

### **Wood Group Pressure Control to Provide Wellhead Equipment to PEMEX**

**HOUSTON, May 5, 2008** — Wood Group Pressure Control (“WGPC”), part of international energy services company John Wood Group PLC (“Wood Group”), has been awarded two contracts worth a total of US\$12.7 million by Petróleos Mexicanos (PEMEX) to provide wellhead equipment for use in Mexico’s on- and offshore fields.

The awards comprise a one-year \$8.3 million contract to supply 10,000 and 15,000 psi wellhead equipment for use in exploring the southern region’s Cardenas, Reforma, and Comalcalco fields, and a three-year \$4.4 million contract to provide surface wellhead systems for the marine region, including Cantarell, Ku-Malop-Zap and other fields in the Campeche bay. These contracts are in addition to a one-year \$13.5 million contract awarded in September 2007. WGPC has provided surface wellhead systems for PEMEX’s Burgos project since 2005.

Scott Bender, president of WGPC, stated, “We believe that our long-term commitment to manufacturing and service in Mexico was instrumental in these awards.”

WGPC de Mexico will provide field service support from its new state-of-the-art manufacturing facility in Monterrey and two service centers located in Reynosa and Villahermosa.

-end-

**Wood Group** is an international energy services company with more than US\$4.4bn sales, employing approximately 25,000 people worldwide and operating in 46 countries. The Group has three businesses - Engineering & Production Facilities, Well Support, and Gas Turbine Services - providing a range of engineering, production support, maintenance management and industrial gas turbine overhaul and repair services to the oil & gas, and power generation industries worldwide.

**Wood Group Pressure Control** designs and manufactures wellhead systems, gate valves, chokes and actuators that control formation pressures and product flow from initial drilling through production for oil companies around the world. Also offered are repair, maintenance and remanufacturing services for wellhead systems, gate valves and flow control products. Wood Group Pressure Control operations are conducted by more than 1,200 employees from 27 locations in the United States and from 29 other international locations. Manufacturing facilities are located in Oklahoma, Canada, Scotland, Indonesia, Australia, Venezuela, Mexico and China. Web site: [www.wgpressurecontrol.com](http://www.wgpressurecontrol.com)
