Multibrand conversions increase the sales and points of distribution for the second brand added to a restaurant but do not result in an additional unit count. Similarly, a new multibrand restaurant, while increasing sales and points of distribution for two brands, results in just one additional unit count.

⁽a) Amounts do not reflect 203 International Division multibrand units in operation at the end of the period. There are no multibrand units in the China Division.

FOURTH-QUARTER 2006 DEFINITIONS

Excl F/x represents the percentage change excluding the impact of foreign currency translation. These amounts are calculated by translating current-year results at prior-year average exchange rates. We believe elimination of the foreign currency translation impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.

Franchise Fees include fees from unconsolidated affiliates (joint ventures) and franchise and license restaurants. Fees include ongoing royalty and license fees, initial fees for new restaurants and contract-renewal fees.

Franchise Restaurants include unconsolidated affiliates (joint ventures) and franchise restaurants and exclude license restaurants.

Franchisee Sales represent combined estimated sales of unconsolidated affiliate, franchise and license restaurants. Franchisee sales, which are not included in the company sales we present on our Consolidated Statements of Income, generate franchise and license fees (typically at a rate of 4% to 6% of sales) that are included in the company's revenues.

Free Cash Available represents net cash provided by operating activities and other sources of cash, such as refranchising, employee stock-option proceeds, sales of PP&E and other, less net cash used in investing activities.

New-Restaurant Openings include unconsolidated affiliates (joint ventures), company-owned and franchise restaurants and exclude license restaurants.

Operating Margin represents operating profit dollars as a percentage of revenue dollars.

Special Items include AmeriServe and other charges (credits) and Wrench litigation.

System Restaurants include unconsolidated affiliates (joint ventures), company-owned, franchise and license restaurants.

System-Sales Growth includes the results of all restaurants regardless of ownership including unconsolidated affiliates (joint ventures), company-owned, franchise and license restaurants. Sales of unconsolidated affiliates (joint ventures), franchise and license restaurants generate franchise and license fees for the company (typically at a rate of 4% to 6% of sales). Unconsolidated affiliates (joint ventures), franchise and license restaurant sales are not included in company sales we present on the Condensed Consolidated Statements of Income; however, the franchise fees previously defined are included in the company's revenues. We believe system-sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all our revenue drivers, company and franchise same-store sales as well as new-restaurant development.

System Same-Store-Sales Growth is the estimated growth in sales of all restaurants that have been open one year or more regardless of ownership including unconsolidated affiliates (joint ventures), company-owned, franchise and license restaurants.

Traditional Restaurants include unconsolidated affiliates (joint ventures), company-owned and franchise restaurants but exclude license restaurants, which are typically nontraditional restaurants, such as airports, with substantially lower average unit volumes than traditional restaurant locations.

U.S. Blended System Same-Store Sales include all company, franchise and license restaurants that have been open one year or more. U.S. same-store sales include KFC, Pizza Hut, Taco Bell, Long John Silver's and A&W restaurants.

U.S. Blended Same-Store Sales include only company restaurants that have been open one year or more. U.S. blended same-store sales include KFC, Pizza Hut, and Taco Bell company-owned restaurants only. U.S. same-store sales for Long John Silver's and A&W restaurants are not included.

Worldwide Same-Store Sales is the estimated growth in sales of all restaurants that have been open one year or more regardless of ownership including unconsolidated affiliates (joint ventures), companyowned, franchise and licensed restaurants.
