Jazz Technologies, Inc. Corporate Profile

Description	Jazz Technologies™ (AMEX: JAZ) is the parent company of its wholly owned subsidiary, Jazz Semiconductor, Inc. Jazz Semiconductor® is the leader in Analog-Intensive Mixed-Signal (AIMS) foundry solutions for the manufacture of highly integrated semiconductor devices. The company serves customers targeting wireless, optical networking, power management, consumer electronics, storage, aerospace/defense, and other high-performance markets.	
History	Jazz Technologies is led by Chairman and CEO Gil Amelio, former CEO of Apple Computer, National Semiconductor, and former President of Rockwell Semiconductor. Jazz Semiconductor's business was formed in March 2002 upon the contribution of Newport Fab, LLC, by Conexant Systems, Inc., to Jazz Semiconductor, together with a cash investment by affiliates of The Carlyle Group. In February 2007, Jazz Semiconductor was acquired by Jazz Technologies in an all-cash transaction.	
Facilities	Jazz Semiconductor provides cost-effective manufacturing capacity to its customers from its wafer fabrication facility located in Newport Beach, California. The company also has engineering, manufacturing, and sales support in Shanghai, China. Jazz has expanded its wafer capacity in China through manufacturing partnerships with Advanced Semiconductor Manufacturing Corporation and Hua Hong NEC Electronics Co., Ltd. In addition, Jazz has collaborated with Fujitsu for access to its 300mm Mie fab in Japan to offer RFCMOS in 90/65nm technology nodes.	
Technology	The Company's broad portfolio of modular AIMS technologies includes RFCMOS, and specialty CMOS processes such as enhanced RFCMOS, BiCMOS (Bipolar Complementary Metal Oxide Semiconductor), High Voltage CMOS, Bipolar CMOS DMOS (BCD), and SiGe (Silicon Germanium) BiCMOS processes. Jazz also offers world-class design enablement tools to allow complex designs to be achieved quickly and more accurately.	
Customers	Jazz Semiconductor currently serves more than 100 customers, including Skyworks Solutions, Inc.; Conexant Systems, Inc.; Marvell Technology Group, Ltd.; Mindspeed Technologies, Inc.; Texas Instruments; Airoha Technology Group; Xceive Corporation; Microtune, Inc.; RF Micro Devices, Inc.; Entropic; Exar; Nanoradio; Phyworks; and Teledyne Scientific & Imaging.	
Work Force	More than 730 employees.	
Management	Gilbert F. Amelio Chairman and Chief Executive Officer Paul A. Pittman Executive Vice President, and Chief Financial and Administrative Officer Allen R. Grogan Senior Vice President, Chief Legal Officer and Secretary
