

*Note: All comparisons and growth references are versus the comparable period in 2007.*

**Earnings Outlook:**

- Full-year 2008 earnings before restructuring and other income and charges of \$3.90-4.10 per diluted share.
- Second quarter earnings before restructuring and other income and charges of \$1.10-1.20 per diluted share, driven by strong commercial performance in all segments, partially offset by higher raw material costs.

**Agricultural Products**

- Full-year revenue growth in the high single digits as a result of a healthy global agricultural economy, increased planted acres of key crops and new product introductions.
- Full-year segment earnings up low to mid teens driven by the sales growth and further supply chain productivity improvements partially offset by higher raw material costs.
- Second quarter segment earnings up 10-15 percent due to continued growth across all geographic areas, new product introductions and continued supply chain improvements, partially offset by higher raw material costs.

**Specialty Chemicals**

- Full-year revenue growth in the mid-single digits due to higher volumes across the segment and higher selling prices in BioPolymer.
- Full-year segment earnings growth in the mid-single digits, as strong commercial performance in BioPolymer and lithium specialties and the benefit of continued productivity improvements are partially offset by lower selling prices for primary lithium compounds and higher export taxes.
- Second quarter segment earnings up mid single digits driven by strong commercial performance in BioPolymer and continued productivity improvements partially offset by higher raw material and energy costs and higher export taxes in Argentina.

**Industrial Chemicals**

- Full-year revenue growth of approximately 10 percent as a result of higher selling prices across all businesses, particularly in soda ash and phosphates, and volume growth.
- Full-year segment earnings up 60-70 percent as aggregate price and volume benefits more than offset higher raw material costs.
- Second quarter segment earnings up 80-90 percent as aggregate price and volume benefits more than offset higher raw material costs.

**Corporate and Other Financial Items:**

	<u>Full-Year 2008:</u>
• Interest expense:	~ \$30 million
• Corporate expense	~ \$47 million
• Other income/(expense)	~(\$10) million
• D&A	~\$120 million
• Capital spending	~\$140 million
• Legacy environmental remediation	~\$30 million
• Tax rate (before restructuring and other charges)	~32 percent
• Shares outstanding	~77 million
