## **Motorola Stature i9** **Style Never Looked This Good**

The new Motorola Stature i9 is the sleekest iDEN flip handset you've ever held in your hand. With a superior multimedia experience and a stylish design, i9 is an ideal choice for those who want to impress in the boardroom or while living the high life. At 15mm, i9 is the thinnest flip phone on Motorola's iDEN Push-To-Talk network<sup>1</sup>. With an eye catching design that features sleek metal finishes and soft-touch accents, Motorola Stature i9 is as stylish as it is functional. Motorola Stature i9 provides one-touch access to many of the features that matter most. Using Motorola's innovative ModeShift technology, keys on the outside of the touch-sensitive flip morph and illuminate so you see only the keys you need for imaging, video and accessing the media player. Haptic feedback erases doubt and ensures that the phone has acknowledged the touch.

### **NEXTEL DIRECT CONNECT<sup>1</sup>:**

- **Direct Connect<sup>®</sup>** – Instant, one-to-one push-to-talk communication nationwide with any other Nextel<sup>1</sup> Direct Connect subscriber.
- **Group Connect<sup>®</sup>** – Communicate or coordinate activities with up to 20 other Nextel Direct Connect subscribers all at once – nationwide. Create and manage groups dynamically on your phone.
- **International Direct Connect<sup>SM</sup>** – International Direct Connect Calling lets you instantly connect from the U.S. to users in other eligible countries including Canada and Mexico. In addition, International Direct Connect Roaming lets you make and receive push-to-talk calls while traveling in those countries.<sup>1</sup>
- **Direct Talk<sup>SM</sup>** – The all-digital off-network push-to-talk service that works anywhere, anytime between compatible phones for short-range communications (range will vary based on terrain and conditions and in-building performance). Direct Talk is a reliable back-up communications tool in times of emergency, network outage, or when working in or traveling to remote areas where coverage is not available.<sup>1</sup>
- **Direct Send<sup>SM</sup>** – Send pictures or contact information to other Direct Send-capable phones...with a quick push of the button!<sup>1</sup>
- **NextMail<sup>®</sup>** – Send voice messages to any email address anywhere using your Direct Connect button! NextMail lets you communicate with others via email on the go without typing. You can also incorporate NextMail into your daily operations to document and track activity; even use customizable subject lines to prioritize, sort and file critical communications.<sup>1</sup>

### **Advanced Multimedia Experience**

- **Expandable Memory:** Images, video and music are conveniently stored with up to 8 GB of optional removable memory<sup>2</sup>, and easily accessed via the touch-sensitive external keys.
- **Camera:** 3.1 megapixel camera with Auto Focus
- **Multimedia Messaging Service:** Send or receive Multimedia Messages (either audio, images, text, or all three in the same message) to or from email addresses and other capable users. You can even wirelessly store multimedia on the Sprint web site.
- **GPS Navigation:** Features embedded Global Positioning System (GPS) chip necessary for utilizing the E911 emergency location services where available, and receiving audible and visual turn-by-turn driving directions, mapping your location, or conducting local searches direct from your handset.<sup>1,2</sup>
- **Bluetooth<sup>®</sup> 2.0:** Enables hands-free, short-range wireless communication using a Bluetooth stereo headset and wireless uploading/downloading to or from a computer.
