DUANE READE PARTNERS WITH TOGETHER Rx ACCESS
Alliance Can Help Millions of Eligible Uninsured New Yorkers
Gain Access to Prescription Medicines

New York, NY and Alexandria, VA, April 23, 2007 – Duane Reade, the leading drug store chain in metropolitan New York, and Together Rx Access, a free prescription savings program, have partnered to help eligible New Yorkers without health insurance gain access to prescription medicines. With the Together Rx Access™ Card, most cardholders save 25 to 40 percent * on brand-name prescription products, including medicines to treat high cholesterol, diabetes, asthma and many other conditions.

Duane Reade pharmacists and pharmacy technicians are now providing customers with information about the free Together Rx Access prescription savings program. Materials include a free quick start savings card, which is a pre-printed removable card that can be detached from the front of a two-sided brochure. Potential enrollees can call the toll-free number listed to determine eligibility, enroll, and activate their card. The card is activated immediately if the eligible enrollee calls within call center business hours and within two business days at all other times. Cardholders can then simply bring the Card to their pharmacist along with their prescription and the savings will be calculated right at the pharmacy counter.

“The number of uninsured people in New York is staggering, especially considering that more than 340,000 are children. Through Duane Reade’s broad reach to the New York market, we believe that our partnership will help us reach many of these individuals to inform them of the prescription savings Card, which is free to get and free to use,” said Roba Whiteley, executive director of Together Rx Access. “Until there is a solution for the millions of hardworking New Yorkers without health coverage, we will continue to offer immediate help to these individuals and their families so they can take care of what is most important – their health.”

“As a member of the New York community, we are committed to providing the most reliable and relevant health information and services to our customers,” said Jerry Ray, senior vice president of Pharmacy Operations for Duane Reade. “This initiative underscores our commitment to better serving our customers. We are proud to join forces with Together Rx Access to further educate our customers about this program and help uninsured individuals and their families gain access to the medicines they need.”

More than 300 brand-name prescription products are included in the Together Rx Access Program[†]. Savings are also available on a range of generic products. Together Rx Access also directs individuals to the Partnership for Prescription Assistance (PPA), a clearinghouse for more than 475 public and private assistance programs, including 180 offered by pharmaceutical companies.

Since the Program’s introduction in January of 2005, nearly one million people have enrolled in Together Rx Access, a number that continues to grow by approximately 10,000 each week. To date, cardholders have saved more than \$40 million on prescription medications and products.
