Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 1. Background and Basis of Presentation:

Background

At June 30, 2014, Altria Group, Inc.'s wholly-owned subsidiaries included Philip Morris USA Inc. ("PM USA"), which is engaged in the manufacture and sale of cigarettes and certain smokeless tobacco products in the United States; John Middleton Co. ("Middleton"), which is engaged in the manufacture and sale of machine-made large cigars and pipe tobacco and is a wholly-owned subsidiary of PM USA; and UST LLC ("UST"), which through its wholly-owned subsidiaries, including U.S. Smokeless Tobacco Company LLC ("USSTC") and Ste. Michelle Wine Estates Ltd. ("Ste. Michelle"), is engaged in the manufacture and sale of smokeless tobacco products and wine. Altria Group, Inc.'s other operating companies included Nu Mark LLC ("Nu Mark"), a wholly-owned subsidiary, which is engaged in the manufacture and sale of innovative tobacco products, and Philip Morris Capital Corporation ("PMCC"), a wholly-owned subsidiary, which maintains a portfolio of leveraged and direct finance leases. Other Altria Group, Inc. wholly-owned subsidiaries included Altria Group Distribution Company, which provides sales, distribution and consumer engagement services to Altria Group, Inc.'s operating subsidiaries, and Altria Client Services Inc., which provides various support services, such as legal, regulatory, finance, human resources and external affairs, to Altria Group, Inc.'s operating subsidiaries. Altria Group, Inc.'s access to the operating cash flows of its wholly-owned subsidiaries consists of cash received from the payment of dividends and distributions, and the payment of interest on intercompany loans by its subsidiaries. At June 30, 2014, Altria Group, Inc.'s principal wholly-owned subsidiaries were not limited by long-term debt or other agreements in their ability to pay cash dividends or make other distributions with respect to their common stock.

At June 30, 2014, Altria Group, Inc. also held approximately 27% of the economic and voting interest of SABMiller plc ("SABMiller"), which Altria Group, Inc. accounts for under the equity method of accounting. Altria Group, Inc. receives cash dividends on its interest in SABMiller if and when SABMiller pays such dividends.

Share Repurchases

Altria Group, Inc.'s share repurchase activity was as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions, except per share data)			
Total number of shares repurchased	10.8	5.4	3.3	3.7
Aggregate cost of shares repurchased	\$ 404	\$ 192	\$ 132	\$ 135
Average price per share of shares repurchased	\$ 37.40	\$ 35.58	\$ 40.72	\$ 36.27

Altria Group, Inc.'s Board of Directors (the "Board of Directors") authorized a \$1.0 billion share repurchase program in October 2011 and expanded it to \$1.5 billion in October 2012 (as expanded, the "October 2011 share repurchase program"). During the first quarter of 2013, Altria Group, Inc. completed the October 2011 share repurchase program. Under the October 2011 share repurchase program, Altria Group, Inc. repurchased a total of 48.3 million shares of its common stock at an average price of \$31.06 per share.

The Board of Directors authorized a \$300 million share repurchase program in April 2013 and expanded it to \$1.0 billion in August 2013 (as expanded, the "April 2013 share repurchase program"). At June 30, 2014, Altria Group, Inc. had approximately \$53 million remaining in the April 2013 share repurchase program. Additionally, in July 2014, the Board of Directors authorized a new \$1.0 billion share repurchase program that Altria Group, Inc. intends to commence upon the completion of the April 2013 share repurchase program. The timing of share repurchases under Altria Group, Inc.'s share repurchase programs depends upon marketplace conditions and other factors, and the programs remain subject to the discretion of the Board of Directors.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Basis of Presentation

The interim condensed consolidated financial statements of Altria Group, Inc. are unaudited. It is the opinion of Altria Group, Inc.'s management that all adjustments necessary for a fair statement of the interim results presented have been reflected therein. All such adjustments were of a normal recurring nature. Net revenues and net earnings for any interim period are not necessarily indicative of results that may be expected for the entire year.

These statements should be read in conjunction with the consolidated financial statements and related notes, which appear in Altria Group, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2013.

Certain prior-period amounts have been reclassified to conform with the current-period presentation, due primarily to the reclassification of changes in book overdrafts on Altria Group, Inc.'s condensed consolidated statements of cash flows to operating activities. These amounts were previously classified as financing activities.

Note 2. Acquisition of Green Smoke:

On April 1, 2014, Nu Mark acquired the e-vapor business of Green Smoke, Inc. and its affiliates ("Green Smoke") for a total purchase price of up to approximately \$130 million, which includes contingent consideration and is subject to post-closing adjustments. The acquisition complements Nu Mark's capabilities and enhances its competitive position by adding e-vapor experience, broadening product offerings and strengthening supply chain capabilities.

Green Smoke's financial position and results of operations have been consolidated with Altria Group, Inc. as of April 1, 2014.

Pro forma results, as well as net revenues and net earnings for Green Smoke subsequent to the acquisition, have not been presented because the acquisition of Green Smoke is not material to Altria Group, Inc.'s consolidated results of operations.

The following amounts represent the fair value of identifiable assets acquired and liabilities assumed in the Green Smoke acquisition, and are subject to post-closing adjustments, which are expected to be finalized during 2014:

	(in millions)
Cash and cash equivalents	\$ 3
Inventory and other current assets	12
Indefinite-lived intangible asset - trademark	10
Definite-lived intangible assets	1
Current liabilities	(8)
Other assets and liabilities, net	1
Total identifiable net assets	19
Total purchase price	130
Goodwill	\$ 111

Costs incurred to effect the acquisition, as well as integration costs, are being recognized as expenses in the periods in which the costs are incurred. For the six and three months ended June 30, 2014, Altria Group, Inc. incurred \$9 million of integration and acquisition-related costs, consisting primarily of transaction costs and inventory adjustments, which were included in Altria Group, Inc.'s condensed consolidated statements of earnings.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Note 3. Benefit Plans:

Subsidiaries of Altria Group, Inc. sponsor noncontributory defined benefit pension plans covering the majority of all employees of Altria Group, Inc. However, employees hired on or after a date specific to their employee group are not eligible to participate in these noncontributory defined benefit pension plans but are instead eligible to participate in a defined contribution plan with enhanced benefits. This transition for new hires occurred from October 1, 2006 to January 1, 2008. In addition, effective January 1, 2010, certain employees of UST and Middleton who were participants in noncontributory defined benefit pension plans ceased to earn additional benefit service under those plans and became eligible to participate in a defined contribution plan with enhanced benefits. Altria Group, Inc. and its subsidiaries also provide health care and other benefits to the majority of retired employees.

Pension Plans

Components of Net Periodic Benefit Cost

Net periodic pension cost consisted of the following:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Service cost	\$ 34	\$ 43	\$ 17	\$ 22
Interest cost	172	157	86	79
Expected return on plan assets	(260)	(247)	(130)	(124)
Amortization:				
Net loss	75	136	37	67
Prior service cost	5	5	2	2
Net periodic pension cost	<u>\$ 26</u>	<u>\$ 94</u>	<u>\$ 12</u>	<u>\$ 46</u>

Employer Contributions

Altria Group, Inc. makes contributions to the pension plans to the extent that the contributions are tax deductible and pays benefits that relate to plans for salaried employees that cannot be funded under Internal Revenue Service regulations. Employer contributions of \$8 million were made to Altria Group, Inc.'s pension plans during the six months ended June 30, 2014. Currently, Altria Group, Inc. anticipates making additional employer contributions to its pension plans during the remainder of 2014 of approximately \$10 million to \$40 million based on current tax law. However, this estimate is subject to change as a result of changes in tax and other benefit laws, as well as asset performance significantly above or below the assumed long-term rate of return on pension assets, or changes in interest rates.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Postretirement Benefit Plans

Net postretirement health care costs consisted of the following:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Service cost	\$ 8	\$ 10	\$ 4	\$ 5
Interest cost	54	51	27	26
Amortization:				
Net loss	14	28	7	14
Prior service credit	(21)	(22)	(10)	(11)
Net postretirement health care costs	<u>\$ 55</u>	<u>\$ 67</u>	<u>\$ 28</u>	<u>\$ 34</u>

Note 4. Earnings Per Share:

Basic and diluted earnings per share ("EPS") were calculated using the following:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Net earnings attributable to Altria Group, Inc.	\$ 2,437	\$ 2,651	\$ 1,262	\$ 1,266
Less: Distributed and undistributed earnings attributable to unvested restricted and deferred shares	(6)	(7)	(3)	(3)
Earnings for basic and diluted EPS	<u>\$ 2,431</u>	<u>\$ 2,644</u>	<u>\$ 1,259</u>	<u>\$ 1,263</u>
Weighted-average shares for basic and diluted EPS	<u>1,983</u>	<u>2,003</u>	<u>1,980</u>	<u>2,002</u>

Pre-tax amounts reclassified from accumulated other comprehensive losses to net earnings	\$ 83	\$ 157	\$ 39	\$ 80

⁽¹⁾ Amounts are included in net defined benefit plan costs. For further details, see Note 3. *Benefit Plans*.

⁽²⁾ Amounts are included in earnings from equity investment in SABMiller.

Note 6. Segment Reporting:

The products of Altria Group, Inc.'s subsidiaries include smokeable products comprised of cigarettes manufactured and sold by PM USA and machine-made large cigars and pipe tobacco manufactured and sold by Middleton; smokeless products manufactured and sold by USSTC and PM USA; and wine produced and/or distributed by Ste. Michelle. The products and services of these subsidiaries constitute Altria Group, Inc.'s reportable segments of smokeable products, smokeless products and wine. The financial services and the alternative products businesses are included in all other.

Altria Group, Inc.'s chief operating decision maker reviews operating companies income to evaluate the performance of and allocate resources to the segments. Operating companies income for the segments excludes general corporate expenses and amortization of intangibles. Interest and other debt expense, net, and provision for income taxes are centrally managed at the corporate level and, accordingly, such items are not presented by segment since they are excluded from the measure of segment profitability reviewed by Altria Group, Inc.'s chief operating decision maker.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Segment data were as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Net revenues:				
Smokeable products	\$ 10,569	\$ 10,646	\$ 5,611	\$ 5,678
Smokeless products	879	848	464	458
Wine	275	263	146	137
All other	50	76	35	32
Net revenues	<u>\$ 11,773</u>	<u>\$ 11,833</u>	<u>\$ 6,256</u>	<u>\$ 6,305</u>
Earnings before income taxes:				
Operating companies income:				
Smokeable products	\$ 3,320	\$ 3,646	\$ 1,789	\$ 1,726
Smokeless products	524	492	285	270
Wine	50	45	28	25
All other	(54)	93	(53)	43
Amortization of intangibles	(10)	(10)	(5)	(5)
General corporate expenses	(121)	(113)	(69)	(58)
Operating income	<u>3,709</u>	<u>4,153</u>	<u>1,975</u>	<u>2,001</u>
Interest and other debt expense, net	(383)	(525)	(230)	(264)
Earnings from equity investment in SABMiller	425	483	200	227
Earnings before income taxes	<u>\$ 3,751</u>	<u>\$ 4,111</u>	<u>\$ 1,945</u>	<u>\$ 1,964</u>

The comparability of operating companies income for the reportable segments was affected by the following items:

Non-Participating Manufacturer ("NPM") Adjustment Items - For the six and three months ended June 30, 2014 and 2013, pre-tax income for NPM adjustment items was recorded in Altria Group, Inc.'s condensed consolidated statements of earnings as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Smokeable products segment	\$ 43	\$ 519	\$ 43	\$ 36
Interest and other debt expense, net	47	—	(17)	—
Total	<u>\$ 90</u>	<u>\$ 519</u>	<u>\$ 26</u>	<u>\$ 36</u>

These adjustments resulted from the settlement of, and determinations made in connection with, disputes with certain states and territories related to the NPM adjustment provision under the 1998 Master Settlement Agreement (the "MSA") for the years 2003 - 2012 (such settlements and determinations are referred to collectively as "NPM Adjustment Items" and are more fully described in *Health Care Cost Recovery Litigation - Possible Adjustments in MSA Payments for 2003 - 2013* in Note 9. *Contingencies*). The amounts shown in the table above for the smokeable products segment were recorded by PM USA as reductions to cost of sales, which increased operating companies income in the smokeable products segment.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Tobacco and Health Litigation Items - For the six and three months ended June 30, 2014 and 2013, pre-tax charges related to certain tobacco and health litigation items were recorded in Altria Group, Inc.'s condensed consolidated statements of earnings as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Smokeable products segment	\$ 19	\$ 5	\$ 16	\$ —
General corporate expenses	15	—	15	—
Interest and other debt expense, net	1	1	—	—
Total	<u>\$ 35</u>	<u>\$ 6</u>	<u>\$ 31</u>	<u>\$ —</u>

During the second quarter of 2014, Altria Group, Inc. and PM USA recorded an aggregate pre-tax charge of \$31 million in marketing, administration and research costs for the estimated costs of implementing the corrective communications remedy in connection with the federal government's lawsuit against Altria Group, Inc. and PM USA. For further discussion, see *Health Care Cost Recovery Litigation - Federal Government's Lawsuit* in Note 9. *Contingencies*.

Asset Impairment and Exit Costs - During the second quarter of 2014, PM USA sold its Cabarrus, North Carolina manufacturing facility for approximately \$66 million in connection with the previously completed manufacturing optimization program associated with PM USA's closure of the manufacturing facility in 2009. As a result, during the second quarter of 2014, PM USA recorded a pre-tax gain of \$10 million.

Note 7. Finance Assets, net:

In 2003, PMCC ceased making new investments and began focusing exclusively on managing its portfolio of finance assets in order to maximize its operating results and cash flows from its existing lease portfolio activities and asset sales. Accordingly, PMCC's operating companies income will fluctuate over time as investments mature or are sold.

At June 30, 2014, finance assets, net, of \$1,783 million were comprised of investments in finance leases of \$1,825 million, reduced by the allowance for losses of \$42 million. At December 31, 2013, finance assets, net, of \$1,997 million were comprised of investments in finance leases of \$2,049 million, reduced by the allowance for losses of \$52 million.

PMCC assesses the adequacy of its allowance for losses relative to the credit risk of its leasing portfolio on an ongoing basis. PMCC believes that, as of June 30, 2014, the allowance for losses of \$42 million was adequate. PMCC continues to monitor economic and credit conditions, and the individual situations of its lessees and their respective industries, and may increase or decrease its allowance for losses if such conditions change in the future.

The activity in the allowance for losses on finance assets for the six months ended June 30, 2014 and 2013 was as follows:

	For the Six Months Ended June 30,	
	2014	2013
	(in millions)	
Balance at beginning of the year	\$ 52	\$ 99
Decrease to allowance	(10)	(47)
Balance at June 30	<u>\$ 42</u>	<u>\$ 52</u>

During the six months ended June 30, 2014 and 2013, PMCC determined that its allowance for losses exceeded the amounts required based on management's assessment of the credit quality and size of PMCC's leasing portfolio. As a result, PMCC reduced its allowance for losses by \$10 million for the six months ended June 30, 2014, and by \$47 million and \$27 million for the six and three months ended June 30, 2013, respectively. These decreases to the allowance for losses were recorded as reductions to marketing, administration and research costs on Altria Group, Inc.'s condensed consolidated statements of earnings.

All PMCC lessees were current on their lease payment obligations as of June 30, 2014.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The credit quality of PMCC's investments in finance leases as assigned by Standard & Poor's Ratings Services ("Standard & Poor's") and Moody's Investors Service, Inc. ("Moody's") at June 30, 2014 and December 31, 2013 was as follows:

	June 30, 2014	December 31, 2013
	(in millions)	
Credit Rating by Standard & Poor's/Moody's:		
"AAA/Aaa" to "A-/A3"	\$ 434	\$ 464
"BBB+/Baa1" to "BBB-/Baa3"	782	927
"BB+/Ba1" and Lower	609	658
Total	<u>\$ 1,825</u>	<u>\$ 2,049</u>

Note 8. Debt:

At June 30, 2014 and December 31, 2013, Altria Group, Inc. had no short-term borrowings.

Long-term Debt

During the first quarter of 2014, Altria Group, Inc. repaid in full at maturity senior unsecured notes in the aggregate principal amount of \$525 million.

Altria Group, Inc.'s estimate of the fair value of its debt is based on observable market information derived from a third party pricing source and is classified in Level 2 of the fair value hierarchy. The aggregate fair value of Altria Group, Inc.'s total long-term debt at June 30, 2014 and December 31, 2013, was \$16.2 billion and \$16.1 billion, respectively, as compared with its carrying value of \$14.0 billion and \$14.5 billion, respectively.

Note 9. Contingencies:

Legal proceedings covering a wide range of matters are pending or threatened in various United States and foreign jurisdictions against Altria Group, Inc. and its subsidiaries, including PM USA and UST and its subsidiaries, as well as their respective indemnitees. Various types of claims may be raised in these proceedings, including product liability, consumer protection, antitrust, tax, contraband shipments, patent infringement, employment matters, claims for contribution and claims of competitors or distributors.

Litigation is subject to uncertainty and it is possible that there could be adverse developments in pending or future cases. An unfavorable outcome or settlement of pending tobacco-related or other litigation could encourage the commencement of additional litigation. Damages claimed in some tobacco-related and other litigation are or can be significant and, in certain cases, range in the billions of dollars. The variability in pleadings in multiple jurisdictions, together with the actual experience of management in litigating claims, demonstrate that the monetary relief that may be specified in a lawsuit bears little relevance to the ultimate outcome. In certain cases, plaintiffs claim that defendants' liability is joint and several. In such cases, Altria Group, Inc. or its subsidiaries may face the risk that one or more co-defendants decline or otherwise fail to participate in the bonding required for an appeal or to pay their proportionate or jury-allocated share of a judgment. As a result, Altria Group, Inc. or its subsidiaries under certain circumstances may have to pay more than their proportionate share of any bonding- or judgment-related amounts. Furthermore, in those cases where plaintiffs are successful, Altria Group, Inc. or its subsidiaries may also be required to pay interest and attorneys' fees.

Although PM USA has historically been able to obtain required bonds or relief from bonding requirements in order to prevent plaintiffs from seeking to collect judgments while adverse verdicts have been appealed, there remains a risk that such relief may not be obtainable in all cases. This risk has been substantially reduced given that 45 states and Puerto Rico limit the dollar amount of bonds or require no bond at all. As discussed below, however, tobacco litigation plaintiffs have challenged the constitutionality of Florida's bond cap statute in several cases and plaintiffs may challenge state bond cap statutes in other jurisdictions as well. Such challenges may include the applicability of state bond caps in federal court. Although Altria Group, Inc. cannot predict the outcome of such challenges, it is possible that the consolidated results of operations, cash flows or financial position of Altria Group, Inc., or one or more of its subsidiaries, could be materially affected in a particular fiscal quarter or fiscal year by an unfavorable outcome of one or more such challenges.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Altria Group, Inc. and its subsidiaries record provisions in the condensed consolidated financial statements for pending litigation when they determine that an unfavorable outcome is probable and the amount of the loss can be reasonably estimated. At the present time, while it is reasonably possible that an unfavorable outcome in a case may occur, except to the extent discussed elsewhere in this Note 9. *Contingencies*: (i) management has concluded that it is not probable that a loss has been incurred in any of the pending tobacco-related cases; (ii) management is unable to estimate the possible loss or range of loss that could result from an unfavorable outcome in any of the pending tobacco-related cases; and (iii) accordingly, management has not provided any amounts in the condensed consolidated financial statements for unfavorable outcomes, if any. Legal defense costs are expensed as incurred.

Altria Group, Inc. and its subsidiaries have achieved substantial success in managing litigation. Nevertheless, litigation is subject to uncertainty and significant challenges remain. It is possible that the consolidated results of operations, cash flows or financial position of Altria Group, Inc., or one or more of its subsidiaries, could be materially affected in a particular fiscal quarter or fiscal year by an unfavorable outcome or settlement of certain pending litigation. Altria Group, Inc. and each of its subsidiaries named as a defendant believe, and each has been so advised by counsel handling the respective cases, that it has valid defenses to the litigation pending against it, as well as valid bases for appeal of adverse verdicts. Each of the companies has defended, and will continue to defend, vigorously against litigation challenges. However, Altria Group, Inc. and its subsidiaries may enter into settlement discussions in particular cases if they believe it is in the best interests of Altria Group, Inc. to do so.

Overview of Altria Group, Inc. and/or PM USA Tobacco-Related Litigation

Types and Number of Cases

Claims related to tobacco products generally fall within the following categories: (i) smoking and health cases alleging personal injury brought on behalf of individual plaintiffs; (ii) smoking and health cases primarily alleging personal injury or seeking court-supervised programs for ongoing medical monitoring and purporting to be brought on behalf of a class of individual plaintiffs, including cases in which the aggregated claims of a number of individual plaintiffs are to be tried in a single proceeding; (iii) health care cost recovery cases brought by governmental (both domestic and foreign) plaintiffs seeking reimbursement for health care expenditures allegedly caused by cigarette smoking and/or disgorgement of profits; (iv) class action suits alleging that the uses of the terms “Lights” and “Ultra Lights” constitute deceptive and unfair trade practices, common law or statutory fraud, unjust enrichment, breach of warranty or violations of the Racketeer Influenced and Corrupt Organizations Act (“RICO”); and (v) other tobacco-related litigation described below. Plaintiffs’ theories of recovery and the defenses raised in pending smoking and health, health care cost recovery and “Lights/Ultra Lights” cases are discussed below.

The table below lists the number of certain tobacco-related cases pending in the United States against PM USA and, in some instances, Altria Group, Inc. as of July 18, 2014, July 22, 2013 and July 23, 2012.

Type of Case	Number of Cases Pending as of July 18, 2014	Number of Cases Pending as of July 22, 2013	Number of Cases Pending as of July 23, 2012
Individual Smoking and Health Cases ⁽¹⁾	67	73	78
Smoking and Health Class Actions and Aggregated Claims Litigation ⁽²⁾	5	6	7
Health Care Cost Recovery Actions ⁽³⁾	1	1	1
“Lights/Ultra Lights” Class Actions	14	15	16

⁽¹⁾ Does not include 2,572 cases brought by flight attendants seeking compensatory damages for personal injuries allegedly caused by exposure to environmental tobacco smoke (“ETS”). The flight attendants allege that they are members of an ETS smoking and health class action in Florida, which was settled in 1997 (*Broin*). The terms of the court-approved settlement in that case allow class members to file individual lawsuits seeking compensatory damages, but prohibit them from seeking punitive damages. Also, does not include individual smoking and health cases brought by or on behalf of plaintiffs in Florida state and federal courts following the decertification of the *Engle* case (discussed below in *Smoking and Health Litigation - Engle Class Action*).

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

(2) Includes as one case the 600 civil actions (of which 346 were actions against PM USA) that were to be tried in a single proceeding in West Virginia (*In re: Tobacco Litigation*). The West Virginia Supreme Court of Appeals has ruled that the United States Constitution did not preclude a trial in two phases in this case. Issues related to defendants' conduct and whether punitive damages are permissible were tried in the first phase. Trial in the first phase of this case began in April 2013. In May 2013, the jury returned a verdict in favor of defendants on the claims for design defect, negligence, failure to warn, breach of warranty, and concealment and declined to find that the defendants' conduct warranted punitive damages. Plaintiffs prevailed on their claim that ventilated filter cigarettes should have included use instructions for the period 1964 - 1969. The second phase, if any, will consist of individual trials to determine liability and compensatory damages on that claim only. In August 2013, the trial court denied all post-trial motions. The trial court entered final judgment in October 2013 and, in November 2013, plaintiffs filed their notice of appeal to the West Virginia Supreme Court of Appeals.

(3) See *Health Care Cost Recovery Litigation - Federal Government's Lawsuit* below.

International Tobacco-Related Cases

As of July 18, 2014, PM USA is a named defendant in Israel in one "Lights" class action. PM USA is a named defendant in nine health care cost recovery actions in Canada, seven of which also name Altria Group, Inc. as a defendant. PM USA and Altria Group, Inc. are also named defendants in seven smoking and health class actions filed in various Canadian provinces. See *Guarantees and Other Similar Matters* below for a discussion of the Distribution Agreement between Altria Group, Inc. and Philip Morris International Inc. ("PMI") that provides for indemnities for certain liabilities concerning tobacco products.

Tobacco-Related Cases Set for Trial

As of July 18, 2014, 23 *Engle* progeny cases and no individual smoking and health cases against PM USA are set for trial in 2014. Cases against other companies in the tobacco industry are also scheduled for trial in 2014. Trial dates are subject to change.

Trial Results

Since January 1999, excluding the *Engle* progeny cases (separately discussed below), verdicts have been returned in 56 smoking and health, "Lights/Ultra Lights" and health care cost recovery cases in which PM USA was a defendant. Verdicts in favor of PM USA and other defendants were returned in 38 of the 56 cases. These 38 cases were tried in Alaska (1), California (6), Florida (10), Louisiana (1), Massachusetts (1), Mississippi (1), Missouri (3), New Hampshire (1), New Jersey (1), New York (5), Ohio (2), Pennsylvania (1), Rhode Island (1), Tennessee (2) and West Virginia (2). A motion for a new trial was granted in one of the cases in Florida and in the case in Alaska. In the Alaska case (*Hunter*), the trial court withdrew its order for a new trial upon PM USA's motion for reconsideration. Oral argument of plaintiff's appeal of this ruling is scheduled for September 9, 2014. See *Types and Number of Cases* above for a discussion of the trial results in *In re: Tobacco Litigation* (West Virginia consolidated cases).

Of the 18 non-*Engle* progeny cases in which verdicts were returned in favor of plaintiffs, 14 have reached final resolution. A verdict against defendants in one health care cost recovery case (*Blue Cross/Blue Shield*) was reversed and all claims were dismissed with prejudice. In addition, a verdict against defendants in a purported "Lights" class action in Illinois (*Price*) was reversed and the case was dismissed with prejudice in December 2006, but plaintiff is seeking to reinstate the verdict, which an intermediate appellate court ordered on April 29, 2014. PM USA filed a petition for leave to appeal, which automatically stayed the April 29, 2014 order. See *"Lights/Ultra Lights" Cases - The Price Case* below for a discussion of developments in *Price*.

As of July 18, 2014, 59 state and federal *Engle* progeny cases involving PM USA have resulted in verdicts since the Florida Supreme Court's *Engle* decision. Twenty-nine verdicts were returned in favor of plaintiffs and 30 verdicts were returned in favor of PM USA. In one case, not reflected in these numbers, the plaintiff obtained a favorable verdict, but the trial court vacated the verdict and ordered a new trial, which is not yet scheduled. See *Smoking and Health Litigation - Engle Progeny Trial Court Results* below for a discussion of these verdicts.

Judgments Paid and Provisions Related to Tobacco and Health Litigation (Including Engle Progeny Litigation)

After exhausting all appeals in those cases resulting in adverse verdicts associated with tobacco-related litigation, since October 2004, PM USA has paid in the aggregate judgments (and related costs and fees) totaling approximately \$263 million and interest totaling approximately \$143 million as of July 18, 2014. These amounts include payments for *Engle*

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

progeny judgments (and related costs and fees) totaling approximately \$10.6 million and interest totaling approximately \$1.8 million.

The changes in Altria Group, Inc.'s accrued liability for provisions related to tobacco and health litigation, including related interest costs, for the periods specified below were as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Accrued liability for tobacco and health litigation at beginning of period	\$ 3	\$ —	\$ 7	\$ 6
Pre-tax charges for tobacco and health judgments	3	5	—	—
Pre-tax charges for judgment-related interest costs	1	1	—	—
Pre-tax charges related to implementation of corrective communications remedy pursuant to the federal government's lawsuit	31	—	31	—
Payments	(4)	—	(4)	—
Accrued liability for tobacco and health litigation at end of period	<u>\$ 34</u>	<u>\$ 6</u>	<u>\$ 34</u>	<u>\$ 6</u>

The accrued liability for tobacco and health litigation, including related interest costs, was included in liabilities on Altria Group, Inc.'s condensed consolidated balance sheets. Pre-tax charges for tobacco and health judgments and corrective communications were included in marketing, administration and research costs on Altria Group, Inc.'s condensed consolidated statements of earnings. Pre-tax charges for related interest costs were included in interest and other debt expense, net on Altria Group, Inc.'s condensed consolidated statements of earnings.

Security for Judgments

To obtain stays of judgments pending current appeals, as of June 30, 2014, PM USA has posted various forms of security totaling approximately \$42 million, the majority of which has been collateralized with cash deposits that are included in other assets on the condensed consolidated balance sheet.

Smoking and Health Litigation

Overview

Plaintiffs' allegations of liability in smoking and health cases are based on various theories of recovery, including negligence, gross negligence, strict liability, fraud, misrepresentation, design defect, failure to warn, nuisance, breach of express and implied warranties, breach of special duty, conspiracy, concert of action, violations of deceptive trade practice laws and consumer protection statutes, and claims under the federal and state anti-racketeering statutes. Plaintiffs in the smoking and health cases seek various forms of relief, including compensatory and punitive damages, treble/multiple damages and other statutory damages and penalties, creation of medical monitoring and smoking cessation funds, disgorgement of profits, and injunctive and equitable relief. Defenses raised in these cases include lack of proximate cause, assumption of the risk, comparative fault and/or contributory negligence, statutes of limitations and preemption by the Federal Cigarette Labeling and Advertising Act.

Non-Engle Progeny Trial Results

Summarized below are the non-Engle progeny smoking and health cases pending during 2014 in which verdicts were returned in favor of plaintiffs and against PM USA. Charts listing the verdicts for plaintiffs in the Engle progeny cases can be found in *Smoking and Health Litigation - Engle Progeny Trial Court Results* below.

Mulholland: In July 2013, a jury in the U.S. District Court for the Southern District of New York returned a verdict in favor of plaintiff and awarded \$5.5 million in compensatory damages against PM USA. In August 2013, after taking into

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

account a prior recovery by the plaintiff against third parties, the court entered final judgment in the amount of \$4.9 million. In September 2013, PM USA filed a renewed motion for judgment as a matter of law and plaintiff moved to modify the amount of the judgment. In December 2013, the trial court denied the parties' post-trial motions. In January 2014, PM USA filed a notice of appeal to the U.S. Court of Appeals for the Second Circuit, plaintiff cross-appealed and PM USA posted a bond in the amount of \$5.5 million.

Schwarz: In March 2002, an Oregon jury awarded \$168,500 in compensatory damages and \$150 million in punitive damages against PM USA. In May 2002, the trial court reduced the punitive damages award to \$100 million. In May 2006, the Oregon Court of Appeals affirmed the compensatory damages verdict, reversed the award of punitive damages and remanded the case to the trial court for a second trial to determine the amount of punitive damages, if any. In June 2006, plaintiff petitioned the Oregon Supreme Court to review the portion of the court of appeals' decision reversing and remanding the case for a new trial on punitive damages. In June 2010, the Oregon Supreme Court affirmed the court of appeals' decision and remanded the case to the trial court for a new trial limited to the question of punitive damages. In December 2010, the Oregon Supreme Court reaffirmed its earlier ruling and awarded PM USA approximately \$500,000 in costs. In March 2011, PM USA filed a claim against the plaintiff for its costs and disbursements on appeal, plus interest. Trial on the amount of punitive damages began in January 2012. In February 2012, the jury awarded plaintiff \$25 million in punitive damages. In September 2012, PM USA filed a notice of appeal from the trial court's judgment with the Oregon Court of Appeals. In January 2014, plaintiff filed a motion to certify the appeal to the Oregon Supreme Court, which the Oregon Court of Appeals denied in March 2014. Oral argument at the Oregon Court of Appeals is scheduled for September 9, 2014.

See *Health Care Cost Recovery Litigation - Federal Government's Lawsuit* below for a discussion of the verdict and post-trial developments in the *United States of America* healthcare cost recovery case.

Engle Class Action

In July 2000, in the second phase of the *Engle* smoking and health class action in Florida, a jury returned a verdict assessing punitive damages totaling approximately \$145 billion against various defendants, including \$74 billion against PM USA. Following entry of judgment, PM USA appealed.

In May 2001, the trial court approved a stipulation providing that execution of the punitive damages component of the *Engle* judgment will remain stayed against PM USA and the other participating defendants through the completion of all judicial review. As a result of the stipulation, PM USA placed \$500 million into an interest-bearing escrow account that, regardless of the outcome of the judicial review, was to be paid to the court and the court was to determine how to allocate or distribute it consistent with Florida Rules of Civil Procedure. In May 2003, the Florida Third District Court of Appeal reversed the judgment entered by the trial court and instructed the trial court to order the decertification of the class. Plaintiffs petitioned the Florida Supreme Court for further review.

In July 2006, the Florida Supreme Court ordered that the punitive damages award be vacated, that the class approved by the trial court be decertified and that members of the decertified class could file individual actions against defendants within one year of issuance of the mandate. The court further declared the following Phase I findings are entitled to *res judicata* effect in such individual actions brought within one year of the issuance of the mandate: (i) that smoking causes various diseases; (ii) that nicotine in cigarettes is addictive; (iii) that defendants' cigarettes were defective and unreasonably dangerous; (iv) that defendants concealed or omitted material information not otherwise known or available knowing that the material was false or misleading or failed to disclose a material fact concerning the health effects or addictive nature of smoking; (v) that defendants agreed to misrepresent information regarding the health effects or addictive nature of cigarettes with the intention of causing the public to rely on this information to their detriment; (vi) that defendants agreed to conceal or omit information regarding the health effects of cigarettes or their addictive nature with the intention that smokers would rely on the information to their detriment; (vii) that all defendants sold or supplied cigarettes that were defective; and (viii) that defendants were negligent. The court also reinstated compensatory damages awards totaling approximately \$6.9 million to two individual plaintiffs and found that a third plaintiff's claim was barred by the statute of limitations. In February 2008, PM USA paid approximately \$3 million, representing its share of compensatory damages and interest, to the two individual plaintiffs identified in the Florida Supreme Court's order.

In August 2006, PM USA sought rehearing from the Florida Supreme Court on parts of its July 2006 opinion, including the ruling (described above) that certain jury findings have *res judicata* effect in subsequent individual trials timely

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

brought by *Engle* class members. The rehearing motion also asked, among other things, that legal errors that were raised but not expressly ruled upon in the Florida Third District Court of Appeal or in the Florida Supreme Court now be addressed. Plaintiffs also filed a motion for rehearing in August 2006 seeking clarification of the applicability of the statute of limitations to non-members of the decertified class. In December 2006, the Florida Supreme Court refused to revise its July 2006 ruling, except that it revised the set of Phase I findings entitled to *res judicata* effect by excluding finding (v) listed above (relating to agreement to misrepresent information), and added the finding that defendants sold or supplied cigarettes that, at the time of sale or supply, did not conform to the representations of fact made by defendants. In January 2007, the Florida Supreme Court issued the mandate from its revised opinion. Defendants then filed a motion with the Florida Third District Court of Appeal requesting that the court address legal errors that were previously raised by defendants but have not yet been addressed either by the Florida Third District Court of Appeal or by the Florida Supreme Court. In February 2007, the Florida Third District Court of Appeal denied defendants' motion. In May 2007, defendants' motion for a partial stay of the mandate pending the completion of appellate review was denied by the Florida Third District Court of Appeal. In May 2007, defendants filed a petition for *writ of certiorari* with the United States Supreme Court. In October 2007, the United States Supreme Court denied defendants' petition. In November 2007, the United States Supreme Court denied defendants' petition for rehearing from the denial of their petition for *writ of certiorari*.

In February 2008, the trial court decertified the class, except for purposes of the May 2001 bond stipulation, and formally vacated the punitive damages award pursuant to the Florida Supreme Court's mandate. In April 2008, the trial court ruled that certain defendants, including PM USA, lacked standing with respect to allocation of the funds escrowed under the May 2001 bond stipulation and would receive no credit at that time from the \$500 million paid by PM USA against any future punitive damages awards in cases brought by former *Engle* class members.

In May 2008, the trial court, among other things, decertified the limited class maintained for purposes of the May 2001 bond stipulation and, in July 2008, severed the remaining plaintiffs' claims except for those of Howard Engle. The only remaining plaintiff in the *Engle* case, Howard Engle, voluntarily dismissed his claims with prejudice.

Engle Progeny Cases

The deadline for filing *Engle* progeny cases, as required by the Florida Supreme Court's *Engle* decision, expired in January 2008. As of July 18, 2014, approximately 3,100 state court cases were pending against PM USA or Altria Group, Inc. asserting individual claims by or on behalf of approximately 4,200 state court plaintiffs. Furthermore, as of July 18, 2014, approximately 1,000 cases were pending against PM USA in federal district court asserting individual claims by or on behalf of a similar number of federal court plaintiffs. Most of these federal cases are pending in the U.S. District Court for the Middle District of Florida (Jacksonville). Because of a number of factors, including, but not limited to, docketing delays, duplicated filings and overlapping dismissal orders, these numbers are estimates.

In July 2013, the district court issued an order transferring, for case management purposes, all the Middle District of Florida *Engle* progeny cases to a judge presiding in the District of Massachusetts. The order directed that the cases will remain in the Middle District of Florida and that such judge will be designated a judge of that district for purposes of managing the cases. The U.S. District Court for the Middle District of Florida (Jacksonville) dismissed 847 cases in 2013 and, as of July 18, 2014, has dismissed 174 cases in 2014. Plaintiffs appealed 521 of the 2013 dismissals, which appeals were consolidated and heard by the U.S. Court of Appeals for the Eleventh Circuit on June 5, 2014. All remaining cases pending in the Middle District of Florida have been activated or are scheduled to be activated by May 2015.

Engle Progeny Trial Court Results

As of July 18, 2014, 59 federal and state *Engle* progeny cases involving PM USA have resulted in verdicts since the Florida Supreme Court *Engle* decision. Twenty-nine verdicts were returned in favor of plaintiffs, which does not include one case, *Sammarco*, in which the trial court vacated the verdict in favor of the plaintiff and ordered a new trial.

Thirty verdicts were returned in favor of PM USA (*Gelep, Kalyvas, Gil de Rubio, Warrick, Willis, Russo* (formerly *Frazier*), *C. Campbell, Rohr, Espinosa, Oliva, Weingart, Junious, Szymanski, Gollihue, McCray, Denton, Hancock, Wilder, D. Cohen, LaMotte, J. Campbell, Dombey, Haldeman, Jacobson, Blasco, Gonzalez, Reider, Banks, Surico* and *Davis*). In addition, there have been a number of mistrials, only some of which have resulted in new trials as of July 18,

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

2014. The juries in the *Reider* and *Banks* cases returned zero damages verdicts in favor of PM USA. The juries in the *Weingart* and *Hancock* cases returned verdicts against PM USA awarding no damages, but the trial court in each case granted an *additur*. In the *Russo* case (formerly *Frazier*), however, the Florida Third District Court of Appeal reversed the judgment in defendants' favor in April 2012 and remanded the case for a new trial. Defendants sought review of the case in the Florida Supreme Court, which was granted in September 2013. Oral argument occurred on April 30, 2014 in the Florida Supreme Court on the question of whether the statute of repose applies in *Engle* progeny cases.

In *Lukacs*, a case that was tried to verdict before the Florida Supreme Court *Engle* decision, the Florida Third District Court of Appeal in March 2010 affirmed *per curiam* the trial court decision without issuing an opinion. Under Florida procedure, further review of a *per curiam* affirmance without opinion by the Florida Supreme Court is generally prohibited. Subsequently in 2010, after defendants' petition for rehearing with the Court of Appeal was denied, defendants paid the judgment.

The charts below list the verdicts and post-trial developments in certain *Engle* progeny cases in which verdicts were returned in favor of plaintiffs (including *Hancock*, where the verdict originally was returned in favor of PM USA). The first chart lists such cases that are currently pending; the second chart lists such cases that were pending earlier in 2014 but that are now concluded.

Currently-Pending Cases

Plaintiff: *Griffin*

Date: June 2014

Verdict:

On June 25, 2014, a jury in the U.S. District Court for the Middle District of Florida (Jacksonville) returned a verdict in favor of plaintiff and against PM USA awarding \$1,268,402 in compensatory damages and allocating 50% of the fault to PM USA (an amount of \$634,201).

Plaintiff: *Burkhart*

Date: May 2014

Verdict:

On May 15, 2014, a jury in the U.S. District Court for the Middle District of Florida (Orlando) returned a verdict in favor of plaintiff and against PM USA, R.J. Reynolds Tobacco Company ("R.J. Reynolds") and Lorillard Tobacco Company ("Lorillard") awarding \$5 million in compensatory damages and allocating 15% of the fault to PM USA. The court declined defendants' request to reduce the compensatory damages award by the jury's assessment of comparative fault, imposing joint and several liability. The following day, the jury awarded plaintiff \$2.5 million in punitive damages, allocating \$750,000 to PM USA.

Post-Trial Developments:

On July 9, 2014, defendants filed post-trial motions.

Plaintiff: *Bowden*

Date: March 2014

Verdict:

In March 2014, a Duval County jury returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded plaintiff \$5 million in compensatory damages and allocated 30% of the fault to PM USA (an amount of \$1.5 million).

Post-Trial Developments:

The court entered final judgment against defendants in March 2014. In April 2014, defendants filed post-trial motions, including motions for a new trial and to set aside the verdict. On May 21, 2014, the court denied defendants' post-trial motions. On June 9, 2014, defendants filed a notice of appeal to the Florida First District Court of Appeal and, on June 18, 2014, PM USA posted a bond in the amount of \$1.5 million.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Plaintiff: *Goveia*

Date: February 2014

Verdict:

An Orange County jury returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. In February 2014, the jury awarded \$850,000 in compensatory damages and allocated 35% of the fault against each defendant (an amount of \$297,500). The jury also awarded \$2.25 million in punitive damages against each defendant.

Post-Trial Developments:

In February 2014, defendants filed post-trial motions, including motions to set aside the verdict and for a new trial. In April 2014, the court denied defendants' motions and entered final judgment against defendants. On April 25, 2014, defendants filed a notice of appeal to the Florida Fifth District Court of Appeal. On May 2, 2014, PM USA posted a bond in the amount of \$2.5 million.

Plaintiff: *Cuculino*

Date: January 2014

Verdict:

In January 2014, a Miami-Dade County jury returned a verdict in favor of plaintiff and against PM USA. The jury awarded plaintiff \$12.5 million in compensatory damages and allocated 40% of the fault to PM USA (an amount of \$5 million).

Post-Trial Developments:

In January 2014, the court entered final judgment against PM USA, and PM USA filed post-trial motions, including motions to set aside the verdict and for a new trial. In March 2014 and April 2014, the court denied PM USA's post-trial motions. Also in April 2014, PM USA filed a notice of appeal to the Florida Third District Court of Appeal, plaintiff cross-appealed and PM USA posted a bond in the amount of \$5 million.

Plaintiff: *Rizzuto*

Date: August 2013

Verdict:

In August 2013, a Hernando County jury returned a verdict in favor of plaintiff and against PM USA and Liggett Group LLC ("Liggett Group"). The jury awarded plaintiff \$12.55 million in compensatory damages.

Post-Trial Developments:

In September 2013, defendants filed post-trial motions, including a motion to reduce damages. In September 2013, the court granted a *remittitur* in part on economic damages, which the court reduced from \$2.55 million to \$1.1 million for a total award of \$11.1 million in compensatory damages. The court declined defendants' request to reduce the compensatory damages award by the jury's assessment of comparative fault, imposing joint and several liability for the compensatory damages. The court denied all other motions except for defendants' motion for a juror interview, which was granted. In October 2013, defendants filed a notice of appeal to the Florida Fifth District Court of Appeal, which ordered resolution of the juror issue prior to appeal. In December 2013, subsequent to the juror interview, the court entered an order that granted no relief with respect to the alleged misconduct of the juror. Plaintiff agreed to waive the bond for the appeal.

Plaintiff: *Skolnick*

Date: June 2013

Verdict:

In June 2013, a Palm Beach County jury returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded plaintiff \$2.555 million in compensatory damages and allocated 30% of the fault to each defendant (an amount of \$766,500).

Post-Trial Developments:

In June 2013, defendants and plaintiff filed post-trial motions. The court entered final judgment against defendants in July 2013. In November 2013, the trial court denied plaintiff's post-trial motion and, in December 2013, denied defendants' post-trial motions. Defendants filed a notice of appeal to the Florida Fourth District Court of Appeal, and plaintiffs cross-appealed.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

in December 2013. Also in December 2013, PM USA posted a bond in the amount of \$766,500.

Plaintiff: *Starr-Blundell*

Date: June 2013

Verdict:

In June 2013, a Duval County jury returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded plaintiff \$500,000 in compensatory damages and allocated 10% of the fault to each defendant (an amount of \$50,000).

Post-Trial Developments:

In June 2013, the defendants filed a motion to set aside the verdict and to enter judgment in accordance with their motion for directed verdict or, in the alternative, for a new trial, which was denied in October 2013. In November 2013, final judgment was entered in favor of plaintiff affirming the compensatory damages award. In December 2013, plaintiff filed a notice of appeal to the Florida First District Court of Appeal, and defendants cross-appealed. Plaintiff agreed to waive the bond for the appeal.

Plaintiff: *Ruffo*

Date: May 2013

Verdict:

In May 2013, a Miami-Dade County jury returned a verdict in favor of plaintiff and against PM USA and Lorillard. The jury awarded plaintiff \$1.5 million in compensatory damages and allocated 12% of the fault to PM USA (an amount of \$180,000).

Post-Trial Developments:

In May 2013, defendants filed several post-trial motions, including motions for a new trial and to set aside the verdict, which the trial court denied in October 2013 and entered final judgment in favor of plaintiff. In October 2013, PM USA and Lorillard appealed to the Florida Third District Court of Appeal, and PM USA posted a bond in the amount of \$180,000.

Plaintiff: *Graham*

Date: May 2013

Verdict:

In May 2013, a jury in the U.S. District Court for the Middle District of Florida (Jacksonville) returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded \$2.75 million in compensatory damages and allocated 10% of the fault to PM USA (an amount of \$275,000).

Post-Trial Developments:

In June 2013, defendants filed several post-trial motions, including motions for judgment as a matter of law and for a new trial, which the trial court denied in September 2013. In October 2013, defendants filed a notice of appeal to the U.S. Court of Appeals for the Eleventh Circuit, and PM USA posted a bond in the amount of \$277,750.

Plaintiff: *Searcy*

Date: April 2013

Verdict:

In April 2013, a jury in the U.S. District Court for the Middle District of Florida (Orlando) returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded \$6 million in compensatory damages and \$10 million in punitive damages against each defendant.

Post-Trial Developments:

In June 2013, the trial court entered final judgment declining defendants' request to reduce the compensatory damages award by the jury's assessment of comparative fault and imposing joint and several liability for the compensatory damages. In July 2013, defendants filed various post-trial motions, including motions requesting reductions in damages. In September 2013, the district court reduced the compensatory damages award to \$1 million and the punitive damages award to \$1.67 million against each defendant. The district court denied all other post-trial motions. Plaintiffs filed a motion to reconsider the

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

district court's *remittitur* and, in the alternative, to certify the issue to the U.S. Court of Appeals for the Eleventh Circuit, both of which the court denied in October 2013. In November 2013, defendants filed a notice of appeal to the U.S. Court of Appeals for the Eleventh Circuit. In December 2013, defendants filed an amended notice of appeal after the district court corrected a clerical error in the final judgment, and PM USA posted a bond in the amount of approximately \$2.2 million.

Plaintiff: *Buchanan*

Date: December 2012

Verdict:

In December 2012, a Leon County jury returned a verdict in favor of plaintiff and against PM USA and Liggett Group. The jury awarded \$5.5 million in compensatory damages and allocated 37% of the fault to each of the defendants (an amount of approximately \$2 million).

Post-Trial Developments:

In December 2012, defendants filed several post-trial motions, including motions for a new trial and to set aside the verdict. In March 2013, the trial court denied all motions and entered final judgment against PM USA and Liggett Group refusing to reduce the compensatory damages award by plaintiff's comparative fault and holding PM USA and Liggett Group jointly and severally liable for \$5.5 million. In April 2013, defendants filed a notice of appeal to the Florida First District Court of Appeal, and PM USA posted a bond in the amount of \$2.5 million. On July 14, 2014, the Florida First District Court of Appeal affirmed the judgment, but certified to the Florida Supreme Court the issue of the statute of repose, which is currently before the court in *Hess*.

Plaintiff: *Hancock*

Date: August 2012

Verdict:

A Broward County jury returned a verdict in the amount of zero damages and allocated 5% of the fault to each of the defendants (PM USA and R.J. Reynolds). The trial court granted an *additur* of approximately \$110,000, which is subject to the jury's comparative fault finding.

Post-Trial Developments:

In August 2012, defendants moved to set aside the verdict and to enter judgment in accordance with their motion for directed verdict. Defendants also moved to reduce damages, which motion the court granted. The trial court granted defendants' motion to set off the damages award by the amount of economic damages paid by third parties, which will reduce further any final award. In October 2012, the trial court entered final judgment. PM USA's portion of the damages was approximately \$700. In November 2012, both sides filed notices of appeal to the Florida Fourth District Court of Appeal.

Plaintiff: *Calloway*

Date: May 2012

Verdict:

A Broward County jury returned a verdict in favor of plaintiff and against PM USA, R.J. Reynolds, Lorillard and Liggett Group. The jury awarded approximately \$21 million in compensatory damages and allocated 25% of the fault against PM USA, but the trial court ruled that it will not apply the comparative fault allocations because the jury found against each defendant on the intentional tort claims. The jury also awarded approximately \$17 million in punitive damages against PM USA, approximately \$17 million in punitive damages against R.J. Reynolds, approximately \$13 million in punitive damages against Lorillard and approximately \$8 million in punitive damages against Liggett Group.

Post-Trial Developments:

In May and June 2012, defendants filed motions to set aside the verdict and for a new trial. In August 2012, the trial court denied the remaining post-trial motions and entered final judgment, reducing the total compensatory damages award to \$16.1 million but leaving undisturbed the separate punitive damages awards. In September 2012, PM USA posted a bond in an amount of \$1.5 million and defendants filed a notice of appeal to the Florida Fourth District Court of Appeal. In August 2013, plaintiff filed a motion to determine the sufficiency of the bond in the trial court on the ground that the bond cap statute is unconstitutional, which the court denied.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Plaintiff: *Hallgren*
Date: January 2012

Verdict:

A Highland County jury returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded approximately \$2 million in compensatory damages and allocated 25% of the fault to PM USA (an amount of approximately \$500,000). The jury also awarded \$750,000 in punitive damages against each of the defendants.

Post-Trial Developments:

The trial court entered final judgment in March 2012. In April 2012, PM USA posted a bond in an amount of approximately \$1.25 million. In May 2012, defendants filed a notice of appeal to the Florida Second District Court of Appeal. In October 2013, the Second District Court of Appeal affirmed the judgment. In November 2013, defendants filed a notice to invoke the discretionary jurisdiction of the Florida Supreme Court. On June 5, 2014, the Florida Supreme Court stayed the case pending the outcome of *Russo*.

Plaintiff: *Allen*
Date: April 2011

Verdict:

A Duval County jury returned a verdict in favor of plaintiffs and against PM USA and R.J. Reynolds. The jury awarded a total of \$6 million in compensatory damages and allocated 15% of the fault to PM USA (an amount of \$900,000). The jury also awarded \$17 million in punitive damages against each of the defendants.

Post-Trial Developments:

In May 2011, the trial court entered final judgment. In October 2011, the trial court granted defendants' motion for *remittitur*, reducing the punitive damages award against PM USA to \$2.7 million, and denied defendants' remaining post-trial motions. PM USA filed a notice of appeal to the Florida First District Court of Appeal and posted a bond in the amount of \$1.25 million in November 2011. In May 2013, the First District Court of Appeal reversed and remanded the case for a new trial on the basis that the trial court erred in failing to submit the question of addiction causation to the jury. In June 2013, the plaintiff filed a motion for rehearing or rehearing *en banc*, which the First District Court of Appeal denied in July 2013. In August 2013, plaintiff filed a notice to invoke the discretionary jurisdiction of the Florida Supreme Court, which the court denied in February 2014. In October 2013, the \$1.25 million bond was returned to PM USA as a result of the First District Court of Appeal's remand for a new trial.

Plaintiff: *Tullo*
Date: April 2011

Verdict:

A Palm Beach County jury returned a verdict in favor of plaintiff and against PM USA, Lorillard and Liggett Group. The jury awarded a total of \$4.5 million in compensatory damages and allocated 45% of the fault to PM USA (an amount of \$2.025 million).

Post-Trial Developments:

In April 2011, the trial court entered final judgment. In July 2011, PM USA filed its notice of appeal to the Florida Fourth District Court of Appeal and posted a \$2 million bond. In August 2013, the Fourth District Court of Appeal affirmed the judgment. In October 2013, defendants filed a notice to invoke the discretionary jurisdiction of the Florida Supreme Court.

Plaintiff: *Kayton* (formerly *Tate*)
Date: July 2010

Verdict:

A Broward County jury returned a verdict in favor of plaintiff and against PM USA. The jury awarded \$8 million in compensatory damages and allocated 64% of the fault to PM USA (an amount of approximately \$5.1 million). The jury also awarded approximately \$16.2 million in punitive damages against PM USA.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Post-Trial Developments:

In August 2010, the trial court entered final judgment, and PM USA filed its notice of appeal and posted a \$5 million bond. In November 2012, the Florida Fourth District Court of Appeal reversed the punitive damages award and remanded the case for a new trial on plaintiff's conspiracy claim. Upon retrial, if the jury finds in plaintiff's favor on that claim, the original \$16.2 million punitive damages award will be reinstated. PM USA filed a motion for rehearing, which was denied in January 2013. In January 2013, plaintiff and defendant each filed a notice to invoke the discretionary jurisdiction of the Florida Supreme Court. In June 2013, the Florida Supreme Court stayed the appeal pending the outcome of *Hess*.

Plaintiff: *Putney*

Date: April 2010

Verdict:

A Broward County jury returned a verdict in favor of plaintiff and against PM USA, R.J. Reynolds and Liggett Group. The jury awarded approximately \$15.1 million in compensatory damages and allocated 15% of the fault to PM USA (an amount of approximately \$2.3 million). The jury also awarded \$2.5 million in punitive damages against PM USA.

Post-Trial Developments:

In August 2010, the trial court entered final judgment. PM USA filed its notice of appeal to the Florida Fourth District Court of Appeal and posted a \$1.6 million bond. In June 2013, the Fourth District Court of Appeal reversed and remanded the case for further proceedings, holding that the trial court erred in (1) not reducing the compensatory damages award as excessive and (2) not instructing the jury on the statute-of-repose in connection with plaintiff's conspiracy claim that resulted in the \$2.5 million punitive damages award. In July 2013, plaintiff filed a motion for rehearing, which the Fourth District Court of Appeal denied in August 2013. In September 2013, both parties filed notices to invoke the discretionary jurisdiction of the Florida Supreme Court. In December 2013, the Florida Supreme Court stayed the appeal pending the outcome of the *Hess* case.

Plaintiff: *R. Cohen*

Date: March 2010

Verdict:

A Broward County jury returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded \$10 million in compensatory damages and allocated 33 1/3% of the fault to PM USA (an amount of approximately \$3.3 million). The jury also awarded a total of \$20 million in punitive damages, assessing separate \$10 million awards against each defendant.

Post-Trial Developments:

In July 2010, the trial court entered final judgment and, in August 2010, PM USA filed its notice of appeal. In October 2010, PM USA posted a \$2.5 million bond. In September 2012, the Florida Fourth District Court of Appeal affirmed the compensatory damages award but reversed and remanded the punitive damages verdict. The Fourth District returned the case to the trial court for a new jury trial on plaintiff's fraudulent concealment claim. If the jury finds in plaintiff's favor on that claim, the \$10 million punitive damages award against each defendant will be reinstated. In January 2013, plaintiff and defendants each filed a notice to invoke the discretionary jurisdiction of the Florida Supreme Court. In February 2013, the Fourth District granted defendants' motion to stay the mandate. In March 2013, plaintiff filed a motion for review of the stay order with the Florida Supreme Court, which was denied in April 2013. In June 2013, plaintiff moved to consolidate with *Hess* and *Kayton*, which defendants did not oppose, but in October 2013, plaintiff withdrew the motion for consolidation. In February 2014, the Florida Supreme Court stayed the appeal pending the outcome of the *Hess* case.

Plaintiff: *Naugle*

Date: November 2009

Verdict:

A Broward County jury returned a verdict in favor of plaintiff and against PM USA. The jury awarded approximately \$56.6 million in compensatory damages and \$244 million in punitive damages. The jury allocated 90% of the fault to PM USA.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Post-Trial Developments:

In March 2010, the trial court entered final judgment reflecting a reduced award of approximately \$13 million in compensatory damages and \$26 million in punitive damages. In April 2010, PM USA filed its notice of appeal and posted a \$5 million bond. In August 2010, upon the motion of PM USA, the trial court entered an amended final judgment of approximately \$12.3 million in compensatory damages and approximately \$24.5 million in punitive damages to correct a clerical error. In June 2012, the Fourth District Court of Appeal affirmed the amended final judgment. In July 2012, PM USA filed a motion for rehearing. In December 2012, the Fourth District withdrew its prior decision, reversed the verdict as to compensatory and punitive damages and returned the case to the trial court for a new trial on the question of damages. In December 2012, plaintiff filed a motion for rehearing *en banc* or for certification to the Florida Supreme Court, which was denied in January 2013. In February 2013, plaintiff and PM USA each filed a notice to invoke the discretionary jurisdiction of the Florida Supreme Court, which the Florida Supreme Court denied in February 2014. Upon retrial on the question of damages, in October 2013, the new jury awarded approximately \$3.7 million in compensatory damages and \$7.5 million in punitive damages. In October 2013, PM USA filed post-trial motions, which the trial court denied on April 29, 2014. On May 16, 2014, PM USA filed a notice of appeal to the Fourth District Court of Appeal and, on May 21, 2014, plaintiff cross-appealed. On May 21, 2014, PM USA filed a rider with the Florida Supreme Court to make the previously-posted *Naugle* bond applicable to the retrial judgment.

Plaintiff: *Hess***Date:** February 2009**Verdict:**

A Broward County jury found in favor of plaintiff and against PM USA. The jury awarded \$3 million in compensatory damages and \$5 million in punitive damages. In June 2009, the trial court entered final judgment and awarded plaintiff \$1.26 million in actual damages and \$5 million in punitive damages. The judgment reduced the jury's \$3 million award of compensatory damages due to the jury allocating 42% of the fault to PM USA.

Post-Trial Developments:

PM USA filed a notice of appeal to the Florida Fourth District Court of Appeal in July 2009. In May 2012, the Fourth District reversed and vacated the punitive damages award on the basis that it was barred by the statute of repose and affirmed the judgment in all other respects, upholding the compensatory damages award of \$1.26 million. In June 2012, both parties filed rehearing motions with the Fourth District, which were denied in September 2012. In October 2012, PM USA and plaintiff filed notices to invoke the Florida Supreme Court's discretionary jurisdiction. In the first quarter of 2013, PM USA recorded a provision on its condensed consolidated balance sheet of approximately \$3.2 million for the judgment plus interest and associated costs. In June 2013, the Florida Supreme Court accepted jurisdiction of plaintiff's petition for review, but declined to accept jurisdiction of PM USA's petition. Also in June 2013, plaintiff moved to consolidate with *R. Cohen* and *Kayton*, which PM USA did not oppose, but in October 2013, plaintiff withdrew the motion for consolidation. Oral argument was heard on April 30, 2014 in the Florida Supreme Court on the statute of repose question.

Concluded Cases

Plaintiff: *Barbanell***Date:** August 2009**Verdict:**

A Broward County jury returned a verdict in favor of plaintiff and against PM USA, awarding \$5.3 million in compensatory damages. The judge had previously dismissed the punitive damages claim. In September 2009, the trial court entered final judgment and awarded plaintiff \$1.95 million in actual damages. The judgment reduced the jury's compensatory damages award due to the jury allocating 36.5% of the fault to PM USA.

Post-Trial Developments:

A notice of appeal was filed by PM USA in September 2009. In February 2012, the Florida Fourth District Court of Appeal reversed the judgment, holding that the statute of limitations barred plaintiff's claims. In October 2012, on motion for rehearing, the Fourth District withdrew its prior decision and affirmed the trial court's judgment. In November 2012, PM USA filed a notice to invoke the jurisdiction of the Florida Supreme Court, which the Florida

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Supreme Court denied. In the first quarter of 2014, PM USA recorded a provision on its condensed consolidated balance sheet of approximately \$3.6 million for the judgment plus interest and associated costs. In March 2014, PM USA filed a petition for *writ of certiorari* with the United States Supreme Court, which was denied on June 9, 2014. On June 12, 2014, PM USA paid the judgment plus interest and associated costs in the amount of approximately \$3.6 million.

Plaintiff: *Lock*

Date: October 2012

Verdict:

A Pinellas County jury returned a verdict in favor of plaintiff and against PM USA and R.J. Reynolds. The jury awarded \$1.15 million in compensatory damages and allocated 9% of the fault to each of the defendants (an amount of \$103,500).

Post-Trial Developments:

In November 2012, defendants filed several post-trial motions, including motions for a new trial, to set aside the verdict and to reduce the damages award by the amount of economic damages paid by third parties. In January 2013, the trial court orally denied all post-trial motions. In February 2013, the trial court entered final judgment. In March 2013, defendants filed a notice of appeal to the Florida Second District Court of Appeal. In March 2014, PM USA paid the judgment plus interest and associated costs in the amount of approximately \$140,000.

Engle Progeny Appellate Issues

Three Florida federal district courts (in the *Merlob*, *B. Brown* and *Burr* cases) ruled in 2008 that the findings in the first phase of the *Engle* proceedings cannot be used to satisfy elements of plaintiffs' claims, and two of those rulings (*B. Brown* and *Burr*) were certified by the trial court for interlocutory review. The certification in both cases was granted by the U.S. Court of Appeals for the Eleventh Circuit and the appeals were consolidated. The appeal in *Burr* was dismissed for lack of prosecution, and the case was ultimately dismissed on statute of limitations grounds.

In July 2010, the Eleventh Circuit ruled in *B. Brown* that, as a matter of Florida law, plaintiffs do not have an unlimited right to use the findings from the original *Engle* trial to meet their burden of establishing the elements of their claims at trial. The Eleventh Circuit did not reach the issue of whether the use of the *Engle* findings violates defendants' due process rights. Rather, the court held that plaintiffs may only use the findings to establish those specific facts, if any, that they demonstrate with a reasonable degree of certainty were actually decided by the original *Engle* jury. The Eleventh Circuit remanded the case to the district court to determine what specific factual findings the *Engle* jury actually made.

After the remand of *B. Brown*, several state appellate rulings superseded the Eleventh Circuit's ruling on Florida state law. These cases include *Martin*, a case against R.J. Reynolds in Escambia County, and *J. Brown*, a case against R.J. Reynolds in Broward County. In December 2011, petitions for *writ of certiorari* were filed with the United States Supreme Court by R.J. Reynolds in *Campbell*, *Martin*, *Gray* and *Hall* and by PM USA and Liggett Group in *Campbell*. The United States Supreme Court denied defendants' *certiorari* petitions in March 2012.

In *Douglas*, in March 2012, the Florida Second District Court of Appeal issued a decision affirming the judgment of the trial court in favor of the plaintiff and upholding the use of the *Engle* jury findings with respect to strict liability claims but certified to the Florida Supreme Court the question of whether granting *res judicata* effect to the *Engle* jury findings violates defendants' federal due process rights. In March 2013, the Florida Supreme Court affirmed the final judgment entered in favor of plaintiff, upholding the use of the *Engle* jury findings with respect to strict liability and negligence claims. PM USA filed its petition for *writ of certiorari* with the United States Supreme Court in August 2013, which the court denied in October 2013.

Meanwhile, in the *Waggoner* case, the U.S. District Court for the Middle District of Florida (Jacksonville) ruled in December 2011 that application of the *Engle* findings to establish the wrongful conduct elements of plaintiffs' claims consistent with *Martin* or *J. Brown* did not violate defendants' due process rights. PM USA and the other defendants sought appellate review of the due process ruling. In February 2012, the district court denied the motion for interlocutory appeal, but did apply the ruling to all active pending federal *Engle* progeny cases. As a result, R.J. Reynolds appealed the rulings in the *Walker* and *Duke* cases to the Eleventh Circuit, which, in September 2013, rejected the due process defense and affirmed the underlying judgments. In October 2013, R.J. Reynolds filed a petition for rehearing or rehearing *en*

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

banc. Thereafter, the Eleventh Circuit vacated its decision and substituted a new opinion. In November 2013, the Eleventh Circuit denied R.J. Reynolds' initial petition for rehearing. R.J. Reynolds filed a petition for rehearing *en banc* or panel rehearing of the substituted decision, which was denied in January 2014. In March 2014, R.J. Reynolds filed petitions for writ of certiorari to the United States Supreme Court in the *Walker* and *Duke* cases, as well as in *J. Brown*. Defendants filed petitions for writ of certiorari in eight other *Engle* progeny cases that were tried in Florida state courts, including one case, *Barbanell*, in which PM USA is the defendant. In these eight petitions, defendants asserted questions similar to those in *Walker*, *Duke* and *J. Brown*. On June 9, 2014, the United States Supreme Court denied defendants' petitions for writ of certiorari in all 11 cases.

In *Soffer*, an *Engle* progeny case against R.J. Reynolds, the First District Court of Appeal held that *Engle* progeny plaintiffs can recover punitive damages only on their intentional tort claims. In February 2014, the Florida Supreme Court accepted jurisdiction over plaintiff's appeal from the First District Court of Appeal's holding.

In *Ciccone*, an *Engle* progeny case against R.J. Reynolds, the Florida Fourth District Court of Appeal held that *Engle* progeny plaintiffs could establish class membership by showing that they developed symptoms during the *Engle* class period that could, in hindsight, be attributed to their smoking-related disease. The court certified a conflict with *Castleman*, a Florida First District Court of Appeal decision, which held that manifestation requires *Engle* progeny plaintiffs to have been aware during the class period that they had a disease caused by smoking in order to establish class membership. The Florida Supreme Court accepted jurisdiction in the *Ciccone* case on June 13, 2014.

Florida Bond Cap Statute

In June 2009, Florida amended its existing bond cap statute by adding a \$200 million bond cap that applies to all state *Engle* progeny lawsuits in the aggregate and establishes individual bond caps for individual *Engle* progeny cases in amounts that vary depending on the number of judgments in effect at a given time. Plaintiffs in three state *Engle* progeny cases against R.J. Reynolds in Alachua County, Florida (*Alexander*, *Townsend* and *Hall*) and one case in Escambia County (*Clay*) challenged the constitutionality of the bond cap statute. The Florida Attorney General intervened in these cases in defense of the constitutionality of the statute.

Trial court rulings were rendered in *Clay*, *Alexander*, *Townsend* and *Hall* rejecting the plaintiffs' bond cap statute challenges in those cases. The plaintiffs unsuccessfully appealed these rulings. In *Alexander*, *Clay* and *Hall*, the District Court of Appeal for the First District of Florida affirmed the trial court decisions and certified the decision in *Hall* for appeal to the Florida Supreme Court, but declined to certify the question of the constitutionality of the bond cap statute in *Clay* and *Alexander*. The Florida Supreme Court granted review of the *Hall* decision, but, in September 2012, the court dismissed the appeal as moot. In October 2012, the Florida Supreme Court denied the plaintiffs' rehearing petition. In August 2013, in *Calloway*, discussed further below, plaintiff filed a motion in the trial court to determine the sufficiency of the bond posted by defendants on the ground that the bond cap statute is unconstitutional, which was denied. No federal court has yet addressed the constitutionality of the bond cap statute or the applicability of the bond cap to *Engle* progeny cases tried in federal court. However, in April 2013, PM USA, R.J. Reynolds and Lorillard filed a motion in the U.S. District Court for the Middle District of Florida (Jacksonville) to have the court apply the Florida bond cap statute to all federal *Engle* progeny cases. In August 2013, the court denied the motion without prejudice on the grounds that it was premature to adjudicate such issue.

Other Smoking and Health Class Actions

Since the dismissal in May 1996 of a purported nationwide class action brought on behalf of allegedly addicted smokers, plaintiffs have filed numerous putative smoking and health class action suits in various state and federal courts. In general, these cases purport to be brought on behalf of residents of a particular state or states (although a few cases purport to be nationwide in scope) and raise addiction claims and, in many cases, claims of physical injury as well.

Class certification has been denied or reversed by courts in 59 smoking and health class actions involving PM USA in Arkansas (1), California (1), the District of Columbia (2), Florida (2), Illinois (3), Iowa (1), Kansas (1), Louisiana (1), Maryland (1), Michigan (1), Minnesota (1), Nevada (29), New Jersey (6), New York (2), Ohio (1), Oklahoma (1), Pennsylvania (1), Puerto Rico (1), South Carolina (1), Texas (1) and Wisconsin (1).

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

As of July 18, 2014, PM USA and Altria Group, Inc. are named as defendants, along with other cigarette manufacturers, in seven class actions filed in the Canadian provinces of Alberta, Manitoba, Nova Scotia, Saskatchewan, British Columbia and Ontario. In Saskatchewan, British Columbia (two separate cases) and Ontario, plaintiffs seek class certification on behalf of individuals who suffer or have suffered from various diseases, including chronic obstructive pulmonary disease, emphysema, heart disease or cancer, after smoking defendants' cigarettes. In the actions filed in Alberta, Manitoba and Nova Scotia, plaintiffs seek certification of classes of all individuals who smoked defendants' cigarettes. See *Guarantees and Other Similar Matters* below for a discussion of the Distribution Agreement between Altria Group, Inc. and PMI that provides for indemnities for certain liabilities concerning tobacco products.

Medical Monitoring Class Actions

In medical monitoring actions, plaintiffs seek to recover the cost for, or otherwise the implementation of, court-supervised programs for ongoing medical monitoring purportedly on behalf of a class of individual plaintiffs. Two purported medical monitoring class actions are pending against PM USA. These two cases were brought in New York (*Caronia*, filed in January 2006 in the U.S. District Court for the Eastern District of New York) and Massachusetts (*Donovan*, filed in December 2006 in the U.S. District Court for the District of Massachusetts) on behalf of each state's respective residents who: are age 50 or older; have smoked the *Marlboro* brand for 20 pack-years or more; and have neither been diagnosed with lung cancer nor are under investigation by a physician for suspected lung cancer. Plaintiffs in these cases seek to impose liability under various product-based causes of action and the creation of a court-supervised program providing members of the purported class Low Dose CT ("LDCT") scanning in order to identify and diagnose lung cancer. Plaintiffs in these cases do not seek punitive damages. The future defense of these cases may be negatively impacted by evolving medical standards and practice. Two other cases (California (*Xavier*) and Florida (*Gargano*)) were dismissed in 2011.

In *Caronia*, in February 2010, the district court granted in part PM USA's summary judgment motion, dismissing plaintiffs' strict liability and negligence claims and certain other claims, granted plaintiffs leave to amend their complaint to allege a medical monitoring cause of action and requested further briefing on PM USA's summary judgment motion as to plaintiffs' implied warranty claim and, if plaintiffs amend their complaint, their medical monitoring claim. In March 2010, plaintiffs filed their amended complaint and PM USA moved to dismiss the implied warranty and medical monitoring claims. In January 2011, the district court granted PM USA's motion, dismissed plaintiffs' claims and declared plaintiffs' motion for class certification moot in light of the dismissal of the case. The plaintiffs appealed that decision to the U.S. Court of Appeals for the Second Circuit. In May 2013, the U.S. Court of Appeals for the Second Circuit affirmed the dismissal of plaintiffs' traditional negligence, strict liability and breach-of-warranty claims on the grounds of statute of limitations and the widespread knowledge regarding the risks of cigarette smoking, but certified to the New York State Court of Appeals the following questions: (1) whether New York would recognize an independent claim for medical monitoring, (2) if so, what would be the elements of such a claim, and (3) what would be the statute of limitations applicable to such a claim and when would it be triggered. In May 2013, the New York Court of Appeals accepted the certified questions and, in December 2013, answered the first question ruling that New York law does not allow for an independent cause of action for medical monitoring. In April 2014, the U.S. Court of Appeals for the Second Circuit affirmed the district court's dismissal of the entire case, including the so-called independent claim for medical monitoring and issued its mandate on May 5, 2014.

In *Donovan*, the Supreme Judicial Court of Massachusetts, in answering questions certified to it by the district court, held in October 2009 that under certain circumstances state law recognizes a claim by individual smokers for medical monitoring despite the absence of an actual injury. The court also ruled that whether or not the case is barred by the applicable statute of limitations is a factual issue to be determined by the trial court. The case was remanded to federal court for further proceedings. In June 2010, the district court granted in part the plaintiffs' motion for class certification, certifying the class as to plaintiffs' claims for breach of implied warranty and violation of the Massachusetts Consumer Protection Act, but denying certification as to plaintiffs' negligence claim. In July 2010, PM USA petitioned the U.S. Court of Appeals for the First Circuit for appellate review of the class certification decision. The petition was denied in September 2010. As a remedy, plaintiffs have proposed a 28-year medical monitoring program with an approximate cost of \$190 million. In June 2011, plaintiffs filed various motions for summary judgment and to strike affirmative defenses, which the district court denied in March 2012 without prejudice. In October 2011, PM USA filed a motion for class decertification, which motion was denied in March 2012. In February 2013, the district court amended the class definition to extend to individuals who satisfy the class membership criteria through February 26, 2013, and to exclude

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

any individual who was not a Massachusetts resident as of February 26, 2013. In January 2014, plaintiffs renewed their previously filed motions for summary judgment and to strike affirmative defenses. A trial date has not been set.

Health Care Cost Recovery Litigation

Overview

In the health care cost recovery litigation, governmental entities seek reimbursement of health care cost expenditures allegedly caused by tobacco products and, in some cases, of future expenditures and damages. Relief sought by some but not all plaintiffs includes punitive damages, multiple damages and other statutory damages and penalties, injunctions prohibiting alleged marketing and sales to minors, disclosure of research, disgorgement of profits, funding of anti-smoking programs, additional disclosure of nicotine yields, and payment of attorney and expert witness fees.

The claims asserted include the claim that cigarette manufacturers were “unjustly enriched” by plaintiffs’ payment of health care costs allegedly attributable to smoking, as well as claims of indemnity, negligence, strict liability, breach of express and implied warranty, violation of a voluntary undertaking or special duty, fraud, negligent misrepresentation, conspiracy, public nuisance, claims under federal and state statutes governing consumer fraud, antitrust, deceptive trade practices and false advertising, and claims under federal and state anti-racketeering statutes.

Defenses raised include lack of proximate cause, remoteness of injury, failure to state a valid claim, lack of benefit, adequate remedy at law, “unclean hands” (namely, that plaintiffs cannot obtain equitable relief because they participated in, and benefited from, the sale of cigarettes), lack of antitrust standing and injury, federal preemption, lack of statutory authority to bring suit and statutes of limitations. In addition, defendants argue that they should be entitled to “set off” any alleged damages to the extent the plaintiffs benefit economically from the sale of cigarettes through the receipt of excise taxes or otherwise. Defendants also argue that these cases are improper because plaintiffs must proceed under principles of subrogation and assignment. Under traditional theories of recovery, a payor of medical costs (such as an insurer) can seek recovery of health care costs from a third party solely by “standing in the shoes” of the injured party. Defendants argue that plaintiffs should be required to bring any actions as subrogees of individual health care recipients and should be subject to all defenses available against the injured party.

Although there have been some decisions to the contrary, most judicial decisions in the United States have dismissed all or most health care cost recovery claims against cigarette manufacturers. Nine federal circuit courts of appeals and eight state appellate courts, relying primarily on grounds that plaintiffs’ claims were too remote, have ordered or affirmed dismissals of health care cost recovery actions. The United States Supreme Court has refused to consider plaintiffs’ appeals from the cases decided by five circuit courts of appeals. In 2011, in the health care cost recovery case brought against PM USA and other defendants by the City of St. Louis, Missouri and approximately 40 Missouri hospitals, a verdict was returned in favor of defendants.

Individuals and associations have also sued in purported class actions or as private attorneys general under the Medicare as Secondary Payer (“MSP”) provisions of the Social Security Act to recover from defendants Medicare expenditures allegedly incurred for the treatment of smoking-related diseases. Cases were brought in New York (2), Florida (2) and Massachusetts (1). All were dismissed by federal courts.

In addition to the cases brought in the United States, health care cost recovery actions have also been brought against tobacco industry participants, including PM USA and Altria Group, Inc., in Israel (dismissed), the Marshall Islands (dismissed) and Canada (9), and other entities have stated that they are considering filing such actions.

In September 2005, in the first of several health care cost recovery cases filed in Canada, the Canadian Supreme Court ruled that legislation passed in British Columbia permitting the lawsuit is constitutional, and, as a result, the case, which had previously been dismissed by the trial court, was permitted to proceed. PM USA’s and other defendants’ challenge to the British Columbia court’s exercise of jurisdiction was rejected by the Court of Appeals of British Columbia and, in April 2007, the Supreme Court of Canada denied review of that decision. In December 2009, the Court of Appeals of British Columbia ruled that certain defendants can proceed against the Federal Government of Canada as third parties on the theory that the Federal Government of Canada negligently misrepresented to defendants the efficacy of a low tar tobacco variety that the Federal Government of Canada developed and licensed to defendants. In May 2010, the Supreme Court of Canada granted leave to the Federal Government of Canada to appeal this decision and leave to

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

defendants to cross-appeal the Court of Appeals' decision to dismiss claims against the Federal Government of Canada based on other theories of liability. In July 2011, the Supreme Court of Canada dismissed the third-party claims against the Federal Government of Canada.

Since the beginning of 2008, the Canadian Provinces of British Columbia, New Brunswick, Ontario, Newfoundland and Labrador, Quebec, Alberta, Manitoba, Saskatchewan and Prince Edward Island have brought health care reimbursement claims against cigarette manufacturers. PM USA is named as a defendant in the British Columbia and Quebec cases, while both Altria Group, Inc. and PM USA are named as defendants in the New Brunswick, Ontario, Newfoundland and Labrador, Alberta, Manitoba, Saskatchewan and Prince Edward Island cases. The Province of Nova Scotia and the territory of Nunavut have enacted similar legislation or are in the process of enacting similar legislation. See *Guarantees and Other Similar Matters* below for a discussion of the Distribution Agreement between Altria Group, Inc. and PMI that provides for indemnities for certain liabilities concerning tobacco products.

Settlements of Health Care Cost Recovery Litigation

In November 1998, PM USA and certain other United States tobacco product manufacturers entered into the MSA with 46 states, the District of Columbia, Puerto Rico, Guam, the United States Virgin Islands, American Samoa and the Northern Marianas to settle asserted and unasserted health care cost recovery and other claims. PM USA and certain other United States tobacco product manufacturers had previously entered into agreements to settle similar claims brought by Mississippi, Florida, Texas and Minnesota (together with the MSA, the "State Settlement Agreements"). The State Settlement Agreements require that the original participating manufacturers make annual payments of approximately \$9.4 billion, subject to adjustments for several factors, including inflation, market share and industry volume. In addition, the original participating manufacturers are required to pay settling plaintiffs' attorneys' fees, subject to an annual cap of \$500 million. For the three months ended June 30, 2014 and 2013, the aggregate amount recorded in cost of sales with respect to the State Settlement Agreements and the Fair and Equitable Tobacco Reform Act of 2004 ("FETRA") was approximately \$1.2 billion for each period. For the six months ended June 30, 2014 and 2013, the aggregate amount recorded in cost of sales with respect to the State Settlement Agreements and FETRA was approximately \$2.3 billion and \$1.8 billion, respectively. The 2014 amounts include a reduction to cost of sales of approximately \$43 million for the six and three months ended June 30, 2014 related to the NPM Adjustment Items discussed below. The 2013 amounts include reductions to cost of sales of \$519 million and \$36 million for the six and three months ended June 30, 2013, respectively, related to the NPM Adjustment Items discussed below.

The State Settlement Agreements also include provisions relating to advertising and marketing restrictions, public disclosure of certain industry documents, limitations on challenges to certain tobacco control and underage use laws, restrictions on lobbying activities and other provisions.

Possible Adjustments in MSA Payments for 2003 - 2013

Background

Pursuant to the provisions of the MSA, PM USA and the other manufacturers that are original signatories to the MSA (the "Original Participating Manufacturers" or "OPMs") are participating in proceedings with respect to claims for downward adjustments to the amounts paid by them to the states and territories that are parties to the MSA for each of the years 2003 - 2012. The proceedings relate to an adjustment based on the collective loss of market share for the relevant year by all participating manufacturers who are subject to the payment obligations and marketing restrictions of the MSA to NPMs who are not subject to such obligations and restrictions (the "NPM Adjustment").

As part of these proceedings, an independent economic consulting firm is required to determine whether the disadvantages of the MSA were a "significant factor" contributing to the participating manufacturers' collective loss of market share for the year in question. If the firm determines that the disadvantages of the MSA were such a "significant factor," each state may avoid a downward adjustment to its share of the participating manufacturers' annual MSA payments for that year by establishing that it diligently enforced a qualifying escrow statute during the entirety of that year. Such a state's share of the downward adjustment would then be reallocated to any states that are found not to have established such diligent enforcement.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

An independent economic consulting firm determined that the disadvantages of the MSA were such a significant factor for each of the years 2003 - 2006. Following the firm's determination for 2006, the OPMs and the states agreed that the states would not contest that the disadvantages of the MSA were a significant factor contributing to the participating manufacturers' collective loss of market share for the years 2007 - 2012 (the "significant factor agreement"). This agreement has become effective for 2007 - 2011 and will become effective for 2012 on February 1, 2015. A significant factor proceeding for 2013 cannot be commenced until April 2015.

Once a significant factor determination in favor of the participating manufacturers for a particular year has been made, or the significant factor agreement has become effective for a particular year, PM USA has the right under the MSA to pay the disputed amount of the NPM Adjustment for that year into a disputed payments account (the "DPA") or withhold the amount altogether. PM USA made its full MSA payment due in each year from 2006 - 2010 to the states (subject to a right to recoup the NPM Adjustment amount in the form of a credit against future MSA payments), even though it had the right to deduct the disputed amounts of the 2003 - 2007 NPM Adjustments from such MSA payments. PM USA paid its share of the amount of the disputed 2008, 2009, 2010 and 2011 NPM Adjustments into the DPA in connection with its MSA payments due in 2011, 2012, 2013 and 2014, respectively.

An independent auditor appointed under the MSA (the "Independent Auditor") is required to calculate the maximum amount, if any, of PM USA's share of the NPM Adjustment for any year in respect of which such NPM Adjustment is potentially applicable. The Independent Auditor has calculated the following approximate amounts as PM USA's maximum potential share of the NPM Adjustments for the years 2003 - 2013 (such amounts are exclusive of interest or earnings to which PM USA believes it would be entitled): \$337 million for 2003, \$388 million for 2004, \$181 million for 2005, \$154 million for 2006, \$185 million for 2007, \$250 million for 2008, \$211 million for 2009, \$219 million for 2010, \$165 million for 2011, \$207 million for 2012 and \$215 million for 2013. For a variety of reasons, however, the amounts of the 2003 - 2013 NPM Adjustments that remain potentially available to PM USA are lower than these maximum amounts. For example, as discussed below, PM USA has entered into a settlement with 24 MSA states and territories resolving those states' respective shares of the foregoing amounts. As a result, the amounts of the 2003 - 2013 NPM Adjustments that remain potentially available to PM USA from the MSA states and territories that have not entered into that settlement have been, or will be, reduced in light of the settlement. In addition, the amounts that remain potentially available to PM USA, even as reduced in light of the settlement, have been or may be further reduced as a result of various pending state court actions, recent decisions by Pennsylvania and Missouri state courts and other factors, all as discussed more fully below. The amounts that remain potentially available to PM USA may also be further reduced by other developments, including, but not limited to, agreements that may be entered in the future, disputes that may arise, or recalculation of the NPM Adjustment amounts by the Independent Auditor.

Following the 2003 "significant factor" determination, 38 states filed actions in their respective state courts seeking a declaration that the state diligently enforced its escrow statute during 2003. The participating manufacturers responded to these actions by filing motions to compel arbitration in accordance with the terms of the MSA, including filing motions to compel arbitration in 11 MSA states and territories that did not file declaratory judgment actions. Courts in all but one of the 46 MSA states, as well as courts in the District of Columbia and Puerto Rico, have ruled that the question of whether a state had diligently enforced its escrow statute during 2003 is subject to arbitration. The Montana state courts have ruled that the diligent enforcement claims of that state may be litigated in state court, rather than in arbitration. In June 2012, the participating manufacturers and Montana entered into a consent decree pursuant to which Montana will not be subject to the 2003 NPM Adjustment.

PM USA, the other OPMs and approximately 25 other MSA-participating manufacturers entered into an agreement regarding arbitration with 45 MSA states and territories concerning the 2003 NPM Adjustment. The agreement provides for a partial liability reduction of 20% for the 2003 NPM Adjustment for states that entered into the agreement by January 30, 2009 and are determined in the arbitration not to have diligently enforced a qualifying escrow statute during 2003. As discussed more fully below, the partial liability reduction has reduced the amount of PM USA's 2003 NPM Adjustment by that percentage.

The selection of the arbitration panel for the 2003 NPM Adjustment was completed in July 2010. Following the completion of discovery, the participating manufacturers determined to continue to contest the 2003 diligent enforcement claims of 33 states, the District of Columbia and Puerto Rico (the "contested states") and to no longer contest such claims by 12 states and four U.S. territories (the "non-contested states"). As discussed under "2003 NPM Adjustment Dispute and Awards by the Arbitration Panel" below, this arbitration has now concluded, with the arbitration panel finding that six

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

of the contested states did not diligently enforce their respective escrow statutes in 2003. As a result, the non-contested states' share of the 2003 NPM Adjustment, along with the shares of the states found by the arbitration panel to have diligently enforced during 2003, have been reallocated in accordance with the MSA to those six states found by the panel not to have diligently enforced during 2003.

December 2012 Settlement and March 2013 Stipulated Award

Effective December 17, 2012, prior to the completion of the 2003 arbitration, PM USA, the other OPMs and certain other participating manufacturers entered into a settlement with 17 MSA states, the District of Columbia and Puerto Rico for settlement of the 2003 - 2012 NPM Adjustments with those states and territories. (As discussed below, the settlement also contains terms as to the 2013 NPM Adjustment and subsequent adjustments.) An additional MSA state joined the settlement in April 2013 (prior to the date of PM USA's April 2013 MSA payment), two more MSA states joined the settlement in May 2013 (after the date of PM USA's April 2013 MSA payment), and two more MSA states joined the settlement in June 2014 as discussed under "Settlement with Two of the Six States Found Non-Diligent for 2003" below. (These 22 states, the District of Columbia and Puerto Rico are collectively referred to as the "signatory states," and the states and territories that have not joined the settlement are collectively referred to as the "non-signatory states.")

In March 2013, the arbitration panel in the 2003 NPM Adjustment arbitration issued a stipulated partial settlement and award (the "Stipulated Award") permitting the settlement to proceed. As a result, the number of contested states in the 2003 arbitration was reduced from 35 to the 15 contested states that had not joined the settlement as of that time. As part of the Stipulated Award, the arbitration panel ruled that the total 2003 NPM Adjustment claim is to be reduced pro rata by the aggregate allocable share of the signatory states (at the relevant time, approximately 46%) to determine the maximum amount of the 2003 NPM Adjustment potentially available from the 15 remaining contested states, although any of those states may seek a more favorable reduction method as to it for the 2003 NPM Adjustment through review in its state court. Following the issuance of the Stipulated Award, 14 of the non-signatory states, including 12 of the 15 remaining contested states described above, filed motions in their state MSA courts to vacate and/or modify portions or all of the Stipulated Award. In October 2013, the Idaho state court denied Idaho's motion to vacate the Stipulated Award, although Idaho has appealed this ruling. In November 2013, Massachusetts dismissed its motion to vacate the Stipulated Award, and in February 2014, the Colorado state court denied Colorado's motion to vacate the Stipulated Award. As discussed more fully below under "2003 NPM Adjustment Dispute and Awards by the Arbitration Panel", in April 2014 and May 2014, a Pennsylvania state trial court and a Missouri state trial court, respectively, granted these states' respective motions to modify the Stipulated Award to apply to them a more favorable reduction method for the 2003 NPM Adjustment than the pro rata reduction ordered by the arbitration panel in the Stipulated Award. PM USA is appealing these rulings. Many of the remaining motions also seek a more favorable reduction method than the pro rata reduction ordered by the arbitration panel in the Stipulated Award. No assurance can be given that this litigation, including PM USA's appeals of the Pennsylvania and Missouri state court rulings, will be resolved in a manner favorable to PM USA.

Except for the two MSA states that joined in June 2014 (see discussion below), the settlement provides for the OPMs to receive reductions to their MSA payments in an amount equal to 46% of the signatory states' aggregate allocable share of the OPMs' aggregate 2003 - 2012 NPM Adjustments plus interest. The OPMs have agreed that, subject to certain conditions, PM USA will receive approximately 28% of such reductions (which is the maximum percentage allocation of the total 2003 - 2012 NPM Adjustments to which PM USA was entitled under the MSA); R.J. Reynolds will receive approximately 60% of such reductions; and Lorillard will receive approximately 12% of such reductions. Based on the identity of the signatory states on April 15, 2013 (the date of PM USA's 2013 MSA payment), the reduction in PM USA's April 2013 MSA payment obligation was approximately \$483 million.

PM USA received all of its approximately \$483 million reduction with respect to the signatory states that had joined the settlement prior to the date of the April 2013 MSA payment through a credit against that MSA payment. PM USA received an additional \$36 million credit against its April 2014 MSA payment as a result of the two additional states that joined the settlement after the date of the 2013 MSA payment. R.J. Reynolds and Lorillard are expected to receive their respective reductions over a five-year period. PM USA recorded the \$483 million, which it received as a credit against its April 2013 MSA payment, as a reduction to cost of sales that increased its reported pre-tax earnings in the first quarter of 2013. PM USA recorded the additional \$36 million credit as a reduction to cost of sales that increased its reported pre-tax earnings in the second quarter of 2013.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

As part of the settlement, each of the signatory states is to receive its portion of the amounts that have been paid by the OPMs into the DPA on account of the NPM Adjustments. In this context, PM USA authorized release to the 20 signatory states that had joined the settlement prior to the date of the April 2013 MSA payment of their allocable share of the \$658 million that PM USA has paid into the DPA through the date of its April 2013 MSA payment (plus the accumulated earnings thereon), which amounted to approximately \$272 million. In addition, PM USA authorized release of additional funds from the DPA to the two signatory states that joined the settlement in 2013 but after the date of the April 2013 MSA payment in an amount of approximately \$22 million. Furthermore, PM USA deposited those 22 signatory states' allocable share of its portion of the 2011 NPM Adjustment into the DPA in connection with its April 2014 MSA payment and then, following such deposit, authorized the release of such share to the signatory states as provided in the Stipulated Award. As discussed more fully under "Settlement with Two of the Six States Found Non-Diligent for 2003" below, PM USA also has authorized release of additional funds from the DPA to the two states that joined the settlement in June 2014.

The settlement also provides that the NPM Adjustment provision will be revised and streamlined as to the signatory states for years after 2012. Under the revised provision, the 2013 and 2014 NPM Adjustments are treated as "transition years," in which the OPMs receive (1) a specified percentage of the signatory states' allocable share of the maximum NPM Adjustment calculated by the Independent Auditor for the year in question and (2) a potential further amount from each signatory state depending on the level of escrow compliance in that state with respect to NPM cigarettes sold in 2013 or 2014, as applicable, on which that state's excise tax was paid. PM USA received a reduction of approximately \$35 million to its April 2014 MSA payment for the 2013 transition year, resulting in a reduction to cost of sales in the first quarter of 2014.

In connection with the settlement, the formula for allocating among the OPMs the revised NPM Adjustments applicable to the signatory states for 2013 and subsequent years has been modified in a manner favorable to PM USA, although the extent to which it remains favorable to PM USA will depend upon certain future events, including the future relative market shares of the OPMs.

2003 NPM Adjustment Dispute and Awards by the Arbitration Panel

In September 2013, the arbitration panel for the 2003 NPM Adjustment issued awards ruling that six of the 15 contested states that had not joined the settlement did not diligently enforce their respective escrow statutes during 2003. Based on this ruling, the participating manufacturers are entitled to the entire 2003 NPM Adjustment remaining after the pro rata reduction ordered in light of the settlement by the arbitration panel in the Stipulated Award. Based on the pro rata reduction method specified by the panel and the 20% partial liability reduction applicable to signatories of the agreement regarding arbitration (both described above), PM USA believes it is entitled to receive an NPM Adjustment for 2003 in the amount of approximately \$145 million. PM USA recorded this \$145 million as a reduction to cost of sales, which increased its reported pre-tax earnings in the third quarter of 2013. The 2003 NPM Adjustment is applicable only to the six non-diligent states.

All six non-diligent states filed motions in their state courts to vacate the panel's rulings as to their diligence. Furthermore, as noted above, all six non-diligent states had already filed motions in their state courts to vacate and/or modify the Stipulated Award seeking a more favorable reduction method as to them than the pro rata reduction ordered by the panel in the Stipulated Award. In April 2014, a Pennsylvania state trial court denied Pennsylvania's motion to vacate the arbitration panel's award that found that Pennsylvania had not diligently enforced its escrow statute during 2003. The trial court did, however, grant Pennsylvania's motion to modify, with respect to Pennsylvania, that portion of the arbitration panel's Stipulated Award that specified the reduction method for the 2003 NPM Adjustment. As a result, the credit that PM USA received against its April 2014 MSA payment in respect of the 2003 NPM Adjustment was \$116 million (as calculated by the Independent Auditor), rather than the \$145 million to which PM USA believes it is entitled. PM USA is appealing the Pennsylvania court's ruling to modify the Stipulated Award. In May 2014, a Missouri state trial court denied Missouri's motion to vacate the arbitration panel's award that found that Missouri had not diligently enforced its escrow statute during 2003. The trial court did, however, grant Missouri's motion to modify, with respect to Missouri, that portion of the arbitration panel's Stipulated Award that specified the reduction method for the 2003 NPM Adjustment. PM USA is appealing the Missouri court's ruling to modify the Stipulated Award, and Missouri is appealing the court's ruling denying its motion to vacate the panel's diligence award. If PM USA is not successful in its appeal of the Missouri court's ruling modifying the Stipulated Award, it will be required to return to Missouri approximately \$12 million (subject to confirmation by the Independent Auditor) of the \$116 million credit that PM USA received against its April 2014 MSA payment in respect of the 2003 NPM Adjustment, plus applicable interest on that amount. In connection with this appeal, on July 1, 2014, PM USA posted a bond in the amount of \$22 million.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The Independent Auditor has also calculated that PM USA is entitled to interest of approximately \$71 million in connection with the \$116 million credit that it received against its April 2014 MSA payment in respect of the 2003 NPM Adjustment. PM USA received this \$71 million in interest in the form of a credit against its April 2014 MSA payment (although PM USA would be required to return \$7 million of this amount plus applicable interest, subject to confirmation by the Independent Auditor, to Missouri if it is not successful in the appeal discussed above). A number of states have, however, raised a dispute concerning the method by which such interest has been calculated. In addition, an OPM has raised another dispute concerning the method by which interest and DPA earnings are to be allocated among the OPMs. If any of these disputes is successfully asserted against PM USA, the amount of interest to which PM USA is entitled could be lower than \$71 million. Based on its assessment of these factors, PM USA recorded \$64 million in interest income, which reduced interest and other debt expense, net in the first quarter of 2014. As discussed more fully under "Settlement with Two of the Six States Found Non-Diligent for 2003" below, in the second quarter of 2014 PM USA reversed a portion of this previously recorded \$64 million of interest income as a result of the two states joining the settlement in June 2014.

While PM USA intends to vigorously litigate the motions and appeals described above, no assurance can be given that one or more of these states will not be successful in vacating the panel's ruling that it was not diligent and/or in seeking to have a more favorable reduction method applied as to it. If PM USA is unsuccessful in its appeals of the Pennsylvania or Missouri court rulings described above or if one or more other states are successful with respect to any such motions, the amount of the 2003 NPM Adjustment and any interest or earnings to which PM USA is entitled could be lower than the amounts described above. If, as a result of any of the motions to vacate or disputes about interest described above, the amount of the 2003 NPM Adjustment or interest thereon to which PM USA is entitled is less than the amounts that it has already received as a credit against its April 2014 MSA payment, PM USA would have to pay the difference.

Settlement with Two of the Six States Found Non-Diligent for 2003

In June 2014, Kentucky and Indiana, two of the six states that were found non-diligent for 2003, joined the settlement on modified terms that provide for the OPMs to receive reductions to their MSA payments in an amount equal to the sum of (i) 65% of the amount of the 2003 NPM Adjustment applicable to those states under the panel's award described above, plus 65% of interest and earnings on that amount as was calculated by the Independent Auditor, and (ii) 55% of those states' aggregate allocable share of the OPMs' aggregate 2004 - 2012 NPM Adjustments plus interest. The amounts the OPMs are to receive from these two states on account of the 2003 - 2012 NPM Adjustments will be allocated among the OPMs using the percentages detailed above. All other terms of the settlement discussed above apply to these two signatory states.

The total amount that PM USA is to receive on account of the 2003 - 2012 NPM Adjustments as a result of these two states joining the settlement is \$80 million. However, the 2003 NPM Adjustments previously recorded by PM USA for these two states included \$54 million of the \$80 million. Of the \$54 million so recorded, \$37 million was recorded as a reduction to cost of sales and \$17 million was recorded as interest income. As a result of these two states joining the settlement, in the second quarter of 2014, PM USA recorded a \$43 million reduction to cost of sales and a \$17 million reduction in interest income, resulting in a net increase in reported pre-tax earnings of \$26 million in the second quarter of 2014. In addition, in respect of the 2013 transition year as it relates to these two states, PM USA recorded an approximately \$2.9 million reduction to cost of sales that increased its pre-tax earnings in the second quarter of 2014. As part of this settlement, PM USA also authorized release of additional funds from the DPA to these two signatory states in an amount of approximately \$31 million.

In connection with the settlement, these two states are in the process of staying their motions to vacate or modify the Stipulated Award and the panel's rulings as to their diligence. The other four non-diligent states continue to pursue their motions described above. These four states account for \$108 million of the \$145 million of 2003 NPM Adjustment to which PM USA believes it is entitled, \$79 million of the \$116 million of 2003 NPM Adjustment with which PM USA has been credited by the Independent Auditor in April 2014 and approximately 70% of the interest to which PM USA believes it is entitled.

Notes to Condensed Consolidated Financial Statements
(Unaudited)

2004 - 2013 NPM Adjustment Disputes

PM USA continues to reserve all rights regarding the NPM Adjustments with respect to the non-signatory states and intends to continue to pursue vigorously the disputed NPM Adjustments for 2004 - 2013 against them. No proceedings to determine state diligent enforcement claims for 2004 - 2013 have yet been scheduled. PM USA believes that the MSA requires state claims of diligent enforcement for 2004 - 2013 to be determined in a national arbitration, although a number of non-signatory states have filed motions in their state courts contending, or have reserved rights to contend, that such claims for those years are to be determined either in separate arbitrations for each state or in state court on a state-by-state basis. No assurance can be given as to if and when proceedings for 2004 - 2013 will be scheduled or the precise form those proceedings will take.

The amounts of the NPM Adjustments for 2004 - 2013 that have been calculated by the Independent Auditor and set forth above will be reduced in light of the settlement to determine the maximum amount of such adjustments potentially available from the non-signatory states. The Stipulated Award did not specify the reduction method applicable to the 2004 - 2013 NPM Adjustment claims. In addition, the amounts of the NPM Adjustments for 2004 - 2013 that have been calculated by the Independent Auditor and set forth above may be recalculated by the MSA's Independent Auditor if it receives information that is different from or in addition to the information on which it based these calculations, including, among other things, if it receives revised sales volumes from any participating manufacturer. Disputes among the manufacturers could also reduce the foregoing amounts. The availability and amount of any NPM Adjustment for 2004 - 2013 obtained through proceedings against the non-signatory states (as opposed to the settlement) will not be finally determined in the near term. There is no certainty that the OPMs and other MSA-participating manufacturers would ultimately receive any adjustment from the non-signatory states as a result of these proceedings, and the amount of any adjustment received for a year could be less than the amount for that year listed above (even as reduced in light of the settlement). The receipt by PM USA of a credit against its April 2014 MSA payment in respect of the 2003 NPM Adjustment and interest thereon does not provide any assurance that PM USA will receive any NPM Adjustment amounts (or associated interest or earnings) for 2004 or any subsequent year. It is expected that PM USA would receive its share of any adjustments for 2004 - 2007 likely in the form of a credit against future MSA payments and its share of any adjustment for 2008 - 2013 in the form of a withdrawal from the DPA and/or a credit against future MSA payments.

Other Disputes Related to MSA Payments

In addition to the disputed NPM Adjustments described above, MSA states and participating manufacturers, including PM USA, conducted another arbitration to resolve certain other disputes related to the calculation of the participating manufacturers' payments under the MSA. PM USA disputed the method by which ounces of "roll your own" tobacco had been converted to cigarettes for purposes of calculating the downward volume adjustments to its MSA payments, but in February 2013 the arbitration panel issued a ruling in favor of the MSA states. This same arbitration panel also issued a ruling in the dispute over whether the "adjusted gross" or the "net" number of cigarettes on which federal excise tax is paid is the correct methodology for calculating MSA payments due from certain subsequent participating manufacturers. It is unclear precisely which past and future MSA payments may be affected by this ruling. PM USA also does not currently have access to the data that would be necessary to determine the magnitude and the direction of such effects, if any.

Other MSA-Related Litigation

Since the MSA's inception, NPMs and/or their distributors or customers have filed a number of challenges to the MSA and related legislation. They have named as defendants the states and their officials, in an effort to enjoin enforcement of important parts of the MSA and related legislation, and/or participating manufacturers, in an effort to obtain damages. To date, no such challenge has been successful, and the U.S. Courts of Appeals for the Second, Third, Fourth, Fifth, Sixth, Eighth, Ninth and Tenth Circuits have affirmed judgments in favor of defendants in 16 such cases.

Federal Government's Lawsuit

In 1999, the United States government filed a lawsuit in the U.S. District Court for the District of Columbia against various cigarette manufacturers, including PM USA, and others, including Altria Group, Inc., asserting claims under three federal statutes, namely the Medical Care Recovery Act ("MCRA"), the MSP provisions of the Social Security Act and the civil provisions of RICO. Trial of the case ended in June 2005. The lawsuit sought to recover an unspecified amount

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

of health care costs for tobacco-related illnesses allegedly caused by defendants' fraudulent and tortious conduct and paid for by the government under various federal health care programs, including Medicare, military and veterans' health benefits programs, and the Federal Employees Health Benefits Program. The complaint alleged that such costs total more than \$20 billion annually. It also sought what it alleged to be equitable and declaratory relief, including disgorgement of profits that arose from defendants' allegedly tortious conduct, an injunction prohibiting certain actions by defendants, and a declaration that defendants are liable for the federal government's future costs of providing health care resulting from defendants' alleged past tortious and wrongful conduct. In September 2000, the trial court dismissed the government's MCRA and MSP claims, but permitted discovery to proceed on the government's claims for relief under the civil provisions of RICO.

The government alleged that disgorgement by defendants of approximately \$280 billion is an appropriate remedy and the trial court agreed. In February 2005, however, a panel of the U.S. Court of Appeals for the District of Columbia Circuit held that disgorgement is not a remedy available to the government under the civil provisions of RICO. In October 2005, the United States Supreme Court denied the government's petition for *writ of certiorari*.

In June 2005, the government filed with the trial court its proposed final judgment seeking remedies of approximately \$14 billion, including \$10 billion over a five-year period to fund a national smoking cessation program and \$4 billion over a 10-year period to fund a public education and counter-marketing campaign. Further, the government's proposed remedy would have required defendants to pay additional monies to these programs if targeted reductions in the smoking rate of those under 21 were not achieved according to a prescribed timetable. The government's proposed remedies also included a series of measures and restrictions applicable to cigarette business operations, including, but not limited to, restrictions on advertising and marketing, potential measures with respect to certain price promotional activities and research and development, disclosure requirements for certain confidential data and implementation of a monitoring system with potential broad powers over cigarette operations.

In August 2006, the federal trial court entered judgment in favor of the government. The court held that certain defendants, including Altria Group, Inc. and PM USA, violated RICO and engaged in seven of the eight "sub-schemes" to defraud that the government had alleged. Specifically, the court found that:

- defendants falsely denied, distorted and minimized the significant adverse health consequences of smoking;
- defendants hid from the public that cigarette smoking and nicotine are addictive;
- defendants falsely denied that they control the level of nicotine delivered to create and sustain addiction;
- defendants falsely marketed and promoted "low tar/light" cigarettes as less harmful than full-flavor cigarettes;
- defendants falsely denied that they intentionally marketed to youth;
- defendants publicly and falsely denied that ETS is hazardous to non-smokers; and
- defendants suppressed scientific research.

The court did not impose monetary penalties on defendants, but ordered the following relief: (i) an injunction against "committing any act of racketeering" relating to the manufacturing, marketing, promotion, health consequences or sale of cigarettes in the United States; (ii) an injunction against participating directly or indirectly in the management or control of the Council for Tobacco Research, the Tobacco Institute, or the Center for Indoor Air Research, or any successor or affiliated entities of each; (iii) an injunction against "making, or causing to be made in any way, any material false, misleading, or deceptive statement or representation or engaging in any public relations or marketing endeavor that is disseminated to the United States public and that misrepresents or suppresses information concerning cigarettes"; (iv) an injunction against conveying any express or implied health message through use of descriptors on cigarette packaging or in cigarette advertising or promotional material, including "lights," "ultra lights" and "low tar," which the court found could cause consumers to believe one cigarette brand is less hazardous than another brand; (v) the issuance of "corrective statements" in various media regarding the adverse health effects of smoking, the addictiveness of smoking and nicotine, the lack of any significant health benefit from smoking "low tar" or "light" cigarettes, defendants' manipulation of cigarette design to ensure optimum nicotine delivery and the adverse health effects of exposure to environmental tobacco

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

smoke; (vi) the disclosure on defendants' public document websites and in the Minnesota document repository of all documents produced to the government in the lawsuit or produced in any future court or administrative action concerning smoking and health until 2021, with certain additional requirements as to documents withheld from production under a claim of privilege or confidentiality; (vii) the disclosure of disaggregated marketing data to the government in the same form and on the same schedule as defendants now follow in disclosing such data to the Federal Trade Commission ("FTC") for a period of 10 years; (viii) certain restrictions on the sale or transfer by defendants of any cigarette brands, brand names, formulas or cigarette businesses within the United States; and (ix) payment of the government's costs in bringing the action.

Defendants appealed and, in May 2009, a three judge panel of the Court of Appeals for the District of Columbia Circuit issued a *per curiam* decision largely affirming the trial court's judgment against defendants and in favor of the government. Although the panel largely affirmed the remedial order that was issued by the trial court, it vacated the following aspects of the order:

- its application to defendants' subsidiaries;
- the prohibition on the use of express or implied health messages or health descriptors, but only to the extent of extraterritorial application;
- its point-of-sale display provisions; and
- its application to Brown & Williamson Holdings.

The Court of Appeals panel remanded the case for the trial court to reconsider these four aspects of the injunction and to reformulate its remedial order accordingly. Furthermore, the Court of Appeals panel rejected all of the government's and intervenors' cross-appeal arguments and refused to broaden the remedial order entered by the trial court. The Court of Appeals panel also left undisturbed its prior holding that the government cannot obtain disgorgement as a permissible remedy under RICO.

In July 2009, defendants filed petitions for a rehearing before the panel and for a rehearing by the entire Court of Appeals. Defendants also filed a motion to vacate portions of the trial court's judgment on the grounds of mootness because of the passage of the Family Smoking Prevention and Tobacco Control Act ("FSPTCA"), granting the U.S. Food and Drug Administration (the "FDA") broad authority over the regulation of tobacco products. In September 2009, the Court of Appeals entered three *per curiam* rulings. Two of them denied defendants' petitions for panel rehearing or for rehearing *en banc*. In the third *per curiam* decision, the Court of Appeals denied defendants' suggestion of mootness and motion for partial *vacatur*. In February 2010, PM USA and Altria Group, Inc. filed their *certiorari* petitions with the United States Supreme Court. In addition, the federal government and the intervenors filed their own *certiorari* petitions, asking the court to reverse an earlier Court of Appeals decision and hold that civil RICO allows the trial court to order disgorgement as well as other equitable relief, such as smoking cessation remedies, designed to redress continuing consequences of prior RICO violations. In June 2010, the United States Supreme Court denied all of the parties' petitions. In July 2010, the Court of Appeals issued its mandate lifting the stay of the trial court's judgment and remanding the case to the trial court. As a result of the mandate, except for those matters remanded to the trial court for further proceedings, defendants are now subject to the injunction discussed above and the other elements of the trial court's judgment.

In February 2011, the government submitted its proposed corrective statements and the trial court referred issues relating to a document repository to a special master. Defendants filed a response to the government's proposed corrective statements and filed a motion to vacate the trial court's injunction in light of the FSPTCA, which motion was denied in June 2011. Defendants appealed the trial court's ruling to the U.S. Court of Appeals for the District of Columbia Circuit. In July 2012, the Court of Appeals affirmed the district court's denial of defendants' motion to vacate the district court's injunction.

Remaining issues pending include: (i) the content of the court-ordered corrective communications and (ii) the requirements related to point-of-sale signage. In November 2012, the district court issued its order specifying the content of the corrective communications described above. The district court's order required the parties to engage in negotiations with the special master regarding implementation of the corrective communications remedy for television,

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

newspapers, cigarette pack inserts and websites. In January 2013, defendants filed a notice of appeal from the order on the content of the corrective communications and a motion to hold the appeal in abeyance pending completion of the negotiations, which the U.S. Court of Appeals granted in February 2013. In January 2014, the parties submitted a motion for entry of a consent order in the district court, setting forth their agreement on the implementation details of the corrective communications remedy. The agreement provides that the “trigger date” for implementation is after the appeal on the content of the communications has been exhausted. Also in January 2014, the district court convened a hearing and ordered further briefing. A number of *amici* who sought modification or rejection of the agreement for a variety of reasons were given leave to appear: National Newspaper Publishers Association, National Association of Black Owned Broadcasters, Inc., National Association for the Advancement of Colored People, The Little Rock Sun Community Newspaper, Turner Broadcasting System, Inc., The CW Network, LLC, Univision Communications Inc. (“Univision”), Radio One, Inc., TV One, LLC, Interactive One, LLC, Fox Broadcasting Company, Viacom Inc. and A&E Television Networks, LLC. In April 2014, the parties filed an amended proposed consent order and accompanying submission in the district court seeking entry of a revised agreement on the implementation details of the corrective communications remedy. On June 2, 2014, the district court approved the April 2014 proposed consent order. On June 25, 2014, defendants filed a notice of appeal of the consent order solely for the purpose of perfecting the U.S. Court of Appeals’ jurisdiction over the pending appeal relating to the content of the corrective communications and, on July 2, 2014, moved to consolidate this appeal with the appeal filed in January 2013. One of the *amici*, Univision, filed a motion seeking leave to reconsider the consent order, which the district court granted on July 7, 2014. On July 8, 2014, Univision filed its motion for reconsideration. In the second quarter of 2014, Altria Group, Inc. and PM USA recorded provisions on each of their respective balance sheets totaling \$31 million for the estimated costs of implementing the corrective communications remedy. This estimate is subject to change due to several factors, including the outcome of the appeal on the content of the corrective communications, though Altria Group, Inc. and PM USA do not expect any change in this estimate to be material.

The consent order approved by the district court on June 2, 2014 did not address the requirements related to point-of-sale signage. On May 15, 2014, the district court ordered further briefing by the parties on the issue of corrective statements on point-of-sale signage, which was completed on June 18, 2014.

In December 2011, the parties to the lawsuit entered into an agreement as to the issues concerning the document repository. Pursuant to this agreement, PM USA agreed to deposit an amount of approximately \$3.1 million into the district court in installments over a five-year period.

“Lights/Ultra Lights” Cases

Overview

Plaintiffs in certain pending matters seek certification of their cases as class actions and allege, among other things, that the uses of the terms “Lights” and/or “Ultra Lights” constitute deceptive and unfair trade practices, common law or statutory fraud, unjust enrichment or breach of warranty, and seek injunctive and equitable relief, including restitution and, in certain cases, punitive damages. These class actions have been brought against PM USA and, in certain instances, Altria Group, Inc. or its subsidiaries, on behalf of individuals who purchased and consumed various brands of cigarettes, including *Marlboro Lights*, *Marlboro Ultra Lights*, *Virginia Slims Lights* and *Superslims*, *Merit Lights* and *Cambridge Lights*. Defenses raised in these cases include lack of misrepresentation, lack of causation, injury and damages, the statute of limitations, non-liability under state statutory provisions exempting conduct that complies with federal regulatory directives, and the First Amendment. As of July 18, 2014, a total of 14 such cases are pending in the United States. Two of these cases are pending in U.S. federal courts as discussed below. The other cases are pending in various U.S. state courts. In addition, a purported “Lights” class action is pending against PM USA in Israel (*El-Roy*).

In *El-Roy*, hearings on plaintiffs’ motion for class certification were held in November and December 2008, and an additional hearing on class certification was held in November 2011. In November 2012, the trial court denied the plaintiffs’ motion for class certification and ordered the plaintiffs to pay defendants approximately \$100,000 in attorney fees. Plaintiffs in that case have noticed an appeal. Oral argument at the Israel Supreme Court is scheduled for September 18, 2014. See *Guarantees and Other Similar Matters* below for a discussion of the Distribution Agreement between Altria Group, Inc. and PMI that provides for indemnities for certain liabilities concerning tobacco products.

The Good Case

In May 2006, a federal trial court in Maine granted PM USA's motion for summary judgment in *Good*, a purported "Lights" class action, on the grounds that plaintiffs' claims are preempted by the Federal Cigarette Labeling and Advertising Act ("FCLAA") and dismissed the case. In December 2008, the United States Supreme Court ruled that plaintiffs' claims are not barred by federal preemption. Although the Court rejected the argument that the FTC's actions were so extensive with respect to the descriptors that the state law claims were barred as a matter of federal law, the Court's decision was limited: it did not address the ultimate merits of plaintiffs' claim, the viability of the action as a class action or other state law issues. The case was returned to the federal court in Maine and consolidated with other federal cases in the multidistrict litigation proceeding discussed below. In June 2011, the plaintiffs voluntarily dismissed the case without prejudice after the district court denied plaintiffs' motion for class certification, concluding the litigation.

Federal Multidistrict Proceeding and Subsequent Developments

Since the December 2008 United States Supreme Court decision in *Good*, and through July 18, 2014, 26 purported "Lights" class actions were served upon PM USA and, in certain cases, Altria Group, Inc. These cases were filed in 15 states, the U.S. Virgin Islands and the District of Columbia. All of these cases either were filed in federal court or were removed to federal court by PM USA and were transferred and consolidated by the Judicial Panel on Multidistrict Litigation ("JPMDL") before the U.S. District Court for the District of Maine for pretrial proceedings ("MDL proceeding").

In November 2010, the district court in the MDL proceeding denied plaintiffs' motion for class certification in four cases, covering the jurisdictions of California, the District of Columbia, Illinois and Maine. These jurisdictions were selected by the parties as sample cases, with two selected by plaintiffs and two selected by defendants. Plaintiffs sought appellate review of this decision but, in February 2011, the U.S. Court of Appeals for the First Circuit denied plaintiffs' petition for leave to appeal. Later that year, plaintiffs in 13 cases voluntarily dismissed without prejudice their cases. In April 2012, the JPMDL remanded the remaining four cases (*Phillips*, *Tang*, *Wyatt* and *Cabbat*) back to the federal district courts in which the suits originated. In *Tang*, which was pending in the U.S. District Court for the Eastern District of New York, the plaintiffs voluntarily dismissed the case without prejudice in July 2012, concluding the litigation.

In *Phillips*, which was pending in the U.S. District Court for the Northern District of Ohio, defendants filed in June 2012 a motion for partial judgment on the pleadings on plaintiffs' class action consumer sales practices claims and a motion for judgment on the pleadings on plaintiffs' state deceptive trade practices claims. In March 2013, the court granted defendants' motions, dismissing with prejudice the associated claims. In April 2013, defendants filed a motion for judgment on the pleadings on the class component of plaintiffs' claims for fraud and unjust enrichment. Plaintiffs filed a motion for class certification in August 2013, which the court heard in October 2013. In November 2013, the district court, upon agreement of the parties, dismissed Altria Group, Inc. without prejudice, leaving PM USA as the sole defendant in the case. In February 2014, the district court denied class certification and denied as moot defendant's motion for judgment on the pleadings on the class component of plaintiffs' claims for fraud and unjust enrichment. Trial on the plaintiff's individual claim was set for June 8, 2015. PM USA made an offer of judgment to resolve the case for \$6,000, which plaintiff accepted. As a result, on July 2, 2014, the U.S. District Court for the Northern District of Ohio dismissed the case, concluding the litigation.

In *Cabbat*, a case in the U.S. District Court for the District of Hawaii, plaintiffs amended their complaint in July 2012, adding a claim for unjust enrichment and dropping their claims for breach of express and implied warranty. Plaintiffs filed a motion for class certification in April 2013. In January 2014, the trial court denied the class certification motion and vacated the February 2014 trial date. Plaintiffs petitioned the U.S. Court of Appeals for the Ninth Circuit for appellate review of the class certification decision, which was denied in April 2014. On June 4, 2014, the U.S. Court of Appeals for the Ninth Circuit denied plaintiffs' petition for reconsideration and reconsideration *en banc*.

In *Wyatt*, which is pending in the U.S. District Court for the Eastern District of Wisconsin, plaintiffs filed a motion for class certification in January 2013, which the court denied in August 2013. Also in August 2013, plaintiffs filed a petition for appeal to the U.S. Court of Appeals for the Seventh Circuit, which the court denied in September 2013. In October 2013, plaintiffs filed a motion in the district court seeking reconsideration of the denial of class certification, which the district court denied on May 28, 2014.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

“Lights” Cases Dismissed, Not Certified or Ordered De-Certified

To date, in addition to the federal district court in the MDL proceeding, 18 courts in 19 “Lights” cases have refused to certify class actions, dismissed class action allegations, reversed prior class certification decisions or have entered judgment in favor of PM USA.

Trial courts in Arizona, Hawaii, Illinois, Kansas, New Jersey, New Mexico, Ohio, Tennessee, Washington and Wisconsin have refused to grant class certification or have dismissed plaintiffs’ class action allegations. Plaintiffs voluntarily dismissed a case in Michigan after a trial court dismissed the claims plaintiffs asserted under the Michigan Unfair Trade and Consumer Protection Act.

Several appellate courts have issued rulings that either affirmed rulings in favor of Altria Group, Inc. and/or PM USA or reversed rulings entered in favor of plaintiffs. In Florida, an intermediate appellate court overturned an order by a trial court that granted class certification in *Hines*. The Florida Supreme Court denied review in January 2008. The Supreme Court of Illinois has overturned a judgment that awarded damages to a certified class in the *Price* case. See *The Price Case* below for further discussion. In Louisiana, the U.S. Court of Appeals for the Fifth Circuit dismissed a purported “Lights” class action brought in Louisiana federal court (*Sullivan*) on the grounds that plaintiffs’ claims were preempted by the FCLAA. In New York, the U.S. Court of Appeals for the Second Circuit overturned a decision by a New York trial court in *Schwab* that granted plaintiffs’ motion for certification of a nationwide class of all U.S. residents that purchased cigarettes in the United States that were labeled “Light” or “Lights.” In July 2010, plaintiffs in *Schwab* voluntarily dismissed the case with prejudice. In Ohio, the Ohio Supreme Court overturned class certifications in the *Marrone* and *Phillips* cases. Plaintiffs voluntarily dismissed without prejudice both cases in August 2009, but refiled in federal court as the *Phillips* case (discussed above). The Supreme Court of Washington denied a motion for interlocutory review filed by the plaintiffs in the *Davies* case that sought review of an order by the trial court that refused to certify a class. Plaintiffs subsequently voluntarily dismissed the *Davies* case with prejudice. In August 2011, the U.S. Court of Appeals for the Seventh Circuit affirmed the Illinois federal district court’s dismissal of “Lights” claims brought against PM USA in the *Cleary* case. In *Curtis*, a certified class action, in May 2012, the Minnesota Supreme Court affirmed the trial court’s entry of summary judgment in favor of PM USA, concluding this litigation.

In *Lawrence*, in August 2012, the New Hampshire Supreme Court reversed the trial court’s order to certify a class and subsequently denied plaintiffs’ rehearing petition. In October 2012, the case was dismissed after plaintiffs filed a motion to dismiss the case with prejudice, concluding this litigation.

State Trial Court Class Certifications

State trial courts have certified classes against PM USA in several jurisdictions. Over time, several such cases have been dismissed by the courts at the summary judgment stage. Certified class actions remain pending at the trial or appellate level in California (*Brown*), Massachusetts (*Aspinall*), Missouri (*Larsen*) and Arkansas (*Miner*). Significant developments in these cases include:

- *Aspinall*: In August 2004, the Massachusetts Supreme Judicial Court affirmed the class certification order. In August 2006, the trial court denied PM USA’s motion for summary judgment and granted plaintiffs’ cross-motion for summary judgment on the defenses of federal preemption and a state law exemption to Massachusetts’ consumer protection statute. On motion of the parties, the trial court subsequently reported its decision to deny summary judgment to the appeals court for review and stayed further proceedings pending completion of the appellate review. In March 2009, the Massachusetts Supreme Judicial Court affirmed the order denying summary judgment to PM USA and granting the plaintiffs’ cross-motion. In January 2010, plaintiffs moved for partial summary judgment as to liability claiming collateral estoppel from the findings in the case brought by the Department of Justice (see *Health Care Cost Recovery Litigation - Federal Government’s Lawsuit* described above). In March 2012, the trial court denied plaintiffs’ motion. In February 2013, the trial court, upon agreement of the parties, dismissed without prejudice plaintiffs’ claims against Altria Group, Inc. PM USA is now the sole defendant in the case. In September 2013, the case was transferred to the Business Litigation Session of the Massachusetts Superior Court. Also in September 2013, plaintiffs filed a motion for partial summary judgment on the scope of remedies available in the case, which the Massachusetts Superior Court denied in February 2014, concluding that plaintiffs cannot obtain disgorgement of profits as an equitable remedy and that their recovery is limited to actual damages or \$25 per class member if they cannot prove actual

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

damages greater than \$25. Plaintiffs filed a motion asking the trial court to report its February 2014 ruling to the Massachusetts Appeals Court for review, which the trial court denied. In March 2014, plaintiffs petitioned the Massachusetts Appeals Court for review of the ruling, which the appellate court denied. No trial date has been set.

- *Brown*: In June 1997, plaintiffs filed suit in California state court alleging that domestic cigarette manufacturers, including PM USA and others, violated California law regarding unfair, unlawful and fraudulent business practices. In May 2009, the California Supreme Court reversed an earlier trial court decision that decertified the class and remanded the case to the trial court. At that time, the class consisted of individuals who, at the time they were residents of California, (i) smoked in California one or more cigarettes manufactured by PM USA that were labeled and/or advertised with the terms or phrases “light,” “medium,” “mild,” “low tar,” and/or “lowered tar and nicotine,” but not including any cigarettes labeled or advertised with the terms or phrases “ultra light” or “ultra low tar,” and (ii) who were exposed to defendant’s marketing and advertising activities in California. Plaintiffs are seeking restitution of a portion of the costs of “light” cigarettes purchased during the class period and injunctive relief ordering corrective communications. In September 2012, at the plaintiffs’ request, the trial court dismissed all defendants except PM USA from the lawsuit. Trial began in April 2013. In May 2013 the plaintiffs redefined the class to include California residents who smoked in California one or more of defendant’s *Marlboro* Lights cigarettes between January 1, 1998 and April 23, 2001, and who were exposed to defendant’s marketing and advertising activities in California. In June 2013, PM USA filed a motion to decertify the class. Trial concluded in July 2013. In September 2013, the court issued a final Statement of Decision, in which the court found that PM USA violated California law, but that plaintiffs had not established a basis for relief. On this basis, the court granted judgment for PM USA. The court also denied PM USA’s motion to decertify the class. In October 2013, the court entered final judgment in favor of PM USA. In November 2013, plaintiffs moved for a new trial, which the court denied. In December 2013, plaintiffs filed a notice of appeal and PM USA filed a conditional cross-appeal. In February 2014, the trial court awarded PM USA \$764,553 in costs. Also in February 2014, plaintiffs appealed the costs award.
- *Larsen*: In August 2005, a Missouri Court of Appeals affirmed the class certification order. In December 2009, the trial court denied plaintiffs’ motion for reconsideration of the period during which potential class members can qualify to become part of the class. The class period remains 1995 - 2003. In June 2010, PM USA’s motion for partial summary judgment regarding plaintiffs’ request for punitive damages was denied. In April 2010, plaintiffs moved for partial summary judgment as to an element of liability in the case, claiming collateral estoppel from the findings in the case brought by the Department of Justice (see *Health Care Cost Recovery Litigation - Federal Government’s Lawsuit* described above). The plaintiffs’ motion was denied in December 2010. In June 2011, PM USA filed various summary judgment motions challenging the plaintiffs’ claims. In August 2011, the trial court granted PM USA’s motion for partial summary judgment, ruling that plaintiffs could not present a damages claim based on allegations that *Marlboro* Lights are more dangerous than *Marlboro* Reds. The trial court denied PM USA’s remaining summary judgment motions. Trial in the case began in September 2011 and, in October 2011, the court declared a mistrial after the jury failed to reach a verdict. In January 2014, the trial court reversed its prior ruling granting partial summary judgment against plaintiffs’ “more dangerous” claim and allowed plaintiffs to pursue that claim. The trial court has set alternative dates for the re-trial, with one possible date being January 20, 2015 and the other being March 16, 2015.
- *Miner*: In June 2007, the United States Supreme Court reversed the lower court rulings in *Miner* (formerly known as *Watson*) that denied plaintiffs’ motion to have the case heard in a state, as opposed to federal, trial court. The Supreme Court rejected defendants’ contention that the case must be tried in federal court under the “federal officer” statute. Following remand, the case was removed again to federal court in Arkansas and transferred to the MDL proceeding discussed above. In November 2010, the district court in the MDL proceeding remanded the case to Arkansas state court. In December 2011, plaintiffs voluntarily dismissed their claims against Altria Group, Inc. without prejudice. In March 2013, plaintiffs filed a class certification motion. In November 2013, the trial court granted class certification. The certified class includes those individuals who, from November 1, 1971 through June 22, 2010, purchased *Marlboro* Lights, including *Marlboro* Ultra Lights, for personal consumption in Arkansas. PM USA filed a notice of appeal of the class certification ruling to the Arkansas Supreme Court in December 2013.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Other Developments

In Oregon (*Pearson*), a state court denied plaintiffs' motion for interlocutory review of the trial court's refusal to certify a class. In February 2007, PM USA filed a motion for summary judgment based on federal preemption and the Oregon statutory exemption. In September 2007, the district court granted PM USA's motion based on express preemption under the FCLAA, and plaintiffs appealed this dismissal and the class certification denial to the Oregon Court of Appeals. Argument was held in April 2010. In June 2013, the Oregon Court of Appeals reversed the trial court's denial of class certification and remanded to the trial court for further consideration of class certification. In July 2013, PM USA filed a petition for reconsideration with the Oregon Court of Appeals, which was denied in August 2013. PM USA filed its petition for review to the Oregon Supreme Court in October 2013, which the court accepted in January 2014. Oral argument occurred on June 23, 2014.

In December 2009, the state trial court in *Carroll* (formerly known as *Holmes*) (pending in Delaware) denied PM USA's motion for summary judgment based on an exemption provision in the Delaware Consumer Fraud Act. In January 2011, the trial court allowed the plaintiffs to file an amended complaint substituting class representatives and naming Altria Group, Inc. and PMI as additional defendants. In July 2011, the parties stipulated to the dismissal without prejudice of Altria Group, Inc. and PMI. In February 2013, the trial court approved the parties' stipulation to the dismissal without prejudice of Altria Group, Inc. and PMI, leaving PM USA as the sole defendant in the case.

The Price Case

Trial in *Price* commenced in state court in Illinois in January 2003 and, in March 2003, the judge found in favor of the plaintiff class and awarded \$7.1 billion in compensatory damages and \$3.0 billion in punitive damages against PM USA. In December 2005, the Illinois Supreme Court reversed the trial court's judgment in favor of the plaintiffs. In November 2006, the United States Supreme Court denied plaintiffs' petition for writ of certiorari and, in December 2006, the Circuit Court of Madison County enforced the Illinois Supreme Court's mandate and dismissed the case with prejudice.

In December 2008, plaintiffs filed with the trial court a petition for relief from the final judgment that was entered in favor of PM USA. Specifically, plaintiffs sought to vacate the judgment entered by the trial court on remand from the 2005 Illinois Supreme Court decision overturning the verdict on the ground that the United States Supreme Court's December 2008 decision in *Good* demonstrated that the Illinois Supreme Court's decision was "inaccurate." PM USA filed a motion to dismiss plaintiffs' petition and, in February 2009, the trial court granted PM USA's motion on the basis that the petition was not timely filed. In March 2009, the *Price* plaintiffs filed a notice of appeal with the Fifth Judicial District of the Appellate Court of Illinois. In February 2011, the intermediate appellate court ruled that the petition was timely filed and reversed the trial court's dismissal of the plaintiffs' petition and, in September 2011, the Illinois Supreme Court declined PM USA's petition for review. As a result, the case was returned to the trial court for proceedings on whether the court should grant the plaintiffs' petition to reopen the prior judgment. In February 2012, plaintiffs filed an amended petition, which PM USA opposed. Subsequently, in responding to PM USA's opposition to the amended petition, plaintiffs asked the trial court to reinstate the original judgment. The trial court denied plaintiffs' petition in December 2012. In January 2013, plaintiffs filed a notice of appeal with the Fifth Judicial District. In January 2013, PM USA filed a motion asking the Illinois Supreme Court to immediately exercise its jurisdiction over the appeal. In February 2013, the Illinois Supreme Court denied PM USA's motion. Oral argument on plaintiffs' appeal to the Fifth Judicial District was heard in October 2013. On April 29, 2014, the Fifth Judicial District reversed and ordered reinstatement of the original \$10.1 billion trial court judgment against PM USA. On May 12, 2014, PM USA filed in the Illinois Supreme Court a petition for a supervisory order and a petition for leave to appeal. The filing of the petition for leave to appeal automatically stayed the Fifth District's mandate pending disposition by the Illinois Supreme Court. On May 28, 2014, plaintiff filed a motion seeking recusal of Justice Karneier, one of the Illinois Supreme Court justices, which PM USA opposed.

In June 2009, the plaintiff in an individual smoker lawsuit (*Kelly*) brought on behalf of an alleged smoker of "Lights" cigarettes in Madison County, Illinois state court filed a motion seeking a declaration that his claims under the Illinois Consumer Fraud Act are not (i) barred by the exemption in that statute based on his assertion that the Illinois Supreme Court's decision in *Price* is no longer good law in light of the decisions by the United States Supreme Court in *Good* and *Watson*, and (ii) preempted in light of the United States Supreme Court's decision in *Good*. In September 2009, the court granted plaintiff's motion as to federal preemption, but denied it with respect to the state statutory exemption.

Certain Other Tobacco-Related Litigation

Tobacco Price Case

One case remains pending in Kansas (*Smith*) in which plaintiffs allege that defendants, including PM USA and Altria Group, Inc., conspired to fix cigarette prices in violation of antitrust laws. Plaintiffs' motion for class certification was granted. In March 2012, the trial court granted defendants' motions for summary judgment. Plaintiffs sought the trial court's reconsideration of its decision, but in June 2012, the trial court denied plaintiffs' motion for reconsideration. Plaintiffs have appealed the decision, and defendants have cross-appealed the trial court's class certification decision, to the Court of Appeals of Kansas. On July 18, 2014, the Court of Appeals affirmed the entry of summary judgment in favor of defendants.

Ignition Propensity Cases

PM USA and Altria Group, Inc. are currently facing litigation alleging that a fire caused by cigarettes led to individuals' deaths. In a Kentucky case (*Walker*), the federal district court denied plaintiffs' motion to remand the case to state court and dismissed plaintiffs' claims in February 2009. Plaintiffs subsequently filed a notice of appeal. In October 2011, the U.S. Court of Appeals for the Sixth Circuit reversed the portion of the district court decision that denied remand of the case to Kentucky state court and remanded the case to Kentucky state court. The Sixth Circuit did not address the merits of the district court's dismissal order. Defendants' petition for rehearing with the Sixth Circuit was denied in December 2011. Defendants filed a renewed motion to dismiss in state court in March 2013. Based on new evidence, in June 2013, defendants removed the case for a second time to the U.S. District Court for the Western District of Kentucky and re-filed their motion to dismiss in June 2013. In July 2013, plaintiffs filed a motion to remand the case to Kentucky state court, which was granted in March 2014.

False Claims Act Case

PM USA is a defendant in a *qui tam* action filed in the U.S. District Court for the District of Columbia (*United States ex rel. Anthony Oliver*) alleging violation of the False Claims Act in connection with sales of cigarettes to the U.S. military. The relator contends that PM USA violated "most favored customer" provisions in government contracts and regulations by selling cigarettes to non-military customers in overseas markets at more favorable prices than it sold to the U.S. military exchange services for resale on overseas military bases in those same markets. The relator has dropped Altria Group, Inc. as a defendant and has dropped claims related to post-MSA price increases on cigarettes sold to the U.S. military. In July 2012, PM USA filed a motion to dismiss, which was granted in June 2013, and the case was dismissed with prejudice. In July 2013, the relator appealed the dismissal to the U.S. Court of Appeals for the D.C. Circuit. Oral argument occurred on May 7, 2014.

Argentine Grower Cases

PM USA and Altria Group, Inc. are named as defendants in six cases (*Hupan, Chalanuk, Rodriguez Da Silva, Aranda, Taborda* and *Biglia*) filed in Delaware state court against multiple defendants by the parents of Argentine children born with alleged birth defects. Plaintiffs in these cases allege that they grew tobacco in Argentina under contract with Tabacos Norte S.A., an alleged subsidiary of PMI, and that they and their infant children were exposed directly and *in utero* to hazardous herbicides and pesticides used in the production and cultivation of tobacco. Plaintiffs seek compensatory and punitive damages against all defendants. In December 2012, Altria Group, Inc. and certain other defendants were dismissed from the *Hupan, Chalanuk* and *Rodriguez Da Silva* cases. Altria Group, Inc. and certain other defendants were dismissed from *Aranda, Taborda* and *Biglia* in May 2013, October 2013 and February 2014, respectively. The three remaining defendants in the six cases are PM USA, Philip Morris Global Brands (a subsidiary of PMI) and Monsanto Company. Following discussions regarding indemnification for these cases pursuant to the Distribution Agreement between PMI and Altria Group, Inc., PMI and PM USA have agreed to resolve conflicting indemnity demands after final judgments are entered. See *Guarantees and Other Similar Matters* below for a discussion of the Distribution Agreement. On April 29, 2014, all three defendants in the *Hupan* case filed motions to dismiss for failure to state a claim, and PM USA and Philip Morris Global Brands filed separate motions to dismiss based on the doctrine of *forum non conveniens*. All proceedings in the other five cases are currently stayed pending the court's resolution of the motions to dismiss filed in *Hupan*.

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

UST Litigation

Claims related to smokeless tobacco products generally fall within the following categories:

First, UST and/or its tobacco subsidiaries has been named in certain actions in West Virginia (See *In re: Tobacco Litigation* above) brought by or on behalf of individual plaintiffs against cigarette manufacturers, smokeless tobacco manufacturers and other organizations seeking damages and other relief in connection with injuries allegedly sustained as a result of tobacco usage, including smokeless tobacco products. Included among the plaintiffs are five individuals alleging use of USSTC's smokeless tobacco products and alleging the types of injuries claimed to be associated with the use of smokeless tobacco products. USSTC, along with other non-cigarette manufacturers, has remained severed from such proceedings since December 2001.

Second, UST and/or its tobacco subsidiaries has been named in a number of other individual tobacco and health suits over time. Plaintiffs' allegations of liability in these cases are based on various theories of recovery, such as negligence, strict liability, fraud, misrepresentation, design defect, failure to warn, breach of implied warranty, addiction and breach of consumer protection statutes. Plaintiffs seek various forms of relief, including compensatory and punitive damages, and certain equitable relief, including but not limited to disgorgement. Defenses raised in these cases include lack of causation, assumption of the risk, comparative fault and/or contributory negligence, and statutes of limitations. USSTC is currently named in one such action in Florida (*Vassallo*), in which no trial date has yet been set.

Environmental Regulation

Altria Group, Inc. and its subsidiaries (and former subsidiaries) are subject to various federal, state and local laws and regulations concerning the discharge of materials into the environment, or otherwise related to environmental protection, including, in the United States: The Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act and the Comprehensive Environmental Response, Compensation and Liability Act (commonly known as "Superfund"), which can impose joint and several liability on each responsible party. Subsidiaries (and former subsidiaries) of Altria Group, Inc. are involved in several matters subjecting them to potential costs of remediation and natural resource damages under Superfund or other laws and regulations. Altria Group, Inc.'s subsidiaries expect to continue to make capital and other expenditures in connection with environmental laws and regulations.

Altria Group, Inc. provides for expenses associated with environmental remediation obligations on an undiscounted basis when such amounts are probable and can be reasonably estimated. Such accruals are adjusted as new information develops or circumstances change. Other than those amounts, it is not possible to reasonably estimate the cost of any environmental remediation and compliance efforts that subsidiaries of Altria Group, Inc. may undertake in the future. In the opinion of management, however, compliance with environmental laws and regulations, including the payment of any remediation costs or damages and the making of related expenditures, has not had, and is not expected to have, a material adverse effect on Altria Group, Inc.'s consolidated results of operations, capital expenditures, financial position or cash flows.

Guarantees and Other Similar Matters

In the ordinary course of business, certain subsidiaries of Altria Group, Inc. have agreed to indemnify a limited number of third parties in the event of future litigation. At June 30, 2014, Altria Group, Inc. and certain of its subsidiaries (i) had \$70 million of unused letters of credit obtained in the ordinary course of business; (ii) were contingently liable for \$33 million of guarantees, consisting primarily of surety bonds, related to their own performance; and (iii) had a redeemable noncontrolling interest of \$34 million recorded on its condensed consolidated balance sheet. In addition, from time to time, subsidiaries of Altria Group, Inc. issue lines of credit to affiliated entities. These items have not had, and are not expected to have, a significant impact on Altria Group, Inc.'s liquidity.

Under the terms of a distribution agreement between Altria Group, Inc. and PMI (the "Distribution Agreement"), entered into as a result of Altria Group, Inc.'s 2008 spin-off of its former subsidiary PMI, liabilities concerning tobacco products will be allocated based in substantial part on the manufacturer. PMI will indemnify Altria Group, Inc. and PM USA for liabilities related to tobacco products manufactured by PMI or contract manufactured for PMI by PM USA, and PM USA will indemnify PMI for liabilities related to tobacco products manufactured by PM USA, excluding tobacco products

Altria Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Unaudited)

contract manufactured for PMI. Altria Group, Inc. does not have a related liability recorded on its condensed consolidated balance sheet at June 30, 2014 as the fair value of this indemnification is insignificant.

As more fully discussed in Note 10. *Condensed Consolidating Financial Information*, PM USA has issued guarantees relating to Altria Group, Inc.'s obligations under its outstanding debt securities, borrowings under its \$3.0 billion senior unsecured 5-year revolving credit agreement (the "Credit Agreement") and amounts outstanding under its commercial paper program.

Note 10. Condensed Consolidating Financial Information:

PM USA, which is a wholly-owned subsidiary of Altria Group, Inc., has guaranteed Altria Group, Inc.'s obligations under its outstanding debt securities, borrowings under the Credit Agreement and amounts outstanding under its commercial paper program (the "Guarantees"). Pursuant to the Guarantees, PM USA fully and unconditionally guarantees, as primary obligor, the payment and performance of Altria Group, Inc.'s obligations under the guaranteed debt instruments (the "Obligations"), subject to release under certain customary circumstances as noted below.

The Guarantees provide that PM USA guarantees the punctual payment when due, whether at stated maturity, by acceleration or otherwise, of the Obligations. The liability of PM USA under the Guarantees is absolute and unconditional irrespective of: any lack of validity, enforceability or genuineness of any provision of any agreement or instrument relating thereto; any change in the time, manner or place of payment of, or in any other term of, all or any of the Obligations, or any other amendment or waiver of or any consent to departure from any agreement or instrument relating thereto; any exchange, release or non-perfection of any collateral, or any release or amendment or waiver of or consent to departure from any other guarantee, for all or any of the Obligations; or any other circumstance that might otherwise constitute a defense available to, or a discharge of, Altria Group, Inc. or PM USA.

The obligations of PM USA under the Guarantees are limited to the maximum amount as will, after giving effect to such maximum amount and all other contingent and fixed liabilities of PM USA that are relevant under Bankruptcy Law, the Uniform Fraudulent Conveyance Act, the Uniform Fraudulent Transfer Act or any similar federal or state law to the extent applicable to the Guarantees, result in PM USA's obligations under the Guarantees not constituting a fraudulent transfer or conveyance. For this purpose, "Bankruptcy Law" means Title 11, U.S. Code, or any similar federal or state law for the relief of debtors.

PM USA will be unconditionally released and discharged from the Obligations upon the earliest to occur of:

- the date, if any, on which PM USA consolidates with or merges into Altria Group, Inc. or any successor;
- the date, if any, on which Altria Group, Inc. or any successor consolidates with or merges into PM USA;
- the payment in full of the Obligations pertaining to such Guarantees; and
- the rating of Altria Group, Inc.'s long-term senior unsecured debt by Standard & Poor's of A or higher.

At June 30, 2014, the respective principal wholly-owned subsidiaries of Altria Group, Inc. and PM USA were not limited by long-term debt or other agreements in their ability to pay cash dividends or make other distributions with respect to their common stock.

The following sets forth the condensed consolidating balance sheets as of June 30, 2014 and December 31, 2013, condensed consolidating statements of earnings and comprehensive earnings for the six and three months ended June 30, 2014 and 2013, and condensed consolidating statements of cash flows for the six months ended June 30, 2014 and 2013 for Altria Group, Inc., PM USA and Altria Group, Inc.'s other subsidiaries that are not guarantors of Altria Group, Inc.'s debt instruments (the "Non-Guarantor Subsidiaries"). The financial information is based on Altria Group, Inc.'s understanding of the Securities and Exchange Commission ("SEC") interpretation and application of Rule 3-10 of SEC Regulation S-X.

The financial information may not necessarily be indicative of results of operations or financial position had PM USA and the Non-Guarantor Subsidiaries operated as independent entities. Altria Group, Inc. and PM USA account for investments in their subsidiaries under the equity method of accounting.

Note 11. Recent Accounting Guidance Not Yet Adopted

On May 28, 2014, the Financial Accounting Standards Board issued authoritative guidance for recognizing revenue from contracts with customers. The objective of this guidance is to establish principles for reporting information about the nature, amount, timing, and uncertainty of revenue and cash flows arising from an entity's contracts with customers. For Altria Group, Inc., the new guidance will be effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. Altria Group, Inc. is in the process of evaluating the impact of this guidance.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Description of the Company

At June 30, 2014, Altria Group, Inc.'s wholly-owned subsidiaries included Philip Morris USA Inc. ("PM USA"), which is engaged in the manufacture and sale of cigarettes and certain smokeless tobacco products in the United States; John Middleton Co. ("Middleton"), which is engaged in the manufacture and sale of machine-made large cigars and pipe tobacco, and is a wholly-owned subsidiary of PM USA; and UST LLC ("UST"), which through its wholly-owned subsidiaries, including U.S. Smokeless Tobacco Company LLC ("USSTC") and Ste. Michelle Wine Estates Ltd. ("Ste. Michelle"), is engaged in the manufacture and sale of smokeless tobacco products and wine. Altria Group, Inc.'s other operating companies included Nu Mark LLC ("Nu Mark"), a wholly-owned subsidiary, which is engaged in the manufacture and sale of innovative tobacco products, and Philip Morris Capital Corporation ("PMCC"), a wholly-owned subsidiary, which maintains a portfolio of leveraged and direct finance leases. Other Altria Group, Inc. wholly-owned subsidiaries included Altria Group Distribution Company, which provides sales, distribution and consumer engagement services to Altria Group, Inc.'s operating subsidiaries, and Altria Client Services Inc., which provides various support services, such as legal, regulatory, finance, human resources and external affairs, to Altria Group, Inc.'s operating subsidiaries. In addition, Nu Mark and its subsidiaries, and Middleton use third-party contract manufacturing arrangements in the manufacture of their products. Altria Group, Inc.'s access to the operating cash flows of its wholly-owned subsidiaries consists of cash received from the payment of dividends and distributions, and the payment of interest on intercompany loans by its subsidiaries. At June 30, 2014, Altria Group, Inc.'s principal wholly-owned subsidiaries were not limited by long-term debt or other agreements in their ability to pay cash dividends or make other distributions with respect to their common stock.

At June 30, 2014, Altria Group, Inc. also held approximately 27% of the economic and voting interest of SABMiller plc ("SABMiller"), which Altria Group, Inc. accounts for under the equity method of accounting. Altria Group, Inc. receives cash dividends on its interest in SABMiller if and when SABMiller pays such dividends.

Altria Group, Inc.'s reportable segments are smokeable products, smokeless products and wine. The financial services and the alternative products businesses are included in an all other category.

Certain prior-period amounts have been reclassified to conform with the current-period presentation, due primarily to the reclassification of changes in book overdrafts on Altria Group, Inc.'s condensed consolidated statements of cash flows to operating activities. These amounts were previously classified as financing activities.

Executive Summary

The following executive summary is intended to provide significant highlights of the *Discussion and Analysis* that follows.

Consolidated Results of Operations for the Six Months Ended June 30, 2014: The changes in Altria Group, Inc.'s net earnings and diluted earnings per share ("EPS") attributable to Altria Group, Inc. for the six months ended June 30, 2014, from the six months ended June 30, 2013, were due primarily to the following:

	Net Earnings	Diluted EPS
	(in millions, except per share data)

Fewer shares outstanding	—	0.01
Change in tax rate	21	0.01
Operations	76	0.04
For the six months ended June 30, 2014	\$ 2,437	\$ 1.23

See the discussion of events affecting the comparability of statement of earnings amounts in the *Consolidated Operating Results* section of the following *Discussion and Analysis*.

Fewer Shares Outstanding: Fewer shares outstanding during the six months ended June 30, 2014 compared with the prior-year period were due primarily to shares repurchased by Altria Group, Inc. under its share repurchase programs.

Operations: The increase of \$76 million in operations shown in the table above was due primarily to the following:

- higher income from the smokeable products and smokeless products segments; and
- lower interest and other debt expense, net;

partially offset by:

- lower income from the financial services business;
- higher investment spending in the alternative products businesses; and
- lower earnings from Altria Group, Inc.'s equity investment in SABMiller.

For further details, see the *Consolidated Operating Results* and *Operating Results by Business Segment* sections of the following *Discussion and Analysis*.

[Table of Contents](#)

Consolidated Results of Operations for the Three Months Ended June 30, 2014: The changes in Altria Group, Inc.'s net earnings and diluted EPS attributable to Altria Group, Inc. for the three months ended June 30, 2014, from the three months ended June 30, 2013, were due primarily to the following:

	Net Earnings	Diluted EPS
	(in millions, except per share data)	
For the three months ended June 30, 2013	\$ 1,266	\$ 0.63
2013 NPM Adjustment Items	(23)	(0.01)
2013 SABMiller special items	(2)	—
Subtotal 2013 special items	(25)	(0.01)

2014 Tobacco and health litigation items	(20)	(0.01)
2014 SABMiller special items	(15)	(0.01)
Subtotal 2014 special items	(20)	(0.01)
Fewer shares outstanding	—	0.01
Change in tax rate	11	—
Operations	30	0.02
For the three months ended June 30, 2014	\$ 1,262	\$ 0.64

See the discussion of events affecting the comparability of statement of earnings amounts in the Consolidated Operating Results section of the following Discussion and Analysis.

Fewer Shares Outstanding: Fewer shares outstanding during the three months ended June 30, 2014 compared with the prior-year period were due primarily to shares repurchased by Altria Group, Inc. under its April 2013 share repurchase program.

Operations: The increase of \$30 million in operations shown in the table above was due primarily to the following:

- higher income from the smokeable products and smokeless products segments; and
- lower interest and other debt expense, net;

partially offset by:

- higher investment spending in the alternative products businesses; and
- lower income from the financial services business.

For further details, see the Consolidated Operating Results and Operating Results by Business Segment sections of the following Discussion and Analysis.

2014 Forecasted Results: In July 2014, Altria Group, Inc. revised its 2014 full-year forecast for reported diluted EPS to a range of \$2.54 to \$2.59 from a range of \$2.53 to \$2.60. The 2014 full-year reported diluted EPS forecast reflects the impact of the items detailed in the table below, as compared with 2013 full-year reported diluted EPS of \$2.26, which included \$0.12 per share of net expenses, as detailed in the table below. In addition, in July 2014, Altria Group, Inc. revised its 2014 full-year forecast for adjusted diluted EPS, which excludes the impact of the items detailed in the table below, representing a growth rate of 7% to 9% over 2013 full-year adjusted diluted EPS. Altria Group, Inc. expects higher adjusted diluted EPS growth in the second half of 2014, particularly in the fourth quarter, driven by various factors. These include lower fourth-quarter costs in the smokeable products segment due to the end of the federal tobacco quota buy-out payments and a lower fourth-quarter of 2014 effective tax rate on operations compared to the fourth quarter of 2013 resulting from Altria Group, Inc.'s 2013 debt tender offer.

The factors described in the *Cautionary Factors That May Affect Future Results* section of the following Discussion and Analysis represent continuing risks to this forecast and to the other forward-looking statements made in this Quarterly Report on Form 10-Q ("Form 10-Q").

(Income) Expense, Net Included in Reported Diluted EPS

	2014	2013
NPM Adjustment Items	\$ (0.03)	\$ (0.21)
Asset impairment, exit, integration and acquisition-related costs	0.01	—
Tobacco and health litigation items	0.01	0.01
SABMiller special items	0.01	0.01
Loss on early extinguishment of debt	—	0.34
Tax items	—	(0.03)
	\$ —	\$ 0.12

Adjusted diluted EPS is a financial measure that is not consistent with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Altria Group, Inc.’s management reviews diluted EPS on an adjusted basis, which excludes certain income and expense items that management believes are not part of underlying operations. These items may include, for example: loss on early extinguishment of debt; restructuring charges; SABMiller special items; certain tax items; tobacco and health litigation items; and settlements of, and determinations made in connection with, disputes with certain states and territories related to the non-participating manufacturer (“NPM”) adjustment provision under the 1998 Master Settlement Agreement (the “MSA”) for the years 2003 - 2012 (such settlements and determinations are referred to collectively as “NPM Adjustment Items” and are more fully described in *Health Care Cost Recovery Litigation - Possible Adjustments in MSA Payments for 2003 - 2013* in Note 9. *Contingencies* to the condensed consolidated financial statements in Item 1. Financial Statements in this Form 10-Q (“Item 1”). Altria Group, Inc.’s management does not view any of these special items to be part of its sustainable results as they may be highly variable and difficult to predict and can distort underlying business trends and results. Altria Group, Inc.’s management believes it is appropriate to disclose this non-GAAP financial measure to provide useful insight into underlying business trends and results, and to provide a more meaningful comparison of year-over-year results. Adjusted measures are used by management and regularly provided to Altria Group, Inc.’s chief operating decision maker for planning, forecasting and evaluating business and financial performance, including allocating resources and evaluating results relative to employee compensation targets. This information should be considered as supplemental in nature and not considered in isolation or as a substitute for the related financial information prepared in accordance with U.S. GAAP.

Discussion and Analysis

Consolidated Operating Results

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Net revenues:				
Smokeable products	\$ 10,569	\$ 10,646	\$ 5,611	\$ 5,678
Smokeless products	879	848	464	458
Wine	275	263	146	137
All other	50	76	35	32
Net revenues	<u>\$ 11,773</u>	<u>\$ 11,833</u>	<u>\$ 6,256</u>	<u>\$ 6,305</u>
Excise taxes on products:				
Smokeable products	\$ 3,118	\$ 3,265	\$ 1,644	\$ 1,741
Smokeless products	66	59	36	33
Wine	10	10	5	5
Excise taxes on products	<u>\$ 3,194</u>	<u>\$ 3,334</u>	<u>\$ 1,685</u>	<u>\$ 1,779</u>
Operating income:				
Operating companies income:				
Smokeable products	\$ 3,320	\$ 3,646	\$ 1,789	\$ 1,726
Smokeless products	524	492	285	270
Wine	50	45	28	25
All other	(54)	93	(53)	43
Amortization of intangibles	(10)	(10)	(5)	(5)
General corporate expenses	(121)	(113)	(69)	(58)
Operating income	<u>\$ 3,709</u>	<u>\$ 4,153</u>	<u>\$ 1,975</u>	<u>\$ 2,001</u>

As discussed further in Note 6. *Segment Reporting* to the condensed consolidated financial statements in Item 1, Altria Group, Inc.'s chief operating decision maker reviews operating companies income to evaluate the performance of and allocate resources to the segments. Operating companies income for the segments excludes general corporate expenses and amortization of intangibles. Management believes it is appropriate to disclose this measure to help investors analyze the business performance and trends of the various business segments.

The following events that occurred during the six and three months ended June 30, 2014 and 2013 affected the comparability of statement of earnings amounts:

- **NPM Adjustment Items:** For the six and three months ended June 30, 2014 and 2013, pre-tax income for NPM Adjustment Items was recorded in Altria Group, Inc.'s condensed consolidated statements of earnings as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Smokeable products segment	\$ 43	\$ 519	\$ 43	\$ 36
Interest and other debt expense, net	47	—	(17)	—
Total	<u>\$ 90</u>	<u>\$ 519</u>	<u>\$ 26</u>	<u>\$ 36</u>

[Table of Contents](#)

The amounts shown in the table above for the smokeable products segment were recorded by PM USA as reductions to cost of sales, which increased operating companies income in the smokeable products segment. For further discussion, see *Health Care Cost Recovery Litigation - Possible Adjustments in MSA Payments for 2003 - 2013* in Note 9. *Contingencies* to the condensed consolidated financial statements in Item 1 ("Note 9").

•**Tobacco and Health Litigation Items:** For the six and three months ended June 30, 2014 and 2013, pre-tax charges related to certain tobacco and health litigation items were recorded in Altria Group, Inc.'s condensed consolidated statements of earnings as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Smokeable products segment	\$ 19	\$ 5	\$ 16	\$ —
General corporate expenses	15	—	15	—
Interest and other debt expense, net	1	1	—	—
Total	<u>\$ 35</u>	<u>\$ 6</u>	<u>\$ 31</u>	<u>\$ —</u>

During the second quarter of 2014, Altria Group, Inc. and PM USA recorded an aggregate pre-tax charge of \$31 million in marketing, administration and research costs for the estimated costs of implementing the corrective communications remedy in connection with the federal government's lawsuit against Altria Group, Inc. and PM USA. For further discussion, see *Health Care Cost Recovery Litigation - Federal Government's Lawsuit* in Note 9.

Consolidated Results of Operations for the Six Months Ended June 30, 2014

The following discussion compares consolidated operating results for the six months ended June 30, 2014 with the six months ended June 30, 2013.

Net revenues, which include excise taxes billed to customers, decreased \$60 million (0.5%), due primarily to lower net revenues in the smokeable products segment.

Excise taxes on products decreased \$140 million (4.2%), due primarily to lower smokeable products shipment volume.

Cost of sales increased \$449 million (13.7%), due primarily to the higher NPM Adjustment Items in 2013.

Marketing, administration and research costs increased \$84 million (7.8%), due primarily to higher investment spending in the alternative products businesses and lower reductions to the allowance for losses in the financial services business.

Operating income decreased \$444 million (10.7%), due primarily to lower operating results from the smokeable products segment (which includes higher NPM Adjustment Items in 2013), lower income from the financial services business, and higher investment spending in the alternative products businesses, partially offset by higher operating results from the smokeless products segment.

Interest and other debt expense, net, decreased \$142 million (27.0%), due primarily to lower interest costs on debt as a result of debt maturities in 2013 and 2014, and debt refinancing activities during 2013, as well as interest income recorded during the first half of 2014 as a result of the NPM Adjustment Items.

Altria Group, Inc.'s income tax rate decreased 0.5 percentage points to 35.0% due primarily to an increased recognition of foreign tax credits in 2014, primarily associated with SABMiller dividends.

Net earnings attributable to Altria Group, Inc. of \$2,437 million decreased \$214 million (8.1%), due primarily to lower operating income and lower earnings from Altria Group, Inc.'s equity investment in SABMiller, partially offset by lower interest and other debt expense, net, and a lower income tax rate. Diluted and basic EPS attributable to Altria Group, Inc. of \$1.23, each decreased by 6.8% due to lower net earnings attributable to Altria Group, Inc., partially offset by fewer shares outstanding.

[Table of Contents](#)

Consolidated Results of Operations for the Three Months Ended June 30, 2014

The following discussion compares consolidated operating results for the three months ended June 30, 2014 with the three months ended June 30, 2013.

Net revenues, which include excise taxes billed to customers, decreased \$49 million (0.8%), due primarily to lower net revenues in the smokeable products segment.

Excise taxes on products decreased \$94 million (5.3%), due primarily to lower smokeable products shipment volume.

Marketing, administration and research costs increased \$86 million (15.6%), due primarily to higher investment spending in the alternative products businesses, charges in connection with the federal government's lawsuit against Altria Group, Inc. and PM USA, and a reduction to the allowance for losses during 2013 in the financial services business.

Operating income decreased \$26 million (1.3%), due primarily to higher investment spending in the alternative products businesses and lower income from the financial services business, partially offset by higher operating results from the smokeable products and smokeless products segments.

Interest and other debt expense, net, decreased \$34 million (12.9%), due primarily to lower interest costs on debt as a result of debt maturities in 2013 and 2014, and debt refinancing activities during 2013, partially offset by a reduction of previously recorded interest income related to the NPM Adjustment Items.

Net earnings attributable to Altria Group, Inc. of \$1,262 million was essentially unchanged as lower operating income and lower earnings from Altria Group, Inc.'s equity investment in SABMiller were mostly offset by lower interest and other debt expense, net. Diluted and basic EPS attributable to Altria Group, Inc. of \$0.64, each increased by 1.6% due to fewer shares outstanding.

Operating Results by Business Segment

Tobacco Space

Business Environment

Summary

The United States tobacco industry faces a number of business and legal challenges that have adversely affected and may adversely affect the business and sales volume of our tobacco subsidiaries and our consolidated results of operations, cash flows or financial position. These challenges, some of which are discussed in more detail below, in Note 9 and in *Cautionary Factors That May Affect Future Results*, include:

- pending and threatened litigation and bonding requirements;
- the requirement to issue "corrective statements" in various media in connection with the federal government's lawsuit;
- restrictions and requirements imposed by the Family Smoking Prevention and Tobacco Control Act ("FSPTCA") enacted in June 2009, and restrictions and requirements that have been, and in the future will be, imposed by the U.S. Food and Drug Administration ("FDA") under this statute;
- actual and proposed excise tax increases, as well as changes in tax structures and tax stamping requirements;
- bans and restrictions on tobacco use imposed by governmental entities and private establishments and employers;
- other federal, state and local government actions, including:
 - increases in the minimum age to purchase tobacco products above the current federal minimum age of 18;
 - restrictions on the sale of tobacco products by certain retail establishments, the sale of certain tobacco products with certain characterizing flavors and the sale of tobacco products in certain package sizes;
 - additional restrictions on the advertising and promotion of tobacco products;
 - other actual and proposed tobacco product legislation and regulation; and
 - governmental investigations;

[Table of Contents](#)

- the diminishing prevalence of cigarette smoking and increased efforts by tobacco control advocates and others (including employers and retail establishments) to further restrict tobacco use;
- price gaps and changes in price gaps between premium and lowest price brands;
- competitive disadvantages related to cigarette price increases attributable to the settlement of certain litigation;
- illicit trade in tobacco products; and
- potential adverse changes in tobacco leaf price, availability and quality.

In addition to and in connection with the foregoing, evolving adult tobacco consumer preferences pose challenges for Altria Group, Inc.'s tobacco subsidiaries. Our tobacco subsidiaries believe that a significant number of adult tobacco consumers switch between tobacco categories or use multiple forms of tobacco products and that approximately 50% of adult smokers say they are interested in trying innovative tobacco products. Altria Group, Inc.'s tobacco subsidiaries further believe that adult tobacco consumer awareness of electronic cigarettes is high and growing. Nu Mark estimates that total consumer expenditures for e-vapor products were approximately \$1 billion in the United States in 2013 and believes that expenditures on these products continue to grow in 2014.

Altria Group, Inc. and its tobacco subsidiaries work to meet these evolving adult tobacco consumer preferences over time by developing, manufacturing, marketing and distributing products both within and outside the United States through innovation and adjacency growth strategies (including, where appropriate, arrangements with, or investments in, third parties). For example, Nu Mark entered the e-vapor category in 2013 with the introduction of *MarkTen* e-vapor products into two lead markets. Nu Mark began the national expansion of *MarkTen* products on June 2, 2014. In addition, as further discussed in Note 2, *Acquisition of Green Smoke*, on April 1, 2014, Nu Mark completed the acquisition of the e-vapor business of Green Smoke, Inc. and its affiliates ("Green Smoke"). See the discussions regarding new product technologies, adjacency growth strategy and evolving consumer preferences in *Cautionary Factors That May Affect Future Results* below for certain risks associated with the foregoing discussion.

We have provided additional detail on the following topics below:

- FSPTCA and FDA Regulation;
- Excise Taxes;
- International Treaty on Tobacco Control;
- State Settlement Agreements;
- Other Federal, State and Local Regulation and Activity;
- Illicit Trade in Tobacco Products;
- Tobacco Price, Availability and Quality; and
- Timing of Sales.

FSPTCA and FDA Regulation

The Regulatory Framework

The FSPTCA expressly establishes certain restrictions and prohibitions on our cigarette and smokeless tobacco businesses and authorizes or requires further FDA action. Under the FSPTCA, the FDA has broad authority to (1) regulate the design, manufacture, packaging, advertising, promotion, sale and distribution of cigarettes, cigarette tobacco and smokeless tobacco products; (2) require disclosures of related information; and (3) enforce the FSPTCA and related regulations. The law also grants the FDA authority to extend the FSPTCA's application, by regulation, to all other tobacco products, including cigars, pipe tobacco and electronic cigarettes.

Among other measures, the FSPTCA:

- imposes restrictions on the advertising, promotion, sale and distribution of tobacco products, including at retail;
- bans descriptors such as "light," "mild" or "low" or similar descriptors unless expressly authorized by the FDA;
- requires extensive ingredient disclosure to the FDA and may require more limited public ingredient disclosure;
- prohibits any express or implied claims that a tobacco product is or may be less harmful than other tobacco products without FDA authorization;
- imposes reporting obligations relating to contraband activity and grants the FDA authority to impose recordkeeping and other obligations to address illicit trade in tobacco products;

[Table of Contents](#)

- changes the language of the cigarette and smokeless tobacco product health warnings, enlarges their size and requires the development by the FDA of graphic warnings for cigarettes, and gives the FDA the authority to require new warnings;
- authorizes the FDA to adopt product regulations and related actions, including:
 - to impose tobacco product standards that are appropriate for the protection of the public health through a regulatory process, including, among other possibilities, restrictions on ingredients, constituents or other properties, performance or design criteria, as well as to impose testing, measurement, reporting and disclosure requirements;
 - to subject tobacco products that are modified or first introduced into the market after March 22, 2011 to application and pre-market review and authorization requirements (the “New Product Application Process”) if the FDA does not find them to be “substantially equivalent” to products commercially marketed as of February 15, 2007, and to deny any such new product application, thus preventing the distribution and sale of any product affected by such denial;
 - to determine that certain existing tobacco products modified or introduced into the market for the first time between February 15, 2007 and March 22, 2011 are not “substantially equivalent” to products commercially marketed as of February 15, 2007, in which case the FDA could require the removal of such products or subject them to the New Product Application Process and, if any such applications are denied, prevent the continued distribution and sale of such products (see *FDA Regulatory Actions* below);
 - to restrict or otherwise regulate menthol cigarettes, as well as other tobacco products with characterizing flavors (see *TPSAC* below);
 - to regulate nicotine yields and to reduce or eliminate harmful constituents or harmful ingredients or other components of tobacco products; and
 - to impose manufacturing standards for tobacco products; and
- equips the FDA with a variety of investigatory and enforcement tools, including the authority to inspect tobacco product manufacturing and other facilities.

In April 2014, the FDA issued proposed regulations for other tobacco products, which as proposed would include machine-made large cigars, e-vapor products such as electronic cigarettes, pipe tobacco and chewable tobacco-derived nicotine products marketed and sold by some of our tobacco subsidiaries. The proposed regulations would impose the FSPTCA regulatory framework, including the foregoing measures, on products manufactured, marketed and sold by Nu Mark and Middleton with potentially wide-ranging impact. Nu Mark and Middleton intend to submit comments on the proposed regulations by the August 8, 2014 comment period deadline.

Implementation Timing, Rulemaking and Guidance

The implementation of the FSPTCA began in 2009 and will continue over time. Some provisions took effect immediately, some provisions have taken effect since the enactment of the FSPTCA and other provisions will not take effect for some time. Those provisions that require the FDA to take action through rulemaking generally involve consideration of public comment and, for some issues, scientific review. Altria Group, Inc.’s tobacco subsidiaries participate actively in processes established by the FDA to develop and implement the FSPTCA’s regulatory framework, including submission of comments to various FDA proposals and participation in public hearings and engagement sessions.

From time to time, the FDA also issues guidance for public comment, which may be issued in draft or final form. Such guidance, when finalized, is intended to represent the FDA’s current thinking on a particular topic and may be predictive of the FDA’s enforcement stance on that topic. Such guidance, even when finalized, is not intended to bind the FDA or the public or establish legally enforceable responsibilities. For example, the FDA has issued draft guidance on topics such as modified risk tobacco product applications, applications for pre-market review of new tobacco products and demonstrating substantial equivalence of a new tobacco product.

A complete set of guidance documents issued by the FDA can be found on the FDA’s website at www.fda.gov/TobaccoProductsGuidanceComplianceRegulatoryInformation/default.htm. The information on this website is not, and shall not be deemed to be, part of this report or incorporated into any other filings Altria Group, Inc. makes with the Securities and Exchange Commission (“SEC”).

Altria Group, Inc.’s tobacco subsidiaries submit comments to the FDA on draft or final guidance when appropriate. In some cases, our tobacco subsidiaries may disagree with a particular interpretation by the FDA as expressed in draft or final guidance and may communicate their position in writing to the FDA. For example, PM USA and USSTC communicated disagreement with FDA interpretations of the statute set forth in the “Draft Guidance for Industry and FDA Staff: Demonstrating the Substantial Equivalence of a New Tobacco Product: Responses to Frequently Asked Questions” regarding when a manufacturer must submit substantial equivalence reports. While PM USA and USSTC believe that all of their current products meet the

[Table of Contents](#)

statutory requirements of the FSPTCA, they cannot currently predict whether, when or how the FDA ultimately will apply its guidance or seek to enforce the law and regulations consistent with its guidance. As discussed below in *Investigations and Enforcement*, FDA enforcement actions could have a material adverse effect on the business, consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its tobacco subsidiaries.

The implementation of the FSPTCA and related regulations and guidance also may have an impact on enforcement efforts by states, territories and localities of the United States of their laws and regulations as well as of the State Settlement Agreements discussed below (see *State Settlement Agreements* below). Such enforcement efforts may adversely affect our tobacco subsidiaries' ability to market and sell regulated tobacco products in those states, territories and localities.

Impact on Our Business; Compliance Costs

Regulations imposed and other regulatory actions taken by the FDA under the FSPTCA could have a material adverse effect on the business, consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its tobacco subsidiaries in a number of different ways. For example, actions by the FDA could:

- impact the consumer acceptability of tobacco products;
- delay, discontinue or prevent the sale or distribution of existing, new or modified tobacco products;
- limit adult consumer choices;
- restrict communications to adult consumers;
- create a competitive advantage or disadvantage for certain tobacco companies;
- impose additional manufacturing, labeling or packaging requirements;
- impose additional restrictions at retail;
- result in increased illicit trade in tobacco products; or
- otherwise significantly increase the cost of doing business.

The failure to comply with FDA regulatory requirements, even inadvertently, and FDA enforcement actions could also have a material adverse effect on the business, consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its tobacco subsidiaries.

The FSPTCA imposes fees on tobacco product manufacturers and importers to pay for the cost of regulation and other matters. The cost of the FDA user fee is allocated first among tobacco product categories subject to FDA regulation according to a process set out in the statute, which relies, in part, on the allocation methodology set forth in the Fair and Equitable Tobacco Reform Act of 2004 ("FETRA"), and then among manufacturers and importers within each respective category based on their relative market shares. In May 2013, the FDA issued proposed regulations to govern the allocation of the FDA user fee when the FETRA program concludes after the third quarter of 2014. An Altria Group, Inc. subsidiary filed comments on behalf of PM USA and USSTC objecting to certain aspects of the proposed regulations. On July 10, 2014, the FDA issued final regulations adopting the FETRA methodology for allocating the FDA user fee among tobacco product categories. For a discussion of the impact of the State Settlement Agreements, the FETRA and FDA user fee payments on Altria Group, Inc., see *Financial Review - Debt and Liquidity - Payments Under State Settlement and Other Tobacco Agreements, and FDA Regulation* below. In addition, compliance with the FSPTCA's regulatory requirements has resulted and will continue to result in additional costs for our tobacco businesses. The amount of additional compliance and related costs has not been material in any given quarter to date but could become material, either individually or in the aggregate, and will depend on the nature of the requirements imposed by the FDA.

Investigation and Enforcement

The FDA has a number of investigatory and enforcement tools available to it, including document requests and other required information submissions, facility inspections, examinations and investigations, injunction proceedings, money penalties, product withdrawals and recalls, and product seizures. The use of any of these investigatory or enforcement tools by the FDA could result in significant costs to the tobacco businesses of Altria Group, Inc. or otherwise have a material adverse effect on the business, consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its tobacco subsidiaries.

For example, in June 2010, the FDA issued a document request regarding changes to *Marlboro* Gold Pack cigarette packaging in connection with the FSPTCA's ban of certain descriptors. PM USA submitted documents in response to the FDA's request.

TPSAC

The Role of the TPSAC

As required by the FSPTCA, the FDA has established a tobacco product scientific advisory committee (the “TPSAC”), which consists of voting and non-voting members, to provide advice, reports, information and recommendations to the FDA on scientific and health issues relating to tobacco products. For example, the TPSAC advises the FDA about modified risk products (products marketed with reduced risk claims), good manufacturing practices, the effects of the alteration of nicotine yields from tobacco products and nicotine dependence thresholds. The TPSAC previously made reports and recommendations to the FDA on menthol cigarettes, including the impact of the use of menthol in cigarettes on the public health, and the nature and impact of dissolvable tobacco products on the public health. The FDA may seek advice from the TPSAC about other safety, dependence or health issues relating to tobacco products, including tobacco product standards and applications to market new tobacco products.

TPSAC Membership

Beginning in March 2010, PM USA and USSTC raised with the FDA their concerns that four of the voting members of the TPSAC have financial and other conflicts (including services as paid experts for plaintiffs in tobacco litigation) that could hamper the full and fair consideration of issues by the TPSAC and requested that their appointments be withdrawn. PM USA and USSTC raised similar concerns related to the engagement of two TPSAC subcommittee consultants. The FDA declined PM USA’s and USSTC’s requests, stating that the FDA had satisfied itself, after inquiry, that the individuals in question did not have disqualifying conflicts of interest. In February 2011, Lorillard Tobacco Company (“Lorillard”) and R.J. Reynolds Tobacco Company (“R.J. Reynolds”) filed suit in the U.S. District Court for the District of Columbia against the United States Department of Health and Human Services and individual defendants (sued in their official capacities) asserting that the composition of the TPSAC and the composition of the Constituents Subcommittee of the TPSAC violates several federal laws, including the Federal Advisory Committee Act. The government defendants filed their motion for summary judgment as to all claims in June 2013. Lorillard and R.J. Reynolds filed a cross-motion for summary judgment in July 2013. On July 21, 2014, the district court granted plaintiffs’ summary judgment motion, in part, and denied defendants’ summary judgment motion. The court ordered the FDA to reconstitute the TPSAC and barred defendants from relying on the TPSAC report on menthol, discussed below.

TPSAC Action on Menthol

As mandated by the FSPTCA, in March 2011, the TPSAC submitted to the FDA a report on the impact of the use of menthol in cigarettes on the public health and related recommendations. The TPSAC report stated that “[m]enthol cigarettes have an adverse impact on public health in the United States.” The TPSAC report recommended that the “[r]emoval of menthol cigarettes from the marketplace would benefit public health in the United States.” The TPSAC report noted the potential that any ban on menthol cigarettes could lead to an increase in contraband cigarettes and other potential unintended consequences and suggested that the FDA consult with appropriate experts on this matter. The TPSAC report also recommended that additional research could address gaps in understanding menthol cigarettes.

In March 2011, PM USA submitted a report to the FDA outlining its position that neither science nor other evidence demonstrates that regulatory actions or restrictions related to the use of menthol cigarettes are warranted. The report noted PM USA’s belief that significant restrictions on the use of menthol cigarettes would have unintended consequences detrimental to public health and society. In July 2011, the TPSAC revised and approved its March 2011 report. The revisions were editorial in nature and did not change the substantive conclusions and recommendations of the TPSAC.

The FSPTCA does not set a deadline or required timeline for the FDA to act on the TPSAC report. The FDA has stated that the TPSAC report is only a recommendation and that the FDA’s receipt of the TPSAC report will not have an immediate effect on the availability of menthol cigarettes. Moreover, as noted above, the FDA is subject to a July 21, 2014 court order that bars it from relying on the TPSAC report.

In January 2012, the FDA announced that it had evaluated scientific information on menthol and had drafted a report related to the impact of menthol in cigarettes on public health. The FDA indicated that it had sent its report to external scientists for peer review. In July 2013, the FDA released its preliminary scientific evaluation, which states “that menthol cigarettes pose a public health risk above that seen with non-menthol cigarettes.” At the same time, the FDA also issued an advance notice of proposed rulemaking requesting comments on the FDA’s preliminary scientific evaluation and information that may inform potential regulatory actions regarding menthol in cigarettes or other tobacco products. In November 2013, PM USA submitted comments to the FDA raising a number of concerns with the preliminary scientific evidence, including comments demonstrating that menthol cigarettes do not affect population harm differently than non-menthol cigarettes. PM USA also reiterated that significant restrictions on the use of menthol in cigarettes would have unintended consequences detrimental to public health and society. No future action can be taken by the FDA to regulate the manufacture, marketing or sale of menthol cigarettes (including a possible ban) until the completion of the rulemaking process.

Final Tobacco Marketing Rule

As required by the FSPTCA, the FDA re-promulgated in March 2010 certain advertising and promotion restrictions in substantially the same form as regulations that were previously adopted in 1996 (but never imposed on tobacco manufacturers due to a United States Supreme Court ruling) (the “Final Tobacco Marketing Rule”). The Final Tobacco Marketing Rule:

- bans the use of color and graphics in tobacco product labeling and advertising;
- prohibits the sale of cigarettes and smokeless tobacco to underage persons;
- restricts the use of non-tobacco trade and brand names on cigarettes and smokeless tobacco products;
- requires the sale of cigarettes and smokeless tobacco in direct, face-to-face transactions;
- prohibits sampling of cigarettes and prohibits sampling of smokeless tobacco products except in qualified adult-only facilities;
- prohibits gifts or other items in exchange for buying cigarettes or smokeless tobacco products;
- prohibits the sale or distribution of items such as hats and tee shirts with tobacco brands or logos; and
- prohibits brand name sponsorship of any athletic, musical, artistic, or other social or cultural event, or any entry or team in any event.

Subject to the limitations described below, the Final Tobacco Marketing Rule took effect in June 2010. At the time of the re-promulgation of the Final Tobacco Marketing Rule, the FDA also issued an advance notice of proposed rulemaking regarding the so-called “1000 foot rule,” which would establish restrictions on the placement of outdoor tobacco advertising in relation to schools and playgrounds. PM USA and USSTC submitted comments on this advance notice.

Since enactment, several lawsuits have been filed challenging various provisions of the FSPTCA and the Final Tobacco Marketing Rule, including their constitutionality and the scope of the FDA’s authority thereunder. Altria Group, Inc. and its tobacco subsidiaries are not parties to any of these lawsuits. As a result of one such challenge (*Commonwealth Brands*), the portion of the Final Tobacco Marketing Rule that bans the use of color and graphics in labeling and advertising is unenforceable by the FDA. For a further discussion of the Final Tobacco Marketing Rule and the status of graphic warnings for cigarette packages and advertising, see *FDA Regulatory Actions - Graphic Warnings* below.

In a separate challenge to the Final Tobacco Marketing Rule in the U.S. District Court for the Eastern District of Virginia, *Renegade Tobacco Company, Inc.* and others have challenged the constitutionality of an FDA regulation that restricts tobacco manufacturers from using the trade or brand name of a non-tobacco product on cigarettes or smokeless tobacco products. In May 2010, the district court issued a stay in the *Renegade* case pending the FDA’s consideration of amendments to the trade or brand name rule. In November 2011, the FDA proposed an amended rule, but continues to exercise its discretion to enforce the original trade or brand name provisions of the Final Tobacco Marketing Rule according to FDA guidance issued in May 2010. The case was dismissed without prejudice in November 2013 pursuant to a stipulation by which the FDA agreed not to enforce the current or any amended trade name rule against plaintiffs until at least 180 days after rulemaking on the amended rule concludes. This relief only applies to plaintiffs in the case. All others are subject to the FDA’s exercise of enforcement discretion pursuant to the May 2010 guidance.

Contraband

The FSPTCA imposes on manufacturers reporting obligations relating to knowledge of suspected contraband activity involving their brands and also grants the FDA the authority to impose certain recordkeeping and other obligations to address illicit trade in tobacco products. The FSPTCA also empowers the FDA to assess whether additional tools should be employed to track and trace tobacco products through the distribution chain.

FDA Regulatory Actions

Graphic Warnings

In June 2011, as required by the FSPTCA, the FDA issued its final rule to modify the required warnings that appear on cigarette packages and in cigarette advertisements. The FSPTCA requires the warnings to consist of nine new textual warning statements accompanied by color graphics depicting the negative health consequences of smoking. The graphic health warnings will (i) be located beneath the cellophane, and comprise the top 50% of the front and rear panels of cigarette packages and (ii) occupy 20% of a cigarette advertisement and be located at the top of the advertisement. After a legal challenge to the rule initiated by R.J. Reynolds, Lorillard and several other plaintiffs, in which plaintiffs prevailed both at the trial and federal

[Table of Contents](#)

appellate levels, the FDA decided not to seek further review of the U.S. Court of Appeals' decision and announced its plans to propose a new graphic warnings rule in the future.

New Product Marketing Authorization Processes

In January 2011, the FDA issued guidance concerning reports that manufacturers must submit for certain FDA-regulated tobacco products that the manufacturer modified or introduced for the first time into the market after February 15, 2007. These reports must be reviewed by the agency to determine if such tobacco products are "substantially equivalent" to products commercially available as of February 15, 2007. In general, in order to continue marketing these products sold before March 22, 2011, manufacturers of FDA-regulated tobacco products were required to send to the FDA a report demonstrating substantial equivalence by March 22, 2011. PM USA and USSTC submitted timely reports. PM USA and USSTC can continue marketing these products unless the FDA makes a determination that a specific product is not substantially equivalent. If the FDA ultimately makes such a determination, it could require the removal of such products or subject them to the New Product Application Process and, if any such applications are denied, prevent the continued distribution and sale of such products. PM USA and USSTC believe all of their current products meet the statute's requirements, but cannot predict when or how the FDA will respond to their substantial equivalence reports.

Manufacturers intending to introduce new products and certain modified products into the market after March 22, 2011 must submit a report to the FDA and obtain a "substantial equivalence order" from the agency before introducing the products into the market. If the FDA declines to issue a so-called "substantial equivalence order" for a product or if the manufacturer itself determines that the product does not meet the substantial equivalence requirements, the product would need to undergo the New Product Application Process.

The FDA began announcing its decisions on substantial equivalence reports in the second quarter of 2013. However, there are a significant number of substantial equivalence reports for which the FDA has not announced decisions. At this time, it is not possible to predict how long agency reviews of either substantial equivalence reports or new product applications will take.

Good Manufacturing Practices

In March 2013, the FDA published a notice announcing that it had established a public docket to obtain input by May 20, 2013 on the proposed Good Manufacturing Practice Regulations recommended to the FDA in January 2012 by a group of tobacco companies, including PM USA and USSTC. The FSPTCA requires that the FDA promulgate good manufacturing practice regulations for tobacco product manufacturers, but does not specify a timeframe for such regulations.

Proposed Deeming Regulations

See *FSPTCA and FDA Regulation - The Regulatory Framework* above for a discussion of the regulations proposed by the FDA in April 2014 that would impose the FSPTCA regulatory framework on machine-made large cigars, e-vapor products such as electronic cigarettes, pipe tobacco and chewable tobacco-derived nicotine products.

Excise Taxes

Tobacco products are subject to substantial excise taxes in the United States. Significant increases in tobacco-related taxes or fees have been proposed or enacted (including with respect to e-vapor products) and are likely to continue to be proposed or enacted at the federal, state and local levels within the United States.

Federal, state and local excise taxes have increased substantially over the past decade, far outpacing the rate of inflation. For example, in 2009, the federal excise tax ("FET") on cigarettes increased from \$0.39 per pack to approximately \$1.01 per pack and in July 2010, the New York state excise tax increased by \$1.60 to \$4.35 per pack. Between the end of 1998 and July 18, 2014, the weighted-average state and certain local cigarette excise taxes increased from \$0.36 to \$1.48 per pack. As of July 18, 2014, Vermont is the only state to have enacted a cigarette excise tax increase in 2014. The President's fiscal year 2014 Budget proposes significant increases in the FET for all tobacco products. The proposed budget would increase the FET on a pack of cigarettes by \$0.94 per pack, raising the total FET to \$1.95 per pack, and would also increase the tax on other tobacco products by a proportionate amount. It is not possible to predict whether this proposed FET increase will be enacted.

Tax increases are expected to continue to have an adverse impact on sales of the tobacco products of our tobacco subsidiaries through lower consumption levels and the potential shift in adult consumer purchases from the premium to the non-premium or discount segments or to other low-priced or low-taxed tobacco products or to counterfeit and contraband products. Such shifts may have an adverse impact on the reported share performance of tobacco products of Altria Group, Inc.'s tobacco subsidiaries.

A majority of states currently tax smokeless tobacco products using an ad valorem method, which is calculated as a percentage of the price of the product, typically the wholesale price. This ad valorem method results in more tax being paid on premium products than is paid on lower-priced products of equal weight. Altria Group, Inc.'s subsidiaries support legislation to convert ad valorem taxes on smokeless tobacco to a weight-based methodology because, unlike the ad valorem tax, a weight-based tax subjects cans of equal weight to the same tax. As of July 18, 2014, the federal government, 22 states, Puerto Rico, Philadelphia, Pennsylvania and Cook County, Illinois have adopted a weight-based tax methodology for smokeless tobacco.

International Treaty on Tobacco Control

The World Health Organization's Framework Convention on Tobacco Control (the "FCTC") entered into force in February 2005. As of July 18, 2014, 178 countries, as well as the European Community, have become parties to the FCTC. While the United States is a signatory of the FCTC, it is not currently a party to the agreement, as the agreement has not been submitted to, or ratified by, the United States Senate. The FCTC is the first international public health treaty and its objective is to establish a global agenda for tobacco regulation with the purpose of reducing initiation of tobacco use and encouraging cessation. The treaty recommends (and in certain instances, requires) signatory nations to enact legislation that would, among other things: establish specific actions to prevent youth tobacco product use; restrict or eliminate all tobacco product advertising, marketing, promotion and sponsorship; initiate public education campaigns to inform the public about the health consequences of tobacco consumption and exposure to tobacco smoke and the benefits of quitting; implement regulations imposing product testing, disclosure and performance standards; impose health warning requirements on packaging; and adopt measures intended to combat tobacco product smuggling and counterfeit tobacco products, including tracking and tracing of tobacco products through the distribution chain and restrict smoking in public places.

There are a number of proposals currently under consideration by the governing body of the FCTC, some of which call for substantial restrictions on the manufacture, marketing, distribution and sale of tobacco products. In addition, the Protocol to Eliminate Illicit Trade in Tobacco Products (the "Protocol") was approved by the Conference of Parties to the FCTC in November 2012. It includes provisions related to the tracking and tracing of tobacco products through the distribution chain and numerous other provisions regarding the regulation of the manufacture, distribution and sale of tobacco products. The Protocol has not yet entered into force, but in any event will not apply to the United States until the Senate ratifies the FCTC and until the President signs, and the Senate ratifies, the Protocol. It is not possible to predict the outcome of these proposals or the impact of any FCTC actions on legislation or regulation in the United States, either directly or as a result of the United States becoming a party to the FCTC, or whether or how these actions might indirectly influence FDA regulation and enforcement.

State Settlement Agreements

As discussed in Note 9, during 1997 and 1998, PM USA and other major domestic tobacco product manufacturers entered into the State Settlement Agreements. These settlements require participating manufacturers to make substantial annual payments, which are adjusted for several factors, including inflation, market share and industry volume. For a discussion of the impact of the State Settlement Agreements, FETRA and FDA user fee payments on Altria Group, Inc., see *Financial Review - Debt and Liquidity - Payments Under State Settlement and Other Tobacco Agreements, and FDA Regulation* below. The State Settlement Agreements also place numerous requirements and restrictions on participating manufacturers' business operations, including prohibitions and restrictions on the advertising and marketing of cigarettes and smokeless tobacco products. Among these are prohibitions of outdoor and transit brand advertising, payments for product placement and free sampling (except in adult-only facilities). Restrictions are also placed on the use of brand name sponsorships and brand name non-tobacco products. The State Settlement Agreements also place prohibitions on targeting youth and the use of cartoon characters. In addition, the State Settlement Agreements require companies to affirm corporate principles directed at reducing underage use of cigarettes; impose requirements regarding lobbying activities; mandate public disclosure of certain industry documents; limit the industry's ability to challenge certain tobacco control and underage use laws; and provide for the dissolution of certain tobacco-related organizations and place restrictions on the establishment of any replacement organizations.

In November 1998, USSTC entered into the Smokeless Tobacco Master Settlement Agreement (the "STMSA") with the attorneys general of various states and United States territories to resolve the remaining health care cost reimbursement cases initiated against USSTC. The STMSA required USSTC to adopt various marketing and advertising restrictions. USSTC is the only smokeless tobacco manufacturer to sign the STMSA.

Other Federal, State and Local Regulation and Activity

Federal, State and Local Regulation

A number of states and localities have enacted or proposed legislation that imposes restrictions on tobacco products, such as legislation that (1) prohibits the sale of certain tobacco products with certain characterizing flavors, (2) requires the disclosure of health information separate from or in addition to federally-mandated health warnings, and (3) restricts commercial speech or imposes additional restrictions on the marketing or sale of tobacco products (including proposals to ban all tobacco product sales or to increase the legal age to purchase tobacco products above the current federal minimum age requirement of 18). The legislation varies in terms of the type of tobacco products, the conditions under which such products are or would be restricted or prohibited, and exceptions to the restrictions or prohibitions. For example, a number of proposals involving characterizing flavors would prohibit smokeless tobacco products with characterizing flavors without providing an exception for mint- or wintergreen-flavored products. See *FSPTCA and FDA Regulation* above for a summary of the FSPTCA's regulation of certain tobacco products with characterizing flavors.

Whether other states or localities will enact legislation in these areas, and the precise nature of such legislation if enacted, cannot be predicted. Altria Group, Inc.'s tobacco subsidiaries have challenged and will continue to challenge certain state and local legislation, including through litigation. For example, in January 2014, PM USA, Middleton and a USSTC subsidiary, along with other tobacco product manufacturers and three trade associations representing New York City retailers, filed a lawsuit in the U.S. District Court for the Southern District of New York challenging the coupon/discount ban included in a recently-enacted New York City ordinance on the grounds that it violates the First Amendment and is preempted by federal and state law. On June 18, 2014, the district court upheld the ordinance.

Federal Tobacco Quota Buy-Out

In October 2004, FETRA was signed into law. PM USA, Middleton and USSTC are subject to the requirements of FETRA. FETRA eliminated the federal tobacco quota and price support program through an industry-funded buy-out of tobacco growers and quota holders. The cost of the 10-year buy-out, which expires after the third quarter of 2014, is approximately \$9.5 billion and is being paid by manufacturers and importers of each kind of tobacco product subject to FET. The cost is being allocated based on the relative market shares of manufacturers and importers of each kind of such tobacco product.

In February 2011, PM USA filed a lawsuit in the U.S. District Court for the Eastern District of Virginia challenging the USDA's method for calculating the 2011 and future tobacco product class shares that are used to allocate liability for the industry payments that fund the FETRA buy-out described above. PM USA asserted in this litigation that the USDA violated FETRA, and imposed excessive FETRA assessments on PM USA, by failing to apply the most current FET rates enacted by Congress, which became effective in April 2009, in calculating the class share allocations. The Cigar Association of America has joined the litigation as a defendant intervenor. In October 2012, the district court denied PM USA's motion for summary judgment, granted the defendants' motion for summary judgment and dismissed the case. In December 2012, PM USA filed a notice of appeal to the U.S. Court of Appeals for the Fourth Circuit. Oral argument was held in September 2013. In November 2013, the Fourth Circuit affirmed the district court's decision granting summary judgment.

For a discussion of the impact of the State Settlement Agreements, FETRA and FDA user fee payments on Altria Group, Inc., see *Financial Review - Debt and Liquidity - Payments Under State Settlement and Other Tobacco Agreements, and FDA Regulation* below. We do not anticipate that the quota buy-out will have a material adverse impact on our consolidated results in 2014.

Health Effects of Tobacco Consumption and Exposure to Environmental Tobacco Smoke ("ETS")

It is the policy of Altria Group, Inc. and its tobacco subsidiaries to defer to the judgment of public health authorities as to the content of warnings in advertisements and on product packaging regarding the health effects of tobacco consumption, addiction and exposure to ETS. Altria Group, Inc. and its tobacco subsidiaries believe that the public should be guided by the messages of the United States Surgeon General and public health authorities worldwide in making decisions concerning the use of tobacco products.

Reports with respect to the health effects of smoking have been publicized for many years, including in a January 2014 United States Surgeon General report titled "The Health Consequences of Smoking - 50 Years of Progress" and in a June 2006 United States Surgeon General report on ETS titled "The Health Consequences of Involuntary Exposure to Tobacco Smoke."

Most jurisdictions within the United States have restricted smoking in public places. Some public health groups have called for, and various jurisdictions have adopted or proposed, bans on smoking in outdoor places, in private apartments and in cars transporting minors. It is not possible to predict the results of ongoing scientific research or the types of future scientific research into the health risks of tobacco exposure and the impact of such research on regulation.

Other Legislation or Governmental Initiatives

In addition to the actions discussed above, other regulatory initiatives affecting the tobacco industry have been adopted or are being considered at the federal level and in a number of state and local jurisdictions. For example, in recent years, legislation has been introduced or enacted at the state or local level to subject tobacco products to various reporting requirements and performance standards (such as reduced cigarette ignition propensity standards); establish educational campaigns relating to tobacco consumption or tobacco control programs, or provide additional funding for governmental tobacco control activities; restrict the sale of tobacco products in certain retail establishments and the sale of tobacco products in certain package sizes; require tax stamping of moist smokeless tobacco ("MST") products; require the use of state tax stamps using data encryption technology; and further restrict the sale, marketing and advertising of cigarettes and other tobacco products. Such legislation may be subject to constitutional or other challenges on various grounds, which may or may not be successful.

It is not possible to predict what, if any, additional legislation, regulation or other governmental action will be enacted or implemented (and, if challenged, upheld) relating to the manufacturing, design, packaging, marketing, advertising, sale or use of tobacco products, or the tobacco industry generally. It is possible, however, that legislation, regulation or other governmental action could be enacted or implemented that might materially adversely affect the business and volume of our tobacco subsidiaries and our consolidated results of operations and cash flows.

Governmental Investigations

From time to time, Altria Group, Inc. and its subsidiaries are subject to governmental investigations on a range of matters. Altria Group, Inc. and its subsidiaries cannot predict whether new investigations may be commenced.

Illicit Trade in Tobacco Products

Illicit trade in tobacco products can have an adverse impact on the businesses of Altria Group, Inc. and its tobacco subsidiaries. Illicit trade can take many forms, including the sale of counterfeit tobacco products; the sale of tobacco products in the United States that are intended for sale outside the country; the sale of tobacco products over the Internet and by other means designed to avoid the collection of applicable taxes; and diversion into one taxing jurisdiction of tobacco products intended for sale in another. Counterfeit tobacco products, for example, are manufactured by unknown third parties in unregulated environments. Counterfeit versions of PM USA, USSTC or Middleton products can negatively affect adult tobacco consumer experiences with and opinions of those brands. Illicit trade in tobacco products also harms law-abiding wholesalers and retailers by depriving them of lawful sales and undermines the significant investment Altria Group, Inc.'s tobacco subsidiaries have made in legitimate distribution channels. Moreover, illicit trade in tobacco products results in federal, state and local governments losing tax revenues. Losses in tax revenues can cause such governments to take various actions, including increasing excise taxes; imposing legislative or regulatory requirements that may adversely impact Altria Group, Inc.'s consolidated results of operations and cash flows and the businesses of its tobacco subsidiaries; or asserting claims against manufacturers of tobacco products or members of the trade channels through which such tobacco products are distributed and sold.

Altria Group, Inc. and its tobacco subsidiaries devote significant resources to help prevent illicit trade in tobacco products and to protect legitimate trade channels. For example, Altria Group, Inc.'s tobacco subsidiaries are engaged in a number of initiatives to help prevent illicit trade in tobacco products, including communication with wholesale and retail trade members regarding illicit trade in tobacco products and how they can help prevent such activities; enforcement of wholesale and retail trade programs and policies that address illicit trade in tobacco products; engagement with and support of law enforcement and regulatory agencies; litigation to protect their trademarks; and support for a variety of federal and state legislative initiatives. Legislative initiatives to address illicit trade in tobacco products are designed to protect the legitimate channels of distribution, impose more stringent penalties for the violation of illegal trade laws and provide additional tools for law enforcement. Regulatory measures and related governmental actions to prevent the illicit manufacture and trade of tobacco products continue to evolve as the nature of illicit tobacco products evolves.

Tobacco Price, Availability and Quality

Shifts in crops driven by economic conditions and adverse weather patterns, government mandated prices and production control programs may increase or decrease the cost or reduce the quality of tobacco and other agricultural products used to manufacture our products. As with other agriculture commodities, the price of tobacco leaf can be influenced by economic conditions and imbalances in supply and demand and crop quality and availability can be influenced by variations in weather patterns, including those caused by climate change. Tobacco production in certain countries is subject to a variety of controls, including government mandated prices and production control programs. Changes in the patterns of demand for agricultural products and the cost of tobacco production could impact tobacco leaf prices and tobacco supply. Any significant change in tobacco leaf prices, quality or availability could affect our tobacco subsidiaries' profitability and business.

Timing of Sales

In the ordinary course of business, our tobacco subsidiaries are subject to many influences that can impact the timing of sales to customers, including the timing of holidays and other annual or special events, the timing of promotions, customer incentive programs and customer inventory programs, as well as the actual or speculated timing of pricing actions and tax-driven price increases.

Operating Results

The following discussion compares operating results for the smokeable and smokeless products segments for the six and three months ended June 30, 2014, with the six and three months ended June 30, 2013.

	For the Six Months Ended June 30,			
	Net Revenues		Operating Companies Income	
	2014	2013	2014	2013
	(in millions)			
Smokeable products	\$ 10,569	\$ 10,646	\$ 3,320	\$ 3,646
Smokeless products	879	848	524	492
Total smokeable and smokeless products	<u>\$ 11,448</u>	<u>\$ 11,494</u>	<u>\$ 3,844</u>	<u>\$ 4,138</u>

	For the Three Months Ended June 30,			
	Net Revenues		Operating Companies Income	
	2014	2013	2014	2013
	(in millions)			
Smokeable products	\$ 5,611	\$ 5,678	\$ 1,789	\$ 1,726
Smokeless products	464	458	285	270
Total smokeable and smokeless products	<u>\$ 6,075</u>	<u>\$ 6,136</u>	<u>\$ 2,074</u>	<u>\$ 1,996</u>

Smokeable products segment

The smokeable products segment's operating companies income (which includes higher NPM Adjustment Items for the six months ended June 30, 2013) decreased during the first half of 2014 and increased during the three months ended June 30, 2014 versus the prior-year periods. PM USA grew *Marlboro*'s and its total cigarette category retail share versus both prior-year periods.

The following table summarizes smokeable products segment shipment volume performance:

	Shipment Volume					
	For the Six Months Ended June 30,			For the Three Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
	(sticks in millions)					
Cigarettes:						
<i>Marlboro</i>	52,495	54,554	(3.8)%	27,679	29,119	(4.9)%
Other premium	3,458	3,822	(9.5)%	1,829	2,040	(10.3)%
Discount	4,930	4,944	(0.3)%	2,626	2,660	(1.3)%
Total cigarettes	60,883	63,320	(3.8)%	32,134	33,819	(5.0)%
Cigars:						
<i>Black & Mild</i>	590	563	4.8 %	320	294	8.8 %
Other	15	8	87.5 %	11	4	100%+
Total cigars	605	571	6.0 %	331	298	11.1 %
Total smokeable products	61,488	63,891	(3.8)%	32,465	34,117	(4.8)%

Cigarettes shipment volume includes *Marlboro*; Other premium brands, such as *Virginia Slims*, *Parliament* and *Benson & Hedges*; and Discount brands, which include *L&M* and *Basic*. Cigarettes volume includes units sold as well as promotional units, but excludes units sold in Puerto Rico and U.S. Territories, to Overseas Military and by Philip Morris Duty Free Inc., none of which, individually or in the aggregate, is material to the smokeable products segment.

The following table summarizes the smokeable products segment retail share performance:

	Retail Share					
	For the Six Months Ended June 30,			For the Three Months Ended June 30,		
	2014	2013	Percentage Point Change	2014	2013	Percentage Point Change
Cigarettes:						
<i>Marlboro</i>	43.8%	43.7%	0.1	44.0%	43.7%	0.3
Other premium	2.9	3.1	(0.2)	2.9	3.1	(0.2)
Discount	4.1	3.8	0.3	4.1	3.9	0.2
Total cigarettes	50.8%	50.6%	0.2	51.0%	50.7%	0.3
Cigars:						
<i>Black & Mild</i>	28.6%	28.7%	(0.1)	29.0%	29.4%	(0.4)
Other	0.3	0.2	0.1	0.4	0.2	0.2
Total cigars	28.9%	28.9%	—	29.4%	29.6%	(0.2)

Retail share results for cigarettes are based on data from IRI/Management Science Associate Inc., a tracking service that uses a sample of stores and certain wholesale shipments to project market share and depict share trends. Retail share results for cigars are based on data from IRI InfoScan, a tracking service that uses a sample of stores to project market share and depict share trends. Both services track sales in the Food, Drug and Mass Merchandisers (including Wal-Mart), Convenience, Military, Dollar Store and Club trade classes. For other trade classes selling cigarettes, retail share is based on shipments from wholesalers to retailers through the Store Tracking Analytical Reporting System ("STARS"). These services are not designed to

[Table of Contents](#)

capture sales through other channels, including the internet, direct mail and some illicitly tax-advantaged outlets. Retail share results for cigars are based on data for machine-made large cigars. Middleton defines machine-made large cigars as cigars made by machine that weigh greater than three pounds per thousand, except cigars sold at retail in packages of 20 cigars. Because the cigars service represents retail share performance only in key trade channels, it should not be considered a precise measurement of actual retail share. It is IRI's standard practice to periodically refresh its services, which could restate retail share results that were previously released in these services.

PM USA and Middleton executed the following pricing and promotional allowance actions during 2014 and 2013:

- Effective May 11, 2014, PM USA reduced its wholesale promotional allowance on *Marlboro* and *L&M* by \$0.06 per pack. In addition, PM USA increased the list price on all of its other cigarette brands by \$0.06 per pack, except for *Parliament*, which PM USA increased by \$0.11 per pack.
- Effective December 1, 2013, PM USA reduced its wholesale promotional allowance on *Marlboro* and *L&M* by \$0.07 per pack. In addition, PM USA increased the list price on all of its other cigarette brands by \$0.07 per pack.
- Effective June 10, 2013, PM USA reduced its wholesale promotional allowance on *Marlboro* and *L&M* by \$0.06 per pack. In addition, PM USA increased the list price on all of its other cigarette brands by \$0.06 per pack.

Net revenues, which include excise taxes billed to customers, for the six months ended June 30, 2014, decreased \$77 million (0.7%), due primarily to lower shipment volume (\$453 million), partially offset by higher pricing, which includes higher promotional investments. Operating companies income for the six months ended June 30, 2014 decreased \$326 million (8.9%), due primarily to higher NPM Adjustment Items in 2013 (\$476 million) and lower shipment volume (\$226 million), partially offset by higher pricing, which includes higher promotional investments.

Net revenues, which include excise taxes billed to customers, for the three months ended June 30, 2014, decreased \$67 million (1.2%) as lower shipment volume (\$304 million) was partially offset by higher pricing. Operating companies income for the three months ended June 30, 2014 increased \$63 million (3.7%), due primarily to higher pricing, partially offset by lower shipment volume (\$152 million) and higher per unit settlement charges.

Total smokeable products shipment volume for the six and three months ended June 30, 2014 decreased 3.8% and 4.8%, respectively, versus the prior-year periods.

PM USA's reported domestic cigarettes shipment volume decreased 3.8% for the six months ended June 30, 2014, due primarily to the industry's decline, partially offset by retail share gains. PM USA's reported domestic cigarettes shipment volume decreased 5.0% for the three months ended June 30, 2014, driven by the industry's decline and wholesale inventory reductions in the second quarter of 2014, following elevated inventory levels in the first quarter of 2014. When adjusted for trade inventory changes and other factors, PM USA estimates that its first-half and second quarter 2014 domestic cigarettes shipment volume decreased approximately 4%. PM USA estimates total industry cigarette volumes declined approximately 4.5% in both periods.

PM USA's shipments of premium cigarettes accounted for 91.9% and 91.8% of its reported domestic cigarettes shipment volume for the six and three months ended June 30, 2014, respectively, versus 92.2% and 92.1%, for the six and three months ended June 30, 2013, respectively.

Middleton's reported cigars shipment volume for the first half and second quarter of 2014 increased 6.0% and 11.1%, respectively, driven by *Black & Mild's* performance in the tipped cigars segment and the expansion of *Royal Comfort* untipped cigarillos in select geographies.

Marlboro's retail share for the first half and second quarter of 2014 increased 0.1 and 0.3 share points, respectively, versus the prior-year periods.

PM USA's first-half and second quarter of 2014 retail share increased 0.2 and 0.3 share points, respectively, versus the prior-year periods, due to retail share gains by *Marlboro*, and by *L&M* in Discount, partially offset by share losses on other portfolio brands.

In the machine-made large cigars category, *Black & Mild's* retail share decreased 0.1 and 0.4 share points in the first half and second quarter of 2014, respectively, compared to the prior-year periods.

Smokeless products segment

In both the first half and second quarter of 2014, USSTC and PM USA grew operating companies income and expanded operating companies income margins versus the prior-year periods. USSTC also increased *Copenhagen* and *Skoal*'s combined volume and retail share during the six and three months ended June 30, 2014 versus the prior-year periods.

The following table summarizes smokeless products segment shipment volume performance:

	Shipment Volume					
	For the Six Months Ended June 30,			For the Three Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
	(cans and packs in millions)					
<i>Copenhagen</i>	218.9	200.2	9.3 %	115.0	106.7	7.8 %
<i>Skoal</i>	133.3	138.2	(3.5)%	69.3	73.8	(6.1)%
<i>Copenhagen and Skoal</i>	352.2	338.4	4.1 %	184.3	180.5	2.1 %
Other	37.7	37.8	(0.3)%	19.5	20.0	(2.5)%
Total smokeless products	389.9	376.2	3.6 %	203.8	200.5	1.6 %

Smokeless products shipment volume includes cans and packs sold, as well as promotional units, but excludes international volume, which is not material to the smokeless products segment. Other includes certain USSTC and PM USA smokeless products. New types of smokeless products, as well as new packaging configurations of existing smokeless products, may or may not be equivalent to existing MST products on a can-for-can basis. To calculate volumes of cans and packs shipped, USSTC and PM USA have assumed that one pack of snus, irrespective of the number of pouches in the pack, is equivalent to one can of MST.

The following table summarizes smokeless products segment retail share performance (excluding international volume):

	Retail Share					
	For the Six Months Ended June 30,			For the Three Months Ended June 30,		
	2014	2013	Percentage Point Change	2014	2013	Percentage Point Change
<i>Copenhagen</i>	30.4%	28.9%	1.5	30.5%	29.0%	1.5
<i>Skoal</i>	20.6	21.8	(1.2)	20.6	21.7	(1.1)
<i>Copenhagen and Skoal</i>	51.0	50.7	0.3	51.1	50.7	0.4
Other	4.0	4.3	(0.3)	4.0	4.3	(0.3)
Total smokeless products	55.0%	55.0%	—	55.1%	55.0%	0.1

Retail share results for smokeless products are based on data from IRI InfoScan, a tracking service that uses a sample of stores to project market share and depict share trends. The service tracks sales in the Food, Drug and Mass Merchandisers (including Wal-Mart), Convenience, Military, Dollar Store and Club trade classes on the number of cans and packs sold. Smokeless products is defined by IRI as moist smokeless and spit-free tobacco products. Other includes certain USSTC and PM USA smokeless products. New types of smokeless products, as well as new packaging configurations of existing smokeless products, may or may not be equivalent to existing MST products on a can-for-can basis. USSTC and PM USA have assumed that one pack of snus, irrespective of the number of pouches in the pack, is equivalent to one can of MST. All other products are considered to be equivalent on a can-for-can basis. Because this service represents retail share performance only in key trade channels, it should not be considered a precise measurement of actual retail share. It is IRI's standard practice to periodically refresh its InfoScan services, which could restate retail share results that were previously released in this service.

USSTC and PM USA executed the following pricing actions during 2014 and 2013:

- Effective May 11, 2014, USSTC increased the list price on all of its brands by \$0.06 per can.
- Effective May 11, 2014, PM USA increased the list price on *Marlboro* Snus tins and flip-top box ("FTB") by \$0.06 per tin or FTB.
- Effective December 8, 2013, USSTC increased the list price on all of its brands by \$0.06 per can.

[Table of Contents](#)

- Effective December 1, 2013, PM USA increased the list price on *Marlboro* Snus tins and FTB by \$0.06 per tin or FTB.
- Effective May 13, 2013, PM USA increased the list price on *Marlboro* Snus tins and FTB by \$0.05 per tin or FTB.
- Effective May 12, 2013, USSTC increased the list price on all of its brands by \$0.05 per can.

Net revenues, which include excise taxes billed to customers, for the six and three months ended June 30, 2014 increased \$31 million (3.7%) and \$6 million (1.3%), respectively, versus the prior-year periods, due primarily to higher volume and higher pricing, which includes higher promotional investments. Operating companies income for the six and three months ended June 30, 2014 increased \$32 million (6.5%) and \$15 million (5.6%), respectively, versus the prior-year periods, due primarily to higher pricing, which includes higher promotional investments, and higher shipment volume.

For the six and three months ended June 30, 2014, USSTC and PM USA's combined reported domestic smokeless products shipment volume increased 3.6% and 1.6%, respectively, as volume growth in *Copenhagen* was partially offset by volume declines in *Skoal* and Other portfolio brands.

Copenhagen and *Skoal*'s combined reported shipment volume for the first half and second quarter of 2014 increased 4.1% and 2.1%, respectively, versus the prior-year periods.

For both the first half of 2014 and the second quarter of 2014, trade inventory movements related to changes in *Skoal*'s promotional strategy negatively affected volume performance. After adjusting for calendar differences and trade inventory changes, USSTC and PM USA estimate that their combined domestic smokeless products shipment volume grew approximately 3.5% in both the first half and second quarter of 2014, while smokeless products category volume grew approximately 4.5% over the 12 months ended June 30, 2014.

Copenhagen and *Skoal*'s combined retail share increased 0.3 and 0.4 share points in the first half and second quarter of 2014, respectively. *Copenhagen*'s retail share increased 1.5 share points in both the first half and second quarter of 2014, driven primarily by *Copenhagen* Long Cut Wintergreen. For the first-half of 2014, *Skoal*'s retail share declined 1.2 share points. *Skoal*'s retail share declined 1.1 share points in the second quarter of 2014, while its sequential retail share was unchanged.

USSTC and PM USA's combined smokeless products retail share for the first half of 2014 was unchanged. USSTC and PM USA's combined smokeless products retail share for the second quarter of 2014 increased 0.1 share point, as retail share gains for *Copenhagen* were mostly offset by share losses for *Skoal* and Other portfolio brands.

Wine segment

Business Environment

Ste. Michelle is a leading producer of Washington state wines, primarily *Chateau Ste. Michelle*, *Columbia Crest* and *14 Hands*, and owns wineries in or distributes wines from several other wine regions and foreign countries. Ste. Michelle holds an 85% ownership interest in Michelle-Antinori, LLC, which owns *Stag's Leap Wine Cellars* in Napa Valley. Ste. Michelle also owns *Conn Creek* in Napa Valley and *Erath* in Oregon. In addition, Ste. Michelle imports and markets *Antinori*, *Torres* and *Villa Maria Estate* wines and *Champagne Nicolas Feuillatte* in the United States. Key elements of Ste. Michelle's strategy are expanded domestic distribution of its wines, especially in certain account categories such as restaurants, wholesale clubs, supermarkets, wine shops and mass merchandisers, and a focus on improving product mix to higher-priced, premium products.

Ste. Michelle's business is subject to significant competition, including competition from many larger, well-established domestic and international companies, as well as from many smaller wine producers. Wine segment competition is primarily based on quality, price, consumer and trade wine tastings, competitive wine judging, third-party acclaim and advertising. Substantially all of Ste. Michelle's sales occur through state-licensed distributors.

Federal, state and local governmental agencies regulate the alcohol beverage industry through various means, including licensing requirements, pricing, labeling and advertising restrictions, and distribution and production policies. Further regulatory restrictions or additional excise or other taxes on the manufacture and sale of alcoholic beverages may have an adverse effect on Ste. Michelle's wine business.

[Table of Contents](#)

Operating Results

Ste. Michelle increased its net revenues and operating companies income for the first half and second quarter of 2014, due primarily to higher pricing and higher shipment volume.

The following discussion compares wine segment results for the six and three months ended June 30, 2014, with the six and three months ended June 30, 2013.

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions)			
Net revenues	\$ 275	\$ 263	\$ 146	\$ 137
Operating companies income	\$ 50	\$ 45	\$ 28	\$ 25

The following table summarizes wine segment case shipment volume performance:

	Shipment Volume					
	For the Six Months Ended June 30,			For the Three Months Ended June 30,		
	2014	2013	Change	2014	2013	Change
	(cases in thousands)					
<i>Chateau Ste. Michelle</i>	1,304	1,184	10.1 %	731	654	11.8 %
<i>Columbia Crest</i> ¹	378	452	(16.4)%	186	225	(17.3)%
<i>14 Hands</i>	757	653	15.9 %	371	336	10.4 %
Other ¹	1,151	1,247	(7.7)%	599	636	(5.8)%
Total wine	3,590	3,536	1.5 %	1,887	1,851	1.9 %

¹ *Two Vines* is no longer sold under the *Columbia Crest* brand. Effective January 1, 2014, shipment volume for *Two Vines* is included in "Other." Prior-period shipment volume for *Columbia Crest* and Other have been adjusted to reflect this change.

Net revenues, which include excise taxes billed to customers, for the six and three months ended June 30, 2014, increased \$12 million (4.6%) and \$9 million (6.6%), respectively, versus the prior-year periods, due primarily to higher pricing and higher shipment volume. Operating companies income for the six and three months ended June 30, 2014 increased \$5 million (11.1%) and \$3 million (12.0%), respectively, versus the prior-year periods, due primarily to higher pricing and higher shipment volume, partially offset by higher costs.

For the the six and three months ended June 30, 2014, Ste. Michelle's reported wine shipment volume grew 1.5% and 1.9%, respectively, versus the prior-year periods as increased volume of *Chateau Ste. Michelle* and *14 Hands* was mostly offset by declines in *Columbia Crest* and Other brands.

Financial Review

Net Cash Provided by Operating Activities

During the first six months of 2014, net cash provided by operating activities was \$759 million compared with \$441 million during the first six months of 2013. This increase was due primarily to the following:

- a voluntary \$350 million contribution to Altria Group, Inc.'s pension plans during the six months ended June 30, 2013; and
- the timing of payments related to accounts payable and other working capital requirements;

partially offset by:

- higher settlement payments during 2014, driven primarily by the impact of higher NPM Adjustment Items in 2013.

[Table of Contents](#)

Altria Group, Inc. had a working capital deficit at June 30, 2014 and December 31, 2013. Altria Group, Inc.'s management believes that it has the ability to fund these working capital deficits with cash provided by operating activities and/or short-term borrowings under its commercial paper program as discussed in the *Debt and Liquidity* section below.

Net Cash Provided by Investing Activities

During the first six months of 2014, net cash provided by investing activities was \$102 million compared with \$239 million during the first six months of 2013. This decrease was due primarily to the following:

- Nu Mark's acquisition of Green Smoke during the second quarter of 2014; and
- lower proceeds from asset sales in the financial services business during the first six months of 2014;

partially offset by:

- the sale of PM USA's Cabarrus, North Carolina manufacturing facility during the second quarter of 2014.

Net Cash Used in Financing Activities

During the first six months of 2014, net cash used in financing activities was \$2,843 million compared with \$1,009 million during the first six months of 2013. This increase was due primarily to the following:

- debt issuances during the first six months of 2013;
- \$525 million repayment of Altria Group, Inc. senior unsecured notes at scheduled maturity during the first six months of 2014;
- higher share repurchases during the first six months of 2014; and
- higher dividends paid during the first six months of 2014.

Debt and Liquidity

Credit Ratings - Altria Group, Inc.'s cost and terms of financing and its access to commercial paper markets may be impacted by applicable credit ratings. Under the terms of certain of Altria Group, Inc.'s existing debt instruments, a change in a credit rating could result in an increase or a decrease of the cost of borrowings. For instance, the interest rate payable on certain of Altria Group, Inc.'s outstanding notes is subject to adjustment from time to time if the rating assigned to the notes of such series by Moody's Investors Service, Inc. ("Moody's") or Standard & Poor's Ratings Services ("Standard & Poor's") is downgraded (or subsequently upgraded) as and to the extent set forth in the notes. The impact of credit ratings on the cost of borrowings under Altria Group, Inc.'s credit agreement is discussed below.

At June 30, 2014, the credit ratings and outlook for Altria Group, Inc.'s indebtedness by major credit rating agencies were:

	Short-term Debt	Long-term Debt	Outlook
Moody's	P-2	Baa1	Stable
Standard & Poor's ¹	A-2	BBB+	Stable
Fitch	F2	BBB+	Stable

¹ On March 12, 2014, Standard & Poor's raised the long-term debt credit rating for Altria Group, Inc. to "BBB+" from "BBB".

Credit Lines - From time to time, Altria Group, Inc. has short-term borrowing needs to meet its working capital requirements and generally uses its commercial paper program to meet those needs. At June 30, 2014 and 2013, and at December 31, 2013, there were no short-term borrowings outstanding.

For the six and three months ended June 30, 2014 and 2013, Altria Group, Inc.'s average daily short-term borrowings, peak short-term borrowings outstanding and weighted-average interest rate on short-term borrowings were as follows:

[Table of Contents](#)

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(dollars in millions)			
Average daily short-term borrowings	\$ 71	\$ 74	\$ 142	\$ 148
Peak short-term borrowings outstanding	\$ 650	\$ 650	\$ 650	\$ 650
Weighted-average interest rate on short-term borrowings	0.27%	0.34%	0.27%	0.34%

Short-term borrowings were repaid with cash provided by operating activities. Peak borrowings for the six and three months ended June 30, 2014 and 2013 were due primarily to payments related to State Settlement Agreements as further discussed in *Payments Under State Settlement and Other Tobacco Agreements, and FDA Regulation, Tobacco Space - Business Environment* and Note 9.

At June 30, 2014, Altria Group, Inc. had in place a senior unsecured 5-year revolving credit agreement (the “Credit Agreement”). The Credit Agreement provides for borrowings up to an aggregate principal amount of \$3.0 billion and expires on August 19, 2018, with an option, subject to certain conditions, for Altria Group, Inc. to extend the expiration date for two additional one-year periods. Pricing for interest and fees under the Credit Agreement may be modified in the event of a change in the rating of Altria Group, Inc.’s long-term senior unsecured debt. Interest rates on borrowings under the Credit Agreement are expected to be based on the London Interbank Offered Rate (“LIBOR”) plus a percentage based on the higher of the ratings of Altria Group, Inc.’s long-term senior unsecured debt from Standard & Poor’s and Moody’s. The applicable percentage based on Altria Group, Inc.’s long-term senior unsecured debt ratings at June 30, 2014 for borrowings under the Credit Agreement was 1.25%. The Credit Agreement does not include any other rating triggers, nor does it contain any provisions that could require the posting of collateral. At June 30, 2014, credit available to Altria Group, Inc. under the Credit Agreement was \$3.0 billion.

The Credit Agreement is used for general corporate purposes and to support Altria Group, Inc.’s commercial paper issuances. The Credit Agreement requires that Altria Group, Inc. maintain (i) a ratio of debt to consolidated earnings before interest, taxes, depreciation and amortization (“EBITDA”) of not more than 3.0 to 1.0 and (ii) a ratio of consolidated EBITDA to consolidated interest expense of not less than 4.0 to 1.0, each calculated as of the end of the applicable quarter on a rolling four quarters basis. At June 30, 2014, the ratios of debt to consolidated EBITDA and consolidated EBITDA to consolidated interest expense, calculated in accordance with the Credit Agreement, were 1.7 to 1.0 and 8.7 to 1.0, respectively. Altria Group, Inc. expects to continue to meet its covenants associated with the Credit Agreement. The terms “consolidated EBITDA,” “debt” and “consolidated interest expense,” as defined in the Credit Agreement, include certain adjustments. Exhibit 99.3 to Altria Group, Inc.’s Form 10-Q for the period ended September 30, 2013 sets forth the definitions of these terms as they appear in the Credit Agreement and is incorporated herein by reference.

Any commercial paper issued by Altria Group, Inc. and borrowings under the Credit Agreement are guaranteed by PM USA as further discussed in Note 10. *Condensed Consolidating Financial Information* to the condensed consolidated financial statements in Item 1 (“Note 10”).

Financial Market Environment - Altria Group, Inc. believes it has adequate liquidity and access to financial resources to meet its anticipated obligations and ongoing business needs in the foreseeable future. Altria Group, Inc. continues to monitor the credit quality of its bank group and is not aware of any potential non-performing credit provider in that group. Altria Group, Inc. believes the lenders in its bank group will be willing and able to advance funds in accordance with their legal obligations.

Debt - At June 30, 2014 and December 31, 2013, Altria Group, Inc.’s total debt was \$14.0 billion and \$14.5 billion, respectively.

During the first quarter of 2014, Altria Group, Inc. repaid in full at maturity senior unsecured notes in the aggregate principal amount of \$525 million.

Guarantees and Other Similar Matters - As discussed in Note 9, at June 30, 2014, Altria Group, Inc. and certain of its subsidiaries had unused letters of credit, guarantees (including third-party guarantees) and a redeemable noncontrolling interest outstanding. From time to time, subsidiaries of Altria Group, Inc. also issue lines of credit to affiliated entities. In addition, as discussed in Note 10, PM USA has issued guarantees related to Altria Group, Inc.’s obligations under its

[Table of Contents](#)

outstanding debt securities, borrowings under the Credit Agreement and amounts outstanding under its commercial paper program. These items have not had, and are not expected to have, a significant impact on Altria Group, Inc.'s liquidity.

Payments Under State Settlement and Other Tobacco Agreements, and FDA Regulation - As discussed previously and in Note 9, PM USA has entered into State Settlement Agreements with the states and territories of the United States. PM USA also entered into a trust agreement to provide certain aid to U.S. tobacco growers and quota holders, but PM USA's obligations under this trust expired on December 15, 2010 (these obligations had been offset by the obligations imposed on PM USA by FETRA, which expires after the third quarter of 2014). USSTC and Middleton are also subject to obligations imposed by FETRA. In addition, in June 2009, PM USA and a subsidiary of USSTC became subject to quarterly user fees imposed by the FDA as a result of the FSPTCA. The State Settlement Agreements, FETRA and the FDA user fees call for payments that are based on variable factors, such as volume, market share and inflation, depending on the subject payment. Altria Group, Inc.'s subsidiaries account for the cost of the State Settlement Agreements, FETRA and FDA user fees as a component of cost of sales. As a result of the State Settlement Agreements, FETRA and FDA user fees, Altria Group, Inc.'s subsidiaries recorded approximately \$2.4 billion and \$2.0 billion of charges to cost of sales for the six months ended June 30, 2014 and 2013, respectively, and approximately \$1.3 billion of charges to cost of sales for the three month periods ended June 30, 2014 and 2013. The 2014 amounts included reductions to cost of sales of \$43 million for the six and three months ended June 30, 2014 for the NPM Adjustment Items. The 2013 amounts included reductions to cost of sales of \$519 million and \$36 million for the six and three months ended June 30, 2013, respectively, for the NPM Adjustment Items.

In connection with the settlement of the NPM Adjustment disputes under the MSA for the years 2003 - 2012, the formula for allocating the revised NPM Adjustments applicable to the signatory states for 2013 and subsequent years among the tobacco product manufacturers that are original signatories to the MSA ("OPMs") has been modified in a manner favorable to PM USA, although the extent to which it remains favorable to PM USA will depend upon certain future events, including the future relative market shares of the OPMs. For a detailed discussion of settlements of, and determinations made in connection with disputes with certain states related to the NPM Adjustment provision under the MSA for the years 2003 - 2012, see *Health Care Cost Recovery Litigation - Possible Adjustments in MSA Payments for 2003 - 2013* in Note 9.

Based on current agreements, 2013 market share and historical annual industry volume decline rates, the estimated amounts that Altria Group, Inc.'s subsidiaries may charge to cost of sales for payments related to State Settlement Agreements, FETRA and FDA user fees approximate \$5 billion in 2014 and \$4.6 billion each year thereafter. These amounts reflect the expiration of obligations imposed by FETRA after the third quarter of 2014, which will result in a decrease in the charge to cost of sales of approximately \$100 million in 2014 and approximately \$400 million starting in 2015. These amounts exclude the potential impact of the revised and streamlined NPM Adjustment provision applicable to signatory states for years after 2014 discussed above and also exclude the adjustments described below.

The estimated amounts due under the State Settlement Agreements and FETRA charged to cost of sales in each year would generally be paid in the following year. The amounts charged to cost of sales for FDA user fees are generally paid in the quarter in which the fees are incurred. As previously stated, the payments due under the terms of the State Settlement Agreements, FETRA and FDA user fees are subject to adjustment for several factors, including volume, inflation and certain contingent events and, in general, are allocated based on each manufacturer's market share. The future payment amounts discussed above are estimates, and actual payment amounts will differ to the extent underlying assumptions differ from actual future results.

Litigation Escrow Deposits - With respect to certain adverse verdicts currently on appeal, to obtain stays of judgments pending appeals, as of June 30, 2014, PM USA had posted various forms of security totaling approximately \$42 million, the majority of which has been collateralized with cash deposits. These cash deposits are included in other assets on the condensed consolidated balance sheet.

Although litigation is subject to uncertainty and an adverse outcome or settlement of litigation could have a material adverse effect on the financial position, cash flows or results of operations of PM USA, UST or Altria Group, Inc. in a particular fiscal quarter or fiscal year, as more fully disclosed in Note 9 and in *Cautionary Factors That May Affect Future Results* management expects cash flow from operations, together with Altria Group, Inc.'s access to capital markets, to provide sufficient liquidity to meet ongoing business needs.

Leases - PMCC's investment in leases is included in the line item finance assets, net, on Altria Group, Inc.'s condensed consolidated balance sheets as of June 30, 2014 and December 31, 2013. At June 30, 2014, PMCC's net finance receivables of approximately \$1.7 billion in leveraged leases, which are included in finance assets, net, on Altria Group, Inc.'s condensed consolidated balance sheet, consisted of rents receivable (\$3.5 billion) and the residual value of assets under lease (\$0.9

[Table of Contents](#)

billion), reduced by third-party nonrecourse debt (\$2.2 billion) and unearned income (\$0.5 billion). The repayment of the nonrecourse debt is collateralized by lease payments receivable and the leased property, and is nonrecourse to the general assets of PMCC. As required by U.S. GAAP, the third-party nonrecourse debt has been offset against the related rents receivable and has been presented on a net basis within finance assets, net, on Altria Group, Inc.'s condensed consolidated balance sheets. Finance assets, net, of \$1.8 billion at June 30, 2014, also included net finance receivables for direct finance leases and an allowance for losses.

Equity and Dividends

On January 28, 2014, Altria Group, Inc. granted an aggregate of 1.4 million shares of restricted and deferred stock to eligible employees. Restrictions on these shares lapse in the first quarter of 2017. The market value per share was \$36.73 on the date of grant.

During the six months ended June 30, 2014, 1.6 million shares of restricted and deferred stock vested. The total fair value of restricted and deferred stock that vested during the six months ended June 30, 2014 was \$55 million. The weighted-average grant date fair value per share of these awards was \$24.36.

Dividends paid during the first six months of 2014 and 2013 were \$1,912 million and \$1,769 million, respectively, an increase of 8.1%, reflecting a higher dividend rate, partially offset by fewer shares outstanding as a result of shares repurchased by Altria Group, Inc. under its share repurchase programs discussed below. Altria Group, Inc. expects to continue to maintain a dividend payout ratio target of approximately 80% of its adjusted diluted EPS. The current annualized dividend rate is \$1.92 per Altria Group, Inc. common share. Future dividend payments remain subject to the discretion of Altria Group, Inc.'s Board of Directors (the "Board of Directors").

Altria Group, Inc.'s share repurchase activity was as follows:

	For the Six Months Ended June 30,		For the Three Months Ended June 30,	
	2014	2013	2014	2013
	(in millions, except per share data)			
Total number of shares repurchased	10.8	5.4	3.3	3.7
Aggregate cost of shares repurchased	\$ 404	\$ 192	\$ 132	\$ 135
Average price per share of shares repurchased	\$ 37.40	\$ 35.58	\$ 40.72	\$ 36.27

At June 30, 2014, Altria Group, Inc. had approximately \$53 million remaining in its current \$1.0 billion share repurchase program, which it expects to complete by the end of the third quarter of 2014. In July 2014, the Board of Directors authorized a new \$1.0 billion share repurchase program (the "July 2014 share repurchase program") that Altria Group, Inc. intends to commence upon the completion of its current share repurchase program. Altria Group, Inc. expects to complete the July 2014 share repurchase program by the end of 2015. The timing of share repurchases under Altria Group, Inc.'s share repurchase programs depends upon marketplace conditions and other factors, and the programs remain subject to the discretion of the Board of Directors.

For further discussion of Altria Group, Inc.'s share repurchase programs, see Note 1. *Background and Basis of Presentation* to the condensed consolidated financial statements in Item 1.

Recent Accounting Guidance Not Yet Adopted

See Note 11. *Recent Accounting Guidance Not Yet Adopted* to the condensed consolidated financial statements in Item 1 for a discussion of recent accounting guidance issued but not yet adopted.

Contingencies

See Note 9 for a discussion of contingencies.

Cautionary Factors That May Affect Future Results

Forward-Looking and Cautionary Statements

We ⁽¹⁾ may from time to time make written or oral forward-looking statements, including earnings guidance and other statements contained in filings with the SEC, reports to security holders and press releases and investor webcasts. You can identify these forward-looking statements by use of words such as “strategy,” “expects,” “continues,” “plans,” “anticipates,” “believes,” “will,” “estimates,” “forecasts,” “intends,” “projects,” “goals,” “objectives,” “guidance,” “targets” and other words of similar meaning. You can also identify them by the fact that they do not relate strictly to historical or current facts.

We cannot guarantee that any forward-looking statement will be realized, although we believe we have been prudent in our plans and assumptions. Achievement of future results is subject to risks, uncertainties and assumptions that may prove to be inaccurate. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. You should bear this in mind as you consider forward-looking statements and whether to invest in or remain invested in Altria Group, Inc.’s securities. In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that, individually or in the aggregate, could cause actual results and outcomes to differ materially from those contained in any forward-looking statements made by us; any such statement is qualified by reference to the following cautionary statements. We elaborate on these and other risks we face throughout this Form 10-Q, particularly in the “Business Environment” sections preceding our discussion of operating results of our subsidiaries’ businesses above. You should understand that it is not possible to predict or identify all risk factors. Consequently, you should not consider the following to be a complete discussion of all potential risks or uncertainties. We do not undertake to update any forward-looking statement that we may make from time to time except as required by applicable law.

Unfavorable litigation outcomes could materially adversely affect the consolidated results of operations, cash flows or financial position of Altria Group, Inc., or the businesses of one or more of its subsidiaries.

Legal proceedings covering a wide range of matters are pending or threatened in various United States and foreign jurisdictions against Altria Group, Inc. and its subsidiaries, including PM USA and UST and its subsidiaries, as well as their respective indemnitees. Various types of claims may be raised in these proceedings, including product liability, consumer protection, antitrust, tax, contraband-related claims, patent infringement, employment matters, claims for contribution and claims of competitors and distributors.

Litigation is subject to uncertainty and it is possible that there could be adverse developments in pending or future cases. An unfavorable outcome or settlement of pending tobacco-related or other litigation could encourage the commencement of additional litigation. Damages claimed in some tobacco-related or other litigation are significant and, in certain cases, range in the billions of dollars. The variability in pleadings in multiple jurisdictions, together with the actual experience of management in litigating claims, demonstrate that the monetary relief that may be specified in a lawsuit bears little relevance to the ultimate outcome. In certain cases, plaintiffs claim that defendants’ liability is joint and several. In such cases, Altria Group, Inc. or its subsidiaries may face the risk that one or more co-defendants decline or otherwise fail to participate in the bonding required for an appeal or to pay their proportionate or jury-allocated share of a judgment. As a result, Altria Group, Inc. or its subsidiaries under certain circumstances may have to pay more than their proportionate share of any bonding- or judgment-related amounts. Furthermore, in those cases where plaintiffs are successful, Altria Group, Inc. or its subsidiaries may also be required to pay interest and attorneys’ fees.

Although PM USA has historically been able to obtain required bonds or relief from bonding requirements in order to prevent plaintiffs from seeking to collect judgments while adverse verdicts have been appealed, there remains a risk that such relief may not be obtainable in all cases. This risk has been substantially reduced given that 45 states and Puerto Rico now limit the dollar amount of bonds or require no bond at all. As discussed in Note 9, tobacco litigation plaintiffs have challenged the constitutionality of Florida’s bond cap statute in several cases and plaintiffs may challenge state bond cap statutes in other jurisdictions as well. Such challenges may include the applicability of state bond caps in federal court. Although we cannot predict the outcome of such challenges, it is possible that the consolidated results of operations, cash flows or financial position of Altria Group, Inc., or the businesses of one or more of its subsidiaries, could be materially adversely affected in a particular fiscal quarter or fiscal year by an unfavorable outcome of one or more such challenges.

In certain litigation, PM USA faces potentially significant non-monetary remedies. For example, in the lawsuit brought by the United States Department of Justice, discussed in Note 9, the district court did not impose monetary penalties but ordered significant non-monetary remedies, including the issuance of “corrective statements” in various media.

¹ This section uses the terms “we,” “our” and “us” when it is not necessary to distinguish among Altria Group, Inc. and its various operating subsidiaries or when any distinction is clear from the context.

[Table of Contents](#)

Altria Group, Inc. and its subsidiaries have achieved substantial success in managing litigation. Nevertheless, litigation is subject to uncertainty and significant challenges remain.

It is possible that the consolidated results of operations, cash flows or financial position of Altria Group, Inc., or the businesses of one or more of its subsidiaries, could be materially adversely affected in a particular fiscal quarter or fiscal year by an unfavorable outcome or settlement of certain pending litigation. Altria Group, Inc. and each of its subsidiaries named as a defendant believe, and each has been so advised by counsel handling the respective cases, that it has valid defenses to the litigation pending against it, as well as valid bases for appeal of adverse verdicts. Each of the companies has defended, and will continue to defend, vigorously against litigation challenges. However, Altria Group, Inc. and its subsidiaries may enter into settlement discussions in particular cases if they believe it is in the best interests of Altria Group, Inc. to do so. See Note 9 and Exhibits 99.1 and 99.2 to this Form 10-Q for a discussion of pending tobacco-related litigation.

Altria Group, Inc.'s tobacco subsidiaries are subject to significant governmental and private sector actions intended to reduce or prevent tobacco use, which, together with the diminishing social acceptance of smoking, have resulted, and are expected to continue to result, in reduced cigarette industry volume.

Our tobacco subsidiaries face significant governmental and private sector action, including efforts aimed at reducing the incidence of tobacco use; restricting marketing and advertising; imposing regulations on packaging; requiring warnings and disclosure of flavors or other ingredients; prohibiting the sale of tobacco products with certain characterizing flavors or other characteristics; requiring pre-market authorization of certain tobacco products; limiting or prohibiting the sale of tobacco products by certain retail establishments and the sale of tobacco products in certain package sizes; and efforts seeking to hold them responsible for the adverse health effects associated with both smoking and exposure to environmental tobacco smoke.

PM USA, USSTC and other Altria Group, Inc. subsidiaries are subject to regulation, and may become subject to additional regulation, by the FDA, as discussed in detail in *Tobacco Space - Business Environment - FSPTCA and FDA Regulation* above. We cannot predict how the FDA will implement and enforce its statutory authority, including by promulgating additional regulations, taking other regulatory actions and pursuing possible investigatory or enforcement actions.

Governmental actions, combined with the diminishing social acceptance of smoking and private actions to restrict smoking, have resulted in reduced cigarette industry volume, and we expect that these factors will continue to reduce cigarette consumption levels. Actions by the FDA, other federal, state or local governments or agencies and private sector entities, such as those which impact the consumer acceptability of tobacco products, limit adult consumer choices, delay or prevent the launch of new or modified tobacco products, restrict communications to adult consumers, restrict the ability to differentiate tobacco products, create a competitive advantage or disadvantage for certain tobacco companies, impose additional manufacturing, labeling or packing requirements, require the recall or removal of tobacco products from the marketplace (including without limitation as a result of product contamination), interrupt manufacturing or otherwise significantly increase the cost of doing business, or restrict or prevent the use of specified tobacco products in certain locations or the sale of tobacco products by certain retail establishments, may have a material adverse impact on the business, consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its tobacco subsidiaries.

Tobacco products are subject to substantial taxation, which could have an adverse impact on sales of the tobacco products of Altria Group, Inc.'s tobacco subsidiaries.

Tobacco products are subject to substantial excise taxes, and significant increases in tobacco product-related taxes or fees have been proposed or enacted and are likely to continue to be proposed or enacted within the United States at the state, federal and local levels. Tax increases are expected to continue to have an adverse impact on sales of the tobacco products of our tobacco subsidiaries through lower consumption levels and the potential shift in adult consumer purchases from the premium to the non-premium or discount segments or to other low-priced or low-taxed tobacco products or to counterfeit and contraband products. Such shifts may have an adverse impact on the reported share performance of tobacco products of Altria Group, Inc.'s tobacco subsidiaries. For further discussion, see *Tobacco Space - Business Environment - Excise Taxes* above.

Our tobacco businesses face significant competition and their failure to compete effectively could have an adverse effect on the business of Altria Group, Inc.'s tobacco subsidiaries.

Each of Altria Group, Inc.'s tobacco subsidiaries operates in highly competitive tobacco categories. Settlements of certain tobacco litigation in the United States, among other factors, have resulted in substantial cigarette price increases. PM USA faces competition from lowest priced brands sold by certain United States and foreign manufacturers that have cost advantages because they are not parties to these settlements. These manufacturers may fail to comply with related state escrow legislation or may avoid escrow deposit obligations on the majority of their sales by concentrating on certain states where escrow deposits are not required or are required on fewer than all such manufacturers' cigarettes sold in such states. Additional competition has resulted from diversion into the United States market of cigarettes intended for sale outside the United States, the sale of counterfeit cigarettes by third parties, the sale of cigarettes by third parties over the Internet and by other means designed to avoid collection of applicable taxes, and imports of foreign lowest priced brands. USSTC faces significant competition in the

smokeless tobacco category and has experienced consumer down-trading to lower-priced brands. In the cigar category, additional competition has resulted from increased imports of machine-made large cigars manufactured offshore.

Altria Group, Inc. and its subsidiaries may be unsuccessful in anticipating changes in adult consumer preferences, responding to changes in consumer purchase behavior or managing through difficult economic conditions.

Each of our tobacco and wine subsidiaries is subject to intense competition and changes in adult consumer preferences. To be successful, they must continue to:

- promote brand equity successfully;
- anticipate and respond to new and evolving adult consumer preferences;
- develop, manufacture, market and distribute products that appeal to adult consumers (including, where appropriate, through arrangements with, or investments in, third parties);
- improve productivity; and
- protect or enhance margins through cost savings and price increases.

See *Tobacco Space - Business Environment - Summary* above for additional discussion concerning evolving adult tobacco consumer preferences, including increased consumer awareness of, and expenditures on, e-vapor products. Continued growth of this product category could further contribute to reductions in cigarette consumption levels and cigarette industry sales volume, and could adversely affect the growth rates of other tobacco products.

The willingness of adult consumers to purchase premium consumer product brands depends in part on economic conditions, which could have a material adverse effect on the business, consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its subsidiaries. In periods of economic uncertainty, adult consumers may purchase more discount brands and/or, in the case of tobacco products, consider lower-priced tobacco products. Our tobacco and wine subsidiaries work to broaden their brand portfolios to compete effectively with lower-priced products.

Our financial services business (conducted through PMCC) holds investments in finance leases, principally in transportation (including aircraft), power generation and manufacturing equipment and facilities. Its lessees are also subject to intense competition and economic conditions. If parties to PMCC's leases fail to manage through difficult economic and competitive conditions, PMCC may have to increase its allowance for losses, which would adversely affect our earnings.

Altria Group, Inc.'s tobacco subsidiaries may be unsuccessful in developing and commercializing new product technologies that may reduce the health risks associated with current tobacco products and that appeal to adult tobacco consumers.

Altria Group, Inc.'s tobacco subsidiaries continue to seek ways to develop and to commercialize new product technologies that may reduce the health risks associated with current tobacco products, while continuing to offer adult tobacco consumers (within and outside the United States) products that meet their taste expectations and evolving preferences. Potential solutions include tobacco-containing and nicotine-containing products that reduce or eliminate exposure to cigarette smoke and/or constituents identified by public health authorities as harmful. These efforts may include arrangements with, or investments in, third parties. Our subsidiaries may not succeed in their efforts. If they do not succeed, but one or more of their competitors does, our subsidiaries may be at a competitive disadvantage. Further, we cannot predict whether regulators, including the FDA, will permit the marketing or sale of such products with claims of reduced risk to consumers or whether consumers' purchase decisions would be affected by such claims. Nor can we predict whether regulators will impose an unduly burdensome regulatory framework on such products. Any of these developments could adversely affect the commercial viability of any such new products.

Altria Group, Inc. and its subsidiaries' ability to grow new revenue streams may be limited if our operating companies are unable to move successfully into complementary products or processes.

Altria Group, Inc. and its subsidiaries have adjacency growth strategies involving moves and potential moves into complementary products or processes. We cannot guarantee that these strategies, or any products introduced in connection with these strategies, will be successful. See the immediately preceding paragraph for a related discussion concerning new product technologies.

Significant changes in tobacco leaf price, availability or quality could have an adverse effect on the profitability and business of Altria Group, Inc.'s tobacco subsidiaries.

Any significant change in tobacco leaf prices, quality or availability could adversely affect our tobacco subsidiaries' profitability and business. For a discussion of factors that influence leaf prices, availability and quality, see *Tobacco Space - Business Environment - Tobacco Price, Availability and Quality* above.

Because Altria Group, Inc.'s tobacco subsidiaries rely on a few significant facilities and a small number of significant suppliers, an extended disruption at a facility or in service by a supplier could have a material adverse effect on the business, the consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its tobacco subsidiaries.

Altria Group, Inc.'s tobacco subsidiaries face risks inherent in reliance on a few significant facilities and a small number of significant suppliers. A natural or man-made disaster or other disruption that affects the manufacturing operations of any of Altria Group, Inc.'s tobacco subsidiaries or the operations of any significant suppliers of any of Altria Group, Inc.'s tobacco subsidiaries could adversely impact the operations of the affected subsidiaries. An extended disruption in operations experienced by one or more Altria Group, Inc. subsidiaries or significant suppliers could have a material adverse effect on the business, the consolidated results of operations, cash flows or financial position of Altria Group, Inc. and its tobacco subsidiaries.

Altria Group, Inc. may be unable to attract and retain the best talent due to the impact of decreasing social acceptance of tobacco usage and tobacco control actions.

Our ability to implement our strategy of attracting and retaining the best talent may be impaired by the impact of decreasing social acceptance of tobacco usage and tobacco regulation and control actions. The tobacco industry competes for talent with the consumer products industry and other companies that enjoy greater societal acceptance. As a result, we may be unable to attract and retain the best talent.

Acquisitions or other events may adversely affect Altria Group, Inc.'s credit rating and Altria Group, Inc. may not achieve its anticipated strategic or financial objectives.

Altria Group, Inc. from time to time considers acquisitions and may engage in confidential acquisition negotiations that are not publicly announced unless and until those negotiations result in a definitive agreement. Although we seek to maintain or improve our credit ratings over time, it is possible that completing a given acquisition or other event could impact our credit ratings or the outlook for those ratings. Furthermore, acquisition opportunities are limited, and acquisitions present risks of failing to achieve efficient and effective integration, strategic objectives and anticipated revenue improvements and cost savings. There can be no assurance that we will be able to acquire attractive businesses on favorable terms, that we will realize any of the anticipated benefits from an acquisition or that acquisitions will be quickly accretive to earnings.

Disruption and uncertainty in the debt capital markets could adversely affect Altria Group, Inc.'s access to the debt capital markets, earnings and dividend rate.

Access to the debt capital markets is important for us to satisfy our liquidity and financing needs. Disruption and uncertainty in the credit and debt capital markets and any resulting adverse impact on credit availability, pricing and/or credit terms may negatively affect the amount of credit available to us and may also increase our costs and adversely affect our earnings or our dividend rate.

Altria Group, Inc.'s reported equity earnings in SABMiller may be adversely affected by unfavorable foreign currency exchange rates.

For purposes of financial reporting, the earnings of SABMiller are translated into U.S. dollars from various local currencies based on average exchange rates prevailing during a reporting period. During times of a strengthening U.S. dollar against these currencies, our reported equity earnings in SABMiller will be reduced because the local currencies will translate into fewer U.S. dollars.

Altria Group, Inc. may be required to write down intangible assets, including goodwill, due to impairment, which would reduce earnings.

We periodically calculate the fair value of our goodwill and other intangible assets to test for impairment. This calculation may be affected by several factors, including general economic conditions, regulatory developments, changes in category growth rates as a result of changing adult consumer preferences, success of planned new product introductions, competitive activity and tobacco-related taxes. If an impairment is determined to exist, we will incur impairment losses, which will reduce our earnings.

Competition, unfavorable changes in grape supply and new governmental regulations or revisions to existing governmental regulations could adversely affect Ste. Michelle's wine business.

Ste. Michelle's business is subject to significant competition, including from many large, well-established domestic and international companies. The adequacy of Ste. Michelle's grape supply is influenced by consumer demand for wine in relation to industry-wide production levels as well as by weather and crop conditions, particularly in eastern Washington. Supply shortages related to any one or more of these factors could increase production costs and wine prices, which ultimately may have a negative impact on Ste. Michelle's sales. In addition, federal, state and local governmental agencies regulate the alcohol beverage industry through various means, including licensing requirements, pricing, labeling and advertising restrictions, and distribution and production policies. New regulations or revisions to existing regulations, resulting in further restrictions or taxes on the manufacture and sale of alcoholic beverages, may have an adverse effect on Ste. Michelle's wine business. For further discussion, see *Wine Segment - Business Environment* above.

The failure of Altria Group, Inc.'s information systems to function as intended, or the penetration by outside parties intent on disrupting business processes, could result in significant costs, loss of revenue, assets or personal or other sensitive data and reputational harm.

Altria Group, Inc. and its subsidiaries use information systems to help manage business processes, collect and interpret business data and communicate internally and externally with employees, investors, suppliers, customers and others. Many of these information systems are managed by third-party service providers. We have backup systems and business continuity plans in place and we take care to protect our systems and data from unauthorized access. Nevertheless, failure of our systems to function as intended, or penetration of our systems by outside parties intent on extracting or corrupting information or otherwise disrupting business processes, could result in loss of revenue, assets or personal or other sensitive data, cause damage to the reputation of our companies and their brands and result in legal challenges and significant remediation and other costs to Altria Group, Inc. and its subsidiaries.

Unfavorable outcomes of any governmental investigations could materially affect the businesses of Altria Group, Inc. and its subsidiaries.

From time to time, Altria Group, Inc. and its subsidiaries are subject to governmental investigations on a range of matters. We cannot predict whether new investigations may be commenced or the outcome of such investigations, and it is possible that our business could be materially affected by an unfavorable outcome of future investigations.

Expanding international business operations subjects Altria Group, Inc. and its subsidiaries to various United States and foreign laws and regulations, and violations of such laws or regulations could result in reputational harm, legal challenges and/or significant costs.

While Altria Group, Inc. and its subsidiaries are primarily engaged in business activities in the United States, they do engage (directly or indirectly) in certain international business activities that are subject to various United States and foreign laws and regulations, such as the U.S. Foreign Corrupt Practices Act and other laws prohibiting bribery and corruption. Although we have a Code of Conduct and a compliance system designed to prevent and detect violations of applicable law, no system can provide assurance that it will always protect against improper actions by employees or third parties. Violations of these laws, or allegations of such violations, could result in reputational harm, legal challenges and/or significant costs.

Item 4. Controls and Procedures.

Altria Group, Inc. carried out an evaluation, with the participation of Altria Group, Inc.'s management, including Altria Group, Inc.'s Chief Executive Officer and Chief Financial Officer, of the effectiveness of Altria Group, Inc.'s disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, Altria Group, Inc.'s Chief Executive Officer and Chief Financial Officer concluded that Altria Group, Inc.'s disclosure controls and procedures are effective.

There have been no changes in Altria Group, Inc.'s internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, Altria Group, Inc.'s internal control over financial reporting.

Part II – OTHER INFORMATION

Item 1. Legal Proceedings.

See Note 9 in Part I, Item 1. Financial Information of this Quarterly Report on Form 10-Q for a discussion of legal proceedings pending against Altria Group, Inc. and its subsidiaries. See also Exhibits 99.1 and 99.2 to this Form 10-Q.

Item 1A. Risk Factors.

Information regarding Risk Factors appears under *Cautionary Factors That May Affect Future Results* in Part I, Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations of this Form 10-Q and in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2013 (“Form 10-K”). Other than as set forth in Part I, Item 2 of this Form 10-Q, there have been no material changes from the risk factors previously disclosed in our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The Board of Directors authorized a \$300 million share repurchase program in April 2013 and expanded it to \$1.0 billion in August 2013 (as expanded, the “April 2013 share repurchase program”). Altria Group, Inc. expects to complete this program by the end of the third quarter of 2014. Additionally, in July 2014, the Board of Directors authorized a new \$1.0 billion share repurchase program (the “July 2014 share repurchase program”) that Altria Group, Inc. intends to commence upon the completion of the April 2013 share repurchase program. Altria Group, Inc. expects to complete the July 2014 share repurchase program by the end of 2015. The timing of share repurchases under Altria Group, Inc.’s share repurchase programs depends upon marketplace conditions and other factors, and the share repurchase programs remain subject to the discretion of the Board of Directors.

Altria Group, Inc.’s share repurchase activity for each of the three months in the period ended June 30, 2014 was as follows:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs
April 1 - 30, 2014	468,220	\$ 38.53	464,000	\$ 167,016,297
May 1 - 31, 2014	1,429,019	\$ 40.56	1,428,800	\$ 109,066,246
June 1 - 30, 2014	1,352,700	\$ 41.64	1,352,700	\$ 52,735,692
For the Quarter Ended June 30, 2014	<u>3,249,939</u>	<u>\$ 40.72</u>	<u>3,245,500</u>	

⁽¹⁾ The total number of shares purchased include (a) shares purchased under the April 2013 share repurchase program (which totaled 464,000 shares in April, 1,428,800 shares in May and 1,352,700 shares in June) and (b) shares withheld by Altria Group, Inc. in an amount equal to statutory withholding for holders who vested in restricted and deferred stock and used shares to pay all or a portion of the related taxes, and forfeitures of restricted stock for which consideration was paid in connection with termination of employment of certain employees (which totaled 4,220 shares in April and 219 shares in May).

Exhibit 12

Altria Group, Inc. and Subsidiaries
Computation of Ratios of Earnings to Fixed Charges
(in millions of dollars)

	For the Six Months Ended June 30, 2014	For the Three Months Ended June 30, 2014
Earnings before income taxes	\$ 3,751	\$ 1,945
Add (deduct):		
Equity in net earnings of less than 50% owned affiliates	(427)	(200)
Fixed charges	438	216
Interest capitalized, net of amortization	7	3
Earnings available for fixed charges	<u>\$ 3,769</u>	<u>\$ 1,964</u>
Fixed charges:		
Interest incurred ⁽¹⁾	\$ 430	\$ 212
Portion of rent expense deemed to represent interest factor	8	4
Fixed charges	<u>\$ 438</u>	<u>\$ 216</u>
Ratio of earnings to fixed charges	<u>8.6</u>	<u>9.1</u>

⁽¹⁾ Altria Group, Inc. includes interest relating to uncertain tax positions in its provision for income taxes, therefore such amounts are not included in fixed charges in the computation.

Altria Group, Inc. and Subsidiaries
Computation of Ratios of Earnings to Fixed Charges
(in millions of dollars)

	For the Years Ended December 31,				
	2013	2012	2011	2010	2009
Earnings before income taxes	\$ 6,942	\$ 6,477	\$ 5,582	\$ 5,723	\$ 4,877
Add (deduct):					
Equity in net earnings of less than 50% owned affiliates	(993)	(1,229)	(741)	(631)	(601)
Dividends from less than 50% owned affiliates	443	404	374	303	254
Fixed charges	1,104	1,165	1,254	1,152	1,249
Interest capitalized, net of amortization	(7)	(4)	(2)	26	5
Earnings available for fixed charges	\$ 7,489	\$ 6,813	\$ 6,467	\$ 6,573	\$ 5,784
Fixed charges:					
Interest incurred ⁽¹⁾	\$ 1,087	\$ 1,148	\$ 1,233	\$ 1,133	\$ 1,230
Portion of rent expense deemed to represent interest factor	17	17	21	19	19
Fixed charges	\$ 1,104	\$ 1,165	\$ 1,254	\$ 1,152	\$ 1,249
Ratio of earnings to fixed charges	6.8	5.8	5.2	5.7	4.6

⁽¹⁾ Altria Group, Inc. includes interest relating to uncertain tax positions in its provision for income taxes, therefore such amounts are not included in fixed charges in the computation.

Certifications

I, Martin J. Barrington, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Altria Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

I, Howard A. Willard III, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Altria Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTAIN LITIGATION MATTERS

As described in Note 9, *Contingencies* to Altria Group, Inc.'s consolidated financial statements in Part 1, Item 1 of the Quarterly Report on Form 10-Q to which this Exhibit 99.1 is attached ("Note 9"), there are legal proceedings covering a wide range of matters pending or threatened in various United States and foreign jurisdictions against Altria Group, Inc., its subsidiaries, including Philip Morris USA Inc. ("PM USA"), and their respective indemnitees. Various types of claims may be raised in these proceedings, including product liability, consumer protection, antitrust, tax, contraband shipments, patent infringement, employment matters, claims for contribution and claims of competitors or distributors. Pending claims related to tobacco products generally fall within the following categories: (i) smoking and health cases alleging personal injury brought on behalf of individual plaintiffs, (ii) smoking and health cases primarily alleging personal injury or seeking court-supervised programs for ongoing medical monitoring and purporting to be brought on behalf of a class of individual plaintiffs, including cases in which the aggregated claims of a number of individual plaintiffs are to be tried in a single proceeding, (iii) health care cost recovery cases brought by governmental (both domestic and foreign) plaintiffs seeking reimbursement for health care expenditures allegedly caused by cigarette smoking and/or disgorgement of profits, (iv) class action suits alleging that the uses of the terms "Lights" and "Ultra Lights" constitute deceptive and unfair trade practices, common law fraud or statutory fraud, unjust enrichment, breach of warranty, or violations of the Racketeer Influenced and Corrupt Organizations Act, (v) international cases, and (vi) other tobacco-related litigation.

The following lists certain of the pending claims against Altria Group, Inc., PM USA, UST LLC ("UST") and/or UST's subsidiaries included in these categories.

SMOKING AND HEALTH LITIGATION

The following lists the consolidated individual smoking and health cases as well as smoking and health class actions pending against PM USA and, in some cases, Altria Group, Inc. and/or its other subsidiaries and affiliates, as of July 18, 2014. See *International Cases* below for a list of smoking and health class actions pending in Canada.

Consolidated Individual Smoking and Health Case

In re: Tobacco Litigation (Individual Personal Injury cases), Circuit Court, Ohio County, West Virginia, consolidated January 11, 2000. See Note 9 for a discussion of this litigation.

Flight Attendant Litigation

The settlement agreement entered into in 1997 in the case of *Broin, et al. v. Philip Morris Companies Inc., et al.*, which was brought by flight attendants seeking damages for personal injuries allegedly caused by environmental tobacco smoke, allows members of the *Broin* class to file individual lawsuits seeking compensatory damages, but prohibits them from seeking punitive damages. See Note 9 for a discussion of this litigation.

Domestic Class Actions

Engle, et al. v. R.J. Reynolds Tobacco Co., et al., Circuit Court, Eleventh Judicial Circuit, Dade County, Florida, filed May 5, 1994. See Note 9 for a discussion of this case (which has concluded) and the *Engle* progeny litigation.

Young, et al. v. The American Tobacco Company, et al., Civil District Court, Orleans Parish, Louisiana, filed November 12, 1997.

Parsons, et al. v. A C & S, Inc., et al., Circuit Court, Kanawha County, West Virginia, filed February 27, 1998.

Cypret, et al. v. The American Tobacco Company, et al., Circuit Court, Jackson County, Missouri, filed December 22, 1998.

Caronia, et al. v. Philip Morris USA Inc., United States District Court, Eastern District, New York, filed January 13, 2006. See Note 9 for a discussion of this case.

Donovan, et al. v. Philip Morris, United States District Court, District of Massachusetts, filed March 2, 2007. See Note 9 for a discussion of this case.

HEALTH CARE COST RECOVERY LITIGATION

The following lists the health care cost recovery actions pending against PM USA and, in some cases, Altria Group, Inc. and/or its other subsidiaries and affiliates as of July 18, 2014. See *International Cases* below for a list of international health care cost recovery actions.

Possible Adjustments in MSA Payments for 2003 to 2013 and Other Disputes Related to MSA Payments

State of Idaho v. Philip Morris Inc., et al., District Court, Fourth Judicial District, Ada County, Idaho, filed June 5, 2013.

People of the State of Illinois v. Philip Morris, Inc., et al., Circuit Court, Cook County, filed May 24, 2013.

State of Indiana v. Philip Morris USA Inc., et al., Superior Court, Marion County, Indiana, filed June 7, 2013.

Commonwealth of Kentucky v. Brown & Williamson Tobacco Corp., et al., Franklin Circuit Court, Division No. 1, Kentucky, filed June 10, 2013. See Note 9 for a discussion of this case.

State of Maryland v. Philip Morris Inc et al., Circuit Court, Baltimore County, Maryland, filed March 26, 2013.

State of Missouri v. The American Tobacco Company, Inc., et al., Circuit Court, Twenty-Second Judicial Circuit, City of St. Louis, Missouri, filed June 7, 2013. See Note 9 for a discussion of this case.

State of Missouri v. R.J. Reynolds Tobacco Company, Lorillard Tobacco Company and Philip Morris USA, Inc., Court of Appeals, Eastern District, Missouri, filed June 11, 2014. See Note 9 for a discussion of this case.

State of New Mexico v. Philip Morris USA, Inc., et al., First Judicial District, Santa Fe County, New Mexico, filed June 10, 2013.

State of New York v. Philip Morris Inc., et al., Supreme Court, New York County, New York, filed April 12, 2013.

State of North Dakota v. Philip Morris Incorporated, Inc., et al., East Central Judicial District, Cass County, North Dakota, filed June 7, 2013.

State of Ohio v. R.J. Reynolds Tobacco Co., et al., Court of Common Pleas, Franklin County, Ohio, filed March 25, 2013.

State of Oregon v. Philip Morris USA, Inc., Circuit Court, Multnomah County, Oregon, filed June 7, 2013.

Commonwealth of Pennsylvania v. Philip Morris USA, Inc., et al., Court of Common Pleas of Philadelphia County, First Judicial District, Pennsylvania, filed April 3, 2013. See Note 9 for a discussion of this case.

State of Wisconsin v. Philip Morris USA, Inc., et al., Circuit Court, Branch 11, Dane County, Wisconsin, filed June 18, 2014.

District of Columbia v. Philip Morris USA, Inc., et al., Superior Court, District of Columbia, filed September 12, 2013.

Department of Justice Case

The United States of America v. Philip Morris Incorporated, et al., United States District Court, District of Columbia, filed September 22, 1999. See Note 9 for a discussion of this case.

“LIGHTS/ULTRA LIGHTS” CASES

The following lists the “Lights/Ultra Lights” cases pending against Altria Group, Inc. and/or its various subsidiaries and others as of July 18, 2014. See *International Cases* below for a reference to one “Lights” action pending in Israel.

Brown, et al. v. The American Tobacco Company, Inc., et al., Superior Court, San Diego County, California, filed June 10, 1997. See Note 9 for a discussion of this case.

Aspinall, et al. v. Philip Morris Companies Inc. and Philip Morris Incorporated, Superior Court, Suffolk County, Massachusetts, filed November 24, 1998. See Note 9 for a discussion of this case.

Price, et al. v. Philip Morris Inc., Circuit Court, Third Judicial Circuit, Madison County, Illinois, filed February 10, 2000. See Note 9 for a discussion of this case.

Larsen, et al. v. Philip Morris Inc. (formerly Craft, et al. v. Philip Morris Companies Inc., et al.), Circuit Court, City of St. Louis, Missouri, filed February 14, 2000. See Note 9 for a discussion of this case.

Hines, et al. v. Philip Morris Companies Inc., et al., Circuit Court, Fifteenth Judicial Circuit, Palm Beach County, Florida, filed February 23, 2001. See Note 9 for a discussion of this case.

Moore, et al. v. Philip Morris Incorporated, et al., Circuit Court, Marshall County, West Virginia, filed September 17, 2001.

Pearson v. Philip Morris Incorporated, et al., Circuit Court, Multnomah County, Oregon, filed November 20, 2002. See Note 9 for a discussion of this case.

Viriden v. Altria Group, Inc., et al., Circuit Court, Hancock County, West Virginia, filed March 28, 2003.

Stern, et al. v. Philip Morris USA Inc., et al., Superior Court, Middlesex County, New Jersey, filed April 4, 2003.

Arnold, et al. v. Philip Morris USA Inc., Circuit Court, Madison County, Illinois, filed May 5, 2003.

Miner, et al. v. Philip Morris USA Inc., et al. (formerly Watson, et al. v. Altria Group, Inc., et al.), Circuit Court, Pulaski County, Arkansas, filed May 29, 2003. See Note 9 for a discussion of this case.

Carroll (formerly Holmes), et al. v. Philip Morris USA Inc., et al., Superior Court, New Castle County, Delaware, filed August 18, 2003. See Note 9 for a discussion of this case.

Kelly v. Martin & Bayley, Inc., et al., Circuit Court, Madison County, Illinois, filed February 4, 2005. This case is an individual “Lights” case, not a class action. See Note 9 for a discussion of this case.

Wyatt, et al. v. Philip Morris USA Inc., et al. (formerly Nikolic, et al. v. Philip Morris USA Inc., et al.), United States District Court, Eastern District, Wisconsin, filed June 16, 2009. See Note 9 for a discussion of this case.

Cabbat v. Philip Morris USA, Inc., United States District Court, Hawaii, filed March 19, 2010. See Note 9 for a discussion of this case.

INTERNATIONAL CASES

The following lists cases pending against Altria Group, Inc. and/or its subsidiaries in foreign jurisdictions as of July 18, 2014.

Canada

Her Majesty the Queen in Right of British Columbia v. Imperial Tobacco Limited, et al., Supreme Court, British Columbia, Vancouver Registry, Canada, filed January 24, 2001. Health care cost recovery action. See Note 9 for a discussion of this case.
