⁽a) Pro forma results reflect certain sales of cable systems in the third quarter of 2006, January 2007 and May 2007, and the acquisition of cable systems in August 2007 as if they occurred as of January 1, 2006. The pro forma statements of operations do not include adjustments for financing transactions completed by Charter during the periods presented or certain other dispositions of assets because those transactions did not significantly impact Charter's adjusted EBITDA. However, all transactions completed in the third quarter of 2006, January 2007, May 2007 and August 2007 have been reflected in the operating statistics. The pro forma data is based on information available to Charter as of the date of this document and certain assumptions that we believe are reasonable under the circumstances. The financial data required allocation of certain revenues and expenses and such information has been presented for comparative purposes and is not intended to provide any indication of what our actual financial position, or results of operations would have been had the transactions described above been completed on the dates indicated or to project our results of operations for any future date.

September 30, 2007. Pro forma revenues were increased by \$1 million and \$2 million for the three and nine months ended September 30, 2007, respectively. Pro forma operating costs and expenses were increased by \$0 and \$2 million for the three and nine months ended September 30, 2007, respectively. Pro forma net loss was reduced by \$0 and \$18 million for the three and nine months ended September 30, 2007, respectively.

September 30, 2006. Pro forma revenues were reduced by \$16 million and \$80 million for the three and nine months ended September 30, 2006, respectively. Pro forma operating costs and expenses were reduced by \$11 million and \$55 million for the three and nine months ended September 30, 2006, respectively. Pro forma net loss was increased by \$130 million and \$68 million for the three and nine months ended September 30, 2006, respectively.

Adjusted EBITDA is a non-GAAP term. See page 7 of this addendum for the reconciliation of adjusted EBITDA to net cash flows from operating activities as defined by GAAP.

⁽b) Operating expenses include programming, service, and advertising sales expenses.

⁽c) Selling, general and administrative expenses include general and administrative and marketing expenses.

Pro forma operating statistics reflect the sales of cable systems in the third quarter of 2006, January 2007 and May 2007, and the acquisition of cable systems in August 2007 as if such transactions had occurred as of the last day of the respective period for all periods presented. The pro forma statements of operations do not include adjustments for financing transactions completed by Charter during the periods presented or certain other dispositions of assets because those transactions did not significantly impact Charter's adjusted EBITDA. However, all transactions completed in the third quarter of 2006, January 2007, May 2007 and August 2007 have been reflected in the operating statistics.

At June 30, 2007 actual analog video customers, digital video customers, high-speed Internet customers and telephone customers were 5,376,800, 2,866,000, 2,583,200 and 700,300, respectively.

At December 31, 2006 actual analog video customers, digital video customers, high-speed Internet customers and telephone customers were 5,433,300, 2,808,400, 2,402,200 and 445,800, respectively.

At September 30, 2006 actual analog video customers, digital video customers, high-speed Internet customers and telephone customers were 5,476,600, 2,767,900, 2,343,200 and 339,600, respectively.

See footnotes to unaudited summary of operating statistics on page 6 of this addendum.

- (a) "Customers" include all persons our corporate billing records show as receiving service (regardless of their payment status), except for complimentary accounts (such as our employees). In addition, at September 30, 2007, June 30, 2007, December 31, 2006 and September 30, 2006, "customers" include approximately 33,800, 31,300, 32,700 and 43,500 persons whose accounts were over 60 days past due in payment, approximately 5,700, 3,800, 5,400 and 8,400 persons whose accounts were over 90 days past due in payment and approximately 2,100, 1,500, 2,700 and 5,100 of which were over 120 days past due in payment, respectively.
- (b) "Analog video customers" include all customers who receive video services (including those who also purchase high-speed Internet and telephone services) but excludes approximately 308,100, 303,100, 295,800 and 288,000 customer relationships at September 30, 2007, June 30, 2007, December 31, 2006 and September 30, 2006, respectively, who receive high-speed Internet service only or telephone service only and who are only counted as high-speed Internet customers or telephone customers.
- (c) Included within "analog video customers" are those in commercial and multi-dwelling structures, which are calculated on an equivalent bulk unit ("EBU") basis. EBU is calculated for a system by dividing the bulk price charged to accounts in an area by the most prevalent price charged to non-bulk residential customers in that market for the comparable tier of service. The EBU method of estimating analog video customers is consistent with the methodology used in determining costs paid to programmers and has been used consistently. As we increase our effective analog video prices to residential customers without a corresponding increase in the prices charged to commercial service or multi-dwelling customers, our EBU count will decline even if there is no real loss in commercial service or multi-dwelling customers.
- (d) "Customer relationships" include the number of customers that receive one or more levels of service, encompassing video, Internet and telephone services, without regard to which service(s) such customers receive. This statistic is computed in accordance with the guidelines of the National Cable & Telecommunications Association (NCTA) that have been adopted by eleven publicly traded cable operators, including Charter.
- (e) "Pro forma average monthly revenue per analog video customer" is calculated as total quarterly pro forma revenue divided by three divided by average pro forma analog video customers during the respective quarter.
- (f) "Bundled customers" include customers receiving a combination of at least two different types of service, including Charter's video service, high-speed Internet service or telephone. "Bundled customers" do not include customers who only subscribe to video service.
- (g) "Digital video customers" include all households that have one or more digital set-top boxes or cable cards deployed. Included in "digital video customers" on September 30, 2007, June 30, 2007, December 31, 2006 and September 30, 2006 are approximately 3,100, 3,200, 4,700 and 5,100 customers, respectively, that receive digital video service directly through catallitic transmission.
- (h) "Residential high-speed Internet customers" represent those residential customers who subscribe to our high-speed Internet service. At September 30, 2007, June 30, 2007, December 31, 2006 and September 30, 2006, approximately 2,363,100, 2,313,000, 2,133,300 and 2,080,500 of these high-speed Internet customers, respectively, receive video and/or telephone services from us and are included within the respective statistics above.
- (i) "Telephone customers" include all customers receiving telephone service. As of September 30, 2007, June 30, 2007, December 31, 2006 and September 30, 2006, approximately 770,600, 670,400, 418,600 and 314,000 of these telephone customers, respectively, receive video and/or high-speed Internet services from us and are included within the respective statistics above.
- (j) "Revenue generating units" represent the sum total of all analog video, digital video, high-speed Internet and telephone customers, not counting additional outlets within one household. For example, a customer who receives two types of service (such as analog video and digital video) would be treated as two revenue generating units, and if that customer added on high-speed Internet service, the customer would be treated as three revenue generating units. This statistic is computed in accordance with the guidelines of the NCTA that have been adopted by eleven publicly traded cable operators, including Charter.
- (k) "Homes passed" represent our estimate of the number of living units, such as single family homes, apartment units and condominium units passed by our cable distribution network in the areas where we offer the service indicated. "Homes passed" exclude commercial units passed by our cable distribution network. These estimates are updated for all periods presented when estimates change.
- (1) "Penetration" represents customers as a percentage of homes passed for the service indicated.
- (m) "Pro forma average monthly revenue per customer" represents quarterly pro forma revenue for the service indicated divided by three divided by the number of pro forma customers for the service indicated during the respective quarter.
- (n) "Pro forma quarterly net gain (loss)" represents the pro forma net gain or loss in the respective quarter for the service indicated.
- (o) "Digital penetration of analog video customers" represents the number of digital video customers as a percentage of analog video customers.

Adjusted EBITDA (b)											

⁽a) Interest on cash pay obligations excludes accretion of original issue discounts on certain debt securities and amortization of deferred financing costs that are reflected as interest expense in our consolidated statements of operations.

The above schedules are presented in order to reconcile adjusted EBITDA and free cash flows, both non-GAAP measures, to the most directly comparable GAAP measures in accordance with Section 401(b) of the Sarbanes-Oxley Act.

⁽b) See page 1 of this addendum for detail of the components included within adjusted EBITDA. Adjusted EBITDA from continuing and discontinued operations of \$467 million and \$1.5 billion for the three and nine months ended September 30, 2006, respectively, includes \$0 and \$46 million of adjusted EBITDA recorded in discontinued operations in our consolidated statements of operations.

⁽c) Pro forma results reflect certain sales of cable systems in the third quarter of 2006, January 2007 and May 2007, and the acquisition of cable systems in August 2007 as if they occurred as of January 1, 2006.

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES CAPITAL EXPENDITURES (DOLLARS IN MILLIONS)

		Three Months E	September 30,	_	Nine Months Er	nded S	September 30,	
	_	2007	_	2006	=	2007	_	2006
Customer premise equipment (a)	\$	139	\$	120	\$	428	\$	378
Scalable infrastructure (b)		64		49		164		146
Line extensions (c)		27		23		76		82
Upgrade/Rebuild (d)		11		13		35		36
Support capital (e)	_	70	_	51	_	187	_	153
Total capital expenditures	\$_	311	\$_	256	\$_	890	\$	795

- (a) Customer premise equipment includes costs incurred at the customer residence to secure new customers, revenue units and additional bandwidth revenues. It also includes customer installation costs in accordance with SFAS No. 51 and customer premise equipment (e.g., set-top boxes and cable modems, etc.).
- (b) Scalable infrastructure includes costs, not related to customer premise equipment or our network, to secure growth of new customers, revenue units and additional bandwidth revenues or provide service enhancements (e.g., headend equipment).
- (c) Line extensions include network costs associated with entering new service areas (e.g., fiber/coaxial cable, amplifiers, electronic equipment, make-ready and design engineering).
- (d) Upgrade/rebuild includes costs to modify or replace existing fiber/coaxial cable networks, including betterments.
- (e) Support capital includes costs associated with the replacement or enhancement of non-network assets due to technological and physical obsolescence (e.g., non-network equipment, land, buildings and vehicles).
