

A Great Workplace Starts with You

Our Company has a reputation for conducting business ethically and legally, but we need your help to protect it. By being AWARE every day, you'll help us build a positive, productive workplace.

That's why our Company has created AWARE, which stands for *Address Wrongdoing as Responsible Employees*. It's designed to get each of us involved in preventing and reporting unethical or illegal activity.

When You Care, We All Win

It's vital that each of us cares enough to prevent this activity. Consider the consequences of unethical or illegal behavior – it can harm our ship, our employees and our guests. It can also cause lawsuits, fines or restrictions to be brought against our Company.

Most importantly, remember that this is your ship and your Company. We want you to take pride in it and do your part to protect it.

The Benefits of an Ethical Workplace

When our Company maintains a positive, productive environment, we all benefit through:

- More opportunities for raises, bonuses and career advancement
- Expanded Company benefits
- More pleasant working conditions
