, they tend to outstrip their blood supply, leaving them oxygen-starved, since there is not enough blood to carry sufficient oxygen to these cells. Oxygen-starved cancer cells are resistant to radiation therapy because the destructive power of radiation therapy depends heavily on tearing apart the oxygen molecules located in cancer cells. When oxygen molecules are torn apart, they form oxygen radicals that can attack cancer cell DNA. Blood depletion also makes cancer resistant to chemotherapy, where blood transport is required to deliver the drug into the tumor. Our hyperthermia therapy systems precisely deliver microwave energy to elevate the temperature of tumors, usually between 40°C and 45°C (104°F to 113°F). The elevated temperatures draw blood to the tumor as the body’s natural response to the stimulus of heat. The

increased blood supply to the tumor improves delivery of drugs to tumors in chemotherapy. It also delivers more oxygen to the tumor, increasing the effectiveness of radiation therapy.

While sensitizing tumors for more effective treatment from radiation and/or chemotherapy, hyperthermia also destroys cancer cells directly through damage to the plasma membrane, the cytoskeleton and the cell nucleus, and by disrupting the stability of cellular proteins. Tumors with poor blood supply systems lack the natural cooling capacity provided by efficient blood flow in normal tissues, making them selectively susceptible to the cancer-destructive effects of hyperthermia therapy.

Hyperthermia has other therapeutic uses. It can be used to shrink tumors prior to surgery, potentially making resection easier or even possible. Research has shown hyperthermia to be an activator for gene therapies by speeding gene production (heat mediated gene therapy). Hyperthermia may play a role in the development of new anti-tumor vaccines that are based on the production of heat shock proteins. Research has shown hyperthermia to be an angiogenesis inhibitor, which means it helps prevent cancer from inducing growth of new blood vessels to expand its blood supply. Hyperthermia could also become a follow-up therapy for other angiogenesis inhibitors, used in the final destruction of cancer cells depleted of blood by angiogenesis inhibitor therapy. Hyperthermia has been shown to improve a patient's quality of life. Even in situations where there is no hope for survival, hyperthermia may provide benefits through alleviation of such effects of cancer as bleeding, pain and infection.

Since the founding of the Company, we have been heavily involved in developing technological advances to expand the use of hyperthermia therapy for the treatment of cancer. Our efforts have included joint work with many notable cancer research centers in the United States and Europe. In past years, funding for our research efforts has been provided by such sources as the National Institutes of Health in the United States and major European government agencies. In recent years, we have focused our efforts in perfecting the technology required to precisely deliver deep, non-invasive hyperthermia therapy for the treatment of pelvic and other deep cancers and to demonstrate effective use of deep hyperthermia through clinical trials. We believe that our BSD-2000 system has emerged from this development effort as the world's most advanced system for hyperthermia therapy.

We have developed various technologies for heating cancerous tumors, depending on their location in the body. Through our developments, cancers such as melanomas or recurrent breast cancer located near the surface of the body can be treated with superficial cancer treatment applicators and systems. Cancers that can be accessed through natural body orifices, or that are accessible through catheters inserted into the tumor as part of invasive radiation techniques (such as used to treat prostate cancer or head and neck cancer) can be treated with tiny, inserted antennae that we have developed to deliver focused microwave energy into the cancerous tissue. We have also developed systems to non-invasively treat cancers located deep in the body by focusing electromagnetic energy on the cancer through a cylindrical applicator that surrounds the body. This cylindrical applicator contains an array of multiple antennae that focus radio frequency energy, and therefore heat, on the tumor. Temperature levels for treatments are monitored through small temperature sensors, and some of our systems can be interfaced with magnetic resonance imaging, or MRI, so that the treatment in progress can be observed, and temperatures can be monitored through images colorized to depict gradation of temperature levels (thermography).

Our BSD-500 is used to treat cancers located near the surface of the body, or areas that can be accessed using inserted antennae. The BSD-500 comes in several versions, depending on the customer requirements. The BSD-2000 is used to non-invasively treat deep cancers. This system also comes in several versions, including models with three dimensional, or 3D, steering of electromagnetic energy, as well as the ability to be integrated with MRI.

The BSD-500 has received FDA approval. In addition, the system has gone through an extensive revision, and has obtained two major FDA supplements to this approval that have been necessary to allow its commercial introduction.

The BSD-2000 does not currently have FDA approval except as an investigational device, however, the phase III clinical trial that we have used to apply for the FDA approval has been concluded and published in a major journal. Formal submission for FDA approval of the BSD-2000 was made in March 2006. We sought and obtained regulatory approval for the sale of the BSD-2000 in the People's Republic of China during 2005.

The MicroThermX 100 thermal ablation system was announced in 2006 and does not yet have FDA approval. Preparation for the FDA submission is currently underway.

Most of our sales of cancer therapy systems over recent past periods have been to cancer research institutions for use in conducting clinical trials with our equipment. As a company, we are now in the early stages of marketing the new commercial version of the BSD-500. Obtaining FDA approval for the BSD-2000 and the MicroThermx 100 would greatly contribute to our sales efforts by providing the additional technology required for the treatment of solid tumors located virtually anywhere in the body.

Our Products and Services

We have developed the technology and products required to approach thermal ablation and hyperthermia cancer therapy through three different techniques, which collectively allow cancer to be treated virtually anywhere in the body:

- Thermal ablation destroys cancer at high temperatures through focused microwave energy.
- Superficial hyperthermia non-invasively treats cancerous tumors located within a few centimeters of the surface of the body, such as melanoma and recurrent breast cancer.
- Internal or interstitial hyperthermia treats tumors in combination with internal radiation therapy by inserting tiny microwave antennae that deliver hyperthermic microwave energy to tumors through the same catheters used to deliver radioactive materials, or “seeds,” to tumors for radiation therapy. This technique can be employed in treating prostate cancer, breast cancer, head and neck cancer and a variety of other cancer sites.
- Deep hyperthermia non-invasively treats tumors located deep within the body, including many problematic cancer sites located in the pelvis, abdomen and chest areas.

MicroThermX 100. Our MicroThermX 100 has been developed to treat cancerous tissue percutaneously, laparoscopically or surgically. The MicroThermX 100 utilizes precision-guided microwave energy to ablate cancerous tissue. The MicroThermX 100 includes a computer driven control system, temperature sensors and a disposable applicator. The system is currently being prepared for FDA 510(k) clearance. The advanced features and capabilities of the MicroThermX 100 were made possible by our years of research, design and development in the discipline of thermal medicine technology, supported by leading research centers throughout the world (see reference to these in the section for the BSD-2000). Disposable applicators for the MicroThermX 100 are used to treat different types of tumors, and are especially designed according to the method by which they will be used in treatment, whether by surgeons or interventional radiologists.

BSD-500 Systems. Our BSD-500 systems are used to deliver either superficial or interstitial hyperthermia therapy or both. There are four configurations of the BSD-500. The BSD-500i-4 and

BSD-500i-8 provide interstitial hyperthermia treatment using four or eight channel generators, respectively. Each channel can control three interstitial applicators. The BSD-500c-4 and BSD-500c-8 provide both superficial and interstitial hyperthermia treatments using four or eight channel generators. These systems include a touch screen display monitor by which the operator controls the hyperthermia treatment, computer equipment and software that controls the delivery of microwave energy to the tumor, and a generator that creates the needed microwave energy for the treatment. Additionally, the systems include a variety of applicators, depending on each system configuration. Non-invasive superficial applicators are used for superficial hyperthermia treatments. For interstitial hyperthermia treatments, the system may include up to 24 tiny microwave heat-delivering antennae that are inserted into catheters used in the standard practice for internal radiation therapy (called brachytherapy).

We have received FDA approval through FDA supplements for implementation of a new operating system and other commercial upgrades, allowing us to commercially introduce this new family of four systems. Our primary FDA approval (described as a pre-market approval, or PMA, the standard FDA approval required to market Class III medical devices in the United States) for the BSD-500 family of systems is applicable to the marketing of all four configurations of the BSD-500 in the United States. We have also certified the BSD-500 systems for the CE Mark, which is required for export into some European countries.

BSD-2000. The BSD-2000 family of products includes the BSD-2000, the BSD-2000/3D and the BSD-2000/3D/MR. These systems non-invasively deliver hyperthermic microwave energy to cancerous tumors, including those located deep within the body. These systems include a computer and software that control the delivery of microwave energy to the tumor, a microwave energy generator, an amplifier that boosts the microwave power, and a special applicator that delivers the microwave energy to the patient lying in a prone position on a specially designed support table. The BSD-2000 systems are able to direct, focus and deliver microwave energy deep within the body by precisely “steering” the energy to the tumor from a cylindrical array of antennae. The basic BSD-2000 has eight microwave antennae enabling this electronic steering of energy within the patient’s body. The BSD-2000/3D has 24 microwave antennae enabling additional electronic steering along the long axis of the body. The 3D steering is particularly useful when implemented with a magnetic resonance system that is capable of non-invasive 3D imaging showing the heated regions, thus permitting the 3D steering to more accurately target the energy to the tumor site.

The BSD-2000 systems have not yet received pre-market approval from the FDA for commercial marketing in the United States, but the BSD-2000 has obtained an investigational device exemption, or IDE, for sale in the United States for research purposes only. We have also certified the BSD-2000 family for the CE Mark required for export into certain European countries and have obtained regulatory approval for the sale of the BSD-2000 in the People’s Republic of China. We are engaged in the extensive process of supporting the review of an FDA submission requesting a PMA for the BSD-2000 based on clinical data we have already obtained. While we believe that this data has great merit and is worthy of submission, due to the inherent uncertainties of the FDA approval process there can be no assurance that FDA approval will be obtained through our submissions.

Development of the BSD-2000, the BSD-2000/3D and the BSD-2000/3D/MR has required substantial effort involving the cooperative work of such American research institutions as Duke University, Northwestern University, University of Southern California, Stanford University, University of Utah and University of Washington St. Louis. Contributing European research institutions include Daniel den Hoed Cancer Center of the Academisch Ziekenhuis (Rotterdam, Netherlands), Haukeland University Hospital (Bergen, Norway), Dusseldorf University Medical School, Tübingen University Medical School, Essen University Hospital, Charité Medical School of Humboldt University (Berlin), Luebeck University Medical School, Munich University Medical School Grosshadern, Interne Klinik Argirov of the Munich Comprehensive Cancer Center, University of

Erlangen (all of Germany), University of Verona Medical Center (Italy), Graz University Medical School (Austria) and Kantonsspital Aarau (Switzerland).

BSD-2000/3D. Through research funded by the National Cancer Institute in the United States and supportive efforts by other domestic and international research institutions, we enhanced the BSD-2000 to create the new BSD-2000/3D. The BSD-2000/3D adds three-dimensional steering of deep focused energy, as opposed to the two-dimensional steering of energy available in the BSD-2000, delivering even more precise heating the tumor. As part of our international collaborative research efforts, sophisticated treatment planning software for the BSD-2000/3D has also been developed.

As previously noted, we have not yet submitted to the FDA a pre-market approval application for the BSD-2000/3D. However, we have obtained the CE Mark necessary to export the BSD-2000/3D to certain European countries and other countries requiring CE Mark certification.

BSD-2000/3D/MR. As a further enhancement of the BSD-2000/3D, we have added to it the option of concurrent magnetic resonance imaging, or MRI, used for monitoring the delivery of deep hyperthermia therapy. Using sophisticated microwave filtering and imaging software, the BSD-2000/3D/MR allows an MRI system to be interfaced with and operate simultaneously with a BSD-2000/3D. The development of MRI treatment monitoring is a significant breakthrough in the development of hyperthermic oncology primarily because it allows non-invasive “on-line” review of hyperthermic treatment progress.

We installed and tested the first BSD-2000/3D/MR system at a leading German oncological research institution, the Clinic of Medical Oncology of the Klinikum Großhadern Medical School of Ludwigs-Maximilians-Universität München, in Munich, Germany. We installed a second BSD-2000/3D/MR system at the Department of Radiology of Charité University Medical School of Humboldt University in Berlin, Germany, as part of a collaborative effort with Siemens Medical Systems. The funding for purchase and development of these systems was provided by the German government and public foundation funds.

As is the case for the BSD-2000/3D, we have not yet submitted to the FDA a pre-market approval application for the BSD-2000/3D/MR. We can, however, market the BSD-2000/3D/MR in Europe as we have CE Mark approval for the BSD-2000/3D provided we interface the system with an MRI system that also is approved in Europe.

Sales, Marketing and Distribution

Our target market includes clinics, hospitals and institutes in which cancer is treated, whether in the United States or international markets.

In September 2004, we entered into an agreement with Dalian Orientech Co. LTD to assist us in obtaining regulatory approval for the sale of the BSD-2000 in the People’s Republic of China, and thereafter to act as our distributor for the sale of the BSD-2000 in that country. We subsequently obtained Chinese regulatory approval during 2005, allowing the distributor to begin to market in that country, opening the way for BSD-2000 systems to be sold and installed in hospitals in China.

In August 2006, we engaged Richter7 as a public relations agency. Richter7 has broad experience in the medical and healthcare industry. They have worked with companies such as Medtronic, Ultradent, Myriad Genetics, Siemens, Stryker/Howmedica and others to build awareness and recognition of new products in the marketplace.

Anticipating an expanding need for present and future sales and marketing, especially with the potential FDA approval for the BSD-2000 and the MicroThermX 100, we hired Brian Ferrand, a

seasoned Vice President of Sales, in September 2005, and maintain a sales, marketing and marketing support organization of ten people. The primary mission of this group is to provide sales and pre-market preparation for our systems.

Medizin Technik is our exclusive distributor of hyperthermia systems in Germany, Austria and Switzerland and to certain medical institutions in Belgium and the Netherlands. Medizin Technik is required to use best efforts to sell our product within its territory. Due to the limited number of systems that are sold through this relationship, we do not have pre-negotiated price terms with Medizin Technik. If Medizin Technik identifies a potential customer, it will negotiate the price of a hyperthermia system with us, purchase the system, and resell the system to the customer on terms it negotiates with the customer. Our distributorship agreement with Medizin Technik runs from year-to-year and may be terminated by either party by providing written notice to the other party before December 31 and automatically terminates upon the occurrence of certain events, including the retirement or death of Dr. Sennewald. Dr. Sennewald is a director and shareholder of BSD and of Medizin Technik.

Our sales and marketing strategy involves three main components:

- promoting acceptance by the scientific community and cancer-treating healthcare professionals of hyperthermia therapy;
- disseminating information about and marketing our hyperthermia therapy systems to the scientific community, cancer-treating healthcare professionals, cancer patients and the general public; and
- working to continuously improve third-party reimbursement for medical services performed with our products.

We disseminate information about our company and our hyperthermia therapy systems by encouraging articles about hyperthermia therapy to be published in scientific journals, periodicals and other publications, and promoting dissemination of BSD information through television, radio and other media outlets. We post information about our products on our web site, www.BSDMedical.com, and our materials are also posted on many other sites. We have developed promotional materials for our products, including product brochures, patient brochures and newsletters. We also participate actively in trade shows and scientific symposia, make public presentations delivered by our scientific staff and by scientists and researchers using our systems, and we actively participate in a variety of medical associations. We are co-sponsors of the annual international BSD Users' Conference in Europe and are sponsors of the Society of Thermal Medicine and the American Society of Therapeutic Radiation and Oncology (ASTRO) in the United States.

Third-Party Reimbursement

We view obtaining adequate third-party reimbursement arrangements as essential to achieving commercial acceptance of our hyperthermia therapy products. Our products are purchased primarily by clinics, hospitals and other medical institutions that bill various third-party payors, such as Medicare, Medicaid, other government programs and private insurance plans, for the health care services provided to their patients using our products. Additionally, managed care organizations and insurance companies directly pay for services provided to their patients. The Center for Medicare and Medicaid Services, or CMS, has established 23 billing codes that allow for third-party reimbursement and can be used for or in combination with the delivery of hyperthermia therapy, depending on the circumstances of the treatment. Appropriate codes apply to billing for superficial and interstitial hyperthermia delivered using our BSD-500 systems when used in combination with radiation therapy. Codes also have been established for providing deep hyperthermia therapy. Billing codes are available for both institutions and physicians.

In November 1995, HCFA, the predecessor agency to CMS, authorized Medicare reimbursement for all investigational therapies and devices for which underlying questions of safety and effectiveness of that device type have been resolved, based on categorization by the FDA. Our BSD-2000 system, which has been given IDE status by the FDA, has been placed in this category by the FDA, and thus may be reimbursed by Medicare.

Medical reimbursement rates are unpredictable, and we cannot project the extent to which our business may be affected by future legislative and regulatory developments. There can be no assurance that future health care legislation or regulation will not have a material adverse effect on BSD's business, financial condition and results of operations, or that reimbursement, existing or in the future, will be adequate for all customers.

Competition

Competition in the medical products industry is intense. We believe that established product lines and cancer therapies, FDA approvals, know-how and reputation in the industry are key competitive factors. Currently, only a few companies besides BSD have received FDA approval to manufacture and sell hyperthermia therapy systems within the United States, including U.S. Labthermics and Celsion Corporation. Celsion has been principally involved with clinical trials related to thermotherapy, hyperthermia and related fields, however Celsion has announced the transformation of its company from a medical device company to a biopharmaceutical, solely focused on the development of drugs for the treatment of cancer. Labthermics produces ultrasound-based systems, which compete with our microwave hyperthermia systems, however Labthermics is not currently active in the sale of products in our industry. Several other companies have received IDEs in the United States or other international clearance for certain experimental hyperthermia systems designed to treat both malignant and benign diseases. Additionally, other companies, particularly established companies that currently manufacture and sell other cancer therapy systems, could potentially become competitors (in that they are also engaged in cancer treatment businesses), and they have significantly greater resources than we do.

Although we have not currently entered the thermal ablation market with cancer treatment systems, we anticipate that future competitors in that market will include RadioTherapeutics, a division of Boston Scientific Corporation, Valleylab, a division of Tyco Healthcare, which is a division of Tyco International, Rita Medical and Microsulis Limited.

Product Service

We provide a 12-month warranty and record a liability for the warranty following installation on all cancer treatment systems and a 90-day limited warranty on individual components. We install and service the hyperthermia systems we sell to domestic customers. In addition, we or our consultants provide technical and clinical training to our customers. Subsequent to the applicable warranty period, we offer our domestic customers full or limited service contracts.

Generally, our distributors install and service systems sold to foreign customers and are responsible for managing their own warranty programs for their customers, including labor and travel expenses. We provide warranties for the replacement and/or repair of parts for 12 months for systems sold internationally through distributors and for 90 days for individual components. Spare parts are generally purchased by the distributors and stored at the distributors' maintenance facilities to allow prompt repair. Distributor service personnel are usually trained at customer sites and at our facilities in Salt Lake City, Utah.

Production

We manufacture and test our systems and products at our facilities in Salt Lake City, Utah. Our manufacturing facility is ISO 9001-1994 certified and follows FDA quality systems regulations. Some equipment components we purchase from suppliers are customized to our specifications. Key factors in our manufacturing process are assembly and testing. We purchase component parts and other materials from a variety of suppliers. We do not depend on a single supplier for any item, and believe we can acquire materials and parts from multiple sources on a timely basis.

Product Liability Exposure

The manufacturing and marketing of medical devices involves an inherent risk of product liability. Because our products are intended to be used in hospitals on patients who may be physiologically unstable and severely ill, we are exposed to potential product liability claims. We presently carry product liability insurance with coverage limits of \$1 million. However, we cannot assure that our product liability insurance will provide adequate coverage against potential claims that might be made against us. No product liability claims are presently pending against us; however, we cannot assume that product liability claims will not be filed in the future or that such claims will not exceed our coverage limits.

Government Regulation

The medical devices that we have developed and are developing are subject to extensive and rigorous regulation by numerous governmental authorities, principally by the United States Food and Drug Administration, or FDA, and comparable foreign agencies. Pursuant to the Federal Food, Drug and Cosmetic Act, as amended, the FDA regulates and must approve the clinical testing, manufacture, labeling, distribution, and promotion of medical devices in the United States.

Although our MicroThermX 100 system will be filed for FDA approval as a 510(k) submission, most of our hyperthermia treatment systems, including the BSD-500 and the BSD-2000 and related products, have required or require pre-market approval from the FDA instead of the simpler 510(k) approval. Pre-market approval requires that we demonstrate that the medical device is safe and effective. To do this, we conduct either laboratory and/or clinical testing. The FDA will grant approval of the product if it determines there is reasonable assurance that the medical device is safe and effective. FDA approval must be obtained before commercial distribution of the product. We intend to continue to make improvements in and to our existing products. Significant product changes must be submitted to the FDA under investigational device exemptions, or IDEs, or under pre-market approval supplements. As described in the section entitled "Our Products and Services" above, we have obtained a PMA for our BSD-500 systems and IDE status for our BSD-2000 system. A PMA submission was made to the FDA for the BSD-2000 in March 2006.

Foreign countries, in which our products are or may be sold, have regulatory requirements that can vary widely from country to country. Sales into the European Union, or EU, require compliance with the Medical Devices Directive, or MDD, and require us to obtain the necessary certifications to have a CE Mark affixed to our products. We have obtained necessary ISO certification of our quality, development, and manufacturing processes, and we have successfully completed the CE Mark testing and Annex II audit. This allows us to certify our own products and to affix the CE Mark label on them. However, we must maintain compliance with all current and future directives and requirements to maintain ISO certification and to continue to affix the CE Mark, and there can be no assurance that we will continue to maintain compliance with regulatory requirements imposed on us.

After we receive FDA approval to distribute a medical device, we continue to have ongoing responsibilities under the Federal Food, Drug, and Cosmetic Act and FDA regulations. The FDA reviews design and manufacturing practices, labeling, record-keeping, and required reporting of adverse experiences. All medical devices must be manufactured in accordance with regulations specified in the FDA Quality System regulations, or QSR, and in compliance with the ISO and other applicable standards. In complying with these regulations, we must continue to expend time, money and effort in the areas of design control, production, and quality control to ensure full compliance. The FDA's mandatory Medical Device Reporting regulation requires us to provide information to the FDA on death or serious injuries alleged to have been associated with the use of our products, as well as information on product malfunctions that would likely cause or contribute to a death or serious injury if the malfunctions were to recur. In Europe, the MDD vigilance system regulations require that we, through a representative in Europe, provide information to authorities on death or serious injuries alleged to have been associated with the use of our products, as well as information on product malfunctions that would likely cause or contribute to a death or serious injury if the malfunctions were to recur. If the FDA were to assert that we are not in compliance with applicable laws or regulations, or that any of our medical devices are ineffective or pose an unreasonable risk to patient health, the FDA could seize our medical devices, ban such medical devices, or order a recall, repair, replacement or refund of such devices, and require us to notify health care professionals and others that the devices present unreasonable risk of substantial harm to the public. The FDA may also impose operating restrictions, restrain certain violations of law, and assess civil or criminal penalties against us. The FDA can also recommend prosecution to the Department of Justice. Certain regulations are subject to administrative interpretation and we cannot assure that future interpretations made by the FDA or other regulatory bodies, with possible retroactive effect, will not adversely affect us.

International sales of medical devices are subject to FDA export requirements. We have obtained export approvals for all countries into which we have delivered products. This includes countries in Western Europe and much of Eastern Europe and many Asian countries.

International sales are subject to the regulatory and safety requirements of the country into which the sale occurs. There can be no assurance that all of the necessary approvals will be granted on a timely basis or at all. Delays in receipt of or failure to receive such approvals would have a material adverse effect on our financial condition and results of operations.

In addition to FDA regulations, certain U.S. health care laws apply when a claim for reimbursement for one of our medical devices is submitted to Medicare, Medicaid, or other federal health care programs. For instance, federal law prohibits the filing of false or improper claims for federal payments. In addition, federal law prohibits the payment of anything of value for the purpose of inducing referrals of business reimbursable under a federal health care program. Other federal laws prohibit physicians from making referrals for certain services and items payable under certain federal programs if the physician has a financial relationship with the entity providing the service or item.

All of these laws are subject to evolving interpretations. If the federal government were to conclude that we are not in compliance with any of these health care laws, we could be subject to substantial criminal and civil penalties, and could be excluded from participation as a supplier to beneficiaries in federal health care programs.

The Federal Communications Commission, or FCC, regulates the frequencies of microwave and radio frequency emissions from medical and other types of equipment to prevent interference with commercial and governmental communications networks. The BSD-500 fixed frequency systems and applicators emit 915 MHz for U.S. and some European installations and 433.92 MHz for some European installations, which is approved by the FCC for medical applications. Accordingly, these systems do not require shielding to prevent interference with communications. Our BSD-2000 deep hyperthermia variable-frequency generators and applicators require electromagnetic shielding.

Patents, Licenses, and Other Rights

Because of the substantial length of time and expense associated with bringing new products through development and regulatory approval to the marketplace, the medical device industry places considerable importance on obtaining patent and trade secret protection for new technologies, products and processes. Our policy is to file patent applications to protect significant technology, inventions and product improvements. We currently own four patents in the United States and six patents outside the United States. In addition, five initial patents were assigned to TherMatrix, for which we obtained a license, four subsequent patents were obtained and assigned to BSD and we obtained one patent license from the National Institutes of Health and one from Duke University. Three new U.S. patent applications are pending. We believe that our patents represent the early pioneering and dominant patents in this field.

In July 1979, we entered into an exclusive worldwide license for a unique temperature probe called the Bowman Probe. The license will remain in effect as long as the technology does not become publicly known as a result of actions taken by the licensor. We pay royalties based upon our sales of the Bowman Probe. The license agreement was amended and renewed in August 2000 and is currently in effect.

We also acquired on December 13, 2001 a patent license from the National Institutes of Health (NIH) for the U.S. Patent 5,284,114. This patent is for the integration of magnetic resonance with hyperthermia systems, including our BSD-2000/3D/MR system, and is based on a patent obtained by NIH in early research of the concept. The license agreement requires an annual payment of \$1,000, plus \$4,000 per licensed product sold in the U.S., and \$1,000 per licensed product manufactured in the U.S. and sold outside the U.S. There is also to be a single payment of \$10,000 upon PMA or 510(k) FDA approval.

On July 31, 2007, BSD obtained an exclusive sub-license to a patent owned by Duke University using phased array technology for the treatment of primary breast cancer on terms that included hyperthermia equipment upgrades and payment of some prior patent costs. This technology and patent is expected to enhance future developments with the current BSD phased array hyperthermia systems.

On July 1, 2001, we acquired the rights to all FDA approvals and the rights to manufacture all cancer products formerly owned by Clini-Therm Corp. These products are related to the hyperthermia therapy delivered by our BSD-500 systems, the exclusive patent obtained from UCSF, and our enhancements to such systems involve incorporating some of the Clini-Therm rights we acquired into such systems. This involved only a one-time cash payment with no continuing costs.

We cannot assure that the patents presently issued to us will be of significant value to us in the future or will be held valid upon judicial review. Successful litigation against these patents by a competitor would have a material adverse effect upon our business, financial condition and results of operations. We believe that we possess significant proprietary know-how in our hardware and software capabilities. However, we cannot assure that others will not develop, acquire or patent technologies similar to ours or that such secrecy will not be breached.

Research and Development

Research and development expenses for fiscal 2007 were \$1,875,147 compared to \$1,251,956 for fiscal 2006, an increase of \$623,191, or 50%. Research and development expenses in fiscal 2007 related to the following:

- completion of our commercial version of the BSD-2000 with complete modernization of the computer system, applicators and patient supports and development of commercial configuration of BSD-2000 3D/MR
- addition of the Sigma Ellipse phased array applicator to the standard system configuration of the BSD-2000
- a complete new design of the BSD-2000 patient support system for commercialization
- enhancements to the BSD 500 and 2000 systems including language translations to German and Chinese
- Completion of development collaboration projects with Duke University of various spiral array applicator systems to compliment the BSD-500
- Incorporate new development regulations in design process
- development of the MicroThermX 100 microwave ablation system
- development of new microwave ablation disposable applicators and technical research to evaluate the various treatment sites and diseases suitable for the application of the MicroThermX 100.

Technological changes play an important part in the advancement of our industry. We intend to continue to devote substantial sums to research and development. Research and development efforts inherently involve costs, risks and uncertainties that could adversely affect our projections, outlook and operating results.

Seasonality

Our operations are generally not subject to seasonal fluctuations.

Company History

BSD was originally incorporated under the laws of the State of Utah on March 17, 1978. In July 1986, BSD was reincorporated in Delaware.

Segment Information and Sales Concentrations

We consider our operations to comprise one business segment. All of our operating assets are located in the United States.

A significant portion of our revenues are derived from sales to Medizin-Technik GmbH located in Munich, Germany, which is a significant distributor of our products in Europe and which is owned by Dr. Gerhard W. Sennewald, one of our directors and a significant stockholder. For the fiscal year 2007 we had sales of \$1,385,332, or 49% of our total sales, from the sale of systems and various component parts sold to Medizin-Technik, as compared to sales of \$689,086, or 24% of our total sales, in fiscal 2006. Management believes the terms of the transactions with Medizin-Technik were arms length and fair to the Company.

A significant portion of our revenues are derived from sales to foreign customers. During the years ended August 31, 2007, 2006 and 2005, total export sales totaled \$1,787,363, \$2,413,807 and \$1,595,050, or 63%, 83% and 79% of total sales, respectively. During fiscal year 2007, export sales to Switzerland were approximately 44% of total sales. During fiscal year 2006, export sales to China,

Switzerland and Poland were approximately 45%, 21% and 10% of total sales, respectively. During fiscal year 2005, export sales to Switzerland and China were approximately 45% and 30% of total sales, respectively.

Backlog

As of August 31, 2007, the Company had a sales backlog of \$2,018,813, consisting of orders from related parties.

Employees

As of August 31, 2007, we had 45 employees; 41 of whom were full-time employees. None of our employees are covered by a collective bargaining agreement. We consider our relations with our employees to be satisfactory. We depend upon a limited number of key management, manufacturing, and technical personnel. Our future success will depend in part on our ability to retain these highly qualified employees.

Available Information

We file annual, quarterly and current reports, and other reports and documents with the Securities and Exchange Commission (the "SEC"). The public may read and copy any materials we file with the SEC at the SEC's Public Reference Room at Station Place, 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. The address of that website is <http://www.sec.gov>.

The Company's Internet address is <http://www.bsdmc.com>. We make available on or through our investor link on our website, free of charge, our Annual Reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to those reports as soon as reasonably practicable after this material is electronically filed or furnished to the SEC. We also make available, on our website, the charter of the Audit Committee of our Board of Directors and our Code of Ethics.

ITEM 1A. RISK FACTORS

Our future operating results are highly uncertain. Before deciding to invest in BSD Medical or to maintain or increase your investment, you should carefully consider the risks described below, in addition to the other information contained in this annual report on Form 10-K. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our common stock could decline and you may lose all or part of your investment. Although the Company has attempted to list the factors that it is currently aware may have an impact on its operations, there may be other factors of which the Company is currently unaware or to which it does not assign sufficient significance, and the following list should not be considered comprehensive.

We have a history of significant operating losses and such losses may continue in the future.

Since our inception in 1978, our expenses have substantially exceeded our revenue, resulting in continuing losses and an accumulated deficit of \$2,850,153 at August 31, 2007. In fiscal 2006, we recorded net income of \$9,249,496 which eliminated the accumulated deficit and resulted in positive retained earnings of \$498,042 as of August 31, 2006. In fiscal 2007, however, we recorded a net loss of \$3,348,195, which increased our accumulated deficit to \$2,850,153.

Our net profit for the fiscal years ended August 31, 2006 and 2005 was primarily due to the sale of our ownership in TherMatrx, to American Medical Systems Holdings, Inc., or AMS. All revenues from this sale have now been received with no significant future revenues expected. We may continue to incur operating losses in the future as we continue to incur costs to develop our products, protect our intellectual property and expand our sales and marketing activities. To become profitable we will need to increase significantly the revenues we receive from sales of our hyperthermia therapy products to sustain and increase our profitability on a quarterly or annual basis. We have been unable to do this in the past and we may be unable to do so in the future, and therefore may never achieve profitability.

Our hyperthermia therapy products may not achieve market acceptance which could limit our future revenue and ability to achieve profitability.

To date, hyperthermia therapy has not gained wide acceptance by cancer-treating physicians. We believe this is due in part to the lingering impression created by the inability of early hyperthermia therapy technologies to focus and control heat directed at specific tissue locations and conclusions drawn in early scientific studies that hyperthermia was only marginally effective. Additionally, market acceptance depends upon physicians and hospitals obtaining adequate reimbursement rates from third-party payors to make our products commercially viable, and we believe that reimbursement rates have not been adequate to stimulate strong interest in adopting hyperthermia as a new cancer therapy. If our sales and marketing efforts to promote hyperthermia therapy acceptance in the medical community fail, or our efforts to improve third-party reimbursement rates for hyperthermia therapy are not successful, then our future revenue from sales of our products may be limited, and we may never be able to obtain profitable recurring operations.

Sales of our product could be significantly reduced if government, private health insurers and other third-party payors do not provide sufficient coverage or reimbursement.

Our success in selling our products will depend in large part on the extent to which reimbursement for the costs of our products and related treatments are available from government health agencies, private health insurers and other third-party payers. Despite the existence of general reimbursement policies, local medical review policies may differ for public and private insurance payers, which may cause payment to be refused for some hyperthermia treatments. Private payers also may refuse to pay for hyperthermia treatments.

Medical reimbursement rates are unpredictable and we cannot predict the extent to which our business may be affected by future legislative and regulatory developments. Future health care legislation or regulation may limit our business or impose additional delays and costs on our business and third-party reimbursement may not be adequate to cover our costs associated with producing and selling our products.

Cancer therapy is subject to rapid technological change and therapies that are more effective than ours could render our technology obsolete.

The treatment of cancer is currently subject to extensive research and development. Many cancer therapies are being researched and our products may be rendered obsolete by existing therapies and as a result of therapy innovations by others. If our products are rendered obsolete, our revenue will decline, we may never achieve profitability, and we may not be able to continue in business.

Some of the medical institutions to which we have sold in the past have not been able to pay for their equipment, and some of our sales have therefore become substantial bad debts, a risk that could continue into the future.

A limited number of our customers have been developing clinics, and these customers have been particularly vulnerable to financial difficulties that can cause them to be unable to pay for equipment that they have purchased. If we choose to accept higher risk sales opportunities to clinics in the future, we will be subject to these customer credit risks that could lower future net sales due to bad-debt write offs, resulting in losses in future periods and potentially lowering the value of our stock. While we attempt to provide for foreseeable doubtful accounts, we cannot assure that this provision will always be adequate to cover our credit risks.

Increasing sales of our hyperthermia systems depends on our ability to successfully expand our sales distribution channels; we have had failures with the productivity of new channels of distribution in the past. Expanding our channels of distribution will also significantly increase our sales expenses, which could negatively impact our financial performance.

We believe that the success of our efforts to increase sales of our hyperthermia systems in the future depends on our ability to successfully expand our sales distribution channels. Historically, we have sometimes failed in establishing successful new sales channels.

We anticipate that the success of our multi-year plan for selling hyperthermia systems will require expanding our sales and marketing organization through a combination of direct sales people, distributors and internal and external marketing expertise. However, as we pursue our marketing plan, there can be no assurance that we will be successful in securing reliable channels of distribution to meet our plan through expanded sales. Recruiting and training new distribution channels can take time and considerable expense. We project that sales and marketing expenses will increase substantially in the future as compared to past years. This added expense could have an adverse effect on our future financial performance that is greater than any potential increases in sales.

In addition, there can be no assurance that our channels of distribution that have been successful in the past will be successful in the future. We have derived a significant portion of our revenue from sales in Europe and in China. Sales in Europe were made through our distributor Medizin-Technik, GmbH, which also purchases equipment components and parts from us. Medizin-Technik is controlled by Dr. Sennwald, one of our directors. The loss or ineffectiveness of either Medizin-Technik or our Chinese distributor as a distributor and significant customer could result in lower revenue.

We are subject to government regulations that can delay our ability to sell our products and cause us to incur substantial expenses.

Our research and development efforts, pre-clinical tests and clinical trials, and the manufacturing, marketing, distribution and labeling of our products are subject to extensive regulation by the FDA and comparable international agencies. The process of obtaining FDA and other required regulatory approvals is lengthy and expensive and our financial resources are limited.

We have not yet received pre-market approval for our BSD-2000 and MicroThermx 100 systems. Obtaining these pre-market approvals from the FDA is necessary for us to commercially market these systems in the United States. Obtaining approvals is a lengthy and expensive process. We may not be able to obtain these approvals on a timely basis, if at all, and such failure could harm our business prospects substantially. Further, even if we are able to obtain the approvals we seek from the FDA, the approvals granted might include significant limitations on the indicated uses for which the products may be marketed, which restrictions could negatively impact our business.

After a product is approved for commercial distribution by the FDA, we have ongoing responsibilities under the Federal Food, Drug, and Cosmetic Act and FDA regulations, including regulation of our manufacturing facilities and processes, labeling and record-keeping, and reporting of

adverse experiences and other information. Failure to comply with these ongoing requirements could result in the FDA imposing operating restrictions on us, enjoining or restraining certain violations, or imposing civil or criminal penalties on us.

We depend on adequate protection of our patent and other intellectual property rights to stay competitive.

We rely on patents, trade secrets, trademarks, copyrights, know-how, license agreements and contractual provisions to establish and protect our intellectual property rights. Our success will substantially depend on our ability to protect our intellectual property rights and maintain rights granted to us through license agreements. Our intellectual property rights may only afford us limited protection and may not adequately protect our rights or remedies to gain or keep any advantages we may have over our competitors, which could reduce our ability to be competitive and generate sales and profitability.

In the past, we have participated in substantial litigation regarding our patent and other intellectual property rights in the medical device industry. We have previously filed lawsuits for patent infringement against three of our competitors and subsequently settled all three of those lawsuits. Additional litigation against other parties may be necessary in the future to enforce our intellectual property rights, to protect our patents and trade secrets, and to determine the validity and scope of our proprietary rights. This litigation may require more financial resources than are available to us. We cannot guarantee that we will be able to successfully protect our rights in litigation. Failure to successfully protect our rights in litigation could reduce our ability to be competitive and generate sales and profitability.

A product liability settlement could exceed our ability to pay.

The manufacturing and marketing of medical devices involves an inherent risk of product liability. Because our products are intended to be used in hospitals on patients who may be physiologically unstable and severely ill, we are exposed to potential product liability claims. We presently carry product liability insurance with coverage limits of \$1 million. Our product liability insurance does not cover intended injury, injury or damage resulting from the intoxication of any person, payment of workers' compensation benefits, injury of our own employee, injury or damage due to war, damage to property that we own, damage to our work, loss of use of property, patent infringements, pollution claims, interest payments, depreciation of property, or injury or damage resulting from asbestos inhalation. We are responsible to pay the first \$10,000 resulting from any claim up to a maximum of \$50,000 in one year. We cannot assure that our product liability insurance will provide adequate coverage against potential claims that might be made against us. If we were to be subject to a claim in excess of our coverage or to a claim not covered by our insurance and the claim succeeded, we would be required to pay the claim from our limited resources, which would reduce our limited capital resources and liquidity and reduce capital we could otherwise use to obtain approvals for and market our products. In addition, liability or alleged liability could harm our business by diverting the attention and resources of our management and by damaging our reputation.

We are dependent upon key personnel, some of whom would be difficult to replace.

Our success will be largely dependent upon the efforts of Paul F. Turner, our Chairman of the Board, Senior Vice President, and Chief Technology Officer, Hyrum A. Mead, our President, and Dixie T. Sells, our Vice President of Regulatory Affairs, and other key employees. We do not maintain key-person insurance on any of these employees. Our future success also will depend in large part upon our ability to identify, attract and retain other highly qualified managerial, technical and sales and marketing personnel. Competition for these individuals is intense. The loss of the services of any of our key personnel, the inability to identify, attract or retain qualified personnel in the future or delays in

hiring qualified personnel could make it more difficult for us to manage our business and meet key objectives such as the sale of our products and the introduction of new products.

The market for our stock is limited and our stock price may be volatile.

The market for our common stock has been limited due to low trading volume and the small number of brokerage firms acting as market makers. Because of the limitations of our market and volatility of the market price of our stock, investors may face difficulties in selling shares at attractive prices when they want to. The average daily trading volume for our stock has varied significantly from week to week and from month to month, and the trading volume often varies widely from day to day. The following factors could impact the market for our stock and cause further volatility in our stock price:

- announcements of new technological innovations;
- FDA and other regulatory developments;
- changes in third-party reimbursements;
- developments concerning proprietary rights;
- third parties receiving FDA approval for competing products; and
- market conditions generally for medical and technology stocks.

Our directors and executive officers own a sufficient number of shares of our capital stock to control our company, which could discourage or prevent a takeover, even if an acquisition would be beneficial to our stockholders.

Our directors and executive officers own approximately 46% of our outstanding voting power. Accordingly, these stockholders, individually and as a group, may be able to influence the outcome of stockholder votes involving the election of directors, the adoption or amendment of provisions in our certificate of incorporation and bylaws and the approval of certain mergers or other similar transactions, such as a sale of substantially all of our assets. Such control by existing stockholders could have the effect of delaying, deferring or preventing a change in control of our company.

Anti-takeover provisions in our certificate of incorporation may have a possible negative effect on our stock price.

Certain provisions of our certificate of incorporation and bylaws may make it more difficult for a third party to acquire, or discourage a third party from attempting to acquire, control of us. We have in place several anti-takeover measures that could discourage or prevent a takeover, even if an acquisition would be beneficial to our stockholders. The increased difficulties faced by a third party who wishes to acquire us could adversely affect our stock price.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our office, production and research facilities are located in Salt Lake City, Utah. The complete headquarters and production facility occupies approximately 20,000 square feet. In November 2002, we renewed our lease for five years, which included payments of approximately \$82,000 per year for five years, adjusted annually for increases in the cost of living based on the Consumer Price Index for Urban Consumers. We have an option to purchase the building for \$1,000,000 upon 60 days notice for six years beginning December 5, 1997. Thereafter, the purchase price increases by \$50,000 each year, and the option expires at the end of the tenth year. The building lease is accounted for as an operating lease for financial statement purposes. The building is currently in good condition, is adequate for our needs, is suitable for all company functions and provides room for future expansion. We believe that we carry adequate insurance on the property. When our lease on this building expired in November of 2007, we exercised our option to purchase the building for a purchase price of \$1,200,000.

ITEM 3. LEGAL PROCEEDINGS

There are no legal proceedings, to our knowledge, pending against or being taken by BSD Medical Corporation.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

On July 9, 2005, the American Stock Exchange (AMEX) approved the listing for BSD Medical Corporation and the shares began trading on that day under the symbol "BSM". The following table sets forth the high and low bid transactions, as provided by AMEX for the quarters in fiscal year 2006 and 2007. The amounts reflect inter-dealer prices, without retail mark-up, markdown or commission, and may not represent actual transactions.

Quarter Ended:	Bid	
	High	Low
November 30, 2005.....	\$9.47	\$4.25
February 28, 2006.....	5.78	4.10
May 31, 2006.....	7.13	4.40
August 31, 2006.....	6.15	4.40
November 30, 2006.....	5.90	4.45
February 28, 2007.....	9.25	5.00
May 31, 2007.....	9.00	5.75
August 31, 2007.....	8.72	4.60

As of August 31, 2007, there were approximately 507 holders of record of our common stock. We have not paid any cash dividends on our common stock since our inception.

On November 9, 2007, the last reported sales price of our common stock on the AMEX was \$5.41 per share.

Repurchases of Equity Securities

None.

Recent Sales of Unregistered Securities

Following is a summary of sales of unregistered securities for the fiscal years ended August 31, 2007, 2006 and 2005. All securities were issued as restricted common shares, which are subject to Rule 144 of the Securities and Exchange Commission. Generally, Rule 144 requires shareholders to hold the shares for a minimum of one year before sale. In addition, officers, directors and more than 10% shareholders are further restricted in their ability to sell such shares. There have been no underwriters of these securities and no commissions or underwriting discounts have been paid.

Equity Compensation Plan Information

The Company's 1998 Employee Stock Option Plan authorizes the granting of incentive stock options to certain key employees and non-employees who provide services to the Company. The Plan, as amended, provides for the granting of options for an aggregate of 2,677,300 shares. The options vest subject to management's discretion.

The Company's 1998 Director Stock Plan was amended in February of 2006 to provide an annual retainer of \$30,000 to each non-employee director with the exception of the Audit Committee Chairman who is to receive \$35,000. The annual compensation plan calls for payment to be made twice a year with each payment consisting of \$15,000 in cash and \$15,000 in common stock, with the exception of the Audit Committee Chairman who is to receive \$20,000 in cash and \$15,000 in common stock with the number of shares issued calculated by dividing the unpaid compensation by a daily average of the preceding twenty day closing price of the Company's common stock. The Plan also grants each non-employee outside director 30,000 options each year at an exercise price of the fair market value of the common stock at the date the option is granted. The Plan allows for an aggregate of 1,000,000 shares to be granted. The options vest according to a set schedule over a five-year period and expire upon the director's termination, or after ten years from the date of grant. For certain options issued under this plan, the Company has recorded as deferred compensation the excess of the market value of common stock at the date of grant over the exercise price.

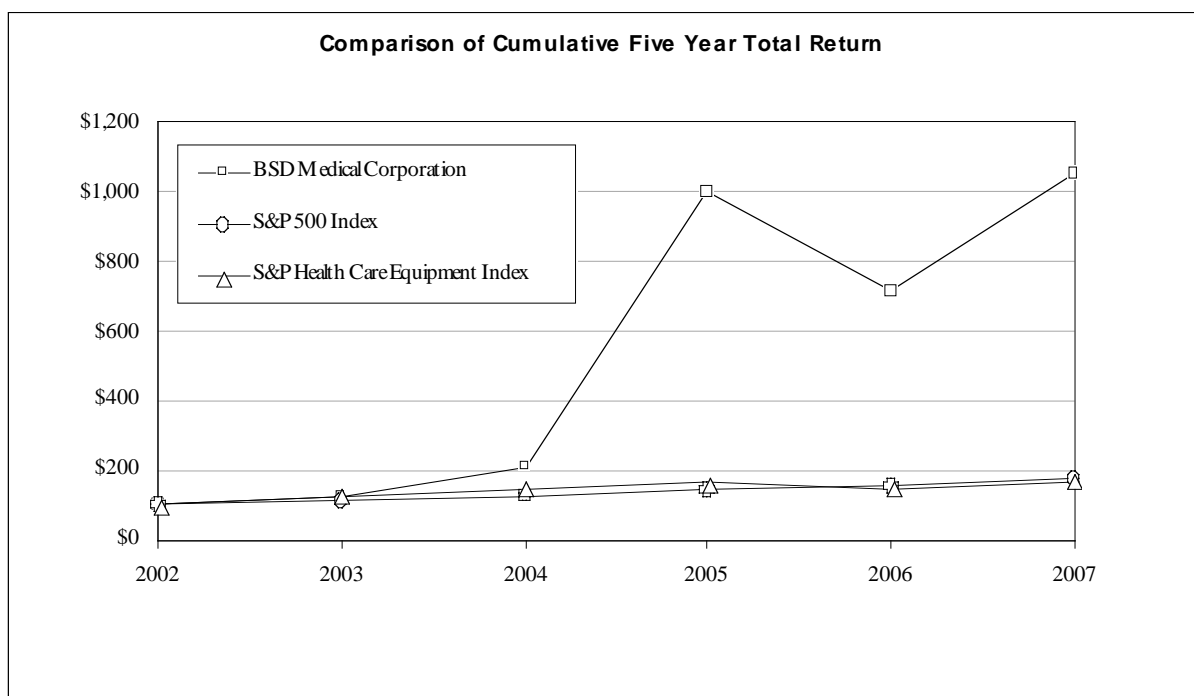

The following table summarizes the Company's equity compensation plans as of August 31, 2007.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options	Weighted Average Exercise Price of Outstanding Options	Number of Securities Remaining Available for Future Issuance
Equity compensation plans approved by security holders (1)	1,795,853	\$2.31	631,185

- (1) A total of 3,677,300 shares of common stock have been reserved for issuance under the plans. To date, a total of 1,092,231 options have been exercised under the plans.

Performance Graph

The following graph shows a comparison of the five-year cumulative total return for the Company's common stock, the S&P 500 Index, and the S&P Health Care Equipment Index, assuming an investment of \$100 on August 31, 2002. The cumulative return of the Company was computed by dividing the difference between the price of the Company's common stock at the end and the beginning of the measurement period (August 31, 2002 to August 31, 2007) by the price of the Company's common stock at the beginning of the measurement period.

ITEM 6. SELECTED FINANCIAL DATA

The following selected financial data as of and for each of the fiscal years in the five year period ended August 31, 2007 were derived from the Company's financial statements audited by Tanner LC, independent registered public accountants. The data set forth below should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of this Form 10-K and the financial statements and notes thereto included in Item 8 of this Form 10-K.

	Years Ended August 31,				
	2007	2006	2005	2004	2003
Results of Operations Data:					
Revenues	\$ 2,834,386	\$ 2,898,402	\$ 2,021,104	\$ 1,630,648	\$ 2,572,682
Loss from operations	(6,384,540)	(5,099,151)	(2,293,696)	(1,290,618)	(629,000)
Net income (loss)	(3,348,195)	9,249,496	3,321,692	8,412,961	(570,285)

Balance Sheet Data:

Total Assets	\$ 24,341,640	\$ 28,309,868	\$ 15,599,943	\$ 11,741,047	\$ 1,553,615
Long-term debt	-	-	-	-	-
Stockholders' equity	23,183,788	25,624,001	14,977,667	11,119,778	574,957

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other parts of this annual report on Form 10-K contain forward-looking statements that involve risks and uncertainties. Forward-looking statements can also be identified by words such as "anticipates," "expects," "believes," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and our actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in the subsections entitled "Forward-Looking Statements" and "Factors That May Affect Future Results and Financial Condition" below and the subsection entitled "Risk Factors" above. The following discussion should be read in conjunction with our financial statements and notes thereto included in this annual report on Form 10-K. All information presented herein is based on our fiscal year ended August 31, 2007. We assume no obligation to revise or update any forward-looking statements for any reason, except as required by law.

BSD Medical Corporation develops, manufactures, markets and services medical systems that deliver precision-focused radio frequency (RF) or microwave energy into diseased sites of the body, heating them to specified temperatures as required by a variety of medical therapies. Our business objectives are to commercialize our products developed for the treatment of cancer and to further expand our developments to treat other diseases and medical conditions. Our product line for cancer therapy has been created to offer hospitals and clinics a complete solution for thermal treatment for cancer as provided through microwave/RF systems.

On July 15, 2004, TherMatrix, Inc. was sold to American Medical Systems Holdings, Inc. (AMS). Our part of the total proceeds from this sale was approximately 25%. A portion of the payout from the sale was based on contingency payments. By the close fiscal year 2006, the Company had received a total payout, including contingency payments, of approximately \$33.5 million. In April 2007, the Company received an additional \$202,223 in proceeds from the sale of TherMatrix.

Our accumulated deficit since inception increased to \$2,850,153 as of August 31, 2007 from positive retained earnings of \$498,042 as of August 31, 2006 due to the net loss for fiscal year 2007, as compared to net income for fiscal 2006 and 2005 of \$9,249,496 and \$3,348,195, respectively. The primary reason for the net income in fiscal 2006 and fiscal 2005 was the income generated from the sale of our ownership in TherMatrix.

We recognize revenue from the sale of cancer treatment systems, the sale of parts and accessories related to the cancer treatment systems, providing manufacturing services, training, and service support contracts. Product sales were \$2,520,818, \$2,706,214 and \$1,844,321 for the years

ended August 31, 2007, 2006 and 2005, respectively. Service and other revenues were \$313,568, \$192,188 and \$176,783 for the years ended August 31, 2007, 2006 and 2005, respectively.

We derived \$1,385,332, or approximately 49%, of our total revenue in fiscal 2007 from sales to related parties, as compared to \$689,086, or 24% from sales to related parties in fiscal 2006. All of the related party revenue was for the sale of the BSD-2000 and BSD-500 systems and component parts sold to Medizin-Technik GmbH. Dr. Gerhard Sennewald, one of our directors, is a stockholder, executive officer and a director of Medizin-Technik GmbH.

In fiscal 2007, we derived \$1,449,054, or approximately 51%, of our total revenue as compared to \$2,209,316, or 76%, in fiscal 2006 from non-related party sales. Our fiscal 2007 non-related party revenue consisted of sales of our BSD-500 systems of \$1,347,887, consumable devices of \$22,970, service contracts of \$41,338, billable labor of \$550 and consulting revenue of \$36,309. Our fiscal 2006 non-related party revenue consisted of sales of BSD-500 and BSD-2000 systems of \$1,902,175, consumable devices of \$126,896, service contracts of \$18,245, billable labor of \$17,250 and consulting revenue of \$144,750.

Cost of sales for the year ended August 31, 2007 included raw material and labor costs. Research and development expenses include expenditures for new product development and development of enhancements to existing products.

As of August 31, 2007, the Company had a sales backlog of \$2,018,813, consisting of orders from related parties.

Critical Accounting Policies

The following is a discussion of our critical accounting policies and estimates that management believes are material to an understanding of our results of operations and which involve the exercise of judgment or estimates by management.

Revenue Recognition. Revenue from the sale of cancer treatment systems is recognized when a purchase order has been received, the system has been shipped, the selling price is fixed or determinable, and collection is reasonably assured. Most system sales are F.O.B. shipping point; therefore, shipment is deemed to have occurred when the product is delivered to the transportation carrier. Most system sales do not include installation. If installation is included as part of the contract, revenue is not recognized until installation has occurred, or until any remaining installation obligation is deemed to be perfunctory. Some sales of cancer treatment systems may include training as part of the sale. In such cases, the portion of the revenue related to the training, calculated based on the amount charged for training on a stand-alone basis, is deferred and recognized when the training has been provided. The sales of our cancer treatment systems do not require specific customer acceptance provisions and do not include the right of return, except in cases where the product does not function as warranted by us. We provide a reserve allowance for estimated returns. To date, returns have not been significant.

Revenue from manufacturing services is recorded when an agreement with the customer exists for such services, the services have been provided, and collection is reasonably assured. Revenue from training services is recorded when an agreement with the customer exists for such training, the training services have been provided, and collection is reasonably assured. Revenue from service support contracts is recognized on a straight-line basis over the term of the contract.

Our revenue recognition policy is the same for sales to both related parties and non-related parties. We provide the same products and services under the same terms to non-related parties as to related parties. Sales to distributors are recognized in the same manner as sales to end-user customers.

Deferred revenue and customer deposits payable include amounts from service contracts as well as cash received for the sales of products, which have not been shipped.

Inventory Reserves. As of August 31, 2007, we had recorded a reserve for potential inventory impairment of \$40,000. We periodically review our inventory levels and usage, paying particular attention to slower-moving items. If projected sales for fiscal 2008 do not materialize or if our hyperthermia systems do not receive increased market acceptance, we may be required to increase the reserve for inventory impairment in future periods.

Product Warranty. We provide product warranties on our BSD-500 and BSD-2000 systems. These warranties vary from contract to contract, but generally consist of parts and labor warranties for one year from the date of installation. To date, expenses resulting from such warranties have not been material. We record a warranty expense at the time of each sale. This reserve is estimated based on prior history of service expense associated with similar units sold in the past.

Allowance for Doubtful Accounts. We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. As of August 31, 2007 we had a \$20,000 balance in this account. This allowance is a significant estimate and is regularly evaluated by us for adequacy by taking into consideration factors such as past experience, credit quality of the customer base, age of the receivable balances, both individually and in the aggregate, and current economic conditions that may affect a customer's ability to pay. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Stock-based Compensation – Effective September 1, 2006 we adopted SFAS No. 123(R), which requires us to measure the compensation cost of stock options and other stock-based awards to employees and directors at fair value at the grant date and recognize compensation expense over the requisite service period for awards expected to vest. During the year ended August 31, 2007, we recorded compensation expense of \$832,224 for stock options issued to directors and employees. The fair value of stock options is computed using the Black-Scholes valuation model, which model utilizes inputs that are subject to change over time, including the volatility of the market price of our common stock, risk free interest rates, requisite service periods and assumptions made by us regarding the assumed life and vesting of stock options and stock-based awards. As new options or stock-based awards are granted, additional non-cash compensation expense will be recorded by us. Upon adoption of SFAS No. 123 (R) effective September 1, 2006, we reclassified the balance of deferred compensation of \$247,700 to additional paid-in capital.

Results of Operations: Comparison of Fiscal Years ended August 31, 2007 and 2006

Revenues. Total revenues for fiscal 2007 were \$2,834,386 compared to \$2,898,402 for fiscal 2006, a decrease of \$64,016, or 2%. Our revenues can fluctuate significantly from period to period because our sales, to date, have been based upon a relatively small number of systems, the sales price of each being substantial enough to greatly impact revenue levels in the periods in which they occur. Sales of a few systems can cause a large change in our revenues from period to period.

Related Party Sales. We earned \$1,385,332, or approximately 49%, of our revenues in the year ended August 31, 2007 from sales to related parties as compared to \$689,086 or approximately 24%, in the year ended August 31, 2006. These sales for the year ended August 31, 2007 were to Medizin-Technik and consisted of product sales of \$1,172,930, probes of \$47,902 and other revenues of \$164,500. All of the related party revenues in the year ended August 31, 2006 was from sales of systems and component parts. Sales to Medizin-Technik may fluctuate significantly from period to period because our sales, to date, have been based upon a relatively small number of systems, the sales

price of each being substantial enough to greatly impact revenue levels in the periods in which they occur. Sales of a few systems can cause a large change in our revenue from period to period.

Non-Related Party Sales. In the year ended August 31, 2007, we earned \$1,449,054, or 51%, of our revenues from sales to unrelated parties, as compared to \$2,209,316, or 76%, for the year ended August 31, 2006. These sales for the year ended August 31, 2007 consisted of product sales of \$1,347,887, consulting services of \$36,309, service contracts of \$41,338, probes of \$3,300 and other revenue of \$20,220. By comparison, these sales for the year ended August 31, 2006 consisted of product sales of \$1,902,175, sales of consumable devices of \$126,896, consulting services of \$144,750, service contracts of \$18,245, and other revenue of \$17,250.

Cost of Sales. Cost of sales for fiscal 2007 was \$1,581,562 compared to \$1,716,640 for fiscal 2006, a decrease of \$135,078 or 8%. This decrease resulted primarily from lower sales in fiscal 2007. Cost of sales as a percentage of sales will fluctuate from period to period depending on the mix of sales for the period. Cost of sales to related parties in fiscal 2007 increased to \$815,522 from \$317,214 in fiscal 2006 primarily due to the increase in related party sales. During fiscal 2007 and 2006, all of the related party cost of sales were attributable to sales to Medizin-Technik.

Gross Profit. Gross profit for the year ended August 31, 2007 was \$1,252,824 or 44% of total sales, as compared to \$1,181,762 or 41% of total sales for the year ended August 31, 2006. As sales volume increases, we believe we will more fully absorb our fixed overhead costs, thus increasing our gross profit percentage. The gross margin percentage will also fluctuate from period to period depending on the mix of revenues reported for the period.

Research and Development Expenses. Research and development expenses were \$1,875,147 for the year ended August 31, 2007, as compared to \$1,251,956, for the year ended August 31, 2006, an increase of \$623,191, or approximately 50%. Research and development expenses in the year ended August 31, 2007 increased due to expanded activities related to the following:

- Update of our commercial version of the BSD-2000 with complete modernization of the computer system, including addition of the Sigma Ellipse phased array applicator.
- Support for field implementation of a complete new design of the BSD-2000 patient support system, enhancements to the BSD 500 and 2000 systems including language translations of the operating manuals to German and Chinese and development of various spiral array applicator systems to compliment the BSD-500.
- Support for PMA filing for the BSD-2000 system, development of the first model of the MicroThermX 100 microwave ablation system.
- Development of new microwave ablation disposable applicators.
- Technical research to evaluate the various treatment sites and diseases suitable for the application of the MicroThermX 100.

Selling General and Administrative Expenses. Selling, general and administrative expenses increased to \$5,762,217 in the year ended August 31, 2007, from \$5,028,957 for the year ended August 31, 2006, an increase of \$733,260 or approximately 15%. This increase was primarily due to a non-cash stock-based compensation expense of \$832,224 related to issuance of stock options. We anticipate that our selling, general and administrative expenses will continue at this increased level, at least in the short term.

Interest Income. Interest income decreased to \$1,133,125 for the year ended August 31, 2007, as compared to \$1,301,341 for the year ended August 31, 2006, due to lower average levels of cash and investments in the current fiscal year.

Gain on Sale of Equity Interest. Other income for fiscal 2007 included \$202,223 additional proceeds received from the sale of our equity interest in TherMatrx. During fiscal 2006, we recognized a gain on sale of our equity interest in TherMatrx of \$18,016,272.

Net Income (Loss). During the year ended August 31, 2007 we had a net loss of \$3,348,195, after recording a tax benefit of \$1,865,000, as compared to an after tax net income of \$9,249,496 in the year ended August 31, 2006. The net income in the previous fiscal year was attributed primarily to the gain on sale of our investment in TherMatrx.

Results of Operations: Comparison of Fiscal Years ended August 31, 2006 and 2005

Revenues. Total revenues for fiscal 2006 were \$2,898,402 compared to \$2,021,104 for fiscal 2005, an increase of \$877,298, or 43%. The increase in total revenues was primarily due to an increase in sales of our BSD-2000 and BSD 500 systems during fiscal 2006. Product sales increased to \$2,706,214 in fiscal 2006 from \$1,844,321 in fiscal 2005, an increase of \$861,893, or 47%. Service revenue increased to \$192,188 in fiscal 2006 as compared to \$176,783 in fiscal 2005 primarily due to an increase in consulting revenue. Our revenues can fluctuate significantly from period to period because our sales, to date, have been based upon a relatively small number of systems, the sales price of each being substantial enough to greatly impact revenue levels in the periods in which they occur.

Related Party Sales. We derived \$689,086, or 24%, of our total revenues in fiscal 2006 from sales to related parties as compared to \$987,472, or 49%, in fiscal 2005. All of the related party revenue in fiscal 2006 was for BSD-2000 and BSD-500 systems and various component parts sold to Medizin-Technik. Sales to Medizin-Technik may fluctuate significantly depending on Medizin-Technik's anticipated sales and ability to place orders in Europe. Since the sale of our ownership in TherMatrx we no longer consider TherMatrx a related party.

Non-related Party Sales. In fiscal 2006, we derived \$2,209,316, or 76%, of our total revenues as compared to \$1,033,632, or 51%, in fiscal 2005 from non-related party sales. Our fiscal 2006 non-related party revenue consisted of sales of BSD-500 and BSD-2000 systems for \$1,902,175. The balance of our non-related party revenue consisted of consumable devices of \$126,896, service contracts of \$18,245, billable labor of \$17,250 and consulting revenue of \$144,750.

Cost of Sales. Cost of sales for fiscal 2006 was \$1,716,640 compared to \$1,320,110 for fiscal 2005, an increase of \$396,530 or 30%. This increase resulted primarily from higher sales in fiscal 2006 compared to fiscal 2005. Cost of sales as a percentage of sales will fluctuate from period to period depending on the mix of sales for the period. Cost of sales to related parties in fiscal 2006 decreased to \$317,214 from \$644,980, in fiscal 2005 primarily due to the decrease in related party sales. During fiscal 2006 and 2005, all of the related party cost of sales were attributable to sales to Medizin-Technik.

Gross Profit. Gross profit for the fiscal year ending August 31, 2006 was \$1,181,762, or 41%, as compared to \$700,994, or 35%, of total product sales for the fiscal year ended August 31, 2005. The increase in gross profit margin was primarily due to production efficiencies obtained from a higher volume of hyperthermia system sales in the fiscal year ended August 31, 2006. The gross margin percentage will also fluctuate from period to period depending on the mix of revenues reported for the period.

Research and Development Expenses. Research and expenses for fiscal 2006 were \$1,251,956 compared to \$859,614 for fiscal 2005, an increase of \$392,342, or 46%. Research and development expenses in fiscal 2006 related to the following:

- completion of our commercial version of the BSD-2000 with complete modernization of the computer system, addition of the Sigma Ellipse phased array applicator
- a complete new design of the BSD-2000 patient support system, enhancements to the BSD 500 and 2000 systems including language translations of the operating manuals to German and Chinese development of various spiral array applicator systems to compliment the BSD-500
- completion of regulatory certifications of the improvements of the BSD-500 and BSD-2000 systems
- PMA filing for the BSD-2000 system, development of the first model of the MicroThermX 100 microwave ablation system
- and development of new microwave ablation disposable applicators
- technical research to evaluate the various treatment sites and diseases suitable for the application of the MicroThermX 100.

Inventory Impairment Expense. As of August 31, 2005, we had recorded a reserve for potential inventory impairment of \$80,000. During fiscal 2006, we reduced our inventory reserve from \$80,000 to \$40,000. In addition to the reduction of inventory reserve we also wrote off \$24,003 in obsolete inventory.

Selling, General and Administrative Expenses. Selling, general and administrative expenses for fiscal 2006 were \$5,028,957 as compared to \$2,135,076 in fiscal 2005, an increase of \$2,893,881, or 136%. This increase was primarily due to increases in sales and marketing expense, and overall higher payroll and employee benefits in fiscal 2006 as compared to fiscal 2005.

Interest Income. Interest income increased to \$1,301,341 in fiscal 2006 as compared to \$362,462 in fiscal 2005 due to increased investments, including cash, generated from the sale of TherMatrix.

Gain on Sale of Equity Interest. Other income for fiscal 2006 included \$18,016,272 gain on sale of our equity interest in TherMatrix, compared to \$6,551,087 gain on sale of our equity interest in TherMatrix in fiscal 2005.

Net Profit/ Loss. In fiscal 2006, we had after-tax net income of \$9,249,496 as compared to after tax net income in fiscal 2005 of \$3,321,692. The increase in after-tax net profit related to the sale of our interest in TherMatrix.

Fluctuation in Operating Results.

Our results of operations have fluctuated in the past and may fluctuate in the future from year to year as well as from quarter to quarter. Revenue may fluctuate as a result of factors relating to the demand for thermotherapy systems and component parts supplied by us to TherMatrix, market acceptance of our BSD hyperthermia systems, changes in the medical capital equipment market, changes in order mix and product order configurations, competition, regulatory developments and other matters. Operating expenses may fluctuate as a result of the timing of sales and marketing activities, research and development and clinical trial expenses, and general and administrative expenses

associated with our potential growth. For these and other reasons described elsewhere, our results of operations for a particular period may not be indicative of operating results for any other period.

Liquidity and Capital Resources

Since inception through August 31, 2007, we have generated an accumulated deficit of \$2,850,153. We have historically financed our operations through cash from operations, research grants, licensing of technological assets, issuance of common stock and sale of investments in spinoff operations. As of August 31, 2007, we had cash, cash equivalents and investments totaling \$19,506,658 as compared to cash, cash equivalents and investments totaling \$24,735,200 as of August 31, 2006.

During the year ended August 31, 2007, we used \$5,120,462 of cash in operating activities, primarily as a result of our net loss of \$3,348,195, decrease in income tax payable of \$1,500,000, and increase in income tax receivable of \$1,752,492, offset by a decrease in receivables of \$894,376. By comparison, net cash used in operating activities was \$6,883,132 during the year ended August 31, 2006.

Net cash provided by investing activities for the year ended August 31, 2007 was \$3,128,201, resulting from the sale of investments of \$2,992,590 and additional proceeds from the sale of our investment in TherMatrx of \$202,223, partially offset by the purchase of property and equipment of \$66,612. For the year ended August 31, 2006, net cash provided by investing activities was 7,729,216, resulting from proceeds from the sale of our investment in TherMatrx of \$18,016,272, partially offset by the purchase of investments of \$10,073,884 and the purchase of property and equipment of \$213,172.

Net cash provided by financing activities consisted of proceeds from the sale of common stock through the exercise of stock options of \$229,707 in fiscal 2007 and \$424,336 in fiscal 2006.

We expect to incur additional expenses related to the commercial introduction of our systems, due to additional participation at trade shows, expenditures on publicity, additional travel, increased sales salaries and commissions and other related expenses. In addition, we anticipate that we will incur increased expenses related to seeking governmental and regulatory approvals for our products and continued expenses related to corporate governance and compliance with the Sarbanes-Oxley Act of 2002, during fiscal 2008.

We believe we can cover any cash requirements with cost cutting or available cash. If we cannot cover any such cash shortfall with cost cutting or available cash, we would need to obtain additional financing. We cannot be certain that any financing will be available when needed or will be available on terms acceptable to us. If we raise equity capital our stockholders will be diluted. Insufficient funds may require us to delay, scale back or eliminate some or all of our programs designed to facilitate the commercial introduction of our systems or entry into new markets.

As of August 31, 2007, we have no significant commitments for the purchase of property and equipment.

The Company has no off balance sheet arrangements as of August 31, 2007.

We believe that our current cash and cash equivalents, investments, and expected cash provided from operating activities will be sufficient to fund our operations for the next twelve months.

Recent Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation (FIN) 48, *Accounting for Uncertainty in Income Taxes*. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, *Accounting for Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company is currently evaluating the impact this Interpretation will have on its financial statements. This Interpretation will be effective in the Company's financial statements for the fiscal year beginning September 1, 2007.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115*. This statement permits entities to choose to measure many financial instruments and certain other items at fair value. Most of the provisions of SFAS No. 159 apply only to entities that elect the fair value option. However, the amendment to SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, applies to all entities with available-for-sale and trading securities. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provision of SFAS No. 157, *Fair Value Measurements*. The adoption of this statement is not expected to have a material effect on the Company's financial statements.

In September 2006, the FASB issued SFAS Statement No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. This new standard will require employers to fully recognize the obligations associated with single-employer defined benefit pension, retiree healthcare and other postretirement plans in their financial statements. The Company anticipates adopting SFAS No. 158 on September 1, 2007, and does not believe the adoption of the new accounting standard will result in a material impact on the financial statements of the Company since the Company currently does not sponsor the defined benefit pension or postretirement plans within the scope of the standard.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and requires enhanced disclosures about fair value measurements. SFAS No. 157 requires companies to disclose the fair value of their financial instruments according to a fair value hierarchy as defined in the standard. Additionally, companies are required to provide enhanced disclosure regarding financial instruments in one of the categories, including a reconciliation of the beginning and ending balances separately for each major category of assets and liabilities. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company believes that the adoption of SFAS No. 157 will not have a material impact on its financial statements.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets*, to simplify accounting for separately recognized servicing assets and servicing liabilities. SFAS No. 156 amends SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. Additionally, SFAS No. 156 applies to all separately recognized servicing assets and liabilities acquired or issued after the beginning of an entity's fiscal year that begins after September 15, 2006, although early adoption is permitted. The Company does not expect the adoption of this new standard to have a material impact on its financial position, results of operations or cash flows.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Instruments*,

which amends SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS No. 155 allows financial instruments that have embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) if the holder elects to account for the whole instrument on a fair value basis. SFAS No. 155 also clarifies and amends certain other provisions of SFAS No. 133 and SFAS No. 140. This statement is effective for all financial instruments acquired or issued in financial years beginning after September 15, 2006. The Company does not expect the adoption of this new standard to have a material impact on its financial position, results of operations or cash flows.

On December 21, 2006, the FASB issued FASB Staff Position (FSP) Emerging Issues Task Force (EITF) 00-19-2, *Accounting for Registration Payment Arrangements*, which requires an issuer to account for a contingent obligation to transfer consideration under a registration payment arrangement in accordance with FASB Statement No. 5, *Accounting for Contingencies*, and FASB Interpretation 14, *Reasonable Estimation of the Amount of Loss*. Registration payment arrangements are frequently entered into in connection with issuance of unregistered financial instruments, such as equity shares or warrants. A registration payment arrangement contingently obligates the issuer to make future payments or otherwise transfer consideration to another party if the issuer fails to file a registration statement with the SEC for the resale of specified financial instruments or fails to have the registration statement declared effective within a specific period. The FSP requires issuers to make certain disclosures for each registration payment arrangement or group of similar arrangements. The FSP is effective immediately for registration payment arrangements and financial instruments entered into or modified after the FSP's issuance date. For previously issued registration payment arrangements and financial instruments subject to those arrangements, the FSP is effective for financial statements issued for fiscal years beginning after December 15, 2006. To the extent that the Company enters into financing arrangements in the future that include registration payment arrangements, the future application of this FSP may have a material effect on its financial condition and results of operations.

In June 2006, the FASB ratified EITF, No. 06-3, *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)*. EITF No. 06-3 requires that, for interim and annual reporting periods beginning after December 15, 2006, the Company disclose its policy related to the presentation of sales taxes and similar assessments related to our revenue transactions. Early adoption is permitted. The Company presents revenue net of sales taxes and any similar assessments. EITF No. 06-3 had no effect on the Company's financial position and results of operations.

EITF No. 07-3, *Accounting for Nonrefundable Advance Payments for Goods or Services Received for Use in Future Research and Development Activities*, was issued in June 2007. The EITF reached a consensus that nonrefundable payments for goods and services that will be used or rendered for future research and development activities should be deferred and capitalized. Such amounts should be recognized as an expense as the related goods are delivered and the related services are performed. Entities should continue to evaluate whether they expect the goods to be delivered or services to be rendered. If the entity does not expect the goods to be delivered or services to be rendered, the capitalized advance payment should be charged to expense. This pronouncement is effective for financial statements issued for fiscal years beginning after December 15, 2007 (the Company's fiscal year beginning September 1, 2008) and interim periods within those fiscal years. Earlier application is not permitted. Entities are required to report the effects of applying this pronouncement prospectively for new contracts entered into on or after the effective date of this pronouncement. The Company currently is not a party to research and development arrangements that include nonrefundable advance payments. To the extent that the Company enters into research and development arrangements in the future that include nonrefundable advance payments, the future application of this pronouncement may have a material effect on its financial condition and results of operations.

FORWARD-LOOKING STATEMENTS

With the exception of historical facts, the statements contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which reflect our current expectations and beliefs regarding our future results of operations, performance and achievements. These statements are subject to risks and uncertainties and are based upon assumptions and beliefs that may or may not materialize. These forward-looking statements include, but are not limited to, statements concerning:

- our belief about the market opportunities for our products;
- our anticipated financial performance and business plan;
- our expectations regarding the commercialization of the BSD-2000, BSD 500 and MicroThermX 100 systems;
- our expectations to further expand our developments to treat other diseases and medical conditions;
- our expectations that in a higher production environment of established commercial sales we could achieve a 60% gross margin on system sales and an 80% gross margin on service agreements and disposable applicators used with our MicroThermX 100 system;
- our belief concerning the market potential for developed cancer therapy systems;
- our expectations related to the after-market opportunity for service agreements;
- our expectations related to the replacement cycle for our systems;
- our expectations that we will incur increased expenses related to seeking governmental and regulatory approvals for our products;
- our expectations and efforts regarding FDA approvals relating to the BSD-2000 and MicroThermX 100 systems;
- our belief that our technology has application for additional approaches to treating cancer and for other medical purposes;
- our expectations related to the amount of expenses we will incur for the commercial introduction of the BSD-2000 and MicroThermX 100 systems;
- our expectation that we will incur increased expenses related to our corporate governance and compliance with the Sarbanes-Oxley Act of 2002;
- our expectation that our selling, general and administrative expenses will continue at increased levels at least in the short term;
- our belief that we can cover any cash shortfall with cost cutting or available cash; and

- our belief that our current working capital, investments and cash from operations will be sufficient to finance our operations through working capital and capital resources needs for the next twelve months.

We wish to caution readers that the forward-looking statements and our operating results are subject to various risks and uncertainties that could cause our actual results and outcomes to differ materially from those discussed or anticipated, including the factors set forth in the subsection entitled “Risks Related to Our Business” included in our Annual Report on Form 10-KSB for the year ended August 31, 2006 and our other filings with the Securities and Exchange Commission. We also wish to advise readers not to place any undue reliance on the forward-looking statements contained in this report, which reflect our beliefs and expectations only as of the date of this report. We assume no obligation to update or revise these forward-looking statements to reflect new events or circumstances or any changes in our beliefs or expectations, other than as required by law.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A significant portion of the Company’s cash equivalents and short-term investments bear variable interest rates that are adjusted to market conditions. Changes in market rates will affect interest earned and potentially the market value of the principal of these instruments. The Company does not utilize derivative instruments to offset the exposure to interest rate changes. Significant changes in interest rates may have a material impact on the Company’s investment income, but not on the Company’s consolidated results of operations.

The Company does have significant sales to foreign customers and is therefore subject to the effects of changes in foreign currency exchange rates may have on demand for its products and services. The Company does not utilize derivative instruments to offset the exposure to changes in foreign currency exchange rates. To minimize foreign exchange risk, the Company’s export sales are transacted in United States dollars.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The Financial Statements of the Company called for by this item are contained in a separate section of this report. See “Index to Financial Statements” on Page F-1.

The following table presents selected unaudited quarterly financial data for each of the four quarters in our fiscal years 2007 and 2006. The selected quarterly financial data reflects, in the opinion of management, all adjustments necessary to fairly present the results of operations for such periods. Results of any one or more quarters are not necessarily indicative of continuing trends.

	2007				2006			
	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
Total revenues	\$ 664,655	\$ 660,657	\$ 953,176	\$ 555,898	\$ 521,167	\$ 439,376	\$ 712,771	\$ 1,225,088
Net income loss	(861,671)	(712,785)	(634,638)	(1,139,101)	3,136,242	3,181,679	2,987,623	(56,048)
Income (loss) per common share - diluted	\$ (0.04)	\$ (0.03)	\$ (0.03)	\$ (0.06)	\$ 0.14	\$ 0.14	\$ 0.14	\$ (0.00)

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURES

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company intends to maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in reports filed under the Securities Exchange Act of 1934 (the "Act") is recorded, processed, summarized and reported within the specified time periods and accumulated and communicated to management, including its Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Accounting Officer), as appropriate, to allow timely decisions regarding required disclosure.

Management, under the supervision and with the participation of its Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Accounting Officer), evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) promulgated under the Act), as of August 31, 2007. Based on that evaluation, management concluded that our internal control over financial reporting was effective as of August 31, 2007.

Attached as exhibits to this Annual Report on Form 10-K are certifications of the Company's Chief Executive Officer (Principal Executive Officer) and Interim Chief Financial Officer (Principal Accounting Officer), which are required in accordance with Rule 13a-14 of the Act. This Disclosure Controls and Procedures section includes information concerning management's evaluation of disclosure controls and procedures referred to in those certifications and, as such, should be read in conjunction with the certifications of the Company's Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Accounting Officer).

Management's assessment of the effectiveness of the Company's internal control over financial reporting has been audited by Tanner LC, an independent registered public accounting firm, as stated in their report which is included herein.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining effective internal control over financial reporting of the Company. Management's intent is to design this system to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles in the United States of America.

The Company's internal control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

A material weakness is a significant deficiency, or combination of significant deficiencies, in internal controls over financial reporting such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. Management performed an assessment of the effectiveness of the Company's internal control over financial reporting as of August 31, 2007, utilizing the criteria described in the "Internal Control — Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). The objective of this assessment was to determine whether the Company's internal control over financial reporting was effective as of such date. In its assessment of the effectiveness of internal control over financial reporting as of August 31, 2007, management concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Limitations on the Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls or our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if

any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with associated policies or procedures. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information required by this item is incorporated by reference from the information in the Company's definitive Proxy Statement to be filed for the 2008 Annual Meeting of Stockholders.

ITEM 11. EXECUTIVE COMPENSATION

Information required by this item is incorporated by reference from the information in the Company's definitive Proxy Statement to be filed for the 2008 Annual Meeting of Stockholders.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

Information required by this item is incorporated by reference from the information in the Company's definitive Proxy Statement to be filed for the 2008 Annual Meeting of Stockholders.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this item is incorporated by reference from the information in the Company's definitive Proxy Statement to be filed for the 2008 Annual Meeting of Stockholders.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information required by this item is incorporated by reference from the information in the Company's definitive Proxy Statement to be filed for the 2008 Annual Meeting of Stockholders.

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

The following exhibits are incorporated herein by reference as indicated:

<u>Exhibit Number</u>	<u>Description</u>
3.1	Amended and Restated Certificate of Incorporation. Incorporated by reference to Exhibit 3.1 of the BSD Medical Corporation Annual Report Form 10-KSB, filed December 1, 2003.
3.2	By-Laws. Incorporated by reference to Exhibit 3.2 of the BSD Medical Corporation Registration Statement on Form S-1, filed October 16, 1986.
4.1	Specimen Common Stock Certificate. Incorporated by reference to Exhibit 4 of the BSD Medical Corporation Registration Statement on Form S-1, filed October 16, 1986.
4.2	Emerson Securities Purchase Agreement. Incorporated by reference to Exhibit 4.1 of the BSD Medical Corporation Annual Report on Form 10-KSB, filed December 1, 2003.
10.1	Transfer of Trade Secrets Agreement dated December 7, 1979, among BSD Medical Corporation, Vitek, Incorporated and Ronald R. Bowman. Incorporated by reference to Exhibit 10.6 of the BSD Medical Corporation Registration Statement on Form S-1, filed October 16, 1986.
10.2	Second Addendum to Exclusive Transfer of Trade Secrets Agreement dated April 2, 1987. Incorporated by reference to Exhibit 10 of the BSD Medical Corporation Annual Report on Form 10-K, filed April 8, 1988.
10.3	License Agreement between BSD Medical Corporation and EDAP Technomed, Inc., dated July 3, 1996. Incorporated by reference to Exhibit 10 of Current Report on Form 8-K, filed August 7, 1996.
10.4	Stock Purchase Agreement dated October 31, 1997, by and among TherMatrx, Inc., BSD Medical Corporation, Oracle Strategic Partners, L.P. and Charles Manker. Incorporated by reference to Exhibit 10.6 of the BSD Medical Corporation Annual Report on Form 10-KSB filed December 10, 1998.
10.5	BSD Medical Corporation 1998 Director Stock Plan. Incorporated by reference to Exhibit A of the BSD Medical Corporation Schedule 14A, filed July 27, 1998.
10.6	BSD Medical Corporation 1998 Stock Incentive Plan. Incorporated by reference to Exhibit B of the BSD Medical Corporation Schedule 14B, filed July 27, 1998.
21.1	Subsidiary List. Incorporated by reference to Exhibit 21.1 of the BSD Medical Corporation Annual Report on Form 10-KSB filed December 1, 2003.
31.1	Certification of Chief Executive Officer of BSD pursuant to Rule 13a-14.
31.2	Certification of Chief Financial Officer of BSD pursuant to Rule 13a-14.
32.1	Certification of Chief Executive Officer attached pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes Oxley Act of 2002.
32.2	Certification of the Chief Financial Officer of BSD pursuant to 18 U.S.C. §1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Board of Directors and Stockholders
BSD Medical Corporation

We have audited the internal control of BSD Medical Corporation (the Company) over financial reporting as of August 31, 2007, based on criteria established in Internal Control--Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of August 31, 2007, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the balance sheets of the Company as of August 31, 2007 and 2006, and the related statements of operations, stockholders' equity, and cash flows for each of the years in the three-year period ended August 31, 2007, and our report dated November 13, 2007 expressed an unqualified opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
of BSD Medical Corporation

We have audited the accompanying balance sheets of BSD Medical Corporation as of August 31, 2007 and 2006, and the related statements of operations, stockholders' equity and cash flows for each of the years in the three-year period ended August 31, 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of BSD Medical Corporation as of August 31, 2007 and 2006, and the results of its operations and its cash flows for each of the years in the three-year period ended August 31, 2007, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of BSD Medical Corporation's internal control over financial reporting as of August 31, 2007, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated November 13, 2007 expressed an unqualified opinion thereon.

BSD MEDICAL CORPORATION
Notes to Financial Statements

Note 1: Organization and Significant Accounting Policies

Organization – BSD Medical Corporation (the Company) was incorporated in the State of Delaware on July 3, 1986. The Company develops, produces, markets, and services systems used for the treatment of cancer and other diseases. These systems are sold worldwide. The Company’s operations are considered to comprise one business segment.

Cash and Cash Equivalents – Cash and cash equivalents consist of cash and investments with original maturities to the Company of three months or less.

Investments – Investments with scheduled maturities greater than three months, but not greater than one year, are recorded as short-term investments. Management classified these investments at August 31, 2007 and 2006 as available-for sale. The short-term investments are recorded at fair value, with net unrealized gains and losses reported as other comprehensive income in the statements of stockholders’ equity, net of income taxes. Realized gains and losses are included in the statements of income.

Trade Accounts Receivable – Trade accounts receivable are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. Management estimates an allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Trade accounts receivable are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received. Interest is not charged on trade receivables that are outstanding beyond their due date.

Inventories – Parts and supplies inventories are stated at the lower of cost or market. Cost is determined using the average cost method. Work-in-process and finished goods are stated at the lower of the accumulated manufacturing costs or market. Provisions, when required, are made to reduce excess and obsolete inventories to their estimated net realizable value. The provision was \$40,000 at August 31, 2007 and 2006.

Property and Equipment – Property and equipment are stated at cost less accumulated depreciation. Depreciation is determined using the straight-line method over the following estimated useful lives of the assets.

Equipment	2 – 5 years
Furniture and fixtures	5 years
Leasehold improvements	10 years

Leasehold improvements are depreciated over the shorter of their estimated useful life or the remaining term of the lease. Expenditures for maintenance and repairs are expensed when incurred and betterments are capitalized. Gains and losses on sales of property and equipment are reflected in operations.

Maintenance and repairs are charged to costs and expenses as incurred. The cost and accumulated depreciation of property and equipment sold or otherwise retired are removed from the

accounts and any related gain or loss on disposition is reflected in net income or loss for the period.

Patents – Patents are carried at cost and are being amortized over 17 years.

Warranty Reserve – The Company provides limited warranties to its customers for products sold. Estimated future warranty obligations are accrued each period. As of August 31, 2007 and 2006, the accrued warranty reserve was \$30,614 and \$31,000, respectively. During the fiscal years ended August 31, 2007, 2006, and 2005, total warranty expense was \$38,519, \$24,763 and \$21,662, respectively.

Income Taxes – The Company accounts for income taxes using the asset and liability method. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Income Per Common Share – The computation of basic income (loss) per common share is based on the weighted average number of shares outstanding during each year.

The computation of diluted earnings per common share is based on the weighted average number of shares outstanding during the year, plus the common stock equivalents that would arise from the exercise of stock options and warrants outstanding, using the treasury stock method and the average market price per share during the year. Common stock equivalents are not included in the diluted loss per share calculation when their effect is anti-dilutive. Options and warrants to purchase 1,795,853, 1,809,051 and 2,122,934 shares of common stock at prices ranging from \$0.37 to \$5.76, \$0.37 to \$5.76, and \$0.10 to \$2.54 per share were outstanding at August 31, 2007, 2006 and 2005, respectively.

The shares used in the computation of the Company's basic and diluted earnings per share are reconciled as follows:

	Years Ended August 31,		
	2007	2006	2005
Weighted average number of shares outstanding – basic	21,125,000	20,766,000	20,198,000
Dilutive effect of stock options	-	1,408,000	1,255,000
Weighted average number of shares outstanding, assuming dilution	<u>21,125,000</u>	<u>22,174,000</u>	<u>21,453,000</u>

Stock-Based Compensation - Effective September 1, 2006, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123(R), *Share Based Payments*, using the modified prospective application method. Under this transition method, the Company recorded compensation expense on a straight-line basis of \$832,224 for the year ended August 31, 2007 for: (a) the vesting of options granted prior to September 1, 2006 (based on the grant-date fair value estimated using the Black-Scholes option-pricing model and previously presented in the pro-forma footnote disclosures), and (b) stock-based awards granted subsequent to August 31, 2006 (based on the grant-date fair value estimated using the Black-Scholes option pricing model). In accordance with the modified prospective application method, results for the years ended August 31, 2006 and 2005 have not been restated.

Prior to the fiscal year ended August 31, 2007, the Company accounted for stock options granted to employees under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations, and adopted the disclosure-only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*. Accordingly, compensation costs are recognized in the financial statements for the years ended August 31, 2006 and 2005 for options granted with an exercise price less than the market value of the underlying common stock on the date of grant. During the years ended August 31, 2006 and 2005, the Company recognized \$88,050 and \$9,508, respectively, related to stock options granted to employees with an exercise price less than the market value of the underlying common stock. Had the Company's options been determined based on the fair value method, the results of operations would have been reduced to the pro forma amounts indicated below:

	Years Ended August 31,	
	2006	2005
Net income as reported	\$ 9,249,496	\$ 3,321,692
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	88,050	9,508
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	<u>(749,586)</u>	<u>(504,839)</u>
Net income – pro forma	<u>\$ 8,587,960</u>	<u>\$ 2,826,361</u>
Earnings per share:		
Basic – as reported	<u>\$ 0.45</u>	<u>\$ 0.16</u>
Basic – pro forma	<u>\$ 0.41</u>	<u>\$ 0.14</u>
Diluted – as reported	\$ 0.42	\$ 0.15
Diluted – pro forma	<u>\$ 0.39</u>	<u>\$ 0.13</u>

Revenue Recognition – The Company recognizes revenue from the sale of cancer treatment systems, the sale of parts and accessories related to the cancer treatment systems, providing manufacturing services, providing training, and service support contracts. Product sales were \$2,520,818, \$ 2,706,214 and \$1,844,321 for the years ended August 31, 2007, 2006 and 2005, respectively. Service and other revenues were \$313,568, \$192,188 and \$176,783 for the years ended August 31, 2007, 2006 and 2005, respectively.

Revenue from the sale of cancer treatment systems is recognized when a purchase order has been received, the system has been shipped, the selling price is fixed or determinable, and collection is reasonably assured. Most system sales are F.O.B. shipping point, therefore shipment is deemed to have occurred when the product is delivered to the transportation carrier. Most system sales do not include installation. If installation is included as part of the contract, revenue is not recognized until installation has occurred, or until any remaining installation obligation is deemed to be perfunctory. Some sales of cancer treatment systems may include training as part of the sale. In such cases, the portion of the revenue related to the training, calculated based on the amount charged for training on a stand-alone basis, is deferred and recognized when the training has been provided. The sales of the Company's cancer treatment systems do not require specific customer acceptance provisions and do not include the right of return except in cases where the product does not function as guaranteed by the Company. The Company provides a reserve allowance for estimated returns. To date, returns have not been significant.

Revenue from manufacturing services is recorded when an agreement with the customer exists for such services, the services have been provided, and collection is reasonably assured.

Revenue from training services is recorded when an agreement with the customer exists for such training, the training services have been provided, and collection is reasonably assured.

Revenue from service support contracts is recognized on a straight-line basis over the term of the contract, which approximates recognizing it as it is earned.

The Company's revenue recognition policy is the same for sales to both related parties and non-related parties. The Company provides the same products and services under the same terms for non-related parties as with related parties.

Sales to distributors are recognized in the same manner as sales to end-user customers.

Deferred revenue and customer deposits payable include amounts from service contracts as well as cash received for the sales of products, which have not been shipped.

Concentration of Credit Risk – Financial instruments that potentially subject the Company to concentration of credit risk consists primarily of trade receivables. In the normal course of business, the Company provides credit terms to its customers. Accordingly, the Company performs ongoing credit evaluations of its customers and maintains allowances for possible losses.

The Company has cash in the bank and short-term investments that exceed federally insured limits. The Company has not experienced any losses in such accounts.

Advertising and Promotion – Advertising and promotion costs, which are principally included in sales expenses, are expensed as incurred. Advertising and promotion expense was approximately \$331,000, \$758,000 and \$103,000 for the years ended August 31, 2007, 2006 and 2005, respectively.

Use of Estimates in the Preparation of Financial Statements – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ

from those estimates.

Comprehensive Income (Loss) – Comprehensive income (loss) consists of net income and net unrealized gains and losses from the Company’s investments classified as available-for sale, which is reported on the accompanying statements of stockholders’ equity as a component of other comprehensive income.

Reclassifications – Certain amounts in the prior years have been reclassified to conform with the current year presentation.

Note 2: Detail of Certain Balance Sheet Accounts

Details of certain balance sheet accounts are as follows:

Accounts receivable:	August 31,	
	2007	2006
Trade receivables – non-related party	\$ 113,493	\$ 1,076,006
Other receivables	6,638	8,000
Accrued interest receivable	103,136	122,794
Allowance for doubtful accounts	(20,000)	(20,000)
	\$ 203,267	\$ 1,186,800

Inventories:	August 31,	
	2007	2006
Parts and supplies	\$ 835,498	\$ 711,552
Work-in-process	610,846	641,608
Finished goods	103,723	53,104
Reserve for obsolete inventory	(40,000)	(40,000)
	\$ 1,510,067	\$ 1,366,264

Accrued liabilities:	August 31,	
	2007	2006
Accrued vacation	\$ 260,229	\$ 192,203
Accrued taxes payable	46,842	60,311
Accrued bonuses	115,000	-
Other accrued liabilities	211,019	192,599
	\$ 633,090	\$ 445,113

Note 3: Investments

As of August 31, 2007 and 2006, investments consisted primarily of mutual funds, and were all considered available-for-sale securities. As of August 31, 2007, investments had a cost, determined on a specific identification method, of \$19,662,878, fair value of \$19,090,118 and unrealized losses of \$572,760. As of August 31, 2006, investments had a cost of \$22,655,468, fair value of \$22,556,106 and unrealized losses of \$99,362. No realized gains or losses on investments were recorded in the years ended August 31, 2007, 2006 and 2005.

Note 4: Property and Equipment

Property and equipment consists of the following:

	August 31,	
	2007	2006
Equipment	\$ 962,162	\$ 997,053
Furniture and fixtures	298,576	298,597
Leasehold improvement	17,420	17,420
	<u>1,278,158</u>	<u>1,313,070</u>
Less accumulated depreciation	(1,007,081)	(1,010,036)
	<u>\$ 271,077</u>	<u>\$ 303,034</u>

Depreciation expense for the years ended August 31, 2007, 2006 and 2005 totaled \$95,971 \$84,982, and \$75,113, respectively.

Note 5: Patent

The Company has one patent recorded net of accumulated amortization. The patent is being amortized on a straight-line basis over its estimated useful life with an amortization period of 17 years. Amortization expense was \$1,878 for each of the years ended August 31, 2007, 2006, and 2005. For each of the next five years, amortization expense relating to the patent is expected to be \$1,878 per year.

Note 6: Note Receivable

During the year ended August 31, 2006, the Company entered into a sales agreement with one of its customers with extended payment terms. These terms allowed for \$137,500 of the purchase price to be due within two years from the date of the sale. Accordingly, as of August 31, 2006, this amount was recorded as non-current and interest imputed on the amount calculated at market rates. Revenue for this long-term portion of the agreement had been deferred. The Company wrote off the note against deferred revenue during the year ended August 31, 2007.

Note 7: Operating Lease

The Company renewed its building lease in November of 2002 for five years, which includes payments of approximately \$82,000 per year, adjusted annually for increases in the cost of living based on the Consumer Price Index for Urban Consumers. The Company has an option to purchase the building for \$1,000,000 upon 60 days notice for six years beginning December 5, 1997. Thereafter, the purchase price increases by \$50,000 each year, and the option expires at the end of the tenth year. See Note 18.

Future minimum payments are \$15,619 for the year ending August 31, 2008.

Annual rent expense on this operating lease for the years ended August 31, 2007, 2006 and 2005 amounted to \$93,032, \$89,393, and \$86,400, respectively.

Note 8: Deferred Revenue

The Company has entered into certain service contracts for which it has received payment in advance. The Company is recognizing these service revenues over the life of the service agreements.

As of August 31, 2007 and 2006, the Company had \$74,448 and \$235,412 of deferred revenue, respectively.

Note 9: Major Customers and Foreign Sales

The Company had the following customer revenue concentrations:

	Years Ended August 31,		
	2007	2006	2005
Customer A	48.88%	23.77%	48.55%
Customer B	*	45.48%	29.84%
Customer C	*	10.38%	*

*Sales to customers were less than 10%.

Export sales were \$1,787,363, \$2,413,807 and \$1,595,050 in fiscal years 2007, 2006 and 2005, respectively.

During fiscal year 2007, export sales to Switzerland were approximately 44% of total sales. During fiscal year 2006, export sales to China, Switzerland and Poland were approximately 45%, 21% and 10% of total sales, respectively. During fiscal year 2005, export sales to Switzerland and China were approximately 45% and 30% of total sales, respectively.

Note 10: Income Taxes

The components of the income tax (provision) benefit are as follows:

	Years Ended August 31,		
	2007	2006	2005
Current:			
Federal	\$ 1,653,000	\$ (4,606,000)	\$ (452,000)
State	146,000	(690,000)	(164,000)
	1,799,000	(5,296,000)	(616,000)
Deferred:			
Federal	66,000	87,000	(687,000)
	<u>\$ 1,865,000</u>	<u>\$ (5,209,000)</u>	<u>\$ (1,303,000)</u>

The income tax (provision) benefit differs from the amount computed at federal statutory rates as follows:

	Years Ended August 31,		
	2007	2006	2005
Income tax (provision) benefit at federal statutory rate	\$ 1,772,000	\$ (5,393,000)	\$ (1,711,000)
Stock-based compensation	(233,000)	-	-
State income taxes, net of federal benefit	96,000	-	-
Research and development credit	160,000	190,000	76,000
Change in estimate of use of net operating loss carryforwards	-	-	284,000
Other	70,000	(6,000)	48,000
	<u>\$ 1,865,000</u>	<u>\$ (5,209,000)</u>	<u>\$ (1,303,000)</u>

Deferred tax assets (liabilities) are comprised of the following:

	August 31,	
	2007	2006
Current Asset:		
Accruals and reserves	\$ 129,000	\$ 96,000
Deferred revenue	28,000	80,000
Inventories	18,000	-
Unrealized loss on investments	212,000	-
	<u>\$ 387,000</u>	<u>\$ 176,000</u>
Long-Term Asset:		
Deferred compensation	\$ 112,000	\$ 57,000
Depreciation and amortization	(43,000)	(55,000)
	<u>\$ 69,000</u>	<u>\$ 2,000</u>

Note 11: Stock-Based Compensation

The Company's 1998 Employee Stock Option Plan authorizes the granting of incentive stock options to certain key employees and non-employees who provide services to the Company. The Plan, as amended, provides for the granting of options for an aggregate of 2,677,300 shares. The options vest subject to management's discretion.

The Company's 1998 Director Stock Plan was amended in February of 2006 to provide an annual retainer of \$30,000 to each non-employee director with the exception of the Audit Committee Chairman who is to receive \$35,000. The annual compensation plan calls for payment to be made twice a year with each payment consisting of \$15,000 in cash and \$15,000 in common stock, with the exception of the Audit Committee Chairman who is to receive \$20,000 in cash and \$15,000 in common stock with the number of shares issued calculated by dividing the unpaid compensation by a daily average of the preceding twenty day closing price of the Company's common stock. The Plan also grants each non-employee outside director 30,000 options each year at an exercise price equal to the fair market value of the common stock at the date the option is granted. The Plan allows for an aggregate of 1,000,000 shares to be granted. The options vest according to a set schedule over a five-year period and expire upon the director's termination, or after ten years from the date of grant.

Effective September 1, 2006, the Company adopted SFAS No. 123 (R), Share-Based Payment, which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options. In accordance with this standard, the Company recognizes the compensation cost of all share-based awards on a straight-line basis over the requisite service period for the number of awards that are expected to vest. Prior to September 1, 2006, the Company accounted for those plans under the recognition and measurement provisions of APB Opinion No. 25, and related Interpretations, as permitted by SFAS No. 123.

The Company's financial statements as of August 31, 2007 and for the year ended August 31, 2007 reflect the impact of the implementation of SFAS 123(R). The Company adopted SFAS 123(R) using the modified prospective transition method, which requires that compensation expense be recognized during the year ended August 31, 2007 equal to: (a) amortization related to the compensation cost for all share-based payments granted prior to, but not yet vested as of September 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123, and (b) amortization related to compensation cost for all share-based payments granted subsequent to September 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). Results for prior years have not been restated.

The adoption of SFAS 123(R) had a significant impact on the Company's results of operations. The Company's statement of operations for the year ended August 31, 2007 includes stock-based compensation expense from stock options in selling, general and administrative expenses of \$832,224.

During the year ended August 31, 2007, the Company granted 120,000 options to its directors, with one fifth vesting each year for the next five years and 155,000 options to its employees with one third vesting each year for the next three years. These grants account for \$82,638 of the stock-based compensation expense for the year ended August 31, 2007.

Unrecognized stock-based compensation expense expected to be recognized over the estimated weighted-average amortization period of 1.58 years is approximately \$1,544,000 at August 31, 2007.

The weighted-average assumptions used in the Black-Scholes valuation model for equity

awards with time-based vesting provisions are shown below:

	Years Ended August 31,		
	2007	2006	2005
Expected volatility	65.16%	74.41%	79.38%
Expected forfeiture rate	0%	0%	0%
Expected dividends	0%	0%	0%
Expected term	5.7 Years	4.89 Years	10.0 Years
Risk-free interest rate	4.67%	4.33%	4.46%

The expected volatility rate was estimated based on the four-year historical volatility of the Company's common stock. The expected term was estimated based on historical experience of stock option exercise. The risk-free interest rate is the rate provided by the U.S. Treasury for Daily Treasury Yield Curve Rates commonly referred to as "Constant Maturity Treasury" rate in effect at the time of grant with a remaining term equal to the expected option term.

A summary of the time-based stock option awards as of August 31, 2007, and changes during the year then ended, is as follows:

Stock Option Awards	<u>Shares</u>	<u>Weighted- Average Exercise Price</u>	<u>Weighted- Average Remaining Contract Term (Years)</u>	<u>Aggregate Intrinsic Value</u>
Outstanding at August 31, 2006	1,809,051	\$ 1.72		
Granted	275,000	4.97		
Exercised	(278,198)	1.09		
Forfeited or expired	(10,000)	1.20		
	<hr/>	<hr/>		
Outstanding at August 31, 2007	1,795,853	\$ 2.31	6.74	
	<hr/>	<hr/>		
Exercisable at August 31, 2007	1,343,591	\$ 1.46	5.94	\$ 8,748,864

The weighted-average grant-date fair value of stock options granted during the year ended August 31, 2007 was \$3.08.

Upon adoption of SFAS No. 123 (R) effective September 1, 2006, the Company reclassified the balance of deferred compensation of \$247,700 to additional paid-in capital.

Note 12: Related Party Transactions

During the years ended August 31, 2007, 2006, and 2005, the Company had sales of \$1,385,332, \$689,086 and \$987,472, respectively, to an entity controlled by a significant stockholder and member of the Board of Directors. These related party transactions represent 49%, 24% and 49% of total sales for each respective year.

At August 31, 2007 and 2006, receivables include \$488,200 and \$261,543, respectively, from this entity.

Note 13: Supplemental Cash Flow Information

Actual amounts paid for interest and income taxes are as follows:

	Years Ended August 31,		
	2007	2006	2005
Interest expense	\$ -	\$ -	\$ -
Income taxes	\$ 1,798,676	\$ 2,576,605	\$ 351,354

During the year ended August 31, 2007, the Company

- Recorded an increase in additional paid in capital of \$47,449 and corresponding decrease to income taxes payable related to the tax benefit from the exercise of stock options.
- Increased other comprehensive loss by \$261,398, decreased investments by \$473,398 and increased short-term deferred tax asset by \$212,000.
- Transferred deferred compensation of \$247,700 to additional paid-in capital.
- Decreased income taxes payable and decreased income tax receivable by \$39,946.
- Increased common stock and decreased additional paid-in capital by \$68.

During the year ended August 31, 2006, the Company:

- Had other comprehensive loss of \$136,301.
- Recorded deferred compensation of \$301,700.
- Recorded an increase in additional paid in capital of \$972,282 and corresponding decrease to income taxes payable related to the tax benefit from the exercise of stock options.

During the year ended August 31, 2005, the Company:

- Had other comprehensive income of \$36,939.
- Recorded deferred compensation of \$15,750.
- Recorded an increase in additional paid in capital of \$272,945 and a corresponding decrease to income taxes payable related to the tax benefit from the exercise of stock options.

Note 14: Commitments and Contingencies

The Company has an employment agreement with the President of the Company. The agreement provides that the President's salary will be based upon a reasonable mutual agreement. The agreement provides that if the President is involuntarily terminated, he will receive severance compensation for a period of six months, including an extension of all benefits and perquisites. The severance amount shall include six months of salary at the highest rate paid to the President prior to termination and an additional amount equal to all bonuses received by the President during the 12-month period preceding termination. The agreement also requires the Company to vest any options granted to the President for the purchase of the Company's common stock, allowing a 90-day period for him to exercise those options. The President's agreement includes a non-competition covenant prohibiting him from competing with the Company for one year following his termination.

The Company also has an employment agreement with the Chairman of the Board, Senior Vice President and Chief Technical Officer. The agreement provides that the Chairman's salary will be based upon a reasonable mutual agreement. The agreement also provides that if the Chairman's employment is involuntarily terminated, he will receive severance pay for a one-year period, which pay includes an extension of all of his rights, privileges and benefits as an employee. The one-year severance pay shall be equal to the Chairman's regular salary for the 12-month period immediately prior to the termination. The agreement also requires the Company to pay Mr. Turner for any accrued, unused vacation and bonuses at the time of termination. The Chairman's agreement includes a non-competition covenant prohibiting him from competing with the Company for one year following his termination. The Company may continue the non-competition period for up to four additional years by notifying the Chairman in writing and by continuing the severance payments for the additional years during which the non-competition period is extended.

The Company has an exclusive worldwide license for a unique temperature probe. The license has no determinable life. The Company pays royalties based upon its sales of this probe. Accrued royalties were \$1,120 and \$3,500 as of August 31, 2007 and 2006, respectively. Royalty expense amounted to \$5,445, \$6,180 and \$4,710 for the years ended August 31, 2007, 2006 and 2005, respectively.

Note 15: Fair Value of Financial Instruments

None of the Company's financial instruments are held for trading purposes. The Company estimates that the fair value of all financial instruments at August 31, 2007 and 2006 does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheets. The estimated fair value amounts have been determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is necessarily required in interpreting market data to develop the estimates of fair value, and, accordingly, the estimates are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

Note 16: Sale of Equity Interest

The Company held an equity interest in TherMatrix, Inc. (“TherMatrix”) until July 15, 2004. On July 15, 2004, TherMatrix was sold to American Medical Systems Holdings, Inc. (AMS). The Company’s part of the total proceeds from this sale was approximately 25%. A portion of the payout from the sale was based on contingency payments. By the close fiscal year 2006, the Company had received a total payout, including contingency payments, of approximately \$33.5 million.

In April 2007, the Company received an additional \$202,223 in proceeds from the sale of TherMatrix.

Note 17: Recent Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation (FIN) 48, *Accounting for Uncertainty in Income Taxes*. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, *Accounting for Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company is currently evaluating the impact this Interpretation will have on its financial statements. This Interpretation will be effective in the Company’s financial statements for the fiscal year beginning September 1, 2007.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115*. This statement permits entities to choose to measure many financial instruments and certain other items at fair value. Most of the provisions of SFAS No. 159 apply only to entities that elect the fair value option. However, the amendment to SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, applies to all entities with available-for-sale and trading securities. SFAS No. 159 is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provision of SFAS No. 157, *Fair Value Measurements*. The adoption of this statement is not expected to have a material effect on the Company’s financial statements.

In September 2006, the FASB issued SFAS Statement No. 158, *Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans*. This new standard will require employers to fully recognize the obligations associated with single-employer defined benefit pension, retiree healthcare and other postretirement plans in their financial statements. The Company adopted SFAS No. 158 on September 1, 2007, with no material impact on the financial statements of the Company since the Company currently does not sponsor the defined benefit pension or postretirement plans within the scope of the standard.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and requires enhanced disclosures about fair value measurements. SFAS No. 157 requires companies to disclose the fair value of their financial instruments according to a fair value hierarchy as defined in the standard. Additionally, companies are required to provide enhanced disclosure regarding financial instruments in one of the

categories, including a reconciliation of the beginning and ending balances separately for each major category of assets and liabilities. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company believes that the adoption of SFAS No. 157 will not have a material impact on its financial statements.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets*, to simplify accounting for separately recognized servicing assets and servicing liabilities. SFAS No. 156 amends SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. Additionally, SFAS No. 156 applies to all separately recognized servicing assets and liabilities acquired or issued after the beginning of an entity's fiscal year that begins after September 15, 2006, although early adoption is permitted. The Company does not expect the adoption of this new standard to have a material impact on its financial position, results of operations or cash flows.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Instruments*, which amends SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS No. 155 allows financial instruments that have embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) if the holder elects to account for the whole instrument on a fair value basis. SFAS No. 155 also clarifies and amends certain other provisions of SFAS No. 133 and SFAS No. 140. This statement is effective for all financial instruments acquired or issued in financial years beginning after September 15, 2006. The Company does not expect the adoption of this new standard to have a material impact on its financial position, results of operations or cash flows.

On December 21, 2006, the FASB issued FASB Staff Position (FSP) Emerging Issues Task Force (EITF) 00-19-2, *Accounting for Registration Payment Arrangements*, which requires an issuer to account for a contingent obligation to transfer consideration under a registration payment arrangement in accordance with FASB Statement No. 5, *Accounting for Contingencies*, and FASB Interpretation 14, *Reasonable Estimation of the Amount of Loss*. Registration payment arrangements are frequently entered into in connection with issuance of unregistered financial instruments, such as equity shares or warrants. A registration payment arrangement contingently obligates the issuer to make future payments or otherwise transfer consideration to another party if the issuer fails to file a registration statement with the SEC for the resale of specified financial instruments or fails to have the registration statement declared effective within a specific period. The FSP requires issuers to make certain disclosures for each registration payment arrangement or group of similar arrangements. The FSP is effective immediately for registration payment arrangements and financial instruments entered into or modified after the FSP's issuance date. For previously issued registration payment arrangements and financial instruments subject to those arrangements, the FSP is effective for financial statements issued for fiscal years beginning after December 15, 2006. To the extent that the Company enters into financing arrangements in the future that include registration payment arrangements, the future application of this FSP may have a material effect on its financial condition and results of operations.

In June 2006, the FASB ratified EITF, No. 06-3, *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)*. EITF No. 06-3 requires that, for interim and annual reporting periods beginning after December 15, 2006, the Company disclose its policy related to the presentation of sales taxes and similar assessments related to our revenue transactions. Early adoption is permitted. The Company presents revenue net of sales taxes and any similar assessments. EITF No. 06-3 had no effect on the Company's financial position and results of operations.

EITF No. 07-3, *Accounting for Nonrefundable Advance Payments for Goods or Services Received for Use in Future Research and Development Activities*, was issued in June 2007. The EITF reached a consensus that nonrefundable payments for goods and services that will be used or rendered for future research and development activities should be deferred and capitalized. Such amounts should be recognized as an expense as the related goods are delivered and the related services are performed. Entities should continue to evaluate whether they expect the goods to be delivered or services to be rendered. If the entity does not expect the goods to be delivered or services to be rendered, the capitalized advance payment should be charged to expense. This pronouncement is effective for financial statements issued for fiscal years beginning after December 15, 2007 (the Company's fiscal year beginning September 1, 2008) and interim periods within those fiscal years. Earlier application is not permitted. Entities are required to report the effects of applying this pronouncement prospectively for new contracts entered into on or after the effective date of this pronouncement. The Company currently is not a party to research and development arrangements that include nonrefundable advance payments. To the extent that the Company enters into research and development arrangements in the future that include nonrefundable advance payments, the future application of this pronouncement may have a material effect on its financial condition and results of operations.

Note 18: Subsequent Events

When the lease on the Company's office, production and research facilities (Note 7) expired in November of 2007, the Company exercised its option to purchase the building for a purchase price of \$1,200,000.
