**FOR IMMEDIATE RELEASE**

## **Investment Technology Group Releases July 2008 US Trading Statistics**

**NEW YORK, NY, August 8, 2008** – Investment Technology Group, Inc. (NYSE: ITG), a leading provider of technology-based trading services and transaction research, today announced that July 2008 US trading volume was 5.0 billion shares and average daily volume (ADV) was 226 million shares. This compares to 4.3 billion shares and ADV of 206 million shares in June 2008 and 3.8 billion shares and ADV of 181 million shares in July 2007.

There were 22 trading days in July 2008 and 21 trading days in each of June 2008 and July 2007.

Monthly volume statistics reflect commission-generating US volume. These statistics are preliminary and may be revised in subsequent updates and public filings. Volume statistics are posted on ITG's website, [www.itg.com](http://www.itg.com), and are available via a downloadable spreadsheet file.

*In addition to historical information, this press release may contain "forward-looking" statements, as defined in the Private Securities Litigation Reform Act of 1995, that reflect management's expectations for the future. A variety of important factors could cause results to differ materially from such statements. These factors include the company's ability to achieve expected future levels of sales; the actions of both current and potential new competitors; rapid changes in technology; financial market volatility; general economic conditions in the United States and elsewhere; evolving industry regulation; cash flows into or redemption from equity funds; effects of inflation; customer trading patterns; and new products and services. These and other risks are described in greater detail in the company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, and other documents filed with the Securities and Exchange Commission and available on the company's web site.*
