

Mediacom rolls out Pace Multi-tuner Media Gateway

Mediacom rolls out Pace Multi-tuner Media Gateway with TiVo® User Interface as flagship hybrid QAM/IP platform

18 November 2013

Top Ten US Cable Operator chooses Pace MG1 Multi-tuner Media Gateway for high- performance multi-screen, multi-room connected entertainment solution

Pace (LSE: PIC), a leading global developer of advanced technologies for service providers, today [announced another successful deployment](#) resulting from its global, strategic partnership with TiVo Inc. One of the largest US cable operators, Mediacom Communications Corporation, has chosen to deploy the Pace MG1 Multi-tuner Media Gateway with TiVo's Advanced User Interface (UI) as its flagship platform.

Mediacom will begin the roll out this month of Pace's MG1 across their footprint, including their largest markets in Iowa, Illinois, Minnesota, Georgia, and Florida. This deployment marks the latest in a longstanding partnership between the two companies dating back to 2006 with the initial shipment of Pace set-top boxes to Mediacom. A key consideration in Mediacom's selection of the Pace platform was its ability to offer an integrated Whole Home DVR solution.

According to JR Walden, SVP Technology at Mediacom, "We're confident that in combining TiVo's feature-rich UI with Pace's cutting-edge Media Gateway, we have a winning combination for our subscribers that offers a great linear TV experience alongside IP content on multiple devices around the home. We know we've made a great choice in selecting Pace as a partner for this product."

Tim O'Loughlin, President of Pace Americas, Inc., added, "We're delighted with the traction that the Pace and TiVo joint offering is having with our service provider customers and their subscribers. Operators want to deliver the very best customer experience in today's competitive marketplace, and the MG1 provides just that: a versatile, high-performance hybrid QAM/IP platform. Pace has been fortunate to be able to partner with Mediacom for a number of years, and this new development only serves to strengthen that relationship."

About Pace:

Pace (LSE: PIC) creates technologies, software, hardware and services for the broadcast and broadband industries. Pace solutions empower cable, telco and satellite operators to simply and cost-effectively innovate at the speed they want, in the way they want for their subscribers. Pace has built up its experience and expertise over 30 years and this is recognized by a customer base of over 160 operators around the globe.

Headquartered in the UK, Pace operates in markets across the world, and employs around 2300 people in locations that also include the USA, France, India and China.

About Mediacom:

Mediacom Communications Corporation is the nation's eighth largest cable television company and one of the leading cable operators focused on serving the smaller cities in the United States, with a significant concentration in the Midwestern and Southeastern regions. Mediacom Communications offers a wide array of broadband products and services, including digital television, video-on-demand, digital video recorders, high-definition television, as well as high-speed Internet access and phone service. Mediacom Communications also offers affordable broadband communications solutions that can be tailored to any size business through Mediacom Business.
