

Share Repurchase, Dividend, and Stock Split History

ADVANCING TOTAL SHAREHOLDER VALUE

Since 1996, The McGraw-Hill Companies has returned more than \$6.8 billion to shareholders through dividend payments and share buybacks, including more than \$915 million in the first quarter of 2007. The combination of an expanded share repurchase program and a record of increased dividends every year since 1974 demonstrates The McGraw-Hill Companies' commitment to advancing total shareholder value.

In January 2007, the Board of Directors approved plans to repurchase up to 15 million shares during the year. MHP repurchased 13.2 million shares in the first quarter of 2007 and expects to buy back the remaining 1.8 million shares during the remainder of 2007.

In April 2007, the Board authorized the buyback of up to 15 million shares in addition to the 15 million shares it previously approved for purchase in 2007 for a total authorization of up to 30 million shares. These repurchases may be made during 2007, subject to market conditions.

The Board of Directors approved in January 2007 a 12.9% increase in the regular quarterly cash dividend on MHP's common stock. The 2007 annualized rate of \$0.82 per share represents an average compound annual dividend growth rate of 10.4% since 1974. MHP is one of fewer than 30 companies in the S&P 500 that has increased its dividend annually for the last 34 consecutive years.

Note:

Shares repurchased are reported on a trade-date basis

¹ Adjusted for all stock splits through 2005. Approximately 55% of repurchases during the period shown offset the issuance of shares for stock option and restricted share programs; the remaining 45% reduce the net number of shares outstanding

² Increase primarily due to impact of 30% increase in MHP stock price in 2004. Under the treasury-stock method, an increase in share price results in more shares assumed to be issued since more options are considered in-the-money
