	2011 £m	2010 £m
Current liabilities	559	497
Non-current liabilities	482	497
	1,041	994

Asset retirement obligations

In the course of the Group's activities, a number of sites and other assets are utilised which are expected to have costs associated with exiting and ceasing their use. The associated cash outflows are generally expected to occur at the dates of exit of the assets to which they relate, which are long-term in nature.

Other provisions

Included within other provisions are provisions for legal and regulatory disputes and amounts provided for property and restructuring costs. The Group is involved in a number of legal and other disputes, including notification of possible claims. The directors of the Company, after taking legal advice, have established provisions after taking into account the facts of each case. The timing of cash outflows associated with legal claims cannot be reasonably determined. For a discussion of certain legal issues potentially affecting the Group, refer to note 28. The associated cash outflows for restructuring costs are substantially short-term in nature. The timing of the cash flows associated with property is dependent upon the remaining term of the associated lease.
