We are an established and growing owner, operator and franchisor of restaurants featuring a variety of boldly-flavored, made-to-order menu items including our Buffalo, New York-style chicken wings spun in any of our signature sauces. Our restaurants create an inviting neighborhood atmosphere that includes an extensive multi-media system, a full bar and an open layout, which appeals to sports fans and families alike. Our concept offers elements of the quick casual and casual dining restaurant concepts featuring a flexible service model that allows our guests to choose among convenient dining options such as quick casual counter service, casual dining table service or take-out. Our award-winning food and inviting atmosphere, combined with our guests’ ability to customize their dining experience, drives guest visits and loyalty.

The widespread appeal of our concept establishes our restaurants as a neighborhood destination with 429 restaurants in 37 states as of December 31, 2006. Our menu, competitively priced between the quick casual and casual dining segments, features fresh chicken wings and other items including boneless wings, chicken tenders, popcorn shrimp, specialty hamburgers and sandwiches, wraps, Buffalito® soft tacos, appetizers and salads. Our made-to-order menu items are enhanced by the bold flavor profile of our signature sauces, ranging from mild Teriyaki™ to Blazin’®. Our restaurants serve approximately 20 domestic and imported beers on tap, including several local or regional micro-brews and a wide selection of bottled beers, wines, and liquor. The inviting and energetic environment of our restaurants is complemented by furnishings that can be easily rearranged to accommodate parties of various sizes. Our guests have the option of watching sporting events or other popular programs on our projection screens and approximately 40 additional televisions, playing Buzztime® Trivia or video games. The open layout of our restaurants offers dining and bar areas that provide distinct seating choices for sports fans and families. Our unique service model, which provides the flexibility of ordering at the counter or table, allows our guests to customize their Buffalo Wild Wings® experience to meet the different time demands or service preferences of a workday lunch, a dine-in dinner, a take-out meal, an afternoon or evening enjoying a sporting event or a late-night craving.

We have established our brand through coordinated marketing and operational execution that ensures brand recognition and the quality and consistency of our concept. These efforts include marketing programs and irreverent, award-winning advertising to support both our company-owned and franchised restaurants. We also prominently feature our trademark Buffalo insignia and yellow and black colors in our restaurants and brand our company materials. Our concept is further strengthened by our emphasis on operational excellence supported by stringent operating guidelines and comprehensive employee training in both company-owned and franchised restaurants.

Buffalo Wild Wings was founded in 1982 by Jim Disbrow and Scott Lowery at a location near The Ohio State University. Our original name was Buffalo Wild Wings & Weck® and we became more popularly known as bw-3®. In 1991, we began our franchising program. In November 2003, we completed an initial public offering and became a publicly-held company.

Our Concept and Business Strategy

Our goal is to continue to grow and develop the Buffalo Wild Wings® Grill & Bar concept into a leading national restaurant chain. To do so, we plan to execute the following strategies:

- *Open restaurants in new and existing markets;*
- *Offer boldly-flavored menu items with broad appeal;*
- *Create an inviting, neighborhood atmosphere;*
- *Enable our guests to customize their dining experience;*
- *Continue to strengthen the Buffalo Wild Wings brand;*

- *Focus on operational excellence; and*
- *Increase same-store sales and average unit volumes.*

Growth Strategy

Our growth strategy involves opening company-owned and franchised restaurants in both new and existing markets. We believe that we have established the necessary infrastructure and control systems to support our disciplined growth strategy and that our concept can support over 1,000 restaurants in the United States. We have developed procedures for identifying new market opportunities, determining our company and franchising strategy in those markets and identifying sites for company-owned and franchised restaurants. Our growth strategy for the near-term projects a mix of approximately one-third company-owned restaurants and approximately two-thirds franchised restaurants.

We intend to build additional company-owned restaurants in both new and existing markets. In most of our existing markets, we plan to continue to develop new company-owned restaurants until a market is penetrated to a point that will enable us to gain marketing and cost efficiencies. We intend to enter new markets by opening several restaurants within a one-year period to quickly build our brand awareness. We intend to grow our franchise system through the development of new restaurants by existing and new franchisees, focusing on multiple-unit area development agreements.

The Buffalo Wild Wings Menu

Our restaurants feature a variety of menu items including our Buffalo, New York-style chicken wings spun in one of our signature sauces (from sweet to screamin' hot: Teriyaki™, Sweet BBQ™, Mild™, Medium™, Spicy Garlic™, Caribbean Jerk™, Hot BBQ™, Hot™, Wild® and Blazin'®, and our newest sauces: Parmesan Garlic™, Honey BBQ™, Asian Zing™, and Mango Habanero™). Our fresh chicken wings can be ordered in sizes ranging from six to 100 wings, with larger orders available for parties. Our sauces complement and distinguish our chicken wings to create a bold flavor profile for our guests. In addition to chicken wings, our menu features a wide variety of food items including boneless wings, chicken tenders, popcorn shrimp, specialty hamburgers and sandwiches, wraps, Buffalito soft tacos, finger foods and salads. We also provide a 12 & Under Menu for kids.

Our restaurants feature a full bar which offers an extensive selection of approximately 20 domestic and imported beers on tap as well as bottled beers, wine and liquor. Additionally, in order to continually improve our menu, we have a research and development department that tests and implements new menu items. Our goal is to balance the established menu offerings that appeal to our loyal guests with new menu items that increase guest frequency and attract new guests.

Restaurant Atmosphere and Layout

Our restaurants are designed to provide an inviting neighborhood atmosphere and allow our guests the flexibility to customize their dining experience. The inviting and energetic environment of our restaurants is created using furnishings that can be easily rearranged to accommodate parties of various sizes. Our restaurants also feature distinct dining and bar areas with select restaurants having patio seating.

We strategically place approximately 40 televisions and up to seven projection screen televisions throughout the restaurant to allow for easy viewing. These televisions, combined with our sound system, Buzztime® Trivia and assorted video games, provide a source of entertainment for our guests and reinforce the energetic nature of our concept. We tailor the content and volume of our video and audio programming to reflect our guests' tastes. We believe the design of our restaurants enhances our guests' experiences, drives repeat visits and solidifies the broad appeal of our concept.

All of our menu items are made-to-order and are available for take-out, which approximated 16% of restaurant sales for company-owned restaurants in 2006. Many of our restaurants have separate parking spots for our take-out guests.

Current Restaurant Locations

As of December 31, 2006, we owned or franchised 429 Buffalo Wild Wings restaurants in 37 states, of which 139 were company-owned and 290 were franchised. In 2007, we plan to achieve over 15% unit growth and open over 20 new company-owned restaurants.

Our company-owned restaurants range in size from 4,000 to 7,600 square feet, with an average of approximately 5,600 square feet for restaurants that have opened in the last three years. We anticipate that future restaurants will range in size from 4,500 square feet to 6,400 square feet with an average cash investment per restaurant of approximately \$1.2 million, excluding preopening expenses of approximately \$180,000. From time to time, we expect that our restaurants may be smaller

or larger or cost more or less than our targeted range, depending on the particular circumstances of the selected site or market. Also, from time to time, we expect to purchase the building or the land and building for certain restaurants, in which case the cash investment would be significantly higher.

Our restaurants are typically open on a daily basis from 11 a.m. to 2 a.m. Closing times vary depending on the day of the week and city and state regulations governing the sale of alcoholic beverages. Our franchise agreements require franchisees to operate their restaurants for a minimum of 12 hours a day.

Site Selection and Development

Our site selection process is integral to the successful execution of our growth strategy. We have processes for identifying, analyzing and approving new markets, as defined by the A.C. Nielson designated market areas in the United States. In selecting designated market areas, we collect and review restaurant industry data relating to restaurant sales, spending on food away from home and expected restaurant growth in the market, as well as market demographics, population data and relative media costs for radio and television advertising. Once a market is identified, we use a trade area and site selection evaluation system, which has been customized for the requirements of the Buffalo Wild Wings system, to assist in identifying suitable trade areas within that market and suitable sites within identified trade areas. Criteria examined to determine appropriate trade areas include the presence of a casual dining corridor, projected growth within the trade area, the locations of key big box retailers and multi-screen movie theaters in the neighborhood, key demographics and population density, drive time and trade area analysis and other quantitative and qualitative measures. Once a suitable trade area is identified, we examine site-specific details including visibility, signage, access and parking. Final approval by two or more members of our executive management team is required for each company-owned site. At least one senior franchise executive reviews each franchise site.

Marketing and Advertising

We have created a unique marketing program designed to communicate a distinctive and consistent brand that differentiates Buffalo Wild Wings from our competitors and that showcases our food in a fun and energetic atmosphere. These efforts include marketing campaigns and irreverent, award-winning advertising to support both our company-owned and franchised restaurants. The primary goal of these efforts is to build brand awareness throughout the United States. In addition, advertising campaigns are also designed to: i) drive positive same-store sales through additional visits by our existing guests and visits by new guests, ii) increase margins, iii) increase average order size, and iv) support strong restaurant openings.

Marketing Campaigns. Our primary marketing campaigns focus on a particular menu item, day or daypart in an attempt to drive traffic and build brand awareness. For example, in 2006 we developed a campaign to promote the rollout of our new “Ribs & Combos” menu items. Our secondary marketing campaigns focus on reaching beyond the core Buffalo Wild Wings guest. Given our strategy to be a neighborhood destination, community marketing is also a key to developing brand awareness in each market. Our restaurants actively sponsor local sporting teams and sporting events to drive guest traffic associated with those activities.

Advertising. Our media advertising focuses on positioning the Buffalo Wild Wings brand as an inviting neighborhood dining location. Our commercials, print advertisements and radio spots are irreverent by design and have been recognized in the restaurant and advertising industries for their creativity.

Franchise Involvement. System-wide campaigns and promotions are developed and implemented with input from the Buffalo Wild Wings National Advertising Advisory Board. This volunteer franchisee board is elected by franchisees annually and meets regularly to review marketing strategies, provide input on advertising messages and vendor co-op programs, and discuss marketing objectives.

Operations

Our management team strives for operational excellence by recruiting, training and supporting the highest quality management teams and employees and through the implementation of operational best practices within our restaurants.

Restaurant Management. Our management structure consists of a general manager, one assistant general manager and up to three other managers depending on sales volume of the restaurant. We utilize regional managers to oversee our general managers, ensuring that they receive the training and support necessary to effectively operate their restaurants. Currently, we have 16 regional managers who oversee four to nine restaurants each. As we expand geographically, we expect to add additional regional managers. We have five Directors of Operations who lead the Regional Managers.

Kitchen Operations. An important aspect of our concept is the efficient design, layout and execution of our kitchen operations. Due to the relatively simple preparation of our menu items, the kitchen consists of fryers, grill and food prep stations that are arranged assembly-line style for maximum productivity. Given our menu and kitchen design, we are able to staff our kitchen with hourly employees who require only basic training before reaching full productivity. Additionally, we do not require the added expense of an on-site chef. The ease and simplicity of our kitchen operations allows us to achieve our goal of preparing casual dining quality food with minimal wait times. We also believe the ease of our kitchen operations is a significant factor in attracting franchisees.

Training. We provide extensive training for management and hourly employees at company-owned restaurants, with the goal of providing an excellent guest experience based on our service, food preparation and facilities maintenance. Further, we require each franchisee to send their general manager, assistant manager and “control person” to attend our management training program.

Managers of our company-owned restaurants are trained using a two-part process. This includes hands-on education during a five-week training period at one of our certified training restaurants, coupled with an additional one-week management skills class. During this training period, our manager trainees will work in every aspect of the business, including line cook, server and manager.

Our hourly employees in company-owned restaurants complete a comprehensive position certification process. A station certification process requires 16 to 20 hours of hands-on and classroom-style training. In addition, our hourly employees are encouraged to participate in an on-the-job training program called the Wing Certified Trainer, or WCT, program that utilizes both detailed training guides and hands-on instruction by restaurant management. The certification process requires that the employee have a high level of knowledge of all 10 components of restaurant operations. These 10 components represent the six different job positions in our restaurant: cashier and greeter, bartender, server, expedite station, grill and southwest station, and chip and shake station. Monetary incentives and additional benefits are used to encourage employees to participate in this certification process. Our objective is to have at least four WCTs at each company-owned and franchised restaurant.

Career Opportunities. We attempt to motivate and retain our field operations team by providing them with opportunities for increased responsibilities and advancement. In addition, we offer performance-based cash incentives tied to sales, profitability and qualitative measures such as mystery shop scores. It is our preference to promote from within whenever possible.

Recruiting. We actively recruit and select individuals who demonstrate enthusiasm and dedication and who share our passion for high quality guest service delivered through teamwork and commitment. To attract high caliber managers, we have developed a competitive compensation plan that includes a base salary and an attractive benefits package, including participation in a management incentive plan that rewards managers for achieving performance objectives.

Food Preparation, Quality Control and Purchasing

We strive to maintain high quality standards. Our systems are designed to protect our food supply throughout the preparation process. We provide detailed specifications to suppliers for our food ingredients, products and supplies. Our restaurant managers are certified in a comprehensive food safety and sanitation course, ServSafe, developed by the National Restaurant Association Educational Foundation.

We negotiate directly with independent suppliers for our supply of food and paper products. We use members of UniPro Food Services, Inc., a national cooperative of independent food distributors, to distribute these products from the suppliers to our restaurants. To maximize our purchasing efficiencies and obtain the lowest possible prices for our ingredients, products and supplies, our purchasing team negotiates prices based on system-wide usage for both company-owned and franchised restaurants. We believe that competitively priced, high quality alternative manufacturers, suppliers, growers and distributors are available should the need arise.

We utilize T. Marzetti company for the production of our signature sauces. They maintain sufficient inventory levels to ensure consistent supply to our restaurants. We have a confidentiality agreement with Marzetti which prevents our sauces from being supplied to, or manufactured for, anyone else.

Fresh chicken wings are an important component of our cost of sales. Prices are generally based on the underlying commodity price of chicken wings plus additional costs for handling and distribution. Fresh chicken wings accounted for approximately 24%, 27%, and 34% of our cost of sales in 2006, 2005, and 2004, respectively. We ensure consistent supply of high quality chicken wings by utilizing four to six suppliers, with Peco Foods, Inc. currently accounting for approximately 33% of the total system-wide supply. Given our multiple suppliers and the commodity nature of fresh chicken wings, we

believe we have sufficient supplier flexibility to maintain a consistent chicken wing supply. We regularly review our buying procedures to ensure quality and cost optimization.

Restaurant Franchise Operations

Our concept continues to attract a strong group of franchisees, many of whom have substantial prior restaurant operations experience. Our franchisees execute a separate franchise agreement for each restaurant opened, typically providing for a 15 to 20-year initial term, with an opportunity to enter into a renewal franchise agreement subject to certain conditions. Our agreement currently requires franchisees to pay an initial franchise fee of \$42,500 for the first restaurant opened and \$32,500 for each additional restaurant they open. The \$32,500 fee is reduced to \$12,500 if the additional restaurant is in the designated area of the franchisee's existing restaurant. If a franchisee has entered into an area development agreement with us, the initial franchise fee is \$42,500 for the first restaurant, \$32,500 for the second restaurant and \$27,500 for each subsequent restaurant. These amounts are reduced to \$32,500 for the first restaurant and \$12,500 for each subsequent restaurant if the franchisee is an existing area developer signing an additional area development agreement. If the franchisee is an existing franchisee that subsequently signs an area development agreement, the franchise fee is \$32,500 for the first restaurant and \$22,500 for each subsequent restaurant.

Franchisees also pay us a royalty fee of 5.0% of their restaurant sales. Franchise agreements typically allow us to assess franchisees an advertising fee in the amount of 3.5% of their restaurant sales, of which 3.0% was contributed to our Advertising Fund in 2006 and the remaining 0.5% was spent directly by the franchisee in the applicable local market. Our current form of franchise agreement permits us to increase the required contribution to the Advertising Fund by 0.5% once every three years. The amount contributed to the Advertising Fund increased from 2.5% to 3.0% on December 26, 2005.

All of our franchise agreements require that each franchised restaurant be operated in accordance with our defined operating procedures, adhere to the menu established by us, meet applicable quality, service, health and cleanliness standards and comply with all applicable laws. We ensure these high standards are being followed through a variety of means including mystery shoppers and announced and unannounced quality assurance inspections. We also employ franchise consultants to assist our franchisees in developing profitable operations and maintaining our operating standards. We may terminate the franchise rights of any franchisee who does not comply with our standards and requirements. We believe that maintaining superior food quality, an inviting and energetic atmosphere and excellent guest service are critical to the reputation and success of our concept; therefore, we aggressively enforce the contractual requirements of our franchise agreements.

The area development agreement establishes the number of restaurants that must be developed in a defined geographic area and the deadlines by which these restaurants must open. For area development agreements covering three to seven restaurants, restaurants are usually required to open in 12-month intervals. For larger development agreements, the interval is typically shorter. The area development agreement can be terminated by us if, among other reasons, the area developer fails to open restaurants on schedule.

Management Information Systems

We have our core management information systems in place and believe they are scalable to support our future growth plans. We utilize a standard point-of-sale system in all of our company-owned restaurants that helps facilitate the operation of the restaurants by recording sales, cost of sales, labor and other operating metrics and allows managers to create various reports. We currently are reviewing the capabilities of our current point-of-sale system to ensure it is sufficient to support our planned expansion. Certain information from the point-of-sale system is transferred to our headquarters on a daily basis and is reported daily to various levels of management through email and our corporate intranet. Franchisees are required to report sales on a daily basis through an on-line reporting network and submit their restaurant-level financial statements on a quarterly or annual basis.

Competition

The restaurant industry is intensely competitive. We compete on the basis of the taste, quality and price of food offered, guest service, ambience, location, and overall dining experience. We believe that our attractive price-value relationship, the atmosphere of our restaurant, our flexible service model and the quality and distinctive flavor of our food enable us to differentiate ourselves from our competitors. We believe we compete primarily with local and regional sports bars and casual dining and quick casual establishments, as well as with quick service restaurants such as wing-based take-out concepts. Many of our direct and indirect competitors are well-established national, regional or local chains and some have substantially greater financial and marketing resources than we do. We also compete with many restaurant and retail establishments for site locations and restaurant employees.

Proprietary Rights

We own the rights to the “Buffalo Wild Wings®” service mark and to certain other service marks and trademarks used in our system. We attempt to protect our sauce recipes as trade secrets by, among other things, requiring a confidentiality agreement with our sauce supplier and executive officers. It is possible that competitors could develop recipes and procedures that duplicate or closely resemble our recipes and procedures. We believe that our trademarks, service marks and other proprietary rights have significant value and are important to our brand-building efforts and the marketing of our restaurant concept. We vigorously protect our proprietary rights. We cannot predict, however, whether steps taken by us to protect our proprietary rights will be adequate to prevent misappropriation of these rights or the use by others of restaurant features based upon, or otherwise similar to, our concept. It may be difficult for us to prevent others from copying elements of our concept and any litigation to enforce our rights will likely be costly and may not be successful. Although we believe that we have sufficient rights to all of our trademarks and service marks, we may face claims of infringement that could interfere with our ability to market our restaurants and promote our brand. Any such litigation may be costly and divert resources from our business. Moreover, if we are unable to successfully defend against such claims, we may be prevented from using our trademarks or service marks in the future and may be liable for damages.

Government Regulation

The restaurant industry is subject to numerous federal, state and local governmental regulations, including those relating to the preparation and sale of food and alcoholic beverages, sanitation, public health, fire codes, zoning and building requirements. Each restaurant requires appropriate licenses from regulatory authorities allowing it to sell liquor, beer and wine, and each restaurant requires food service licenses from local health authorities. Our licenses to sell alcoholic beverages must be renewed annually and may be suspended or revoked at any time for cause, including violation by us or our employees of any law or regulation pertaining to alcoholic beverage control, such as those regulating the minimum age of employees or patrons who may serve or be served alcoholic beverages, the serving of alcoholic beverages to visibly intoxicated patrons, advertising, wholesale purchasing and inventory control. The failure of a restaurant to retain liquor or food service licenses could have a material adverse effect on our operations. In order to reduce this risk, restaurant employees are trained in standardized operating procedures designed to assure compliance with all applicable codes and regulations.

We and our franchisees are also subject to laws governing our relationships with employees, including laws and regulations relating to benefits, wages, hours, workers’ compensation insurance rates, unemployment and other taxes, working and safety conditions and citizenship or immigration status. We may also be subject in certain states to “dram-shop” statutes, which generally allow a person injured by an intoxicated person to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person. In addition, we are subject to various state and federal laws relating to the offer and sale of franchises and the franchisor-franchisee relationship. In general, these laws and regulations impose specific disclosure and registration requirements prior to the sale and marketing of franchises and regulate certain aspects of the relationship between franchisor and franchisee.

Employees

As of December 31, 2006, we employed 7,482 employees. We have 1,113 full-time and 6,210 part-time employees working in our company-owned restaurants and 159 employees based out of our home office or in the field. Our employees are not covered by any collective bargaining agreement and we have never experienced an organized work stoppage or strike. We believe that our working conditions and compensation packages are competitive and consider our relations with our employees to be good.

Executive Officers

The following sets forth certain information about our executive officers:

Sally J. Smith, 49, has served as our Chief Executive Officer and President since July 1996 and as a director since August 1996. She served as our Chief Financial Officer from 1994 to 1996. Prior to joining Buffalo Wild Wings, she was the Chief Financial Officer of Dahlberg, Inc., the manufacturer and franchisor of Miracle-Ear hearing aids, from 1983 to 1994. Ms. Smith began her career with KPMG LLP, an international accounting and auditing firm. Ms. Smith is a CPA. She serves on the board of the National Restaurant Association and is also a board member of Alerus Financial Corporation.

Mary J. Twinem, 46, has served as our Executive Vice President, Chief Financial Officer and Treasurer since July 1996. She served as our Controller from January 1995 to July 1996. From 1993 to 2001, Ms. Shoulak served as Vice President of Field Human Resources of OfficeMax.

Linda G. Traylor, 55, has served as our Senior Vice President, Human Resources since October 2006. Prior to joining us, Ms. Traylor managed her own consulting company, LG Traylor & Associates from 2005 to 2006. From 2001 to 2005, Ms. Traylor served as Senior Vice President, Human Resources of Denny's Corporation and as its Vice President, Human Resources Planning and Development from 1995 to 2001. From 1979 to 1995, Ms. Traylor held various leadership positions with Burger King Corporation.

ITEM 1A. RISK FACTORS

The foregoing discussion and the discussion contained in Item 7 of this Form 10-K contain various "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are based on current expectations or beliefs concerning future events. Such statements can be identified by the use of terminology such as "anticipate," "believe," "estimate," "expect," "intend," "may," "could," "possible," "plan," "project," "will," "forecast" and similar words or expressions. Our forward-looking statements generally relate to our growth strategy, financial results, sales efforts, store openings and related expense, and cash requirements. Although it is not possible to foresee all of the factors that may cause actual results to differ from our forward-looking statements, such factors include, among others, the risk factors that follow. Investors are cautioned that all forward-looking statements involve risks and uncertainties.

Fluctuations in chicken wing prices could reduce our operating income.

The primary food product used by our company-owned and franchised restaurants is fresh chicken wings. We purchase fresh chicken wings based on current market prices that are subject to fluctuations. A material increase in fresh chicken wings costs may adversely affect our operating results. Fresh chicken wing prices in 2006 averaged 3% lower than 2005 as the average price per pound dropped to \$1.17 in 2006 from \$1.20 in 2005. If there is a significant rise in the price of fresh chicken wings, and we are unable to successfully adjust menu prices or menu mix or otherwise make operational adjustments to account for the higher wing prices, our operating results could be adversely affected. For example, fresh chicken wings accounted for approximately 24%, 27%, and 34% of our cost of sales in 2006, 2005, and 2004, respectively, with an annual average price per pound of \$1.17, \$1.20, and \$1.39, respectively. A 10% increase in the fresh chicken wing costs for 2006 would have increased restaurant cost of sales by approximately \$1.8 million. If the avian flu were to affect our supply of chicken wings, our operations may be negatively impacted, as prices may rise due to limited supply. Additional information related to chicken wing prices is included in Item 7 under "Results of Operations."

If we are unable to successfully open new restaurants, our revenue growth rate and profits may be reduced.

To successfully expand our business, we must open new Buffalo Wild Wings restaurants on schedule and in a profitable manner. In the past, we and our franchisees have experienced delays in restaurant openings and we may experience similar delays in the future. Delays or failures in opening new restaurants could hurt our ability to meet our growth objectives, which may affect our results of operations, the expectations of securities analysts and shareholders and thus our stock price. We cannot guarantee that we or our franchisees will be able to achieve our expansion goals. Further, any restaurants that we, or our franchisees, open may not achieve operating results similar to those of our existing restaurants. If we are unable to generate positive cash flow from a new restaurant, we may be required to recognize an impairment loss with respect to the assets for that restaurant. Our ability to expand successfully will depend on a number of factors, many of which are beyond our control. These factors include:

- Locating suitable restaurant sites in new and existing markets;
- Negotiating acceptable lease or purchase terms for new restaurants;
- Recruiting, training and retaining qualified home office, field and restaurant personnel and management;
- Attracting and retaining qualified franchisees;
- Cost effective and timely planning, design and build-out of restaurants;
- Obtaining building materials and hiring satisfactory construction contractors;
- Obtaining and maintaining required local, state and federal governmental approvals and permits related to the construction of the sites and the sale of food and alcoholic beverages;
- Creating guest awareness of our restaurants in new markets;
- Competition in our markets; and
- General economic conditions.

We must identify and obtain a sufficient number of suitable new restaurant sites for us to sustain our revenue growth rate.

We require that all proposed restaurant sites, whether for company-owned or franchised restaurants, meet our site-selection criteria. We may make errors in selecting these criteria or applying these criteria to a particular site, or there may be an insignificant number of new restaurant sites meeting these criteria that would enable us to achieve our planned expansion in future periods. We face significant competition from other restaurant companies and retailers for sites that meet our criteria and the supply of sites may be limited in some markets. Further, we may be precluded from acquiring an otherwise suitable site due to an exclusivity restriction held by another tenant. As a result of these factors, our costs to obtain and lease sites may increase, or we may not be able to obtain certain sites due to unacceptable costs. Our inability to obtain suitable restaurant sites at reasonable costs may reduce our growth rate.

Our restaurants may not achieve market acceptance in the new geographic regions we enter.

Our expansion plans depend on opening restaurants in new markets where we or our franchisees have little or no operating experience. We may not be successful in operating our restaurants in new markets on a profitable basis. The success of these new restaurants will be affected by the different competitive conditions, consumer tastes and discretionary spending patterns of the new markets as well as our ability to generate market awareness of the Buffalo Wild Wings brand. Sales at restaurants opening in new markets may take longer to reach average annual restaurant sales, if at all, thereby affecting their profitability.

New restaurants added to our existing markets may take sales from existing restaurants.

We and our franchisees intend to open new restaurants in our existing markets, which may reduce sales performance and guest visits for existing restaurants in those markets. In addition, new restaurants added in existing markets may not achieve sales and operating performance at the same level as established restaurants in the market.

Implementing our expansion strategy may strain our resources.

Our expansion strategy may strain our management, financial and other resources. We must attract and retain talented operating personnel to maintain the quality and service levels at our existing and future restaurants. We must also continue to enhance our operational, financial and management systems. We may not be able to effectively manage these or other aspects of our expansion. If we fail to do so, our business, financial condition, operating results and cash flows could suffer.

We are dependent on franchisees and their success.

Currently, approximately 68% of our restaurants are franchised. Franchising royalties and fees represented approximately 11% of our revenues during fiscal 2006, 2005, and 2004. Our performance depends upon i) our ability to attract and retain qualified franchisees, ii) the franchisees' ability to execute our concept and capitalize upon our brand recognition and marketing, and iii) franchisees' ability to timely develop restaurants. We may not be able to recruit franchisees who have the business abilities or financial resources necessary to open restaurants on schedule, or who will conduct operations in a manner consistent with our concept and standards. Also, our franchisees may not be able to operate restaurants in a profitable manner.

Franchisees may take actions that could harm our business.

Franchisees are independent contractors and are not our employees. We provide training and support to franchisees, but the quality of franchised restaurant operations may be diminished if franchisees do not operate restaurants in a manner consistent with our standards and requirements, or if they do not hire and train qualified managers and other restaurant personnel. If franchisees do not adequately manage their restaurants, our image and reputation, and the image and reputation of other franchisees, may suffer materially and system-wide sales could significantly decline. In addition, we may also face potential claims and liabilities due to the acts of our franchisees based on agency or vicarious liability theories.

We could face liability from our franchisees.

A franchisee or government agency may bring legal action against us based on the franchisee/franchisor relationships. Various state and federal laws govern our relationship with our franchisees and our potential sale of a franchise. If we fail to comply with these laws, we could be liable for damages to franchisees and fines or other penalties. Expensive litigation with our franchisees or government agencies may adversely affect both our profits and our important relations with our franchisees.

We may be unable to compete effectively in the restaurant industry.

The restaurant industry is intensely competitive. We believe we compete primarily with regional and local sports bars, casual dining and quick casual establishments, and quick service wing-based take-out concepts. Many of our direct and indirect competitors are well-established national, regional or local chains with a greater market presence than us. Further, some competitors have substantially greater financial, marketing and other resources than us. In addition, independent owners of local or regional establishments may enter the wing-based restaurant business without significant barriers to entry and such establishments may provide price competition for our restaurants. Competition in the casual dining, quick casual and quick service segments of the restaurant industry is expected to remain intense with respect to price, service, location, concept and the type and quality of food. We also face intense competition for real estate sites, qualified management personnel and hourly restaurant staff.

A reduction in vendor allowances currently received could affect our costs of goods sold.

During fiscal 2006, 2005, and 2004, vendor allowances were recorded as a reduction in inventoriable costs and cost of sales was reduced by \$4.2 million, \$4.0 million, and \$3.9 million, respectively. If the amount of vendor rebates is reduced, inventoriable costs may increase, as may the cost of sales.

Our quarterly operating results may fluctuate due to the timing of special events and other factors, including the recognition of impairment losses.

Our quarterly operating results depend, in part, on special events, such as the Super Bowl® and other popular sporting events, and thus are subject to fluctuations based on the dates for such events. Historically, sales in most of our restaurants have been higher during fall and winter months based on the relative popularity of national, regional and local sporting and other events. Further, our quarterly operating results may fluctuate significantly because of other factors, including:

- Increases or decreases in same-store sales;
- Fluctuations in food costs, particularly fresh chicken wings;

- The timing of new restaurant openings, which may impact margins due to the related preopening costs and initially higher restaurant level operating expense ratios;
- Labor availability and costs for hourly and management personnel;
- Changes in competitive factors;
- Disruption in supplies;
- General economic conditions and consumer confidence;
- Claims experience for self-insurance programs;
- Increases or decreases in labor or other variable expenses;
- The impact from natural disasters;
- Fluctuations in interest rates; and
- The timing and amount of asset impairment loss and restaurant closing charges.

As a result of the factors discussed above, our quarterly and annual operating results may fluctuate significantly. Accordingly, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for any year. These fluctuations may cause future operating results to fall below the expectations of securities analysts and investors. In that event, the price of our common stock would likely decrease.

We may not be able to attract and retain qualified personnel to operate and manage our restaurants.

Our success and the success of our individual restaurants depends on our ability to attract, motivate and retain a sufficient number of qualified restaurant employees, including restaurant managers, kitchen staff and wait staff. The inability to recruit and retain these individuals may delay the planned openings of new restaurants or result in high employee turnover in existing restaurants. This could inhibit our expansion plans and business performance and, to the extent that a labor shortage may force us to pay higher wages, harm our profitability. Further, the loss of any of our executive officers could adversely impact us.

We may not be able to obtain and maintain licenses and permits necessary to operate our restaurants.

The restaurant industry is subject to various federal, state and local government regulations, including those relating to the sale of food and alcoholic beverages. The failure to obtain and maintain these licenses, permits and approvals, including food and liquor licenses, could adversely affect our operating results. Difficulties or failure to obtain the required licenses and approvals could delay or result in our decision to cancel the opening of new restaurants. Local authorities may revoke, suspend or deny renewal of our food and liquor licenses if they determine that our conduct violates applicable regulations.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, unemployment tax rates, workers' compensation rates, citizenship requirements and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, increased tax reporting and tax payment requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements, and increased employee litigation including claims relating to the Fair Labor Standards Act.

The Americans with Disabilities Act is a federal law that prohibits discrimination on the basis of disability in public accommodations and employment. Although our restaurants are designed to be accessible to the disabled, we could be required to make modifications to our restaurants to provide service to, or make reasonable accommodations for disabled persons.

We are susceptible to adverse trends and economic conditions in Ohio.

As of December 31, 2006, 81, or approximately 19%, of our company-owned and franchised restaurants were located in Ohio. As a result, we are susceptible to adverse trends and economic conditions in that state. In addition, given our

geographic concentration in the Midwest, negative publicity regarding any of our restaurants could have a material effect on our business and operations throughout the region, as could other regional occurrences such as local strikes, new or revised laws or regulations, or disruptions in the supply of food products.

Changes in consumer preferences or discretionary consumer spending could harm our performance.

Our success depends, in part, upon the continued popularity of Buffalo, New York-style chicken wings, our other menu items, sports bars and casual dining restaurant styles. We also depend on trends toward consumers eating away from home more often. Shifts in these consumer preferences could negatively affect our future profitability. Such shifts could be based on health concerns related to the cholesterol, carbohydrate or fat content of certain food items, including items featured on our menu. Negative publicity over the health aspects of such food items may adversely affect consumer demand for our menu items and could result in a decrease in guest traffic to our restaurants, which could materially harm our business. Smoking bans imposed by state or local laws could also adversely impact our restaurants' performance. In addition, our success depends to a significant extent on numerous factors affecting discretionary consumer spending, including economic conditions, disposable consumer income and consumer confidence. A decline in consumer spending or in economic conditions could reduce guest traffic or impose practical limits on pricing, either of which could harm our business, financial condition, operating results or cash flow.

Changes in public health concerns may impact our performance.

Changes in public health concerns may affect consumer preferences for our products. For example, if incidents of the avian flu occur in the United States, consumer preferences for poultry products may be negatively impacted, resulting in a decline in demand for our products. Similarly, public health concerns over smoking have seen a rise in smoking bans. Such smoking bans may adversely affect our operations to the extent that such bans are imposed in specific locations, rather than state-wide, or that exceptions to the ban are given to bars or other establishments, giving patrons the ability to choose nearby locations that have no such ban. Further, growing movements to lower blood alcohol levels may result in a decline in alcohol consumption at our stores or increase the number of dram shop claims made against us, either of which may negatively impact operations.

A decline in visitors to any of the business districts near the locations of our restaurants could negatively affect our restaurant sales.

Some of our restaurants are located near high activity areas such as retail centers, big box shopping centers and entertainment centers. We depend on high visitor rates at these businesses to attract guests to our restaurants. If visitors to these centers decline due to economic conditions, road construction, changes in consumer preferences or shopping patterns, changes in discretionary consumer spending or otherwise, our restaurant sales could decline significantly and adversely affect our results of operations.

The acquisition of existing restaurants from our franchisees may have unanticipated consequences that could harm our business and our financial condition.

We may seek to selectively acquire existing restaurants from our franchisees. To do so, we would need to identify suitable acquisition candidates, negotiate acceptable acquisition terms and obtain appropriate financing. Any acquisition that we pursue, whether or not successfully completed, may involve risks, including:

- material adverse effects on our operating results, particularly in the fiscal quarters immediately following the acquisition as the acquired restaurants are integrated into our operations;
- risks associated with entering into markets or conducting operations where we have no or limited prior experience; and
- the diversion of management's attention from other business concerns.

Future acquisitions of existing restaurants from our franchisees, which may be accomplished through a cash purchase transaction, the issuance of our equity securities or a combination of both, could result in potentially dilutive issuances of our equity securities, the incurrence of debt and contingent liabilities and impairment charges related to goodwill and other intangible assets, any of which could harm our business and financial condition.

Improper food handling may affect our business adversely.

There are health risks associated with eating contaminated or improperly handled or prepared food items. Negative publicity over illness caused by improper handling or preparation of food items could harm our future revenue and

profitability. While we currently maintain insurance for these types of incidents, we cannot guarantee our insurance is sufficient to cover all adverse outcomes.

Complaints or litigation may hurt us.

Occasionally, our guests file complaints or lawsuits against us alleging that we are responsible for an illness or injury they suffered at or after a visit to our restaurants. We are also subject to a variety of other claims arising in the ordinary course of business, including personal injury claims, contract claims, employment-related claims, claims by franchisees, and claims arising from an incident at a franchised restaurant. The restaurant industry has also been subject to a growing number of claims that the menus and actions of restaurant chains have led to the obesity of certain of their guests. In addition, we are subject to “dram shop” statutes. These statutes generally allow a person injured by an intoxicated person to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person. Recent litigation against restaurant chains has resulted in significant judgments and settlements under dram shop statutes. Regardless of whether any claims against us are valid or whether we are liable, claims may be expensive to defend and may divert time and money away from our operations and hurt our performance. A judgment significantly in excess of our insurance coverage or for which we do not have insurance coverage could materially affect our financial condition or results of operations. Further, adverse publicity resulting from these allegations may adversely affect us and our restaurants.

Our current insurance may not provide adequate levels of coverage against claims.

We currently maintain insurance customary for businesses of our size and type. However, there are types of losses we may incur that cannot be insured against or that we believe are not economically reasonable to insure, such as losses due to natural disasters. Such damages could have a material adverse effect on our business and results of operations.

Natural disasters and other events could harm our performance.

A natural disaster, such as a hurricane, a serious and widespread disease, such as an avian flu pandemic, or other events, such as a serious terrorist attack, could have a material adverse effect on our business and results of operations.

We may not be able to protect our trademarks, service marks or trade secrets.

We place considerable value on our trademarks, service marks and trade secrets. We intend to actively enforce and defend our marks and if violations are identified, to take appropriate action to preserve and protect our goodwill in our marks. We attempt to protect our sauce recipes as trade secrets by, among other things, requiring confidentiality agreements with our sauce suppliers and executive officers. However, we cannot be sure that we will be able to successfully enforce our rights under our marks or prevent competitors from misappropriating our sauce recipes. We can also not be sure that: i) our marks are valuable, ii) using our marks does not, or will not, violate others’ marks, iii) the registrations of our marks would be upheld if challenged, or iv) we would not be prevented from using our marks in areas of the country where others might have already established rights to them. Any of these uncertainties could have an adverse effect on us and our expansion strategy.

ITEM 2. PROPERTIES

We are headquartered in Minneapolis, Minnesota. Our home office has 17,198 square feet of office space. We occupy this facility under a lease that terminates on October 1, 2007.

On February 2, 2007, we signed a lease agreement for approximately 44,000 square feet of office space at a new location. The new lease terminates on November 30, 2017, with an option to renew for one five-year term. We intend to move into this new location in September of 2007.

As of December 31, 2006, we owned and operated 139 restaurants. We lease the land and building for nearly all of these sites. The majority of our existing leases are for 10 or 15-year terms, generally including options to extend the terms. We typically lease our restaurant facilities under “triple net” leases that require us to pay minimum rent, real estate taxes, maintenance costs and insurance premiums and, in some instances, percentage rent based on sales in excess of specified amounts. Most of our leases include “exclusive use” provisions prohibiting our landlords from leasing space to other restaurants that fall within certain specified criteria. Under our franchise agreements, we have certain rights to gain control of a restaurant site in the event of default under the lease or franchise agreement.

The following table sets forth the 37 states in which Buffalo Wild Wings restaurants are located and the number of restaurants in each state as of December 31, 2006:

ITEM 3. LEGAL PROCEEDINGS

Occasionally, we are a defendant in litigation arising in the ordinary course of our business, including claims arising from personal injuries, contract claims, franchise-related claims, dram shop claims, employment-related claims and claims from guests or employees alleging injury, illness or other food quality, health or operational concerns. To date, none of these types of litigation, most of which are typically covered by insurance, has had a material effect on us. We have and continue to insure against most of these types of claims. A judgment on any claim not covered by or in excess of our insurance coverage could adversely affect our financial condition or results of operations.

Holdings

As of February 1, 2007, there were approximately 186 record holders of our Common Stock, excluding shareholders whose stock is held either in nominee name and/or street name brokerage accounts. Based on information which we have obtained from our transfer agent, there are approximately 17,000 holders of our Common Stock whose stock is held either in nominee name and/or street name brokerage accounts.

Dividends

We have never declared or paid cash dividends on our Common Stock. It is our policy to preserve cash for development and other working capital needs and, therefore, do not currently have plans to pay any cash dividends. Our future dividend policy will be determined by our Board of Directors and will depend on various factors, including our results of operations, financial condition, anticipated cash needs and plans for expansion.

Securities Authorized for Issuance Under Equity Compensation Plans

For information on our equity compensation plans, refer to Item 12, "Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters."

Repurchases

We did not engage in any repurchases of our Common Stock during the fourth quarter of 2006. The following table sets out shares of our Common Stock repurchased by us in during 2006 that have not been previously disclosed.

(1) We utilize a 52- or 53-week accounting period that ends on the last Sunday in December. The fiscal years ended December 25, 2005, December 26, 2004, December 28, 2003, and December 29, 2002 were comprised of 52 weeks. The fiscal year ended December 31, 2006 is a 53-week year.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

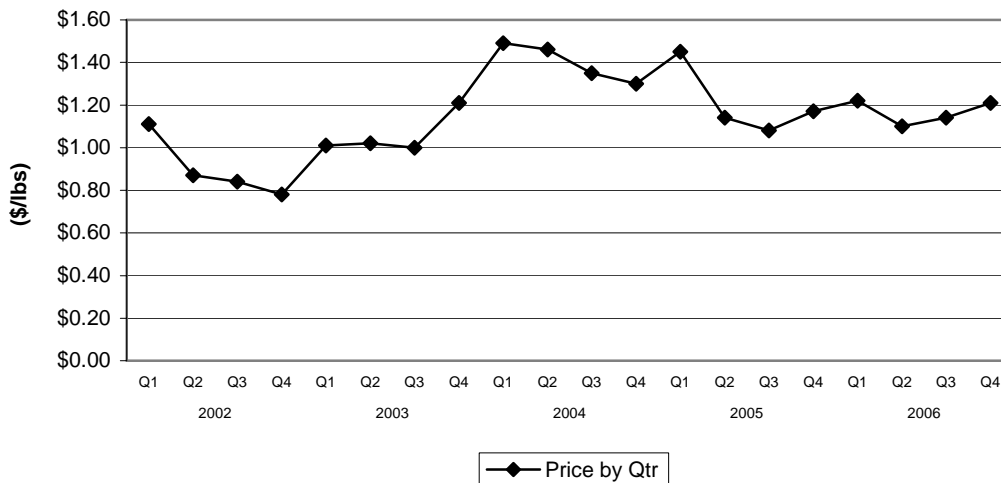

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes. This discussion and analysis contains certain statements that are not historical facts, including, among others, those relating to our anticipated financial performance for fiscal 2007 and our expected store openings. Such statements are forward-looking and involve risks and uncertainties including but not limited to those discussed in Item 1 of this 10-K under “Risk Factors/Forward-Looking Statements.” Information included in this discussion and analysis includes commentary on company-owned and franchised restaurant units, restaurant sales, same-store sales, and average weekly sales volumes. Management believes such sales information is an important measure of our performance, and is useful in assessing consumer acceptance of the Buffalo Wild Wings® Grill & Bar concept and the overall health of the concept. Franchise information also provides an understanding of our revenues because franchise royalties and fees are based on the opening of franchised units and their sales. However, franchise sales and same-store sales information does not represent sales in accordance with U. S. Generally Accepted Accounting Principles (GAAP), should not be considered in isolation or as a substitute for other measures of performance prepared in accordance with GAAP and may not be comparable to financial information as defined or used by other companies.

Overview

As of December 31, 2006, we owned and operated 139 and franchised an additional 290 Buffalo Wild Wings Grill & Bar restaurants in 37 states. Of the 429 system-wide restaurants, 81 of those restaurants are located in Ohio. The restaurants have elements of both the quick casual and casual dining styles, both of which are part of a growing industry. Our long-term focus is to grow to a national chain of over 1,000 locations, with 15% annual unit growth over the next three years, continuing the strategy of developing both company-owned and franchised restaurants.

Our growth and success depend on several factors and trends. First, we continue to monitor and react to changes in our cost of goods sold. The costs of goods sold is difficult to predict, as it ranged from 30.3% to 33.8% of restaurant sales per quarter in 2006 and 2005, mostly due to the price fluctuation in chicken wings. We are working to counteract the volatility of chicken wing prices with the introduction of popular new menu items, effective marketing promotions, focused efforts on food costs and waste, and menu price increases. We will continue to monitor the cost of fresh chicken wings, as it can significantly change our cost of sales and cash flow from company-owned restaurants. We also are exploring purchasing strategies to lessen the severity of cost increases and fluctuations, and are reviewing menu additions and other strategies that may decrease the percentage that fresh chicken wings represent in terms of total restaurant sales. The chart below illustrates the fluctuation in fresh chicken wing prices from quarter to quarter in the last five years.

**Average Quarterly Wing Prices
2002-2006**

A second factor is our success in new markets. There are inherent risks in opening new restaurants, especially in new markets, for various reasons, including the lack of experience, logistical support, and brand awareness in a new market. These factors may result in lower than anticipated sales and cash flow for new restaurants in new markets. In 2007, we plan to develop company-owned restaurants primarily in markets where we currently have either company-owned or franchised restaurants. We believe this development focus, together with our implementation of revised new restaurant opening procedures, will help to mitigate the overall risk associated with opening restaurants in new markets.

Third, we will continue our focus on trends in company-owned and franchised same-store sales as an indicator of the continued acceptance of our concept by consumers. We also review the overall trend in average weekly sales as an indicator of our ability to increase the sales volume, and, therefore, cash flow per location. We remain committed to high quality operations and guest hospitality, as evidenced by the implementation of our new choice service-style in company-owned and franchised restaurants.

Our revenue is generated by:

- Sales at our company-owned restaurants, which represented 89% of total revenue in 2006. Food and nonalcoholic beverages accounted for 72% of restaurant sales. The remaining 28% of restaurant sales was from alcoholic beverages. The menu item with the highest sales volume is chicken wings at 23% of total restaurant sales.
- Royalties and franchise fees received from our franchisees.

We generate cash from the operation of our company-owned restaurants and also from franchise royalties and fees. We highlight the specific costs associated with the on-going operation of our company-owned restaurants in the statement of earnings under "Restaurant operating costs." Nearly all of our depreciation expense relates to assets used by our company-owned restaurants. Preopening costs are those costs associated with opening new company-owned restaurants and will vary annually based on the number of new locations opened. Restaurant closures and impairment expense is related to company-owned restaurants, and includes the write-down of underperforming locations, the costs associated with closures of locations and normal asset retirements. Certain other expenses, such as general and administrative, relate to both company-owned restaurant and franchising operations.

As a growing company, we review our trend in general and administrative expenses, and are focused on reducing this expense as a percentage of revenue.

We operate on a 52 or 53-week fiscal year ending on the last Sunday in December. Each of the fiscal years in the four years ended December 25, 2005 were 52-week years. Our fiscal year ended December 31, 2006 was a 53-week year.

Critical Accounting Policies and Use of Estimates

Our significant accounting policies are described in Note 1 of the Consolidated Financial Statements, which were prepared in accordance with GAAP. Critical accounting policies are those that we believe are both important to the portrayal of our financial condition and results and require our most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

We believe that the following discussion represents our more critical accounting policies and estimates used in the preparation of our consolidated financial statements, although it is not inclusive.

Valuation of Long-Lived Assets and Store Closing Reserves

We review long-lived assets quarterly to determine if the carrying value of these assets may not be recoverable based on estimated future cash flows. Assets are reviewed at the lowest level for which cash flows can be identified, which is at the individual restaurant level. In the absence of extraordinary circumstances, restaurants are included in the impairment analysis after they have been open for 15 months. We evaluate the recoverability of a restaurant's long-lived assets, including leasehold improvements, equipment and fixtures over its remaining lease term, after considering the potential impact of planned operational improvements, marketing programs, and anticipated changes in the trade area. In determining future cash flows, significant estimates are made by us with respect to future operating results of each restaurant over its remaining lease term. If assets are determined to be impaired, the impairment charge is measured by calculating the amount by which the asset carrying amount exceeds its fair value based on our estimate of discounted future cash flows. The determination of asset fair value is also subject to significant judgment. During fiscal 2006, 2005, and 2004, we recognized \$481,000, \$1.7 million, and \$453,000 million, respectively, of asset impairment charges.

In addition to the valuation of long-lived assets, we also record a store closing reserve when a restaurant is abandoned. The store closing reserve is subject to significant judgment as accruals are made for lease payments on abandoned leased facilities. Many factors, including the local business environment, other available lease sites, and the willingness of lessors to negotiate lease buyouts are considered in making the accruals. We estimate future lease obligations based on these factors and evaluate quarterly the adequacy of the estimated reserve based on current market conditions. During 2006, we recorded a reserve of \$54,000 for a restaurant that closed in the fourth quarter of 2006.

The reconciliation of the store closing reserve for the years ended December 31, 2006, December 25, 2005, and December 26, 2004 is as follows (in thousands):

	As of Dec. 25, 2005	2006 provision	Costs incurred	As of Dec. 31, 2006
Remaining lease obligation and utilities	\$ —	\$ 54	\$ —	\$ 54

Broker fees	11	(11)	—	—
	<u>\$ 222</u>	<u>\$ (10)</u>	<u>\$ (76)</u>	<u>\$ 136</u>

Vendor Allowances

Vendor allowances include allowances and other funds received from vendors. Certain of these funds are determined based on various quantitative contract terms. We also receive vendor allowances from certain manufacturers and distributors calculated based upon purchases made by franchisees. Amounts that represent a reimbursement of costs incurred, such as advertising, are recorded as a reduction of the related expense. Amounts that represent a reduction of inventory purchase costs are recorded as a reduction of inventoriable costs. We record an estimate of earned vendor allowances that are calculated based upon monthly purchases. We generally receive payment from vendors approximately 30 days from the end of a month for that month's purchases. During fiscal 2006, 2005, and 2004, vendor allowances were recorded as a reduction in inventoriable costs, and cost of sales was reduced by \$4.2 million, \$4.0 million, and \$3.9 million, respectively.

Revenue Recognition — Franchise Operations

Our franchise agreements have terms ranging from 10 to 20 years. These agreements also convey extension terms of 5 or 10 years depending on contract terms and if certain conditions are met. We provide training, preopening assistance and restaurant operating assistance in exchange for area development fees, franchise fees and royalties of 5% of the franchised restaurant's sales. Franchise fee revenue from individual franchise sales is recognized upon the opening of the restaurant when we have performed all of our material obligations and initial services. Area development fees are dependent upon the number of restaurants granted in the agreement as are our obligations under the area development agreement. Consequently, as our obligations are met, area development fees are recognized in relation to the expenses incurred with the opening of each new restaurant and any royalty-free periods. Royalties are accrued as earned and are calculated each period based on reported franchisees' sales.

Self-Insurance Liability

We are self-insured for a significant portion of our risks and associated liabilities with respect to workers' compensation, general liability, and employee health benefits. The accrued liabilities associated with these programs are based on our estimate of the ultimate costs to settle known claims as well as claims that may have arisen but have not yet been reported to us as of the balance sheet date. Our estimated liabilities are not discounted and are based on information provided by our insurance brokers and insurers, combined with our judgments regarding a number of assumptions and factors, including the frequency and severity of claims, and claims development history. We maintain stop-loss coverage with third-party insurers to limit our total exposure for each of these programs. Significant judgment is required to estimate claims incurred but not reported as parties have yet to assert such claims. If actual claims trends, including the frequency or severity of claims, differ from our estimates, our financial results could be impacted.

Results of Operations

Our operating results for 2006, 2005, and 2004 are expressed as a percentage of total revenue below, except for the components of restaurant operating costs, which are expressed as a percentage of restaurant sales.

Fiscal Year 2006 Compared to Fiscal Year 2005

Restaurant sales increased by \$61.3 million, or 33.0%, to \$247.2 million in 2006 from \$185.8 million in 2005. The increase in restaurant sales was due to a \$37.6 million increase associated with the opening of 18 new company-owned restaurants in 2006 and the 29 company-owned restaurants opened before 2006 that did not meet the criteria for same-store sales and \$18.1 million increase caused by a 10.4% increase in same-store sales, and \$5.7 million related to sales in the 53rd week of fiscal 2006.

Franchise royalties and fees increased by \$7.2 million, or 30.0%, to \$31.0 million in 2006 from \$23.9 million in 2005. The increase was due primarily to additional royalties collected from the 45 new franchised restaurants that opened in 2006 and a full year of operations for the 47 franchised restaurants that opened in 2005. Same-store sales for franchised restaurants increased 6.1%. In the 53rd week of fiscal 2006, we recognized \$768,000 of franchise royalties and fees.

Cost of sales increased by \$17.3 million, or 29.5%, to \$76.1 million in 2006 from \$58.8 million in 2005 due primarily to more restaurants being operated in 2006. Cost of sales as a percentage of restaurant sales decreased to 30.8% in 2006 from 31.6% in 2005. The decrease in cost of sales as a percentage of restaurant sales was primarily due to the reduction of chicken wing prices and the leverage of food costs related to menu price increases. Fresh chicken wings were 24% of cost of goods sold in 2006 compared to 27% in 2005. This decrease was primarily due to the decrease in average wing costs to \$1.17 per pound in 2006 from \$1.20 per pound in 2005 and menu price increases taken in the fall of 2006.

Labor expenses increased by \$17.6 million, or 31.8%, to \$73.0 million in 2006 from \$55.4 million in 2005 due primarily to more restaurants being operated in 2006. Labor expenses as a percentage of restaurant sales decreased to 29.5% in 2006 from 29.8% in 2005. Labor costs for our restaurants were lower than the prior year primarily due to lower health insurance costs partially offset by higher incentive compensation costs.

Operating expenses increased by \$11.4 million, or 38.3%, to \$41.1 million in 2006 from \$29.7 million in 2005 due primarily to more restaurants being operated in 2006. Operating expenses as a percentage of restaurant sales increased to 16.6% in 2006 from 16.0% in 2005. The increase in operating expenses as a percentage of restaurant sales was primarily due to the 0.5% increase in contributions to the advertising fund. Increases in other operating costs, such as credit card fees, repair and maintenance costs, and supplies were offset by lower insurance and utility costs.

Occupancy expenses increased by \$3.4 million, or 23.7%, to \$17.5 million in 2006 from \$14.2 million in 2005 due primarily to more restaurants being operated in 2006. Occupancy expenses as a percentage of restaurant sales decreased to 7.1% in 2006 from 7.6% in 2005. The decrease in occupancy expense as a percentage of restaurant sales was primarily due to better leverage of costs with the higher sales levels.

Depreciation increased by \$2.7 million, or 23.2%, to \$14.5 million in 2006 from \$11.8 million in 2005. The increase was primarily due to the additional depreciation on 18 new restaurants opened in 2006 and 19 restaurants opened in 2005 and operated for a full year in 2006.

General and administrative expenses increased by \$8.1 million, or 36.2%, to \$30.4 million in 2006 from \$22.3 million in 2005. General and administrative expenses as a percentage of total revenue increased to 10.9% in 2006 from 10.6% in 2005. We adopted the fair value recognition provisions of SFAS 123R, using the modified-prospective transition method. Under this transition method, we recognized \$3.2 million of stock-based compensation in 2006. In 2005, we recognized \$1.7 million of stock-based compensation under APB 25 and other related pronouncements. Exclusive of stock-based compensation, our general and administrative expenses remained flat as a percentage of total revenue at 9.8% in 2006 and 2005.

Preopening costs increased by \$478,000, or 18.4%, to \$3.1 million in 2006 from \$2.6 million in 2005. In 2006, we opened 18 new company-owned restaurants and incurred costs of approximately \$29,000 for restaurants opening in 2007. In 2005, we opened 19 new company-owned restaurants and incurred costs of approximately \$38,000 for restaurants that opened in 2006 and incurred \$44,000 for restaurants that opened in 2004. Average preopening cost per restaurant was \$170,000 and \$132,000 in 2006 and 2005, respectively. The increase in average preopening cost per restaurant is primarily due to the expensing of preopening rent under a new accounting pronouncement for 2006.

Restaurant impairment and closures decreased by \$983,000, or 49.4%, to \$1.0 million in 2006 from \$2.0 million in 2005. The expense in 2006 included the asset impairment of one underperforming restaurant in Atlanta of \$481,000, and the disposal of miscellaneous equipment, and the closure costs for one store. The expense in 2005 included a \$1 million impairment loss with respect to certain assets of three underperforming restaurants in Atlanta and the disposal of miscellaneous equipment. In addition, the assets and goodwill impairment of \$621,000 for one underperforming restaurant in North Carolina occurred in 2005.

Interest income increased by \$1.0 million to \$2.3 million in 2006 from \$1.3 million in 2005. The increase was primarily due to the rise in short-term interest rates during the first half of 2006. Cash and marketable securities balances at the end of the year were \$64.6 million in 2006 compared to \$52.4 million in 2005.

Provision for income taxes increased \$2.1 million to \$7.6 million in 2006 from \$5.4 million in 2005. The effective tax rate as a percentage of income before taxes decreased to 31.7% in 2006 from 38.0% in 2005. The effective tax rate decrease was primarily due to higher federal tax credits, increased tax-exempt income and reduced state income tax due to changes in state apportionment factors. The reduction in state taxes is a result of new restaurants opening in states with favorable income tax rates and the phase-out of the Ohio income tax and phase-in of the Ohio franchise tax (Commercial Activity Tax). For 2007, we believe our effective tax rate will be between 34% and 35%.

We estimate the 53rd week in fiscal 2006 contributed approximately \$0.16 of earnings per diluted share.

Fiscal Year 2005 Compared to Fiscal Year 2004

Restaurant sales increased by \$33.6 million, or 22.1%, to \$185.8 million in 2005 from \$152.2 million in 2004. The increase in restaurant sales was due to a \$29.1 million increase associated with the opening of 19 new company-owned restaurants in 2005 and the 27 company-owned restaurants opened before 2005 that did not meet the criteria for same-store sales and \$4.5 million related to a 3.2% increase in same-store sales.

Franchise royalties and fees increased by \$5.1 million, or 26.8%, to \$23.9 million in 2005 from \$18.8 million in 2004. The increase was due primarily to additional royalties collected from the 47 new franchised restaurants that opened in 2005 and a full year of operations for the 42 franchised restaurants that opened in 2004. Same-store sales for franchised restaurants increased 2.2%.

Cost of sales increased by \$7.3 million, or 14.1%, to \$58.8 million in 2005 from \$51.5 million in 2004 due primarily to more restaurants being operated in 2005. Cost of sales as a percentage of restaurant sales decreased to 31.6% in 2005 from 33.8% in 2004. The decrease in cost of sales as a percentage of restaurant sales was primarily due to lower fresh chicken wing costs and product mix changes. Fresh chicken wings were 27% of cost of goods sold in 2005 compared to 34% in 2004. This decrease was primarily due to a drop in average wing costs to \$1.20 per pound in 2005 from \$1.39 per pound in 2004. Also, boneless wings sales have increased as a part of our menu mix, providing better margins and a corresponding lower cost of goods percentage.

Labor expenses increased by \$11.6 million, or 26.3%, to \$55.4 million in 2005 from \$43.9 million in 2004 due primarily to more restaurants being operated in 2005. Labor expenses as a percentage of restaurant sales also increased to 29.8% in 2005 compared to 28.8% in 2004. Labor in our restaurants was higher than prior year due to restaurants having higher hourly and management costs along with slightly higher medical costs and payroll taxes.

Operating expenses increased by \$6.6 million, or 28.8%, to \$29.7 million in 2005 from \$23.1 million in 2004 due primarily to more restaurants being operated in 2005. Operating expenses as a percentage of restaurant sales also increased to 16.0% in 2005 from 15.2% in 2004. The increase in operating expenses as a percentage of restaurant sales was primarily due to higher advertising with a focus on community marketing, higher credit card use by customers and higher utility costs.

Occupancy expenses increased by \$3.9 million, or 38.1%, to \$14.2 million in 2005 from \$10.3 million in 2004 due primarily to more restaurants being operated in 2005. Occupancy expenses as a percentage of restaurant sales also increased to 7.6% in 2005 from 6.7% in 2004, primarily due to higher rent expense as a percentage of their current sales levels for restaurants in new markets.

Depreciation increased by \$2.0 million, or 21.1%, to \$11.8 million in 2005 from \$9.7 million in 2004. The increase was primarily due to the additional depreciation on 19 new restaurants in 2005 and 19 new restaurants opened in 2004 and operated for a full year in 2005.

General and administrative expenses increased by \$2.9 million, or 15.1%, to \$22.3 million in 2005 from \$19.4 million in 2004. General and administrative expenses as a percentage of total revenue decreased to 10.6 % in 2005 from 11.3% in 2004. This decrease was primarily due to a planned decrease in general and administrative expense growth relative to sales growth. However, this decrease was partially offset by an incremental \$792,000 of stock-based compensation expense in 2005 related to the vesting of additional restricted stock units.

Preopening costs increased by \$557,000, or 27.3%, to \$2.6 million in 2005 from \$2.0 million in 2004. In 2005, we opened 19 new company-owned restaurants, incurred cost of approximately \$38,000 for restaurants opening in 2006 and incurred \$44,000 for restaurants that opened in 2004. In 2004, we opened 19 new company-owned restaurants, incurred costs of approximately \$100,000 for restaurants opening in 2005, and incurred costs of approximately \$30,000 for restaurants that opened in 2003. Average preopening cost per restaurant was \$132,000 and \$94,000 in 2005 and 2004, respectively. The increase was reflective of additional training and development of managers and team members at new locations.

Restaurant impairment and closures increased by \$1.4 million, or 247.5%, to \$2.0 million in 2005 from \$573,000 in 2004. On January 10, 2006, we concluded that we should recognize a \$1 million impairment loss with respect to certain assets of three underperforming restaurants in Atlanta. In addition, the write-down of the assets and goodwill of one underperforming restaurant in North Carolina was recognized during the third quarter of 2005. The expense in 2004 represented the asset impairment of two underperforming restaurants, additional reserves related to a restaurant which closed in 2002, and the write-off of miscellaneous equipment.

Interest income increased by \$669,000 to \$1.3 million in 2005 from \$671,000 in 2004. The majority of our investments were in short-term municipal securities. The increase in interest income was primarily due to the rise in short-term interest rates throughout 2005. Cash and marketable securities balances at the end of the year were \$52.4 million in 2005 compared to \$49.0 million in 2004.

Provision for income taxes increased \$1.3 million to \$5.4 million in 2005 from \$4.1 million in 2004. The effective tax rate as a percentage of income before taxes increased from 36.4% in 2004 to 38.0% in 2005. The rate increase was primarily a result of favorable resolutions of prior year state income tax matters which lowered the overall 2004 tax rate and increased provisions in 2005 for tax exposure items.

Liquidity and Capital Resources

Our primary liquidity and capital requirements have been for new restaurant construction, remodeling and maintaining our existing company-owned restaurants, working capital and other general business needs. Our main sources of liquidity and capital during the last three years have been cash flows from operations and the issuance of common stock through an initial public offering in November 2003. The cash and marketable securities balance at December 31, 2006 was \$64.6 million. We invest our cash balances in debt securities with the focus on protection of principal, adequate liquidity and maximization of after-tax returns. As of December 31, 2006, nearly all excess cash was invested in high quality municipal securities.

During fiscal 2006, 2005, and 2004, net cash provided by operating activities was \$33.0 million, \$24.6 million, and \$20.8 million, respectively. Net cash provided by operating activities in 2006 consisted primarily of net earnings adjusted for non-cash expenses, an increase in accrued expenses and income taxes payable, partially offset by an increase in accounts receivable and a decrease in accounts payable. The increase in accrued expenses was due to a greater number of restaurants and related payroll and operating costs, and higher incentive and deferred compensation costs partially offset by lower health insurance costs. The increase in income taxes payable and decrease in accounts payable was due to timing of payments. The increase in accounts receivable was due to higher credit card sales and tenant allowances compared to prior year. The purchase of marketable securities in 2006 relates to trading securities for a deferred compensation plan.

Net cash provided by operating activities in 2005 consisted primarily of net earnings adjusted for non-cash expenses and an increase in accounts payable and income taxes payable, partially offset by an increase in accounts receivable. The increase in accounts payable was due primarily to additional restaurants and the timing of payments. The increase in income taxes payable was also due to the timing of payments. The increase in accounts receivable was due to higher credit card usage and construction allowance receivables.

Net cash provided by operating activities in 2004 consisted primarily of net earnings adjusted for non-cash expenses and an increase in unearned franchise fees, accounts payable, and accrued expenses partially offset by an increase in accounts receivable and income tax receivables. The increase in unearned franchise fees was due to a number of area development and franchise agreements sold but for which the restaurants had not yet opened. The increase in accounts payable is relative to the growth in the number of company-owned restaurants. The increase in accrued expenses was due primarily to higher incentive compensation costs resulting from company performance, higher professional fees resulting from SOX 404 implementation, and a higher gift card liability due to strong fourth quarter gift card sales. The increase in accounts receivable was primarily due to higher credit card receivables partially offset by lower landlord receivables for tenant improvements. The increase in income tax receivables was due to the timing of payments.

Net cash used in investing activities for 2006, 2005, and 2004 was \$26.8 million, \$33.9 million, and \$59.3 million, respectively. Investing activities included purchases of property and equipment related to the opening of new restaurants in all periods. In 2006, 2005, and 2004, we opened 18, 19, and 19 new restaurants, respectively. In 2007, we expect capital expenditures for over 20 new company-owned restaurants to cost approximately \$1.2 million per location and expenditures of approximately \$12 million for the maintenance and remodels of existing restaurants and the relocation of our home office in Minneapolis. In 2006, we purchased \$108.3 million of marketable securities and received proceeds of \$105.3 million as investments in marketable securities matured or were sold. In 2005, we purchased \$91.5 million of marketable securities and received proceeds of \$79.5 million as investments in marketable securities matured or were sold. In 2004, we purchased \$95.5 million of marketable securities and received proceeds of \$58.9 million as investments in marketable securities matured.

Net cash provided by financing activities for 2006, 2005 and 2004 was \$1.6 million, \$730,000, and \$1.6 million, respectively. Net cash provided by financing activities for 2006 resulted primarily from the issuance of common stock for options exercised and employee stock purchases of \$1.1 million and excess tax benefits for restricted stock issuances of \$1.2 million partially offset by tax payments for restricted stock of \$686,000. Net cash provided by financing activities for 2005 resulted from the issuance of common stock for options exercised and employee stock purchases of \$1.0 million partially offset by tax payments for restricted stock of \$284,000. Net cash provided by financing activities for 2004 resulted primarily from the issuance of common stock for warrants exercised, stock options exercised, and employee stock purchases of \$1.6 million. No additional funding from the issuance of common stock (other than from the exercise of options and employee stock purchases) is anticipated in 2007.

Our liquidity is impacted by minimum cash payment commitments resulting from operating lease obligations for our restaurants and our corporate offices. Lease terms are generally 10 to 15 years with renewal options and generally require us to pay a proportionate share of real estate taxes, insurance, common area maintenance and other operating costs. Some restaurant leases provide for contingent rental payments based on sales thresholds. Except for one restaurant building, we do not currently own any of the land or buildings in which our restaurants operate and therefore do not have the ability to enter into sale-leaseback transactions as a potential source of cash.

The following table presents a summary of our contractual operating lease obligations and commitments as of December 31, 2006:

	Total	Payments Due By Period (in thousands)			After 5 years
		Less than one year	1-3 years	3-5 years	
Operating lease obligations	\$ 130,956	16,010	29,726	25,647	59,573
Commitments for restaurants under development	11,896	534	2,115	2,136	7,111
Total	\$ 142,852	16,544	31,841	27,783	66,684

Prior to our initial public offering, we operated with a net working capital deficit utilizing our cash from operations and proceeds from equity financings and equipment leasing to fund our operations and our expansion. Since our initial public offering, we have maintained a cash and marketable securities balance in excess of \$49 million and have funded our capital

expenditures from cash provided by operations. We believe the cash flows from our operating activities in 2007 will also be sufficient to fund our capital expenditures for the current year.

Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (“FIN 48”), “Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109,” which seeks to reduce the diversity in practice associated with the accounting and reporting for uncertainty in income tax positions. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. FIN 48 is effective for fiscal years beginning after December 15, 2006 and we will adopt the new requirements in the first quarter of 2007. The cumulative effect, if any, of adopting FIN 48 will be recorded as an adjustment to retained earnings as of the beginning of the period of adoption. The adoption of FIN 48 is not expected to have a significant impact on our financial statements.

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements” (“SFAS 157”), which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures above fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Early adoption is permitted. We have not yet determined the effect on our financial statements, if any, upon adoption of SFAS 157.

In September 2006, the SEC staff issued Staff Accounting Bulletin No. 108, “Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements” (“SAB 108”). The intent of SAB 108 is to reduce the diversity in practice for the method used to quantify financial statement misstatements, including the effect of prior year uncorrected errors. SAB 108 establishes an approach that requires quantification of financial statement errors using both an income statement and a cumulative balance sheet approach. SAB 108 is effective for fiscal years ending after November 15, 2006, and we adopted the new requirements in fiscal 2006. The adoption of SAB 108 did not have an impact on our consolidated financial statements.

Quarterly Results of Operations

The following table sets forth, by quarter, the unaudited quarterly results of operations for the two most recent years, as well as the same data expressed as a percentage of our total revenue for the periods presented. Restaurant operating costs are expressed as a percentage of restaurant sales. The information for each quarter is unaudited and we have prepared it on the same basis as the audited financial statements appearing elsewhere in this document. In the opinion of management, all necessary adjustments, consisting only of normal recurring adjustments, have been included to present fairly the unaudited quarterly results. All amounts, except per share amounts, are expressed in thousands.

Quarterly and annual operating results may fluctuate significantly as a result of a variety of factors, including increases or decreases in same-store sales, changes in fresh chicken wing prices, the timing and number of new restaurant openings and their related expenses, asset impairment charges, store closing charges, general economic conditions and seasonal fluctuations.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk related to our cash and cash equivalents and marketable securities. We invest our excess cash in highly liquid short-term investments with maturities of less than one year. These investments are not held for trading or other speculative purposes. Changes in interest rates affect the investment income we earn on our cash and cash equivalents and marketable securities and, therefore, impact our cash flows and results of operations.

Financial Instruments

Financial instruments that potentially subject us to concentrations of credit risk consist principally of municipal securities. We do not believe there is a significant risk of non-performance by these municipalities because of our investment policy restrictions as to acceptable investment vehicles.

Inflation

The primary inflationary factors affecting our operations are food, labor, and restaurant operating costs. Substantial increases in these costs could impact operating results to the extent that such increases cannot be passed along through higher menu prices. A large number of our restaurant personnel are paid at rates based on the applicable federal and state minimum wages, and increases in the minimum wage rates and tip-credit wage rates could directly affect our labor costs. Many of our leases require us to pay taxes, maintenance, repairs, insurance and utilities, all of which are generally subject to inflationary increases. During 2005, we were affected by higher diesel and natural gas prices. We believe inflation has not had a material impact on our results of operations in recent years.

Commodity Price Risk

Many of the food products purchased by us are affected by weather, production, availability and other factors outside our control. We believe that almost all of our food and supplies are available from several sources, which helps to control food product risks. We negotiate directly with independent suppliers for our supply of food and paper products. We use members of UniPro Food Services, Inc., a national cooperative of independent food distributors, to distribute these products from the suppliers to our restaurants. We have minimum purchase requirements with some of our vendors, but the terms of the contracts and nature of the products are such that our purchase requirements do not create a market risk. The primary food product used by company-owned and franchised restaurants is fresh chicken wings. We purchase fresh chicken wings based on current market prices that are subject to monthly fluctuation. A material increase in fresh chicken wing costs may adversely affect our operating results. Fresh chicken wing prices in 2006 averaged 3% lower than 2005 as the average price per pound dropped to \$1.17 in 2006 from \$1.20 in 2005. If there is a significant rise in the price of fresh chicken wings, and we are unable to successfully adjust menu prices or menu mix or otherwise make operational adjustments to account for the higher wing prices, our operating results could be adversely affected. Fresh chicken wings accounted for approximately 24%, 27%, and 34% of our cost of sales in 2006, 2005, and 2004, respectively, with an annual average price per pound of \$1.17, \$1.20, and \$1.39, respectively. A 10% increase in fresh chicken wing costs during 2006, would have increased restaurant cost of sales by approximately \$1.8 million for fiscal 2006. Additional information related to chicken wing prices and our approaches to managing the volatility thereof is included in Item 7 under "Results of Operations."

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Buffalo Wild Wings, Inc.:

We have audited the accompanying consolidated balance sheets of Buffalo Wild Wings, Inc. and subsidiaries (the Company) as of December 31, 2006 and December 25, 2005, and the related consolidated statements of earnings, stockholders' equity, and cash flows for each of the fiscal years in the three-year period ended December 31, 2006. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Buffalo Wild Wings, Inc. and subsidiaries as of December 31, 2006 and December 25, 2005, and the results of their operations and their cash flows for each of the fiscal years in the three-year period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 123R, "Share-Based Payment," on December 26, 2005.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"), and our report dated March 8, 2007 expressed an unqualified opinion on management's assessment of, and the effective operation of internal controls over financial reporting.

BUFFALO WILD WINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements December 31, 2006 and December 25, 2005 (Dollar amounts in thousands, except per-share amounts)

(1) Nature of Business and Summary of Significant Accounting Policies

(a) Nature of Business

The Company was organized for the purpose of operating Buffalo Wild Wings® restaurants, as well as selling Buffalo Wild Wings restaurant franchises. In exchange for the initial and continuing franchise fees received, the Company gives franchisees the right to use the name Buffalo Wild Wings.

At December 31, 2006, December 25, 2005, and December 26, 2004, the Company operated 139, 122, and 103 Company-owned restaurants, respectively, and had 290, 248, and 203 franchised restaurants, respectively.

(b) Principles of Consolidation

The consolidated financial statements include the accounts of Buffalo Wild Wings, Inc. and its wholly owned subsidiaries (collectively, the Company). All significant intercompany accounts and transactions have been eliminated in consolidation.

(c) Fiscal Year

The Company utilizes a 52- or 53-week accounting period that ends on the last Sunday in December. The fiscal year ended December 31, 2006 was a 53-week year with the quarter ended December 31, 2006 comprising fourteen weeks. The fiscal years ended December 25, 2005, and December 26, 2004, comprised 52 weeks. The 53rd week of fiscal 2006 contributed \$5,663 in restaurant sales and \$768 in royalties and fees.

(d) Restaurant Sales Concentration

As of December 31, 2006, the Company operated 22 Company-owned restaurants and had 59 franchised restaurants in the state of Ohio. The Company-owned restaurants in Ohio aggregated 18.6%, 22.3%, and 26.5%, respectively, of the Company's restaurant sales in fiscal 2006, 2005, and 2004. The Company is subject to adverse trends and economic conditions in that state.

(e) Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with original maturities of three months or less.

(f) Marketable Securities

Marketable securities consist of available-for-sale securities and trading securities that are carried at fair value and held-to-maturity securities that are stated at amortized cost, which approximates market.

Available-for-sale securities are classified as current assets based upon the Company's intent and ability to use any and all of the securities as necessary to satisfy the operational requirements of its business. Realized gains and losses from the sale of available-for-sale securities were not material for fiscal 2006. Unrealized losses are charged against net earnings when a decline in fair value is determined to be other than temporary. The available-for-sale investments carry short-term repricing features which generally result in these investments having a value at or near par value (cost).

Trading securities are stated at fair value, with gains or losses resulting from changes in fair value recognized currently in earnings as interest income. In 2006, we funded a deferred compensation plan using trading assets in a marketable equity portfolio. This portfolio is held to generate returns that seek to offset changes in liabilities related to the equity market risk of certain deferred compensation arrangements. These deferred compensation liabilities were \$1,237 in 2006 and are included in accrued compensation and benefits on the consolidated balance sheets.

(g) Accounts Receivable

Accounts receivable – franchisees represents royalty receivables from the Company's franchisees. Accounts receivable – other consists primarily of contractually-determined receivables for leasehold improvements, credit cards, vendor rebates, and purchased interest on investments.

BUFFALO WILD WINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements December 31, 2006 and December 25, 2005 (Dollar amounts in thousands, except per-share amounts)

(h) Inventories

Inventories are stated at the lower of cost or market. Cost is determined by the first-in, first-out (FIFO) method.

The Company purchases its product from a number of suppliers and believes there are alternative suppliers. The Company has minimum purchase commitments from some of its vendors but the terms of the contracts and nature of the products are such that purchase requirements do not create a market risk. The primary food product used by Company-owned and franchised restaurants is fresh chicken wings. Fresh chicken wings are purchased by the Company based on current market conditions and are subject to fluctuation. Material increases in fresh chicken wing costs may adversely affect the Company's operating results. For fiscal 2006, 2005, and 2004, fresh chicken wings were 24%, 27%, and 34% of restaurant cost of sales, respectively.

(i) Property and Equipment

Property and equipment are recorded at cost. Leasehold improvements include the cost of improvements funded by landlord incentives or allowances and during the build-out period leasehold improvements are amortized using the straight-line method over the lesser of the term of the lease, without consideration of renewal options, or the estimated useful lives of the assets, which typically range from five to ten years. Furniture and equipment are depreciated using the straight-line method over the estimated useful lives of the assets, which range from two to eight years. Maintenance and repairs are expensed as incurred. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the respective accounts and the related gains or losses are credited or charged to earnings.

The Company reviews property and equipment, along with other long-lived assets, quarterly to determine if the carrying value of these assets may not be recoverable based on estimated future undiscounted cash flows. Assets are reviewed at the lowest level for which cash flows can be identified, which is the individual restaurant level. In determining future cash flows, significant estimates are made by the Company with respect to future operating results of each restaurant over its remaining lease term. If such assets are considered impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Fair value is generally determined by estimated discounted future cash flows.

(j) Goodwill and Other Assets

Goodwill represents the excess of cost over the fair value of identified net assets of the business acquired. Goodwill and purchased liquor licenses are subject to an annual impairment analysis. The Company identifies potential impairments by comparing the fair value of a reporting unit with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds the carrying amount, the asset is not impaired. If the carrying amount exceeds the fair value, the Company calculates the possible impairment by comparing the implied fair value of the asset with the carrying amount. If the implied value of the asset is less than the carrying amount, a write-down is recorded. In 2005, the Company recorded an impairment charge of \$390 for goodwill not considered recoverable based on estimated discounted future cash flows. The remaining goodwill was considered recoverable as of December 31, 2006.

Other intangible assets consist primarily of liquor licenses. These licenses are either amortized over their annual renewal period or, if purchased, are carried at the lower of fair value or cost. The carrying amount of the liquor licenses not subject to amortization as of December 31, 2006 and December 25, 2005 was \$375 and \$275, respectively, and is included in other assets.

(k) Fair Values of Financial Instruments

The carrying value of the Company's financial assets and liabilities approximates fair value, because of their short-term nature.

(l) Asset Retirement Obligations

An asset retirement obligation associated with the retirement of a tangible long-lived asset is recognized as a liability in the period incurred or when it becomes determinable, with an associated increase in the carrying amount of the related long-lived asset. The Company must recognize a liability for the fair value of a conditional asset retirement obligation when

BUFFALO WILD WINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements December 31, 2006 and December 25, 2005 (Dollar amounts in thousands, except per-share amounts)

incurred, if the liability's fair value can be reasonably estimated. Conditional asset retirement obligations are legal obligations to perform asset retirement activities when the timing and/or method of settlement are conditional on a future event or may not be within the control of the Company. Asset retirement costs are depreciated over the useful life of the related asset. As of December 31, 2006, the Company's asset retirement obligation was \$142.

(m) Revenue Recognition

Franchise agreements have terms ranging from ten to twenty years. These agreements also convey multiple extension terms of five or ten years, depending on contract terms and if certain conditions are met. The Company provides the use of the Buffalo Wild Wings trademarks, system, training, preopening assistance, and restaurant operating assistance in exchange for area development fees, franchise fees, and royalties of 5% of a restaurant's sales.

Franchise fee revenue from individual franchise sales is recognized upon the opening of the franchised restaurant when all material obligations and initial services to be provided by the Company have been performed. Area development fees are dependent based on the number of restaurants in the territory, as are the Company's obligations under the area development agreement. Consequently, as obligations are met, area development fees are recognized proportionally with expenses incurred with the opening of each new restaurant and any royalty-free periods. Royalties are accrued as earned and are calculated each period based on restaurant sales.

Sales from Company-owned restaurant revenues are recognized as revenue at the point of the delivery of meals and services. All sales taxes are presented on a net basis and are excluded from revenue.

(n) Franchise Operations

The Company enters into franchise agreements with unrelated third parties to build and operate restaurants using the Buffalo Wild Wings brand within a defined geographical area. The Company believes that franchising is an effective and efficient means to expand the Buffalo Wild Wings brand. Franchised restaurants open for a full year averaged \$2,299 in sales in 2006. The franchisee is required to operate their restaurants in compliance with their franchise agreement that includes adherence to operating and quality control procedures established by the Company. The Company does not provide loans, leases, or guarantees to the franchisee or the franchisee's employees and vendors. If a franchisee becomes financially distressed, the Company does not provide any financial assistance. If financial distress leads to a franchisee's noncompliance with the franchise agreement and the Company elects to terminate the franchise agreement, the Company has the right but not the obligation to acquire the assets of the franchisee at fair value as determined by an independent appraiser. The Company receives a 5% royalty of gross sales as defined in the franchise agreement and in most cases, allowances directly from the franchisees' vendors that generally are less than 0.6% of the franchisees' gross sales. The Company has financial exposure for the collection of the royalty payments. Franchisees generally remit franchise payments weekly for the prior week's sales, which substantially minimizes the Company's financial exposure. Historically, the Company has experienced insignificant write-offs of franchisee royalties. Franchise and area development fees are paid upon the signing of the related agreements.

(o) Advertising Costs

Advertising costs for Company-owned restaurants are expensed as incurred and aggregated \$9,055, \$5,809, and \$4,278, in fiscal years ended 2006, 2005, and 2004, respectively. The Company's advertising costs exclude amounts collected from franchisees as part of the system-wide marketing and advertising fund.

(p) Preopening Costs

Costs associated with the opening of new Company-owned restaurants are expensed as incurred.

(q) Payments Received from Vendors

Vendor allowances include allowances and other funds received from vendors. Certain of these funds are determined based on various quantitative contract terms. The Company also receives vendor allowances from certain manufacturers and distributors calculated based upon purchases made by franchisees. Amounts that represent a reimbursement of costs incurred, such as advertising, are recorded as a reduction of the related expense. Amounts that represent a reduction of inventory purchase costs are recorded as a reduction of inventoriable costs. The Company recorded an estimate of earned vendor

BUFFALO WILD WINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements December 31, 2006 and December 25, 2005 (Dollar amounts in thousands, except per-share amounts)

allowances that are calculated based upon monthly purchases. The Company generally receives payment from vendors approximately 30 days from the end of a month for that month's purchases. During fiscal 2006, 2005, and 2004, vendor allowances were recorded as a reduction in inventoriable costs, and cost of sales was reduced by \$4,246, \$4,020, and \$3,913, respectively.

(r) National Advertising Fund

The Company has a system-wide marketing and advertising fund. Company-owned and franchised restaurants are required to remit a designated portion of sales, to a separate advertising fund that is used for marketing and advertising efforts throughout the system. In 2006, that amount was 3%. Certain payments received from various vendors are deposited into the National Advertising Fund. These funds are used for development and implementation of system-wide initiatives and programs. The Company accounts for cash and receivables of these funds as "restricted cash" with an offsetting "marketing fund payables" on its balance sheet. On December 26, 2005, the contribution to the advertising fund increased from 2.5% to 3.0% of sales.

(s) Earnings Per Common Share

Basic earnings per common share excludes dilution and is computed by dividing the net earnings available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per common share include dilutive common stock equivalents consisting of stock options and warrants determined by the treasury stock method. Restricted stock units are included for calculating both basic and diluted earnings per share at the time that the performance criteria is met.

(t) Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the balance sheet carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets unless it is more likely than not that such assets will be realized.

(u) Deferred Lease Credits

Deferred lease credits consist of reimbursement of costs of leasehold improvements from the Company's lessors. These reimbursements are amortized on a straight-line basis over the term of the applicable lease, without consideration of renewal options. In addition, this account includes adjustments to recognize rent expense on a straight-line basis over the term of the lease commencing at the start of the Company's construction period of the restaurant, without consideration of renewal options.

Leases typically have an initial lease term of between 10 to 15 years and contain renewal options under which the Company may extend the terms for periods of three to five years. Certain leases contain rent escalation clauses that require higher rental payments in later years. Leases may also contain rent holidays, or free rent periods, during the lease term. Rent expense is recognized on a straight-line basis over the initial lease term. Prior to Staff Position No. FAS 13-1, "Accounting for Rental Costs Incurred During a Construction Period," rent expense recognized over the construction period was capitalized and depreciated over the economic life of the asset, generally ten years.

(v) Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

BUFFALO WILD WINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements December 31, 2006 and December 25, 2005 (Dollar amounts in thousands, except per-share amounts)

(w) Stock-Based Compensation

We maintain a stock equity incentive plan under which we may grant non-qualified stock options, incentive stock options, and restricted stock units to employees, non-employee directors and consultants. We also have an employee stock purchase plan ("ESPP").

Prior to the December 26, 2005 adoption of the Financial Accounting Standards Board ("FASB") Statement No. 123R, "Shared-Based Payment" ("SFAS 123R"), we accounted for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Accordingly, because the stock option grant price equaled the market price on the date of grant, and any purchase discounts under our stock purchase plan were within statutory limits, no compensation expense was recognized for stock-based compensation related to stock options or ESPP shares. Restricted stock units vesting upon the achievement of certain performance targets were expensed under the requirements of APB 25. Stock-based compensation recognized for restricted stock during 2005 and 2004 were \$1,700 and \$909, respectively. As permitted by SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"), stock-based compensation was included as a pro forma disclosure in the notes to the consolidated financial statements.

Effective December 26, 2005, we adopted the fair value recognition provisions of SFAS 123R, using the modified-prospective transition method. Under this transition method, stock-based compensation expense is recognized in the consolidated financial statements for granted, modified, or settled stock options and for expense related to the ESPP, since the related purchase discounts exceeded the amount allowed under SFAS 123R for non-compensatory treatment. Compensation expense recognized includes the estimated expense for the portion of stock options vesting in the period for options granted prior to, but not vested as of December 26, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123. There were no new stock option grants in 2006. Restricted stock units vesting upon the achievement of certain performance targets are expensed based on the fair value on the date of grant. Results for prior periods have not been restated, as provided for under the modified-prospective transition method.

Total stock-based compensation expense recognized in the consolidated statement of earnings for fiscal year 2006 was \$3,216 before income taxes and consisted of restricted stock, stock options, and employee stock purchase plan (ESPP) expense of \$3,000, \$82 and \$134, respectively. The related total tax benefit was \$1,153 during 2006. All stock-based compensation is recognized as general and administrative expense.

Prior to the adoption of SFAS 123R, we presented all tax benefits resulting from the exercise of stock options as operating cash inflows in the consolidated statements of cash flows, in accordance with the provisions of the Emerging Issues Task Force ("EITF") Issue No 00-15, "Classification in the Statement of Cash Flows of the Income Tax Benefit Received by a Company upon Exercise of a Nonqualified Employee Stock Option." SFAS 123R requires the benefits of tax deductions in excess of the compensation cost recognized for those options to be classified as financing cash inflows, rather than operating cash inflows, on a prospective basis. This amount is shown as "Excess tax benefit from stock issuance" on the consolidated statement of cash flows for the fiscal year ended December 31, 2006.

BUFFALO WILD WINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements December 31, 2006 and December 25, 2005 (Dollar amounts in thousands, except per-share amounts)

The expected term of the options represents the estimated period of time until exercise and is based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. Expected stock price volatility is based on historical volatility of our stock. The risk-free interest rate is based on the implied yield available on U.S. Treasury zero-coupon issues with an equivalent remaining term. We have not paid dividends in the past.

(x) New Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (“FIN 48”), “Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109”, which seeks to reduce the diversity in practice associated with the accounting and reporting for uncertainty in income tax positions. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. FIN 48 is effective for fiscal years beginning after December 15, 2006 and we will adopt the new requirements in the first quarter of 2007. The cumulative effect, if any, of adopting FIN 48 will be recorded as an adjustment to retained earnings as of the beginning of the period of adoption. The adoption of FIN 48 is not expected to have a significant impact on our financial statements.

In September 2006, the FASB issued SFAS No. 157, “Fair Value Measurements” (“SFAS 157”), which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures above fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Early adoption is permitted. We have not yet determined the effect on our financial statements, if any, upon adoption of SFAS 157.

In September 2006, the SEC staff issued Staff Accounting Bulletin No. 108, “Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements” (“SAB 108”). The intent of SAB 108 is to reduce the diversity in practice for the method used to quantify financial statement misstatements, including the effect of prior year uncorrected errors. SAB 108 establishes an approach that requires quantification of financial statement errors using both an income statement and a cumulative balance sheet approach. SAB 108 is effective for fiscal years ending after November 15, 2006, and we adopted the new requirements in fiscal 2006. The adoption of SAB 108 did not have a significant impact on our consolidated financial statements.

(y) Reclassifications

Certain balances in prior fiscal years have been reclassified to conform to the presentation adopted in the current year.

The acquisition of property and equipment not yet paid for in the consolidated statements of cash flows for 2005 and 2004 has been reclassified as non-cash transactions. This reduced the amounts for the acquisition of property and equipment by \$82 for 2005 and \$608 for 2004.

Tax withholding for restricted stock units in the consolidated statements of cash flows for 2005 was reclassified as a non-cash transaction. The 2005 amount of \$578 was previously netted as a cash flow from financing activities and is now listed as a non-cash transaction.

(4) Lease Commitments

The Company leases all of its restaurants and corporate offices under operating leases that have various expiration dates. In addition to base rents, leases typically require the Company to pay its share of maintenance and real estate taxes and certain leases include provisions for contingent rentals based upon sales.

Future minimum rental payments due under noncancelable operating leases for existing restaurants and commitments for restaurants under development as of December 31, 2006 are as follows:

	<u>Operating leases</u>	<u>Restaurants under development</u>
Fiscal year ending:		
2007	\$ 16,010	534
2008	15,335	1,056
2009	14,391	1,059
2010	13,380	1,063
2011	12,267	1,073
Thereafter	<u>59,573</u>	<u>7,111</u>
Total future minimum lease payments	<u>\$ 130,956</u>	<u>11,896</u>

In 2006, 2005, and 2004, the Company rented office space under operating leases which, in addition to the minimum lease payments, require payment of a proportionate share of the real estate taxes and building operating expenses. The Company also rents restaurant space under operating leases, some of which, in addition to the minimum lease payments and proportionate share of real estate and operating expenses, require payment of percentage rents based upon sales levels. Rent expense, excluding the Company's proportionate share of real estate taxes and building operating expenses, is as follows:

	<u>Fiscal Years Ended</u>		
	<u>December 31, 2006</u>	<u>December 25, 2005</u>	<u>December 26, 2004</u>
Minimum rents	\$ 14,600	11,702	8,653

(6) Stockholders' Equity

(a) Stock Options

We have 1.5 million shares of common stock reserved for issuance under a stock-based compensation plan for employees, officers, and directors. The option price for shares issued under this plan is to be not less than the fair market value on the date of grant with respect to incentive stock options, or 85% of fair market value for nonqualified stock options. Incentive stock options become exercisable in four equal installments from the date of the grant and have a contractual life of ten years. Nonqualified stock options issued pursuant to the plan have varying vesting periods from immediately to one year and have a contractual life of ten years. We issue new shares of common stock upon exercise of stock options. In 2003, the Company's shareholders approved amendments to the plan to allow the granting of restricted stock and extended the plan to 2013. Option activity is summarized as follows:

	Number of shares	Weighted average exercise price	Average remaining contractual life (years)	Aggregate Intrinsic Value
Outstanding, December 25, 2005	302,296	\$ 8.08		
Granted	—	—		
Exercised	(86,493)	6.88		
Cancelled	(5,310)	12.98		
Outstanding, December 31, 2006	210,493	\$ 8.45	3.9	\$ 9,419
Exercisable, December 31, 2006	198,048	7.63	3.7	9,024

The aggregate intrinsic value in the table above is before applicable income taxes, based on our closing stock price of \$53.20 as of December 31, 2006, which would have been received by the optionees had all options been exercised on that date. As of December 31, 2006, total unrecognized stock-based compensation expense related to nonvested stock options was approximately \$63, which is expected to be recognized over a weighted average period of approximately eight months. During 2006, 2005, and 2004, the total intrinsic value of stock options exercised was \$2,707, \$3,226, and \$5,130, respectively. During 2006, the total fair value of options vested was \$587.

The following table summarizes the Company's stock options outstanding at December 31, 2006:

	Options outstanding			Options exercisable	
	Range	Shares	Average remaining contractual life (years)	Weighted average exercise price	Shares
\$ 3.35 – 4.15	89,277	2.09	\$ 3.87	89,277	\$ 3.87
5.00 – 11.25	88,235	4.66	8.96	88,235	8.96
12.75 – 28.25	31,631	6.56	18.86	20,233	18.09
34.81	1,350	8.00	34.81	303	34.81
	<u>210,493</u>	3.88	8.45	<u>198,048</u>	7.63

The plan has 423,308 shares available for grant as of December 31, 2006.

(b) Restricted Stock

We adopted a stock performance plan in June 2004, under which restricted stock units are granted annually at the discretion of the Board. These units are subject to annual vesting upon achieving performance targets established by the Board of Directors. We record compensation expense for the restricted stock units if vesting, based on the achievement of performance targets, is probable. The restricted stock units may vest one-third annually over a ten-year period as determined by meeting performance targets. However, the second third of the restricted stock units is not subject to vesting until the first one-third has vested and the final one-third is not subject to vesting until the first two-thirds of the award has vested. We issue new shares of common stock upon the disbursement of restricted stock units. Restricted stock activity is summarized for fiscal year 2006:

	Number of shares	Weighted average grant date fair value
Outstanding, December 25, 2005	75,964	\$ 32.56
Granted	103,448	33.98
Vested	(83,948)	32.55
Cancelled	(11,358)	34.26
Outstanding, December 31, 2006	84,106	34.19

As of December 31, 2006, the total stock-based compensation expense related to nonvested awards not yet recognized was \$2,720, which is expected to be recognized over a weighted average period of 1.4 years. During fiscal year 2006, the total fair value of shares vested was \$2,733. The weighted average grant date fair value of restricted stock units granted during 2005 and 2004 was \$34.83 and \$28.20, respectively.

(c) Warrants

In connection with various financing activities prior to 2000, the Company granted warrants to acquire an aggregate of 377,685 shares of the Company's common stock at an exercise price of \$2.50 to \$4.65 per share. During the year ended December 26, 2004, warrants to acquire 132,455 common shares were exercised. No warrants remained outstanding as of December 26, 2004.

(d) Employee Stock Purchase Plan

On September 4, 2003, the Company's board of directors adopted the 2003 Employee Stock Purchase Plan, which was approved by its shareholders on October 24, 2003. The Company has reserved 300,000 shares of common stock for issuance under the Plan. This Plan is available to substantially all employees subject to employment eligibility requirements. The Plan became effective upon the effective date of the Company's initial public offering (IPO). Participants may purchase the Company's common stock at 85% of the beginning or ending closing price, whichever is lower, for each six-month period ending in May and November. During 2006, 2005, and 2004, the Company issued 18,402, 21,238, and 28,453 shares, respectively, of common stock under the plan and has 231,907 available for future sale.

(9) Restaurant Impairment and Closures

In 2006, 2003 and 2002, the Company closed restaurants. As a result, a charge was taken for remaining lease obligations, broker fees, and utilities. These charges were recognized as a part of restaurant impairment and closures and were based on remaining lease obligations.

The reconciliation of the store closing reserve for the years ended December 31, 2006, December 25, 2005, and December 26, 2004 is as follows:

	As of December 25, 2005	2006 provision	Costs incurred	As of December 31, 2006
Remaining lease obligation and utilities	\$ —	54	—	54
	\$ —	54	—	54

Broker fees	11	(11)	—	—
	\$ 222	(10)	(76)	136

During 2006, the Company recorded an impairment charge for the assets of one underperforming restaurant. An impairment charge of \$481 was recorded to the extent that the carrying amount of the assets was not considered recoverable based on estimated discounted future cash flows and the underlying fair value of the assets.

During 2005, the Company recorded an impairment charge for the assets of four underperforming restaurants. An impairment charge of \$1,268 was recorded to the extent that the carrying amount of the assets was not considered recoverable based on estimated discounted future cash flows and the underlying fair value of the assets.

BUFFALO WILD WINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements December 31, 2006 and December 25, 2005

(Dollar amounts in thousands, except per-share amounts)

During 2004, the Company recorded an impairment charge for the assets of two underperforming restaurants. An impairment charge of \$453 was recorded to the extent that the carrying amount of the assets was not considered recoverable based on estimated discounted future cash flows and the underlying fair value of the assets.

A summary of restaurant impairment and closures charges recognized by the Company is as follows:

	Fiscal Years Ended		
	December 31, 2006	December 25, 2005	December 26, 2004
Store closing charges	\$ 54	—	(10)

(10) Employee Benefit Plan

The Company has a defined contribution 401(k) plan whereby eligible employees may contribute pretax wages in accordance with the provisions of the plan. In 2005, the Company amended the plan and matched 100% of the first 3% and 50% of the next 2% of contributions made by eligible employees. During 2004, the Company matched 50% of the first 4% of contributions made by eligible employees. Matching contributions of approximately \$394, \$312, and \$128 were made by the Company during 2006, 2005, and 2004, respectively.

(11) Employment Agreements

The Company has entered into employment agreements with each of its executive officers. These agreements are for a one-year term and include an automatic extension for successive one-year terms. The agreements also include termination and resignation provisions, a confidentiality clause, a non-compete provision and a severance package that includes salary payments for either one year in the case of the Chief Executive Officer and Chief Financial Officer or six months in the case of Senior Vice Presidents, and a non-compete period of equal duration.

The Company's executive officers are entitled to receive an annual bonus upon the achievement of certain board-established performance milestones, including revenue, net income, restaurant openings, same-store sales, and employee turnover. Further, under the Company's Management Deferred Compensation Plan, an amount equal to a percentage of an officer's base salary is credited on a monthly basis to that officer's deferred compensation account. The maximum deferral is 7.5% of the base salary of each Vice President, 10% of the base salary of each Senior Vice President, and 12.5% of the base salary of Chief Executive Officer, Chief Financial Officer, and Executive Vice Presidents. Such amounts are subject to certain vesting provisions, depending on length of employment and circumstances of employment termination.

The employment agreements further provide that the Company shall pay its executive officers annual base salary, which will be reviewed not less than annually and may be increased or reduced; provided, (i) any reduction relating to the Chief Executive Officer or Chief Financial Officer will be permitted only if the Company reduces the base compensation of its executive employees generally and will not exceed the average percentage reduction for such employees; and (ii) with respect to the Company's other executive officers, any reduction will be permitted only if the Company reduces the base compensation of its employees generally and will not exceed the average percentage reduction for all such employees. In addition to the base salary, executive officers are entitled to participate in additional equity incentive plans and other employee benefit plans. Fiscal 2006 annual base salary commitments under employment agreements were \$1,437.

(12) Related Party Transactions

It is the Company's policy that all related party transactions must be disclosed and approved by the disinterested directors, and the terms and considerations for such related party transactions are compared and evaluated to terms available or the amounts that would have to be paid or received, as applicable, in arms-length transactions with independent third-parties.

The Company subleases a portion of its main offices to Carefree Capital Partners, Limited Partnership (Carefree) on a month-to-month lease on the same rental basis as the Company. A director of the Company is chairman and sole stockholder of Carefree.

A member of the board of directors is an officer and director at the Company's primary law firm. Legal fees incurred with this firm were less than 5% of the law firm's or the Company's total revenue in fiscal 2006, 2005, and 2004. The services provided by the law firm were at fair value.

(13) Contingencies

The Company is involved in various legal matters arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position and results of operations.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We have established and maintain disclosure controls and procedures that are designed to ensure that material information relating to us and our subsidiaries required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure. We carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of the date of such evaluation.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed by, or under the supervision of, our chief executive and chief financial officers and effected by our board of directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with the authorizations of our management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2006. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control-Integrated Framework*. Based on this assessment, our management concluded that our internal control over financial reporting was effective as of December 31, 2006. Our independent registered public accounting firm, KPMG LLP, has issued an audit report on management's assessment of our internal control over financial reporting. That report appears below.

Change in Internal Control Over Financial Reporting

There were no changes in the our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Buffalo Wild Wings, Inc.:

We have audited management's assessment, included in the accompanying report entitled "Management's Report on Internal Control Over Financial Reporting", that Buffalo Wild Wings, Inc. and subsidiaries (the Company) maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that Buffalo Wild Wings, Inc. and subsidiaries maintained effective internal control over financial reporting as of December 31, 2006, is fairly stated, in all material respects, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Buffalo Wild Wings, Inc. and subsidiaries as of December 31, 2006 and December 25, 2005, and the related consolidated statements of earnings, stockholders' equity, and cash flows for each of the fiscal years in the three-year period ended December 31, 2006, and our report dated March 8, 2007 expressed an unqualified opinion on those consolidated financial statements. Our report stated the Company adopted Statement of Financial Accounting Standards No. 123R, "Share-Based Payment," on December 26, 2005.

Report of Independent Registered Public Accounting Firm on Financial Statement Schedule

The Board of Directors and Stockholders
Buffalo Wild Wings, Inc.:

Under the date of March 8, 2007 we reported on the consolidated balance sheets of Buffalo Wild Wings, Inc. and subsidiaries (the Company) as of December 31, 2006 and December 25, 2005 and the related consolidated statements of earnings, stockholders' equity, and cash flows for each of the fiscal years in the three-year period ended December 31, 2006, which is included herein. In connection with our audits of the aforementioned consolidated financial statements, we have also audited the related financial statement schedule as listed in the accompanying index. This financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement schedule based on our audits.

In our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 1 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 123R, "Share-Based Payment," on December 26, 2005.

NOTICE OF RESTRICTED STOCK UNIT AWARD

BUFFALO WILD WINGS, INC.
2003 EQUITY INCENTIVE PLAN

THIS AWARD, made effective as of this 1st day of January, 2007, by and between Buffalo Wild Wings, Inc., a Minnesota corporation (the "Company"), and ____ ("Participant").

WITNESSETH:

WHEREAS, Participant on the date hereof is a key employee or officer of the Company or a Subsidiary of the Company; and

WHEREAS, the Company wishes to grant a restricted stock unit award to Participant for shares of the Company's Common Stock pursuant to the Company's 2003 Equity Incentive Plan (the "Plan"); and

WHEREAS, the Administrator of the Plan has authorized the grant of a restricted stock unit award to Participant;

NOW, THEREFORE, this award is hereby granted upon the following terms and conditions, which shall be binding upon the Company and Participant:

1. **Grant of Restricted Stock Unit Award; Term.** The Company hereby grants to Participant on the date set forth above a restricted stock unit award (the "Award") for ____ restricted stock units on the terms and conditions set forth herein. Each restricted stock unit shall entitle the Participant to receive one share of the Company's Common Stock. This Award shall expire at the end of fiscal year 2016, unless terminated earlier under the provisions of Paragraph 2 below.

2. **Vesting of Restricted Stock Units.**

a. **General.** The restricted stock units subject to this Award shall remain forfeitable until the date the risks of forfeiture lapse with respect to a percentage of such units (the "Vesting Date"). The Vesting Date shall be the last day of any fiscal year during the term of the Award in which the Company achieves its Annual Earnings Target (as defined herein). If, for any fiscal year ending on a Vesting Date, the Company achieves 95% of the earnings target as established by the Board of Directors for such fiscal year (each an "Annual Earnings Target"), the risks of forfeiture relating to 33-1/3% of the restricted stock units specified in Paragraph 1 shall lapse. The risks of forfeiture relating to the remaining restricted stock units shall continue to lapse in this manner until the risks of forfeiture relating to 100% of the restricted stock units specified in Paragraph 1 have lapsed.

b. **Termination of Employment.** Except as set forth herein, if the Participant's employment with the Company (or a Subsidiary of the Company) ceases at any time during the term of the Award, for any reason, including the Participant's voluntary resignation or retirement, this Award shall also terminate and all restricted stock units subject to this Award that remain subject to risks of forfeiture shall be forfeited by Participant; provided, however, that if the Administrator delays the vesting of any restricted stock units pursuant to Paragraph 4(m), the Participant shall not forfeit any such restricted stock units that otherwise would have vested pursuant to Paragraph 2(a) above prior to the termination of Participant's employment had such vesting not been so delayed. Further, if the Participant's employment ceases for any reason during the period between a Vesting Date and the Issuance Date (as defined in Paragraph 3 hereof), then such Participant shall also retain any restricted stock units which were no longer subject to risks of forfeiture as of such Vesting Date.

3. **Issuance of Shares.** On the date the Company files its 10-K for each fiscal year of the Award, the Company shall cause to be issued a stock certificate representing that number of shares of Common Stock which is equivalent to the percentage of restricted stock units for which the risks of forfeiture have lapsed, less any shares withheld for payment of taxes as provided in Paragraph 4(e) below, and shall deliver such certificate to Participant. Until the issuance of such shares, Participant shall not be entitled to vote the shares of Common Stock represented by such restricted stock units, shall not be entitled to receive dividends attributable to such shares of Common Stock, and shall not have any other rights as a shareholder with respect to such shares.

4. **General Provisions.**

a. **Employment.** This Notice shall not confer on Participant any right with respect to continuance of employment by the Company or any of its Affiliates, nor will it interfere in any way with the right of the Company to terminate such employment. Nothing in this Notice shall be construed as creating an employment contract for any specified term between Participant and the Company or any Affiliate.

b. **Securities Law Compliance.** Participant shall not transfer or otherwise dispose of the shares of Common Stock received pursuant to this Award until such time as counsel to the Company shall have determined that such transfer or other disposition will not violate any state or federal securities laws. The Participant may be required by the Company, as a condition of the effectiveness of this restricted stock unit award, to agree in writing that all Common Stock subject to this Award shall be held, until such time that such Common Stock is registered and freely tradable under applicable state and federal securities laws, for Participant's own account without a view to any further distribution thereof, that the certificates for such shares shall bear an appropriate legend to that effect and that such shares will be not transferred or disposed of except in compliance with applicable state and federal securities laws.

c. **Mergers, Recapitalizations, Stock Splits, Etc.** Pursuant and subject to Section 12 of the Plan, certain changes in the number or character of the Common Stock of the Company (through merger, consolidation, exchange, reorganization, divestiture (including a spin-off), liquidation, recapitalization, stock split, stock dividend or otherwise) shall result in an adjustment, reduction or enlargement, as appropriate, in Participant's rights with respect to any restricted stock units subject to this Award which continue to be subject to risks of forfeiture (*i.e.*, Participant shall have such "anti-dilution" rights under the Award with respect to such events, but shall not have "preemptive" rights).

d. **Shares Reserved.** The Company shall at all times during the term of this Award reserve and keep available such number of shares as will be sufficient to satisfy the requirements of this Award.

e. **Withholding Taxes.** In order to permit the Company to comply with all applicable federal or state income tax laws or regulations, the Company may take such action as it deems appropriate to insure that, if necessary, all applicable federal or state payroll, income or other taxes attributable to this Award are withheld from any amounts payable by the Company to the Participant. The Company may, solely at its option, require the Participant to satisfy such obligations, in whole or in part, by delivering shares of Common Stock received pursuant to this Award on which the risks of forfeiture have lapsed. If the Company is unable to withhold such federal and state taxes, for whatever reason, the Participant hereby agrees to pay to the Company an amount equal to the amount the Company would otherwise be required to withhold under federal or state law. In addition, the Company may, solely at its option, permit the Participant to satisfy such withholding taxes by delivery of Common Stock as permitted by Section 17(d) of the Plan. In no event may the Participant require the Company to accept delivery of any shares of Stock to satisfy such withholding taxes.

f. **2003 Equity Incentive Plan.** The Award evidenced by this Notice is granted pursuant to the Plan, a copy of which Plan has been made available to Participant and is hereby incorporated into this Notice. This Notice is subject to and in all respects limited and conditioned as provided in the Plan. The Plan governs this Notice and, in the event of any questions as to the construction of this Notice or in the event of a conflict between the Plan and this Notice, the Plan shall govern, except as the Plan otherwise provides.

g. **Lockup Period Limitation.** Participant agrees that in the event the Company advises Participant that it plans an underwritten public offering of its Common Stock in compliance with the Securities Act of 1933, as amended, and that the underwriter(s) seek to impose restrictions under which certain shareholders may not sell or contract to sell or grant any option to buy or otherwise dispose of part or all of their stock purchase rights of the underlying Common Stock, Participant hereby agrees that for a period not to exceed 180 days from the prospectus, Participant will not sell or contract to sell or grant an option to buy or otherwise dispose of this Notice or any of the underlying shares of Common Stock without the prior written consent of the underwriter(s) or its representative(s).

h. **Blue Sky Limitation.** Notwithstanding anything in this Notice to the contrary, in the event the Company makes any public offering of its securities and determines, in its sole discretion, that it is necessary to reduce the number of issued but unvested restricted stock units so as to comply with any state securities or Blue Sky law limitations with respect thereto, the Board of Directors of the Company shall remove the risks of forfeiture of this restricted stock unit award, provided that the Company gives Participant 15 days' prior written notice of such acceleration. Notice shall be deemed given when delivered personally or when deposited in the United States mail, first class postage prepaid and addressed to Participant at the address of Participant on file with the Company.

i. **Accounting Compliance.** Participant agrees that, if a merger, reorganization, liquidation or other “transaction” as defined in Section 12 of the Plan occurs, and Participant is an “affiliate” of the Company or any subsidiary (as defined in applicable legal and accounting principles) at the time of such transaction, Participant will comply with all requirements of Rule 145 of the Securities Act of 1933, as amended, and the requirements of such other legal or accounting principles, and will execute any documents necessary to ensure such compliance.

j. **Stock Legend.** The Administrator may require that the certificates for any shares of Common Stock purchased by Participant (or, in the case of death, Participant’s successors) shall bear an appropriate legend to reflect the restrictions of Paragraph 4(b) and Paragraphs 4(g) through 4(j) of this Notice; provided, however, that failure to so endorse any of such certificates shall not render invalid or inapplicable Paragraph 4(j).

k. **Scope of Notice.** This Notice shall bind and inure to the benefit of the Company, its Affiliates and their successors and assigns, and shall bind and inure to the benefit of Participant and any successor or successors of Participant permitted herein. This Award is expressly subject to all terms and conditions contained in the Plan and in this Notice, and Participant shall comply with all such terms and conditions.

l. **Arbitration.** Any dispute arising out of or relating to this Notice or the alleged breach of it, or the making of this Notice, including claims of fraud in the inducement, shall be discussed between the disputing parties in a good faith effort to arrive at a mutual settlement of any such controversy. If, notwithstanding, such dispute cannot be resolved, such dispute shall be settled by binding arbitration. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. The arbitrator shall be a retired state or federal judge or an attorney who has practiced securities or business litigation for at least 10 years. If the parties cannot agree on an arbitrator within 20 days, any party may request that the chief judge of the District Court of Hennepin County, Minnesota, select an arbitrator. Arbitration will be conducted pursuant to the provisions of this Notice, and the commercial arbitration rules of the American Arbitration Association, unless such rules are inconsistent with the provisions of this Notice. Limited civil discovery shall be permitted for the production of documents and taking of depositions. Unresolved discovery disputes may be brought to the attention of the arbitrator who may dispose of such dispute. The arbitrator shall have the authority to award any remedy or relief that a court of this state could order or grant; provided, however, that punitive or exemplary damages shall not be awarded. The arbitrator may award to the prevailing party, if any, as determined by the arbitrator, all of its costs and fees, including the arbitrator’s fees, administrative fees, travel expenses, out-of-pocket expenses and reasonable attorneys’ fees. Unless otherwise agreed by the parties, the place of any arbitration proceedings shall be Hennepin County, Minnesota.

m. **Delay in Issuance.** In the event the Administrator reasonably anticipates that the Company’s income tax deduction with respect to the vesting and issuance of any shares of Stock required by this Agreement would be limited or eliminated by Code Section 162(m), the Administrator may, subject to such terms and conditions as determined by the Administrator, delay the vesting and issuance of all or a portion of such shares of Stock until the earlier of (i) the date at which the Administrator reasonably anticipates that the corresponding income tax deduction will not be so limited or eliminated, and (ii) the calendar year of the Participant’s separation from service, as such term is defined in Code Section 409A and the regulations, notices and other guidance of general applicability issued thereunder. In the event of such delay, this Award shall not terminate until the delayed vesting and issuance of such shares of Stock has occurred.

n. **Delay in Payment for Specified Employee.** In the event this Award is subject to Code Section 409A and the Administrator determines that the Participant is a “specified employee” within the meaning of Code Section 409A, then the issuance of any shares of Stock due to the Participant’s separation from service (as defined in Code Section 409A) shall not be issued earlier than the date that is six months after such separation from service, but shall be issued during the calendar year following the year in which the Participant’s separation from service occurs and within thirty (30) days after the earliest possible date permitted under Code Section 409A.

*These restricted stock units were granted as of January 1, 2007 and vest to the extent of 33-1/3% on the last day of each fiscal year, and the risks of forfeiture lapse as to such increment if the Company achieves 95% of the earnings target established by the Board of Directors.

EXECUTIVE EMPLOYMENT AGREEMENT

This Employment Agreement (“Agreement”) is hereby entered into between Buffalo Wild Wings, Incorporated, a Minnesota corporation (the “Company”) and **Linda G. Traylor** (“Executive”).

PREAMBLE

Executive has been employed as **Senior Vice President, Human Resources** of Buffalo Wild Wings, Inc., since **October 30, 2006**. The Company desires to continue to have the benefit of Executive’s experience and loyalty, and Executive desires to provide services on the terms and conditions set forth below.

AGREEMENT

1. Definitions.

The following capitalized terms used in this Agreement shall be defined as follows:

Agreement shall mean this Agreement between the Company and Executive.

Base Salary shall mean the annual base salary payable to Executive pursuant to Section 4(a) hereof.

Board shall mean the Board of Directors of the Company.

Cause shall mean termination of the Executive’s employment with the Company by the President because of (1) gross misconduct, dishonesty or disloyalty; (2) willful and material breach of this Agreement by Executive; or (3) conviction or entry of a plea of guilty or nolo contendere to any felony or to any misdemeanor involving fraud, misrepresentation or theft.

Code shall mean the Internal Revenue Code of 1986, as amended from time to time.

Company shall mean Buffalo Wild Wings, Incorporated, a Minnesota corporation, any subsidiaries thereof, and any Successors or assigns.

Company Business means the operation, management and franchising of sports-themed grill and bar restaurants, including but not limited to food production and development, sports-themed grill and bar restaurant and franchise marketing, management operations and any Confidential Information the Company either uses or intends to use in the operation, management or franchising of such restaurants, or any other business either conducted by the Company or that the Company is contemplating conducting as of the Date of Termination.

Competitive Business means any business which operates, manages or franchises other sports-themed grill and bar restaurant businesses or any other business either conducted by the Company or that the Company is contemplating conducting as of the Date of Termination.

Confidential Information means any information or compilation of information that Executive learns or develops during the course of employment with the Company that derives independent economic value from not being generally known, or readily ascertainable by proper means, by other persons who can obtain economic value from its disclosure or use. It includes but is not limited to trade secrets, inventions, discoveries, and may relate to such matters as manufacturing processes, management systems and techniques and sales and marketing plans and information.

Good Reason shall mean (1) a substantial reduction in the nature or status of Executive’s responsibilities hereunder; (2) a reduction by the Company in the Base Salary of Executive except to the extent permitted by this Agreement; (3) failure by the Company to allow Executive to participate to the full extent in all plans, programs or benefits in accordance with this Agreement; and (4) relocation of Executive’s principal office more than 20 miles from its current location. Notwithstanding

the foregoing, "Good Reason" shall be deemed to occur only if such event enumerated in (1) through (4) above has not been corrected by the Company within two weeks of receipt of notice from Executive of the occurrence of such event, which notice shall specifically describe such event.

Term shall mean the term of Executive's employment under Section 3 hereof.

Permanently Disabled shall mean permanently disabled in accordance with the disability policy (as defined by the Company's Long-Term Disability Insurance Plan) of the Company as in effect on the date of this Agreement and as evaluated by sufficient documentation including doctors' statements, etc. as requested by the Company.

Person shall mean an individual, partnership, corporation, estate or trust or other entity.

President shall mean the individual designated as such by the Board of Directors.

Successor shall mean any entity acquiring substantially all of the assets of the Company or a corporation into which the Company is merged or with which it is consolidated.

2. Employment and Duties.

(a) General. The Company hereby agrees to employ Executive as its **Senior Vice President, Human Resources** upon the terms and conditions set forth in this Agreement and Executive agrees to serve as the **Senior Vice President, Human Resources** of the Company. Executive shall perform the duties and assume the responsibilities and obligations contemplated by this position and shall perform such other duties and undertake such other responsibilities and obligations, consistent with this position, as the President shall determine from time to time.

(b) Exclusive Services. The Executive shall (i) devote Executive's full business time and attention and best efforts to the business and affairs of the Company, (ii) use Executive's best efforts to promote and further the interests of the Company, (iii) faithfully and diligently perform Executive's responsibilities and duties hereunder; and (iv) act in a competent and professional manner which reflects positively upon the Company.

(c) No Other Employment. Throughout the Term, Executive shall not, directly or indirectly, render services to any other person or organization for which the Executive receives compensation (excluding volunteer services and reasonable compensation involved in serving as a director on any board of directors) without the consent of the President or otherwise engage in activities which would interfere significantly with the performance of Executive's duties hereunder.

3. Term of Employment.

(a) Commencement. The term of this Agreement shall be effective as of October 30, 2006 and may not be terminated except as expressly provided herein.

(b) Term. Unless extended by mutual consent or as provided in Section 3(c) below, this Agreement shall terminate on the first (1st) anniversary of the Effective Date (such one-year period being hereinafter referred to as the "Term").

(c) Automatic Extension. Following the initial expiration date of the Term, this Agreement shall be deemed extended from year to year ("Extension Year") unless, no later than three (3) months prior to the end of the Term (or any Extension Year), the Company or the Executive shall have notified the other party in writing that the Company or the Executive does not elect to extend the Term (or any Extension Year) past its then expiration date, or if the Executive's employment is terminated for whatever reason.

4. Compensation and Other Benefits. Subject to the provisions of this Agreement, the Company shall pay and provide the following compensation and other benefits to Executive during the Term as compensation for services rendered hereunder.

(a) Base Salary. The Company shall pay to Executive a Base Salary per annum, payable in accordance with the Company's standard payroll practices. The Company shall be entitled to deduct or withhold all taxes and charges which the Company may be required to deduct or withhold therefrom. The Base Salary will be reviewed not less than annually by the President and may be increased or reduced; provided, however, that any reduction shall be permitted only if the Company

then reduces the base compensation of its executive employees generally and shall not exceed the average percentage reduction for all such executive employees.

(b) **Other Plans.** The Executive shall be entitled to participate in additional Company stock option plans or other equity plans or programs, if any, in which executives of the Company are eligible to participate generally as may be determined by the Board of Directors.

(c) **Employee Benefit Plans.** At all times during the Term, Executive shall, unless prohibited by the Code or other applicable law, be eligible to participate in pension and welfare plans and programs of the Company for employees, currently existing or subsequently adopted, including the following:

- (i) all qualified benefit plans and programs (e.g. defined contribution, supplemental retirement and Section 401(k) plans, long-term disability and life insurance plans and programs);
- (ii) all hospitalization and medical plans and programs;
- (iii) all retirement plans and programs (with the exception of the Company's retirement life insurance plan); and
- (iv) all deferred compensation programs.

5. Termination of Employment for Cause; Resignation; and Termination Caused by Death or Permanent Disability.

(a) **Compensation and Benefits.** If Executive's employment is terminated by the Company for Cause, if Executive resigns from employment hereunder, or if Executive's employment is terminated as a result of death or Permanent Disability, then Executive shall not be eligible to receive any compensation or benefits, or to participate in any plans or programs under Section 4 hereof with respect to future periods after the date of such termination or resignation except for the right to receive benefits under any plan or program, to the extent vested, in accordance with the terms of such plan or program and except for benefits provided in accordance with customary practices of the Company at Executive's expense (e.g., hospitalization and medical insurance).

(b) **Date of Termination.** The date of termination of Executive's employment by the Company under this Section 5 shall be effective immediately after written notice of termination, on the date of Executive's death, or on the date Executive becomes Permanently Disabled. The date of resignation by Executive under this Section 5 shall be one (1) month after receipt by the Company of written notice of resignation, unless the Company agrees to a lesser period.

6. Termination of Employment Without Cause; Resignation for Good Reason; and Failure to Extend Employment Agreement.

(a) **Compensation and Benefits.** If Executive's employment is terminated by the Company without Cause, if Executive resigns for Good Reason, or if the Company fails to extend this Agreement, Executive shall be entitled to receive from the Company an **amount equal to half of Executive's Base Salary, payable during the six months following the date of termination** in accordance with the Company's standard payroll practices. The Company shall be entitled to deduct or withhold all taxes and charges which the Company may be required to deduct or withhold therefrom.

(b) **Date of Termination.** The date of termination of Executive's employment by the Company under this Section 6 shall be one (1) month after receipt by Executive of written notice of termination, written notice of resignation based on Good Reason, or three (3) months after receipt by Executive of written notice that the Company will not extend this Agreement.

7. Confidential Information. Executive agrees not to directly or indirectly use or disclose Confidential Information for the benefit of anyone other than the Company, either during or after employment, for as long as the information retains the characteristics of Confidential Information described in Section 1 above.

8. Return of Documents and Property. All documents and tangible items provided to Executive by the Company, or possessed by or created by Executive for use in connection with Executive's employment, are the property of the Company and shall be promptly returned to the Company on termination of employment together with all copies, recordings, abstracts, notes or reproductions of any kind made from or about the documents and tangible items or the information they contain.

9. Noncompetition. In consideration of Executive's rights under this Agreement, including without limitation Section 6 hereof, Executive agrees that, from and after the Effective Date and continuing until the six-month anniversary of termination or cessation of Executive's employment with the Company, Executive will not, individually or in any capacity with another legal entity:

- (i) directly or indirectly, own any interest in, control, be employed by or associated with, or render services to, any person, entity, or subsidiary, subdivision, division, or joint venture of such entity in connection with a Competitive Business within fifteen (15) miles of any Company Business or within fifteen (15) miles of any location in which the Company intends to actively operate a Company Business (excepting passive holdings for investment purposes of not more than one percent (1%) of the securities of any company);
- (ii) directly or indirectly, solicit any of the Company's present or future employees for the purpose of hiring them or inducing them to leave their employment with the Company;
- (iii) directly or indirectly, solicit, attempt to solicit, interfere, or attempt to interfere with the Company's relationship with its customers or potential customers, suppliers, or franchisees on behalf of Executive or any other person or entity engaged in a Competitive Business.

10. Breach of the Noncompetition or Confidentiality Provisions of this Agreement. In addition to any other relief or remedies afforded by law or in equity, if Executive breaches Sections 8 or 10 of this Agreement, Executive agrees that the Company shall be entitled, as a matter of right, to injunctive relief in any court of competent jurisdiction plus reasonable attorneys' fees for securing such relief. Executive recognizes and hereby admits that irreparable damage will result to the Company if he violates or threatens to violate the terms of Sections 8 or 10 of this Agreement. This Section 11 shall not preclude the granting of any other appropriate relief including, without limitation, money damages against Executive for breach of Sections 8 or 10 of this Agreement.

11. Effect of Other Obligations. It is intended that the obligation of the parties to perform the terms of this Agreement is unconditional and does not depend on the performance or non-performance of any terms, duties or obligations not specifically recited in this Agreement.

12. Binding Agreement. This Agreement shall be binding upon, and inure to the benefit of, the parties hereto, any Successor to or assigns of the Company, and Executive's heirs and the personal representative of Executive's estate.

13. Severability. If the final determination of a court of competent jurisdiction declares, after the expiration of the time within which judicial review (if permitted) of such determination may be perfected, that any term or provision hereof is invalid or unenforceable, (a) the remaining terms and provisions hereof shall be unimpaired, and (b) the invalid or unenforceable term or provision shall be deemed replaced by a term or provision that is valid and enforceable and that comes closest to expressing the intention of the invalid or unenforceable term or provision.

14. Amendment; Waiver. This Agreement may not be modified, amended or waived in any manner except by an instrument in writing signed by both parties hereto. The waiver by either party of compliance with any provision of this Agreement by the other party shall not operate or be construed as a waiver of any other provision of this Agreement, or of any subsequent breach by such party of a provision of this Agreement.

15. Governing Law. All matters affecting this Agreement, including the validity thereof, are to be governed by, interpreted and construed in accordance with the laws of the State of Minnesota.

16. Notices. Any notice hereunder by either party to the other shall be given in writing by personal delivery or certified mail, return receipt requested. If addressed to Executive, the notice shall be delivered or mailed to Executive at the address specified under Executive's signature hereto, or if addressed to the Company, the notice shall be delivered or mailed to the Company at its executive offices to the attention of the President of the Company. A notice shall be deemed given, if by personal delivery, on the date of such delivery or, if by certified mail, on the date shown on the applicable return receipt.

17. Supersedes Previous Agreements. This Agreement supersedes all prior or contemporaneous negotiations, commitments, agreements and writings with respect to the subject matter hereof, all such other negotiations, commitments, agreements and writings will have no further force or effect, and the parties to any such other negotiation, commitment, agreement or writing will have no further rights or obligations thereunder.

18. Headings; Construction. The headings of Sections and paragraphs herein are included solely for convenience of reference and shall not control the meaning or interpretation of any of the provisions of this Agreement. This Agreement shall be construed without regard to any presumption or other rule requiring construction hereof against the party causing this Agreement to be drafted.

19. Benefit. Nothing in this Agreement, express or implied, is intended to confer on any person other than the parties hereto or their respective successors or assigns, any rights, remedies, obligations or liabilities under or by reason of this Agreement.

IN WITNESS WHEREOF, the Company has caused this Agreement to be signed by its President pursuant to the authority of its Board, and Executive has executed this Agreement, effective as of **October 30, 2006**.
