- National Statistics Bureau of China
- 2. Feb 2011 issue of consensus forecast

# Shifting balance of growth to inland areas in China spurring logistic demand

# Balance of economic growth shifting from the coastal provinces to inland areas

 Major inland cities grew GDP by 15% p.a. in 5 years, compared to 12% for tier-1 cities

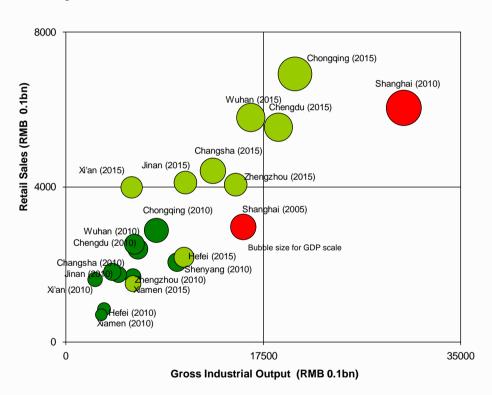

#### Tier-2 cities gaining economic clout

- 2010 GDP of Jiangsu and Shandong equivalent to Australia<sup>1</sup> (17<sup>th</sup> largest in the world)
- 2010 GDP of Henan equivalent to Thailand<sup>1</sup> (24<sup>th</sup> largest in the world)

#### Acceleration of inter-regional logistic activities

- Rising industrial investments in inland areas require efficient distribution of raw materials and finished goods
- Increasing flow of consumer goods between inland and coastal areas to support growing consumption

# **Economy size projection for major inland logistics** hubs by 2015

## Agenda

- Company overview
- > Market
- **Platform**

### Growing the portfolio

#### > Disciplined investment approach

- Enter new sub-markets with ≥ 75% lease ratio
- Start new phase of existing project when lease ratio ≥ 85%
- Hurdle rates of 15 18% in China

#### > Development starts

- FY2011: 1.22m sqm

- FY2012: target 1.66m sqm

#### > Growing the portfolio

- Target to maintain 1.5 2 years worth of development starts in land bank
- Work in partnership with Government & strategic partners to acquire new land sites
- Continue to consolidate and expand our network through acquisitions

# Acquisition of ACL gave GLP exclusivity to airside facilities at 2<sup>nd</sup> largest airport in the world<sup>1</sup>

- Jan 2011: Acquired 53% stake in Airport City Development Co., Ltd, ("ACL")
- ACL holds assets airside of the 2<sup>nd</sup> runway of Beijing Capital International Airport ("BCIA")
  - 17 completed buildings with ~280,000 sqm of NLA
  - 26 pipeline properties with ~ 513,000 sqm of NLA

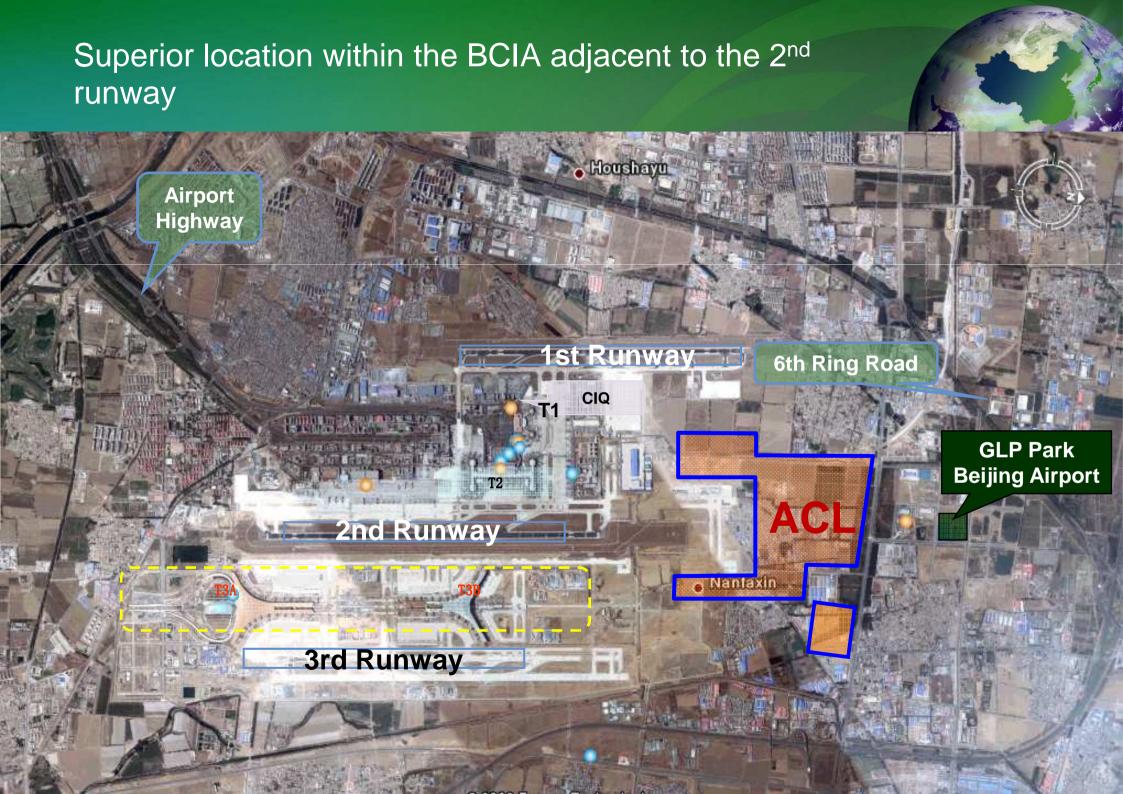

#### Unique location within the BCIA and Tianzhu Free Trade Zone

- Direct connection to the 2<sup>nd</sup> runway of the BCIA
- High accessibility by road with direct access to Beijing downtown, Tianjin port, Shijiazhuang, Shenyang etc.

#### > Solidify market leadership

- Sole developer in the BCIA airside cargo handling area and bonded logistics area
- Limited land supply in the Beijing Logistics Park
- Only other participant with airside cargo terminal Global Logistic handler is Air China, which is for self use

# Strategic acquisition gave GLP influence over the 2<sup>nd</sup> largest provider of modern logistics facility in China

Dec 2010: Acquired 19.9% stake in Shenzhen Chiwan Petroleum Supply Base Co., Ltd. which controls BLOGIS, a modern logistics facility provider

#### > Blogis portfolio

- 6 completed projects (620,000 sqm)
- 2 projects under construction (160,000 sqm)
- 4 land bank sites (370,000 sqm)

#### Augment our market leadership position

- Enhance GLP's market presence and amplify the "network effect" of our portfolio
- Increase economies of scale with potential to create synergies

#### > Strategic partnership

- Board participation to provide strategic inputs with opportunities for future collaboration
- Further enhance working relationship with Chinese government as state-owned enterprises are majority shareholders

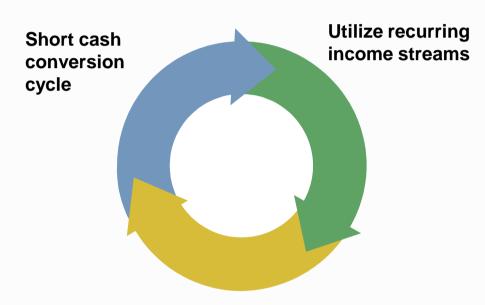

- Short cash conversion cycle enhances returns while limiting risk exposure
  - Logistic properties have short cash conversion cycle of 1.5 years from investment to achieving stabilized cash flows
  - Other sectors such as office and retail properties have much longer cash conversion cycles
- Utilize recurring income streams from completed properties to fund near-term growth
  - FY2011 net cash flow generated from operation amounted to US\$361m
- > Target rebalancing of GLP's portfolio with greater emphasis on China
  - Grow China portfolio
  - Explore monetization of Japanese asset

#### **Capital recycling model**

Rebalance GLP portfolio

## GLP: unique investment proposition

### Detailed notes to our portfolio summary table

#### **Notes**

- <sup>1</sup> For China, currency used is RMB and for Japan, currency used is JPY. As with the balance sheet exchange rates used in the preparation of the annual financials, an exchange rate of US\$1.0000 = RMB 6.5701 = JPY 82.8699 has been applied.
- <sup>2</sup> Includes our effective interest in non-wholly owned entities
- <sup>3</sup> "Properties under development or being repositioned" consists of five sub-categories of properties: (i) properties that we have commenced development, (ii) a logistics facility that is being converted from a bonded logistics facility to a non-bonded logistics facility, (iii) a logistics facility that is being converted from a non-bonded logistics facility to a bonded logistics facility, (iv) a light manufacturing facility comprising several buildings for which we are currently evaluating the feasibility of conversion of such buildings into a business park or research and development center, and (v) a light industrial and logistics facility which will be upgraded into a standard logistics facility.
- <sup>4</sup> "Land held for future development" refers to land which we have signed the land grant contract and/or we have land certificate, including non-core land and properties occupied by Air China and the Government or its related entities, that GLP doesn't wish to own and will sell.

### Impact caused by the earthquake in Japan

**The Great East Japan Earthquake**, with tsunami, has struck Eastern Japan on March 11, 2011. Out of 69 properties in Japan, 30 were affected with certain damage to buildings or their exteriors. However, as of April 30, 2011, all of them, except GLP Sendai, have already resumed operation.

<GLP Sendai after the earthquake>

To reflect the estimated damage caused by the earthquake, GLP and Appraiser have agreed to make adjustments as below for FMV computation:

a. Estimated property damage: JPY3.2bil

b. Potential rent loss: JPY0.8bil

Total adjustment (a+b): JPY4.0bil

(GLP Sendai alone is comprised of 42% of the total)

The earthquake impact (JPY4.0bil) is estimated less than 0.8% of total value (JPY512.1bil) in Japan. GLP is working on full restoration of these affected properties.
