Directors' Report to the Shareholders of Israel Corporation Ltd.

For the Three Months Ended March 31, 2005

DESCRIPTION OF THE CORPORATION AND ITS BUSINESS ENVIRONMENT

The Israel Corporation Ltd. (hereinafter – “the Corporation”) is an investment company engaged in the initiation, promotion and development of businesses in Israel and abroad, and is actively engaged in management of its Group companies.

The Corporation is held at the rate of 56% by the Ofer Group (as at the signing date of the financial statements) and 19% by Bank Leumi Le-Israel B.M.

The Corporation's strategy is designed to adapt its business structure to the business situation existing in Israel and globally, while expanding the Group's geographic dispersion and international market penetration with respect to manufacturing and marketing.

In the period of the report, the positive trend continued in the international markets in the areas in which the Corporation operates – the fertilizers, shipping and energy fields.

The Corporation took advantage of the recession years to execute reorganization and efficiency measures, improve its cash flows and make strategic acquisitions in the fertilizers' and shipping areas.

The Group's activities are centered, mainly, in the chemicals, shipping, energy and advanced technology sectors, through an array of investee companies. The Corporation's headquarters provides management services, through a wholly-owned subsidiary, and is also actively involved in the strategic planning and business development of the investee companies.

This Directors' Report is submitted as part of the financial statements for the period ended March 31, 2005, and on the assumption that the reader is also in possession of the said financial statements. This report has been prepared in a condensed format for the aforementioned period on the assumption that the reader is also in possession of the periodic report for 2004.

FINANCIAL POSITION

- The total assets, as at March 31, 2005, amounted to NIS 23,239 million, compared with NIS 21,309 million, as at March 31, 2004.
- The balance of the long-term investments, loans and receivables as at March 31, 2005 amounted to NIS 1,369 million, compared with NIS 1,580 million as at March 31, 2004.
- The long-term liabilities, as at March 31, 2005, amounted to NIS 9,105 million, compared with NIS 9,807 million, as at March 31, 2004.
- The Corporation's working capital as at March 31, 2005 amounted to NIS 2,688 million, compared with working capital of NIS 534 million as at March 31, 2004. The increase derives mainly from an increase in cash and cash equivalents.
- The Corporation's shareholders' equity as at March 31, 2005 amounted to NIS 4,075 million, compared with NIS 2,378 million as at March 31, 2004, and NIS 3,612 million as at December 31, 2004.
- The cash flows from operating activities in the period of the report amounted to NIS 816 million, compared with NIS 512 million in the corresponding period last year.

RESULTS OF OPERATIONS

The Corporation ended the period of the report with earnings of NIS 479 million, compared with earnings of NIS 151 million in the corresponding period last year.

Set forth below are the factors which impacted the results of operations in the period of the report:

- A. The results for the period of the report include non-recurring income, in the net amount of NIS 149 million, compared with non-recurring expenses of NIS 41 million in the corresponding period last year. The non-recurring income consists of capital gains.

In the period of the report, the Corporation's earnings without non-recurring items amounted to NIS 330 million, compared with earnings of NIS 110 million in the corresponding period last year.

- B. Israel Chemicals Ltd. (hereinafter – “ICL”) finished the period of the report with earnings of \$95 million compared with earnings of \$32 million in the corresponding period last year.
- C. ZIM Integrated Shipping Services Ltd. (hereinafter – “ZIM”) finished the period of the report with earnings of \$65 million, including a net capital gain of \$31 million from sale of ships, compared with earnings of \$17 million in the corresponding period last year (see below).
- D. Oil Refineries Ltd. (hereinafter – “ORL”) finished the period of the report with earnings of NIS 281 million, compared with earnings of NIS 65 million in the corresponding period last year. The Corporation reduced its share in ORL's earnings by NIS 67 million (see Section on Changes in the Investments Portfolio).
- E. Tower Semiconductor Ltd. (hereinafter – “Tower”) finished the period of the report with a loss of \$55 million, compared with a loss of \$38 million in the corresponding period last year.

In the period of the report, the Group included its share of Tower's losses in the amount of NIS 52 million and, at the same time, it reduced the provision for decline in value of the investment in Tower (which was recorded in 2004) by NIS 48 million.

- F. The net financing expenses in the period of the report amounted to NIS 46 million, compared with expenses of NIS 72 million in the corresponding period last year.

As an investments company, the Corporation's financial results are affected by the results of its investee companies as well as by non-recurring gains and losses.

CHANGES IN THE INVESTMENT PORTFOLIO

- A. In the period of the report, ZIM sold three ships, for a consideration of \$111 million. The ships were leased to ZIM by means of a vessel lease for a period of 5–6 years. The after-tax capital gain realized by ZIM totals \$31 million, and Israel Corporation's share of the gain is approximately NIS 135 million.
- B. In the period of the report, the amount of the Corporation's investment in Oil Refineries Ltd. (hereinafter – “ORL”) based on the equity method of accounting increased above the exercise price of the option. The exercise price of the option derives from the Corporation's notification to the Government on August 4, 2003, according to which, the Corporation decided, by virtue of the provisions of Appendix C of the Arrangement, to exercise the option to sell all its shares of ORL at a price constituting an average between the two overall valuations of ORL, subject to certain adjustments (see also the ORL Concession).

Pursuant to the above, the Corporation set its investment in ORL at the exercise price of the option, in the amount of NIS 607 million, which is NIS 202 million less than the amount of the investment based on the equity method of accounting.

CHANGES IN THE INVESTMENT PORTFOLIO (cont'd)

- C. In the period of the report, the Group included its share of Tower's losses in the amount of NIS 52 million and, at the same time, it reduced the provision for decline in value of the investment in Tower (which was recorded in 2004) by NIS 48 million.
- D. Subsequent to the balance sheet date, in May 2005, an affiliated company, Oren Semiconductor Inc. (hereinafter – "Oren") signed an agreement with Zoran Corporation (hereinafter – "Zoran") pursuant to which Zoran will acquire all of Oren's shares from its shareholders.

The value of the consideration to be received by the Group in cash and in shares of Zoran will amount to \$11 million. The after-tax capital gain is expected to come to \$8 million. Execution of the transaction is subject to certain approvals.

Following is a brief summary of the financial results of the Corporation and the principal investees:

ISRAEL CHEMICALS LTD.

ICL finished the period of the report with earnings of \$95 million, compared with earnings of \$32 million in the corresponding period last year.

Sales of the ICL Group totaled \$710 million in the period of the report, compared with \$619 million in the corresponding period last year, an increase of 14.7%.

The increase in the sales of the ICL Group reflects an increase in turnover in all of the Group's areas of activity, due to an increase in prices in most of ICL's products along with an increase in sales in some areas. The upward revaluation of the euro against the dollar also contributed to the increase in revenues from sales in Europe.

In the period of the report, the rate of the gross profit to total sales was 39.3% compared with earnings of 32.4% million in the corresponding period last year.

The general and administrative expenses amounted to \$25.7 million, compared with \$25.1 million in the corresponding period last year. Despite the impact of the upward revaluation of the exchange rates of the euro and the shekel on the expenses in dollar terms, due to the efficiency and savings measures there was only a small increase.

The net financing expenses in the period of the report amounted to \$2.3 million, compared with \$8.6 million in the corresponding period last year.

The decline in the financing expenses stems mainly from a decline in the average balance of the financial liabilities, which was partly offset by an increase in the average dollar interest rate during the period of about 1.4%.

ZIM INTEGRATED SHIPPING SERVICES LTD.

ZIM finished the period of the report with earnings of \$65 million compared with earnings of \$17 million in the corresponding period last year.

ZIM's revenues in the period of the report from shipping and accompanying services amounted to \$657 million compared with \$554 million in the corresponding period last year, an increase of 19%. The increase in revenues stems mainly from an increase in the average shipping price per container of 15.6% and an increase in the quantity of containers shipped of 3.4%.

The operating expenses and shipping costs increased due to a 45% increase in ship leasing expenses and a 25% increase in fuel prices over the corresponding period last year.

Depreciation expense in the period of the report amounted to \$17 million, compared with \$19 million in the corresponding period last year.

The gross profit in the period of the report amounted to \$73 million, compared with \$48 million in the corresponding period last year.

ZIM INTEGRATED SHIPPING SERVICES LTD. (cont'd)

The operating income in the period of the report amounted to \$49 million, compared with \$29 million in the corresponding period last year.

ZIM's shareholders' equity as at March 31, 2005, amounted to \$454 million, compared with \$389 million as at December 31, 2004.

ZIM's financial liabilities as at March 31, 2005, amounted to \$648 million, compared with \$660 million as at March 31, 2004. ZIM's total financial assets as at March 31, 2005, amounted to \$335 million, compared with \$98 million as at March 31, 2004.

The cash generated by operating activities in the period of the report amounted to \$72 million compared with \$33 million in the corresponding period last year.

The cash generated by investing activities, net, in the period of the report amounted to \$25 million compared with cash used in investing activities, net, of \$44 million in the corresponding period last year.

In the period of the report, ZIM sold three ships, for a consideration of \$111 million. The after-tax capital gain realized by ZIM totaled \$31 million. The ships were leased to ZIM under operating leases by means of a bare boat lease for a period of five to six years.

TOWER SEMICONDUCTOR LTD.

During the period of the report, Tower's sales totaled \$23 million, compared with \$27 million in the corresponding period last year.

The cost of sales in the period of the report amounted to \$61 million, compared with \$50 million in the corresponding period last year.

Tower finished the period of the report with a loss of \$55 million, compared with a loss of \$38 million in the corresponding period last year.

Pursuant to the credit agreement with the banks, Tower is required to comply with certain conditions and financial covenants (hereinafter – "the Financial Covenants").

In January 2005, Tower and the lending banks signed a letter of waiver in accordance with which the banks waived Tower's non-compliance with some of the Financial Covenants in the fourth quarter of 2004. In addition, the waiver letter signed also includes an update of the Financial Covenants that Tower must comply with during 2005.

As at March 31, 2005, Tower was in compliance with all the Financial Covenants required in the framework of the updated credit agreement with the banks. Tower's Management estimates, at this stage, that it is possible that Tower will not comply with some of the Financial Covenants beginning with the third quarter of 2005. Nonetheless, Tower's Management believes that due to the signing of the letter of intent referred to below, it is probable that satisfactory arrangements will be reached with the banks in connection with the Financial Covenants for the said periods. Pursuant to the credit agreement, compliance with the Financial Covenants is a material condition.

In light of Tower's continuing losses, negative cash flows from operating activities and anticipated cash deficiency, Tower is endeavoring to obtain the financing necessary for its continuing operations in the short run, and is also taking steps to reduce its current liabilities and to cutback costs, including by streamlining its workforce. Tower, some of its shareholders and the lending banks, are conducting discussions for purposes of obtaining additional financing for Tower in the amount of \$60 million. Accordingly, in May 2005, Tower and the banks signed a letter of intent pursuant to which the banks will provide Tower with financing of up to \$30 million subject to a similar amount being raised by Tower from investors.

TOWER SEMICONDUCTOR LTD. (cont'd)

As at the signing date of the financial statements, certain of its shareholders gave notice of their intention to invest \$23.5 million as part of the arrangement referred to above, of which \$20 million is to be invested by the Corporation. The letter of intent is subject to reaching an amendment of the lending agreements with the banks. Execution of the amendment is subject to, among other things, all the internal approvals of the banks, including approval of their boards of directors. Tower's management believes that it is probable that the letter of intent will ripen into an amendment of the lending agreements and that the certain shareholders will invest the aforementioned amounts.

In accordance with the credit agreement with the banks, if as the result of any violation of the agreement the banks choose to accelerate Tower's obligations, Tower will be obligated, among other things, to immediately repay all of the loans it received from the banks (which at the balance sheet date amounted to \$497 million) and the banks will be permitted to realize the remedies available to them in the credit agreement, including realization of the liens recorded on Tower's assets.

Pursuant to the original approval from the Investments Center, Tower was supposed to complete the investment in FAB2 by December 31, 2005. Tower is holding discussions with the Investments Center for purposes of receiving an extension of the period beyond December 31, 2005. Since the examination process is in only the initial stages, Tower's Management is unable to estimate the chances that the approval will be received as stated.

Regarding the Corporation's share in Tower's results, see the "Results of Operations" section.

OIL REFINERIES LTD.

ORL finished the period of the report with earnings of NIS 281 million, compared with earnings of NIS 65 million in the corresponding period last year.

The worldwide economic growth in 2004 that was characterized by demand for the fuel products caused an increase in the price per barrel of crude oil of the "brent" type from an average of \$32 in the first quarter of 2004 to \$40 in the beginning of 2005. The cold wave in Europe and in the United States that triggered a demand for heating oil, along with the devaluation in the value of the dollar and the increasing presence of investors and speculators in the oil market, caused a jump in fuel prices to an average level of \$48 per barrel in the period of the report. Increase of the production quotas by OPEC on March 15, 2005 by 2% and the messages of a relaxation did not help, since the fuel market reached the point where its production and delivery capacity were fully utilized, and the prices continued to rise to a record high of \$56 per barrel. During the period of the report, the average price per ton of the main products' basket in the Mediterranean Sea area similar to ORL's product basket was sold for \$385, compared with \$255 in the corresponding period last year.

The gross income in the period of the report amounted to NIS 537 million, compared with NIS 282 million in the corresponding period last year.

Margin on refining activities (\$ per ton):

	<u>January – March</u>
2005	48.6
2004	25.0

In the period of the report, there was an increase in the manufacturing costs deriving mainly from an increase in salaries expenses and maintenance expenses.

OIL REFINERIES LTD. (cont'd)

There was an increase in the selling, general and administrative expenses deriving mainly from an increase in license fees to the State recorded by ORL, as well as salaries expenses.

The financing expenses in the period of the report, amounted to NIS 49 million, compared with NIS 113 million in the corresponding period last year. The high fluctuations in the financing expenses between the periods stems mainly from the impact of the devaluation/upward revaluation of the shekel vis-à-vis the dollar.

SOURCES OF FINANCING OF THE CORPORATION AND THE HEADQUARTERS COMPANIES

As at March 31, 2005, the total financial liabilities of the Corporation and its wholly-owned and controlled headquarters companies (hereinafter – “the Headquarters Companies”), amounted to NIS 2,470 million.

As at March 31, 2005, the Corporation and the Headquarters Companies had investments in liquid assets of NIS 991 million, invested, primarily, in short-term shekel and dollar deposits, medium-term dollar debentures, treasury bills and corporate debentures in CPI-linked and unlinked channels.

In the period of the report the Corporation renewed credit received for financing acquisition of shares of Israel Chemicals Ltd. (ICL), in the amount of \$65.5 million, of which \$28 million relates to credit that was repaid in 2004 and the balance relates to the current maturities for 2005. Half of the credit is scheduled for repayment on December 31, 2010, while the other half is to be paid in quarterly installments beginning on March 31, 2007, over a period of three years.

In the period of the report one of the Headquarters Companies renewed a loan in the amount of \$40 million repayable on March 31, 2008.

During the period of the report, NIS 94 million par value of convertible debentures were converted and in consideration thereof 134,364 of the Corporation’s ordinary shares were issued. Accordingly, the Corporation’s liabilities were reduced by NIS 97 million. In addition, during the period of the report options were exercised for Corporation shares such that an additional 173,492 shares were issued for an aggregate consideration of NIS 118 million.

Subsequent to the balance sheet date, the Corporation issued an additional 87,563 shares, mainly as a result of conversion of debentures. The Corporation’s liabilities were reduced by a further NIS 62 million.

THE ORL CONCESSION

ORL operates in accordance with a concession it received to construct, operate and maintain facilities and auxiliary plants for purposes of refining mineral oils. The concession received the force of law pursuant to the Anglo-Iranian Oil Treaties Ordinance from 1938. The concession ended in October 2003.

On December 2, 2002, an arrangement was signed between ORL, the Government and Israel Corporation in connection with all that involved with the period after expiration of the concession. Based on the arrangement, upon expiration of the concession period (October 18, 2003), all of ORL’s rights deriving from the concession will terminate, and an arrangement will enter into effect according to which, subject to the conditions of the arrangement, the highlights of which are detailed below, ORL shall be permitted to continue to hold the assets it held on the eve of expiration of the concession (hereinafter – “the Assets”). The arrangement was made for 25 years, commencing October 18, 2003 (hereinafter – “the First Period”). ORL – or if it is split up into two separate refineries, each of the separate refineries – was granted an option to continue the aforesaid period for an additional 25 years, provided it notifies the Government no later than two years before the end of the First Period.

THE ORL CONCESSION (cont'd)

The arrangement provides that each side reserves the right to petition the court for clarification of the disagreement regarding the question whether or not all of ORL's assets return, by virtue of the historical concession, to the ownership of the Government without consideration, however in any case, any decision made regarding this matter will be implemented only at the end of the arrangement period (25 years or 50 years, as the case may be). If a final court decision is rendered, each side will be permitted to implement its provisions regarding recording of the rights in the Assets, provided such registration will not adversely affect the validity of the remainder of the arrangement's provisions and ORL's right to pledge the Assets in the ordinary course of its business, subject to the provisions of the arrangement.

The arrangement conveyed to the State the right to record a caveat on the arrangement's content, on all the real estate assets, and to remove the caveat as stated at any time. Subject to these provisions, no change shall be made to the recording of the Assets. During the arrangement period, ORL is permitted to execute transactions in the Assets in the regular course of business, and the decision in a disagreement with respect to the Assets shall apply to the proceeds from transactions as stated as well as to assets which ORL shall acquire in the future. A transaction in the Assets, except for a lien in the regular course of business, which does not exceed the period of the arrangement, requires approval of the Accountant General, who shall act in this matter in accordance with the Government's Decision No. 2796, dated November 25, 2002.

The Government and ORL recorded caveats on the real estate that is the subject of the arrangement.

During the arrangement period, ORL shall pay to the Government annual permit fees in a fixed amount of \$3 million plus additional annual amounts which are dependent on ORL's earnings, as follows: 8% of the annual earnings before taxes and permit fees, in the range of \$0-\$40 million; plus, 10% of the annual earnings before taxes and permit fees, in the range of \$40-\$70 million; plus, 12% of the annual earnings before taxes and permit fees, in the range of \$70-\$90 million. In any case, the amounts paid to the Government as permit fees shall not exceed (including the fixed payment) the amount of \$11.6 million. All the amounts shall be translated into shekels in accordance with an exchange rate of \$1 = NIS 4.80, and linked to the CPI (base index of May 2002).

The "annual earnings before taxes" will be defined and measured based on annual, audited consolidated financial statements, and will include ORL's share in earnings or losses of subsidiary and affiliated companies having separate activities as well as capital gains and losses, however will not include gains and losses from activities through companies operating overseas or sale of the holdings in companies operating overseas.

Upon expiration of the original concession and in accordance with the arrangement, ORL began paying license fees under the arrangement. ORL recorded a provision in the amount of NIS 14 million in respect of the first quarter of 2005.

The Accountant General in the Ministry of Finance notified ORL that the amount it paid was deposited in a separate account, so long as the conditions precedent stipulated in the arrangement were, in his opinion, not fulfilled. ORL responded to the Accountant General that the agreement was signed in the name of the Government after all the required approvals had been received by the parties authorized on behalf of the Government to sign it, and after it was signed, approvals of the Board of Directors of ORL and the Board of Directors of Israel Corporation were also received, and that upon the receipt thereof the agreement entered into effect. Therefore, the amount paid to the Government by ORL was properly paid pursuant to a valid agreement.

In the arrangement, the Government committed that if and to the extent possible, it will assist ORL in the transition, without interferences, from the concession period to the arrangement period (recognition of the existing construction, orderly licensing and construction processes, establishment of an industrial council).

THE ORL CONCESSION (cont'd)

Pursuant to the agreement, upon expiration of ORL's rights under the concession, ORL will be subject – commencing from the date of the arrangement (October 18, 2003) and thereafter – to the construction and planning laws and additional local laws, in connection with the Haifa oil refinery. During 2002, the Manager of the Ministry of the Interior appointed an investigation committee for the boundaries of the Municipality of Haifa, Nesher and Kiryat Ata, Zvulun and the area of the oil refineries. During 2003, the Committee published its recommendations, pursuant to which the aforesaid area will be annexed to the Municipality of Haifa; the area will be administered by means of a joint governing body of the four local authorities bordering on the area, representatives of the factories operating therein, representatives of the public and representatives of Government ministries. The Committee also recommends that the governing body should handle all matters involved with running the area as an industrial area, similar to the definitions of a local industrial council in the Local Council Ordinance. The Committee further recommended that determination of the initial Municipal Tax levy shall be with the approval of the Minister of the Interior and it shall be imposed gradually (a discount shall be given which will be reduced from year to year over a 3–5 year period). The Minister of the Interior gave notice that he intends to accept the Committee's recommendations. ORL filed a petition with the Supreme Court sitting as the High Court of Justice against this decision of the Minister of the Interior and requested interim orders that will prevent the taking of any action that is intended to implement or advance implementation of the Committee's recommendations. The State, for its part, requested an extension of time to submit its position regarding the petition and the interim orders, of up to 45 days after entry of the new Minister of the Interior into his position, in order to allow him time to study the subject matter of the petition. Up to the publication date of the report, the State's response has not yet been submitted. Upon inclusion of lands belonging to ORL within the boundaries of any local authority, it is expected that ORL will begin paying Municipal Tax for the Haifa refinery as well. In the period of the report, ORL received a charge for Municipal Tax relating to part of 2004 and 2005. Pursuant to a legal opinion received by ORL, as at the signing date of the financial statements ORL was not subject to an obligation to pay Municipal Tax in accordance with the charge notification it received. In 2003, ORL prepared and submitted a site plan for the Haifa refinery site.

ORL declared in the agreement that it is aware that the Government intends to initiate legislation that will govern the fuel industry, including regulation, which could affect the arrangement, even though there is no intention to affect the aspects of the arrangement that involve the Assets and the permit fees.

In addition, ORL declared that it is aware that the Government and Israel Corporation agree to act regarding the matter of the split-up of ORL as detailed in the appendix to the agreement, which was signed between them and which constituted an integral part of the arrangement between the Government and Israel Corporation (regarding this appendix, see the expanded discussion below).

On June 4, 2003, a petition was filed with the Supreme Court sitting as the High Court of Justice by the Israeli Society for Proper Government (hereinafter – “the Petitioner”), for the issuance of conditional and interim orders, which will direct the Prime Minister, the Minister of Finance, the Minister of National Infrastructures, the Director of the Government Companies Authority, ORL, Israel Corporation and others, to provide reasons why they should not be prevented from acting in accordance with the arrangement and/or why they do not act to cancel the arrangement. The Petitioner's main reasons are that the arrangement negatively impacts the principle of equality and equitable allocation, and it circumvents the tender laws by granting private parties a concession to use Government assets in a process having – based on the Petitioner's contention – various deficiencies. The Court refused to grant the Petitioner's request for interim orders that will prevent realization of the arrangement up to the time of the decision on the petition.

Israel Corporation submitted its response to the petition, in the framework of which it expressed its position that there is no basis for the petition. ORL, in its response, objected to the petition and its reasoning and supported implementation of the arrangement.

The Petitioner once again submitted a request for interim orders which would prevent the Government from: taking steps to obtain an exemption from a tender for the arrangement, acquire or sell rights and/or shares of Israel Corporation in ORL and to prepare a new agreement or revisions to the arrangement.

THE ORL CONCESSION (cont'd)

On January 19, 2004, the Supreme Court, at the invitation of all the parties to the proceeding, including the Corporation, decided, among other things, that “the respondents are permitted to continue negotiations among themselves to change the conditions of the agreement which is being attacked by the petition and even to sign a new agreement, provided that up to the time the matter is brought before the Court for the second time no irreversible actions shall be taken and that the present situation shall continue”.

On March 28, 2004, May 5, 2004 and July 12, 2004, the Government requested and received additional extensions from the Court for provision of its position regarding the petition.

On August 9, 2004, the Government submitted a notice to the Court wherein was stated, among other things, that on July 29, 2004, the Ministerial Committee for Society and Economic Matters (Social and Economic Cabinet) made a decision determining the manner in which the split up of ORL and its privatization are to be executed, which imposes on the Accountant General the responsibility to amend “Appendix C of the Agreement”, in accordance with the principles detailed in the decision (for the sake of good order it is noted that the “Agreement” is the arrangement signed on December 2, 2002, between Israel Corporation and ORL and the Government, as detailed at the beginning of this note, whereas “Appendix C of the Agreement” was signed between Israel Corporation and the Government relating to the relationship between the shareholders of ORL) (for detail regarding the decision, see below).

The Petitioner received permission from the Court and, on November 14, 2004, it submitted an amended petition based on, among other things, the State’s aforesaid notification.

The responses of the respondents to the petition have not yet been submitted. The petition has been set for a hearing in the Supreme Court on June 29, 2005. Prior to this date, all the parties to the petition are expected to submit their responses and replies to the Court.

In Appendix C to the arrangement, dated December 2, 2002, regarding the matter of ORL's concession, an appendix which as noted was signed by the Government and Israel Corporation, Israel Corporation committed to cooperate to the extent required by the Government, for purposes of split-up of ORL into two separate refineries (Haifa and Ashdod). A mechanism was also determined for performance of valuations as well as a mechanism regarding for sale of Israel Corporation’s shares in ORL or, in the case of a split-up of ORL, optional acquisition by Israel Corporation of one of the split-up two refineries. In this case, Israel Corporation will pay to the Government or receive therefrom, the difference between the relative value of Israel Corporation’s share in ORL (26%) and the value of the split-up refinery that it shall choose, based on the valuations performed pursuant to the arrangement.

The arrangement provides that if ORL is split into two separate refineries, each of the split-up refineries shall pay concession fees to the Government based on the internal allocation and the brackets, in accordance with a determination to be made in the framework of the split-up arrangements, provided that the total concession fees received by the Government from the two refineries is not more than or less than the amount that the Government would have received from ORL if the split-up had not taken place.

In June 2003, the two aggregate valuations were submitted. One from an appraiser on behalf of Israel Corporation, pursuant to which the total value of ORL is NIS 2,234 million, and the other from an appraiser on behalf of the Government, pursuant to which the total value of ORL is NIS 2,143 million.

On August 4, 2003, Israel Corporation notified the Government that in light of the fact that the negotiations with the Government regarding participation of Israel Corporation in the split-up have not been completed, and due to the dates provided in the Appendix to the arrangement, it has decided not to exercise the option it was granted in Appendix C to the arrangement, to participate in the split-up of ORL into two separate refineries and, therefore, the provisions of Section 4 of that Appendix shall apply, according to which Israel Corporation shall sell to the Government or to a party which the Government shall instruct, all ORL shares owned by Israel Corporation, within 30 days, at a price which constitutes an average between the two aggregate valuations of ORL, this being subject to certain monetary adjustments.

THE ORL CONCESSION (cont'd)

Nonetheless, Israel Corporation is prepared to continue the negotiations with the Government regarding its participation in the split-up.

The Government is permitted to instruct that the execution date of the sale transaction shall be postponed for an additional period that shall not exceed two years from June 6, 2003.

As a result of the recommendations of the inter-office team appointed by the Government, the Committee of Ministers for Social and Economic Matters made the following decision on July 29, 2004 (hereinafter – “Committee of Ministers’ Decision Dated July 29, 2004”): “Further to Government Decisions No. 126, dated August 22, 1999, No. 2796, dated November 25, 2002, and No. 787, dated September 15, 2003, the decision of the Committee of Ministers for Privatization Matters MH/2, dated October 20, 1999, the agreement signed between the Government and Israel Corporation Ltd. (hereinafter – “Israel Corporation”) and Oil Refineries Ltd. (hereinafter – “ORL”) dated December 2, 2002, which has not yet received all the required approvals (hereinafter – “the Agreement”), as follows:

1. To execute the split-up and privatization of the refineries during the years 2004–2005, in accordance with the outline detailed below:
 - 1.1 In the first stage, the refinery in Ashdod will be sold as activities, or in a private sale as a subsidiary or a separate company with an ownership structure identical to the ownership of ORL, and immediately thereafter a public issuance of ORL will be made.
 - 1.2 The refinery in Ashdod will be sold as a “going concern”. In the framework of the process of sale of the refinery in Ashdod the purchaser will undertake to operate the refinery for a period of not less than 10 years from the acquisition date.
 - 1.3 If necessary, principles for reciprocal relationships will be formulated during the split-up process that will apply between the refineries, including with respect to sale of intermediate products and feedstock materials between them, and between them and the petrochemicals industry.
2. To impose on the Accountant General in the Ministry of Finance the responsibility of amending Appendix C to the Agreement in the framework of a new agreement with Israel Corporation, which will be approved in accordance with Section 16 of the Agreement, such that Sections 3, 4, and 5 of Appendix C to the Agreement will be amended and superseded pursuant to the principles attached as Appendix A to the Government’s decision, and the rest of the Sections will remain unchanged, all of this up to October 15, 2004. In the framework of amendment of Appendix C, the following principles, among others, will be expressed:
 - 2.1 Israel Corporation will sell together with the Government all the holdings of the refineries.
 - 2.2 The accountings with Israel Corporation shall be made after completion of privatization of ORL, as will be detailed in the new agreement that amends Appendix C to the Agreement.
 - 2.3 The consideration the Corporation is to receive for its holdings in ORL will be between NIS 480 million and NIS 570 million. The amounts will bear interest and linkage differences up to December 31, 2003, and from this date the consideration will be linked to the rate of return on ORL’s capital. The consideration is subject to certain adjustments.

THE ORL CONCESSION (cont'd)

3. To impose on the Supervisor of the Government Companies Authority to submit to the Ministerial Committee for Privatization, no later than October 15, 2004, a proposal for split-up and privatization of the refineries on the basis of the outline as stated in Section 1, above. The process of split-up and sale of the refineries will be conducted and executed by the Government Companies Authority as is customary, including by means of mechanisms it determines for purposes of execution of the split-up and advancement of the privatization. In addition, provisions and limitations were determined in the privatization decision regarding ownership of the split-up refineries, among other things, as detailed in notification of the Supervisor of Restrictive Business Practices, as stated in Section 5, below. Commencing from the date that will be determined in the privatization decision, ORL will move to operating based on a separate optimization model for the two refineries, as will be detailed therein.
4. In the framework of the split-up and privatization process, issues relating to ORL employees will be handled, and to the extent necessary this will be reflected in the privatization decision.
5. To record the notification of the Supervisor of Restrictive Business Practices regarding his position with respect to matters within the scope of his responsibility in the area of regulation of the fuel industry, which are attached as Appendix B to the Government's decision. In addition, to record the notification of the Minister of National Infrastructures regarding his intention to enact the Fuel Industry Law, which will deal with, among other things, arrangement of the regulation in various sectors of the fuel industry.
6. To impose on the Minister of Finance and the Minister of National Infrastructures to amend the Order for Supervision of Prices of Goods and Services, 1992, no later than October 15, 2004, in such a manner that after the split-up and privatization of the refinery in Ashdod, the supervision of refined oil products at the refinery gate will be removed, except for supervision of the prices of refined oil products where more than 50% of their total consumption in the local market is sold by one of the refineries and, at the same time, less than 15% of their total consumption in the local market is sold by the other refinery. After removal of the supervision as stated, re-imposition of supervision of the price of any refined oil product at the refinery gate will be examined in light of the competitive conditions existing in the refining sector in the fuel industry, and in accordance with all law.
7. After sale of the refinery in Ashdod, in principle there is nothing preventing operating of a refinery in the area of production of electricity and desalination of water, in accordance with and subject to all law.
8. If Israel Corporation does not agree with the principles stated in Section 2 – to cancel the agreement, and to take unilateral steps available to the Government in connection with split-up and privatization, among other things in light of the Government's position regarding ownership of ownership of ORL's in the area of the concession.

Regarding this matter, see above also the report regarding the petition filed against the agreement dated December 2, 2002.

On December 26, 2004, the Committee of Ministers for Privatization Matters made a privatization decision relating to ORL (hereinafter – “the Privatization Decision”). The Privatization Decision provided, among other things:

THE ORL CONCESSION (cont'd)

“Further to Government Decision No. 126, dated August 22, 1999, the decision of the Committee of Ministers for Privatization Matters MH/2, dated October 20, 1999, the Government’s Decision No. 2796, dated November 25, 2002, the agreement signed between the Government and Oil Refineries Ltd. (hereinafter – “ORL”) and Israel Corporation Ltd. (hereinafter – “Israel Corporation”) dated December 2, 2002, including Appendix C thereof (which is to be amended in accordance with and subject to the decision of the Social and Economic Cabinet) subject to receipt of all the required approvals (hereinafter – “the Agreement”), to the Government’s Decision No. 787, dated September 15, 2003, the decision of the Ministerial Committee for Society and Economic Matters (Social and Economic Cabinet) No. HC/107 dated July 29, 2004 (hereinafter, above and below – “the Social and Economic Cabinet’s Decision”) – to privatize ORL as detailed below:

1. Split-Up

ORL shall be split into two companies, such that a subsidiary of ORL shall be established that will be called “ORL Subsidiary – Ashdod Ltd.”, in accordance with the conditions detailed in the document attached as Appendix A to this Decision (hereinafter – “ORL Ashdod”), in such a manner that agreements will be signed pursuant to which assets, rights, employees and liabilities as will be decided, which relate to the activities of the oil refinery in Ashdod and as will be determined in accordance with Section 12(D), shall be transferred to ORL Ashdod (hereinafter – “the Split-Up”).

The above-mentioned agreements shall not be executed and assets, rights, liabilities and employees relating to the activities of the oil refinery in Ashdod shall not be transferred except subject to and on the date of conclusion of the sale of ORL Ashdod as detailed below.

2. Sale of ORL Ashdod

- 2.1 After execution of the Split-Up, all the shares of ORL Ashdod, including the share held by the State, shall be sold in a private sale, as a single unit, to an investor and/or group of investors from Israel and/or from overseas (hereinafter – “the Private Sale”).
- 2.2 The Private Sale shall be executed on, among others, the following conditions:
 - A. The government companies (as will be defined in the sale procedure) shall not be permitted to participate in the Private Sale Procedure, directly or indirectly, alone or together with others, all as will be determined in the Private Sale Procedure.
 - B. The purchaser of ORL Ashdod shall declare that it acquires ORL Ashdod as a “going concern” and shall undertake to act based on its holdings in ORL Ashdod such that the activities of ORL Ashdod shall continue for a period of at least ten years from the sale date.
 - C. The sale process shall be administered by the Government Companies Authority (hereinafter – “the Authority”), as is customary in other private sale processes of State shares in government companies conducted by the Authority, and shall be executed by ORL and the Authority, in accordance with principles to be determined by the Authority and with its approval, based on, among other things, valuations on behalf of the Authority.

THE ORL CONCESSION (cont'd)

3. Sale of ORL

- 3.1 After completion of privatization of ORL Ashdod pursuant to Section 2, above, and prior to the issuance as described in Section 3.2, below, the Authority shall report to the Committee of Ministers with respect to the progress of the privatization process.
- 3.2 Immediately after completion of the privatization of ORL Ashdod pursuant to Section 2, above, all of the State's holdings in ORL and all of the Israel Corporation's holdings in ORL shall be sold, by means of a tender/tenders to the public, separately or together with fundraisings for ORL, through the issuance of securities to the public pursuant to a prospectus on the Tel-Aviv Stock Exchange (hereinafter – "the Issuances") and/or through a private sale of packages of shares in and outside of Israel. The Issuances shall be made in the scope, allocation, and on the dates to be determined by the Authority based on, among other things, the situation in the capital market.
- 3.3 The Issuances shall include shares and/or convertible securities, as will be determined by the Authority.
- 3.4 The Committee of Ministers provides that, under the circumstances of the matter, application of separate processes for handling a request to allow publication of a prospectus in accordance with Section 12(D)(1) of the Securities Law, 1968, is important to advancement of privatization of ORL.
- 3.5 The process of sale of ORL as stated above conducted by the Authority, based on, among other things, valuations on behalf of the Authority."

The Decision also set forth provisions in connection ORL employees in the Privatization Process, the fuel administration and regulation, essential interests of the State and guidelines for the Authority's activities in execution of the Privatization.

During the period of the report, ORL provided detailed information regarding all aspects of its activities to the Government Corporations Authority, based on the latter's directives by virtue of its authorities pursuant to the Privatization Decision and under law.

In the assessment of ORL, the privatization process of ORL by means of a split-up, if executed, will have a material impact on ORL, however, at this stage, ORL is not able to estimate and quantify such impact on its financial position and the results of its operations. The Management of Israel Corporation adopts ORL's evaluation.

Further to the decision of Committee of Ministers dated July 29, 2004, in the framework of which amendment of certain provisions in the original Appendix C to the ORL agreement was requested (which as stated is an appendix that was signed between the Government and Israel Corporation only regarding the matter of the a split-up and privatization of ORL and which covered their legal relationships as shareholders in ORL) and the continued negotiations carried on between Israel Corporation and the Government, Israel Corporation gave notice to the Government on January 1, 2005 (through the Ministry of Finance) that it consents to amendment of the original Appendix C to the ORL agreement based on the principles, as they were determined in the Committee of Ministers' Decision Dated July 29, 2004 (hereinafter – "the Amended Appendix C"). In this connection, Israel Corporation gave notice in an Immediate Report dated January 10, 2005, that shortly after the signing of the Amended Appendix C it will send out another Immediate Report with respect thereto. It is noted that the discussions between the Government and the Corporation are still in process and therefore the amended version of appendix C has not yet been signed.

EXPOSURE TO MARKET RISKS AND RISK MANAGEMENT

During the period of the report, there was no very material change with respect to market risks and their management as they were reported in the Directors' Report as at December 31, 2004.

UPDATE REGARDING DESCRIPTION OF THE CORPORATION'S BUSINESS

During the period of the report, there was no material change compared with that described in the periodic report for 2004.

EVENTS OCCURRING DURING THE PERIOD OF THE REPORT AND THEREAFTER

1. In January 2005, Mr. Gilad Shavit was appointed as Deputy CEO.
2. In February 2005, Mr. Carmel Verania ceased serving as the Chairman of the Board of Directors and CEO of Tower. Mr. Udi Hilman was appointed as acting CEO of Tower.
3. In April 2005, Mr. Russel Ellwanger, was appointed as CEO of Tower and Mr. Udi Hilman serves as the acting Chairman of the Board of Directors of Tower.
4. In February 2005, Mr. Udi Angel ceased serving as the Chairman of the Board of Directors of ZIM and in his place Mr. Idan Ofer was appointed.
5. On April 14, 2005, the Corporation distributed a dividend in the amount of NIS 220 million.
6. Pursuant to a collective agreement signed in 1978 with employees of Dead Sea Works Ltd. (DSW), an early retirement arrangement was determined for DSW employees. As a result of a judgment handed down by the National Labor Court regarding this matter, the said early retirement arrangement was cancelled, the DSW's Employees' Committee held discussions, and as a result an agreement is being formulated according to which DSW employees will be entitled to take early retirement, under certain conditions, beginning from age 60. As at the date of the report, a final agreement had not yet been signed.

7. Montreal Protocol

Under the accord known as the "Montreal Protocol", to which Israel is a signatory (and which was adopted as part of Israel's local legislation), the manufacture and consumption of methyl bromide for soil fumigation in developed countries will gradually be reduced to zero by the year 2005, except for "critical uses" approved by the parties to the accord from time to time. The quantities approved for production and sale in 2005 are similar to those approved for 2003 and 2004 except in western Europe, where the member countries decided voluntarily to reduce quantities to about 65% compared with 2004. The effect of this decrease in Europe on the products of ICL Industrial Products is not material.

During 2005, "critical uses" will be discussed in relation to 2006 and 2007. Sales in the first quarter of 2005 of agricultural products that will be banned if not approved for critical uses in the future, amounted to approximately \$ 4.1 million, with an operating income in respect of those sales of about \$ 1.3 million.

The limit on the quantity of methyl bromide that can be sold to developing countries for soil fumigation will remain in effect until 2015, after which the quantity will be reduced to zero, subject to critical uses as approved by the parties to the accord from time to time. Methyl bromide has other uses apart from soil fumigation, for which production and consumption quantities are unlimited, such as pre-shipment and quarantine treatment, as a raw material or intermediate material for the manufacture of another material or product (feedstock), and is also in recycling and re-use. These uses are not within the purview of the Montreal Protocol.

ICL Industrial Products intends to remain in the soil fumigation field even after the ban on use of methyl bromide for that purpose. Accordingly, in recent years it has been investing efforts in the development and marketing of substitute and complementary products for methyl bromide in this important market.

Total sales of agricultural products in the first quarter of 2005 for uses which are not restricted under the Montreal Protocol and to developing countries, were about \$ 7.5 million, with an operating income in respect of those sales amounting to about \$ 2.1 million.

8. Regarding investment arrangements in Tower, subsequent to the balance sheet date, see Section on Tower above.
9. In May 2005, the corporation was included in the Maala Community Index and was ranked fifth.
10. In May 2005, the Corporation's Board of Directors approved extending for an unlimited period of time the agreement under which the Corporation receives management services from the Corporation's CEO, by means of a wholly owned company of the CEO. It was also provided that each party has the right to end the agreement with an advance of six months.

ADDITIONAL INFORMATION INCLUDED IN THE AUDITORS ' REVIEW REPORT TO THE SHAREHOLDERS

The following is a quotation from the review report of the Auditors:

"We direct attention to that stated in Note 4 to the financial statements, regarding the petition submitted to the Supreme Court sitting as the High Court of Justice relating to the arrangement between Oil Refineries Ltd. (hereinafter – "ORL") and the Government of Israel and the Corporation, in connection with the period after the end of the concession period (October 18, 2003), regarding the Government's decision to sell ORL's oil refinery in Ashdod and regarding ORL's assessments with respect to the material impacts, which cannot be estimated at this stage, of the aforementioned matters on its financial position."

The Corporation's Board of Directors expresses its appreciation to the employees and officers of the Corporation and of the Group companies, in Israel and overseas, for their devoted service and contribution to the advancement of the Group's operations.

Idan Ofer
Chairman of the Board of Directors

Yossi Rosen
Chief Executive Officer

May 30, 2005

**The Board of Directors
Israel Corporation Limited**

Dear Sirs:

**Review of the unaudited interim consolidated financial statements
as at March 31, 2005**

At your request, we have reviewed the interim consolidated balance sheet of Israel Corporation Ltd. as at March 31, 2005, and the related consolidated statement of earnings, the statement of changes shareholders' equity and the consolidated statement of cash flows for the three-month period then ended.

Our review was conducted in accordance with procedures prescribed by the Institute of Certified Public Accountants in Israel and included, inter alia, reading the said financial statements, reading the minutes of the Shareholders' Meetings and of the meetings of the Board of Directors and its committees, as well as making inquiries of persons responsible for financial and accounting matters.

We received review reports of other auditors, regarding the interim financial statements of certain subsidiaries, whose assets constitute 25.5% of the total consolidated assets as at March 31, 2005 and whose revenues constitute 20.7% of the total consolidated revenues for the three-month period then ended. Furthermore, we received reports of other auditors of affiliated companies, the investment in which, as at March 31, 2005, is approximately NIS 746 million and the Corporation's equity in their earnings is NIS 4 million for the three-month period ended on that date.

Since the review performed was limited in scope and does not constitute an audit in accordance with generally accepted auditing standards, we do not express an opinion on the said interim consolidated financial statements.

In the course of our review, including the reading of the review reports of other auditors as stated above, nothing came to our attention which would indicate the necessity of making material modifications to the interim consolidated financial statements referred to above, in order for them to be in conformity with generally accepted accounting principles and in accordance with Section D of the Securities Regulations (Periodic and Immediate Reports), 1970.

We direct attention to that stated in Note 4 to the financial statements, regarding the petition submitted to the Supreme Court sitting as the High Court of Justice relating to the arrangement between Oil Refineries Ltd. (hereinafter – "ORL") and the Government of Israel and the Corporation, in connection with the period after the end of the concession period (October 18, 2003), regarding the Government's decision to sell ORL's oil refinery in Ashdod and regarding ORL's assessments with respect to the material impacts, which cannot be estimated at this stage, of the aforementioned matters on its financial position.

Sincerely,

Somekh Chaikin
Certified Public Accountants (Isr.)

Notes to the Financial Statements

Note 1 - Reporting Principles and Accounting Policies

A. General

1. These interim financial statements have been prepared in accordance with generally accepted accounting principles applicable to the preparation of interim period financial statements in accordance with Standard No. 14 of the Israeli Accounting Standards Board and in accordance with the provisions of Section D of the Securities Regulations (Immediate and Periodic Reports), 1970.
2. The significant accounting policies applied in the preparation of these financial statements are consistent with those applied in the financial statements as at December 31, 2004.
3. These financial statements have been prepared in a condensed format as at March 31, 2005 and for the three-month period then ended. The financial statements should be read in conjunction with the annual financial statements as at December 31, 2004 and for the year then ended and the related notes.

B. First time application of accounting standard No. 19 "Taxes on Income"

In July 2004, the Israeli Accounting Standards Board published Accounting Standard No. 19, "Taxes on Income". The Standard provides that a liability for deferred taxes is to be recorded for all temporary differences subject to tax, except for a limited number of exceptions. In addition, a deferred tax asset is to be recorded for all temporary differences that may be deducted, losses for tax purposes and tax benefits not yet utilized, if it is anticipated that there will be taxable income against which they can be offset, except for a limited number of exceptions. The new Standard applies to financial statements for periods beginning on January 1, 2005. The Standard provides that it is to be implemented by means of a cumulative effect of a change in accounting method. The impact of the first-time application of the Standard on the Corporation's results of operations, financial position and cash flows is not material.

Note 2 - Rates of Changes in the Consumer Price Index and the Dollar Exchange Rate

Presented below is the rate of change in the Consumer Price Index and the representative rate of exchange of the U.S. dollar in the reported periods:

	CPI	Representative exchange rate of the U.S. \$
	%	%
During the three-month period ended March 31, 2005	(0.60)	1.23
During the three-month period ended March 31, 2004	(0.10)	3.40
During the year ended December 31, 2004	1.21	(1.62)

Notes to the Financial Statements

Note 3 - Investments and Supplementary Information**A. Tower Semiconductor Ltd. (hereinafter – Tower)**

1. Pursuant to the credit agreement with the banks, Tower is required to comply with certain conditions and financial covenants (hereinafter – “the Financial Covenants”).

In January 2005, Tower and the lending banks signed a letter of waiver in accordance with which the banks waived Tower’s non-compliance with some of the Financial Covenants in the fourth quarter of 2004. In addition, the waiver letter signed also includes an update of the Financial Covenants that Tower must comply with during 2005.

As at March 31, 2005, Tower was in compliance with all the Financial Covenants required in the framework of the updated credit agreement with the banks. Tower’s Management estimates, at this stage, that it is possible that Tower will not comply with some of the Financial Covenants beginning with the third quarter of 2005. Nonetheless, Tower’s Management believes that due to the signing of the letter of intent referred to below, it is probable that satisfactory arrangements will be reached with the banks in connection with the Financial Covenants for the said periods. Pursuant to the credit agreement, compliance with the Financial Covenants is a material condition.

In light of Tower’s continuing losses, negative cash flows from operating activities and anticipated cash deficiency, Tower is endeavoring to obtain the financing necessary for its continuing operations in the short run, and is also taking steps to reduce its current liabilities and to cutback costs, including by streamlining its workforce. Tower, some of its shareholders and the lending banks, are conducting discussions for purposes of obtaining additional financing for Tower in the amount of \$60 million. Accordingly, in May 2005, Tower and the banks signed a letter of intent pursuant to which the banks will provide Tower with financing of up to \$30 million subject to a similar amount being raised by Tower from investors.

As at the signing date of the financial statements, certain of its shareholders gave notice of their intention to invest \$23.5 million as part of the arrangement referred to above, of which \$20 million is to be invested by the Corporation. The letter of intent is subject to reaching an amendment of the lending agreements with the banks. Execution of the amendment is subject to, among other things, all the internal approvals of the banks, including approval of their boards of directors. Tower’s management believes that it is probable that the letter of intent will ripen into an amendment of the lending agreements and that the certain shareholders will invest the aforementioned amounts.

In accordance with the credit agreement with the banks, if as the result of any violation of the agreement the banks choose to accelerate Tower’s obligations, Tower will be obligated, among other things, to immediately repay all of the loans it received from the banks (which at the balance sheet date amounted to \$497 million) and the banks will be permitted to realize the remedies available to them in the credit agreement, including realization of the liens recorded on Tower’s assets.

2. Pursuant to the original approval from the Investments Center, Tower was supposed to complete the investment in FAB2 by December 31, 2005. Tower is holding discussions with the Investments Center for purposes of receiving an extension of the period beyond December 31, 2005. Since the examination process is in only the initial stages, Tower’s Management is unable to estimate the chances that the approval will be received as stated.

Notes to the Financial Statements

Note 3 - Investments and Supplementary Information (cont'd)**A. Tower Semiconductor Ltd. (hereinafter – Tower) (cont'd)**

3. In the period of the report, the Group included its share of Tower's losses in the amount of NIS 52 million and at the same time, it reduced the provision for decline in value of the investment in Tower (which was recorded in 2004) by NIS 48 million.

B. In the period of the report, ZIM sold three ships, for a consideration of \$111 million. The ships were leased to ZIM by means of a bare boat lease for a period of five to six years. The after-tax capital gain realized by ZIM totals \$31 million, and Israel Corporation's share of the gain is approximately NIS 135 million.

C. In the period of the report, the amount of the Corporation's investment in Oil Refineries Ltd. (hereinafter – "ORL") based on the equity method of accounting increased above the exercise price of the option. The exercise price of the option derives from the Corporation's notification to the Government on August 4, 2003, according to which, the Corporation decided, by virtue of the provisions of Appendix C of the Arrangement, to exercise the option to sell all its shares of ORL at a price constituting an average between the two overall valuations of ORL, subject to certain adjustments (see also Effect of External and Other Factors).

Pursuant to the above, the Corporation set its investment in ORL at the exercise price of the option, in the amount of NIS 607 million, which is NIS 202 million less than the amount of the investment based on the equity method of accounting.

D. On March 28, 2005, the Corporation's Board of Directors approved a compensation plan for employees and officers by means of an issuance of shares (hereinafter – "the Plan"). Pursuant to the Plan, 1,863 shares were issued to the CEO and 2,428 shares were issued to employees and officers of the Corporation and of its subsidiaries. In accordance with an approval of the Assessing Officer, issuance of the shares pursuant to the Plan is subject to the provisions of Section 102 of the Income Tax Ordinance, under the ordinary income track of issuance of shares by means of a trustee. The shares will be restricted in the hands of the trustee until December 31, 2006.

E. Subsequent to the balance sheet date, in May 2005, an affiliated company, Oren Semiconductor Inc. (hereinafter – "Oren") signed an agreement with Zoran Corporation (hereinafter – "Zoran") pursuant to which Zoran will acquire all of Oren's shares from its shareholders.

The value of the consideration to be received by the Group in cash and in shares of Zoran will amount to \$11 million. The after-tax capital gain is expected to come to \$8 million. Execution of the transaction is subject to certain approvals.

Notes to the Financial Statements

Note 3 - Investments and Supplementary Information (cont'd)

- F.** Subsequent to the balance sheet date, on May 15, 2005, the Corporation's Board of Directors decided that the Corporation will issue to H.L. Management and Consultants (1986) Ltd. a wholly owned subsidiary of the Corporation (hereinafter – "Management and Consultants") 70,300 shares, which will be used by Management and Consultants in the framework of a new plan it adopted on that date for compensating its employees and officers (hereinafter – "the Plan"). Pursuant to the Plan, Management and Consultants will issue options to employees and officers for acquisition of the Corporation's shares, which will be issued as stated to Management and Consultants. According to the Plan, the Corporation's CEO, who also serves as the CEO of Management and Consultants, will be issued 20,000 options while the balance of 50,300 options will be issued to employees and officers of Management and Consultants.

The securities to be issued to Management and Consultants are ordinary shares of NIS 1 par value of the Corporation. The options offered to the offerees are not marketable and for each such option the offeree will be entitled to acquire from Management and Consultants one ordinary share of NIS 1 par value of the Corporation subject to the terms of the Plan.

Entitlement to receive options will vest in three increments: one-third on the second business day after advance approval by the Assessing Officer, an additional one-third on December 31, 2005 and the balance on December 31, 2006.

The exercise price of each option is the equivalent of NIS 880 (which is equal to the average stock market price of a Corporation share during the 30 trading days preceding December 31, 2004, less a dividend distributed in the beginning of 2005), plus linkage differences to the CPI beginning the index for November 2004 and up to the date of exercise.

The options included in the first increment will be exercisable commencing December 31, 2007 and up to December 31, 2009; the options included in the second increment will be exercisable commencing December 31, 2008 and up to December 31, 2010; and the options included in the third increment will be exercisable commencing December 31, 2009 and up to December 31, 2011.

In addition, rules were provided for a case of termination of the service or employment of the offerees.

On the exercise date of the options, the offerees will be entitled to that quantity of shares determined based on the value of the benefit.

The economic value of an option computed based on the Black and Scholes formula is NIS 429.21 for the first increment, NIS 443.79 for the second increment and NIS 457.96 for the third increment.

- G.** During the period of the report, NIS 94 million par value of convertible debentures were converted and in consideration thereof 134,364 of the Corporation's ordinary shares were issued. Subsequent to the balance sheet date, NIS 60 million par value of convertible debentures were converted and in consideration thereof 85,967 of the Corporation's ordinary shares were issued.

During the period of the report, 169,419 options were exercised for 169,201 of the Corporation's ordinary shares for a consideration of NIS 118 million, and subsequent to the balance sheet date, 1,596 options were exercised for 1,596 of the Corporation's ordinary shares for a consideration of NIS 1 million.

Notes to the Financial Statements

Note 3 - Investments and Supplementary Information (cont'd)

- H.** Pursuant to a collective agreement signed in 1978 with employees of Dead Sea Works Ltd. (DSW), an early retirement arrangement was determined for DSW employees. As a result of a judgment handed down by the National Labor Court regarding this matter, the said early retirement arrangement was cancelled, the DSW's Employees' Committee held discussions, and as a result an agreement is being formulated according to which DSW employees will be entitled to take early retirement, under certain conditions, beginning from age 60. As at the date of the report, a final agreement had not yet been signed.
- I.** In May 2005, the Corporation's Board of Directors approved extending for an unlimited period of time the agreement under which the Corporation receives management services from the Corporation's CEO, by means of a wholly owned company of the CEO. It was also provided that each party has the right to end the agreement with an advance of six months.

Note 4 - Concessions**Oil Refineries Ltd.**

ORL operates in accordance with a concession it received to construct, operate and maintain facilities and auxiliary plants for purposes of refining mineral oils. The concession received the force of law pursuant to the Anglo-Iranian Oil Treaties Ordinance from 1938. The concession ended in October 2003.

On December 2, 2002, an arrangement was signed between ORL, the Government and Israel Corporation in connection with all that involved with the period after expiration of the concession. Based on the arrangement, upon expiration of the concession period (October 18, 2003), all of ORL's rights deriving from the concession will terminate, and an arrangement will enter into effect according to which, subject to the conditions of the arrangement, the highlights of which are detailed below, ORL shall be permitted to continue to hold the assets it held on the eve of expiration of the concession (hereinafter – "the Assets"). The arrangement was made for 25 years, commencing October 18, 2003 (hereinafter – "the First Period"). ORL – or if it is split up into two separate refineries, each of the separate refineries – was granted an option to continue the aforesaid period for an additional 25 years, provided it notifies the Government no later than two years before the end of the First Period.

The arrangement provides that each side reserves the right to petition the court for clarification of the disagreement regarding the question whether or not all of ORL's assets return, by virtue of the historical concession, to the ownership of the Government without consideration, however in any case, any decision made regarding this matter will be implemented only at the end of the arrangement period (25 years or 50 years, as the case may be). If a final court decision is rendered, each side will be permitted to implement its provisions regarding recording of the rights in the Assets, provided such registration will not adversely affect the validity of the remainder of the arrangement's provisions and ORL's right to pledge the Assets in the ordinary course of its business, subject to the provisions of the arrangement.

The arrangement conveyed to the State the right to record a caveat on the arrangement's content, on all the real estate assets, and to remove the caveat as stated at any time. Subject to these provisions, no change shall be made to the recording of the Assets. During the arrangement period, ORL is permitted to execute transactions in the Assets in the regular course of business, and the decision in a disagreement with respect to the Assets shall apply to the proceeds from transactions as stated as well as to assets which ORL shall acquire in the future. A transaction in the Assets, except for a lien in the regular course of business, which does not exceed the period of the arrangement, requires approval of the Accountant General, who shall act in this matter in accordance with the Government's Decision No. 2796, dated November 25, 2002.

Notes to the Financial Statements

Note 4 - Concessions (cont'd)**Oil Refineries Ltd. (cont'd)**

The Government and ORL recorded caveats on the real estate that is the subject of the arrangement.

During the arrangement period, ORL shall pay to the Government annual permit fees in a fixed amount of \$3 million plus additional annual amounts which are dependent on ORL's earnings, as follows: 8% of the annual earnings before taxes and permit fees, in the range of \$0–\$40 million; plus, 10% of the annual earnings before taxes and permit fees, in the range of \$40–\$70 million; plus, 12% of the annual earnings before taxes and permit fees, in the range of \$70–\$90 million. In any case, the amounts paid to the Government as permit fees shall not exceed (including the fixed payment) the amount of \$11.6 million. All the amounts shall be translated into shekels in accordance with an exchange rate of \$1 = NIS 4.80, and linked to the CPI (base index of May 2002).

The "annual earnings before taxes" will be defined and measured based on annual, audited consolidated financial statements, and will include ORL's share in earnings or losses of subsidiary and affiliated companies having separate activities as well as capital gains and losses, however will not include gains and losses from activities through companies operating overseas or sale of the holdings in companies operating overseas.

Upon expiration of the original concession and in accordance with the arrangement, ORL began paying license fees under the arrangement. ORL recorded a provision in the amount of NIS 14 million in respect of the first quarter of 2005.

The Accountant General in the Ministry of Finance notified ORL that the amount it paid was deposited in a separate account, so long as the conditions precedent stipulated in the arrangement were, in his opinion, not fulfilled. ORL responded to the Accountant General that the agreement was signed in the name of the Government after all the required approvals had been received by the parties authorized on behalf of the Government to sign it, and after it was signed, approvals of the Board of Directors of ORL and the Board of Directors of Israel Corporation were also received, and that upon the receipt thereof the agreement entered into effect. Therefore, the amount paid to the Government by ORL was properly paid pursuant to a valid agreement.

In the arrangement, the Government committed that if and to the extent possible, it will assist ORL in the transition, without interferences, from the concession period to the arrangement period (recognition of the existing construction, orderly licensing and construction processes, establishment of an industrial council).

Pursuant to the agreement, upon expiration of ORL's rights under the concession, ORL will be subject – commencing from the date of the arrangement (October 18, 2003) and thereafter – to the construction and planning laws and additional local laws, in connection with the Haifa oil refinery. During 2002, the Manager of the Ministry of the Interior appointed an investigation committee for the boundaries of the Municipality of Haifa, Nesher and Kiryat Ata, Zvulun and the area of the oil refineries. During 2003, the Committee published its recommendations, pursuant to which the aforesaid area will be annexed to the Municipality of Haifa; the area will be administered by means of a joint governing body of the four local authorities bordering on the area, representatives of the factories operating therein, representatives of the public and representatives of Government ministries. The Committee also recommends that the governing body should handle all matters involved with running the area as an industrial area, similar to the definitions of a local industrial council in the Local Council Ordinance. The Committee further

Notes to the Financial Statements

Note 4 - Concessions (cont'd)**Oil Refineries Ltd. (cont'd)**

recommended that determination of the initial Municipal Tax levy shall be with the approval of the Minister of the Interior and it shall be imposed gradually (a discount shall be given which will be reduced from year to year over a 3–5 year period). The Minister of the Interior gave notice that he intends to accept the Committee's recommendations. ORL filed a petition with the Supreme Court sitting as the High Court of Justice against this decision of the Minister of the Interior and requested interim orders that will prevent the taking of any action that is intended to implement or advance implementation of the Committee's recommendations. The State, for its part, requested an extension of time to submit its position regarding the petition and the interim orders, of up to 45 days after entry of the new Minister of the Interior into his position, in order to allow him time to study the subject matter of the petition. Up to the publication date of the report, the State's response has not yet been submitted. Upon inclusion of lands belonging to ORL within the boundaries of any local authority, it is expected that ORL will begin paying Municipal Tax for the Haifa refinery as well. In the period of the report, ORL received a charge for Municipal Tax relating to part of 2004 and 2005. Pursuant to a legal opinion received by ORL, as at the signing date of the financial statements ORL was not subject to an obligation to pay Municipal Tax in accordance with the charge notification it received. In 2003, ORL prepared and submitted a site plan for the Haifa refinery site.

ORL declared in the agreement that it is aware that the Government intends to initiate legislation that will govern the fuel industry, including regulation, which could affect the arrangement, even though there is no intention to affect the aspects of the arrangement that involve the Assets and the permit fees.

In addition, ORL declared that it is aware that the Government and Israel Corporation agree to act regarding the matter of the split-up of ORL as detailed in the appendix to the agreement, which was signed between them and which constituted an integral part of the arrangement between the Government and Israel Corporation (regarding this appendix, see the expanded discussion below).

On June 4, 2003, a petition was filed with the Supreme Court sitting as the High Court of Justice by the Israeli Society for Proper Government (hereinafter – “the Petitioner”), for the issuance of conditional and interim orders, which will direct the Prime Minister, the Minister of Finance, the Minister of National Infrastructures, the Director of the Government Companies Authority, ORL, Israel Corporation and others, to provide reasons why they should not be prevented from acting in accordance with the arrangement and/or why they do not act to cancel the arrangement. The Petitioner's main reasons are that the arrangement negatively impacts the principle of equality and equitable allocation, and it circumvents the tender laws by granting private parties a concession to use Government assets in a process having – based on the Petitioner's contention – various deficiencies. The Court refused to grant the Petitioner's request for interim orders that will prevent realization of the arrangement up to the time of the decision on the petition.

Israel Corporation submitted its response to the petition, in the framework of which it expressed its position that there is no basis for the petition. ORL, in its response, objected to the petition and its reasoning and supported implementation of the arrangement.

The Petitioner once again submitted a request for interim orders which would prevent the Government from: taking steps to obtain an exemption from a tender for the arrangement, acquire or sell rights and/or shares of Israel Corporation in ORL and to prepare a new agreement or revisions to the arrangement.

Notes to the Financial Statements

Note 4 - Concessions (cont'd)**Oil Refineries Ltd. (cont'd)**

On January 19, 2004, the Supreme Court, at the invitation of all the parties to the proceeding, including the Corporation, decided, among other things, that “the respondents are permitted to continue negotiations among themselves to change the conditions of the agreement which is being attacked by the petition and even to sign a new agreement, provided that up to the time the matter is brought before the Court for the second time no irreversible actions shall be taken and that the present situation shall continue”.

On March 28, 2004, May 5, 2004 and July 12, 2004, the Government requested and received additional extensions from the Court for provision of its position regarding the petition.

On August 9, 2004, the Government submitted a notice to the Court wherein was stated, among other things, that on July 29, 2004, the Ministerial Committee for Society and Economic Matters (Social and Economic Cabinet) made a decision determining the manner in which the split up of ORL and its privatization are to be executed, which imposes on the Accountant General the responsibility to amend “Appendix C of the Agreement”, in accordance with the principles detailed in the decision (for the sake of good order it is noted that the “Agreement” is the arrangement signed on December 2, 2002, between Israel Corporation and ORL and the Government, as detailed at the beginning of this note, whereas “Appendix C of the Agreement” was signed between Israel Corporation and the Government relating to the relationship between the shareholders of ORL) (for detail regarding the decision, see below).

The Petitioner received permission from the Court and, on November 14, 2004, it submitted an amended petition based on, among other things, the State’s aforesaid notification.

The responses of the respondents to the petition have not yet been submitted. The petition has been set for a hearing in the Supreme Court on June 29, 2005. Prior to this date, all the parties to the petition are expected to submit their responses and replies to the Court.

In Appendix C to the arrangement, dated December 2, 2002, regarding the matter of ORL’s concession, an appendix which as noted was signed by the Government and Israel Corporation, Israel Corporation committed to cooperate to the extent required by the Government, for purposes of split-up of ORL into two separate refineries (Haifa and Ashdod). A mechanism was also determined for performance of valuations as well as a mechanism regarding for sale of Israel Corporation’s shares in ORL or, in the case of a split-up of ORL, optional acquisition by Israel Corporation of one of the split-up two refineries. In this case, Israel Corporation will pay to the Government or receive therefrom, the difference between the relative value of Israel Corporation’s share in ORL (26%) and the value of the split-up refinery that it shall choose, based on the valuations performed pursuant to the arrangement.

The arrangement provides that if ORL is split into two separate refineries, each of the split-up refineries shall pay concession fees to the Government based on the internal allocation and the brackets, in accordance with a determination to be made in the framework of the split-up arrangements, provided that the total concession fees received by the Government from the two refineries is not more than or less than the amount that the Government would have received from ORL if the split-up had not taken place.

In June 2003, the two aggregate valuations were submitted. One from an appraiser on behalf of Israel Corporation, pursuant to which the total value of ORL is NIS 2,234 million, and the other from an appraiser on behalf of the Government, pursuant to which the total value of ORL is NIS 2,143 million.

Notes to the Financial Statements

Note 4 - Concessions (cont'd)**Oil Refineries Ltd. (cont'd)**

On August 4, 2003, Israel Corporation notified the Government that in light of the fact that the negotiations with the Government regarding participation of Israel Corporation in the split-up have not been completed, and due to the dates provided in the Appendix to the arrangement, it has decided not to exercise the option it was granted in Appendix C to the arrangement, to participate in the split-up of ORL into two separate refineries and, therefore, the provisions of Section 4 of that Appendix shall apply, according to which Israel Corporation shall sell to the Government or to a party which the Government shall instruct, all ORL shares owned by Israel Corporation, within 30 days, at a price which constitutes an average between the two aggregate valuations of ORL, this being subject to certain monetary adjustments.

Nonetheless, Israel Corporation is prepared to continue the negotiations with the Government regarding its participation in the split-up.

The Government is permitted to instruct that the execution date of the sale transaction shall be postponed for an additional period that shall not exceed two years from June 6, 2003.

As a result of the recommendations of the inter-office team appointed by the Government, the Committee of Ministers for Social and Economic Matters made the following decision on July 29, 2004 (hereinafter – “Committee of Ministers’ Decision Dated July 29, 2004”): “Further to Government Decisions No. 126, dated August 22, 1999, No. 2796, dated November 25, 2002, and No. 787, dated September 15, 2003, the decision of the Committee of Ministers for Privatization Matters MH/2, dated October 20, 1999, the agreement signed between the Government and Israel Corporation Ltd. (hereinafter – “Israel Corporation”) and Oil Refineries Ltd. (hereinafter – “ORL”) dated December 2, 2002, which has not yet received all the required approvals (hereinafter – “the Agreement”), as follows:

1. To execute the split-up and privatization of the refineries during the years 2004–2005, in accordance with the outline detailed below:
 - 1.1 In the first stage, the refinery in Ashdod will be sold as activities, or in a private sale as a subsidiary or a separate company with an ownership structure identical to the ownership of ORL, and immediately thereafter a public issuance of ORL will be made.
 - 1.2 The refinery in Ashdod will be sold as a “going concern”. In the framework of the process of sale of the refinery in Ashdod the purchaser will undertake to operate the refinery for a period of not less than 10 years from the acquisition date.
 - 1.3 If necessary, principles for reciprocal relationships will be formulated during the split-up process that will apply between the refineries, including with respect to sale of intermediate products and feedstock materials between them, and between them and the petrochemicals industry.

Notes to the Financial Statements

Note 4 - Concessions (cont'd)**Oil Refineries Ltd. (cont'd)**

2. To impose on the Accountant General in the Ministry of Finance the responsibility of amending Appendix C to the Agreement in the framework of a new agreement with Israel Corporation, which will be approved in accordance with Section 16 of the Agreement, such that Sections 3, 4, and 5 of Appendix C to the Agreement will be amended and superseded pursuant to the principles attached as Appendix A to the Government's decision, and the rest of the Sections will remain unchanged, all of this up to October 15, 2004. In the framework of amendment of Appendix C, the following principles, among others, will be expressed:
 - 2.1 Israel Corporation will sell together with the Government all the holdings of the refineries.
 - 2.2 The accountings with Israel Corporation shall be made after completion of privatization of ORL, as will be detailed in the new agreement that amends Appendix C to the Agreement.
 - 2.3 The consideration the Corporation is to receive for its holdings in ORL will be between NIS 480 million and NIS 570 million. The amounts will bear interest and linkage differences up to December 31, 2003, and from this date the consideration will be linked to the rate of return on ORL's capital. The consideration is subject to certain adjustments.
3. To impose on the Supervisor of the Government Companies Authority to submit to the Ministerial Committee for Privatization, no later than October 15, 2004, a proposal for split-up and privatization of the refineries on the basis of the outline as stated in Section 1, above. The process of split-up and sale of the refineries will be conducted and executed by the Government Companies Authority as is customary, including by means of mechanisms it determines for purposes of execution of the split-up and advancement of the privatization. In addition, provisions and limitations were determined in the privatization decision regarding ownership of the split-up refineries, among other things, as detailed in notification of the Supervisor of Restrictive Business Practices, as stated in Section 5, below. Commencing from the date that will be determined in the privatization decision, ORL will move to operating based on a separate optimization model for the two refineries, as will be detailed therein.
4. In the framework of the split-up and privatization process, issues relating to ORL employees will be handled, and to the extent necessary this will be reflected in the privatization decision.
5. To record the notification of the Supervisor of Restrictive Business Practices regarding his position with respect to matters within the scope of his responsibility in the area of regulation of the fuel industry, which are attached as Appendix B to the Government's decision. In addition, to record the notification of the Minister of National Infrastructures regarding his intention to enact the Fuel Industry Law, which will deal with, among other things, arrangement of the regulation in various sectors of the fuel industry.

Notes to the Financial Statements

Note 4 - Concessions (cont'd)

Oil Refineries Ltd. (cont'd)

6. To impose on the Minister of Finance and the Minister of National Infrastructures to amend the Order for Supervision of Prices of Goods and Services, 1992, no later than October 15, 2004, in such a manner that after the split-up and privatization of the refinery in Ashdod, the supervision of refined oil products at the refinery gate will be removed, except for supervision of the prices of refined oil products where more than 50% of their total consumption in the local market is sold by one of the refineries and, at the same time, less than 15% of their total consumption in the local market is sold by the other refinery. After removal of the supervision as stated, re-imposition of supervision of the price of any refined oil product at the refinery gate will be examined in light of the competitive conditions existing in the refining sector in the fuel industry, and in accordance with all law.
7. After sale of the refinery in Ashdod, in principle there is nothing preventing operating of a refinery in the area of production of electricity and desalination of water, in accordance with and subject to all law.
8. If Israel Corporation does not agree with the principles stated in Section 2 – to cancel the agreement, and to take unilateral steps available to the Government in connection with split-up and privatization, among other things in light of the Government's position regarding ownership of ownership of ORL's in the area of the concession.

Regarding this matter, see above also the report regarding the petition filed against the agreement dated December 2, 2002.

On December 26, 2004, the Committee of Ministers for Privatization Matters made a privatization decision relating to ORL (hereinafter – “the Privatization Decision”). The Privatization Decision provided, among other things:

“Further to Government Decision No. 126, dated August 22, 1999, the decision of the Committee of Ministers for Privatization Matters MH/2, dated October 20, 1999, the Government's Decision No. 2796, dated November 25, 2002, the agreement signed between the Government and Oil Refineries Ltd. (hereinafter – “ORL”) and Israel Corporation Ltd. (hereinafter – “Israel Corporation”) dated December 2, 2002, including Appendix C thereof (which is to be amended in accordance with and subject to the decision of the Social and Economic Cabinet) subject to receipt of all the required approvals (hereinafter – “the Agreement”), to the Government's Decision No. 787, dated September 15, 2003, the decision of the Ministerial Committee for Society and Economic Matters (Social and Economic Cabinet) No. HC/107 dated July 29, 2004 (hereinafter, above and below – “the Social and Economic Cabinet's Decision”) – to privatize ORL as detailed below:

1. Split-Up

ORL shall be split into two companies, such that a subsidiary of ORL shall be established that will be called “ORL Subsidiary – Ashdod Ltd.”, in accordance with the conditions detailed in the document attached as Appendix A to this Decision (hereinafter – “ORL Ashdod”), in such a manner that agreements will be signed pursuant to which assets, rights, employees and liabilities as will be decided, which relate to the activities of the oil refinery in Ashdod and as will be determined in accordance with Section 12(D), shall be transferred to ORL Ashdod (hereinafter – “the Split-Up”).

Notes to the Financial Statements

Note 4 - Concessions (cont'd)**Oil Refineries Ltd. (cont'd)**

The above-mentioned agreements shall not be executed and assets, rights, liabilities and employees relating to the activities of the oil refinery in Ashdod shall not be transferred except subject to and on the date of conclusion of the sale of ORL Ashdod as detailed below.

2. Sale of ORL Ashdod

2.1 After execution of the Split-Up, all the shares of ORL Ashdod, including the share held by the State, shall be sold in a private sale, as a single unit, to an investor and/or group of investors from Israel and/or from overseas (hereinafter – “the Private Sale”).

2.2 The Private Sale shall be executed on, among others, the following conditions:

A. The government companies (as will be defined in the sale procedure) shall not be permitted to participate in the Private Sale Procedure, directly or indirectly, alone or together with others, all as will be determined in the Private Sale Procedure.

B. The purchaser of ORL Ashdod shall declare that it acquires ORL Ashdod as a “going concern” and shall undertake to act based on its holdings in ORL Ashdod such that the activities of ORL Ashdod shall continue for a period of at least ten years from the sale date.

C. The sale process shall be administered by the Government Companies Authority (hereinafter – “the Authority”), as is customary in other private sale processes of State shares in government companies conducted by the Authority, and shall be executed by ORL and the Authority, in accordance with principles to be determined by the Authority and with its approval, based on, among other things, valuations on behalf of the Authority.

3. Sale of ORL

3.1 After completion of privatization of ORL Ashdod pursuant to Section 2, above, and prior to the issuance as described in Section 3.2, below, the Authority shall report to the Committee of Ministers with respect to the progress of the privatization process.

3.2 Immediately after completion of the privatization of ORL Ashdod pursuant to Section 2, above, all of the State’s holdings in ORL and all of the Israel Corporation’s holdings in ORL shall be sold, by means of a tender/tenders to the public, separately or together with fundraisings for ORL, through the issuance of securities to the public pursuant to a prospectus on the Tel-Aviv Stock Exchange (hereinafter – “the Issuances”) and/or through a private sale of packages of shares in and outside of Israel. The Issuances shall be made in the scope, allocation, and on the dates to be determined by the Authority based on, among other things, the situation in the capital market.

3.3 The Issuances shall include shares and/or convertible securities, as will be determined by the Authority.

Notes to the Financial Statements

Note 4 - Concessions (cont'd)**Oil Refineries Ltd. (cont'd)**

- 3.4 The Committee of Ministers provides that, under the circumstances of the matter, application of separate processes for handling a request to allow publication of a prospectus in accordance with Section 12(D)(1) of the Securities Law, 1968, is important to advancement of privatization of ORL.
- 3.5 The process of sale of ORL as stated above conducted by the Authority, based on, among other things, valuations on behalf of the Authority.”

The Decision also set forth provisions in connection ORL employees in the Privatization Process, the fuel administration and regulation, essential interests of the State and guidelines for the Authority’s activities in execution of the Privatization.

During the period of the report, ORL provided detailed information regarding all aspects of its activities to the Government Corporations Authority, based on the latter’s directives by virtue of its authorities pursuant to the Privatization Decision and under law.

In the assessment of ORL, the privatization process of ORL by means of a split-up, if executed, will have a material impact on ORL, however, at this stage, ORL is not able to estimate and quantify such impact on its financial position and the results of its operations. The Management of Israel Corporation adopts ORL’s evaluation.

Further to the decision of Committee of Ministers dated July 29, 2004, in the framework of which amendment of certain provisions in the original Appendix C to the ORL agreement was requested (which as stated is an appendix that was signed between the Government and Israel Corporation only regarding the matter of the a split-up and privatization of ORL and which covered their legal relationships as shareholders in ORL) and the continued negotiations carried on between Israel Corporation and the Government, Israel Corporation gave notice to the Government on January 1, 2005 (through the Ministry of Finance) that it consents to amendment of the original Appendix C to the ORL agreement based on the principles, as they were determined in the Committee of Ministers’ Decision Dated July 29, 2004 (hereinafter – “the Amended Appendix C”). In this connection, Israel Corporation gave notice in an Immediate Report dated January 10, 2005, that shortly after the signing of the Amended Appendix C it will send out another Immediate Report with respect thereto.

It is noted that the discussions between the Government and the Corporation are still in process and therefore the amended version of appendix C has not yet been signed.

Note 5 - Contingent Liabilities

For details in connection with the contingent liabilities, see Note 19B of the Corporation’s financial statements as at December 31, 2004.
