

fact sheet

Comcast Corporation

overview Comcast Corporation is the nation's leading provider of cable, entertainment and communications products and services, with 21.4 million cable customers, 7.7 million high-speed Internet customers and 1.2 million voice customers. Comcast is principally involved in the development, management and operation of broadband cable networks and in the delivery of programming content.*

products Comcast provides a wide variety of consumer products and services primarily in three areas:

Video – Comcast is the nation's largest video provider offering interactive services packed with the best content on Digital Cable, video on demand and high-definition television.

Online – As the nation's number one broadband provider, Comcast offers the best content, reliable service and faster speeds.

Voice – Comcast is rolling out an IP-enabled Digital Voice service that offers consumers the quality they expect in a phone service combined with new interactive features for a low price.

content networks and investments

The Company's content networks and investments include E! Entertainment Television, Style Network, The Golf Channel, OLN, G4, AZN Television, PBS KIDS Sprout, TV One and four regional Comcast SportsNets. The Company also has a majority ownership in Comcast-Spectator, whose major holdings include the Philadelphia Flyers NHL hockey team, the Philadelphia 76ers NBA basketball team and two large multipurpose arenas in Philadelphia.

fact sheet

Comcast Video Services

The nation's leading cable television provider

With 21.4 million customers, Comcast is the nation's leading cable television provider.

video service overview

Comcast Cable – Customers can select from two options for analog television: Comcast's Limited Basic service with about 20 broadcast television networks, or Standard Cable service featuring approximately 75 channels, including popular cable and broadcast networks.

Digital Cable – Digital Cable features up to 250 channels, more than 3,800 video-on-demand programs from leading cable and broadcast programmers and dozens of music channels. Customers can quickly navigate the channel lineup and video-on-demand library on Digital Cable with Comcast's new interactive programming guide.

Video on Demand (VOD) – ON DEMAND offers an ever-growing library of programs available any time customers want to watch them — with the ability to fast forward, rewind and pause selections. Nearly 95% of ON DEMAND programs are available at no additional charge.

High-Definition Television (HDTV) – HDTV is a new television standard with dramatically improved, highly-detailed picture quality, improved audio quality (including surround sound) and a wide-screen, theater-like display. Comcast offers about 15 channels of HD television service, including local affiliates that feature network shows and national sports coverage in HD clarity.

Digital Video Recorder (DVR) – DVR service from Comcast brings customers more control and convenience with the ability to digitally record programs and to pause and rewind live TV broadcasts.

Interactive Program Guide – Comcast's interactive guide enables customers to:

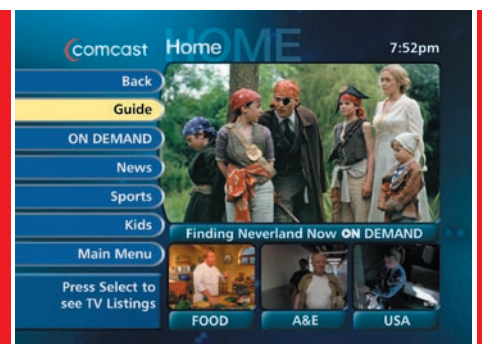

- Quickly find a show on any channel
- Record any television show with a DVR
- Choose from thousands of VOD programs and order at any time
- Set favorite channels to quickly scan their most-watched networks
- Use parental controls to block specific channels or individual programs

future applications in development

A next-generation interactive program guide will offer even more search options; greater integration of VOD, DVR and HDTV services, enhanced parental control functions and will feature multiple live video previews of selected programming on one screen (pictured below).

Pause, fast forward and rewind television.

fact sheet

ON DEMAND

The nation's leading video-on-demand service with more than one billion programs viewed in 2005

overview

ON DEMAND with Digital Cable offers an ever-growing library of programs available any time customers want to watch them — with the ability to fast forward, rewind and pause selections. Nearly 95% of ON DEMAND programs are available at no additional charge.

programming categories

- Movies** – Hundreds of movies available each month featuring the latest Hollywood hits and all-time classics
- Sports** – The best sports action on television from the NFL Network, NBA TV and NHL on OLN, including game highlights, draft picks and player info
- Fitness** – Home workouts to get in shape and fitness advice for a healthy lifestyle
- Kids & Teens** – Programs that educate and entertain, from preschool favorites to topical shows for teenagers
- Premium Channels** – The best movies and award-winning original series from premium networks like HBO, Showtime, Cinemax, The Movie Channel, Starz and Encore
- Get Local** – News, sports and other great content tailored to local markets
- TV Entertainment** – Programs from dozens of leading cable networks and classic TV shows
- News & World** – Local newscasts, highlights from CNN and more
- The Cutting Edge** – Anime and video game programs for young adults
- Life & Home** – Video personals from Comcast's Dating on Demand service, parenting and wedding advice, home and garden information
- Music** – Hundreds of music videos, behind-the-scenes programs and concert clips
- Urban Beat** – Programs from Vibe magazine, BET, TV One, QD3 and more

statistics

- Launched: 2002
- Programs viewed: Customers watched more than one billion programs since January 2005.
- Customer use: In mature video-on-demand markets, more than 75% of digital cable customers have used the service in the past 90 days. On average, customers with ON DEMAND are using the service more than 20 times per month.

pricing

- Approximately 95% of ON DEMAND content is available at no additional charge.
- Programs from HBO, Cinemax, Showtime, The Movie Channel and Starz are included with monthly subscriptions to those services.
- New release pay-per-view movies \$3.99; library titles \$2.99

fact sheet

Digital Video Recorder Service

overview

Digital video recorder (DVR) service from Comcast brings customers more control and convenience with the ability to digitally record programs and to pause and rewind live TV broadcasts. With Comcast DVR service, customers can:

- Record up to 80 hours of standard-definition programming and up to 15 hours of high-definition programming.
- Set series recordings to automatically record all episodes of their favorite shows.
- Record one program while watching another channel, or record two different channels while watching a previously recorded program.*
- Pause and rewind live television broadcasts.
- Select from four fast-forward and rewind speeds for recorded programs.

With a Digital Video Recorder from Comcast, customers do not need to purchase any additional equipment or use a telephone connection to access content as some other providers require.

statistics

- Launched: 2003
- Customer use: DVRs and ON DEMAND are changing the way people watch TV by putting them in control — 80% of customers with a DVR use ON DEMAND.

pricing

- DVR service is available to Comcast Digital Cable customers for an additional \$9.95 per month and to current Comcast High-Definition Television customers for an additional \$4.95 per month in most areas.**

future applications in development

- TiVo DVR service: Comcast will offer a TiVo-branded DVR in the majority of its markets, which will incorporate popular TiVo features such as the ability to automatically record programs based on user preferences.
- Web-based DVR recording: Comcast will provide customers with the option of programming their home DVRs from any computer by using their high-speed Internet account.

Comcast Digital Voice™

overview

Comcast's new IP-enabled phone service is a residential, primary line service that offers digital quality and includes all of the features that customers expect from their phone service plus new enhanced features like the ability to check voice mail online — all for one low price.

Residential, primary line replacement PLUS differentiation – Not your Plain Old Telephone Service

- Comcast Unlimited Package gives customers unlimited local and domestic long distance calling and great international rates to more than 200 countries.
- Includes 12 of the most popular calling features plus enhanced voice mail:
 - 3-way calling
 - Anonymous call rejection
 - Call forwarding selective
 - Call forwarding variable
 - Call return
 - Call screening
 - Call waiting
 - Caller ID
 - Caller ID blocking
 - Caller ID with call waiting
 - Repeat dialing
 - Speed dial
- E-911, Battery Back-Up, Directory Assistance, Operator Services and CALEA

availability

Comcast Digital Voice is available in more than 20 markets, and plans to reach 15 million homes by year-end 2005, including:

- | | | |
|--------------------------|------------------------|-----------------------------|
| Indianapolis, IN | Springfield, MA | Suburbs of Philadelphia, PA |
| Boston, MA | Hartford, CT | Suburbs of Detroit, MI |
| Naples/Ft. Myers, FL | Suburbs of Chicago, IL | Portland, OR |
| Alexandria/Arlington, VA | | |

pricing

- \$39.95 per month for customers with cable *and* high-speed Internet service
- \$44.95 per month for customers with either cable *or* high-speed Internet service

statistics

- 99% of Comcast Digital Voice customers take more than one product, and nearly 80% take all three products

comcast experience

- With more than 1.2 million circuit-switched voice customers, Comcast is one of the largest facilities-based providers of cable phone service in the United States.

future applications in development

- Unified Messaging: Customers will have the ability to check e-mail, listen to voice mail and watch video e-mails right from one inbox in their comcast.net account.
- Video Communications: Comcast is integrating its services to enable customers to make phone calls with any device — the phone, computer or television set — and receive Caller ID on their television screens for added calling convenience.

.....

Includes everything customers expect in a phone service with new features and a better price.

fact sheet

Comcast Digital Voice™ Top Ten Things You Should Know About Comcast Digital Voice

1. **Comcast Digital Voice uses Internet Protocol and not the Internet.** Comcast Digital Voice calls travel on our private, managed network— not over the public Internet. That makes it superior to other ‘Best Effort’ services delivering phone traffic over the public Internet.
2. **Comcast Digital Voice offers digital quality phone service with all of the features that customers expect from their phone service, plus enhancements like the ability to check voice mail online.**
3. **Comcast Digital Voice gives customers 12 of the top calling features,** including: Caller ID; Call Waiting; Call Forwarding; Repeat Dialing and Speed Dialing.
4. **Comcast Digital Voice offers E911 capability.** Customers’ 911 calls are routed to public safety answering points (“PSAPs”) along with Automatic Location Information (“ALI”) identifying the caller’s location.
5. **Comcast Digital Voice currently provides battery backup in the Multimedia Terminal Adapters (MTAs).** The MTA will provide several hours of backup power to keep Comcast Digital Voice working when a customer loses power in their home.
6. Trained, professional **Comcast technicians perform the whole standard installation** for customers, and once set up, **all of the telephone jacks in the home will work with Comcast Digital Voice** – not just one phone next to the modem as with some voice over the Net providers.
7. Comcast Digital Voice provides customers with the ability to **listen to and manage their home voice mail messages from anywhere.** All they need is access to a computer connected to the Internet. They will also be able to view their Comcast Digital Voice billing information online.*
8. **Comcast Digital Voice works with most home alarm systems using tone dialing and standard data communications protocols.**
9. **Comcast Digital Voice customers receive a single bill for all of their services,** including Comcast Cable and Comcast High-Speed Internet services.
10. Customers can switch to Comcast Digital Voice and **keep the same phone number and use their existing touchtone phone.** If customers intend on keeping their current phone number, Comcast will handle the transition from their current service provider for them.
