

PRESS RELEASE

Penson Worldwide, Inc. Reports Results for Fourth Quarter and Year Ended December 31, 2007

DALLAS, TX, February 5, 2008 – Penson Worldwide, Inc. (NASDAQ: PNSN), a leading provider of execution, clearing, settlement and custody and technology products and services to the global financial services industry, today announced results for the fourth quarter and year ended December 31, 2007.

For the December 2007 quarter, net revenues (reflecting gross interest revenue from securities activities less associated interest expenses; see note below) increased 44%, to \$75.6 million compared to \$52.6 million in the December 2006 quarter, with sharp gains across the board in clearing and commission fees (+61%), technology revenue (+31%), net interest revenue (+17%), and other revenue (+69%). Net income grew 32%, to \$10.2 million compared to \$7.7 million in the December 2006 quarter, with earnings per diluted share increasing 30%, to \$0.39, from \$0.30. There were 3% more diluted weighted average shares outstanding in the December 2007 quarter compared to the year ago period.

“Penson experienced strong performances across all major U.S. and international segments in the December 2007 quarter, resulting in record revenues and net income for the quarter and record revenues and pro forma net income for the year, even with lower interest rates,” said Philip A. Pendergraft, Chief Executive Officer. “During the quarter, we continued to execute well on our plans, benefiting from new clients and services, and higher average customer balances. We also benefited from robust market volumes in equities, options and futures.”

“All five of our major operating units were profitable during the fourth quarter, including our technology and futures businesses. Operating margin continued to rebound over the course of 2007, reaching a high for the year of 21.2% in the December 2007 quarter. Fiscal 2008 has started off well with strong volume. While lower interest rates will impact us this year, we nonetheless look forward to continuing to grow the Company.”

Fiscal 2007 Results

For the year ended December 31, 2007, net revenues increased 34%, to \$264.7 million compared to \$198.2 million in 2006. Income from continuing operations in 2007 increased 11%, to \$26.8 million, or \$1.00 per diluted share, on 16% more average fully diluted shares outstanding, compared to \$24.3 million, or \$1.05 per diluted share, in 2006. Excluding the third quarter’s previously announced Sentinel-related expense (\$6.9 million net of tax, or \$0.26 per diluted share), income from continuing operations for 2007 would have been \$33.7 million, an increase of 39% versus 2006, and on a diluted per share basis, would have been \$1.26, an increase of 20% from a year ago.

PENSON 4Q07 & 2007 RESULTS

Analysis of Fourth Quarter 2007 Results

(All comparisons are to the corresponding year-ago period unless otherwise indicated)

Revenue from clearing and commission fees increased 61%, to \$34.6 million. Approximately half of this growth came from organic sources and the balance from acquisitions (including the Schonfeld correspondent business, the Penson GHCO futures commission merchant business, and one month from the November 30, 2007 purchase of First Capitol Group LLC).

Equity clearing operations in the US, Canada and UK signed a net nine new correspondents during the December 2007 quarter, bringing the year end total to 243 as compared to 230 at year end 2006. During the December 2007 quarter, Penson GHCO added one net new futures correspondent and the First Capitol acquisition added seven, bringing the year end total futures correspondents to 34 as compared to 19 during the March 2007 quarter, when GHCO results were first included as part of Penson. As a result, at December 31, 2007, Penson had a total of 277 correspondents.

Net interest revenue increased 17%, to \$23.2 million. Net interest revenue from average daily interest earning asset based balances from correspondents' customers grew 13%, to \$21.3 million. A 71% increase in interest earning assets was partially offset by a narrower spread from a change in mix of balances and a 100 basis point year over year decline in the targeted federal funds rate. Balances increased primarily due to new business and the growth of correspondents' businesses. Net interest revenue from conduit stock loans rose 83%, to \$1.9 million, due to increased demand from broker-dealers and a larger securities lending inventory.

Technology revenue increased 31%, to \$4.5 million, primarily due to continued increases in recurring revenues, as well as new customers and strong trading volumes during the quarter. In the "other" category, revenue expanded 69%, to \$13.2 million, reflecting increases in trading revenue in equities and foreign exchange, equity and option execution fees, and Penson's new trade aggregation service, launched in November 2007. The new service aggregates trades from correspondent and non-correspondent clients for processing through counter-party organizations, enabling Penson to reduce total cost of trading for clients.

Operating margin was 21.2% versus 22.4%. The slight decline reflects interest expense associated with acquisitions and share repurchases and the impact of lower operating margins in the Company's acquired futures business.

Status of Share Repurchase Programs

Weighted average shares outstanding (diluted) for the year ended December 31, 2007 primarily reflected Penson's May 2006 IPO; shares relating to the Schonfeld, GHCO and CCS acquisitions; and the fourth quarter 2007 share payment for the First Capitol acquisition. These share increases were mostly offset by the Company's \$25 million share repurchase program (in which it purchased 1,289,778 shares in the third quarter and 184,725 in the fourth quarter) and the Company's fourth quarter purchase of 74,340 shares as part of its second share repurchase program, in which \$12.5 million was authorized, leaving a remaining repurchase authorization balance of \$11.4 million as of December 31, 2007.

PENSON 4Q07 & 2007 RESULTS

Note on "Net Revenues"

Starting with the fourth quarter and year-end 2007 results, Penson will be reporting in the narrative segment of its quarterly news releases on the more widely used "net revenues" basis, instead of "total revenues" used previously. Total revenues will continue to be included in the income statement. Net revenues reflect interest revenue from securities operations after deducting associated interest expenses. The Company believes this provides a more useful assessment of the actual contribution of its operations that generate interest revenue.

Reclassification

The Company has reclassified certain prior period amounts to conform to current year's presentation. Certain expenses that were included in other expenses are now included in occupancy and equipment. The reclassifications had no effect on the consolidated statements of operations or Stockholders' equity as previously reported.

Non-GAAP Financial Measures

From time to time the Company uses certain non-GAAP measures of financial performance to supplement the unaudited financial statements presented in accordance with GAAP. The Company presents non-GAAP measurements when we believe that the additional information is useful and meaningful to investors. Non-GAAP measurements do not have any standardized meaning and are therefore unlikely to be comparable to similar measures presented by other companies. The presentation of non-GAAP measurements is not intended to be a substitute for, and should not be considered in isolation from, the financial measures reported in accordance with GAAP.

We have reported our results of operations for the year 2007 both with and on a pro forma basis without the effect of the \$6.9 million expense net of tax in the third quarter of 2007 relating to the funds placed with Sentinel Management Group. We believe that, given the one time nature of this loss, it is useful to state what our results of operations would have been without the Sentinel loss so that investors can see the financial trends for our continuing business.

Conference Call

Penson will host a conference call to discuss results for the fourth quarter and year ended December 31, 2007 on Wednesday, February 6, 2008, at 10:00 AM Eastern Time (9:00 AM Central Time). The call will be accessible live via a webcast on the Investor Relations section of Penson's website located at www.penson.com. Institutional Investors can access call details via Thomson Financial StreetEvents at www.streetevents.com. A webcast replay will be available shortly thereafter on both those sites.
