FOR IMMEDIATE RELEASE

HONOLULU, HI (October 24, 2005) -- Bank of Hawaii Corporation (NYSE: BOH) today reported diluted earnings per share of \$0.85 for the third quarter of 2005, an increase from diluted earnings per share of \$0.78 in the third quarter of 2004 and a decrease from \$0.87 in the second quarter of 2005. Net income for the third quarter of 2005 was \$44.8 million, up \$1.8 million from net income of \$43.1 million in the third quarter of 2004 and down \$1.6 million from net income of \$46.4 million in the second quarter of 2005. Net income for the third quarter of 2005 included a provision for credit losses of \$3.0 million (\$1.9 million after tax or \$0.04 per diluted share).

Return on average assets for the third quarter of 2005 was 1.74 percent, compared to 1.77 percent in the third quarter of 2004 and 1.87 percent in the second quarter of 2005. Return on average equity was 24.61 percent for the third quarter of 2005, up from 23.42 percent in the same quarter last year and down from 25.98 percent in the previous quarter.

"We are pleased with Bank of Hawaii Corporation's financial performance for the third quarter of 2005," said Allan R. Landon, Chairman and CEO. "We increased revenue, loans and deposits, and maintained reasonable expense levels. Although we returned to provisioning for credit losses during the quarter, our credit quality and the Hawaii economy remain strong."

For the nine months ended September 30, 2005, net income was \$136.8 million, up \$9.7 million or 7.6 percent from net income of \$127.1 million for the same period last year. Diluted earnings per share were \$2.55 for the first nine months of 2005, an increase from \$2.26 for the first nine months of 2004. Year-to-date results for 2005 include the previously mentioned \$3.0 million provision for credit losses compared to a return to income of \$3.5 million in the same period last year resulting from the release of a portion of the allowance for loan and lease losses.

The return on average assets for the nine months ended September 30, 2005 was 1.83 percent, up from 1.74 percent for the same period in 2004. The year-to-date return on average equity was 24.72 percent, up from 22.48 percent for the nine months ended September 30, 2004.

Financial Highlights

Net interest income, on a taxable equivalent basis, for the third quarter of 2005 was \$102.0 million, up \$3.2 million from \$98.8 million in the third quarter of 2004 and up \$0.9 million from \$101.1 million in the second quarter of 2005. The increase in net interest income was largely due to growth in loans and higher average yields on the investment securities and loan portfolios. Partially offsetting the positive increase in interest income was an increase in interest expense resulting from selective rate increases on interest-bearing deposits. An analysis of the change in net interest income from the previous quarter is included in Table 6.

The net interest margin was 4.30 percent for the third quarter of 2005, a 9 basis point decrease from 4.39 percent in the prior year quarter and a 6 basis point decrease from 4.36 percent in the second quarter of 2005. The decrease in the net interest margin compared to the previous quarter was largely due to a higher level of liquidity. The decrease in the net interest margin compared to the same quarter last year was largely due to the effects of the flattening yield curve.

As previously mentioned, the Company recorded a provision for credit losses of \$3.0 million in the third quarter of 2005. Charge-offs during the quarter of \$15.3 million included a \$10.0 million write-off of a fully reserved aircraft lease and were partially offset by recoveries of \$2.3 million. The Company did not recognize a provision for credit losses during the third quarter of 2004 or during the second quarter of 2005.

Non-interest income was \$55.5 million for the third quarter of 2005, an increase of \$2.5 million or 4.6 percent compared to non-interest income of \$53.1 million in the third quarter of 2004. Non-interest income in the third quarters of 2005 and 2004 included gains of \$3.4 million and \$5.2 million, respectively, on the sale of assets at the end of leveraged leases. Excluding these items, non-interest income increased \$4.3 million or 9.0 percent over the same quarter last year. Non-interest income increased \$4.8 million or 9.6 percent compared to \$50.7 million in the second quarter of 2005.

Non-interest expense was \$84.6 million in the third quarter of 2005, up \$0.4 million or 0.5 percent from non-interest expense of \$84.2 million in the same quarter last year and up \$5.6 million or 7.1 percent from \$79.0 million in the second quarter of 2005. Included in the third quarter of 2005 were previously announced charges of \$3.8 million for legal and other expenses related to the mutual fund business. An analysis of salary and benefit expenses is included in Table 7.

The efficiency ratio for the third quarter of 2005 was 53.72 percent, an improvement from 55.45 percent in the same quarter last year and up from 52.07 percent in the previous quarter.

The Company's business segments are defined as Retail Banking, Commercial Banking, Investment Services Group, and Treasury and Other Corporate. Results are determined based on the Company's internal financial management reporting process and organizational structure. Selected financial information for the business segments is included in Tables 11a and 11b.

Asset Quality

Overall asset quality remained strong and stable during the third quarter of 2005. Non-performing assets were \$8.3 million at the end of the third quarter of 2005, a decrease of \$2.7 million, or 24.5 percent, compared to non-performing assets of \$10.9 million at the end of the previous quarter and a decrease of \$7.7 million, or 48.4 percent, compared to \$16.0 million at the end of the same quarter last year. At September 30, 2005 the ratio of non-performing assets to total loans, foreclosed real estate, and other investments was 0.13 percent compared with 0.18 percent at June 30, 2005 and 0.27 percent at September 30, 2004.

Non-accrual loans were \$7.2 million at September 30, 2005, a reduction of \$2.8 million, or 28.1 percent, from \$9.9 million at June 30, 2005 and down \$8.6 million, or 54.6 percent, from \$15.8 million at September 30, 2004. Non-accrual loans as a percentage of total loans were 0.12 percent at September 30, 2005, down from 0.16 percent at June 30, 2005 and from 0.27 percent at September 30, 2004.

Net charge-offs for the third quarter of 2005 were \$13.0 million, or 0.84 percent (annualized) of total average loans, including the previously mentioned write-off of an aircraft lease. Net charge-offs in the previous quarter were \$3.7 million, or 0.25 percent (annualized) of total average loans. In the third quarter of 2004, net charge-offs were \$0.3 million, or 0.02 percent (annualized) of total average loans. Net charge-offs for the first nine months of 2005 were \$20.4 million, or 0.45 percent (annualized) of total average loans compared to \$0.9 million or 0.02 percent (annualized) of total average loans in the same period last year. Net charge-offs in the first nine months of 2004 included a \$6.0 million recovery of a previously charged-off loan from the divested Asia business.

The allowance for loan and lease losses was \$91.7 million at September 30, 2005, down from \$101.6 million at June 30, 2005 and down from \$124.7 million at September 30, 2004. The \$9.9 million decrease in the allowance from the previous quarter was primarily due to net charge-offs. The decrease from the previous year is largely due to net charges-offs, \$6.5 million returned to income from releases of the allowance for loan and lease losses during 2004 and \$6.8 million reclassified to other liabilities for potential losses related to unfunded commitments to extend credit. The allowance for unfunded commitments was \$4.5 million at September 30, 2005, down from \$4.6 million at June 30, 2005.

The ratio of the allowance for loan and lease losses to total loans was 1.48 percent at September 30, 2005. The decrease from the ratio of 1.65 percent at June 30, 2005 was largely due to the previously mentioned write-off of an aircraft lease. The ratio of the allowance for loan and lease losses to total loans was 2.14 percent at September 30, 2004. If the allowance for unfunded commitments had been reclassified at September 30, 2004, the ratio would have been 2.03 percent.

Credit exposure to the air transportation industry is summarized in Table 8.
