

# Addressing global healthcare needs

A young adult suffering from HIV/AIDS...a laboratory specialist seeking a way to diagnose cervical cancer earlier...a medical director looking to eliminate the risk of potentially deadly staph infections...a biopharmaceutical company needing a reliable partner to support its entry into an innovative new class of biologic therapies. For BD, these disparate needs are equally important – and equally compelling. They are the drivers in our relentless search for solutions to some of today’s most pressing healthcare challenges.

At BD, everything we do starts with the healthcare needs of people from all walks of life, all around the world. Our response reflects a commitment to improve healthcare through innovations in technology and product development, excellence in manufacturing and operations, collaborations with organizations that share our values, and global customer service and support. Woven into the fabric of all that we do is the passion that BD associates bring to their work – a passion inspired by the knowledge that they can make a difference “*Helping all people live healthy lives.*”
