"Third quarter results reflect the continuation of solid trends from the second quarter, namely higher net interest income, well controlled expenses and steady improvement in credit costs," said Ralph W. Babb Jr., chairman and chief executive officer. "Loans remained relatively stable, and we feel we have a strong base from which to grow our portfolio when a more robust business climate takes hold."

Net Interest Income

Net interest income was \$451 million for the third quarter 2004, compared to \$448 million for the second quarter 2004 and \$465 million for the third quarter 2003. Average earning assets of \$46.4 billion for the third quarter 2004 decreased \$1.2 billion from the second quarter 2004, or three percent, primarily as a result of declines in average short-term investments (\$894 million) and average investment securities available-for-sale (\$235 million). Average loans were \$40.6 billion for the third quarter 2004, compared to \$40.7 billion for the second quarter 2004. Average deposits of \$39.7 billion for the third quarter 2004 decreased \$1.2 billion, or three percent, from the second quarter 2004. The largest decline was in noninterest-bearing mortgage financing-related title and escrow deposits (\$904 million).

The net interest margin increased nine basis points from the second quarter 2004 to 3.86 percent, due to an increasing rate environment and the decrease in short-term liquidity.

Noninterest Income

Noninterest income was \$206 million for the third quarter 2004, compared to \$228 million for the second quarter 2004 and \$221 million for the third quarter 2003. Noninterest income in the third quarter 2004 included \$6 million of net securities losses and \$3 million of income distributions (net of write-downs) from unconsolidated venture capital and private equity investments. Noninterest income in the second quarter 2004 included net securities gains of \$1 million, \$5 million of income distributions (net of write-downs) from unconsolidated venture capital and private equity investments and a net gain of \$7 million on the sale of a portion of Comerica's merchant card processing business.

"Net charge-offs of \$33 million were at the lowest level in more than three years, and nonaccrual and watch list loans continued to decline."
